PARLIAMENTARY DEBATES

(HANSARD)

SIXTH SERIES—VOLUME 463 (Part 2)

HOUSE OF COMMONS

OFFICIAL REPORT

SECOND SESSION OF THE FIFTY-FOURTH PARLIAMENT
OF THE UNITED KINGDOM OF GREAT BRITAIN
AND NORTHERN IRELAND
FIFTY-SIXTH YEAR OF THE REIGN OF
HER MAJESTY QUEEN ELIZABETH II

SESSION 2006–2007

COMPRISING PERIOD
16 July 2007—1 October 2007

HER MAJESTY'S GOVERNMENT

MEMBERS OF THE CABINET

(Formed by the Rt. Hon. Gordon Brown, MP, June 2007)

Prime Minister, First Lord Of The Treasury And Minister For The Civil Service—The Rt. Hon. Gordon Brown, MP
Chancellor Of The Exchequer—The Rt. Hon. Alistair Darling, MP
Secretary of State for Foreign and Commonwealth Affairs—The Rt. Hon. David Miliband, MP
Secretary of State for Justice and Lord Chancellor—The Rt. Hon. Jack Straw, MP
Secretary of State for the Home Department—The Rt. Hon. Jacqui Smith, MP
Secretary of State for Defence and Secretary of State for Scotland—The Rt. Hon. Des Browne, MP
Secretary of State for Health—The Rt. Hon. Alan Johnson, MP
Secretary of State for Environment, Food and Rural Affairs—The Rt. Hon. Hilary Benn, MP
Secretary of State for International Development—The Rt. Hon. Douglas Alexander, MP
Secretary of State for Business, Enterprise and Regulatory Reform—The Rt. Hon. John Hutton, MP
Leader of the House of Commons, Lord Privy Seal and Minister for Women—The Rt. Hon. Harriet Harman, QC, MP
Secretary of State for Work and Pensions and Secretary of State for Wales—The Rt. Hon. Peter Hain, MP
Secretary of State for Transport—The Rt. Hon. Ruth Kelly, MP
Secretary of State for Communities and Local Government—The Rt. Hon. Hazel Blears, MP
Parliamentary Secretary to the Treasury—The Rt. Hon. Geoffrey Hoon, MP
Secretary of State for Children, Schools and Families—The Rt. Hon. Ed Balls, MP
Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster—The Rt. Hon. Edward Miliband, MP
Secretary of State for Culture, Media and Sport—The Rt. Hon. James Purnell, MP
Secretary of State for Northern Ireland—The Rt. Hon. Shaun Woodward, MP
Leader of the House of Lords and Lord President of the Council—The Rt. Hon. The Baroness Ashton of Upholland
Chief Secretary to the Treasury—The Rt. Hon. Andy Burnham, MP
Secretary of State for Innovation, Universities and Skills—The Rt. Hon. John Denham, MP
Captain of the Honourable Corps of Gentleman-at-Arms—The Rt. Hon. The Lord Grocott

DEPARTMENTS OF STATE AND MINISTERS

Business, Enterprise and Regulatory Reform—

Secretary of State—The Rt. Hon. John Hutton, MP

Ministers of State—
Minister for Competitiveness—The Rt. Hon. Stephen Timms, Esq, MP
Minister for Trade Promotion and Investment—The Lord Jones of Birmingham
Minister for Employment Relations and Postal Affairs—Pat McFadden, Esq, MP
Minister for Energy—Malcolm Wicks, MP
Minister for Business and Regulatory Reform—The Lord Drayson

Parliamentary Under-Secretary of State—
Gareth Thomas, Esq, MP

Cabinet Office—

Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster—The Rt. Hon. Edward Miliband, MP

Minister of State—
Minister for the Olympics and London (Paymaster General)—The Rt. Hon. Tessa Jowell, MP*

Parliamentary Secretaries—
Phil Hope, MP
Gillian Merron, MP (Minister for the East Midlands)*

Children, Schools and Families—

Secretary of State— The Rt. Hon. Ed Balls, MP

Ministers of State—
Minister for Schools and Learners—Jim Knight, MP
Minister for Children, Young People and Families (Minister for the North West)—The Rt. Hon. Beverley Hughes, MP*

Parliamentary Under-Secretaries of State—
Kevin Brennan, MP
The Lord Adonis

Communities and Local Government—

Secretary of State—The Rt. Hon. Hazel Blears, MP

Ministers of State—
Minister for Housing—Yvette Cooper, MP
Minister for Local Government—John Healey, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Baroness Andrews, OBE
Parmjit Dhanda, Esq, MP
Iain Wright, Esq, MP

Culture, Media and Sport—

SECRETARY OF STATE—The Rt. Hon. James Purnell, MP

MINISTER OF STATE—
The Rt. Hon. Margaret Hodge, MP, MBE

PARLIAMENTARY UNDER-SECRETARY OF STATE—
Gerry Sutcliffe, Esq, MP

Defence—

SECRETARY OF STATE—The Rt. Hon. Des Browne, MP

MINISTERS OF STATE—
Minister for the Armed Forces—The Rt. Hon. Bob Ainsworth, MP
Minister for Defence Equipment and Support—The Lord Drayson

PARLIAMENTARY UNDER-SECRETARY OF STATE—
Derek Twigg, MP

Environment, Food and Rural Affairs—

SECRETARY OF STATE—The Rt. Hon. Hilary Benn, MP

MINISTERS OF STATE—
Minister for Sustainable Food and Farming and Animal Health—The Rt. Hon. The Lord Rooker
Minister for the Environment—Phil Woolas, Esq, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Joan Ruddock, MP
Jonathan Shaw, MP (Minister for the South East)*

Foreign and Commonwealth Affairs—

SECRETARY OF STATE—The Rt. Hon. David Miliband, MP

MINISTERS OF STATE—
Minister for Europe—Jim Murphy, Esq, MP
Minister for the Middle East—Dr. Kim Howells, MP
The Rt. Hon. The Lord Malloch-Brown, KCMG
The Lord Jones of Birmingham

PARLIAMENTARY UNDER-SECRETARY OF STATE—
Meg Munn, MP

Health—

SECRETARY OF STATE—The Rt. Hon. Alan Johnson, MP

MINISTERS OF STATE—
The Rt. Hon. Dawn Primarolo, MP
Ben Bradshaw, Esq, MP (Minister for the South West)*

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Darzi of Denham, KBE
Ann Keen, MP
Ivan Lewis, Esq, MP

Home Office—

SECRETARY OF STATE—The Rt. Hon. Jacqui Smith, MP

MINISTERS OF STATE—
Tony McNulty, Esq, MP
Liam Byrne, Esq, MP (Minister for the West Midlands)*

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Vernon Coaker, Esq, MP
Admiral The Lord West of Spithead, GCB DSC
Meg Hillier, MP

Innovation, Universities and Skills—

SECRETARY OF STATE—The Rt. Hon. John Denham, MP

MINISTERS OF STATE—
Minister for Lifelong Learning, Further and Higher Education—Bill Rammell, MP
Minister for Science and Innovation—Ian Pearson, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
David Lammy, Esq, MP
The Lord Triesman

International Development—

SECRETARY OF STATE—The Rt. Hon. Douglas Alexander, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Gareth Thomas, Esq, MP
The Baroness Vadera
Shahid Malik, Esq, MP

Justice—

SECRETARY OF STATE—The Rt. Hon. Jack Straw, MP

MINISTERS OF STATE—
The Rt. Hon. David Hanson, Esq, MP
Michael Wills, Esq, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
The Lord Hunt of Kings Heath, OBE
Bridget Prentice, MP
Maria Eagle, MP

Law Officers' Department—

ATTORNEY-GENERAL—The Rt. Hon. The Baroness Scotland of Asthal, QC

SOLICITOR-GENERAL—Vera Baird, QC, MP

ADVOCATE-GENERAL FOR SCOTLAND—The Lord Davidson of Glen Cova, QC

Leader of the House of Commons—

LEADER OF THE HOUSE OF COMMONS, LORD PRIVY SEAL AND MINISTER FOR WOMEN—The Rt. Hon. Harriet Harman, QC, MP

PARLIAMENTARY SECRETARY—Helen Goodman, MP

Northern Ireland—

SECRET[illegible]F STATE—The Rt. Hon. Shaun Woodward, MP

MINIS[illegible]R OF STATE—
Paul Goggins, MP

Privy Council Office—

LORD PRESIDENT OF THE COUNCIL AND LEADER OF THE HOUSE OF LORDS—The Rt. Hon. The Baroness Ashton of Upholland

Scotland Office—

SECRETARY OF STATE—The Rt. Hon. Des Browne, MP

MINISTER OF STATE—
David Cairns, MP

Transport—

SECRETARY OF STATE—The Rt. Hon. Ruth Kelly, MP

MINISTER OF STATE—
The Rt. Hon. Rosie Winterton, MP

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Jim Fitzpatrick, MP
Tom Harris, Esq, MP

Treasury—

PRIME MINISTER, FIRST LORD OF THE TREASURY AND MINISTER FOR THE CIVIL SERVICE—The Rt. Hon. Gordon Brown, MP

CHANCELLOR OF THE EXCHEQUER—The Rt. Hon. Alistair Darling, MP

CHIEF SECRETARY—The Rt. Hon. Andy Burnham, MP

FINANCIAL SECRETARY—The Rt. Hon. Jane Kennedy, MP

EXCHEQUER SECRETARY—Angela Eagle, MP

ECONOMIC SECRETARY—Kitty Ussher, MP

PARLIAMENTARY SECRETARY—The Rt. Hon. Geoffrey Hoon, MP

LORDS COMMISSIONERS—
Frank Roy, Esq, MP
Steve McCabe, MP
Alan Campbell, Esq, MP
Dave Watts, Esq, MP
Claire Ward, MP

ASSISTANT WHIPS—
Siobhain McDonagh, MP
Michael Foster, Esq, MP
Tony Cunningham, MP
Alison Seabeck, MP
Ms Diana R. Johnson, MP
Mark Tami, MP
Sadiq Khan, Esq, MP
Bob Blizzard, Esq, MP
Tom Watson, Esq, MP

Wayne David, Esq, MP

Wales Office—

SECRETARY OF STATE—The Rt. Hon. Peter Hain, MP

PARLIAMENTARY UNDER-SECRETARY OF STATE—
Huw Irranca-Davies, MP

Work and Pensions—

SECRETARY OF STATE—The Rt. Hon. Peter Hain, MP

MINISTERS OF STATE—
Minister for Pensions Reform—Mike O'Brien, Esq, MP
Minister for Employment and Welfare Reform (Minister for Yorkshire and the Humber)—Caroline Flint, MP*

PARLIAMENTARY UNDER-SECRETARIES OF STATE—
Anne McGuire, MP
James Plaskitt, Esq, MP
The Lord McKenzie of Luton
Barbara Follett, MP (Minister for the East of England and Minister for Women)*

Her Majesty's Household—

LORD CHAMBERLAIN—The Rt. Hon. The Earl Peel, GCVO, DL

LORD STEWARD—The Duke of Abercorn, KG

MASTER OF THE HORSE—The Lord Vestey

TREASURER—The Rt. Hon. Nicholas Brown, MP (Minister for the North East of England)*

COMPTROLLER—The Rt. Hon. Thomas McAvoy, MP

VICE-CHAMBERLAIN—Liz Blackman, MP

CAPTAIN OF THE HONOURABLE CORPS OF GENTLEMAN-AT-ARMS—The Rt. Hon. The Lord Grocott

CAPTAIN OF THE QUEEN'S BODYGUARD OF THE YEOMAN OF THE GUARD—The Rt. Hon. The Lord Davies of Oldham

LORDS IN WAITING—The Lord Bassam of Brighton, The Lord Evans of Temple Guiting, CBE, The Lord Truscott

BARONESSES IN WAITING—The Baroness Farrington of Ribbleton, The Baroness Crawley, The Baroness Royall of Blaisdon, The Baroness Morgan of Drefelin

**Regional Ministers. Full list:*

Ministers for the English Regions—

Ben Bradshaw, Esq, MP (Minister for the South West)
The Rt. Hon. Nicholas Brown, MP (Minister for the North East of England)
Liam Byrne, Esq, MP (Minister for the West Midlands)
Caroline Flint, MP (Minister for Yorkshire and the Humber)
Barbara Follett, MP (Minister for the East of England)
The Rt. Hon. Beverley Hughes, MP (Minister for the North West)
The Rt. Hon. Tessa Jowell, MP (Minister for the Olympics and London)
Gillian Merron, MP (Minister for the East Midlands)
Jonathan Shaw, MP (Minister for the South East)

SECOND CHURCH ESTATES COMMISSIONER, REPRESENTING CHURCH COMMISSIONERS—Sir Stuart Bell, MP

HOUSE OF COMMONS

THE SPEAKER—The Rt. Hon. Michael J. Martin, MP

CHAIRMAN OF WAYS AND MEANS—The Rt. Hon. Sir Alan Haselhurst, MP

FIRST DEPUTY CHAIRMAN OF WAYS AND MEANS—Mrs. Sylvia Heal, MP

SECOND DEPUTY CHAIRMAN OF WAYS AND MEANS—Sir Michael Lord, MP

CHAIRMEN'S PANEL

David Amess, Janet Anderson, Peter Atkinson, Hugh Bayley, Anne Begg, Joe Benton, John Bercow, Sir John Butterfill, Martin Caton, Christopher Chope, Derek Conway, Frank Cook, John Cummings, Janet Dean, Roger Gale, Mike Hancock, Jim Hood, Joan Humble, Eric Illsley, Martyn Jones, Dr. William McCrea, David Marshall, Eric Martlew, Edward O'Hara, Bill Olner, Greg Pope, David Taylor, Mike Weir, Hywel Williams, David Wilshire, Ann Winterton, Sir Nicholas Winterton

HOUSE OF COMMONS COMMISSION

The Rt. Hon. The Speaker (Chairman), Sir Stuart Bell, MP, The Rt. Hon. Harriet Harman, QC, MP, Nick Harvey, MP, The Rt. Hon. David Maclean, MP, The Rt. Hon. Mrs. Theresa May, MP

SECRETARY OF THE COMMISSION—Andrew Kennon

ASSISTANT SECRETARY—Jenny McCullough

ADMINISTRATION ESTIMATE AUDIT COMMITTEE

The Rt. Hon. Mrs. Theresa May, MP (Chairman), Nick Harvey, MP, Sir Thomas Legg, KCB, QC, David Taylor, FCA

SECRETARY OF THE AUDIT COMMITTEE—Tracey Garratty

BOARD OF MANAGEMENT

Malcolm Jack, PhD (Chief Executive), Helen Irwin (Clerk of Committees, Department of the Clerk of the House), Peter Grant Peterkin, CB, OBE (Serjeant at Arms), John Pullinger (Librarian), Andrew Walker (Director of Finance and Administration), Lorraine Sutherland (Editor of the Official Report), Sue Harrison (Director of Catering Services), Joan Miller (Director of Parliamentary ICT)

SECRETARY OF THE BOARD OF MANAGEMENT—Robert Twigger

SPEAKER'S SECRETARY—Angus Sinclair

SPEAKER'S COUNSEL—John Vaux

SPEAKER'S CHAPLAIN—Rev. Canon Robert Wright

MEDICAL ADVISER TO THE SPEAKER—Dr. Ron Zeegen, OBE, FRCP, MRCS, DObst, RCOG

PARLIAMENTARY COMMISSIONER FOR STANDARDS—Sir Philip Mawer

PARLIAMENTARY SECURITY CO-ORDINATOR—Peter Mason

Written Ministerial Statements

Monday 16 July 2007

TREASURY

Sub-National Economic Development and Regeneration

The Exchequer Secretary to the Treasury (Angela Eagle): In order to inform the second comprehensive spending review, an oral statement will be made to the House on Tuesday 17 July regarding the outcome of the policy review on sub-national economic development and regeneration, which has been led jointly by the Treasury, the Department for Communities and Local Government and the Department for Business, Enterprise and Regulatory Reform and their predecessor Departments.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

BNFL

The Secretary of State for Business, Enterprise and Regulatory Reform (Mr. John Hutton): Further to the Secretary of State for Trade and Industry's announcement on 24 October 2006, *Official Report* column 85WS, regarding the sale by British Nuclear Fuels Ltd. (BNFL) of British Nuclear Group (BNG) and establishment of a National Nuclear Laboratory, I would like to announce that BNFL has commenced the process to sell the group's one third stake in Atomic Weapons Establishment Management Ltd. (AWEML). AWEML is currently owned equally by BNFL, Serco and Lockheed Martin. In addition to seeking to maximise shareholder return through the sale process, the Government and BNFL will seek to ensure an AWEML consortium is in place to manage the enduring performance of AWEML's subsidiary, AWE plc. in continuing to meet the requirements of its customer, the Ministry of Defence.

I will update Parliament on the progress of the sale at a later date.

CULTURE, MEDIA AND SPORT

Casinos

The Secretary of State for Culture, Media and Sport (James Purnell): In response to a question from my hon. Friend the Member for Loughborough (Mr. Reed) on 11 July, the Prime Minister said that during the summer we would look at whether regeneration may be a better way of meeting economic and social needs than the creation of regional casinos. I know that there is a great deal of interest in this issue across both Houses and beyond, and I am making this statement to provide further detail to enable those directly involved to plan accordingly.

The Gambling Act 2005 provides for the licensing of one regional, eight large and eight small casinos. The Government's national policy statement on casinos published in December 2004 sought to accommodate the desire expressed by many local authorities to explore the potential economic and regenerative benefits of new casino developments within our overriding objective of keeping crime out of gambling, keeping it fair and protecting children and vulnerable people.

In October 2005, my right hon. Friend the Minister for the Olympics and London, the Member for Dulwich and West Norwood (Tessa Jowell), established the independent casino advisory panel to advise her on the authorities that should be given the power to issue the new casino licences. Some 68 local authorities applied to the panel, including 27 applications for the single regional casino. On 30 January, the panel recommended that Manchester should be permitted to issue the regional casino premises licence, and it recommended the 16 authorities that should be permitted to issue large and small casino licences.

Having carefully considered the independent panel's report, and following consultation with colleagues in the devolved administrations, on 28 March the Government brought before the House an order giving effect to the recommendations. That order was passed in the House of Commons by a majority of 24. It was, however, narrowly rejected by the House of Lords.

The Government have reflected on the debates in both Houses. There are a number of important conclusions to be drawn.

The first is that there was a clear consensus across all parties that the eight large and eight small casinos—the "sixteen"—should be awarded to the authorities identified by the casino advisory panel.

Since Parliament debated this issue, there have been local elections in many of the areas concerned. Some have experienced a change of political control, and in the remaining authorities some of the individual councillors involved in relevant decisions may have changed.

Our reform of gambling policy has placed a great emphasis on the importance of local consultation and local accountability; we have given local people through their elected representatives a greater say in the licensing of gambling premises in their communities. This includes for the first time giving authorities the power to resolve not to license a new casino.

Against this backdrop, I have decided to write to the authorities concerned to ask them to confirm their continued desire to license a new casino. I am sure that both Houses will wish to take account of a renewed commitment from the areas concerned when the time comes to consider this matter again. If any of the authorities have had a change of heart, I will not include them in the new legislation. The Gambling Act requires only that up to eight authorities in each category are identified.

While there may have been broad agreement on the 16, it was equally clear that—as the Prime Minister made plain last week—there is no such consensus over the regional casino. While much of the debate focused on the merits of the casino advisory panel's recommendation of Manchester as compared to Blackpool, many Members on all sides of both Houses expressed serious doubts about whether we should have a regional casino at all. We have taken heed of those concerns.

The Gambling Act, which is due to come into force on 1 September this year, introduces one of the most rigorous regulatory regimes anywhere in the world. And it is why we enshrined at the heart of that legislation the three key objectives of keeping crime out of gambling, keeping it fair for the consumer and—our number one priority—protecting children and vulnerable people.

Later in the year, the Independent Gambling Commission will publish a new study into the prevalence of gambling. This will provide updated information about the rate of gambling and problem gambling in this country. The gambling industry is on notice that if, despite the very stringent safeguards we have introduced, the incidence of problem gambling increases, we have taken the powers to introduce even tougher protections. I have also decided that it is right to pause, to wait for the results of the prevalence study to be published in September, before reaching a decision on how best to respond to the decision of the House of Lords to defeat the casino areas order.

The Government's overriding priority has always been to minimise the potential for harm arising from such developments. At the same time, we have wanted to respond positively to the significant number of local authorities who have been keen to explore the potential of a regional casino to contribute to regeneration in their communities. That is why the new casino provisions were introduced in the first place. And it was the need for regeneration in East Manchester that was a significant factor in that city's success in its application to the casino advisory panel.

In view of the very real concern surrounding the regional casino, it would be prudent to examine afresh whether deprived areas can be equally well served by other forms of regeneration. The Government are taking forward this issue.

In the meantime, we are proceeding with the urgent task of completing the implementation of the Gambling Act. Protecting children and consumers is our number one priority. I will ensure that our new system of regulation, as it covers every aspect of casinos and other gambling premises—from advertising to checks on entry to controls on games and machines—will place public protection first.

DEFENCE

DMETA Key Targets

The Parliamentary Under-Secretary of State for Defence (Derek Twigg): The following key targets have been set for the chief executive of the Defence Medical Education and Training Agency (DMETA) for the financial year 2007-08:

KEY TARGET 1

Deployable Personnel

To meet 100 per cent. of the commanders in chief requirements for secondary care personnel under DMETA command for operational deployments.

KEY TARGET 2

Individual Military Continuation Training

To ensure that 90 per cent. of all DMETA personnel, whose medical category permits, achieve their service's annual mandatory individual military training.

KEY TARGET 3

Medical Professional and Career Training

To provide initial training (phase 2) that meets the requirements, professional standards and timescales defined by the single services.

To provide career, professional and continuation training (phase 3) that meets the requirements, professional standards and timescales defined by the single services, and the statutory requirements of the relevant national bodies.

KEY TARGET 4

Efficiency

To reduce the ratio of personnel engaged in support activities compared with direct activities.

KEY TARGET 5

Customer Focus

To maintain the customer confidence index score within a stated range.

KEY TARGET 6

Harmony/Separated Service

To ensure compliance with the single services' harmony guidelines for all deployable personnel under DMETA's command.

UK Gulf Veterans' Mortality Data

The Parliamentary Under-Secretary of State for Defence (Derek Twigg): As part of the Government's continuing commitment to investigate Gulf veterans' illnesses openly and honestly, data on the mortality of veterans of the 1990-91 Gulf conflict are published regularly. The most recent figures for the period 1 April 1991 to 30 June 2007, were published on Friday 13 July 2007 as a national statistic on the Defence Analytical Services Agency website; copies were also placed in the Library of the House.

The data for Gulf veterans are compared to that of a control group known as the "Era cohort" consisting of armed forces personnel of a similar profile in terms of age, gender, service, regular/reservists status and rank, who were in service on 1 January 1991 but were not deployed to the Gulf. As in the previous release, the "Era" group has been adjusted for a small difference in the age-profile of those aged 40 years and over, to ensure appropriate comparisons.

Key points to note in the data are:

There have been 845 deaths among the Gulf veterans and 864 in the age-adjusted Era comparison group.

The 845 deaths among Gulf veterans compare with approximately 1,393 deaths which would have been expected in a similar sized cohort taken from the general population of the UK with the same age and gender profile. This reflects the strong emphasis on fitness when recruiting and retaining service personnel.

These statistics continue to confirm that UK veterans of the 1990-91 Gulf Conflict do not suffer an excess of overall mortality compared with service personnel that did not deploy.

The full notice can be viewed at http://www.dasa.mod.uk

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Review of the Royal Commission on Environment Pollution

The Minister for the Environment (Mr. Phil Woolas): On 27 November 2006, *Official Report*, column 80WS, my hon. Friend, the Minister for Science and Innovation, the Member for Dudley, South (Ian Pearson) announced the start of a review of the Royal Commission on Environmental Pollution (RCEP). Today, I am publishing the report of this review.

The review was part of a Government recommendation that public bodies are subjected to periodic study to ensure that they are still delivering high quality services and are adequately resourced. It was carried out by independent consultants, on behalf of DEFRA, who gathered evidence from individuals and organisations with an interest in the work of the RCEP.

The report focused on the quality and impact of RCEP studies, its working methods, management and level of resources. It concluded that there is a continuing need for the functions of the RCEP and put forward a number of options for its modernisation.

The report does not constitute our policy position. DEFRA will now examine the options proposed in the report in more detail and explore their financial and organisational implications. DEFRA will consult with other Government Departments, the devolved Administrations and the RCEP to formulate a Government response later in the year.

Copies of the full report will be deposited in the Libraries of both Houses. A copy can also be accessed on the DEFRA website.

HEALTH

Health Select Committee Report on Audiology Services

The Parliamentary Under-Secretary of State for Health (Mr. Ivan Lewis): The Government have today laid before Parliament their response to the Health Select Committee report on Audiology Services (Cm 7140).

The Government are responding to the conclusions and recommendations raised by the Committee covering issues such as the waiting times challenge in audiology services; service delivery, patient pathways and good practice; the use of the independent sector; and capacity.

The Government's response is available in the Library.

JUSTICE

End of Custody Licence Implementation

The Minister of State, Ministry of Justice (Mr. David Hanson): On 19 June 2007, *Official Report*, House of Lords, column 96 my right hon. and noble Friend, the then Lord Chancellor, Lord Falconer of Thoroton, announced a new scheme—the End of Custody Licence (ECL)—which introduced a presumption in favour of release on licence for prisoners serving between four weeks and four years for the final 18 days of their sentence subject to meeting strict eligibility criteria and providing a release address. Prisoners who would normally be subject to supervision on release (prisoners serving 12 months or more or under 22 years of age) are required to meet their probation officer after release and to have regular contact after that in line with their supervision plan. All prisoners released on ECL are liable to recall if they are reported to have misbehaved during the period of the licence.

The first releases under this scheme took place on 29 June 2007.

Tables with the full set data for this report have been made available in the Libraries of both Houses, the Vote Office and Printed Paper Office. The tables are being published on the Ministry of Justice website today at:

http://www.justice.gov.uk/publications/endofcustodylicence.htm

The following information applies only to the releases and recalls in the first week of operation of the scheme. Future reports will be published on a monthly basis.

Between implementation of the ECL scheme on 29 June 2007 and 5 July 2007 there were 1,701 releases on ECL. Of these, 1,552 (91 per cent.) were males and 149 (9 per cent.) were females.

The greatest number of releases was for offenders serving sentences for theft and handling, with 404 (24 per cent. of all releases) coming from this offence group.

Some 1,412 (83 per cent.) of releases were from sentences of less than 12 months, with the remaining 289 (17 per cent.) from sentences of 12 months to less than four years.

The number of releases on to ECL each day is shown in the table:

Date	*Number of Releases*
Friday 29 June 2007	884
Monday 2 July 2007	506
Tuesday 3 July 2007	124
Wednesday 4 July 2007	87
Thursday 5 July 2007	100

There were 30 notified decisions to recall between 29 June and 5 July. The most common reason for recall was the offender being out of touch with their supervising probation officer, with 11 (37 per cent.) of recalls being for this reason.

Any prisoners falling into the following categories are excluded from release on ECL:

Registered sex offenders, whether or not they are currently serving a sentence for a sexual offence.

Prisoners serving sentences for serious violence as specified in Prison Service Instruction 27/2007.

Prisoners who have previously escaped from custody.

Prisoners who have previously breached temporary release conditions during the current sentence, have offended during a period under temporary release at any time, or prisoners currently serving a sentence for failing to return from temporary release.

Prisoners who report that they do not have a release address.

Foreign national prisoners who will be subject to deportation at the end of their sentence.

Prisoners who are subject to extradition proceedings.

Sentenced prisoners who have been remanded into custody on further charges or who are awaiting sentence.

Prisoners who, within the period of their current sentence, had been recalled either from HDC or from normal licence.

Prisoners under the age of 18.

Prisoners serving DTO sentences.

Prisoners required to undertake a treatment programme as a condition of the normal (end of sentence) supervision licence that could not be arranged during the period of ECL.

The data presented in this statement are drawn from the prison administrative IT systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large-scale recording system. While the figures shown have been checked as far as practicable, they should be regarded as approximate and not necessarily accurate to the last whole number.

PRIME MINISTER

Chief Surveillance Commissioner

The Prime Minister (Mr. Gordon Brown): Further to the written statement made by my predecessor, the right hon. Tony Blair, on the Chief Surveillance Commissioner's annual report, 14 July 2006, *Official Report*, column 91WS, I have today laid before both Houses the annual report for 2006-07 by the Chief Surveillance Commissioner, the right hon. Sir Christopher Rose. I am grateful to the Commissioner, and his office, for this report and the work that has gone into preparing it.

WORK AND PENSIONS

Financial Assistance Scheme

The Minister for Pensions Reform (Mr. Mike O'Brien): On 23 April, the Government launched a review to examine whether an alternative treatment of the residual funds in affected pension schemes could supplement the committed Government funding of the Financial Assistance Scheme.

Andrew Young of the Government Actuary's Department is leading the review. It is being advised by a panel of leading external experts who provide support across a wide range of specialist and technical areas.

I am pleased to advise the House that Andrew Young today published the review's interim report. A copy is in the House Library. In this interim report the review team concentrate on identifying:

the value of assets in FAS schemes, their ownership and stewardship;

potential uses of these assets and whether there are options to increase value;

other non-tax sources of funding; and

the key issues related to solvent employers.

The report will be available on the Department's internet site later today. The review team would welcome comments on any aspect of this report. They plan to consult key stakeholders further over the summer and will be delivering a final report by the end of 2007.

Written Ministerial Statements

Tuesday 17 July 2007

CHILDREN, SCHOOLS AND FAMILIES

Flood Damage to Schools and Children's Services

The Secretary of State for Children, Schools and Families (Ed Balls): The recent flooding has brought widespread damage to large areas of central and northern England.

The Government are very grateful to the committed staff in schools, early years and childcare settings and local authorities who have worked so hard to contain and reduce the effect of the floodwaters, to get many schools and early years settings back in use, and to provide places in temporary or alternative accommodation where necessary.

In the flood-hit regions, numbers of schools which lost teaching days included 91 in Kingston-upon-Hull, 72 in East Riding, 72 in Doncaster, 66 in Sheffield, 27 in Lincolnshire, six in Nottinghamshire, four in Derbyshire and two in Rotherham. Only eight of Kingston-upon-Hull's 99 school sites were unaffected:—65 primary schools, 13 secondary schools, 10 special units and three nurseries were all temporarily closed. Nine sites were still closed last week. The local authority has found temporary premises for the children affected. Kingston-upon-Hull calculates that the flooding resulted in losing 107,000 pupil-days, but prompt action by the schools and council avoided losing-up to 90,000 more. In Doncaster, six schools were damaged and closed at some point—but only one is still closed. In the East Midlands, five schools have all their pupils in temporary premises.

Our main aim is to help as many of these schools and early years settings as possible to re-open at permanent premises by the start of the September-term; and, where that is not possible, to help ensure satisfactory alternative arrangements so that no child suffers educationally because of flood damage. There is still an immense amount of hard work to do. The immediate dangers are over, but every child and young person and their parents will rightly expect no let-up in efforts to get back to normal as quickly as possible.

To that end, my Department is working closely with the regional government offices and local authorities, to:

- assess fully the extent of the damage to schools and early years and childcare provision (including children's centres)—both buildings and equipment;
- assess the impact the floods have had on children and young people's ability to learn and make the progress we expect (this includes any impact on examinations or course-work);
- take decisions on how best to get children back into proper permanent educational accommodation.

Already the Government have allocated £14 million and have widened the rules on Bellwin funds to deal with flood damage. In addition my Department will make available an initial sum of £10 million for flood-affected schools and children's services. My officials, with colleagues from Government offices, will hold detailed discussions on an area-by-area/case-by-case basis to determine how best to provide both interim and long-term solutions. As part of these discussions, we will:

- determine how best we can use and, if necessary, re-phase the significant capital investment planned over the next five years to address the needs of the schools most affected;
- decide what additional educational support we can give schools and other providers to help maintain standards while there is disruption;

and look to fund, in particular:

- extra surveyors—to be arranged through existing Departmental call-off contracts—to help authorities accurately assess damage; and more quickly reach a clear picture on the cost of repairs;
- temporary accommodation for those settings which will still be in such accommodation in September;
- additional summer activities for young people who cannot yet return to their homes, and are living in caravans or other temporary housing;
- family support workers to help with longer-term pressures on family life for families who have been seriously affected by the floodwaters.

In addition, I have already written to:

- exam boards, asking them to ensure that, where exams were disrupted, cases seeking special consideration are dealt with promptly and with due consideration; and
- Ofsted, asking for inspections to take proper account of the disruption and loss of school days and records caused by the floods.

The Minister for Schools and Learners (Jim Knight) is working closely with the Minister for Children, Young People and Families (Beverley Hughes) to oversee implementation of the above programme of DCSF work on flood recovery. These Ministers are seeing daily progress reports from Departmental officials. DCSF is playing its part in the flood-recovery inter-ministerial group chaired by the Minister for Local Government (John Healey).

"Staying Safe"

The Parliamentary Under-Secretary of State for Children, Schools and Families (Kevin Brennan): I am today giving Parliament advance notice of a major consultation on children and young people's safety. Keeping children and young people safe is a top priority and the responsibility of us all. The consultation document, "Staying Safe", seeks views from parents, children and young people, our partners and the children's workforce on the issues. I am today placing a copy of the document in the Libraries of both Houses.

"Staying Safe" has been developed working across Government and signals Government's strong collective commitment to the safety of children. It has four key objectives. These are to:

- raise awareness of the importance of safeguarding children and young people;
- promote better understanding of safeguarding issues, and start to change behaviour towards children and young people, and their safety and welfare;
- ensure that safeguarding activity is coherent and effectively co-ordinated across Government; and
- reinforce existing activity by proposing new actions to plug gaps or improve linkages.

The consultation will run until 31 October 2007 including a range of activities for all interested parties to explore this vital area of work, and respond to the questions and issues set out in the consultation document. After the consultation, Government will produce a response and decide on follow-up action.

We hope that by talking about these issues, and by proposing new work in some areas, we can do even more to improve the safety of children and young people.

COMMUNITIES AND LOCAL GOVERNMENT

Formula Grant Distribution

The Minister for Local Government (John Healey): I am today publishing a consultation document looking at proposals for reviewing the formulae used to distribute Formula Grant to local authorities. Formula Grant underpins the provision of a wide range of local services.

The Formula Grant Distribution System was last reviewed following the introduction of multi-year settlements. This first multi-year settlement round covering 2006-07 and 2007-08 is now coming to an end, and we have taken the opportunity to consider updating and modifying some of the formulae to be used in the distribution system for the proposed three-year settlement covering 2008-09, 2009-10 and 2010-11.

Following the last review of grant distribution formulae, the Government have been working with local government and other interested parties to explore possible ways of updating the formulae where necessary, and fine-tuning some of the elements of the distribution mechanisms.

Over the last five months the official level Settlement Working Group, consisting of representatives from all types of local authority in England along with interested parties from central Government, has considered some 53 technical papers and reports looking at options for changes to the distribution formulae. A separate technical group has examined the formulae for the police.

Following the work of this Settlement Working Group, the Government are now publishing this consultation on options for updating the formula grant distribution system. I have placed copies of in the Library of the House and in the Vote Office. The consultation document is also available today on the Communities and Local Government website at:

http://www.local.communities.gov.uk/finance/0809/grant/sumcons/

We look forward to receiving views on our proposals. The consultation period will close on 10 October 2007 and the Government will then decide on the formula grant distribution system for the next three years.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture and Fisheries Council

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): I will be representing the United Kingdom at this month's Agriculture and Fisheries Council in Brussels.

This being the first Council of the Portuguese presidency, the first item on the agenda will be the presentation of the presidency work programme by the new chairman of the Council. This presentation will lay out the agriculture and fisheries objectives of the Portuguese presidency.

The Council will vote on a proposed Council decision whether to authorise the marketing of a potato product (*Solanum tuberosum* L. line EH92-527-1) genetically modified for enhanced content of the amylopectin component of starch.

The Agriculture Commissioner will present a proposal for a fundamental reform of the EU wine regime to improve the sustainability of the sector. Following the presentation, the Council will hold its first exchange of views on the proposal.

The Council will hold a policy debate on a proposal establishing a temporary scheme for the restructuring of the sugar industry in the Community to provide a sustainable future for the EU sugar sector.

The Council will hold a policy debate on a proposal on the financing of the common agricultural policy.

The Council is expected to adopt conclusions on a Commission proposal banning the use of methomyl in plant protection products.

A number of issues, as follows, will be raised under any other business:

The Agriculture Commissioner will give an update on the WTO agricultural negotiations.

The Health and Consumer Protection Commissioner will update the Council on developments with regard to avian influenza H5N1.

Sweden will request that the Commission draws attention to a report of the Council of the Baltic sea states on the need to reduce nutrient leakage into the Baltic sea.

The Netherlands will call upon the Commission to introduce legal measures against illegal logging and related trade in relation to the EU action plan for Forest Law Enforcement, Governance and Trade (FLEGT).

Air Quality Strategy

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Jonathan Shaw): The Air Quality Strategy will be laid before Parliament and published today.

Government are committed to delivering cleaner air to protect people's health and the environment. Protecting and improving air quality is a key objective for DEFRA and the devolved Administrations.

Our national Air Quality Strategy, last published in 2000 with an Addendum in 2003, contained policies for improving air quality and set standards and objectives for the main pollutants of concern to be met between 2003 and 2010 and beyond.

The quality of our air in the United Kingdom has improved considerably over the last few decades, and much has been achieved through implementation of tighter controls over emissions of harmful pollutants from industry, transport and domestic sectors. These measures have helped to reduce by many thousands the numbers of people dying prematurely and being admitted to hospital as a result of air pollution. We are now meeting the strategy's objectives for four of the

pollutants throughout the UK and meeting all the strategy's objectives in most parts of the country, although not at some hotspot problem areas, such as along some busy roads and in some cities.

But air pollution still has a significant impact and is estimated to reduce the life expectancy of every person in the UK by an average of seven to eight months, with estimated annual health costs of up to £20 billion. It can also seriously damage our ecosystems.

Over the last year or so an extensive review of the strategy was undertaken to examine what more might be done. This review has involved one of the most comprehensive environmental analyses ever carried out by the Government. stakeholders were closely involved at each stage of the review, both in forming and responding to the official consultation process last year.

The new Air Quality Strategy, which I am publishing today in partnership with the devolved Administrations, draws conclusions from the consultation. It sets out a way forward for work and planning on air quality issues, sets out details of the objectives to be achieved and introduces a new policy framework for tackling fine particles, similar to the approach being proposed in the new European air quality directive, which is currently under negotiation. The strategy also identifies new measures which modelling shows could help achieve significant health benefits and help us move closer towards meeting our targets. These measures have been subject to a thorough analysis of the estimated reductions in air pollution, and quantification and valuation of costs and benefits.

The strategy's policies have been considered for their impact on climate change, and there are many co-benefits that can be achieved. Over the longer-term, policies to address both climate change and air pollution emissions together can potentially deliver further significant improvements air quality and public health.

The strategy recognises the important role for industry, transport and local authorities in helping to deliver air quality improvements. It also follows the better regulation agenda for adopting the most effective ways of delivering outcomes without placing unnecessary costs on those who are regulated.

We will now start the process for detailed consideration of the potential new measures to develop them further and co-ordinate and align with other policy measures yet to be implemented. Each new measure will be subject to the full policy scrutiny process and formal impact assessment. I will continue to keep the House informed about these and other air quality developments.

HOME DEPARTMENT

Protective Services Demonstration Sites

The Minister of State, Home Department (Mr. Tony McNulty): I am today announcing that 30 police forces across England and Wales will be taking part in a new programme aimed at establishing new collaborative arrangements for combating serious organised crime and other threats to public safety (also known as protective services).

The Home Office will support 10 separate initiatives by police forces and authorities to become demonstrator sites for joint working solutions to deliver greater capability and capacity in a range of protective services.

The initiatives that will be supported are:

Police Forces and Authorities	*Initiative*
Avon & Somerset/Devon & Cornwall / Dorset / Wiltshire / Gloucestershire	*South West Region Shared Services Programme* delivering operational and back office services through collaboration.
Cheshire / Cumbria / Lancashire / Merseyside / North Wales	*North West Regional Cross-Border Crime Team* establishing a joint team tackling serious organised crime
Cleveland / Durham	*Police Firearms Resources* developing a joint firearms unit.
Derbyshire / Leicestershire / Lincolnshire / Northamptonshire / Nottinghamshire	*Witness Protection* establishing a dedicated joint Witness Protection team including the refinement of policies, procedures and best practice.
Dyfed-Powys / Gwent / North Wales / South Wales	*Public Protection* improving the delivery across the region of public protection (child protection, sex offender and serious offender management, domestic violence, vulnerable adult abuse and missing persons).
Dyfed-Powys / Gwent / North Wales / South Wales	*Major Crime and Serious Organised and Cross-Border Crime* exploring collaborative approaches to delivering these services across the forces in Wales.
Essex / Kent	*Project Forefront* developing and implementing a co-ordinated and integrated strategic command capability, improving operational delivery of policing services to the Thames estuary, sea ports, air ports and the strategic roads network
Hertfordshire / Bedfordshire	*Major Crime Collaboration* establishing a co-located major crime capability.
Humberside / North Yorkshire / South Yorkshire / West Yorkshire	*Regional Undercover Unit / Human Resources Policies* creating a unit to provide a policy lead, training and support infrastructure to undercover officers and exploring the potential for integrating employment frameworks, terms and conditions and human resources policies.
Surrey / Sussex	*Joining Forces Programme* drawing together protective services into an integrated specialist operations command covering both force areas.

These initiatives have been selected from 22 bids to provide a balanced programme across England and Wales to explore and develop the models of collaboration between forces that can deliver these vital services to protect the public more effectively and more efficiently.

Collaborative working is a key part of a national programme of work the Government are taking forward, in consultation with the Association of Chief Police Officers and the Association of Police Authorities

to improve the way the police combat serious organised crime and other threats to public safety. All police forces will be expected to meet newly developed protective service standards. Forces will need to collaborate to do this and the demonstration sites initiative will help ensure that all forces can learn from the experiences of these sites and make use of their best practice.

The selected demonstrator sites will together be offered £3.7 million in Home Office funding to contribute to their start-up costs and they will take part in an evaluation process to be managed by the National Policing Improvement Agency which will monitor and measure their progress and delivery of benefits and develop a shared body of knowledge for the police service.

Automatic Number Plate Recognition

The Minister of State, Home Department (Mr. Tony McNulty): I would like to inform the House that my right hon. Friend the Home Secretary has signed a certificate to exempt Transport for London (TfL) and the Metropolitan Police Service (MPS) from certain provisions of the Data Protection Act 1998 to facilitate the bulk transfer of Automatic Number Plate Recognition (ANPR) data from TfL to the MPS. The Commissioner of the Metropolitan Police believes that it is necessary due to the enduring, vehicle-borne terrorist threat to London. The MPS requires bulk ANPR data from TfL's camera network in London specifically for terrorism intelligence purposes and to prevent and investigate such offences. The infrastructure will allow the realtime flow of data between TfL and the MPS.

As one of the conditions of this certificate, the MPS will provide an annual report to the Information Commissioner so that he can satisfy himself that the personal data processed under the certificate are required for the purposes of safeguarding national security, and that any processing that is undertaken other than under an exemption set out in the certificate is carried out in compliance with the Data Protection Act 1998.

My right hon. Friend the Home Secretary will review the operation of the certificate in three months' time when the Commissioner of the Metropolitan Police provides her with a separate, interim report so that she can be personally satisfied that the certificate is being operated in accordance with the agreement and that the privacy of individuals is protected. In the coming months, proposals will be developed and discussed across Government to ensure that bulk ANPR data-sharing with the police is subject to a robust regulatory regime which ensures reasonable transparency and scrutiny.

INTERNATIONAL DEVELOPMENT

Palestinian Authority (UK Contribution)

The Secretary of State for International Development (Mr. Douglas Alexander): I wish to inform the House that the UK intends to make a contribution of £3 million to the Palestinian Authority (PA). This will go towards paying private sector arrears of around £225 million accrued by the PA. Combined with a £3 million contribution to the Temporary International Mechanism (TIM) in May, a £1 million contribution to the work of the International Committee of the Red Cross and a £15.6 million payment to the UN Relief and Works Agency in April, this brings the UK's total bilateral spend this financial year to £22.6 million.

The last year has seen a deterioration of the chronic economic decline in the Occupied Palestinian Territories. Israel has withheld clearance revenues owed to the PA, leading to the PA having to reduce or stop entirely the payment of civil servant salaries. At the same time, the PA has run up significant debts with private sector suppliers. This has in turn reduced investment, thereby further shrinking the productive capacity of the economy.

Israel has now agreed to transfer the customs revenue, allowing the Government to pay salaries again. However, the large backlog of public debt remains unpaid. The Prime Minister, Salaam Fayyad, has requested international support to address this. Direct international assistance through the Palestinian Authority's Central Treasury Account will boost the economy and make clear international approval for Fayyad's Government. It will also increase Palestinian companies' ability to continue trading, and so invest and employ more people.

In the last year, DFID has provided £15 million out of a total of £265 million committed through the TIM. This has successfully stemmed the economic decline in the Occupied Palestinian Territories from a projected 27 per cent. to around 10 per cent. The Quartet recently extended the TIM until the end of September. It has already been aligned with the Ministry of Finance to enable full salaries to be paid to public sector workers. Following the creation of the Emergency Government in June, DFID can now resume direct financial assistance.

The UK is working with President Abbas and Prime Minister Fayyad as they seek to make the Palestinian Authority more responsive to the urgent needs of all Palestinians. But ultimately the only way to guarantee the long-term welfare of the people is for all sides to give up violence and work towards a two-state solution.

JUSTICE

Prison Service (Annual Reports)

The Minister of State, Ministry of Justice (Mr. David Hanson): The annual report of Her Majesty's Prison Service for 2006-07 (HC 717) has today been laid before Parliament. The National Probation Service annual report has also been published today. Copies have been made available in the Libraries of both Houses, the Vote Office and the Printed Paper Office. The regional offender managers have, today, published their statement of performance on the NOMS website at: www.noms.justice.gov.uk. Copies have also been made available in the Libraries of both Houses, the Vote Office and the Printed Paper Office.

The Prison Service report includes the financial accounts for 2006-07. The financial accounts for the National Probation Service will be published later in the year.

Performance against all the national offender management targets for 2006-07 is shown in the table:

Performance against the National Offender Management Targets for 2006-07

Protecting the Public	*Annual Performance*	*Annual Target*
No escapes of Category A prisoners	0	0
The rate of escapes from prison and prison service escorts is below 0.05% of the average prison population		0.05%
Public Prison	0.01%	
Contracted Prison	0.001%	
Fewer than 1 in 20,000 escapes from prison and prison service escorts	1:53,847	1:20,000
90% of risk of harm assessments, full analyses and Offender Assessment System (OASys) sentence plans, including risk management plans, completed within five working days of the commencement of order or release into the community	94%	90%
90% of risk of harm screenings/full analyses (as appropriate) and OASys sentence plans completed on Prolific and other Priority Offenders (PPOs) within five working days of the commencement of the order or release into the community.	95%	90%
Supporting the Courts		
90% of PSRs completed within required timelines	80%	90%
At least 85% of prisoners from prison or police cells are delivered to court before the agreed time	86%	85%
Firm and Fair Punishment		
To initiate breach proceedings in accordance with national standards within 10 days in 90% of cases	92%	90%
85% of arranged appointments attended by the offender in the first 26 weeks of the order or licence	83%	85%
Ensure that the rate of self-inflicted deaths does not exceed 112.8 per 100,000 prison population		
Public Prison	96.3 per 100,000	112.8 per 100,000
Contracted Prison	40.6 per 100,000	
Reduce the number of serious assaults compared to the 05/06 outturn (this is an annualised rate)		
Public prisons	1.66%	1.53%
Contracted prisons	3.6%	3.3%

Performance against the National Offender Management Targets for 2006-07

Protecting the Public	*Annual Performance*	*Annual Target*
To limit overcrowding so that the number of prisoners held in accommodation units intended for fewer prisoners does not exceed:		
Public prisons	24.1%	24.0%
Contracted prisons	32.8%	34.5%
Helping to cut crime		
Accredited Programmes Completed for All Prisons and Probation (including SOTP & DV)[1]	32,760	24,630
Public prisons	7,921	6,720
Contracted prisons	601	409
Probation: Accredited Programmes Completed	19,875	17,500
Probation: Domestic violence programmes	1,825	1,200
Sex offender treatment programmes (Prison and Probation)	2,525	2,400
Public prisons	1,160	1,160
Contracted prisons	64	80
Probation: Sex Offender Treatment Programmes	1,301	1,200
Prisoners have accommodation to go to on release from prison		
Public prisons	65,733	70,000
Contracted prisons	6,098	
Prisoners have employment, training or education on release		
Public prisons	36,501	35,870
Contracted prisons	3,853	
Offenders (in the community) are placed into employment	19,926	15,000
DTTO/Drug Rehabilitation Requirements completions	5,939	5,000
Completions of prison drug rehabilitation programmes		
Public prisons	7,675	6,500
Contracted prisons	674	
Reduce the number of those testing positive in random mandatory drug tests as a percentage of the prison population compared with 2005-06 outturn[2]		10.3%
Public prisons	8.6%	
Contracted prisons	9.6%	
Referrals to LSC in the community	60,418	48,000
Contracted and Wales Learning and Skills Awards delivered by LSC[3]	7,289	6,682
Contributing to Communities and Society		
Completions of unpaid work requirements	55,514	50,000

Performance against the National Offender Management Targets for 2006-07

Protecting the Public	*Annual Performance*	*Annual Target*
85% of victims to be contacted within eight weeks of an offender receiving a conviction or 12 months or more for a serious sexual or violent offence	93% (April-December 2006)	85%
Organising and Supporting Delivery		
Staff sickness in public prisons to be lower than 11.5 working days/person	11.64	11.50
Not to exceed nine days per person per annum in the probation service	12.01	9.00
At least 6% of the workforce in public prisons to be from minority ethnic groups by April 2007	5.9%	6.0%
95% of race and ethnic monitoring data on staff and offenders returned on time and using the correct (census 2001) classification	98%	95%

[1]Data relate to total programme completions (before quality reviews)

[2] MDT, March data will be adjusted in June (three months'lag time)

[3] Data available in April 2008. This metric contributes to the Learning and Skills Council Public Service Agreement (PSA) to increase the number of adults with the skills required for employability and progression to higher levels of training.

Note: Please note that Peterborough performance data are not included.

Chief Inspector of Probation

The Minister of State, Ministry of Justice (Mr. David Hanson): Today I am delighted to announce that the appointment of Andrew Bridges CBE as HM Chief Inspector of the National Probation Service for England and Wales has been extended until 30 September 2008. Mr.Bridges' expertise and knowledge will continue to play a key role in enabling the probation inspectorate to deliver a credible and effective inspection programme for probation and youth offending teams.

WORK AND PENSIONS

Employment and Social Policy Ministers Meeting

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): The Employment and Social Policy informal meeting was held on 5 to 7 July in Guimarães, Portugal. I represented the UK.

The theme of the informal was "Improving Policies, Improving Results", which was discussed in two plenary sessions. The discussions were informed by a paper presented by Maria João Rodrigues, who was involved in the formulation of the Lisbon strategy during the last Portuguese presidency.

Ministers discussed what the future priorities of the Lisbon strategy should be and how to make the Open Method of Co-ordination (OMC) work better. There was broad agreement that the Lisbon goals were the right ones, and that next year's review should avoid major changes to the strategy, as continuity was needed and would enable comparisons over time. Ministers believed that the focus should be on proper implementation and better exchange of good practice. A number of member states did call for greater prominence to be given to the social dimension of Lisbon. On behalf of the UK, I made it clear that we should not re-open the employment guidelines and that the focus should remain on jobs and growth. I also emphasised that we needed to do more to tackle skills issues as this is the key to helping people into work and ensuring their progression.

In terms of process, most felt the OMC was a success. There was broad agreement that there should be no new instruments or processes. Suggestions for areas of greater focus were: education, skills and lifelong learning; making flexicurity work; increasing labour market participation (including active ageing, work-life balance, gender equality, childcare provision); fighting child poverty; making mobility in the EU work; and tackling the social impacts of migration.

Germany also suggested a one-off "European Social Day" where, for example, Parliaments across the EU could discuss the EU's contribution to social policies on the same day. The idea received considerable support.

The presidency concluded that the revised Lisbon process had improved the focus on employment but the meeting had highlighted the need to: have greater co-ordination of policy approaches; improve the integration and visibility of social priorities; and a balanced approach to flexicurity.

Pension Scheme Assets (Interim Report)

The Minister for Pensions Reform (Mr. Mike O'Brien): The review of Pension Scheme Assets led by Andrew Young published its interim findings yesterday on 16 July.

The review team has worked hard to gather data and engage with stakeholders and I am grateful for their efforts and the co-operation of those who have contributed. The interim findings represent a significant improvement on our understanding of the circumstances of failed pension schemes and provide us with an evidence base upon which to build policy in the future.

The Assets Review has made considerable progress in identifying the value of assets remaining in pension schemes that qualify for FAS and has stated that the current process of annuitisation on a scheme by scheme basis may not offer the best use of these assets. It concludes that it is probable that additional value for money could be secured through a number of different methods and the team will focus on investigating the feasibility of these options before it delivers its final conclusions later in the year. I welcome these interim findings and am hopeful that the work that the review team is to continue over the summer will enable us to increase the value of assistance that FAS is able to offer without further calls on public funds.

The potential for any increase will, of course, depend on the value of assets available. While it is too early to say with any certainty that the review will lead to a means of improving FAS above the promised 80 per cent. level (subject to the cap), it is hopeful that this is

the case. In the meantime the Government's position has always been (and remains) that trustees must act in the best interests of their members, but trustees may wish to take into account the effect that the decisions they take about winding up their scheme may have on the amount of assets potentially available to increase assistance levels.

It is important that trustees continue with the processes of wind-up, including data cleansing and determination of asset share. They should also continue to pay interim pensions to members as they reach normal retirement age and co-operate with the Financial Assistance Scheme Operational Unit to ensure initial payments can be made from age 65.

Written Ministerial Statements

Wednesday 18 July 2007

FOREIGN AND COMMONWEALTH OFFICE

British Council Annual Report

The Minister for Europe (Mr. Jim Murphy): Copies of the British Council annual report, incorporating the trustees' annual report and accounts, for the financial year ended 31 March 2007 have been placed in the Library.

During the period the British Council received £188,124,000 grant-in-aid from the Foreign and Commonwealth Office.

NORTHERN IRELAND

Police Ombudsman for Northern Ireland

The Minister of State, Northern Ireland Office (Paul Goggins): The Police Ombudsman for Northern Ireland's annual report and accounts for the year ended 31 March 2007 is published today.

Copies will be available in the Libraries of both Houses.

TRANSPORT

"Rail Franchising Process"

The Parliamentary Under-Secretary of State for Transport (Mr. Tom Harris): "The Future of Rail" White Paper and the Railways Act 2005 set out a new role for Transport for London (TfL) in relation to rail, giving them more say in the specification of rail services and allowing them greater flexibility to make choices about the balance between rail and other modes. I am today publishing guidance that explains how the new role of TfL in the franchise specification, letting and management process under the Railways Act 2005, will work in practice. Copies of the guidance have been placed in the Libraries of both Houses and can also be found on the Department for Transport's website at: www.dft.gov.uk.

The London suburban commuter rail network does not stop at the GLA boundary. Certain rail services terminate just outside the Greater London area. Because of this the Mayor and TfL were not able to propose changes to "inner suburban" services, to improve service levels or better integrate services with other transport modes. "The Future of Rail" White Paper set out a commitment to change this by enabling TfL to specify and pay for enhancements to these services.

Following consultation on the proposal, I am today announcing that TfL, as part of the franchise specification process, can propose and pay for extra train services or improvements to stations on a number of these "inner suburban" routes.

It is vital to ensure that the rights and interests of rail passengers outside London are protected by those democratically accountable to them. Therefore TfL will be required to consult with Local Transport Authorities in the affected areas beyond the boundary, as well as Regional Assemblies, and London TravelWatch.

Were TfL to seek any reductions to service levels, the governance arrangements are stronger. TfL would be required to obtain the agreement of affected Local Transport Authorities.

In instances where TfL and Local Transport Authorities cannot reach agreement, the disputes should come to the Secretary of State for Transport and feed through the normal franchise dispute resolution process. The Secretary of State shall be the final arbiter of any disagreements.

Section 17 of the Railways Act 2005 amends schedule 10 of the Greater London Authority Act 1999 so as to ensure that within six months of section 17 coming into force the membership of the TfL board includes at least two members who can represent the interests of people living, working and studying in areas outside Greater London served by rail services running into London. A commencement order bringing section 17 of the Railways Act 2005 into force on 8 August 2007 was made on 10 July 2007.

These governance arrangements have been put in place to ensure that the rights and interests of rail passengers outside London are suitably protected. TfL will not be able to propose changes to fares on "inner suburban" routes that run beyond the boundary. As a general rule, TfL will not be allowed to propose additional stops on long distance and inter-city services, although the Department will look at individual proposals on a case by case basis.

The "inner suburban" services that terminate beyond the GLA boundary, and on which TfL will be able to propose changes to services levels are:

Services from Charing Cross, Victoria or Cannon Street, terminating at Dartford;

Services from Blackfriars or Victoria, terminating at Sevenoaks, via Swanley;

Services from Charing Cross, Cannon Street or Victoria, terminating at Sevenoaks, via Orpington;

Services from Victoria or London Bridge, terminating at Caterham;

Services from Victoria or London Bridge, terminating at Tattenham Corner;

Services from Victoria or London Bridge, terminating at Epsom or Epsom Downs;

Services from Waterloo, terminating at Hampton Court;

Services from Waterloo, terminating at Shepperton;

Services from Waterloo, terminating at Windsor and Eton Riverside;

Services from Waterloo, terminating at Epsom;

Services from Paddington, terminating at Slough;

Services from Kings Cross Thameslink, terminating at St Albans;

Services from Kings Cross or Moorgate, terminating at Welwyn Garden City;

Services from Kings Cross or Moorgate, terminating at Hertford North;

Services from Liverpool Street, terminating at Hertford East;

Services from Liverpool Street, terminating at Shenfield; and

Services from Fenchurch Street, terminating at Grays, via Rainham.

The services above reflect the main weekday services and may alter for operational purposes or for some late night or weekend services.

Renewable Transport Fuel Obligation

The Parliamentary Under-Secretary of State for Transport (Jim Fitzpatrick): I have today published a summary of the responses to the Government's consultation on the design and longer term evolution of the proposed renewable transport fuel obligation (RTFO). Copies have been placed in the Libraries of both Houses and are available on the Department for Transport's website www.dft.gsi.gov.uk.

There were over 6,000 responses to the consultation, the great majority highlighting concerns over the sustainability of biofuels. The Government have already indicated how they intend to strengthen the RTFO's environmental safeguards in the light of these concerns, as set out in a written ministerial statement on 21 June 2007, *Official Report*, column 116-117WS. The changes we proposed in that statement put the UK at the international forefront of work to promote sustainable biofuels.

The Government have given careful consideration to the issues raised by stakeholders, and the document I have published today summarises how we intend to take them into account in finalising the RTFO Order which is due to be laid in Parliament in the autumn.

Written Ministerial Statements

Thursday 19 July 2007

TREASURY

Budget ECOFIN (13 July)

The Economic Secretary to the Treasury (Kitty Ussher): On 13 July 2007, I represented the UK at the Budget Economic and Financial Affairs Council (ECOFIN).

The Council conducted its first reading of the EC's budget for 2008. The Council adopted a draft budget that was supported by all member states.

During a conciliation meeting between the Council and the European Parliament, five joint statements relating to the budget were agreed. These concerned: structural and cohesion funds and rural development 2007-13 programmes; recruitment in relation to the 2004 and 2007 enlargement; decentralised agencies; executive agencies; and assigned revenues. The Government are supportive of these statements, which call for a greater degree of transparency, sound financial management and budget discipline in the areas they concern.

Landscape Review

The Economic Secretary to the Treasury (Kitty Ussher): HM Treasury is today publishing a summary of the findings of a Landscape Review of National Savings and Investments (NS&I), commissioned by HM Treasury Ministers in 2005, copies of which are available in the Libraries of both Houses. This statement sets out the findings of this review. Broadly speaking, the Landscape Review of NS&I concluded that:

Since its last review in 2000 NS&I had performed well. Between 2000 and 2005 it raised £7.8 billion of net finance (contribution to the Government's stock of debt) and £1.22 billion of value added (savings to Government made by raising debt through the retail market at a lower cost than through wholesale borrowing).

NS&I should therefore retain as its single strategic objective the reduction of the cost to the tax-payer of Government borrowing.

NS&I should prioritise cost-effectiveness to Government over the pursuit of market share. HM Treasury will reflect this when setting NS&I's net finance and value added targets. As a result, NS&I will not be growing and can be expected to bring in a steady rather than increasing amount of net finance going forward.

Although there are a number of constraints which prevent other savings providers from competing with NS&I on a level playing field, NS&I is not having a significant competitive impact at its current size relative to market. However, the Treasury should take into account the market impact of NS&I's activities when setting its financing targets.

Although NS&I will not move to being FSA regulated, it should comply fully with FSA requirements where applicable, on a voluntary basis. NS&I has agreed with the FSA that it will update the FSA biannually on progress against its plans, will monitor and respond to relevant changes in FSA regulations, and will report on progress in its annual report.

The review also recommended that NS&I should develop a revised corporate strategy incorporating the conclusions of this review. This process has been completed, and NS&I's new five-year strategy "NS&I Adding Value" was launched on 1 April 2007. Further information on the new strategy can be found in NS&I's 2006-07 annual report and accounts which are also being laid before the House today.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

European Directives (Accounting and Audit)

The Secretary of State for Business, Enterprise and Regulatory Reform (Mr. John Hutton): My Department is today publishing the Government's conclusions following the responses to the consultation on the implementation of the directive on the Statutory Audit of Annual and Consolidated Accounts (Directive 2006/43/EC). Draft regulations for the implementation of the directive are also being published.

My Department is also publishing the Government's conclusions following the responses to the consultation on the implementation of a Directive (2006/46/EC) which amends EC Accounting Directives, (the 4th and 7th Company Law Directives, Bank Accounts and Insurance Company Accounts Directive) (Directive 2006/46/EC).

These documents will be placed in the Libraries of both Houses and will be available on the BERR website shortly.

Regional Development Agencies

The Minister for Competitiveness (Mr. Stephen Timms): I have decided to re-appoint the following Board Members as detailed for a further one to three years accordingly.

Board member name	*RDA*	*Length of re-appointment (years)*
Chris Thompson	One NorthEast	3
Alison Thain, OBE	One NorthEast	3
Councillor Bob Symonds	One NorthEast	3
Gerard Coyne	Advantage West Midlands	3
Sue Prince, OBE	Advantage West Midlands	3
Councillor Diane Rayner	Advantage West Midlands	3
Linda Pollard	Yorkshire Forward	3
Jan Wilson	Yorkshire Forward	3
Laura Moynahan	Yorkshire Forward	2
Ashad Javed	Yorkshire Forward	2

Board member name	*RDA*	*Length of re-appointment (years)*
Lord Haskins	Yorkshire Forward	1
Alan Courts	SWRDA	2
Paul Burall	EEDA	3
Sheila Childerhouse	EEDA	3
John Merry	NWDA	3
Peter Hensman	NWDA	3
Brenda Smith	NWDA	1
Sir Martin Harris	NWDA	1
Steve Brown	EMDA	3
Jonathan Collins	EMDA	3
Geoffrey Stevens	EMDA	3
Gary Hunt	EMDA	3
Phillip Tasker	EMDA	3

The re-appointments will begin on 14 December 2007.

I have placed further details of these re-appointments in the Libraries of both Houses. These re-appointments were made in accordance with the Code of Practice of the Commissioner for Public Appointments.

DEFENCE

Afghanistan Roulement

The Secretary of State for Defence (Des Browne): The next roulement of UK forces in Afghanistan will take place in October 2007. The force package that we currently plan to deploy will see the lead formation, some 12 Mechanised Brigade, replaced by 52 Infantry Brigade, which will provide the majority of the units serving in Afghanistan. The forces deploying include elements of:

52 Infantry Brigade Headquarters and 258 Signal Squadron
846 Naval Air Squadron
Naval Strike Wing
40 Commando Royal Marines
Armoured Support Group, Royal Marines
The Household Cavalry Regiment
1st Battalion Coldstream Guards
2 Battalion The Yorkshire Regiment (Green Howards)
1st Battalion The Royal Gurkha Rifles
4th Regiment, Royal Artillery
36 Engineer Regiment
27 Transport Regiment, The Royal Logistic Corps
5 General Support Medical Regiment
1 Battalion, Royal Electrical and Mechanical Engineers
Elements of The King's Royal Hussars
Elements of The Queen's Royal Lancers
Elements of 5th Regiment, Royal Artillery
Elements of 16th Regiment, Royal Artillery
Elements of 32nd Regiment, Royal Artillery
Elements of 39th Regiment, Royal Artillery
Elements of 47th Regiment, Royal Artillery
Elements of 33 Engineer Regiment (Explosive Ordnance Disposal)
Elements of 70 Gurkha Field Support Squadron
Headquarters 62 Works Group Royal Engineers, 519 Specialist Team Royal Engineers (Works)
Elements of 10th Signal Regiment, The Royal Corps of Signals
Elements Signal of 14th Regiment (Electronic Warfare), the Royal Corps of Signals
Elements of 21st Signal Regiment (Air Support), the Royal Corps of Signals
Elements of 30th Signal Regiment, the Royal Corps of Signals
Elements of 3 Regiment, Army Air Corps
Elements of 1 Close Support Company, Royal Electrical and Mechanical Engineers
Elements of 7th Battalion, The Rifles
Elements of 52nd Lowland, 6 Battalion, The Royal Regiment of Scotland
Elements of 9 Regiment, Army Air Corps
Headquarters 102 Logistic Brigade
Elements of 9 Supply Regiment, The Royal Logistic Corps
Elements of 11 Explosive Ordnance Disposal Regiment, The Royal Logistic Corps
Elements of 12 Logistic Support Regiment, The Royal Logistic Corps
Elements of 13 Air Assault Support Regiment, The Royal Logistic Corps (47 Air Dispatch Squadron)
Elements of 24 Postal Courier and Movement Regiment, The Royal Logistic Corps
Elements of 29 Postal Courier and Movement Regiment, The Royal Logistic Corps
Elements of 148 Squadron Expeditionary Forces Institute (Volunteers), The Royal Logistic Corps
Hospital Squadron formed from 201 Field Hospital (V) and 243 Field Hospital (V)
Elements of 7 Air Assault Battalion, Royal Electrical and Mechanical Engineers
101 Provost Company, 5th Provost Regiment, Royal Military Police
Elements of 1 Military Intelligence Brigade
Elements of Joint Civil Military Co-operation (CIMIC) Group
Elements of 90 Signals Unit Royal Air Force
904 Expeditionary Air Wing Royal Air Force
Elements of 1 Air Control Centre Royal Air Force
15 Regiment Field Squadron Royal Air Force
7 Force Protection Wing Headquarters Royal Air Force
Elements of:
18 Squadron Royal Air Force
24 Squadron Royal Air Force
27 Squadron Royal Air Force
30 Squadron Royal Air Force
47 Squadron Royal Air Force
70 Squadron Royal Air Force
Elements of 1 Air Movements Wing Royal Air Force
Elements of 85 (Expeditionary Logistic) Wing Headquarters, Royal Air Force
Elements of 2 Motor Transport Squadron, Royal Air Force
Elements of 5001 Squadron, Royal Air Force
Elements of Mobile Catering Support Unit
Elements of Tactical Medical Wing
Elements of Tactical Armament Squadron
Elements of Tactical Imagery Intelligence Wing
Elements of 151 Transport Regiment (Volunteers) The Royal Logistic Corps

The bulk of these units represent direct replacements for the Afghanistan deployments I announced to the House on 1 February 2007, *Official Report*, columns 19-20WS, and 26 February 2007, *Official Report*, columns 619-635. The House will be aware, however, that all military operations are subject to regular review. As a result, I have therefore agreed to deploy an additional troop of the highly regarded VIKING Protected Mobility Vehicles, manned by Royal Marines and the Queen's Royal Lancers, to enhance further the Task Force Helmand's ability to manoeuvre. In addition, from 1 August 2007 to 31 July 2008 the UK will act as Principal Co-ordinating Nation for NATO's management of Kandahar airfield. I am also considering options to enhance our support for the Afghan National Security Forces In consequence the total UK commitment in Afghanistan is likely to be around 7,800 by the end of this year.

Volunteer and Regular members of the reserve forces will continue to deploy to Afghanistan as part of this integrated force package, and we expect to have eventually issued in the order of 750 call-out notices to fill over 600 posts. On completion of their mobilisation procedures, the reservists will undertake a period of training and, where applicable, integration with their respective receiving units. The majority will serve on operations for six or seven months, although some may have shorter tours. As part of this commitment, we expect up to 20 members of the sponsored reserves to be in theatre at any one time.

The House will recall too, the importance I attach to burden-sharing within the International Security Assistance Force. In this context, I should like to welcome the recent decision by the Danish Parliament to increase their deployment in Helmand. Operating under 52 Infantry Brigade's command will be a Danish Battlegroup which, building on our close co-operation with Danish forces in Iraq, will exercise tactical command over two British infantry companies. This important increase in the Danish contribution to Task Force Helmand is a significant boost to its operational capability and its capacity to help stabilise and secure Helmand province.

Iraq Roulement

The Secretary of State for Defence (Des Browne): The next routine roulement of UK forces in Iraq will take place in November and December 2007. The force package that we currently plan to deploy to Iraq during this roulement will see the lead formation, currently one Mechanised Brigade, replaced by four Mechanised Brigade, which will provide the majority of UK forces from 1 December 2007. The units deploying as part of four Mechanised Brigade are as follows:

4th Mechanised Brigade Headquarters and 204 Signal Squadron
The Royal Dragoon Guards
1st Battalion Scots Guards
The Royal Scots Borders, 1st Battalion The Royal Regiment of Scotland
1st Battalion The Duke of Lancaster's Regiment (King's, Lancashire and Border)
1st Battalion The 22nd (Cheshire) Regiment (1st Battalion The Mercian Regiment as of 1 September 07)
21 Engineer Regiment
12 Logistic Support Regiment, The Royal Logistic Corps
1 Close Support Medical Regiment
Elements of 845 Naval Air Squadron (Sea King)
Elements of 847 Naval Air Squadron (Lynx)
D Battery, 3rd Regiment Royal Horse Artillery
K Battery, 5th Regiment Royal Artillery
Elements of 33 Engineer Regiment (Explosive Ordnance Disposal)
62 Works Group Royal Engineers, 523 Specialist Team Royal Engineers (Works)
Elements of 3rd (UK) Division Signal Regiment, The Royal Corps of Signals
Elements of 1st (UK) Armoured Division Signal Regiment, The Royal Corps of Signals
Elements of 10th Signal Regiment, The Royal Corps of Signals
Elements of 14th Signal Regiment (Electronic Warfare), The Royal Corps of Signals
Elements of 21st Signal Regiment (Air Support), The Royal Corps of Signals
Elements of 6 Supply Regiment, The Royal Logistic Corps
Elements of 16 Tank Transporter Squadron, 7 Transport Regiment, The Royal Logistic Corps
Elements of 11 Explosive Ordnance Disposal Regiment, The Royal Logistic Corps
Elements of 84 Medical Supply Squadron, 9 Supply Regiment, The Royal Logistic Corps
Elements of 150 Transport Regiment (Volunteers), The Royal Logistic Corps
Elements of 24 Postal, Courier and Movement Regiment, The Royal Logistic Corps
Elements of 29 Postal, Courier and Movement Regiment, The Royal Logistic Corps
Elements of 148 Expeditionary Forces Institute Squadron (Volunteers), The Royal Logistic Corps
Elements of 1 Battalion Royal Electrical and Mechanical Engineers
115 Provost Company, 1st Provost Regiment, Royal Military Police
Elements of 102 Military Working Dog Support Unit, Royal Army Veterinary Corps
Elements of 1 Military Intelligence Brigade
No 28 (AC) Squadron, Royal Air Force (Merlin)
619 Tactical Air Control Party, Royal Air Force
627 Tactical Air Control Party, Royal Air Force

Members of the reserve forces will continue to deploy to Iraq as part of this force package, and we expect to issue around 420 call-out notices to fill approximately 340 posts. Most will deploy to theatre in November and serve on operations for six to seven months, although some may have shorter tours. As part of this commitment, we expect up to 10 members of the sponsored reserves to be in theatre at any one time.

In February, the then Prime Minister set out our plans for Iraq in 2007, centring on changes to the posture of UK forces in Basra in Multi-National Division—South East (MND-SE) and consequent force level reductions. UK forces have transferred control of a number of bases in and around Basra to the 10th Division of the Iraqi army. We expect to complete the final part of these plans, involving the transfer of control of Basra palace to the Iraqi authorities, before this roulement takes place. As a result UK force levels in Iraq will fall to around 5,000 troops.

The force package we deploy in November and December will depend on conditions on the ground, in particular the security situation in the south and progress on handover of security responsibility to the

Iraqi civil authorities in Basra province. We will continue to keep UK force levels in Iraq under review. With the permission of the Speaker, I intend to give an update on operations soon after the recess and will notify the House then should there be any change to our plans.

Gurkha Service Pensions

The Parliamentary Under-Secretary of State for Defence (Derek Twigg): I am pleased to inform the House that there will be a significant increase in Gurkha pensions backdated to January 2006. This increase is in line with the tripartite agreement which established a linkage between Indian army pensions and those of the British Brigade of Gurkhas.

It has always been our policy to ensure a fair deal for the 26,500 Gurkha pensioners mainly living in Nepal, who will receive an increase in their pension rates. This is in addition to the 7 per cent. increase they received earlier this year as part of their annual inflationary uplift. Over 85 per cent. of pensioners who were of the rank of corporal or below will receive an increase to their pension of at least 19 per cent. I am also announcing today a review into the mechanism by which we uprate Gurkha pensions annually.

The Gurkha pension scheme currently cost some £33 million per year and it is calculated that this increase will add to the cost by £6 million per year.

The increased benefits have been included in the Gurkha offer to transfer to the armed forces pension scheme, also affecting 3,400 serving and 2,400 recently retired Gurkhas, which I announced to the House on 8 March 2007, *Official Report*, columns 141-42WS.

This increase sustains Gurkha service pensions at a fair and appropriate level and demonstrates the Government's continuing commitment to the retired Gurkha community in Nepal. It also reinforces the UK's long-standing links with the Government of Nepal, whose co-operation and support for the recruitment of Nepalese citizens into the Brigade of Gurkhas we greatly value.

Ballistic Missile Defence

The Secretary of State for Defence (Des Browne): I have said that I would keep the House informed of progress on Ballistic Missile Defence. I hope to be able to make an announcement shortly.

FOREIGN AND COMMONWEALTH OFFICE

Foreign Postgraduate Students (Counter-Proliferation Screening)

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): The Voluntary Vetting Scheme (VVS) is an arrangement designed to prevent states of proliferation concern using the UK as a training ground for their scientists and engineers. It is administered by the Foreign and Commonwealth Office (FCO) and seeks co-operation from universities in identifying postgraduate applicants of proliferation concern. The Government asses the proliferation risk and inform the university, which then decides whether or not to offer a place to the applicant.

As the proliferation threat has evolved, we have looked again at whether there is room to improve the scheme. In particular, and as recommended by the Foreign Affairs Committee (FAC), we have looked at the scope to make it compulsory, so that we catch a greater proportion of students of potential concern. We have also looked to shift the emphasis from universities to Government, where both feel it properly belongs.

Proposed Changes

In essence, the student section of the Immigration Rules contains a requirement for certain postgraduate students to have prior counter-proliferation clearance in order to qualify for a visa. The proposed new scheme—the Academic Technology Approval Scheme (ATAS)—requires all non-EEA students in the designated categories to apply for counter-proliferation (CP) clearance. Details of the disciplines affected by these provisions will appear in the 'Rules'. There is also a requirement to obtain CP clearance when students wish to extend their stay in the UK (for example, when moving from undergraduate studies to a postgraduate programme that is covered by the provisions of the new scheme). Clearance (in the form of a certificate) will be obtained through the FCO, using an easy-to-use, online form, and we aim to process the vast majority of applications within 10 working days. A separate clearance certificate will be required for each separate institution or programme of study.

We estimate that the ATAS will substantially increase the proportion of students of potential concern who are subject to scrutiny. At the same time, we would tighten the scheme considerably by assessing predominantly PhD and Masters by research students, rather than all postgraduate students of potential concern, as was the case under the VVS. However, we would still wish to assess the small number of students wishing to undertake taught Masters studies in Physics, Mechanical Engineering, Aerospace Engineering or Materials Technology, due to potential CP concerns. This allows us to target the areas of greatest concern more efficiently and in a manner proportionate to the threat. It is in line with the Government's publicly stated CP policy, and is a useful reaffirmation of our commitment. The academic community has also been extensively consulted and is supportive of the new scheme.

Timing

We anticipate implementing a voluntary go-live date for the scheme on Monday 3 September 2007. From this date onwards we will be seeking volunteers from Higher Education Institutions (HEIs) to advise their students to apply for ATAS clearance. However it will not be a mandatory requirement under the Immigration Rules at this point and we will continue operating the VVS during this transition period. Assuming no problems are found we would have a mandatory go-live date of 1 November 2007 with a corresponding amendment to the Immigration Rules. This date has been decided after consultation with the UK academic community and allows them to deal with their busiest time for new arrivals, that is; September and October, without having to produce amended offer letters to meet the ATAS requirements.

General Affairs and External Relations Council (GAERC), 23 July 2007

The Minister for Europe (Mr. Jim Murphy): The General Affairs and External Relations Council (GAERC) will be held on 23 July in Brussels. My right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs will represent the UK.

The agenda items are as follows:

GENERAL AFFAIRS

4th Cohesion Report

Commissioner for Regional Policy, Danuta Hübner, is expected to brief the Council on the 4th Cohesion report, which provides an update on economic, social and territorial cohesion. It also provides an analysis of the impact of cohesion policy at national and Community level in the EU. The report also asks a series of questions to guide discussion: can cohesion policy can adapt to the new challenges facing regions in the coming years; can it further develop an integrated and more flexible approach to development/growth and jobs; and how adequate is the policy management system for 2007-13? The Government welcome these questions as a basis for debate, providing the discussion does not prejudge the fundamental review of the EU's budget taking place in 2008-09.

EXTERNAL RELATIONS

Doha Development Round

Commissioner for Trade, Peter Mandelson, is expected to brief the Council on the latest negotiations in the Doha development round. The Council is expected to discuss next steps including work to be taken forward by the chairs of the groups on agriculture and non-agricultural market access. The Government want an ambitious, pro-development outcome to the Doha development round and supports the role of the Commission.

Ukraine

The Council will be briefed by the presidency on preparations for the EU-Ukraine summit on 14 September. The Council is also expected to endorse a note, which the Government fully support, setting out the EU's objectives for the summit, which include taking stock of developments in the EU-Ukraine relationship, and discussing the ongoing process of reform in Ukraine.

Sudan/Darfur

We expect discussion at the Council to focus on options for EU engagement in Darfur and the region, including a range of areas in which the EU could support wider international efforts to resolve the Darfur crisis. The Government welcome these options, which set out ways in which the EU can support the political process in Darfur, improvements in the humanitarian and security situations, as well as effective African Union and UN peacekeeping in the region.

The Government will emphasise the importance of keeping the focus on the long-term economic future, development and reconstruction of Darfur and Sudan as a whole. The international community, including the EU, must provide the necessary planning and support to make this happen.

The Council is also expected to discuss a French proposal for an EU military operation in Chad. The UK has long supported, including through UN Security Council Resolution 1706, the need for an international operation in Eastern Chad. An effective military force would be an important contribution to the regional strategy and the Government therefore welcome the French proposal.

Libya

External Relations Commissioner, Benita Fererro-Waldner, is expected to update the Council on progress in the case of the Bulgarian and Palestinian medical staff imprisoned in Libya.

Iran

The High-Representative for the Common Foreign and Security Policy, Javier Solana, is expected to brief the Council on his recent discussions with AH Larijani, Iran's chief nuclear negotiator and secretary of the Supreme National Security Council, as part of the EU's agreed twin track approach. The Government welcome steps by Iran to resolve outstanding technical issues with the international atomic energy agency, but our position remains firm on the need to see full suspension, before suspension of UN sanctions can be considered.

Middle East

The Council is expected to adopt conclusions on the Middle East emphasising support for Abbas and Fayyad's Government. The Council is likely to discuss support for building the capacity of Palestinian institutions and economic development, a position the Government support as an essential part of achieving success in political negotiations.

On Lebanon, the Council is expected to adopt conclusions condemning the bomb attack on the United Nations Interim Force in Lebanon (UNIFIL) on 23 June in which six peacekeepers were killed, and reiterating the need to implement UN Security Council Resolutions 1559, 1701 and 1757. The conclusions also welcome the meeting held by France to build confidence between the main parties and help work towards a reconciliation of the political crisis in Lebanon.

Western Balkans

Discussion is likely to focus on Kosovo. The Government will want to ensure EU resolve in seeing former President Ahtisaari's proposals through to a successful conclusion.

Russia

The Government will brief the Council on latest developments in the Litvinenko case.

Zimbabwe

The Government will raise Zimbabwe to highlight the need for continued EU engagement in response to the deteriorating situation.

Resolution 1562 of the Council of Europe Parliamentary Assembly

The Dutch have asked to discuss rendition, following a recent Council of Europe report.

HOME DEPARTMENT

Taser (Police Use)

The Minister of State, Home Department (Mr. Tony McNulty): Taser has been available to all Authorised Firearms Officers since September 2004 as a less lethal alternative for use in situations where a firearms authority has been granted in accordance with criteria laid down in the Association of Chief Police Officers Manual of Guidance on Police Use of Firearms.

I am giving my approval from 20 July 2007 for Chief Officers throughout England and Wales to deploy Taser for use by Authorised Firearms Officers in operations or incidents where the criteria for the authorisation to issue firearms does not apply, but where officers are facing violence or threats of violence of such severity that they would need to use force to protect the public, themselves and/or the subject(s) of their action.

I am also approving a 12 month trial of the deployment of Taser by specially trained units who are not firearms officers in similarly violent circumstances requiring conflict management. The trial, commencing on 1 September 2007, will be undertaken in the following 10 forces: Avon and Somerset, Devon and Cornwall, Gwent, Lincolnshire, Merseyside, Metropolitan Police Service, Northamptonshire, Northumbria, North Wales and West Yorkshire.

ACPO has produced new policy and operational guidance documents for both the extension and the trial. The Defence Scientific Advisory Council (DSAC) Sub Committee on the Medical Implications of Less Lethal Weapons (DOMILL) was invited to provide a fourth statement on the medical implications of the use of Taser taking into account the new ACPO policy and guidance. The DOMILL statement confirms that the risk of death or serious injury from Taser remains low.

All Taser deployments will continue to be monitored and a detailed report of every deployment will be produced. These reports will be collated by the Home Office Scientific Development Branch and summarised on a three-monthly basis for assessment by DOMILL.

I have placed a copy of the DOMILL statement in the Library of the House.

JUSTICE

Court of Protection Fees Order 2007/Public Guardian (Fees, etc) Regulations 2007

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): I have today laid before Parliament the Court of Protection Fees Order 2007 and the Public Guardian (Fees, etc) Regulations 2007.

The Mental Capacity Act 2005 establishes a new specialist court, the Court of Protection, with a jurisdiction to deal with decision making for people who lack mental capacity to make those decisions themselves. The Act also establishes a new statutory office holder, the Public Guardian, with a range of statutory functions under the Act.

The Court of Protection Fees Order 2007 sets out the fees to be charged for matters coming to the new court. The Public Guardian (Fees, etc) Regulations 2007 set out the fees to be charged for the services provided by the Public Guardian. The Regulations also make a minor amendment to one of the forms included in the Lasting Powers of Attorney, Enduring Powers of Attorney and Public Guardian Regulations 2007 (SI 2007/1253).

The Department conducted a public consultation on the fees contained in these statutory instruments between 7 September and 29 November 2007. Some 65 responses were received from a range of parties including users of the current Public Guardianship Office's services, charities, voluntary and representative groups, legal professionals, public bodies and the public. The response to this consultation is available via the Department's website at http://www.justice.gov.uk/publications/cp2306.htm.

Copies are available in the Libraries of both Houses.

TRANSPORT

Ports Policy Review

The Parliamentary Under-Secretary of State for Transport (Jim Fitzpatrick): The Department for Transport is today issuing an interim report on the Ports Policy Review. This Review was launched last summer by my predecessor my hon. Friend the Member for South Thanet (Dr Ladyman), with the publication of a discussion document, "Ports Policy — Your Views Invited". A summary of the responses to this consultation are available to view on the Department for Transport's website www.dft.gsi.gov.uk.

Also published alongside the discussion document were reports by the Department's consultants, MDS Transmodal, on freight demand forecasts for ports, and on container transhipment. The consultants have updated some aspects of these reports and their further report will also be made available on the Department's website.

Sir Rod Eddington's report, "Transport's role in sustaining the UK's productivity and competitiveness", was published in December. We are studying Sir Rod's recommendations and will respond to them later in the year. Several of these bear closely on ports policy and especially on the need to co-ordinate it fully with policy on each of the surface transport modes connecting with ports.

Also relevant to ports policy are the consultations, one recently closed and the other still in progress, on the Government's Marine Bill White Paper, and on the White Paper "Planning for a Sustainable Future".

I want to ensure that ports policy reflects emerging conclusions from each of these strands of work. It will not therefore be possible to complete the Ports Policy Review until later this year.

We are, however, already in a position to set out conclusions on important aspects of the overall policy framework for the ports sector. The Interim Report issued today recognises that commercial ports are best placed to make decisions about where and when to invest in the port sector, and that we do not propose any substantive change to the regulatory and operating framework for ports.

But it is the Government's responsibility to create the conditions in which investment is encouraged, and yet sustainability is ensured. This report sets out policies to build on the ports industry's success, including by:

commissioning demand forecasts every five years to aid assessment of national need;

recommending the use of Master Plans by major ports to improve planning;

setting out broad guidelines on the safeguarding of port land;

the pursuit of further trust port modernisation; and

setting out our plans to enhance the port safety regime.

In parallel with the Interim Report, the Government are also making their formal Response to the Transport Committee's report of its inquiry into "The Ports Industry in England and Wales" (HC61-1). I am grateful to the Committee for having expedited its inquiry so as to contribute to the Review. We have accepted a number of the Committee's recommendations, and even in those areas where we have not found ourselves able to do so, the evidence-gathering process has very usefully complemented the Department's own consultation

Wales (Rail Planning Assessment)

The Parliamentary Under-Secretary of State for Transport (Mr. Tom Harris): The Welsh Assembly Government and the Department for Transport have published the Regional Planning Assessment for the railway in Wales (WRPA), the final document in the series of RPAs covering England and Wales.

Copies of the document have been placed in the Library of the House and can also be downloaded from the Department's website at www.dft.gov.uk

The Wales RPA covers the whole of Wales and an area to the east of the border, including the Marches line which has an important role in north / south rail traffic for Wales. Key rail links into England are also included.

RPAs provide the link between regional spatial planning (including preparation of regional transport strategies) and planning for the railway by both Government and the rail industry, and are designed to inform the development of the Government's strategy for the railway. They look at the challenges and options for development of the railway over the next 20 years, in the wider context of forecast change in population, the economy and travel behaviour.

An RPA does not commit the Government to specific proposals. Instead it sets out the Government's current thinking on how the railway might best be developed to allow wider planning objectives for a region or country to be met, and identifies the priorities for further development work.

The Secretary of State for Transport is responsible for specifying the infrastructure outputs which central Government want the railway to deliver in England and Wales, and the funding available, over a five-year period. As co-signatory to the Wales and Border franchise agreement with the Secretary of State, the Welsh Assembly Government are responsible for the financial and performance management of passenger services covered by the agreement and any enhancements to it. The Welsh Assembly Government are also working in partnership with Network Rail to fund enhancements to the railway infrastructure in Wales.

Written Ministerial Statements

Monday 23 July 2007

TREASURY

Tax and Benefit Reference Manual

The Financial Secretary to the Treasury (Jane Kennedy): Copies of the 2007-08 edition of the Tax Benefit Reference Manual (TBRM) are today being deposited in the House of Commons Library.

HM Treasury publishes the TBRM annually. It is a technical manual detailing the tax and benefit system, describing both the current and historic regimes.

CHILDREN, SCHOOLS AND FAMILIES

Data Protection and Technology Guidance

The Minister for Schools and Learners (Jim Knight): Guidance on how the Data Protection Act 1998 applies to the use of biometric data in schools is published today by the British Education Communications and Technology Agency (BECTA).

Biometric data are increasingly being used in schools as the benefit for schools of running cashless lunch queues, and improved school libraries and attendance systems, become clear. This guidance advises schools to fully involve parents in any decision to introduce this new technology. It restates schools' freedom to run themselves for the benefit of young people—including introducing new technology to make day-to-day administrative tasks easier.

The guidance also underlines that headteachers and governing bodies should be clear and open with all parents and pupils about this and all aspects of their education. This will involve explaining what biometric technology is, how it will be used, what is involved, what data will be held and stored, why they are required, how they are secured, and for how long they are retained. It also advises that schools should recognise some parents' or pupils' concerns over the introduction of biometric technology and offer alternative systems, like smartcards, to access the same services if they want to opt out.

Today's guidance sets out how Data Protection Act 1998 applies to the use of biometric data in schools—building on BECTA's existing guidance on data security and the data protection law.

The Data Protection Act requires that:

Schools cannot use biometric information for any purpose other than the express purpose for which it was collected. This means that data taken for use in a library, can only be used for that purpose;

Schools must process all personal data fairly and lawfully. This means that schools must ensure that all pupils, or their parents or those with parental responsibility if schools judge they cannot understand, know what personal information they have on record and how they intend to use it.

Schools cannot pass on biometric information to any outside organisation nor can third parties access this information;

Schools cannot keep personal data for longer than it is needed for its specified purpose. Pupils' biometric data must therefore be destroyed when they have left the school.

Schools must put appropriate security measures in place to safeguard personal data from unauthorised processing and accidental loss, destruction or damage. BECTA gives clear guidance to schools on data and ICT security.

BECTA and the Information Commissioner already give schools clear guidance on how to comply with the Data Protection Act. This additional guidance is designed to help schools by confirming how the law relates to biometric data and how to comply with it.

I want parents to be fully engaged with every aspect of their children's education—this is at the heart today's guidance. We give schools complete freedom to run their own affairs and I back every head teacher's right and professional judgment to choose technology to improve their day-to-day running—but it is plain common sense for them to talk to parents about this and all issues relating to their pupils to demystify how schools operate.

I have seen at first hand how well these systems work. They can speed up lunch queues, remove the need for children to carry money and take away the stigma of singling out those on free school meals. Moreover, they can enable schools to register pupils more easily as they move from class to class.

Schools are well used to handling sensitive information like attendance registers, behaviour records and home addresses. But we are absolutely clear that they have to comply with data protection laws. This means that this data can only be used for their explicitly stated purpose, cannot be shared with third parties beyond their stated purpose: and they must be destroyed when the pupil leaves the school.

DEFENCE

Annual Report and Accounts 2006-07

The Secretary of State for Defence (Des Browne): I am pleased to announce that I am today publishing the Ministry of Defence's annual report and accounts 2006-07. It combines the Department's annual performance report and departmental resource accounts in a single document that provides a comprehensive overview of the MOD's financial and non-financial performance. I am also publishing the Government's expenditure plans 2007-08 for the Ministry of Defence presenting the forward plans for departmental expenditure across the remainder of the 2004 spending review period.

The report shows that the armed forces and the Ministry of Defence delivered what they were required to do during a busy and challenging year. They continued in particular to achieve our highest priority: success on operations. It reflects the broad and diverse range of operations and tasks undertaken during the

year, including a number in support of the outputs of other Government Departments. It details the progress the Ministry of Defence has made in achieving the public service agreement and efficiency targets agreed with Her Majesty's Treasury in the 2004 spending review, in delivering the capabilities and reformed force structure set out in the July 2004 Command Paper "Delivering Security in a Changing World: Future Capabilities" and the other elements of the defence change programme, in implementing the defence industrial strategy, and in implementing the Government's wider sustainability goals.

Copies of the annual report and accounts and the Government's expenditure plans have been placed in the Library of the House. They are also available online from the Department's website at: www.mod.uk.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal Products (Import Controls)

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Jonathan Shaw): The review of controls on the import of animal products for the financial year 2006-07 has been laid before Parliament today as required under the Animal Health Act 1981 (as amended by the Animal Health Act 2002). I welcome the opportunity to report on progress made in the past year to reduce the risk of disease entering the country via imports of animal products.

Her Majesty's Revenue and Customs (HMRC) continues to deliver an enforcement strategy that targets anti-smuggling activity on the highest risk traffic and to review deployment of resources and react flexibly in response to changes in the pattern of risk.

Seizures of illegally imported animal products have again increased when compared to previous years (35,001 between 1 April 2006 and 31 March 2007, approximately a 7 per cent. increase on the equivalent period from 2005-06), reflecting the enforcement measures in place, and we recognise that these efforts must be maintained.

There continues to be a joined-up approach across Government Departments on the overall communications strategy. The Department for Environment, Food and Rural Affairs (DEFRA) will continue with its ongoing publicity campaign with a change of emphasis, taking into account levels of public awareness and seizure information. HMRC will continue to promote the products of animal origin (POAO) personal import rules through a wide range of communication channels, as well as seeking new opportunities for media publicity.

We continue to enhance our understanding of the risks from illegal imports of POAO, as well as monitoring and assessing the changing threats from around the world.

Copies of the review will be placed in the Libraries of both Houses, on the DEFRA 'personal food imports' website at: www.defra.gov.uk/animalh/illegali, and sent to stakeholders for information seeking their feedback. Hard copies will also be available on request.

HEALTH

Prescription Charges

The Minister of State, Department of Health (Dawn Primarolo): On 17 October 2006, the Government published its response to the Health Select Committee Report on NHS Charges (Cm 6922).

The Government responded to the 22 recommendations made by the Committee on areas such as prescription charges, car-parking charges, dental charges, on eligibility for NHS sight tests and on the hospital travel costs scheme.

As part of the response, the Government committed to carrying out an internal review of prescription charges and to making a further statement to the House prior to the summer recess this year.

Following this internal review, the Government have decided to hold a consultation in the autumn so that the public can contribute their views on any proposals prior to a final decision on future prescription charges.

The Government have made clear that any changes to the system would need to be cost neutral for the NHS. A further statement will be made after recess giving details of the consultation.

HOME DEPARTMENT

Independent Police Complaints Commission (Annual Report)

The Minister of State, Home Department (Mr. Tony McNulty): I am pleased to announce that the annual report of the Independent Police Complaints Commission (IPCC) will be published and laid before Parliament today.

This is the third annual report from the IPCC. The report deals with the work completed in 2006-07 and, in particular, how the IPCC has dealt with the challenges which its third year of existence has brought and how it has engaged with diverse communities and stakeholders. The IPCC have now developed a robust formal process with all of the relevant policing agencies to ensure that lessons are learned and disseminated.

The IPCC's remit now extends beyond the police service. The IPCC has operational responsibility for complaints about the conduct of members of the Serious Organised Crime Agency and of Her Majesty's Revenue and Customs who use "police like powers". Their remit will be further extended to cover similar functions in the Borders and Immigration Agency.

Living Animals (Scientific Procedures)

The Parliamentary Under-Secretary of State for the Home Department (Meg Hillier): I wish to respond to the publication entitled "Statistics of Scientific Procedures on Living Animals—Great Britain—2006, which is being presented as a Command Paper (7153) today. Copies will be placed in the House Library.

This annual report meets the requirement in the Animals (Scientific Procedures) Act 1986 to keep Parliament informed about the use of animals for experimental or other scientific purposes. It also forms the basis for meeting periodic reporting requirements at EU level. Some changes have been made to improve the contents and layout of this publication; in particular a more concise report with just the key tables is available in hard copy and supplementary information with additional tables is available on the Home Office website.

The report shows an overall increase over the previous year of 4 per cent. in the number of procedures undertaken. The total number of procedures was 3.01 million, an increase of 115,800 over the previous year. There has now been a relatively small increase for the fifth year running; it is the highest total since 1992 and marks an overall 15 per cent. increase since 2001. A number of factors, investment in research and development and strategic priorities determine the overall level of scientific procedures

Non-toxicological procedures accounted for about 86 per cent. of the procedures carried out. These included fundamental research in human and veterinary medicine to improve understanding of disease mechanisms and possible therapeutic options, and development of vaccines. Most toxicological studies were for the safety and efficacy testing of new drugs and medicines.

Procedures for toxicological purposes accounted for the remaining 14 per cent. of all procedures. About 74 per cent. of these were for testing the safety and efficacy of new drugs and medicines. In keeping with previous years, those procedures that used mice or rats (or other rodents) were the great majority at 83 per cent. Those using fish amounted to 9 per cent. and those using birds, 4 per cent. The total of all procedures using dogs, cats, horses and non-human primates, that is those species offered special protection by the Act, was less than 1 per cent. of the total.

Genetically normal animals were used in about 1.65 million regulated procedures, representing 55 per cent. of all procedures for 2006 (compared with 57 per cent. in 2005 and 84 per cent. in 1995). Genetically modified animals (nearly all rodents) were used in 1.04 million regulated procedures representing 34 per cent. of all procedures for 2006 (compared with 33 per cent. in 2005 and 8 per cent. in 1995).

Advances in the opportunities to use genetically altered animals for new areas of biomedical research means that the trend of increased production and use of genetically altered animals has continued. It allows a more precise and often less invasive study of physiological processes and disease mechanisms than was previously possible. Most of the animals concerned are mice, which appear and live as normal. Many are only used in breeding programmes.

The licensing system is demand led and the 1986 Act provides the Home Office, as regulator, with no mechanism for reducing animal use. Instead the Act requires that animal use is kept to a minimum. In addition, the procedures authorised must cause the minimum possible suffering to the smallest number of animals of the least sentience. The Act also requires that, before a project licence is issued, we must weigh the benefits to humans, other animals, or the environment against the costs to the animals involved. A licence cannot be granted if the work could be carried out without using animals.

The report and supplementary information can be found at:

http://www.homeoffice.gov.uk/rds/scientific1.html

JUSTICE

Emoluments

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): I will make a statement on this matter in due course.

PRIME MINISTER

Cabinet Committees

The Prime Minister (Mr. Gordon Brown): Today I am announcing a new set of Cabinet Committees. I have strengthened the system by re-casting it to focus on the Government's priorities and, in doing so, have reduced the total number Committees. I have placed a copy of the new list of Cabinet Committees, their full membership and terms of reference in the Libraries of both Houses. The details are also available on the Cabinet Office website.

TRANSPORT

Government Car and Despatch Agency

The Parliamentary Under-Secretary of State for Transport (Jim Fitzpatrick): I have today laid "The Government Car and Despatch Agency annual report and accounts 2006-07" before Parliament, copies of which are available in the Libraries of both Houses.

WORK AND PENSIONS

Independent Living Funds

The Parliamentary Under-Secretary of State for Work and Pensions (Mrs. Anne McGuire): On 15 March 2007 we published the review of the Independent Living Funds that had been conducted by Melanie Kenwood and Bob Hudson and I said that I would provide an initial response to the report before recess. A full response to all the recommendations will be published once we have considered the lessons from the individual budget pilots and the timescale required to ensure they become a mainstream part of the support system.

I welcome the progress the trustees have made on the matters that are for them to consider, for example, reimbursing national insurance and holiday pay, publishing trustees' meeting minutes on their website, continuing to fund users during the first stage of their appeal (from October) and revising their leaflets, targets and processes.

We are now working with stakeholders on the medium-term recommendations such as improving customer care, seeking advice from a user-led organisation, improving the consistency of take-up and working towards a single assessment process with local authorities.

The purpose of the funds remains to provide support to severely disabled people, of working age, to enable them to live independently. I have not accepted those recommendations that significantly extend the funds.

The reviewers recommend in the long-term that that there should be a smooth transition towards full integration within a system of personalised budgets. These recommendations will be taken forward as part of the Government's overall programme to support independent living for disabled people. In the meantime the funds will continue in their present form.

National Insurance Credits

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): People claiming incapacity benefit are entitled to receive national insurance credits for periods when they are unable to work. Such credits count towards accrued entitlement to state pension, incapacity benefit and other contributory benefits.

Details of such credits are held on HMRC's National Insurance Recording System (NIRS2) and this Department's Pension Strategy Computer System (PSCS) which records details of periods of incapacity for people claiming incapacity benefit.

It has become clear that discrepancies exist between the data held on these two systems—as was noted in the National Audit Office's report on the National Insurance Fund in February 2006. These discrepancies have their origin in the introduction of NIRS2 in 1998 and the subsequent transfer of data from PSCS to NIRS2 on periods of incapacity. These discrepancies mean that some people may be receiving the wrong amount of contributory benefit. The main benefits affected are state pension and incapacity benefit. The cases most likely to be affected are those where an individual made a claim for incapacity benefit between 1998 and 2006.

Action has been taken to ensure that these credits are now being correctly recorded and, accordingly, I am now in a position to announce how this Department intends to handle those past cases where errors have occurred.

We estimate that up to 30,000 people may have had underpayments of benefit and about 90,000 have had overpayments. In cases of underpayment, the error does not necessarily mean that individuals have been receiving less money through benefits. For example, in the majority of the cases involving state pension, the underpayments will have been made up by additional pension credit payments. In the case of incapacity benefit underpayments some individuals will have received income support which will have reduced or extinguished any potential loss.

It is, nevertheless, clearly right that all such underpayments should be identified and the correct amount of contributory benefit paid, and any associated income related benefit reviewed. This Department will begin this work in August and aims to have completed it by early 2008. In all cases this Department will individually contact those affected.

Similarly, in the case of overpayments, many of those overpaid state pension would have had a correspondingly lower payment of pension credit. In respect of incapacity benefit this would, in some cases, have led to a correspondingly lower payment, or no payment, of income support.

In respect of cases where an overpayment may have occurred, the payments will have been made and received in good faith and I do not believe it would be right to reduce them. I propose, therefore, to introduce regulations that will allow us to continue paying these benefits at their current level to the individuals concerned for the duration of their claim. The draft regulations will be referred to the Social Security Advisory Committee in the normal way before being made and laid before Parliament.

Where the individual is under pension age we will also correct the national insurance contribution records so that future claims will be correctly assessed. Where correcting the record creates any gaps in an individual's contribution record, HMRC will write to the individuals concerned advising them of their options, if they wish to pay any missing contributions.

Written Ministerial Statements

Tuesday 24 July 2007

CABINET OFFICE

National School of Government

The Parliamentary Secretary, Cabinet Office (Gillian Merron): The 2006-07 annual report and accounts for the National School of Government was laid before Parliament today. The report will be placed in the Library of the House for the reference of Members and copies will be made available in the Vote Office.

"The Future Role of the Third Sector in Social and Economic Regeneration: Final Report"

The Minister for the Cabinet Office (Edward Miliband): The Government are today publishing the final report of the review of the future role of the third sector in social and economic regeneration. This review was announced in Budget 2006 and forms part of the analysis for the 2007 Comprehensive Spending Review.

This final report marks the end of the largest consultation the Government has conducted with the third sector and sets out a new framework for the Government's partnership with the third sector.

The final report of the third sector review signals the Government's commitment to continue to work in partnership with the third sector, particularly in four key areas - enabling voice and campaigning, strengthening communities, transforming public services and encouraging social enterprise. Under these themes, the Government will continue a number of important policies and programmes. These include continuing to strengthen the implementation of the Compact, further funding for the youth volunteering charity, v, investment in capacity building and further support for organisations involved in the delivery of public services.

However, this strategy also sets out important developments in the Government's approach. In addition to a number of specific measures, such as greater support for grant funding of small organisations, a new skills strategy and a new drive to improve the third sector evidence base, the Government will over the next 10 years develop their partnership with the sector by:

working with a fuller range of organisations and supporting a wider range of activities in the third sector, particularly around community action and campaigning;

a greater emphasis on investing in the long-term sustainability of the third sector's work; and,

a greater focus on local partnership working.

In addition to the publication of this report, the Government are announcing today the creation of a Council on Social Action. The Council will generate ideas and develop initiatives to promote social action.

Copies of "The future role of the third sector in social and economic regeneration: final report" have been placed in the Library for the reference of Members and will be available in the Vote Office.

DEFENCE

Basra International Airport

The Secretary of State for Defence (Des Browne): The Ministry of Defence, through Multi-National Division - South East (MND-SE) personnel, has supported the Iraqi authorities since 2004 in the commercialisation of Basra International Airport. Our support to commercial operations at the airport remains vital. The airport is an important element of the infrastructure of southern Iraq and is playing a key part in the economic regeneration of the country and the Basra region in particular.

The nature of our support has been through the provision of the following services:

Air Traffic Control

Communication system support

Fire and Crash Rescue

Our potential contingent liability for this support was first notified to Parliament through a departmental minute dated 2 December 2004. Since then we have been able to make progress in preparing the Iraqis to take on full responsibility for commercial flight operations. From January this year the Iraqis took responsibility for Fire and Crash Rescue services, and the airport will soon benefit from the new airfield lighting and communication systems that will enable 24-hour commercial flight movements.

MND-SE personnel have, however, recently reassumed Air Traffic Control responsibility for commercial flight services. This, theoretically, increases the Ministry of Defence's exposure to the risk of a third party claim in the unlikely event of an aviation accident and, thereby, our potential contingent liability. We are confident, however, that the probability of this liability arising is very low given that the use of professional RAF controllers will substantially reduce the likelihood of an incident occurring.

The potential contingent liability is unquantifiable and would be dependent on circumstances. The Ministry of Defence now holds responsibility for this liability. The Treasury will continue to consider any claim against the Reserve, made by the Department in the usual manner.

FOREIGN AND COMMONWEALTH OFFICE

King Abdullah of Saudi Arabia (State Visit)

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): Custodian of the Two Holy Mosques, King Abdullah bin Abdul Aziz al Saud of Saudi Arabia, has been invited to pay a State Visit to the United Kingdom from 30 October to 1 November 2007. The visit will further strengthen the good relations which exist between the United Kingdom and The Kingdom of Saudi Arabia. This visit will build on our shared history of partnership, and close ties in culture, sport and education, as we work together to tackle the common challenges all countries face in a globalised world.

Strategic Arms Controls

The Minister for the Middle East (Dr. Kim Howells): The 2006 Annual Report on Strategic Export Controls will be published at 11.00 today as a Command Paper. Copies will be placed in both Libraries of the House. The Report describes UK policy and international developments in export control regimes, as well as information on export licensing decisions taken during 2006.

The Annual Report on Strategic Export Controls is an innovation of this Government. This report, the 10th Annual Report (the first report was published in 1997) builds upon improvements made in last year's report. Our export licensing system is one of the most rigorous and transparent regimes in the world and the Annual Report—in this improved format—symbolises our continued commitment to accountability and transparency by presenting detailed information in a more modern and user-friendly format.

Since 2004 the Government have also produced detailed Quarterly Reports which are made available on the Internet—ensuring that the UK provides some of the most open and timely export licensing information available anywhere in the world. This year, the data from the Quarterly Reports have been consolidated into one document on the CD-ROM that accompanies the Annual Report, to make it easier to navigate. Information on licence refusals and fuller information on trade control (trafficking and brokering) licences issued during 2006 is also included, as well as details on the EU Torture Regulation which is included for the first time. This year we have also included three case-study examples of policy analysis of our decisions on licences for embargoed destinations.

The complete Report will be made available on the Foreign and Commonwealth Office website and will be published through the Stationery Office.

Prospects for the European Union

The Minister for Europe (Mr. Jim Murphy): I will today lay before the House the Foreign and Commonwealth Office Command Paper on Prospects for the European Union in 2007. Copies will be placed in the Library of the House. Additional copies can also be obtained from the Vote Office and the Printed Paper Office. A copy will also be available on the Foreign and Commonwealth Office website www.fco.gov.uk

The last White Paper was published in January 2007. It focused primarily on the priorities of the German Presidency. The White Paper I am laying before the House today looks at the priorities of the Portuguese Presidency for the remainder of 2007.

The Portuguese Presidency will concentrate on the EU delivery agenda across a wide range of subjects, building on the positive successes of the German Presidency. It will take forward implementation of the climate and energy package agreed at the Spring European Council in March, including a unilateral 20 per cent. reduction in greenhouse gas emissions by 2020. The Presidency will also lead preparations for the December conference of the United Nations Framework Convention on Climate Change in Bali. We will work with our partners to ensure that the EU helps secure agreement on a comprehensive framework to tackle climate change once the Kyoto Protocol expires in 2012. The Portuguese Presidency will also begin discussions on the Commission's proposals for an open, competitive market in gas and electricity.

The Portuguese Presidency will lead Council discussion on the Commission's review of the Single Market, as well as taking forward work on the further liberalisation of postal services, telecommunications and financial services. In addition, the Presidency will present a report on the first 10 years of the European Employment Strategy, and prepare a review of the Lisbon Agenda.

The Portuguese Presidency will take forward the implementation of the Global Approach to Migration, which will intensify partnerships between the EU and third countries of source and transit migration. The Portuguese Presidency will also host an EU-Africa summit in Lisbon in December. The Government hope that a new Joint EU-Africa Strategy will be agreed with African Union partners, covering co-operation on peace and security, governance and human rights, trade and regional integration, and development issues. The EU will also continue to work with international partners to address the challenges posed by Kosovo, Afghanistan, Iraq and the Middle East Peace Process.

In addition, the Portuguese Presidency will chair an Intergovernmental Conference (IGC) to consider the Reform Treaty for the EU. The Government believe that the IGC mandate secured at the June European Council will make the EU more effective and efficient. This is in the UK's interests. The Government's approach to the IGC is set out in a separate Command Paper, on which I made a statement in the House yesterday.

Action on climate and energy security, reform of the single market, tackling migration and strengthening support for development, particularly in Africa, are important UK priorities where EU action adds real value. We look forward to working with the Portuguese Presidency over an important six months.

HEALTH

GP Services (Better Access)

The Secretary of State for Health (Alan Johnson): General practitioners in England are among the best in the world. A recent international survey by the Commonwealth Fund showed that the United Kingdom stands out as a clear leader in providing the right incentives for high quality care. I know from my conversations with GPs that many are aware of the need to continually improve services in response to rising public expectations.

In some places, however, patients find it difficult to get an appointment with their GP at a convenient time. For some patients, having a GP surgery that is only open when they are at work is a great inconvenience. In other cases, the ease and convenience of booking or gaining repeat prescriptions could be improved. In some areas, particularly the more deprived, there are fewer GPs and GP services than patients could rightfully expect.

These are major challenges for the 21st century National Health Service as it seeks to improve in response to the rising expectations of patients; expectations for both convenience and quality.

The patient survey of GP services, undertaken between January and March 2007, is the largest ever survey of patients regarding the primary care services they receive. Over 2 million responses were received, giving us a major insight into patients' views of access to GP services. The survey will be used to inform the Government's longer term primary care strategy.

The survey shows that many patients report a good experience of GP services. This is a testament to the hard work and dedication of GPs, primary care nurses and other practice staff. The survey shows:

86 per cent. of people were satisfied that they could get through to their doctor's surgery on the phone;

86 per cent. of people who tried to get a quick appointment with a GP were able to do so within 48 hours;

75 per cent. of people who wanted to book ahead for an appointment with a doctor reported that they were able to do so;

88 per cent. of people who wanted an appointment with a particular doctor at their GP surgery could do this;

84 per cent. of people were satisfied with the current opening hours in their practice; and

94 per cent. of people who were referred by a GP discussed choice of hospital.

The summary report has been placed in the Library and the full results of the survey can be found at: http://www.dh.gov.uk/gppatientsurvey2007.

Practices that offer an accessible service that patients are satisfied with will now receive a payment triggered by the survey results; practices with dissatisfied patients will not. Around £100 million in GP income is linked to the survey results, providing a clear incentive for increased responsiveness.

Of those patients not satisfied with the current opening hours in their practice, 46 per cent. said they wanted the practice to open on a Saturday and 26 per cent. said they wanted the practice to open on a weekday evening.

In addition, people from minority ethnic communities, particularly Bangladeshi and black African groups, were more likely to be dissatisfied with a range of GP services than their white counterparts. There are marked differences in satisfaction between different ethnic groups:

Black/Black British people and Asian/Asian British people had satisfaction rates around 5-10 per cent. below white British people.

People from a Bangladeshi backgroun4 have lowest levels of satisfaction (around 20 per cent. below white British people).

In addition to the concerns raised in the survey, we also know that there is a persistent problem of insufficient doctors in the most deprived areas. For example, last year Barking and Dagenham had 43 GPs per 100,000 population while Northumberland Care Trust had 88; the England average is 61.

The world-class services celebrated in international surveys should be available to all patients in all communities. Good primary care services mean different things to different people and therefore services must be sensitive and responsive to patients' needs.

Lord Darzi's NHS Next Stages Review will look at these issues in detail and make its first, interim report in October 2007, setting out the route by which the NHS of the 21st century will offer a service which meets the needs of modern patients living busy lives. However, in some areas highlighted by the survey, we can make faster progress and I am announcing five measures today to begin this process:

1. I will ensure Primary Care Trusts (PCTs) analyse this rich data and produce robust local action plans to address concerns expressed by patients. These will be made available to the NHS Next Stages review in which I am asking PCTs to actively engage. They will show how PCTs can use existing powers to make rapid service improvements in GP services by the end of this year.

2. Patients tell us they want better information about their own and other GP practices. We will publish new practice data on the NHS choices website, covering practice opening hours and available appointment times, indicators of the quality of care, and what extended services the practice offers. This will be an important first step in improving the information available to patients.

3. I am establishing a National Improvement Team led by the National Clinical Director for Primary Care, David Colin-Thome, who was a highly respected practising GP for over 35 years. This team of experts will give targeted support to poorly performing PCTs and practices to improve access. Their initial focus will be on the areas with the lowest patient satisfaction and fewest doctors per head.

4. I have also asked Professor Mayur Lakhani, the Chair of the Royal College of GPs and a highly respected practising GP, to look at the complex issue of why primary care services are not currently meeting the needs of people from black and minority ethnic communities. He will work closely with the Darzi review in advance of recommendations to tackle these inequalities later this year.

5. The publication of the survey results releases some incentive payments to GPs who are rated very highly for access. To ensure services continue to improve, I have asked Lord Darzi, through the NHS Next Stage Review, to work with the BMA to review the current incentives for GP services (the QOF). Lord Darzi will consider the potential for GPs to be asked to achieve even better outcomes for their patients in order to earn the same level of incentive. In particular Lord Darzi will look at how QOF can reward responsiveness to patient experience in a more effective way, addressing local issues and concerns.

I expect practices with low satisfaction rates to make substantial improvements as a result of these measures. My Department has already agreed a new performance indicator with the Healthcare Commission that uses data from the patient survey. This will ensure that low-scoring PCTs who do not make the improvements that their patients want to see will have their ratings marked down.

Death Certification

The Minister of State, Department of Health (Mr. Ben Bradshaw): The Government have today published a consultation paper setting out proposals for improving the process of death certification in England and Wales.

The consultation paper sets out proposals to address the weaknesses in the current system for certifying death which were identified by the Shipman Inquiry. We believe these proposals represent a proportionate and affordable response that will provide greater protection for the public by identifying and deterring criminal activity or poor practice. The proposals will

also improve the quality and accuracy of death certification and remove current inequalities in the way burials and cremations are dealt with.

The consultation paper has been placed in the Library and copies are available to hon. Members from the Vote Office.

Medical Expert Witnesses

The Parliamentary Under-Secretary of State for Health (Ann Keen): A summary of the responses received during a public consultation exercise, based on the Chief Medical Officer, Sir Liam Donaldson's report, "Bearing Good Witness: Proposals for reforming the delivery of medical expert evidence in family law cases", has been placed in the Library and is available on the Department of Health website at: http://www.dh.gov.uk/Consultations/LiveConsultations/fs/en.

The report's key proposal is that protecting vulnerable children should be a public service, and that the National Health Service should develop a new resource for the family courts by establishing expert witness teams of specialist doctors and other healthcare professionals.

The consultation attracted responses from a wide spectrum of parties and organisations with interests in the family court system. The results from 135 responses received indicated that over 60 per cent., and almost all key stakeholder organisations, approved the proposal to introduce NHS expert witness teams and to commission the expert witness service through a public sector organisation.

The responses confirmed that the introduction of NHS teams should not reserve the work to the NHS, but should offer an additional source of expertise. Responses also suggested that the activity of these teams should be confined, at least for the present, to public law family cases where joint instructions apply, and be commissioned regionally to ensure the independence of NHS experts from the local authority and staff directly involved in the case.

Consultation responses raised concerns over the ability of the NHS to undertake this work within its resources, a shortage of doctors willing to act as expert witnesses, time constraints for those who chose to do so, and possible conflict between a requirement to assist the courts and clinical responsibilities. The availability of trained professionals, particularly those involved in child safeguarding, and shortages of consultants in child and adolescent mental health and in paediatric radiology were among concerns raised over NHS skill levels in some specialised areas.

A substantial number of respondents focused on the deterrent effect of referrals of expert witnesses, particularly paediatricians, to their regulatory body as an unwarranted consequence of their giving expert evidence in court—and regardless of any legitimate cause for complaint. Further measures are envisaged to counter this effect. The Government fully recognises that in order for health professionals to do their job properly and effectively, they need to be clear about the boundaries of the professional and legal framework in which they work. The issues here go broader than those around expert witnesses, into the wider role of medical professionals in the detection and investigation of child abuse and neglect.

In order to help clarify the situation I have recently written jointly with my hon. Friend, the Member for Cardiff West (Kevin Brennan), the Parliamentary Under-Secretary of State, Department for Children, Schools and Families to relevant organisations with a statement setting out the Government's understanding of the legal position as considered in some recent judgements.

The statement, which outlines professionals' duty of care, the legal framework within which they operate, and the basis on which sound professional judgments should be made, has been placed in the Library and is available on the Every Child Matters website: http://www.everychildmatters.gov.uk/safeguarding.

The role of doctors and other healthcare professionals in acting as expert witnesses is both fundamental and vital to the safeguarding of children's welfare. Any diminution in this resource would be extremely detrimental, and especially to the most vulnerable children and those most at risk of abuse. We shall therefore be supporting the NHS in taking forward the introduction of teams. We envisage this will be through the introduction of path-finding teams in the first instance, but gradually increasing so that NHS healthcare expert witness services will eventually be available throughout the country.

HOME DEPARTMENT

Security Industry Authority

The Parliamentary Under-Secretary of State for the Home Department (Mr. Vernon Coaker): I am pleased to announce that the Annual Report and accounts of the Security Industry Authority (SIA), 2006-07, will be laid before Parliament on 24 July 2007 and published on that day.

Copies of the report will be available in the Libraries of both Houses.

INNOVATION, UNIVERSITIES AND SKILLS

Learning and Skills Council

The Minister for Lifelong Learning, Further and Higher Education (Bill Rammell): I would inform the House that the Learning and Skills Council for England has today published its Annual Report and Accounts for the period to 31 March 2007. Copies will be placed in both Libraries of the House

JUSTICE

Her Majesty's Courts Service

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): I have today laid before Parliament the 2006-07 Annual Report and Accounts for Her Majesty's Courts Service.

Her Majesty's Courts Service has been in operation for two years and during that period it has made huge strides forward in the service it delivers to the public.

The agency has a clear strategic goal which is that all citizens are entitled to access justice, whether as victims of crime, defendants accused of crimes, consumers in debt, children in need of care, or business people in commercial disputes, as quickly as possible. This access should be provided at the lowest cost consistent with open justice so that citizens have confidence in, and respect, for the system of justice.

Over the last year, the courts have seen great change and have achieved much in conjunction with their partners. Significant progress has been made in protecting the vulnerable by tackling domestic violence through both criminal and civil courts, and victims and witnesses protected through better case management and improved safety arrangements. Justice is also being provided in other ways, such as mediation in both civil and family cases so disputes are resolved faster and in less adversarial ways.

During the year, a blueprint for delivering simple, speedy, summary justice in magistrates' courts was launched to reduce delay and make better use of every hearing. In the pilot areas where this was tested, the impact has been very positive with a large reduction in the time taken between first hearing and trial, an increase in guilty pleas at first hearing and those pleading guilty now being sentenced at first hearing.

A similar focus on community justice dealing with the specific concerns of local residents has been successful leading to a decision to introduce it across 11 new areas over the coming year.

The courts have continued with much success to address the challenge of maintaining and improving performance whilst meeting the requirement faced by all Government Departments to work within tight financial constraints.

The Report highlights these and other achievements made by the agency and looks to the future to sustain the momentum and pace of change, and has made a public commitment to deliver a palpable step change, a breakthrough in the public's experience of the justice system.

Copies of the report have been placed in the Libraries of both Houses. The report is also available on the Courts Service website at www.hmcourts-service.gov.uk

Tribunals Service

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): I have today laid before Parliament the Annual Report and Accounts for the Tribunals Service covering the period for financial year 2006-07.

Tribunals are a vitally important part of our legal system, providing access to justice for a large community of users across a wide range of issues, from employment disputes and entitlement, to benefits to asylum and immigration rights. The Tribunals Service has created a new unified administration for the system, bringing tribunals together as an integrated part of our justice system, with the aim of making them more obviously independent and easier for the citizen to use. This first Annual Report sets out its progress over the first year of operation in developing plans to thoroughly modernise the way those services are provided.

Copies of the Report have been placed in the Libraries of both Houses. The Report is also available on the Tribunals Service website at www.tribunals.gov.uk/publications.htm/.

Youth Justice Board

The Minister of State, Ministry of Justice (Mr. David Hanson): The Youth Justice Board's Annual Report and Accounts for 2006-07 has been laid before Parliament today.

Copies of the Report are available on the Youth Justice Board Website at http://www.yjb.gov.uk/en-gb/yjb/Howwework/.

WORK AND PENSIONS

Agency Annual Reports and Accounts

The Secretary of State for Work and Pensions (Mr. Peter Hain): I am pleased to announce that the Department for Work and Pensions has today laid in the House the 2006-07 annual reports and accounts for its executive agencies: Jobcentre Plus (HC712), The Pension Service (HC721), the Disability and Carers Service (HC805), and The Rent Service (HC684).

Copies are available in the Vote Office and the Printed Paper Office. Publication of the annual report and accounts of the Child Support Agency has been delayed until after the Summer Recess.

Disability Rights Commission

The Secretary of State for Work and Pensions (Mr. Peter Hain): The Disability Rights Commission's Annual Report and Accounts 2006-07 have been published today and laid before Parliament. The Annual Report demonstrates the DRC's continuing success in its important work to eliminate discrimination against disabled people; promote equal opportunities; encourage good practice, and to keep the working of the Disability Discrimination Act and the DRC Act under review.

The Disability Rights Commission's responsibilities will be taken over by the Commission for Equality and Human Rights when it opens for business in October 2007.

Social Fund Annual Reports

The Secretary of State for Work and Pensions (Mr. Peter Hain): I am pleased to announce Publication of the Annual Report on the Social Fund 2006-07 and the Social Fund Commissioner's annual report.

The Annual Report on the Social Fund for 2006-07 (Cm 7161) was published today and has been laid before Parliament. Copies are available in the Vote Office and the Printed Paper Office.

The Report records that total gross expenditure in 2006-07, excluding Winter Fuel Payments, was £997 million. This included more than 271,000 non-repayable grants and over 2.3 million interest free loans together worth over £827 million, and Funeral and Cold Weather Payments totalling more than £49 million. In addition around 237,000 Sure Start Maternity Grants worth almost £120 million were made, and 8.6 million households benefited from a Winter Fuel Payment at a cost of around £2 billion.

The report also confirms that reforms to the Social Fund loan scheme were introduced from April 2006, with extra net funding of £210 million over the three years 2006-07 to 2008-09 to support the changes.

The Social Fund Commissioner's report has also been published today and copies will be available in the Libraries of both Houses.

Written Ministerial Statements

Wednesday 25 July 2007

TREASURY

Economic Affairs

The Chancellor of the Exchequer (Mr. Alistair Darling): I propose to present the pre-Budget report and the conclusions of the Comprehensive Spending Review in a single statement to the House in October.

ECOFIN

The Chancellor of the Exchequer (Mr. Alistair Darling): The Economic and Financial Affairs Council was held on 10 July in Brussels. The items on the agenda were as follows:

Presidency Work Programme

The Portuguese presidency presented its work programme for the next six months. This includes: economic policy, in particular the enlargement of the euro area, the implementation of the Stability and Growth Pact, improving the quality of public finances, the Lisbon strategy for jobs and growth, and the mid-term review of the European growth initiative; the EU's better regulation initiative; completion of the EU's internal market; and the EU's budget for 2008.

Implementation of the Stability and Growth Pact

Ministers agreed Council Opinions on the Stability Programme for Austria and the Convergence Programme for the Czech Republic. Euro area member states are required every year to present stability programmes, and non-euro area member states convergence programmes under the terms of the Stability and Growth Pact. Ministers agreed a decision that the Czech Republic has not complied with the terms of its Excessive Deficit Procedure, and examined a communication from the Commission which concludes that Hungary is taking sufficient action in response to its Excessive Deficit Procedure.

The Euro

Ministers adopted decisions allowing Cyprus and Malta to join the euro on 1 January 2008, and regulations setting permanent conversion rates for the Cypriot pound and the Maltese lira against the euro.

Public Finances in 2007

Ministers held an exchange of views on the Commission report, which contained proposals aimed at strengthening the functioning of the preventive arm of the Stability and Growth Pact. Ministers expect to return to the topic at ECOFIN in October.

International Accounting Standards Board: Governance and Financing

Ministers agreed conclusions emphasising the importance of International Financial Reporting Standards for EU financial markets and the need for strong governance and stable funding of the International Accounting Standards Board.

Global Navigation Satellite System (GALILEO)

Ministers held an exchange of views on the possible additional public financing of Galileo, the EU's global satellite navigation system. The UK continued to push for full clarity on costs and a solution that avoids any re-opening or revision of the financial perspective.

IMF Managing Director

Following the resignation of the IMF director, Rodrigo de Rato, ECOFIN also discussed the appointment of a successor. Dominique Strauss-Kahn was suggested as a European candidate. While the Chancellor stressed that he would be a strong and credible candidate, he said it was important for the IMF to run an open and competitive process for the managing director post.

Managing Public Money

The Chief Secretary to the Treasury (Andy Burnham): Today the Treasury publishes "Managing Public Money". Formally it will replace "Government Accounting" from October. It is part of a suite of documents of which the Code of Good Practice on Corporate Governance in Central Government Departments is the apex. It can be found on the Treasury website. Copies are available in the Library of the House.

The new document makes no significant change to the high standards of stewardship expected of those responsible for handling public resources. Rather, it brings out clearly and concisely how important it is that public money is well managed and achieves good value. At the same time it emphasises that Parliament expects these standards to be honoured and will hold public servants accountable against them.

Tax Credit Administration

The Financial Secretary to the Treasury (Jane Kennedy): HM Revenue and Customs (HMRC) has identified an administrative problem with a number of older tax credit awards. It has come to my attention that officials did not follow the correct procedure when reopening some of these cases. This now needs to be remedied.

HMRC have estimated that they need to review around 160,000 awards in total from 2003-04 and 2004-05, out of the 6 million households that are benefiting from tax credits. These are cases where information that reduced the households' entitlement came to light after the award for that year had been finalised and closed.

HMRC will shortly be writing to these households to inform them that their case is being reviewed in order to correct this administrative error. HMRC will contact them again once they have completed their review.

Those affected will not need to take any further action themselves, and no household who has their case reviewed as a result of this issue will have their tax credit award reduced.

Although the revised award was an accurate reflection of the households' new circumstances, the process by which HMRC took this into account was not correct. HMRC should have notified recipients in writing at the time that it was examining the award after finalisation, but did not do so in certain cases.

HMRC is now putting in place correct procedures for all subsequent cases, to make sure this problem does not arise again. As part of this, HMRC will also write to around 90,000 households about their 2005-06 awards to make sure they are finalised correctly.

Value Added Tax (Betting, Gaming and Lotteries) Order 2007

The Exchequer Secretary to the Treasury (Angela Eagle): The above order subject to the affirmative procedure largely maintains the status quo on the taxation of participation fees for gaming and extends the scope of taxation for charges made for games played against the operator and also to gaming provided illegally. The measure also includes some minor changes resulting from amendments to social law. The provisions of the order are explained in the explanatory memorandum, which is available in the Vote Office and the Library of the House.

The order is being laid today and will come into force on 1 September 2007 because:

it is consequent upon secondary legislation The Gambling Act 2005 (Operating Licence Conditions) Regulations 2007 coming into force on 1 September 2007 made under the Gambling Act 2005 and laid before Parliament in draft on 11 June 2007; and

the main provisions for remote gaming duty were included in the Finance Bill 2007, which received Royal Assent on 19 July 2007.

Time will be made available to debate the order as soon as possible after the House returns from the summer recess.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Regulatory Reform (Next Steps)

The Secretary of State for Business, Enterprise and Regulatory Reform (Mr. John Hutton): The Government are today publishing the document "Next Steps on Regulatory Reform", which sets out a range of initiatives that will help realise the benefits of better regulation for businesses, third sector organisations and the public sector front line.

I have placed copies in the Libraries of the House.

Real progress has been made on regulatory reform in the UK over the past 10 years. The UK is taking forward an ambitious and wide-ranging regulatory reform agenda. Delivering on this is central to our overall economic aims - meeting the challenges of globalisation, improving productivity and promoting innovation - in a modern and fair society.

Major improvements include:

improving the stock of regulation with plans for £2 billion savings leading to a 25 per cent. cut in administrative costs by 2010; and

progress towards a risk-based culture in regulators.

The new Department for Business, Enterprise and Regulatory Reform (BERR) leads the Government's drive on better regulation. The Next Steps on Regulatory Reform document sets out how the new Department will continue to improve its own regulatory performance, plus the steps the Government as a whole will take to drive improvement.

Action will be taken forward in three principal areas:

A. Targeting simplifications to improve the effectiveness of regulation

(i) BERR's own Simplification Plan

Rethinking Consumer Protection Legislation

BERR is launching a review of the consumer protection regime in the UK. This will:

examine the scope for simplification of existing legislation and enhancing flexibility and future-proofing;

explore avenues to simplify and rationalise enforcement, allowing greater targeting of action on higher risk sectors or businesses; and

investigate the options for improving consumer empowerment and redress.

Working to make employment law more straightforward for all parties

BERR will be working to implement the Gibbons Review of Employment Tribunals, and has an ambitious programme to improve the use of guidance and tools to give business more confidence in dealing with employment issues.

(ii) Relieving the burden of health and safety risk assessment in small and lower risk businesses

The Health and Safety Executive (HSE) is launching a widely applicable set of concise, practical and sector-specific example risk assessments for a convenience store/newsagent, an estate agent and a general office cleaning contractor. These bring together in one document a sensible response to all their health and safety risk assessment requirements. Example assessments for dry cleaning, hairdressing, cold storage warehousing and catering are planned for launch in November.

(iii) Health and Safety—improving outcomes, easing the burden on low risk businesses

The Government, with support from HSE, are launching a review to consider, from the perspective of low-risk businesses (especially small firms), what more can be done to deliver strong health and safety outcomes in a modern working environment while minimising the burden on business and maintaining the confidence of society. The review is to report by Spring 2008.

B. Helping people understand regulation

(i) High quality and timely guidance

The Government are announcing that they will improve their performance in producing good quality and timely guidance for complying with regulation which has an impact on business. This would be achieved through a package of changes including developing a code of practice for guidance and working to give greater prominence to guidance in the regulatory process.

(ii) Better communication of change

For the next Common Commencement Date in October 2007 the Government will pilot a new approach to providing businesses with information on regulatory change. They will produce a summary document highlighting the most important changes and ensure that this is seen by as many businesses as possible.

C. Holding Government and regulators to account

(i) Working with Parliament

The Government would like to work together with key members of both Houses on how Parliament can play an even fuller part in scrutinising their work to deliver regulatory reform.

(ii) Creating a statutory duty on regulators to address burdens

The Government will work with regulators to frame a power which would allow such a duty to be introduced through secondary legislation at a future date. They would require those regulators whose focus is primarily on business to keep burdens under review and take action to minimise unnecessary burdens.

(iii) Applying the principles of the Regulators' Compliance Code to public service inspectorates

For regulators whose primary work is with business, the Government are developing a Compliance Code which puts risk based enforcement on a statutory footing. The Government will review the case for applying the principles of the code to those regulators whose principal responsibility lies in the public sector.

Small Firms Loan Guarantee

The Minister for Competitiveness (Mr. Stephen Timms): I am today laying a copy of the first Annual Report to Parliament on the operation of the Small Firms Loan Guarantee (SFLG) scheme. SFLG is the Government's principal intervention in the debt market designed to help Small and Medium-sized Enterprises with viable business propositions but insufficient collateral to secure a loan for debt finance.

An independent review, the Graham Review, recommended changes to modernise and streamline SFLG in 2004, changes which were implemented from December 2005. The new form of the scheme focuses on start-ups and young businesses under five years old, simplifies the eligibility criteria, and enables participating lenders to take all operational decisions regarding individual loans, providing their normal commercial lending criteria but for the lack of security are met. BERR has been engaging strategically with lenders to gain a better understanding of how the scheme is being used. Whilst it is too early to assess the full impact of the new form of the scheme on the debt finance gap, the Annual Report highlights initial indications of progress against each of the benchmarks set by the Graham Review. Going forward the focus now will be to continue to build strategic relationships with existing lenders to ensure the full potential of SFLG is exploited, and to extend the lender base to further broaden availability of the scheme. Copies of the report have been placed in the Libraries of the House.

UK Civil Plutonium and Uranium Figures

The Minister for Energy (Malcolm Wicks): The Department will be placing the figures for the United Kingdom's stocks of civil plutonium and uranium as at 31 December 2006 in the Libraries of both Houses. In accordance with our commitment under the "Guidelines for the Management of Plutonium", we will also send the figures to the Director General of the International Atomic Energy Agency (IAEA), who will circulate them to Member States. The figures will be available on the Health and Safety Executive (HSE) and the IAEA websites.

The figures show that stocks of unirradiated plutonium in the UK totalled 106.9 tonnes at the end of 2006. Changes from the corresponding figures for 2005 are a consequence of continuing reprocessing operations (e.g. as reflected in the increased quantity of unirradiated separated plutonium in product stores at reprocessing plants. High enriched uranium (HEU) stocks decreased mainly as a result of down-blending material recovered during decommissioning of the UK's gas diffusion enrichment plant. The increase in the civil depleted, natural and low enriched uranium figures reflects the increased stocks at the UK enrichment plant at Capenhurst.

CHILDREN, SCHOOLS AND FAMILIES

Electronic Common Assessment Framework

The Parliamentary Under-Secretary of State for Children, Schools and Families (Kevin Brennan): I am announcing today the support the Government will provide to front-line professionals in children's services by implementing a single national IT system to support the Common Assessment Framework (eCAF).

The Common Assessment Framework (CAF) is a key element of the Every Child Matters programme to transform children's services by supporting more effective prevention and early intervention. Its goal is to provide a standardised approach for practitioners in the holistic assessment of a child's needs and the design of an integrated service to meet those needs.

By facilitating a greater number of early interventions, eCAF will shift the focus from dealing with the consequences of difficulties in children's lives to preventing them from happening in the first place. By facilitating better collaboration between practitioners and encouraging needs-led intervention, eCAF will directly improve the experience of service provision for children and families.

Any given case with a child can involve multiple agencies working across borders, both geographic and organisational. It is, therefore, essential that any supporting mechanism for CAF provides practitioners from different sectors easy access to key information concerning the assessment to allow them to plan, monitor, and review a co-ordinated approach to the delivery of the most appropriate services. eCAF is the response to this need.

eCAF will allow a practitioner to create electronically, store, and share a CAF securely. Completion of CAFs by different agencies and the subsequent exchanges of data between relevant agencies promote multi-agency working and early interventions. The complexities of cross border work are removed, as eCAF provides a consistent approach for all practitioners working in different agencies and locations, thus facilitating the effective and efficient delivery of a coordinated service.

eCAF will only hold information about some (not all) children, with consent, and for a limited period of time. It will offer a systematic means of capturing:

details of child/young person being assessed (i.e. name, gender, date of birth, contact details, ethnicity and immigration details);

details that might be useful for the practitioners working with the child (i.e. child's 1st language, parent's 1st language, disability and whether an interpreter or any other special requirements are needed);

people present at the assessment;

details of parent/carer (i.e. name, relationship, contact details);

family structure, described by the practitioner using free text;

details of person undertaking assessment (i.e. name, organisation and contact details);

name and contact number for the lead professional if applicable;

details of other services working with the child/young person (i.e. school, GP);

assessment summary, appropriately captured by the practitioner using free text; and consent based, planned actions, reviewing progress and a summary of the outcomes, all summarised appropriately by the practitioner using free text.

Children, young people, or where appropriate their parents or carers will be able to ask to see their records and to challenge any inaccuracies, in accordance with Data Protection legislation.

Using eCAF, the assessment process will be enhanced through the removal of unnecessary administration and inherent business issues, allowing practitioners to focus on activities that have the greatest impact. Business issues that eCAF will reduce include unnecessary repeat assessments, inappropriate referrals and inappropriate interventions. Efficiency gains from the reduction of these business issues are expected to yield savings estimated at £150 million over the first eight years from the inception of the national system. We do not intend to reduce funding for children's services, but instead to enable savings realised to be reinvested in more and better services for children and more effective use of staff time. We anticipate that this will enhance staff satisfaction with their jobs.

Using proven technology, the system will be built and implemented on a single nationally, hosted infrastructure that all practitioners will use. Data will be held in a single physical location enabling practitioners to easily work together, accessing the most up-to-date information. The system will have the ability to share data with other case management systems in order to avoid duplication of input when specialist assessments are created. Locally owned systems can be modified to take advantage of this functionality.

The Government will ensure that the eCAF system is secure, and will therefore ensure it complies with rigorous security standards. Access to it will be granted only to authorised users who have undergone appropriate checks, including those provided by the Criminal Records Bureau. Practitioner use of the eCAF system will be audited to ensure information is only accessed where it is necessary for practitioners to do so, and so guard against inappropriate access by authorised users.

Our decision to provide a single national eCAF system has been arrived at using input from stakeholders, the lessons learnt from five local eCAF pilot systems and a comprehensive analysis of eight options, covering a range of variants, from devolved responsibility to a more central approach.

The Government are planning to commit one-off implementation costs estimated to be £44.5 million in total across the next six financial years (including VAT)—this includes funding to roll out the system nationally and ensure practitioners are trained to use the system properly. Operating costs, thereafter, will be £6.4 million per year (including VAT). Both set-up and running costs will be funded by central Government, so that the costs to local authorities do not form a pressure on the Council Tax.

Implementation will be led by a dedicated project team within DCSF. The project team will work closely with stakeholders across local authorities, to ensure that developments continue to be relevant and lead to more effective practice.

COMMUNITIES AND LOCAL GOVERNMENT

Leaseholders' Monies

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Iain Wright): I have published today a consultation paper on Accounting for Leaseholders Monies which sets out proposals to amend the requirements under the Commonhold and Leasehold Reform Act 2002 (the 2002 Act) for landlords to provide a regular statement of account for service charges to their tenants and for service charge monies to be held in separate designated bank accounts. A copy of the paper has been placed in the Library.

The Government's view is that service charge payers are entitled to receive a certain minimum level of accounting information about the monies they provide. Measures contained in the 2002 Act set out to provide greater transparency and protection for service charge monies.

Following the introduction of the 2002 Act further consultation took place with stakeholders on the content of the regulations that would provide the specific detail of how the accounting provisions would operate. A full public consultation was undertaken in June 2004. Following detailed consideration of the responses to the June 2004 paper it has been decided that our proposals for the content of the regular statement of account, requirements of the certification process and for the holding of service charges in a separate account should be revised. This was in order to examine fully whether the objectives behind the legislation could be achieved without creating unnecessary burdens upon landlords and ultimately additional charges for leaseholders that were highlighted as arising under previous proposals.

The consultation runs until 4 October 2007 and the Government would welcome responses to their proposals up until that date.

COMMUNITIES AND LOCAL GOVERNMENT

Local Government

The Minister for Local Government (John Healey): On 27 March 2007 my hon. Friend the Member for Oldham, East and Saddleworth (Mr. Woolas), the then Minister for Local Government, announced that 16 of the 26 proposals from local authorities for the creation of unitary local government would proceed to stakeholder consultation. These proposals were in response to our "Invitation to Councils" issued on 26 October 2006.

The stakeholder consultation ended on 22 June. Since then we have reassessed the 16 proposals against the five criteria in our original invitation, having regard to all the further material and representations received as a result of that consultation and to all other currently available relevant information.

These five criteria are that change to future unitary structures must be affordable, and be supported by a broad cross-section of partners and stakeholders; and the future structures must provide strong, effective and accountable strategic leadership, deliver genuine opportunities for neighbourhood flexibility and empowerment, and deliver value for money and equity on public services.

My right hon. Friend, the Secretary of State, has now decided to proceed as follows.

She is minded to implement the nine unitary proposals listed in table 1 below, if and when the necessary legislative provisions in the Local Government and Public Involvement in Health Bill, which passed this House on 22 May and is currently being considered in the other place, are enacted.

Her judgment is that there is a reasonable likelihood that all these proposals, if implemented, would achieve the outcomes specified by the five criteria, and we believe we can afford to implement them all. We do not therefore need to prioritise these proposals in order to decide which ones to implement, as explained in the written statement on 27 March.

These new unitaries, as they move towards implementation, will need to take into account our developing agenda for empowering citizens and communities and for stronger economic leadership, as set out in the Government's Green Paper, "Governance, of Britain", published on 3 July, and the review of sub-national economic development and regeneration, published on 17 July. Implementation will also need to take into account the recommendations of our Councillors Commission, when it reports in November.

We recognise on the basis of the available information that in four cases - the proposals from Bedford borough council, Chester city council, Exeter city council, and Ipswich borough council—there are risks to their achieving the outcomes specified by the affordability criterion. Accordingly, we are asking these councils to undertake further work and submit additional information on the financial viability of their proposals. We will have regard to this information along with all other relevant available information before taking final decisions, if and when the Bill is enacted.

Implementing Bedford borough's proposal means that we must consider the future local government structures for the remaining county area. We are satisfied that this area needs unitary local government, and we intend formally to invite all the other councils in Bedfordshire to propose a unitary solution that would meet our five criteria for that remaining area.

Once implemented these nine proposals, on the basis of councils' current estimates, will save over £150 million annually, giving councils opportunities for improved services and lower council taxes. The proposals open the door to creating new flagship councils which can lead the way on meeting today's challenges of promoting prosperity, empowering citizens and communities, and modernising local service delivery.

Table - 1 Proposals we are Minded to Implement

Councils Submitting Proposals	Proposed unitary structure
Bedford Borough Council	Bedford Unitary
Chester City Council	2 Unitary Cheshire
Cornwall County Council	County Unitary
Durham County Council	County Unitary
Exeter City Council	Exeter Unitary
Ipswich Borough Council	Ipswich Unitary
Northumberland County Council	County Unitary
Shropshire County Council	County Unitary
Wiltshire County Council	County Unitary

In addition, the Secretary of State is minded to request the Boundary Committee of the Electoral Commission to advise on Norwich city council's proposal, if and when the Local Government and Public Involvement in Health Bill is enacted. She intends to specify in her request that the matters on which the Committee's advice is sought include whether for the areas affected by this proposal—Norwich city and the remaining Norfolk area—there could be alternative unitary solutions involving boundary changes that would meet the five criteria set out in the original invitation.

She judges there is not a reasonable likelihood of Norwich city council's proposal, based on the city's current boundaries, if it were to be implemented, achieving all the outcomes specified by the five criteria, particularly the affordability criterion. We believe having regard to the circumstances of Norwich that alternative proposals based on revised city boundaries would achieve these outcomes.

Further, the Secretary of State is minded not to implement the six unitary proposals which were subject to stakeholder consultation and are listed in table 2 below.

Table - 2 Proposals we are not Minded to Implement

Councils Submitting Proposals	Proposed unitary structure
Bedfordshire County Council	County Unitary
Cheshire County Council	County Unitary
Cumbria Council	County Unitary
Northumberland Districts	2 unitary Northumberland
North Yorkshire County Council	County Unitary
Somerset County Council	County Unitary

For two of these proposals—from Bedfordshire county council and Cheshire county council we judge there is a reasonable likelihood that, if implemented, they would achieve the outcomes specified by the five criteria. However, these proposals are alternatives to unitary proposals that the Secretary of State is minded to implement as we believe these latter proposals are likely to deliver to a greater extent the outcomes on leadership, neighbourhood empowerment, and public services than the proposals from the county councils. For the remaining four proposals we judge there is not a reasonable likelihood of them, if implemented, achieving the outcomes specified by all the five criteria.

I also confirm that we remain minded not to implement the 10 proposals which my hon. Friend announced in March would not proceed to stakeholder consultation.

In all cases where unitary proposals are not proceeding, all the councils involved now need to put in place new collaborative ways of working together to promote the prosperity of their local areas, empower their citizens and communities, and modernise local service delivery. In such areas we will look to the councils together to achieve the same level of outcomes and efficiency gains as the highest performing unitary councils.

The five pathfinder proposals from councils in Buckinghamshire, Dorset, Hertfordshire, Lincolnshire, and Suffolk should, as they are taken forward and develop, lead the way for all councils in remaining two tier areas to deliver better services and achieve efficiency gains.

Accordingly, I am today informing the pathfinder councils that we wish to work with them with a view to their pioneering new and innovative models of two tier working as explained in our White Paper "Strong and Prosperous Communities: The Local Government White Paper" (Cm 6939-1). As indicated in the White Paper we intend these pathfinders to be subject to independent long-term evaluation. This evaluation, reporting at regular intervals, will look at both the processes of changing to new governance models and at the results the new models are delivering.

DEFENCE

Ballistic Missile Defence

The Secretary of State for Defence (Des Browne): On 5 February 2003 the the Secretary of State for Defence announced the Government's agreement to a request from the US to upgrade the Ballistic Missile Early Warning System radar at RAF Fylingdales. The UK already makes a contribution to US capability in the area of missile warning, through our operation of the radar at RAF Fylingdales. That upgrade process is now complete and we expect that the radar will switch its operations to the new equipment from August 2007. There is no change to the existing UK-US mission for the radar and the station remains under full UK command. Its primary mission is to warn of ballistic missile attack, with secondary functions of space surveillance and satellite warning. The radar will contribute to the US ballistic missile defence system, alongside a global network of other US-owned sensors based on land, at sea and in space and the data it produces is shared between the UK and US military authorities. The UK will have full insight into the operation of the US missile defence system when missile engagements take place that are wholly or partly influenced by data from the radar at RAF Fylingdales.

Also, at RAF Menwith Hill, equipment will be installed and operated by the US Government to allow receipt of satellite warnings of potentially hostile missile launches, and will pass this warning data to both UK and US authorities. The data will also be fed into the US ballistic missile defence system for use in their response to any missile attack on the US. This will guarantee the UK's continued access to essential missile attack warning data, as well as enhancing the US's ability to deal with any attack aimed at their country.

The Government welcome US plans to place further missile defence assets in Europe to address the emerging threat from rogue states. We welcome assurances from the US that the UK and other European allies will be covered by the system elements they propose to deploy to Poland and the Czech Republic and we have been exploring ways in which the UK can continue to contribute to the US system as well as to any future NATO missile defence system.

These developments reflect the Government's continuing commitment to supporting the development of the US missile defence system. We continue to regard this system as a building block to enhance our national and collective security. NATO has made no decisions about acquiring missile defence for the alliance, and we want to examine how the US system can be complemented and built upon to provide wider coverage for Europe. We have no plans to site missile interceptors in the UK but will keep this under review as the threat evolves. We also want to reassure Russia about the defensive nature and intent of the US system as it develops and to take forward alliance cooperation with them in the field of missile defence.

Operation Banner

The Minister for the Armed Forces (Mr. Bob Ainsworth): On 31 July, Operation Banner will come to an end; the Army, Royal Air Force and Royal Navy having delivered continuous support to the police and civil authorities in Northern Ireland for 38 years. It will have been the longest continuous deployment of UK Armed Forces in their history.

As we move into a new era with fewer than 5,000 troops resident in Northern Ireland, trained and available for deployment worldwide, the military will retain some limited but specific responsibilities with the capability to deploy in situations of extreme public disorder in support of the Police Service of Northern Ireland under a new operation to be known as Operation Helvetic. The troops deployed in such circumstances would come from wherever they are available at the time. In addition, provision of Explosive Ordnance Disposal (EOD) will continue.

Across the UK the Armed Forces can provide support to the civil authorities during emergencies under normal Military Aid to Civil Authorities tasking arrangements. Where there is an imminent threat to life, such as major accident or natural disaster, the authorities can call upon local military commanders for support. After 1 August the vast majority of military support in Northern Ireland will be broadly comparable to the assistance that is currently provided in Great Britain, tailored for the particular circumstances in Northern Ireland. Additionally, whilst the Armed Forces are not responsible for maintaining national security in the UK, that does not mean that they would not and could not provide specific support in this area to a civil authority when requested to do so. Again the approach in Northern Ireland will be brought more closely into line with that on the mainland.

As indicated in the Good Friday Agreement, military helicopters will continue to be based in Northern Ireland, but with a worldwide deployable role. As a consequence,

essential flying training will continue in order to maintain the skills of the aircrew and, with Northern Ireland designated as Low Flying Area 19, the training emphasis will be similar to other areas within the UK. Helicopters will also continue to be used in Northern Ireland in support of the civil authorities. It is important to note that the civil authorities in Northern Ireland do not have access to large numbers of civilian helicopters and we will continue to provide support to them.

1 August marks the beginning of a new era for the UK Armed Forces in Northern Ireland when, as with other parts of the country, the military will become very much part of the community. The impact of the commitment since 1969 has been considerable on both the military themselves and on the MOD civilians supporting them. They and the community at large have suffered both death and injury. We should take this opportunity to remember the commitment, bravery and sacrifice of all those who have served over so many years in helping deliver the current, more settled and more optimistic circumstances. Our recognition will culminate in a Commemorative Service to be held in the spring of 2008 as announced by my hon. Friend the Under-Secretary of State for Defence in his statement of 9 May 2007, *Official Report*, column 11WS.

RAF Hercules XV206 Board of Inquiry

The Minister for the Armed Forces (Mr. Bob Ainsworth): I am able to inform the House today of the findings of the Royal Air Force board of inquiry into the loss of the RAF Hercules XV206 in Afghanistan on 24 May 2006.

The purpose of a board of inquiry is to establish the circumstances of the loss and to learn lessons from it; it does not seek to apportion blame.

The board of inquiry was convened on 25 May 2006 and has considered a mass of evidence. The board has established that on 24 May 2006, an RAF Hercules C130K on a routine operational passenger and freight flight landed at Lashkar Gar Tactical Landing Zone. On landing the aircraft suffered significant damage to the front port main landing gear, resulting in debris puncturing the port wing fuel tanks, which in turn caused an uncontrollable wing fire leading to the loss of the aircraft. The board has concluded that these events followed the detonation of an explosive device buried under the surface of the tactical landing zone. Following extensive investigation the board concluded that the device was an anti-tank land mine.

A "Military Aircraft Accident Summary" is being placed in the Library of the House and on the MOD's website. In addition, a redacted version of the main body of the board of inquiry report will also be available on the website. As you will appreciate, the safety of our people is a principal consideration and we have removed from the report any information that might endanger the security or capability of UK and coalition personnel or be of use to an enemy. We have, however, tried to be as open as possible and have carefully considered the public interest arguments both for and against disclosure of the information in the report. We have ensured that each redaction can be justified by an appropriate exemption in the Freedom of Information Act.

I remind the House that the purpose of the inquiry in identifying those factors which contributed to the loss is to identify lessons to be taken forward, rather than to apportion blame. The board made a number of recommendations that we will study closely. Indeed, we have acted on many of them already. The main recommendation was that we review the force protection procedures at tactical landing zones. Air Command and Permanent Joint Headquarters have developed revised force protection procedures and tactics to be employed at tactical landing zones in operational theatres. These are now being used by force protection teams on operations in both Iraq and Afghanistan.

The board of inquiry concluded that, had the aircraft been fitted with explosion suppressant foam, it would not have prevented the loss, as explosion suppressant foam does not prevent fuel leaking if the tank is punctured.

I express my gratitude to the president of the board and his team for their painstaking work.

Future of ABRO and DARA

The Minister for the Armed Forces (Mr. Bob Ainsworth): On 22 May 2007, *Official Report*, column 67WS, the MOD announced its intention to create a new defence support group by merging together ABRO, retained DARA business units and certain other defence support facilities. I can now confirm that, following the successful conclusion of trade unions consultation, the MOD will proceed with implementation of this merger. The new support group will begin formal trading by April 2008, subject to securing the necessary parliamentary approval.

I can also confirm that work continues to progress the sale option for DARA's Rotary Wing and components businesses. Vector Aerospace have been selected as the preferred bidder, and I hope to be able to make a definitive announcement on the way forward later this year, subject to trade unions consultation, completion of due diligence, and the satisfactory conclusion of negotiations that demonstrate the sale provides best value for defence.

Mental Health Statistics

The Parliamentary Under-Secretary of State for Defence (Derek Twigg): I previously advised the House on 19 June 2007, *Official Report*, column 1752W, on 30 January 2007, *Official Report*, column 155W and on 8 January 2007, *Official Report*, column 91W that the Department has been reviewing its methods of collating figures on service personnel diagnosed with a mental health disorder. I am pleased to be able to inform the House that the review process has now been completed, and that the Defence Analytical Services Agency (DASA) will be publishing its first quarterly report based on an improved method of collecting information on its website www.dasa.mod.uk today. Copies will also be made available in the Library of the House.

The Department has moved from a system of recording and reporting mental health statistics relating solely to Operation TELIC (Iraq) to a new

system covering all in-service personnel assessed with a mental health disorder at the Ministry of Defence's out-patient Departments of Community Mental Health (DCMH). The report also includes a return for new in-patient admissions under the MOD's contract with the Priory Group. The new reporting system has several advantages over the old:

It is more comprehensive because it covers all service personnel;

It is more robust because it verifies individual records of mental disorder against other datasets—such as deployment databases;

There is less potential for subjective bias, because individual staff members in the DCMHs are no longer being asked to make a judgment as to whether a mental disorder is attributable to a specific operation.

The findings to date show that the numbers of service personnel assessed with a mental disorder in the first quarter of 2007 are low—around 5.8 per 1,000 strength, or 0.58 per cent. of the total armed forces population. The numbers of service personnel assessed with Post Traumatic Stress Disorder (PTSD) during the same period are around 0.3 per 1,000 strength or 0.03 per cent. of the total armed forces population. The actual numbers of individuals affected is 41 from Iraq and 13 from Afghanistan

Any casualty of combat is clearly a matter of regret, and we are committed to helping those whose mental health suffers. The publication of the first results of our new method of collecting and analysing data demonstrates our continuing commitment to understanding the true relationship between service on deployed operations and mental ill-health and to making the results available to inform Parliament and the public.

In recent years, the Department has developed pre and post deployment briefing and training to all personnel, but in particular to medical staff and the chain of command, to increase awareness of mental illness, and to mitigate the development of PTSD and other stress-related disorders occurring among service personnel. It has configured our mental health services to provide community-based mental health care in line with national best practice—establishing 15 military Departments of Community Mental Health across the UK (plus satellite centres overseas). It has introduced a Reserves Mental Health Programme to assess and, if appropriate, treat recently demobilised reserves. It has expanded the scope of its Medical Assessment Programme (MAP) at St. Thomas's hospital to provide assessments by an expert in military mental health for any veterans suffering from mental health problems since 1982. And it has been working with UK Health Departments and clinical experts to establish a new community-based arrangement that will make available to NHS health professionals expertise in the assessment and treatment of veterans' mental health problems; pilots to trial this arrangement will be launched shortly.

I am confident that the more comprehensive quarterly reports will offer an increased understanding of mental health statistics as the dataset grows over the coming years.

Nuclear Steam Raising Plant

The Minister for the Armed Forces (Mr. Bob Ainsworth): I am pleased to announce that a 10 year partnering contract worth up to £1 billion has been signed with Rolls-Royce, for the in-service support of Nuclear Steam Raising Plants which power the Royal Navy's submarines. This contract is a key deliverable under the "Defence Industrial Strategy" published in December 2005.

This landmark 10-year contract marks a significant departure from former practices and will transform Rolls-Royce's relationship with the Department in this sector. It will sustain the UK capability in the long term, enable the risks and rewards to be managed jointly, and is a further example of partnering in action. Rolls-Royce and MOD will work together as a single, high-performing team, to improve performance and drive down costs. Savings of over £120 million are anticipated over the term of the contract.

The Nuclear Steam Raising Plant drives not only our current submarines but will also power the new Astute submarines. Rolls-Royce has been supplying Nuclear Steam Raising Plants to the Royal Navy for almost 50 years from their production site at Raynesway in Derby, and this new contract will help secure the future of staff working in this part of the business.

The contract sustains the UK's capability to support Nuclear Steam Raising Plants, as stated in the defence industrial strategy, and uses the principles of the MOD's procurement reform programme to develop more effective relationships with one of our top ten major industrial partners.

Today marks a significant achievement in securing the UK's capability to support submarines in the future.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Landfill

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Joan Ruddock): My hon. Friend the Member for Exeter responded to a written answer on 6 June to the hon. Member for Milton Keynes South West, *Official Report*, column 556W, about the tonnages of waste from local authority areas within Greater London that were sent for disposal to a number of landfill sites in 2003 and 2005.

I have been advised that data for eight of the nine sites provided was incorrect and reflected the total amount of waste landfilled, rather than waste that came solely from Greater London.

The correct data (in tonnes) are shown in the following table:

Landfill Sites	2003	2005
Stewartby (L Field)	281 ,048	60,534
Rainham	315,310	667,257
Pitsea	219,067	305,137

Landfill Sites	2003	2005
Mucking	655,928	714,043
Calvert Pit No 4	440,375	528,507
Brookhurstwood	112,408	87,590
Brogborough	934,812	1,146,361
Arlesley	38,476	46,477
Appleford	57,236	157,915

FOREIGN AND COMMONWEALTH OFFICE

Wilton Park

The Minister for Europe (Mr. Jim Murphy): Wilton Park is an academically independent Executive Agency of the Foreign and Commonwealth Office. Its annual report and accounts for 2006-07 are laid before Parliament today.

Wilton Park has had a successful year, continuing to deliver high-value conferences contributing to our overall Foreign Policy effort. Wilton Park has significantly improved its financial performance over the past year and has met its financial targets.

HEALTH

NHS Pharmaceutical Contractual Arrangements

The Minister of State, Department of Health (Dawn Primarolo): My right hon. Friend the former Minister of State (Andy Burnham) announced the outcome of a Departmental review of the progress made in reforming market entry arrangements for community pharmacies in England, 11 January 2007, *Official Report*, col.19ws. This report found that whilst still early days, those reforms had had a modest albeit uneven impact and identified a number of concerns.

To address these, my right hon. Friend therefore announced a review of National Health Services pharmaceutical contractual arrangements. This would meet the commitment in paragraph 4.47 of "Our Health, Our Care, Our Say" to develop pharmaceutical contractual arrangements in line with the wider ambitions of that White Paper. He appointed Anne Galbraith, former Chair of the Prescription Pricing Authority, to lead the review.

Anne presented her report to Ministers in the spring. We have been considering and continue to consider Anne's findings and conclusions carefully. The All Party Pharmacy Group also recently completed its own inquiry into pharmacy services, published on 26 June at http://www.appg.org.uk/inquiry.htm.

I believe it is important that we reflect further on these reports in the context of wider developments that are taking place in the NHS, and in particular the wide-ranging review which my right hon. Friend, the Secretary of State for Health (Alan Johnson) announced to the House on 4 July 2007, *Official Report*, col 962.

We have therefore decided to defer responding formally to Anne Galbraith's review until later this autumn. We will come forward with a White Paper, which will set out our future proposals for developing pharmacy services and any legislative reform necessary. We remain committed to pharmacy, its place in the NHS and its role in delivering quality services to patients and consumers.

In advance of this, we are launching today a Departmental consultation on proposals to transfer to primary care trusts allocations residual money still held centrally at the Department to support NHS pharmaceutical services.

This money, known as the "Global Sum", covers a range of fees and allowances which are payable to community pharmacies under the national contractual framework, for the provision of dispensing and other essential pharmaceutical services. Central funding also similarly pays appliance contractors, who supply patients with items such as stoma and incontinence care aids.

This proposal, subject to Parliamentary approval, would not come into force earlier than April 2009. It would bring this funding stream into line with other funding, which already pays pharmaceutical contractors for the costs of the drugs and appliances that they dispense, and align funding systems with those of other primary care professionals such as general practitioners and dentists.

Although this is a small change to the legislation, it is important that the NHS and other organisations are given the opportunity to consider it in full prior to our introducing the necessary legislation.

The consultation document has been placed in the Library and copies are available to hon. Members from the Vote Office. It is also available on the Department's website at http://www.dh.gov.uk/en/Consultations/Liveconsultations/index.htm.

Consultation will end on 16 October 2007. We look forward to hearing the results. Subject to the outcome of this consultation, we expect to include these proposals in the forthcoming Health and Social Care Bill.

HOME DEPARTMENT

National DNA Database

The Parliamentary Under-Secretary of State for the Home Department (Meg Hillier): Further to the written ministerial statement made by my right hon. Friend the Member for Leigh (Andy Burnham) on 16 February 2006, on the subject of the National DNA Database, I am pleased to announce that we are establishing an Ethics Group to provide Ministers with independent ethical advice on the operation and practice of the National DNA Database (NDNAD).

The Ethics Group will be chaired by Professor Peter Hutton, Professor of Anaesthesia at the University of Birmingham. Its membership will be as follows:

Mrs Wendy Coates
Ms Madeleine Colvin
Mr Michael Menlowe

Dr Andrea Pearson

Dr Clive Richards

Dr Sarmeer Sarkar

Ms Sarah Thewlis

Dr Suzy Walton

The Ethics Group is being established as an Advisory Non-Departmental Public Body. Its role in relation to the NDNAD will include:

Reviewing the appropriateness of policy and practice;

Ensuring the maintenance of high ethical standards in decision making;

Ensuring that the public interest is properly served in relation to the way in which DNA samples and profiles are provided and stored.

The Ethics Group will also provide advice on:

Research applications that involve access to NDNAD samples or data;

Operational services provided by suppliers that rely upon access to NDNAD samples or data;

Matters referred to it by Ministers; by the NDNAD Strategy Board or on its own initiative.

The Ethics Group will submit a formal report by the end of April each year and this will be published by the Home Office.

I am arranging for the Protocol which will govern the operation of the Ethics Group to be placed in the Library.

Criminal Records Bureau

The Parliamentary Under-Secretary of State for the Home Department (Meg Hillier): I am pleased to announce that copies of the Annual Report and Accounts for the Criminal Records Bureau 2006-07 have been placed in the Library of the House today. Arrangements are now in hand for their publication.

Identity and Passport Service

The Parliamentary Under-Secretary of State for the Home Department (Meg Hillier): The Identity and Passport Service (IPS) annual report and accounts 2006-07 has been laid before Parliament today. Copies have been placed in the House Library and are available on the IPS website.

Immigration Removal Centre

The Minister of State, Home Department (Mr. Liam Byrne): Following the disturbances at Harmondsworth Immigration Removal Centre last November and Campsfield House Immigration Removal Centre in March this year, Mr. Robert Whalley CB was asked to carry out an inquiry into the circumstances leading to both events. I can announce that the inquiry is now complete and that the resulting report has been published today.

I am grateful to Mr. Whalley and his team for carrying out the inquiry and can confirm that the report has been submitted to Lin Homer, the Chief Executive of the Border and Immigration Agency. I have put a copy of the report in the House Library together with a copy of the agency's action plan responding to recommendations made by the report for both Harmondsworth and Campsfield House.

I have accepted Mr. Whalley's recommendations in full. Action plans have been prepared and combined with an ambitions strategy for increasing deportations of foreign nationals who are in the UK illegally. I have commenced this action plan yesterday by breaking the ground on the new Brook House Immigration Removal Centre at Gatwick. Alongside this I can announce I have approved plans to strengthen and expand Harmondsworth Immigration Removal Centre. We will incorporate lessons learnt from Harmondsworth and Campsfield in the new designs. The Brook House development, along with our plans to redevelop the Harmondsworth site, will boost projected detention space by 23 per cent.

The removal of failed asylum seekers was at its highest level in 2006. The increased capacity of the new wings at Harmondsworth and the new Brook House will provide a major contribution to our plans for doubling resources for immigration policy.

Prevention of Terrorism Act 2005 (Lord Carlile's Report)

The Secretary of State for the Home Department (Jacqui Smith): In accordance with section 14 (3) and 14 (5) of the Prevention of Terrorism Act 2005, Lord Carlile of Berriew QC prepared a report on the operation of the Act in 2006, which the Minister for Security, Counter-Terrorism and Police laid before the House on 19 February 2007.

I am grateful to Lord Carlile for his detailed report and I have given close consideration to his recommendations. Following consultation within my department and with other relevant agencies, I am pleased to place my response to Lord Carlile's recommendations in the House Library today.

JUSTICE

Civil Court Fees

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): I am today announcing the outcome of the recent consultation on Civil Court Fees. The consultation paper was published on 2 April and the consultation closed on 25 June. Some 77 responses were received from the judiciary, legal professions and other stakeholder bodies.

After careful consideration of these, I have, with some adjustments, decided to proceed with the changes proposed. Three statutory instruments containing the new civil, family and non-contentious probate court fees will be laid before the House tomorrow and will take effect on 1 October.

A further statutory instrument containing the new fees for magistrates courts is still being drafted and will be laid during recess. However, this should not affect the implementation date. A report analysing the responses to consultation will be published on 1 October.

The current system of exemptions and remissions has been replaced with a new system of concessions that will apply to all the fees orders. The scheme will be based on two distinct tests.

The first test will determine whether the applicant is automatically entitled to a full remission of the court fee. This will apply if the applicant is currently receiving a prescribed means-tested benefit or, failing that, can demonstrate that their gross household income is below a threshold that probably entitles them to such a benefit.

The second, more detailed test will consider both gross income and fixed out-goings to assess the applicant's net or disposable income. The applicant may then be required to pay a contribution towards the fee based on a fraction of their disposable income. This system is a simplified version of the means test for legal aid.

In light of the responses received, we have reconsidered the original proposals and have adjusted some of the fees accordingly, putting together a package of solutions that positively and affordably addresses the majority of concerns, those are:

A majority agreed that the new concession should have a residual discretion to grant remission in exceptional circumstances not covered by the means test. A clause has been added to allow this. Full training will be given to staff to understand what can and can not be considered exceptional to maximise consistency.

Vexatious litigants who would normally be exempt from paying court fees due to financial hardship will be required to pay the full fee of an application for permission to bring a case.

Some of the proposals for downstream civil fees have been adjusted to better reflect the cost of the stages concerned, for example the fee for allocation questionnaires and listing questionnaires has changed. This has created scope to make larger reductions to some of the higher issue fees than originally proposed, meeting the criticism that these were too low.

In the magistrates courts, a fee of £400 was proposed for appeals against the decisions of public authorities, mainly licensing decisions. Some respondents objected that this proposal was likely to deter those individuals appealing to the granting of liquor licenses in their neighbourhood. As a consequence, the definition has been amended so that it only applies to an appeal against a decision by a local authority to refuse a licence. The general fees which apply to miscellaneous magistrates civil proceedings will apply to an appeal against the granting of a licence.

Many consultees disagreed with the scale of proposed increases to fees for ancillary matters such as oaths, copying and searches. As a consequence, a number of detailed adjustments have been made.

The proposal to pilot daily hearing fees in the specialist commercial jurisdictions in 2008 was met with opposition from respondents representing the views of legal practitioners and the judiciary of those courts. We therefore propose to review the scope proposed, to then be the subject of a target consultation. As a result, any introduction of a scheme is unlikely to take place before 2009.

Land Registry

The Minister of State, Ministry of Justice (Mr. Michael Wills): On Friday 10 August 2007, Land Registry will launch a formal consultation exercise to seek views on proposals to create electronic legal charges (a form of mortgage) and other services that it proposes to make available on the Land Registry Network during 2008.

Proposed new Land Registration rules would, among other things, prescribe an electronic charge as the first kind of electronic disposition of registered land in England and Wales. Once an electronic legal charge has been created, a customer will be able to apply, using the Land Registry Network, for it to be registered.

It is proposed that the Land Registry Network will also be used to provide an enlarged and enhanced electronic lodgement service in respect of applications for certain entries in the register and an enhanced Chain Matrix, which is an information tool that allows conveyancers and others to view the status of linked conveyancing transactions.

Subject to the outcome of the proposals and the advice and assistance of the Rule Committee, it is anticipated that the new rules would come into force during 2008.

Office for Judicial Complaints

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): With the concurrence of the Lord Chief Justice I will today publish the first Annual Report for the Office for Judicial Complaints (OJC).

I welcome the publication of this report, which provides details of the OJC's first year of operation and the complaints which it has dealt with. The OJC undertakes a key role in supporting the Lord Chief Justice and myself in our joint responsibility for the system of judicial complaints and discipline.

The publication of this report marks the first occasion on which comprehensive details of complaints received about Judicial Office Holders have been made available to the public in this way.

I believe that the report reflects the significant work undertaken by the staff of the OJC under the leadership of the Head of the OJC, Dale Simon, during its first year of operation.

I am sure that the Office will build on this solid foundation in the coming years.

Copies of the Report are available in the Libraries of both Houses, the Vote Office and the Printed Paper Office. Copies of the Report are also available on the Internet at http://www.judicialcomplaints.gov.uk/publications/publications.htm.

PRIME MINISTER

Intelligence and Security Committee Report

The Prime Minister (Mr. Gordon Brown): I am grateful to the Intelligence and Security Committee for their report on Rendition (Cm7171). Following consultation with the Committee over matters that could not be published without prejudicing the work of the intelligence and security agencies, I have today laid the report before the House.

I have also laid before the House today the Government's response to this report (Cm7172).

Copies of the report and the response have been placed in the Libraries of both Houses.

Machinery of Government: Defence Trade Promotion

The Prime Minister (Mr. Gordon Brown): The Government believe trade promotion for defence exports should be more effectively integrated with the Government's general trade support activities, while recognising and accommodating the specific requirements of the defence sector.

Therefore:

the Government will look to move responsibility for defence trade promotion from the Defence Export Services Organisation to UK Trade and Investment. This will provide much greater institutional alignment across Government and build on the success of UK Trade and Investment;

within this new framework, account will need to be taken of the specific features of defence exports, including the continuing role of the Ministry of Defence. No change is envisaged to existing and planned agreements between the Ministry of Defence and other Governments which will continue to be administered by the Ministry of Defence. Also, those functions of the Defence Export Services Organisation which support UK defence policy and the Armed Forces will be allocated elsewhere within the Ministry of Defence.

The Cabinet Office will lead work across Government to develop an implementation plan which will be completed by the end of 2007. Institutional arrangements replacing the Defence Export Services Organisation will come into effect as quickly as possible thereafter.

Review of Intercept as Evidence

The Prime Minister (Mr. Gordon Brown): I am today announcing the Review of Intercept as Evidence to advise the Government on whether a regime to allow the use of intercepted material in court can be devised that facilitates bringing cases to trial while meeting the overriding imperative to safeguard national security.

The review will be conducted by the right hon. the Lord Archer of Sandwell, the right hon. the Lord Hurd of Westwell, the right hon. Member for Berwick-upon-Tweed (Alan Beith) and the right hon. Sir John Chilcot, who will also act as the chair. It will consider:

the benefits that might reasonably be expected to result from such use (in terms, for example, of increases in the number of successful prosecutions in serious organised crime and terrorism cases);

the risks, including from exposure of interception capabilities and techniques;

the resource implications of any change in the law;

the implications of new communications technology; and

the experiences of other countries and their relevance to the UK.

I have invited the review team, if possible, to report their conclusions by the start of the next parliamentary session in November.

SOLICITOR-GENERAL

Scott Review

The Solicitor-General (Vera Baird): My right hon. Friend the Attorney-General has made the following written ministerial statement:

"In January 2006 Mrs. Brenda Downes commenced judicial review proceedings in the High Court in Belfast relating to the Secretary of State for Northern Ireland's appointment of Mrs. Bertha McDougall as Interim Victims Commissioner. At the conclusion of the proceedings, the trial judge, Girvan J, raised a number of issues relating to the way in which Government have complied with their duty of candour in the proceedings and listed 68 questions that he considered needed investigating. He referred the matter to my predecessor in office, Lord Goldsmith.

Lord Goldsmith told this House on 23 November 2006 that he had decided to appoint an independent reviewer to investigate the concerns raised by Girvan J and to report to him. On 4 December 2006 he announced that he had appointed a very experienced counsel, Peter Scott QC, to carry out the review. His terms of reference were:

Further to the referral of papers to the Attorney-General by Girvan J and in the light of his judgments of 9 November and 20 November 2006:

to examine the concerns raised by the judge;

to examine in particular the way in which the Government carried out its obligation of candour in the judicial review proceedings relating to the appointment of an interim Commissioner for Victims and Survivors;

to report to the Attorney General with recommendations to prevent a recurrence of any shortcomings identified.

Mr. Scott completed his review and reported to the Attorney-General on 25 June 2007.

In the course of carrying out a thorough investigation, Mr. Scott has said that he received prompt and helpful responses from all those involved and that he believed that he had access to all the material he required. He found no evidence that warranted police investigation. Nor was there any intention on the part of the individuals involved to mislead or obstruct the court.

He has however concluded that there were serious shortcomings in the handling of a request under the Freedom of Information Act that preceded the litigation and, in some respects, in the litigation that followed, and Mr. Scott concludes his report by making a number of recommendations aimed at preventing a repetition of the issues that have arisen in this case. The recommendations are in three key areas—the handling of freedom of information requests, the handling of judicial review applications and, finally, on Northern Ireland court procedures. He recommends that while FoI requests and judicial review proceedings create handling difficulties, both would benefit from greater strategic control and more effective controls over processing, these to be strengthened by regular review to identify and address problems arising. In respect of court procedure, Mr. Scott suggests consideration is given to the adoption of a pre-action protocol, similar to that in use in England and Wales.

I have placed copies of report in the Library. In order to protect the identity of civil servants cleared of any intention to mislead or obstruct the court, with the exception of the most senior officers, the report has been anonymised."

TRANSPORT

Barking to Gospel Oak Railway

The Parliamentary Under-Secretary of State for Transport (Mr. Tom Harris): The Department for Transport has today announced a contribution of £18.5 million from the Productivity section of the

Transport Innovation Fund (TIP) to enhance the Gospel Oak to Barking line which is an important rail artery through east and north London. The improvements will deliver a number of benefits:

they will enable the line to carry more goods and larger containers from the important and growing ports in the south east, including the new development at London Gateway (Shell Haven), to other parts of the rail network including the West Coast Main Line; and

they will provide rail freight customers with an alternative route during future maintenance works on the North London Line.

TIP was established by the Future of Transport White Paper (July 2004). Productivity TIP is one part of this fund. It supports packages and schemes which are expected to make a major contribution to the UK's economy.

Further Productivity TIP schemes are still under consideration for funding. Announcements will be made on these on a case by case basis.

Highways Agency (Annual Report and Accounts)

The Parliamentary Under-Secretary of State for Transport (Mr. Tom Harris): The Highways Agency Annual Report and Accounts for 2006-07 are published today, under Section 7 of the Government Resources and Accounts Act 2000. Copies of the report are available in the Libraries of both Houses.

Highways Agency (Traffic Officer Service Progress)

The Parliamentary Under-Secretary of State for Transport (Mr. Tom Harris): In June 2003, the then Secretary of State for Transport committed the Government to establishing the Traffic Officer Service on England's motorways, reflecting the Highways Agency's change of focus to become a network operator. Since then, the Service has been rolled out in phases across the motorway network, supported by a strong partnership with the police. The Highways Agency has recently reported on the progress made during the period from April 2006 to March 2007. I am pleased to report that the Agency has now completed the full transfer of traffic management functions from the police and the Traffic Officer Service is now fully operational.

Starting in April 2004, the Traffic Officer Service has developed from the initial pilot in the West Midlands to a position where it is performing the full range of traffic management functions formerly undertaken exclusively by the police. The agreement with all 39 police forces that routine traffic management functions are now fully transferred to the Agency, leaving the police to focus on criminal activity, is the final milestone in establishing the Service.

The Traffic Officer Service is providing a valuable service to the public. Traffic Officers are now clearing incidents more quickly, reducing the impact of incident related congestion, and reducing the risk of secondary incidents. There is increasing recognition of the Service by road users and their experience of the Service is very positive.

Information gathered from the police confirms that the Service is enabling the police to redeploy resources on to core policing activities, and they are attending fewer minor incidents.

Now that the Traffic Officer Service is fully established, the Agency will measure the effectiveness of the Service through a performance framework and will publish the results in its annual report. The performance framework will be kept under review to ensure that the measures used are appropriate and support the objectives of the Agency to provide a safe and reliable strategic road network.

MSC Napoli

The Parliamentary Under-Secretary of State for Transport (Jim Fitzpatrick): This statement is to update the House on the progress of the salvage operation for the MSC Napoli. Since the ship was beached in Lyme Bay on 20 January, an effective salvage operation has removed almost all of the fuel oil and all of the containers from the ship. The final container was removed on 17 May 2007. Only very small amounts of fuel oil, located in hard to reach sections of the ship, remain.

The most significant remaining task is the disposal of the ship and work on this is already underway. We were aware that our options for disposing of the ship would be dependent upon the condition of the ship itself and this could not be assessed properly while the ship was beached. Accordingly, the MSC Napoli was refloated on 9 July. A subsequent dive survey revealed that the hull was in an extremely fragile state. To reduce the risk of the ship breaking up in an uncontrolled manner, the Secretary of State's Representative for Maritime Salvage and Intervention (SOSREP) took the decision to re-beach the ship.

A small amount of oil leaked from the ship during this operation. Clean up procedures were put into operation immediately and while a number of birds are reported to have been oiled, we believe that the environmental impact was not severe.

Once it was apparent that the entire ship could not be removed from Lyme Bay, SOSREP's advice was that the best course of action was to separate the ship into two parts. The bow section of the ship is relatively intact and retains buoyancy. On the other hand, the stern section, which contains the ship's engines, cannot be floated. By separating the two sections of the ship, we would have the opportunity to reduce the impact on Lyme Bay's natural environment that would result from dismantling the entire ship in its current position.

Accordingly, the Maritime and Coastguard Agency, with assistance from the Ministry of Defence, carried out a series of controlled detonations, using cutting charges, on the ship on 17, 18 and 20 July, with the aim of cutting the ship in two as cleanly as possible. Following the final set of detonations, the ship was separated on 20 July.

The stern section of the ship will need to be dismantled in its current location. The ship owners are currently tendering a contract for this work and are drawing up a detailed time-line. Plans for this work will need to take into account the protection of the local environment of Lyme Bay.

We believe that it should be possible to dismantle the bow section of the ship in line with the UK's strategy on ship recycling, with little or no adverse environmental impact. The bow-section of the ship will initially be held in deeper water in Lyme Bay, while the owners identify a suitable location for recycling.

I would like to express my thanks to SOSREP and the team of salvage, counter-pollution and environmental experts for their ongoing efforts in this situation.

WORK AND PENSIONS

Child Maintenance and Other Payments Bill

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. James Plaskitt): The Child Maintenance and Other Payments Bill currently before this House provides for a non-departmental public body, the Child Maintenance and Enforcement Commission, to administer the statutory scheme of child maintenance in place of the Child Support Agency. Schedule 1 of the Bill states that the Commission will be headed by a chair and a chief executive.

The recruitment process for the chair has already begun. This is in anticipation of Royal Assent in spring 2008: by commencing the recruitment process at this stage, we intend that a chair will be in place when the Commission comes into being as a legal entity following Royal Assent. This will ensure that the Commission has the clear leadership, direction and accountability it requires in place from day one.

Parliamentary approval for additional resources of £300,000 for this new service will be sought in a Supplementary Estimate for the Department for Work and Pensions. Pending that approval, urgent expenditure estimated at £300,000 will be met by repayable cash advances from the contingencies fund.

Deregulatory Review of Private Pensions

The Minister for Pensions Reform (Mr. Mike O'Brien): On 9 March this year, my right hon. Friend the Member for Stalybridge and Hyde, (James Purnell) the former Minister for Pensions Reform, announced that Chris Lewin and Ed Sweeney, who had been appointed as external reviewers to the Deregulatory Review, had published their consultation paper. I am pleased to advise the House that I am today laying a copy of their report in the Library of the House.

I am grateful to Chris Lewin and Ed Sweeney for all their hard work over the last seven months and for their thorough and thoughtful report.

The purpose of the Deregulatory Review is to simplify the private pensions regulatory framework and to reduce regulatory burdens, bearing in mind the need to strike a balance between protecting members' benefits and encouraging employer provision of pensions. The review was initially announced in the May 2006 Pensions White Paper.

We will carefully consider the recommendations and look forward to discussing them with key stakeholders. We expect to produce a full response in the autumn outlining our decisions.

The report will be available on the Department's pensions reform internet site later today.

Personal Accounts Delivery Authority

The Secretary of State for Work and Pensions (Mr. Peter Hain): I am pleased to announce the appointment of Paul Myners as the Chair Designate of the Personal Accounts Delivery Authority. His appointment will take effect as from 1 August. Paul Myners brings extensive experience to this role from his time as a director of N M Rothschild and Sons Ltd. and National Westminster Bank, in addition to non-executive positions at Marks and Spencer and Orange. This knowledge will be invaluable to the Delivery Authority in its initial advisory role to the Government and later when, subject to parliamentary approval, it faces the challenging task of implementing the personal accounts scheme.

Subject to parliamentary approval, personal accounts will be set up as a trust based occupational pension scheme. The scheme will be set up in accordance with a framework set out in legislation and will be aimed at people on low to middle incomes. It will feature low charges and will use automatic enrolment, fulfilling one of the key recommendations of the Pension Commission report.

Implementing such a major occupational pension scheme, with the potential for up to 10 million members, is a sizeable task requiring particular skills and experience. Consultation with stakeholders across the financial services industry, employers, the Trade Union Congress and customer representatives highlighted the need to establish an independent body, staffed by professionals in the field, to be responsible for delivering personal accounts.

The Government are absolutely committed to making personal accounts a success. That is why we are setting up an independent body with the necessary skills and experience to get the policy design of personal accounts right, and to ensure that the interests of members remain at the heart of the scheme. As chair designate of the Delivery Authority, Paul will bring a proven track record and a wealth of experience in the financial sector. One of his first tasks will be to take part in the selection of the authority's chief executive.

Written Ministerial Statements

Thursday 26 July 2007

TREASURY

Business Tax Reforms

The Financial Secretary to the Treasury (Jane Kennedy): The Treasury has today published a discussion paper entitled "Business Tax Reforms - capital allowances changes". Copies of the document are available in the Vote Office and the Libraries of both Houses.

Ultra-Low Sulphur Diesel

The Exchequer Secretary to the Treasury (Angela Eagle): Finance Bill 2008 will contain provisions amending the definition of ultra-low sulphur diesel (ULSD) in the Hydrocarbon Oil Duties Act 1979, to take retrospective effect from 4 September 2007.

The Motor Fuel (Composition and Content) (Amendment) Regulations (SI 2007/1608) issued by the Department for Transport require oil suppliers to supply sulphur-free diesel (SFD) to garage forecourts from 4 December 2007. While the current duty rate on both ULSD and SFD is 48.35p per litre, mixtures of the two fuels meet neither definition, and are liable to the heavy oil duty rate (currently 54.68 ppl).

In the transitional period before and after the DFT regulations come into force, there may be occasions when ULSD and SFD need to be mixed, and the high rate of duty may act as a disincentive for the industry to supply SFD. The provisions will remove the density and distillation requirements from the ULSD definition, so that mixtures of ULSD and SFD will meet the ULSD definition. Bringing forward the deregulatory changes to the definition of ULSD will ensure the smooth changeover from ULSD to SFD.

Small Businesses and Settlements Legislation

The Exchequer Secretary to the Treasury (Angela Eagle): The Government acknowledge the judgement given by the House of Lords in the Jones v Garnett (Arctic Systems) case.

The Government are committed to maintaining fairness in the tax system. The case has brought to light the need for the Government to ensure that there is greater clarity in the law regarding its position on the tax treatment of 'income-splitting'.

Some individuals use non-commercial arrangements (arrangements that they would not reasonably enter into with an arms-length third party) to divert income (which would, in the absence of those arrangements, have flowed to them) to others. That minimises their tax liability, and results in an unfair outcome, increasing the tax burden on other tax-payers and putting businesses that compete with these individuals at a competitive disadvantage.

It is the Government's view that individuals involved in these arrangements should pay tax on what is, in substance, their own income and that the legislation should clearly provide for this. The Government will therefore bring forward proposals for changes to legislation to ensure this is the case. In the meantime, HMRC will apply the law as elucidated by the House of Lords and will be providing guidance in due course.

The Government would not want commercial arrangements to be caught by any change to legislation. Consultation should help to ensure this.

Flooding (Tax Help)

The Financial Secretary to the Treasury (Jane Kennedy): The Government have taken a series of steps to support individuals and communities affected by the recent flooding.

In addition to this, I want to ensure that people affected by flooding do not have to worry about tax and related issues at this difficult time and to make it easy for them to receive their tax credits. Individuals or businesses affected by the flooding should get in touch with HM Revenue and Customs (HMRC) who will be able to provide practical support and advice. For example, HMRC will consider:

- suspending collection of taxes and duties, or agreeing instalment arrangements where customers are unable to pay as a result of severe hardship;
- practical arrangements where individuals and businesses have lost records in the flooding;
- suspending debt collection proceedings; and
- deferring and suspending compliance checks and investigations.

HMRC will not charge penalties where they are satisfied that customers have missed deadlines as a result of the flooding. In addition the Government will bring forward legislation in next year's Finance Bill which will allow the Commissioners of HM Revenue and Customs to waive interest and surcharges on tax paid late due to the floods. The Government propose to make this legislation retrospective from the date of this announcement. The Commissioners will exercise their discretionary powers not to collect such interest and surcharges in the interim.

HMRC will also support those who have difficulty sending in their tax credit renewals on time or notifying HMRC of any change in circumstances. Individuals affected by the floods should contact HMRC who will take steps to ensure that tax credits continue to be paid at the right level.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

OECD Innovation Review (North of England)

The Minister for Competitiveness (Mr. Stephen Timms): We welcome the announcement that the Organisation for Economic Co-operation and Development (OECD) is to carry out an Innovation Review of the North of England.

The OECD launched the series "Reviews of Regional Innovation" to address a demand by national and regional governments for greater clarity on how to strengthen the innovation capacity of regions. These reviews are part of a wider project on competitiveness at the regional level. The North of England is one study in this series. The work builds on the OECD's existing areas of expertise including territorial reviews of regions (such as the recent territorial review of Newcastle) and reviews of national level policies.

To be successful, the UK has to continue to build a knowledge-based economy. Encouraging better innovation performance within our regions is pivotal to this end. The Government are committed to improving the economic performance of all UK regions. This regional review of innovation will help develop effective, realistic strategies to raise the rate of sustainable economic growth in the North of England. Greater insight into innovation in the North will directly aid the Northern Way's contribution to regional economic performance.

The review is co-funded by the Department for Business, Enterprise and Regulatory Reform and the Northern Way. The Department of Innovation, Universities and Skills is also heavily involved, due to its interest in regional innovation systems. In addition to the project sponsors, the OECD will work collaboratively with core partners across the North, including the three Regional Development Agencies (RDAs) and the N8, which is a powerful alliance of Northern England's eight research-intensive universities.

Objectives of the Study

The review will examine how innovation can be more effectively harnessed to benefit the Northern economy. Through clear recommendations and benchmarking, the review will provide guidance as to how the North can optimally develop its innovation capacity.

The specific aim is to help the North better understand the barriers and opportunities for innovation in the region. The report will look to:

benchmark the North's performance in innovation against other OECD regions;

take forward the debate on key aspects of innovation policy and governance;

establish a framework on which subsequent monitoring and evaluation of policies can be based; and

develop recommendations for national and regional level actors to improve the regional innovation system.

The review will look at the innovation strategies of each of the three regions individually, and include site visits from international experts. However, it will also look at how common approaches and collaborations across the whole of the North may better capitalise on existing assets for the benefit of the Northern economy as a whole. The study will also specifically address whether the North has specific needs vis-à-vis the rest of the UK.

The report will provide recommendations to national, regional and local institutions (in both the public and private sectors) on how to improve the efficacy of the regional innovation system.

Timescales

A final report on Innovation in the North of England is expected to be submitted to the OECD's Territorial Development Policy Committee in June 2008. It is due for publication in autumn 2008.

Informal Competitiveness Council (Lisbon)

The Minister for Competitiveness (Mr. Stephen Timms): The following statement provides information on the Informal Competitiveness Council in Lisbon on 20 and 21 July 2007, at which I represented the UK. The meeting was chaired by Manuel Pinho, Portuguese Minister for Economy and Innovation.

Friday 20 July

SME Policy

The mid-term review of the EU's SME Policy was discussed. The Presidency presented a discussion paper on four main topics:

Innovation on Financing;

Better Regulation;

Internationalisation; and

Energy Efficiency.

Ministers agreed on the urgent need to tackle challenges identified in the Presidency's paper. There was strong support for ongoing work towards reducing EU admin burdens by 25 per cent. Several Ministers called for more to be done to encourage cross border investment and for more information to be provided to SMEs on third country markets. A few Ministers wanted more benchmarking, though I cautioned against duplication. I called for a re-focus on encouraging SMEs to grow and for more action on better regulation, access to finance and ensuring that SMEs could exploit opportunities provided by moves towards a low carbon economy.

There was good support for the role of the Competitiveness Council in monitoring developments in SME policy. Günter Verheugen, Commission Vice-President urged the Competitiveness Council to evaluate effects of other policies on SME competitiveness.

Dinner—The State of the EU economy

Dinner was devoted to a discussion on "EU Growth: Cyclical or Structural?", with guest speaker Professor Francesco Giavazzi of Bocconi University, Milan and Massachusetts Institute of Technology. I noted the impact of recent economic growth performance by the EU.

Saturday 21 July

Sustainable Industry Policy

Ministers debated sustainable industry policy, based on the Commission's recent Communication on the mid-term review of Industry policy. Discussion was focused on three key pillars of a sustainable industrial policy: 1) Acceleration of innovation and creation of lead markets; 2) Full exploitation of the European internal market for the development in sustainable goods, services and technologies markets; and 3) "first mover" advantage, exporting EU know-how in the low carbon economy to external markets.

Ministers agreed that a more efficient product policy could be a major contribution for competitiveness and sustainability of European enterprises. They also agreed that the promotion of lead market initiatives for low carbon and efficient products and services was an important way of speeding up transition towards a low carbon economy and to put Europe as a frontrunner in global markets. I stressed the need to identify market failures and supported wide ranging action on product policy, such as standards and labelling. There was general support from the Ministers.

Regional Development Agencies

The Minister for Competitiveness (Mr. Stephen Timms): I have today laid before Parliament the Annual Reports and Accounts for 2006-07 for the eight Regional Development Agencies (RDAs) outside London. Copies have been placed in the House Library.

The Annual Report and Accounts for the London Development Agency are presented to the Mayor of London rather than to Parliament. I shall provide a copy to the House Library when these are available.

Also published today are the RDAs' reported outputs for 2006-07. These results are evidence that the RDAs continue to play a valuable role in improving the economic performance of the English regions and, through working with their partners, the RDAs are making a real difference to the individual regional economies concerned. The figures cover the number of jobs created and safeguarded, the number of people assisted to get a job, the amount of brownfield land brought back into use, the number of businesses created, the number of businesses assisted to improve their performance, the number of people assisted in their skills development and the amount of public and private sector regeneration infrastructure investment levered, all as a result of RDA activity.

Press releases on the outputs have been issued in each region. Copies of the output results have been placed in the House Library, and are also available on the website of the Department for Business, Enterprise and Regulatory Reform at http://www.berr.gov.uk/regional/regional-dev-agencies/rda-performance/page24205.html.

COMMUNITIES AND LOCAL GOVERNMENT

Planning Consultation Papers

The Minister for Housing (Yvette Cooper): During the summer recess, the Government will issue consultation papers on proposals to reduce the Secretary of State's involvement in casework, streamline the arrangements for tree preservation orders and transfer a wider range of appeals from the Secretary of State to the Planning Inspectorate. These proposals will take forward commitments made in the White Paper "Planning for a Sustainable Future" (Cm 7120). In addition, the Government will issue a consultation paper on a possible amendment to Section 237 of the Town and Country Planning Act, to improve the implementation of regeneration projects by removing an impediment to the use of land once construction has finished. Copies of these papers will be made available in the Libraries of both Houses.

Tall Buildings Guidance

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Iain Wright): In conjunction with my colleague the Minister for Culture, Creative Industries and Tourism, Department for Culture, Media and Sport, I would like to bring to the attention of the House the guidance note on tall buildings prepared jointly by English Heritage and the Commission for Architecture and the Built Environment (CABE), which is published today. This updates and supersedes previous guidance published in 2003 and reflects changes to the planning system since that time.

The Government's aim is to ensure local planning authorities are getting the right developments in the right places, which we consider to be a fundamental part of creating places where people will want to live and work, now and in the future. Recent reforms to the planning system have helped to reinforce this message, making clear that all new development should be of good quality and designed in full appreciation of its surroundings and context. Tall buildings, in the right places and appropriately designed, can make positive contributions to our cities.

The Government therefore welcome this updated guidance, which will assist local planning authorities when evaluating planning applications for tall buildings, including, importantly, the need for effective engagement with local communities. It also places a greater emphasis on the contribution that design can make to improving the character and quality of an area. It offers good practice guidance to a range of stakeholders in relation to tall buildings in the planning process, provides practical advice on achieving well-designed solutions in the right places, and is capable of being material to the determination of planning applications. Copies of the documents are being placed in the Libraries of both Houses.

DEFENCE

DSDA Longtown

The Minister for the Armed Forces (Mr. Bob Ainsworth): I have now approved, effective from 1 August 2007, the early closure of the non-explosive (NE) elements of the Defence Storage and Distribution Agency (DSDA) site at Longtown.

Under the Future Defence Supply Chain Initiative (FDSCi) the MOD assessed a range of options for managing and operating the defence supply chain to reduce costs of ownership, while maintaining or improving service levels and enhancing operational capability. The selected option included plans for the withdrawal of all non-explosive storage from DSDA Longtown by mid-2009.

Since the announcement, work has been undertaken to design a stock relocation plan that will reposition Longtown non-explosive (NE) stocks to other retained DSDA sites. The stock relocation plan has matured and, as a consequence, it is now clear that DSDA has the opportunity to bring forward the planned Longtown NE closure date to the end of July 2007.

The proposal to withdraw NE stocks from Longtown early will affect 62 staff. Approximately 350 staff will be left at the site. Additional staff will be required for the ammunition box task (refurbishing ammo boxes), which transfers from the NE to the explosives business at the site on 31 July 2007. As a consequence there will be no early release scheme or compulsory redundancies.

I recognise that the early withdrawal of NE stocks from DSDA Longtown will not be a welcome prospect for those staff who stand to be affected. DSDA is, however, confident that it can manage the changes without recourse to compulsory redundancies through

a combination of the transfer of staff to vacancies on the Longtown explosive site and by releasing staff on fixed term appointments.

Consultation with the trade unions has been completed and there were no substantive matters raised that preclude implementation. On this basis I have decided to fully implement the change.

Operational Effectiveness

The Secretary of State for Defence (Des Browne): I am today announcing a number of initiatives which will enhance our operational effectiveness.

The 1998 strategic defence review identified the need to have robust strategic lift capability to ensure success on operations and we subsequently leased four Boeing C-17 Globemaster aircraft. Our experience of operations in Iraq and Afghanistan has reinforced this judgment and last year we announced our intention to procure these aircraft at the end of their lease in 2008 and also to procure a fifth C-17 aircraft, which will enter service in May 2008. We now intend to purchase a sixth C-17. The aircraft, which can be delivered in 2008, will be a significant boost to the UK's strategic airlift capability and will provide greater robustness in our ability to transport troops and equipment quickly to wherever they are needed.

As part of the NATO-led international security assistance force mission in Afghanistan, we are deploying on a rotational basis with our Canadian and Dutch allies, a 2 Star (Divisional level) Headquarters in command of Regional Command (South) (RC(S)) based in Kandahar. We are also responsible for providing HQ Multi National Division (South East) in Basra, Iraq. In order to meet these temporary demands we have decided to augment the forces' command structure, and will temporarily establish an additional 2-Star deployable HQ. It will be based in York and will be known as HQ 6 Division, with a core of 55 Service personnel, drawn from existing structures. We will keep our planning assumption under review but currently we assess this HQ will be established until 2011.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agency Annual Reports

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Jonathan Shaw): The following Annual Report and Accounts 2006-07 were laid before Parliament yesterday.

Rural Payments Agency
Marine Fisheries Agency
Animal Health (formerly State Veterinary Service)

Copies of each report are available in the Libraries of the House.

Private Sewers Transfer

The Minister for the Environment (Mr. Phil Woolas): On 22 February 2007 the Government announced that existing private sewers and lateral drains, connected to the public sewer in England, should be transferred into the ownership of the nine statutory Water and Sewerage Companies. The announcement followed an extensive review of current ownership arrangements.

The Government undertook to consult on a range of ways transfer could be implemented and to examine how the proliferation of new private sewers could be prevented.

I am pleased to report that a Consultation Paper "Consultation on Private Sewers Transfer - Implementation Options" was published yesterday. Copies have been placed in the Libraries of the House and can be accessed on the DEFRA website.

Climate Changes Agreement

The Minister for the Environment (Mr. Phil Woolas): I am pleased to announce today the publication of the report of the third target period report for the Climate Change Agreements (CCAs). Copies of the report have been placed in the House Libraries.

Climate Change Agreements are working—securing a saving of 16.4 million tonnes of CO_2 in 2006, 7.3 $MtCO_2$ more than the minimum signed up to in their agreements.

We have seen continued improvement across all sectors in Climate Change Agreements, with nearly all facilities having their Climate Change Levy discounts renewed. Businesses have found more opportunities to improve energy efficiency, and they should be congratulated on their commitment and innovation to meet and go beyond a challenging set of targets.

However, there is no room for complacency. Although almost all sectors have improved their energy efficiency performance, and most have saved energy overall, it will be increasingly tough for many businesses to keep meeting their targets unless they find new and additional opportunities to save energy.

Overall, 32 out of the 49 sectors covered met their targets outright, and in a further 10 sectors all the facilities had their Climate Change Levy discounts renewed.

In total, 99 per cent of facilities (9830) were recertified through meeting their own targets or because their sector met its target. 461 facilities left the agreements or did not report, probably due to closure. Another 23 were decertified because they failed to meet their targets.

Update on Flooding

The Secretary of State for Environment, Food and Rural Affairs (Hilary Benn): Even before this month is over, we know that England will have experienced the three wettest months to the end of July on record, with at least twice the average rainfall. Many people from the south-west to the north-east of the country are still suffering from the effects of the extreme weather of the past six weeks, and I wanted to continue to update the House before recess.

Earlier this week, the most pressing issue was the potential flooding of the Walham Switching Station in Gloucester. I am pleased to say that due to the magnificent efforts of the armed forces, Environment Agency, Fire Service, Transco and others who worked

so hard to maintain the temporary defences, power continued to flow. I can also report that a stronger, although a temporary, protective structure will be put in place as soon as possible.

Nearly all the properties that were without power have had power restored, and everything possible is being done to connect the power to remaining properties as quickly as possible.

The key issue in Gloucestershire is now the supply of water. Mains water for sanitation purposes should be restored today to the Tewkesbury area. However, this will not be drinkable and residents will be advised of this. Drinking water will still be available from bottled supplies and bowsers. Every effort is being made to restore the water treatment works at Mythe as soon as possible, and I pay tribute to the work of all those on the site. As of 9am today 140,000 households are still without piped water and this will remain the case for some days to come. Through established collaboration arrangements with other water companies, Severn Trent Water now have over 900 bowsers and tanks in place. The refilling operation is now the priority, and at Severn Trent's request the army is now helping with this. Tankers from the army and from the brewing and dairy industries have been brought in to add to the tankers which the company itself has provided, and offers of tanker help are still being received. I am extremely grateful for the co-operation that we have had from the dairy, food and drinks industries in making vehicles available. The military and supermarket groups helped to deliver 2.5 million litres of bottled drinking water yesterday and 3 million litres are planned for today.

We take for granted a plentiful supply of clean water and Members will know how difficult it is when this is not available, particularly for vulnerable people. Whilst local authorities and other agencies have done an excellent job to date identifying and providing assistance to vulnerable people, I would ask everyone to continue to help those less able to help themselves. There have been some outstanding examples of community co-operation and we must not let isolated instances of more selfish behaviour detract from this.

The absence of piped mains water, and the continued presence of flood waters, pose potential risks to public health. The Health Protection Agency has issued advice which covers both the dangers associated with entering flood waters, and how best to deal with sanitation without mains water. I urge people in the affected areas to listen to this advice.

Although priority is being given to the public, the welfare of animals is of course also important. The interruption to water supplies is posing difficulties for some livestock farmers in getting water for their animals. While many farmers have access to alternative sources of water, some do not. Officials are working closely with the RSPCA, NFU, and other farming organisations in assisting farmers to source water. I chaired a further meeting of COBR on Tuesday evening and official level COBR meetings are taking place regularly, reporting to me.

This morning the Environment Agency still had six severe flood warnings in place, three on the Severn from Gloucester upstream to Tewkesbury, one on the River Ock (a tributary of the River Thames at Abingdon) and two on the River Thames between Oxford and Wallingford. Elsewhere things are improving, including on the Great Ouse in Bedfordshire and in Hull where severe warnings had been in place since June.

River levels on tributaries in and around Oxford rose yesterday and further properties flooded in the Osney area of the city. The Environment Agency advises that the levels on the River Severn continue to fall and should not reach the levels of earlier in the week over the next few days.

On the River Thames the first peak flow is still making its way down the lower reaches of the river with a second peak following around two days later. This is currently going through Reading. The Environment Agency advises today that further flooding to properties is probably still unavoidable from Caversham down river to Shepperton—including parts of Henley, Marlow and other areas. The Environment Agency continues to monitor the situation closely, and, where possible measures are being put in place to protect people and property. Key installations are being protected on a precautionary basis.

The Government are still collecting information on the overall numbers of properties flooded from rivers and surface waters and sewers. I advised the House that up to 10,000 properties may have been flooded. This is still our best estimate but as better information comes in the number may be revised upwards but is unlikely to exceed 15,000.

The Prime Minister visited Gloucester and Tewkesbury yesterday and I have seen the situation in Oxford today. Ministerial colleagues have visited Reading, Purley-on-Thames in West Berkshire, Pangbourne, Tewkesbury and Gloucester in the last two days. There will be further visits to affected areas in the days ahead.

On funding, as I have announced previously, the revised Bellwin Rules to assist local authorities with 100 per cent. of their eligible emergency costs over the standard 0.2 per cent. threshold and the £20 million flood recovery grant fund will apply in all areas flooded since the middle of June.

The Department of Children, Schools and Families will increase its support to schools and children's services which have been disrupted by the flooding by up to a further £4 million. This funding will be made available to those local authorities affected by the floods in recent days to help them ensure that schools and early years services are, as far as possible, able to re-open in September; and to support wider children's services, including the provision of additional summer activities and family support.

Many businesses have been badly affected by the flooding. In total almost £8 million of RDA support has been announced, both in response to the initial flooding in Yorkshire and Humberside and the current flooding. The five RDAs with affected businesses all have in place a Flood Recovery Scheme offering small business up to £2,500 to aid their recovery effort.

The RDAs are also considering whether to increase the amount available to small businesses and other means of support are available for business. Yorkshire Forward has launched a scheme offering between £10,000 and £100,000 per company for larger businesses.

In total, £46 million of help is available. In addition, the Financial Secretary to the Treasury has today issued

a statement on the assistance that HM Revenue and Customs can provide for those affected by flooding.

Current estimates from the ABI show that 7,000 businesses were affected by the June flooding and around 1500 more will have been affected by the July flooding although many businesses are still underwater. The Minister for Floods Recovery has discussed the latest flooding with the head of the ABI and the Government will continue to work with the Insurance industry and others to ensure that the needs of householders and businesses are dealt with rapidly.

The Department for Transport will continue to work very closely with affected local authorities on capital funding support needed to repair local roads, bridges and other transport infrastructure damaged by the floods. At this stage, when much of the infrastructure is still flooded, it is not possible to make good estimates of the total damage, but all reasonable claims will be considered by the Department.

Department for Transport are appointing consultants who will work with authorities and advise on the remedial work which is needed and the claims they are putting forward. The Department is also taking steps to ensure that emergency work can take place as soon as possible without waiting for claims to be settled.

For farmers, the restrictions on using machinery on waterlogged soil have been lifted and the Rural Payments Agency have been authorised to allow farmers to use set-aside land for grazing of animals and harvesting of hay and silage. The lifting of these restrictions will now be extended until the end of August 2007.

These floods have had a significant and distressing effect on families and individuals. The Department for Work and Pensions is helping people on income related benefits or the lowest of incomes affected by the flooding with essential costs through Community Care Grants and repayable interest-free Crisis Loans. A contingency reserve of £1 millions can be drawn on as needed to meet the extra call on grants to help with the replacement of essential household items.

As at 20 July, the Department for Work and Pensions had already paid Community Care Grants totalling £396,000 to people on qualifying benefits to meet the cost of replacing essential household items. In addition, Jobcentre Plus has put in place special measures locally to ensure that this assistance is easily accessible to people in need who have been affected by the flooding. Total payment is of course, rising every day.

As these latest floods recede, the recovery co-ordination, led by the Floods Recovery Minister, the Member for Wentworth (John Healey), will add to the existing remit of Yorkshire and the Midlands, the areas affected by the most recent flooding.

I am determined that we will learn the lessons from what has happened and our conclusions must be robust and followed through. As I have already announced, we will ask an independent person to oversee this exercise.

I know that Members have requested that arrangements be put in place during the recess to enable them to raise points and be briefed on issues affecting their constituents. This is particularly important given that the emergency is still far from over both for those still facing the risk of flooding and for those who are still out of their houses or businesses.

I will therefore write to all Members by the end of the week setting out the arrangements we will put in place.

Finally, I would like to extend my profound thanks to all those who are working so hard to deal with this situation and to offer our sympathy and understanding to all those whose lives continue to be severely disrupted.

FOREIGN AND COMMONWEALTH OFFICE

Travel Advice

The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Meg Munn): Travel Advice is one of the most important public services which the Foreign and Commonwealth Office delivers. We provide Travel Advice notices for 218 countries and territories based on the most accurate and up-to-date information available to us. With the constant growth in international travel, more people are using FCO Travel Advice. In 2006, the FCO Travel Advice website received, on average, 150,000 visitors a week and our call centre handled 62,700 telephone enquiries over the course of the year.

Travel Advice is designed to help British travellers to make informed decisions about travelling abroad and it is therefore kept under regular review to ensure that the information it provides remains of the highest quality.

Following feedback from British travellers and tour operators about Travel Advice, we have identified areas where we could improve the language we use to explain the nature of the terrorist threat. The principles of FCO Travel Advice, as agreed in the 2004 Review (Command Paper 6158), in relation to the threat from terrorism, remain unchanged. It will continue to draw on intelligence assessments, open source and media reporting, the local knowledge of our overseas posts and their diplomatic reporting. We are now introducing four generic threat descriptors, intended to clarify the scale of the terrorist threat to the travelling public. Drawing from our experience of what our customers need from Travel Advice, we consider that these descriptions are the most helpful to the travelling public given the innate difficulty of describing the threat from terrorism. The descriptors, as agreed with the travel industry and other stakeholders, are:

"A high threat from terrorism" means a high level of known terrorist activity.

"A general threat from terrorism" means some level of known terrorist activity.

"An underlying threat from terrorism" means a low level of known terrorist activity.

"A low threat from terrorism" means no or very limited known terrorist activity.

Our Travel Advice will continue to reflect the best judgements we can make at the time, though, as we have seen in the UK, it is possible for attacks to take place without prior warning. I believe that these changes will improve our Travel Advice to give effective information to help British travellers make informed decisions about their travel plans and personal security overseas.

VFS Online (Independent Investigation)

The Secretary of State for Foreign and Commonwealth Affairs (David Miliband): The report of the independent investigation into the breach of data security in the VFS online UK visa application facility, operated through VFS websites in India, Nigeria and Russia has been laid before Parliament today, together with the Government's response. It is also available on UKvisas' website at www.ukvisas.gov.uk.

I record my appreciation for the independent investigator's prompt, full and thorough investigation. I am satisfied that the facts have been correctly established and that the conclusions are sound. Our priority has been to understand what happened in this case so that UKvisas and their partners can learn important lessons. The report enables them to do so. I can accept all the recommendations.

I note the independent investigator's finding that, despite vulnerabilities in the commercial partner's online application facilities from their launch in 2005 until they were closed in May 2007, there is no evidence that data from VFS websites in India, Nigeria and Russia has been misused or visas wrongly issued. The websites in question will remain closed.

I am publishing with the report my response to the investigator's recommendations. The investigator has found that since May 2007 VFS and UKvisas have taken the issue seriously and applied significant resources to identifying weaknesses and putting into place improved skills and oversight. I shall ensure a continuation of this joint effort in line with the investigator's findings.

I welcome the investigator's finding that the global contracts recently concluded with two commercial partners have improved consistency in the partnership programme and are more detailed in their scope. They provide a sound basis for full implementation of the Investigator's recommendations. UKvisas will take all necessary steps to ensure the new contracts are implemented rigorously in partnership with VFS and CSC, to the benefit of the effectiveness and efficiency of the visa process.

HOME DEPARTMENT

Criminal Injuries Compensation Authority

The Parliamentary Under-Secretary of State for the Home Department (Mr. Vernon Coaker): I am today laying before Parliament, with the Comptroller and Auditor General, the annual report and accounts for 2006-07 for the Criminal Injuries Compensation Authority. It is being laid before the Scottish Parliament by the Scottish Ministers simultaneously.

The annual report and accounts describes the activities of the authority in paying financial compensation to victims of violent crime, under the terms of the Criminal Injuries Compensation Act 1995.

The accounts estimate the final settlement value of cases in progress and the predicted value of applications which have not yet been received in respect of crimes that have already occurred. As a result, the balance sheet at 31 March 2007 shows net liabilities of £1,187 million.

In 2006-07 the authority received 60,861 applications for compensation and resolved 59,096. The number of cases outstanding at 31 March 2007 was 87,543. The proportion of cases decided within 12 months was 62.9 per cent.

Independent Police Complaints Commission

The Minister of State, Home Department (Mr. Liam Byrne): I wish to inform the House that I am publishing today a consultation document on the implementation of measures in the Police and Justice Act 2006 extending the Independent Police Complaints Commission's jurisdiction to cover the Border and Immigration Agency's enforcement functions. Copies of this consultation document have been placed in the House Library.

We have embarked upon an ambitious programme of reform of the Border and Immigration Agency to improve the effectiveness of our immigration controls. Change in three key areas will make a substantial difference to the organisation's performance. Establishing the Border and Immigration Agency as an executive agency will provide greater autonomy to deliver effective immigration controls within a policy framework agreed by Ministers. The new regional structure, more responsive to local communities, will keep the public in touch with how the agency is performing in their particular region. The introduction of tougher, independent oversight and accountability to Parliament and the public will ensure we build confidence in the new system moving forward. All are of equal importance in helping us secure the objectives of the immigration enforcement strategy published in March.

The IPCC will support these reforms by providing independent oversight of the most serious incidents and complaints and an assurance that agency staff will be held accountable to an independent organisation. This oversight will be in line with that which the IPCC provides for the police and other law enforcement bodies. While the new chief inspector created by the UK Borders Bill will monitor the effectiveness of the agency as a whole, the IPCC will provide expert, independent oversight on the actions of enforcement staff in individual cases. The consultation paper sets out the proposed content of the regulations detailing the exact remit of the IPCC and invites comments which will inform the final version.

The consultation period ends on 17 October 2007. We will then report on the results of the consultation and our proposed course of action.

UKvisas

The Minister of State, Home Department (Mr. Liam Byrne): The UKvisas annual report for 2006-207 will be published on 8 August and I will place copies in the Libraries of both Houses. The report will also be made available on the UKvisas website.

JUSTICE

Child Care Proceedings System

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): In agreement with the Parliamentary Under-Secretary of State at the Department for Children, Schools and Families, my hon. Friend the Member for Cardiff, West (Kevin Brennan), and the Deputy Minister for Health and Social Services in the Welsh Assembly Government (Gwenda Thomas), I am pleased to be able to inform the House of the progress we are making towards improving the child care proceedings system in England and Wales.

The Government set out the strategy for all children in England in the consultation paper "Every Child Matters: Change for Children", published in September 2003. In this paper, we identified five key outcomes for children, which are universal ambitions for all children, whatever their background or circumstances. Our aim is for every child to be healthy; to stay safe; to enjoy and achieve; to make a positive contribution; and, to achieve economic well-being. In Wales, "Rights to Action", published in April 2004, set out policies within the framework of seven outcome based aims founded on the United Nations Convention on the Rights of the Child. We believe that the outcomes set out in these policies are particularly important in the case of children that are the subject of care proceedings.

We know that more can and must be done to improve the child care proceedings system, and contribute to better and more positive outcomes for children. Currently, a care or supervision application takes an average of 51 weeks in Care Centres and 42 weeks in Family Proceedings Courts from the time of application to the point of disposal. Many cases take much longer. We believe that there is much that can be done to reduce this period of uncertainty in the lives of these children and their families.

Recognising this, the former Department for Constitutional Affairs and the former Department for Education and Skills, with input from the Welsh Assembly Government and a wide range of stakeholders, jointly undertook a review of child care proceedings and the findings were published in May 2006. The Review of the child care proceedings system in England and Wales set out a number of proposals to improve the child care proceedings system. Implementing the immediate recommendations of the Review is a key priority for both our Departments and I am pleased to announce a detailed timetable relating to two of the key recommendations of the Review.

The Department for Children, Schools and Families in England and the Welsh Assembly Government in Wales are consulting on proposals to issue revised statutory guidance to local authorities under section 7 of the Local Authority Social Services Act 1970. The consultation commenced in England on 29 June 2007 and will last for 13 weeks. The revised statutory guidance will be published in England in November 2007. In Wales, the guidance will be issued to all local authorities shortly for consultation to broadly similar timescales. The revision to the guidance will put greater emphasis on the work undertaken by local authorities before care proceedings can be commenced. In particular, they will be required to notify parents of their intention to make an application to the court and to set out the basis of their concerns and an outline of their future plans for the child. On receipt of this, parents will be able to have immediate access to publicly funded legal help from a solicitor, funded by the Legal Services Commission.

In conjunction with the Judicial Office for England and Wales, the Ministry of Justice is consulting stakeholders during summer 2007 on a revision of the Protocol for Judicial Case Management in Public Law Children Act Cases, to be entitled the Public Law Outline. Testing of the Outline in 10 centres from June 2007 will be followed by implementation in England and Wales from April 2008. The Outline will underpin the revised statutory guidance by promoting compliance with the pre-proceedings requirements. It will be contained in a Practice Direction from the President of the Family Division, to be issued with the concurrence of the Secretary of State for Justice and Lord Chancellor. The Practice Direction will prescribe and timetable the steps to be taken by parties, and the directions to be made by the court for the timely disposal of care applications.

Juvenile Secure Settings (Restraint Methods)

The Minister of State, Ministry of Justice (Mr. David Hanson): I announced a review of restraint in juvenile secure settings to the House on 12 July 2007, *Official Report*, column 1714 - 1722. The Ministry of Justice and the Department for Children, Schools and Families (DCSF) have joint responsibility for the review. My right hon. Friend the Member for Stretford and Urmston (Beverley Hughes) will be the lead Minister for DCSF.

My right hon. Friend and I are in the process of appointing an independent Chair to lead the review and a further announcement in relation to this will be made as soon as possible.

The broad terms of reference for the review are as follows:

It will encompass policy and practice on the use of restraint across a range of juvenile secure settings including Secure Training Centres (STC), Secure Children's Homes (SCH) and Young Offender Institutions (YOIs)

It will review and make recommendations to Ministers upon:

The operational efficacy, safety, (including medical safety), and ethical validity of restraint methods, in juvenile secure settings, including Physical Control in Care (PCC)—the system of restraint used only in secure training Centres—and the circumstances in which they may be used.

The system of training provided to staff using restraint in juvenile secure settings, including how such training is monitored, reviewed and accredited.

The arrangements for cross-departmental knowledge-sharing on use of restraint and behaviour management across a range of juvenile secure settings including STCs, SCHs and YOIs.

The respective responsibilities of the Ministry of Justice, the Department for Children, Schools and Families, the Youth Justice Board, Her Majesty's Prison Service and individual providers of secure children's homes and other relevant institutions in relation to the safety and effectiveness of restraint including clarification of the approval methods for restraint techniques.

The responsibilities of Local Safeguarding Children Boards in relation to the safety of restraint in their area.

Whether the arrangements in place to record and monitor the use of restraint and the arrangements for sharing and analysis of information relating to deaths, injuries and warning signs exhibited following restraints, are adequate in all juvenile secure settings.

The review will be able to call for evidence from any interested party to assist in the compilation of recommendations to Ministers.

The review will report to Ministers within six months of the appointment of the Chair.

CABINET OFFICE

Civil Service Pension Reform

The Minister for the East Midlands (Gillian Merron): I am today laying before Parliament, under the provisions of the Superannuation Act 1972, two amendment schemes. The civil service unions have been involved throughout and confirm their agreement to the scheme amendments. The first of these amends the rules of the Principal Civil Service Pension Scheme (PCSPS) and introduces new provisions for those joining the pension scheme on or after 30 July 2007. The second amendment scheme makes consequential changes to the civil service compensation scheme. These amendments are the first step in implementing a major package of reform which builds on earlier changes modernising the civil service pension arrangements and announced by the then Chancellor of the Duchy of Lancaster, my right hon. Friend the Member for Paisley and Renfrewshire, South (Mr. Alexander) on 22 July 2002, *Official Report*, column 728W. I will bring forward further amendments in due course to complete the implementation of these reforms.

The package of reform that I am announcing today is in line with the agreement reached between the Government and the public sector unions in the Public Services Forum ("PSF") in October 2005. The Government's aim is to continue to provide their staff—both existing and new—with good quality, defined benefit, index-linked pension provision delivered in a sustainable way. The Government seek to achieve this by delivering a range of measures intended to both reduce civil service pension costs by £2.1 billion over 50 years, on the basis of the assumptions made at the time of the PSF, and control unplanned cost growth.

New entrants

Pension terms for new entrants from 30 July 2007 will undergo radical change, with pensions calculated by reference to pensionable earnings throughout the career rather than "final salary". We believe that this change will produce a fairer outcome for the workforce generally, particularly for those who have relatively short or broken civil service careers and for those who wish to move to less demanding employment as part of their transition from work to retirement. This new whole career option will be known as the *nuvos* scheme and, in common with the existing *premium* scheme, will have a member contribution rate of 3.5 per cent, of pensionable pay. Members will be able to retire and draw benefits at any age from 55 to 75, with benefits drawn before age 65 reduced for early payment and those drawn after 65 increased for late payment. Members will have access to options to help them tailor the scheme to meet their personal requirements. These include the ability for members to purchase added pension for self or for self plus dependants, to give up pension in exchange for a lump sum and to give up pension in exchange for additional benefits for dependants. The *nuvos* scheme will also offer a range of other benefits including ill-health retirement pensions and benefits for dependants following the member's death. To facilitate mobility among the public services the PCSPS belongs to the Public Sector Transfer Club; the future service of staff transferring in from public service schemes continuing to operate final salary pension schemes will be pensioned on the whole career basis but the service transferred will continue to provide benefits on a final salary basis. A similar approach will apply to the frozen final salary benefits of civil servants returning after resigning to broaden their careers.

New entrants who prefer a stakeholder pension with an employer contribution will continue to have the option of a *partnership* pension account.

Current staff

The Government recognise the importance that current staff place on retaining their existing pension scheme. Current staff (including many of those who resign and return to work after a break of no more than five years) will therefore continue to have pensions calculated on a "final salary" basis and will be able to draw an unreduced pension on retirement at or after age 60. These terms will continue broadly as now, subject to the following changes:

an option for staff leaving from 1 October 2007 to give up pension for a larger lump sum on retirement;

relaxation of service limits from 40 to 45 years (to be phased in from 1 March 2008);

replacement of the "added years" facility for topping up pension by a new "added pension" arrangement (from 1 October 2007 for staff over 60 and from 1 March 2008 generally); and

introduction, from 1 March 2008, of "flexible retirement" arrangements which will permit staff who reduce their hours or job weight to access their pension before full retirement.

Sustainability

Although unfunded, the PCSPS publishes an annual resource account, including its estimated liabilities, and undergoes regular actuarial valuations. The state of the scheme at 31 March 2007 is currently being assessed and I will place the results of the valuation in the Library when the report is agreed. The valuation is used to set the level of employer contributions to apply in future years; by convention a range of employer contribution levels apply, with higher percentage rates of contribution being paid for higher-paid staff. The average employer contribution is currently 19.4 per cent. of pensionable pay and this is taken into account in setting the overall level of civil service reward packages.

The PSF agreement recognised the importance of on-going scheme sustainability. This requires members to accept a degree of responsibility for future cost pressures, rather than seeing them as an issue for the employer (and taxpayer) alone. We will establish a Scheme Governance Group with employer and union representation to take work on this area forward. The Government will ensure that cost pressures identified at scheme valuations from 2010, that will be implemented

with effect from April 2012, are shared on a 50:50 basis between employers and staff. To the extent that such cost increases or reductions arise as a consequence of changes to the Treasury-mandated financial assumptions or from some fundamental changes to the actuarial valuation methodology the consequent impact on costs should continue to be absorbed by the employer through an adjustment in Accruing Superannuation Liability (ASLC) rates. The Government will also ensure that the average employer contribution is capped at 20 per cent. of pay (assuming no changes to the valuation approach). This approach is intended to deliver long-term sustainability through the reduction of taxpayer exposure to risks, principally those associated with improvements in longevity over and above the improvements already anticipated.

As and when cost-sharing takes effect, it is by no means axiomatic that member contributions will rise. While this approach would of course be one option, we would look to the Scheme Governance Group to suggest approaches designed to secure widespread acceptance by staff, to maintain scheme membership and to have particular regard to the impact on low-paid staff. We will consult with the unions in the near future on the detail of how this process should work, before amending the scheme rules to reflect the outcome of that process.

LEADER OF THE HOUSE

Procedure Committee's First Report (Public Petitions and Early-day Motions)

The Leader of the House of Commons (Ms Harriet Harman): I have today laid before Parliament the command paper "The Governance of Britain—Petitions. The Government's Response to the Procedure Committee's First Report, Session 2006-07, on Public Petitions and Early Day Motions." Copies can be obtained from the Vote Office and the Printed Paper Office. It will also be available on the Office of the Leader of the House of Commons website at: www.commonsleader.gov.uk

Parliamentary Pay, Pensions and Allowances

The Leader of the House of Commons (Ms Harriet Harman): My right hon. Friend the Prime Minister has today received the 3rd triennial report from the Senior Salaries Review Body on Parliamentary Pay and Allowances.

The Government plan to publish the report in the autumn, followed shortly thereafter by consideration by both Houses in the normal way.

The Government are grateful for the work of Sir John Baker and his Committee.

PRIME MINISTER

Machinery of Government: Equalities Office

The Prime Minister (Mr. Gordon Brown): To strengthen further the Government's ability to deliver across the entire equalities agenda, I am today announcing the establishment of a new Government Equalities Office.

The Government Equalities Office will be physically located with and supported by staff in the Department for Work and Pensions. It will have its own vote from the House of Commons. The Women and Equalities Unit, currently based in the Department for Communities and Local Government (DCLG), will transfer to the new Office.

Because of the links to the community cohesion agenda, race and faith issues remain located with the rest of the community agenda in DCLG.

My right hon. Friend the Leader of the House of Commons will be responsible for the Equalities Office at Cabinet level as Secretary of State for Equality. The Parliamentary Under-Secretary at the Department for Work and Pensions (DWP), my hon. Friend the Member for Stevenage (Barbara Follett), in addition to her current role, will be Parliamentary Under-Secretary in the Equalities Office, with the title Minister for Equality. The Permanent Secretary at DWP, Sir Leigh Lewis will become the Accounting Officer for the new Equalities Office.

As now, there will continue to be lead Secretaries of State and Ministers for individual policy areas:

my right hon. Friend the Leader of the House of Commons is the lead Cabinet Minister for women and is supported in this role by the Women and Equality Unit;

my right hon. Friend the Secretary of State for Work and Pensions is the lead Cabinet Minister for disability issues, supported by the Minister for disabled people, my hon. Friend the Member for Stirling (Mrs. McGuire) and the Office for Disability Issues in his Department;

my right hon. Friend the Secretary of State for Communities and Local Government is the lead Cabinet Minister for race and faith issues. My right hon. Friend the Minister for Competitiveness at the Department for Business, Enterprise and Regulatory Reform will also play an important role in advising the Government on issues of concern to faith communities.

My right hon. and noble Friend the Leader of the Lords will cover the equalities agenda in the House of Lords.

The Sub-Committee on Communities and Equalities, a Sub-Committee of the Domestic Affairs Committee, will bring together Ministers from across Government to discuss key policies on equalities. This sub-committee is chaired by my right hon. Friend the Minister for the Cabinet Office.

SOLICITOR-GENERAL

Governance of Britain (Role of the Attorney-General)

The Solicitor-General (Vera Baird): My right hon. Friend the Attorney-General has made the following written ministerial statement:

"I have today published a consultation paper on the role of the Attorney-General. The consultation period will run until the end of November.

When the Government published their Green Paper: "The Governance of Britain" this included a commitment to reform the role of the Attorney-General. This is a complex role which has evolved over centuries and comprises a broad and varied range of functions which are fundamental in upholding the rule of law. I am keen to have the widest possible engagement on the important issues raised, and would welcome responses from parliamentarians.

Copies of the report have been placed in the Libraries of both Houses."

TRANSPORT

BRB (Residuary) Ltd.

The Parliamentary Under-Secretary of State for Transport (Mr. Tom Harris): I have today issued revised and expanded guidance to BRB (Residuary) Ltd. (BRBR) on the procedures that should follow prior to disposing of its non operational estate.

Historically, the company has been required to make an assessment as to whether a property is likely to be needed for a rail, other transport or Brownfield development use in the future. Part of this assessment has involved consulting parties in the rail industry, local transport and planning authorities and other potentially interested parties. The new guidance that I have issued today makes it clear that these arrangements will continue. In addition it now sets out in clear terms what we expect to happen as and when a consultee identifies such a use for the site in question. Specifically the company is now expected to ensure that the body that has expressed an interest in the site should take on the holding costs as soon as possible and acquire the site at market value, within a reasonable timeframe. The new guidance makes it clear that in the majority of cases a period of six months represents a reasonable timeframe for interested parties to acquire a site.

This new guidance will ensure that the company continues to facilitate and encourage transport and Brownfield development projects and that the promoters of such schemes have ample opportunity to purchase sites. It will also ensure sites can be released on the open market for development in a reasonable timeframe where no realistic transport or Brownfield development opportunities can be identified.

In the case of surplus BRBR land, which is not needed for a future transport use, BRBR and English Partnerships will be working closely together with a view to that surplus land being released for housing development, which is a key Government priority. A substantial number of BRBR sites have been identified for joint assessment with English Partnerships for housing development and a similar approach is being adopted in relation to Department for Transport agencies, such as the Highways Agency.

Copies of the revised guidance have been placed in the Libraries of both Houses. A copy is also available on BRBR's website at: www.brbr.gov.uk.

Ministerial Cars

The Secretary of State for Transport (Ruth Kelly): I am publishing today details of the number and cost to Departments of the provision of allocated cars and drivers by the Government Car and Despatch Agency to Ministers during 2005-06 and 2006-07.

The figures for 2005-06 are:

Department	*No. of Ministerial Cars*	*Contracted cost (£)*	*Notes*
Cabinet Office	7	423,700	1
Department for Constitutional Affairs	5	293,400	
Department for Culture, Media and Sport	4	265,200	
Department for Education and Skills	7	428,900	
Department for Environment, Food and Rural Affairs	5	319,700	
Foreign and Commonwealth Office	4	240,700	2
Department of Health	6	371,800	
Home Office	7	436,400	
Department for International Development	2	124,500	
Office of the Deputy Prime Minister	6	383,400	
Attorney General's Office	2	126,600	
Northern Ireland Office	5	418,400	3
Privy Council Office	3	168,300	
Scotland Office	1	58,900	4
Department of Trade and Industry	6	366,800	
Department for Transport	4	256,100	5
HM Treasury	5	328,200	
Wales Office	1	71,300	
Department for Work and Pensions	6	390,700	

Notes

(1) Cabinet Office figures include cars for Ministers in the Cabinet Office, the Prime Minister's Office, the Chief Whip in the House of Commons and the Minister without Portfolio.

(2) The Minister of State for Trade, Investment and Foreign Affairs was a post held jointly between the Foreign and Commonwealth Office (FCO) and the Department of Trade and Industry. The Government Car Service (GCS) costs were met by the FCO.

(3) The right hon. Member for Neath (Mr. Hain) was both Secretary of State for Northern Ireland and Secretary of State for Wales. GCS costs were met by the Northern Ireland Office.

(4) The GCS car and driver provided to the Scotland Office was shared by the Parliamentary Under-Secretary of State and the Advocate General.

(5) The right hon. Member for Paisley and Renfrewshire, South (Mr. Alexander) was both Secretary of State for Transport and Secretary of State for Scotland. GCS costs were met by the Department for Transport.

The figures for 2006-07 are:

Department	*No. of Ministerial Cars*	*Annual Contracted Cost (£)*	*Notes*
Cabinet Office	8	531,700	1
Department for Constitutional Affairs	5	339,000	
Department for Culture, Media and Sport	4	279,600	
Department for Education and Skills	7	464,900	
Department for Environment, Food and Rural Affairs	5	323,300	
Foreign and Commonwealth Office	5	324,500	2
Department of Health	6	387,100	
Home Office	7	487,500	
Department for International Development	2	132,200	
ODPM/Department for Communities & Local Government	6	393,900	3
Attorney General's Office	2	133,900	
Northern Ireland Office	5	434,400	4
Privy Council Office	3	204,100	
Scotland Office	1	62,200	5
Department for Trade and Industry	5	312,200	6
Department for Transport	4	263,300	
HM Treasury	5	346,700	
Wales Office	1	74,600	
Department for Work and Pensions	5	407,800	

Notes
(1) Cabinet Office figures include cars for Ministers in the Cabinet Office, the Prime Minister's Office, the Chief Whip in the House of Commons, the Minister without Portfolio and the Deputy Prime Minister (since May 2006).
(2) The Minister of State for Trade, Investment and Foreign Affairs was a post held jointly between the Foreign and Commonwealth Office (FCO) and the Department for Trade and Industry. The GCS costs were met by the FCO.
(3) Machinery of Government changes in May 2006 created the Department for Communities and Local Government and the Deputy Prime Minister's Office from The Office of the Deputy Prime Minister.
(4) The right hon. Member for Neath (Mr. Hain) was both Secretary of State for Northern Ireland and Secretary of State for Wales. GCS costs were met by the Northern Ireland Office.
(5) The GCS car and driver provided to the Scotland Office was shared by the Parliamentary Under-Secretary of State and the Advocate General.
(6) The right hon. Member for Paisley and Renfrewshire, South (Mr. Alexander) was both Secretary of State for Transport and Secretary of State for Scotland. GCS costs were met by the Department for Transport.

Strengthening Local Delivery

The Secretary of State for Transport (Ruth Kelly): The Government published a draft Local Transport Bill on 22 May for public consultation and pre-legislative scrutiny (Cm 7043). The package of measures included new and enhanced responsibilities for the traffic commissioners as part of a new bus punctuality performance regime, and in relation to the approval of bus 'quality contracts' schemes.

The consultation paper on the draft Local Transport Bill highlighted that performing these new functions successfully is likely to require a different mix of skills and expertise from the existing core functions of the traffic commissioners and their support staff. It indicated that we were therefore considering whether the proposed new functions would be best delivered within the existing traffic commissioner structures, or whether further modifications could better deliver the desired outcomes.

The draft Local Transport Bill also includes proposals to encourage stronger transport governance in the six English metropolitan conurbations outside London, including changes to local transport planning. The consultation paper indicated there would be further consultation about local transport plans this summer.

I am today publishing two consultation documents. First "Strengthening Local Delivery—Modernising the Traffic Commissioner System" explores the functions and responsibilities of the traffic commissioners in more detail and proposes the creation of a Board of Traffic Commissioners which would be responsible for ensuring that both the goods vehicle and bus sectors get the attention and resource they deserve.

In particular, the board would champion bus passengers' interests and complaints about the punctuality and reliability of local bus services.

The proposals seek to ensure that the traffic commissioner system is well placed to deliver the proposed new bus functions, alongside its existing responsibilities. The proposed board will also oversee the overall performance of the traffic commissioner system with an enhanced, centralised administrative support network to facilitate bus punctuality monitoring, ensuring that resources are focused on the greatest problem areas.

Secondly "Local Transport Planning: The Next Steps" considers the statutory basis of local transport planning. It also sets out non-legislative proposals for reporting progress and distributing funding, related to local transport planning during the next three years.

Copies of both consultations have been placed in the Libraries of both Houses.

I would also like to announce that from 1 August 2007, operators of heavy goods vehicles and public service vehicles who hold a licence in more than one traffic area will be allocated a Lead Traffic Commissioner who will take decisions on all applications relating to their licences. This change is an important milestone in our implementation of the operator licensing reform agenda announced in December 2006. The Government's new proposals for reform of the traffic commissioner structure are entirely consistent with this initiative.

Written Ministerial Statements

The following statements were received between Monday 3 September and Friday 7 September 2007

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Claims Handled by ACAS

The Minister for Employment Relations and Postal Affairs (Mr. Pat McFadden): The following is a revised table showing the number of individual conciliation cases handled by ACAS during the five years up to 2006/07. The table has been revised to include total local authority equal pay claims. It should replace the individual conciliation table in my answer of 23 July 2007, *Official Report*, column 895W to the hon. Member for Tamworth (Mr. Jenkins).

Individual Conciliation - Claims Received

Region	*2002/03*	*2003/04*	*2004/05*	*2005/06*	*2006/07*	*5 Year Total*
London	15,109	15,214	12,435	33,001	8,905	84,664
South & East	10,414	10,666	8,473	8,094	9,965	47,612
East of England	7,355	7,442	5,804	5,100	5,326	31,027
East Midlands	6,090	7,493	5,224	6,105	6,864	31,776
West Midlands	7,977	8,724	6,662	9,670	8,381	41,414
North East	5,294	5,928	9,120	8,349	15,615	44,306
Yorkshire & Humber	8,015	9,202	7,110	7,887	10,996	43,210

Scotland	9,309	10,366	7,138	8,379	16,563	51,755
South West	5,815	6,888	5,035	4,543	5,248	27,529
Wales	4,765	4,704	3,049	3,139	4,178	19,835
Total - All Regions	94,453	102,559	81,833	109,712	105,177	493,734

TREASURY

Indirect Taxes (Dishonest Conduct)

The Financial Secretary to the Treasury (Jane Kennedy): This is to announce a new procedure for dealing with suspected dishonest conduct for indirect taxes, where neither criminal investigation nor the Civil Investigation of Fraud procedure outlined in Code of Practice 9(2005) is appropriate.

Code of Practice 9(2005) covers HMRC investigations of suspected serious fraud against the Exchequer where, for policy or operational reasons, it is considered inappropriate to launch a criminal investigation. Where cases are not suitable for Code of Practice 9 (2005) or criminal investigation, for direct taxes, it is already possible for income tax self-assessment and corporation tax self-assessment inquiries to lead to penalties being imposed for either negligent or fraudulent conduct. However until the new penalty provisions in clause 96 and schedule 24 of Finance Bill 2007 take effect, there is no equivalent procedure for dealing with lower level fraud in relation to indirect taxes, with the exception of civil evasion penalties issued at the ports for customs duties and import VAT.

This statement announces a new procedure which will enable HMRC to tackle cases where dishonesty is suspected in relation to indirect taxes. It also introduces a new public notice 160 outlining that procedure. This will bring current practices more closely in line across direct and indirect taxes and help enable a smoother transition to the new penalty regime put forward in clause 96 and schedule 24 of the Finance Bill 2007.

The procedure complements HMRC's policy of providing a level playing field for all businesses by supporting those who wish to comply but dealing more severely with those who seek an unfair advantage through non-compliance. It will be used in appropriate cases after 1 September 2007.

A copy of the new notice, PN160, is being placed in the House of Commons Library.

Player-to-Player Gaming (Casinos)

The Exchequer Secretary to the Treasury (Angela Eagle): On 30 April 2007, during the Committee of the whole House debate on clause 7 of the Finance Bill, my hon. Friend the Member for Wentworth (John Healey), the then Financial Secretary to the Treasury, made a statement concerning the taxation of bingo. He said:

"The policy of applying VAT and duty to bingo participation fees is entirely consistent with our treatment of other player-to-player games in licensed premises, such as poker played in casinos". [*Official Report*, 30 April 2007; Vol. 459, c. 1303.].

Similar statements have also been made in response to numerous letters and parliamentary questions from hon. Members.

I regret to inform the House that these statements were based on an incorrect understanding of the effect of the legislation relating to gaming duty as set out in the Finance Act 1997. In fact the Finance Act 1997 does not apply gaming duty to participation fees for poker played in casinos, so participation fees for poker played in casinos are liable only to VAT.

I apologise to the House for this misunderstanding.

I can, however, assure the House that HMRC have, nevertheless, been applying the law correctly, and casinos have not been required to account for gaming duty on participation fees for poker.

In the light of the effect of the current legislation relating to gaming duty, I will be looking again at the tax treatment of participation fees for player-to-player gaming in casinos.

COMMUNITIES AND LOCAL GOVERNMENT

Regional Spatial Strategy (RSS) (West Midlands)

The Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Parmjit Dhanda): My right hon. Friend the Secretary of State for Communities and Local Government is today publishing "Proposed Changes to the Regional Spatial Strategy" (RSS) for the West Midlands. They follow the public examination held in January 2007 and the panel report published in March.

The panel report largely welcome the changes submitted by the West Midlands Regional Assembly (WMRA) and considered that the draft revision was broadly compatible with the previously agreed principles of the West Midlands RSS.

The Secretary of State is pleased to support most of the changes recommended by the panel. These include: new policies to define broad areas for regeneration and growth in the black country,

a new policy which replaces Dudley with Brierley Hill/Merry Hill as a strategic centre,

a new policy to emphasise the importance of transforming the environment, and

revisions to the transport priorities to reflect the current status of transport proposals in the black country.

In addition, an appropriate assessment of the proposed changes has been completed and the recommendations incorporated.

I have today written to the WMRA with the proposed changes and indicating areas where views are particularly sought from any interested parties. There will now be a public consultation period on the proposed changes, which will end on 9 November.

Copies of the relevant document is available in the Libraries of both Houses and has been provided for all of the region's MPs, MEPs and local authorities.

The more extensive phase 2 revision to the West Midlands RSS is also underway. The WMRA is considering revisions to housing and employment policies as part of this revision.

HEALTH

NHS Financial Performance (Quarter 1 2007-08)

The Secretary of State for Health (Alan Johnson): On 30 August 2007, my Department published the first NHS quarterly performance report for 2007-08, which highlights the progress made by the NHS across a range of indicators at the end of the first quarter of this financial year.

The report highlights how local NHS organisations are performing against key promises such as achieving maximum 18-week waiting times and reducing hospital acquired infections.

The report also shows that the NHS continues to make improvements on financial performance, forecasting a net surplus of £983 million at the year end, compared with £510 million unaudited surplus at the end of 2006-07. This overall net surplus delivers the necessary stability in the service that will help ensure that local NHS organisations have the flexibility to continue to improve services for patients.

The report has been placed in the Library and copies are available to hon. Members in the Vote Office. It is also available on the Department's website at http://www.dh.gov.uk/en/publicationsandstatistics/publications/dh_078045

JUSTICE

Care Proceedings in the Family Courts (Correction of Written Question)

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): Pursuant to a reply to a written question, 14 May 2007, *Official Report*, column 505W, the then Minister of State for Justice provided the hon. Member for Bury St. Edmunds (Mr. Ruffley) with incorrect statistics on children who were the subject of new care proceedings in the family courts.

I apologise for this error. Corrected figures are given in the following table:

Number of Public Law Children Act applications made for a Care Order in the areas shown. 2003-06

	Year			
Area	*2003*	*2004*	*2005*	*2006*
Cambridgeshire	129	167	144	192
Essex	365	369	359	329
Norfolk	169	200	243	256
Suffolk	128	151	177	240

It has not been possible to obtain corresponding corrected figures for Bedfordshire or Hertfordshire.

These statistics relate to the location of the court where the case was heard, and not necessarily to the location of the care provider seeking the order, or the residence of the child on whose behalf the order is being sought. The figures cover both the family proceedings courts and the county courts, and exclude cases which are reported as having been transferred between courts.

I have written to the hon. Member for Bury St. Edmunds and copies of this letter have been placed in the Libraries of both Houses.

TRANSPORT

Railways: InterCity East Coast Franchise Replacement

The Parliamentary Under-Secretary of State for Transport (Mr. Tom Harris): The Department for Transport announced to the London Stock Exchange on 14 August 2007 the award of the InterCity East Coast rail franchise to NXEC Trains Ltd., a subsidiary of National Express group. The franchise will commence on 9 December 2007, and will continue until 31 March

2015 with the last 17 months conditional on set performance levels being reached. NXEC Trains Ltd. has undertaken to pay the Department for Transport a premium of £1,414 million net present value over the life of the franchise that will be reinvested in the railways.

The franchise offers value for money to passengers and taxpayers, and provides for more capacity, performance improvements and investment at stations and in on-board services.

Bidders were required to reflect the emerging recommendations of the east coast route utilisation strategy, a draft consultation document published by Network Rail in June 2007. The contract with NXEC Trains Ltd. makes provision from December 2010 for up to 25 extra train services—around 14,000 seats—each weekday and up to 40 more carriages to deliver increased capacity. Until then, the current timetable will continue to be operated in the new franchise, including Leeds half-hourly service improvements introduced in May 2007.

The additional capacity from 2010 would enable a new London—Lincoln service to operate at two-hourly intervals, and an additional London—York service to operate at two-hourly intervals. Faster journeys will also be possible between London and Leeds, York and Edinburgh. NXEC Trains Ltd. will reduce delays for which it is responsible by 29 per cent. by March 2015. It will work closely with Network Rail to raise the public performance measure to over 90 per cent. by January 2010.

NXEC will invest £7.4 million to upgrade station facilities. Up to 2000 more car parking spaces will be provided by the end of the franchise with half of these expected within the first two years.

Environmental improvements have also been secured. Fuel consumption per passenger-kilometre will be reduced by 28 per cent. and four stations will be designated as "green stations". Pre-series inter-city express trains, which will replace the current fleet of high speed trains, will be trialled on the east coast main line from summer 2012.

On-board improvements include CCTV on all trains and free wi-fi for all passengers. A full restaurant service on 87 weekday services will be offered. A hot food at seat service will be available to standard class passengers.

The Government will continue to limit annual rises of regulated fares—which include season tickets and saver fares—in line with national policy, which is currently RPI+1%. Unregulated fares will be, as with all franchises, the responsibility of the operator.

NXEC have indicated that they may wish to raise unregulated fares by an average of 2.1 per cent. above inflation each year over the course of the franchise. Overall, regulated and unregulated fares together are likely to rise by RPI+1.6% each year throughout the course of the franchise. Annual rises in regulated fares will continue to be capped at RPI+1%.

An improved website will be introduced that will highlight the cheapest tickets available and the expected seat availability on each train. Smartcards will be introduced by 2010.

Written Ministerial Statements

The following statements were received between Monday 10 September and Wednesday 12 September 2007

COMMUNITIES AND LOCAL GOVERNMENT

Flood Recovery Update

The Minister for Local Government (John Healey): Further to the statement that my right hon. Friend the Secretary of State for Environment, Food and Rural Affairs laid before the House on 26 July, I am today providing a progress report on recovery from the summer floods.

I wish to express the Government's continuing sympathy for those still working to recover from the devastation of the recent floods. The flood waters have gone but the difficulties faced by some households, businesses and communities remain and I pay tribute to the efforts that the emergency services, local authorities and agencies, local voluntary groups, the private sector and individuals have put into dealing with the immediate aftermath and with recovery.

Further to the commitments given by my right hon. Friend the Leader of the House that Ministers will keep Members whose constituencies have been affected updated on a regular basis, I have written three times to update all Members and both I and ministerial colleagues have hosted regular telephone conferences with hon. Members to ensure that local issues and concerns are being picked up. The Inter-Ministerial Group is meeting regularly and the inter-departmental officials group continues to meet weekly. Throughout the recess, Government work to support the efforts of those leading local recovery programmes has continued. Ministers are continuing to visit flood affected areas, and officials both in Government Offices and Government Departments are in close contact with Local Authorities and Agencies in the affected areas.

Communities and Local Government (CLG)

I announced on the 24 August the final payments of the Flood Recovery Grant to local authorities in the area affected by the July floods. A total of £7.4 million was paid to 36 local authorities. This was in addition to the £10 million that was paid in July. This means almost £18 million of funding has now been released from the £20 million that I and my right hon. Friend the Secretary of State for Environment, Food and Rural Affairs have previously announced for help to those hardest hit by this summer's floods.

The funding has been provided to local authorities without conditions on use, to allow them to decide how best it should be distributed according to local needs. Many local authorities have used the grants to make payments—either automatic or on application—to households affected by the flooding. Some local authorities have provided a mixed approach of payments and replacement of white goods, again based on locally agreed criteria.

Many local authorities are also utilising established council tax flexibilities to provide discounts to those whose properties are or have been uninhabitable. Some of these discounts are being funded from the grant, others from alternative means. This is not the only funding available to local authorities. Financial assistance is also available retrospectively through the Communities and Local Government Bellwin Scheme. We have made Bellwin more generous in the exceptional circumstances of both the flooding in July and the June floods. Some 50 local authorities have made applications under the June scheme and 52 under the July scheme (20 of which had already registered for June).

Transport

In addition, the Department for Transport (DFT) has been working closely with the most seriously affected LAs and has made £3 million available to support longer run infrastructure costs in flood affected areas and has appointed consultants to assist local authorities with their applications for claiming Emergency Capital maintenance funding from the Department for Transport.

Department for Work and Pensions

Community Care Grants are non-repayable grants to help to support vulnerable people living in the community. An applicant must be in receipt of Income Support, Income based Job Seeker's Allowance or Pension Credit.

Jobcentre Plus put in place a range of special measures locally to ensure that these grants were easily accessible to people in need who were affected by the flooding.

So far the Department for Work and Pensions has paid Community Care Grants totalling £653,000 to people on qualifying benefits to meet the cost of replacing essential household items.

Schools

The Department for Children, Schools and Families (DCSF) has made available £14 million for flood affected schools and children's services. Officials, with colleagues from Government Offices, are holding detailed discussions on a case by case basis to determine how best to provide interim and long-term solutions.

Schools play an important role in all communities, both in providing education and as a focus for an increasing range of other activities. It has therefore been vital to get schools back open to pupils as quickly as possible, and I can report that 97 per cent.of flood-hit schools reopened on time at the start of term, with the others all open early the following week; some are in temporary premises, but all are providing education to all their pupils. The Government would like to thank all those in schools and their local communities for their efforts to achieve this.

DCSF will be continuing to work with the affected areas to ensure that pupils' education does not suffer as a result of the floods.

European Union Solidarity Fund

I am able to confirm that an application was submitted to the European Union Solidarity Fund (EUSF) on 20 August. A provisional assessment of damage caused by the June and July floods is estimated at more than 4 billion Euros—significantly above the 3 billion Euro threshold required for a Member State to make an application. We are currently working to refine the detailed estimates. The calculations used to assess whether the EU threshold for applications is met includes insurable costs. The aim of the EUSF, however, is to help Member States meet some of the uninsurable costs of dealing with natural disasters, for example, supporting the costs of emergency services, cleaning up and restoring infrastructure to working order.

Work to firm up the details of the application and to respond to initial questions from the Commission continues, and decisions by the Commission on fund applications may take some months. If the application is successful, the Commission would only provide a proportion of the eligible costs incurred.

Business

Regional Development Agencies (RDAs) have committed more than £11 million to flood recovery packages. They continue to assess the needs of business in the regions and have adapted or expanded their support to meet demands. RDAs report that the principal business issues still being dealt with through the grants are: loss of earnings and trade, property damage, and damage to uninsured stock and machinery.

In total some £1.4 million has so far been approved to support small and medium sized enterprises, including farmers across the flood affected regions of Yorkshire and Humberside, East Midlands, West Midlands, South West and South East. Ministers from the Department of Business, Enterprise and Regulatory Reform (BERR) have hosted two flood summits in early September. These were hosted in Yorkshire and West Midlands. These are aimed at ensuring Government are doing all possible to help business get back on its feet quickly. A further summit will follow in the South West and other regions as necessary. All will be followed by a commitment to hold regular regional business forums, beginning in the autumn.

Tourism

On 14 August the Department for Culture Media and Sport announced a £1 million cash injection to promote tourism, rural destinations and visitor attractions. This will fund a targeted marketing campaign for the flood affected regions of England and businesses such as B&Bs, caravan parks and attractions.

Insurance

I know that insurance remains an issue of concern to some households and businesses. Government continues to have constructive relations with the Association of British Insurers who provide regular updates on progress with claims. A task group of officials and the insurance industry have been meeting weekly during recess to address issues relating to the insurance industry's role in the flood recovery process and Ministers from CLG, DEFRA, HMT and BERR are set to meet industry leaders again later this month. The ABI has reported that all claimants should now have been visited or contacted by their loss adjuster if necessary and that 20 per cent. of claims have now been settled.

Flooding Lessons Learned Review

Finally, on 8 August my right hon. Friend, the Secretary of State for Environment, Food and Rural Affairs, announced that the Flooding Lessons Learned Review will be led by Sir Michael Pitt, Chair of the South West Strategic Health Authority. An interim report will be submitted by the end of the year with a final report in the spring/summer of 2008.

As previously reported to the House, the review is seeking views from those who suffered from the impact of the flooding, including affected residents, businesses and public organisations, such as schools and hospitals, as well as those involved in the emergency response. Locally conducted reviews will obviously be important for local planning decisions and provide a useful source of evidence for the national review.

Comments to the review can be submitted to

Flooding Lessons Learned Review,
Cabinet Office,
10 Great George Street,
London,
SWIP 3AE,
email:
2007floodreview@cabinet-office.x.gsi.gov.uk

DEFENCE

Project Borona

The Minister for the Armed Forces (Mr. Bob Ainsworth): On 24 July 2006, Official Report, columns 71-72WS, my predecessor announced the establishment of a project team to examine in detail opportunities for further rationalisation of our basing arrangements in Germany, through the exploitation of UK defence estate opportunities, including the possible relocation to the UK of Headquarters Allied Rapid Reaction Corps (HQ ARRC), 102 Logistic Brigade (102 Log Bde) and 1 Signal Brigade (1 Sig Bde) over the period 2008-2012. This followed on from the earlier announcement by the then Secretary of State for Defence, my right hon. Friend the Member for Airdrie and Shotts (John Reid), of the move of 4 Mechanised Brigade (4 Mech Bde) to the UK from Germany and our intention to take the opportunity to make further adjustments to our forces in Germany, where it made sense to do so. My predecessor also announced a series of minor moves which, in addition to the move of 4 Mech Bde, will enable the closure of Osnabrück Station (one of two stations that comprise Osnabrück Garrison). He explained that the project team would examine the feasibility of further moves which would enable the closure of Münster Station—the other element of Osnabrück Garrison—and thereby Osnabrück Garrison as a whole. The relocation of HQ ARRC, 102 Log Bde and 1 Sig Bde would also enable us to close Rhine Garrison in the period 2010-2014, concentrating our Germany-based forces in Bergen-Hohne, Paderborn and Gütersloh Garrisons.

Today, I am announcing that, having examined the findings of the project team's initial review, I have decided that Headquarters Allied Rapid Reaction

Corps (HQ ARRC), 102 Logistic Brigade (102 Log Bde) and 1 Signal Brigade (1 Sig Bde) should move to the UK over the period 2009-2014. This initial decision will need to be confirmed following scrutiny of the detailed plans for the moves. The site currently occupied by the RAF at Innsworth in Gloucestershire has been selected as the most suitable for HQ ARRC and its supporting elements, and RAF Cosford in Shropshire is the project team's recommended site for 1 Sig Bde and 102 Log Bde. We will continue to assess other sites for the two brigades until such a time as Cosford's future defence use has been decided. Securing the final approval for this work will also mean that a series of other moves will take place within Germany, which would lead to the closure of Rhine Garrison and Münster Station, the latter completing the closure of Osnabrück Garrison, by 2014.

The project team's work will now focus on drawing up detailed plans for all the moves, including additional infrastructure requirements at the selected UK sites and a clear timetable. This work will start with the proposed move of HQ ARRC. The team will consult with all interested parties, including local county councils, health and education providers and trades unions. In Germany, we will continue to engage with the relevant authorities and employee representatives at national and local levels.

Our NATO allies have been notified of this decision, including the German Government as host nation.

Although we may make further modest adjustments to our force levels in Germany, our plan remains to base UK forces there in the form of HQ 1 (UK) Armoured Division and the majority of its formations and supporting units, some 15,000 service personnel, for many years to come. These moves and the work of the project team in no way signal a change in either our commitment to the NATO Alliance or in our overall defence policy, nor do they in any way devalue the continued close bilateral defence relationship between the UK and Germany.

JUSTICE

Advisory Committee on Civil Costs

The Parliamentary Under-Secretary of State for Justice (Bridget Prentice): In response to a recommendation from the Civil Justice Council, I am establishing an ad hoc Advisory Committee on Civil Costs to provide independent advice on costs in civil claims. Advice provided will be based on evidence and economic analysis, and the Committee will be chaired by Professor Stephen Nickell, with whom I look forward to working. I will make a further announcement on the membership of the Committee and its programme of work in due course.

Criminal Cases Review Commission

The Parliamentary Under-Secretary of State for Justice (Maria Eagle): I would like to inform the House that Mr. Mark Emerton, Mr. Michael Allen and Mr. John Weeden CB have been re-appointed as Commissioners to the Criminal Cases Review Commission. Copies of the press release relating to these re-appointments have been placed in the Libraries of both Houses.

Written Ministerial Statements

The following Statements were received between Thursday 13 September and Monday 17 September 2007

DEFENCE

Defence Relations

The Secretary of State for Defence (Des Browne): I am today announcing the results of the Defence Attaché network, which was notified to the House by the then Minister of State for the Armed Forces on 7 February 2007, Official Report, columns 924-926W. The review was commissioned to ensure that our resources were deployed in the most cost-effective way, in support of the defence contribution to HMG strategic international priorities.

The role of Defence Attachés is to promote the Government's priorities in the area of international security co-operation. The principal components of this policy are to strengthen international peace and stability by preventing conflicts, by contributing to the transformation of the security structures of vulnerable states, by assisting and building partnerships with those who may contribute to peace-support operations and by reducing the risk of terrorism through greater co-operation and communication. In line with this policy, we will be strengthening our representation both in Afghanistan, where we will have a Defence Attaché from April 2008, and in Pakistan, where we will have an additional Attaché from April 2008.

As part of our rebalancing of resources, Defence Sections will be closing over the coming year in Albania, Croatia, Guatemala, Ireland, Macedonia, Slovakia and Thailand. We intend to provide non-resident Attaché cover for these countries (except for Guatemala) from nearby states and, in the case of Ireland, through alternative arrangements. Defence Sections in Argentina, Egypt, France, Greece, the Republic of Korea, Malaysia, Poland, the Russian Federation, Spain and Ukraine will retain cover but will reduce their Attaché numbers by one. There will also be reductions in military support staff and more of their tasks will be undertaken, where appropriate, by civilian personnel. The rank of certain military posts will also be reduced at the next rotation to a level commensurate with their role.

The review of the Defence Attaché network has given an opportunity for us to provide greater emphasis and focus to the MOD's programme of international engagement, and we have confirmed the importance of the role of the Attaché network in contributing to both defence and broader strategic priorities in the 21st century. We shall continue to review our Attaché network, as we have done regularly in the past, to ensure that our investment is effective and relevant to our international interests.

INTERNATIONAL DEVELOPMENT

EU Development Ministers (Informal Meeting 21-22 September 2007)

The Parliamentary Under-Secretary of State for International Development (Mr. Gareth Thomas): I shall be representing the UK at the EU Development Ministers' Informal Meeting in Madeira on 21-22 September 2007.

The agenda items are as follows:

Friday 21 September

Fragile States

Development Ministers will discuss an issues paper on fragile states with the objective of developing a more coherent approach for the EU to respond to fragile situations and difficult environments. This will include clarifying the comparative advantage of the Commission in fragile situations and developing guidelines for a more coherent and systematic approach to analysing the causes of fragility and consequent interventions.

Development and Security

Following on from the discussions on fragile states, over lunch Ministers will respond to a number of questions on development and security. This is one of the Portuguese Presidency's priorities and the Portuguese Defence Minister will also be present.

Humanitarian Consensus

It is the objective to agree a European consensus on humanitarian aid by the end of the year that will help to strengthen the collective efforts of member states and ECHO both to influence global humanitarian policy and to ensure timely and effective assistance on the ground. Discussion will focus on the initial draft consensus.

Economic Partnership Agreeements (EPAs)

European Development Ministers are expected to discuss the current state of play of the Economic Partnership Agreements. The deadline for concluding these agreements is fast approaching and there needs to be a focus on encouraging the ACP to put forward their own market access offers. The Government will be urging other member states to ensure that the EU market access offer is not diluted.

Development Ministers are expected to discuss development co-operation within the EPAs. The Government will be urging other member states to continue to give reassurance to the ACP on financial assistance.

HOME DEPARTMENT

Control Orders

The Minister for Security, Counter-Terrorism, Crime and Policing (Mr. Tony McNulty): Section 14(1) of the Prevention of Terrorism Act 2005 (the 2005 Act) requires the Secretary of State to report to Parliament as soon as reasonably practicable after the end of every relevant three-month period on the exercise of the control order powers during that period.

The level of information provided will always be subject to slight variations based on operational advice.

Control orders continue to be an essential tool to protect the public from terrorism, particularly where it is not possible to prosecute individuals for terrorist-related activity and, in the case of foreign nationals, where they cannot be removed from the UK.

During the period 11 June 2007 to 10 September 2007, two new control orders were made with the permission of the court under section 3(l) (a) of the 2005 Act and, on 25 June and 4 July 2007, served on two British citizens.

Control orders can only be made and renewed if they meet the test set out in the Prevention of Terrorism Act in that:

(a) there are reasonable grounds for suspecting the individual is or has been involved in terrorism-related activity; and

(b) it is necessary, for purposes connected with protecting members of the public from a risk of terrorism, to make / renew a control order imposing obligations on him.

Obligations are tailored to the individual concerned and are based on the risk that individual poses. Each control order is kept under review to ensure that the obligations remain necessary and proportionate. Specifically, as Lord Carlile recommended in his February 2006 report on the operation of the control order system, the Home Office has established a Control Order Review Group (CORG), with representation from law enforcement and intelligence agencies, to keep the obligations in every control order under regular (quarterly) formal and audited review and to facilitate a review of appropriate exit strategies. During this reporting period, four review groups were held in relation to the orders currently in force. In addition, further meetings were held on an ad hoc basis as specific issues arose.

As a result, during this reporting period, five control orders were renewed in accordance with Section 2(6) of the 2005 Act. Four control orders have expired and one has been revoked since the last report.

In total, therefore, there are 14 control orders currently in force, eight of which are in respect of British citizens. Four of the individuals live in the Metropolitan Police Service area; the rest fall within other police force areas.

Three of the 14 individuals currently subject to a control order have absconded—one in January 2007 and two in May 2007. One further individual absconded during this reporting period—in June 2007. His control order expired on 31 July 2007. Details in relation to this abscond were given in a written statement on 21 June 2007. Parliament has also previously been informed of a further individual who absconded in May 2007. This individual is currently on remand and therefore when his control order expired during this reporting period no further control order was made against him.

The anonymity order for the individual who absconded in September 2006 was lifted by the High Court on 25 May 2007. The anonymity orders for the two individuals who absconded in May 2007 were lifted by the High Court on 23 May 2007. For police operational and legal reasons, the Government are not currently seeking to lift the anonymity orders of the other two individuals who absconded (one in January 2007 and the other in June 2007). Finding individuals who have absconded is an operational matter for the police and investigations are ongoing.

During this reporting period, 25 modifications of control order obligations were made and 23 requests to modify a control order obligation were refused. A right of appeal exists in Sections 10(1) and (3) of the 2005 Act against decisions by the Secretary of State relating to the modification of obligations imposed by non-derogating control orders. Appeals have been made in respect of 10 modification requests that were refused and one modification which was made by the Secretary of State.

There have been no prosecutions for breaches completed during this reporting period.

During this reporting period, three court judgments relating to control orders were handed down from the High Court. In the control order review hearing in *Secretary of State for the Home Department v AF* [2007] EWHC 1970 (Admin) the High Court accepted that the Secretary of State had reasonable grounds for suspecting that the individual was involved in terrorism-related activity and that the control order and obligations were necessary to protect the public. The control order modification hearing in *Secretary of State for the Home Department v AF* [2007] EWHC 2001 (Admin) was heard between 23 and 25 July 2007. AF had appealed the Secretary of State's decision to refuse 10 modification requests. The High Court upheld the Secretary of State's refusal to make eight of the requested modifications, but directed that the Secretary of State slightly modify two of AF's obligations.

The control order modification hearing in *Secretary of State for the Home Department v Mahmoud Abu Rideh* [2007] was heard on 29 August 2007. On 7 September, the High Court dismissed Mr Abu Rideh's appeal.

The House of Lords heard the cases of *JJ and others, MB, AF and E* in July and considered issues relating to Articles 5 (Right to Liberty) and 6 (Right to a Fair Trial)of the European Convention on Human Rights. In relation to *E*, the Lords also considered the extent, if any, of duties on the Secretary of State under section 8 of the 2005 Act and the duty to consult the family about the impact on them of the control order. We await the outcome.

Independent Police Complaints Commission Report (Police Road Traffic Incidents)

The Minister for Security, Counter-Terrorism, Crime and Policing (Mr. Tony McNulty): I can announce today that the Independent Police Complaints Commission (IPCC) report on police road traffic incidents has been laid before Parliament and will be published tomorrow, Tuesday 18 September 2007.

This is the first report from the IPCC on this subject. The report provides findings from a study of cases involving serious and fatal injuries resulting from road traffic incidents involving the police between April 2004 and September 2006. It includes recommendations for police forces and the Association of Chief Police Officers for better management of police pursuits, and improvements will be made to the Association of Chief Police Officers' guidelines for the management of police pursuits.

JUSTICE

Office of the Public Guardian (Performance Targets for 2007-08)

The Secretary of State for Justice and Lord Chancellor (Mr. Jack Straw): On 1 October 2007, I will launch the Office of the Public Guardian. The new agency will be created by the transition of the current Public Guardianship Office into the new Office of the Public Guardian (OPG). The OPG will support the Public Guardian to regulate all decision makers who are appointed to make the whole range of finance, health and welfare decisions for people who lack capacity and those who live and work with them. The OPG will also provide support for decision makers appointed by the Court of Protection to ensure that they have the necessary skills and information to manage effectively the affairs of someone who is not capable of doing so.

I have set the following Key Performance Indicators for the Office of the Public

Guardian for 2007-08:

KPI 1: Lasting Power of Attorney/Enduring Power of Attorney

a) The OPG will register and return 98 per cent. of correctly lodged LPAs/EPAs, where there are no objections, within five working days of the statutory waiting period.[1]

(b) The OPG will inform the applicant where an application has not been made properly with details of the error within five working days in 80 per cent. of cases.

KPI 2: Supervision of Deputies

All deputyship cases will require a supervision regime based on a risk assessment. Risk criteria include: whether a deputy has been refused credit or is an un-discharged bankrupt; whether the deputy has any financial interests which conflict with those of the client; the value of the client's estate; the relationship of the deputy to the client and any objections which were made to the appointment to the deputy.

(a) 90 per cent. of deputyship cases will be assessed and a supervision level set within 30 days of the court order being served on the Public Guardian.

(b) 100 per cent. of ongoing deputyships with active supervision will be reviewed within thirteen months of the court order being issued.

(c) The OPG will audit 10 per cent. of Type II supervision cases per year.

KPI 3: Customer Contact

(a) The OPG will respond to 95 per cent. of correspondence (including letters, faxes and emails) within 15 working days.

(b) 85 per cent. of telephone calls to the Customer Contact Centre will be answered within 60 seconds.

(c) During the first six months of operation the OPG will monitor the use of the Customer Contact Centre and by April 2008 will have developed any further appropriate performance measures required.

KPI 4: Investigations

The OPG will carry out investigations where required.

(a) The OPG will put in place an approved action plan in 100 per cent. of investigations cases within 14 days of receipt.

(b) 75 per cent. of investigations will be completed within three months.

KPI 5: Customer Satisfaction

Based on inherited experience the OPG will investigate, develop and agree a baseline for future customer satisfaction. It will carry out at least one full customer satisfaction survey.

The OPG will set an agreed process for surveying customer satisfaction by April 2008.

KPI 6: Finance

Based on the statutory instrument for fees approved by Parliament the OPG will aim to achieve the following targets for full cost recovery.

(a) OPG 100 per cent. full cost recovery.

(b) Court of Protection 63 per cent. full cost recovery.

Full cost excludes the cost of remissions as the Court of Protection has discretion to waive a fee if the client or their dependents would experience hardship by paying and it is therefore considered a social subsidy not recovered as detailed in the OPG's publicised remissions and exemptions policy.

Copies of the Office of the Public Guardian Framework Document and Business Plan will be available in the Printed Paper Office, the Vote Office and in the Libraries of both Houses from 17 September 2007 and from the website of the OPG www.publicguardian.gov.uk from 1 October 2007.

[1] The statutory waiting period is 42 days from the latest date on which notices of intention to register the LPA were sent or given and 35 days for EPAs.

PRIME MINISTER

Council of Europe/Western European Union

The Prime Minister (Mr. Gordon Brown): The United Kingdom Delegation to the Parliamentary Assembly of the Council of Europe and the Assembly of the Western European Union is as follows:

Leader: Right hon. John Prescott MP

Full Representatives	*Substitute Representatives*
Lord Burlison DL	John Austin MP
Christopher Chope OBE MP	Timothy Boswell MP
Bill Etherington MP	James Clappison MP
Paul Flynn MP	Nigel Dodds OBE MP
Mike Hancock CBE MP	Nigel Evans MP
Baroness Hooper	James Gray MP
Baroness Knight of Collingtree DBE	John Greenway MP
Christine McCafferty MP	Doug Henderson MP
Humfrey Malins CBE MP	Bob Laxton MP
Alan Meale MP	Right hon. Lord McIntosh of Haringey
Edward O'Hara MP	Right hon. Denis MacShane MP
Lord Russell-Johnston	Khalid Mahmood MP
Geraldine Smith MP	David Marshall MP
Lord Tomlinson	Mark Oaten MP
Dr. Rudi Vis MP	Gordon Prentice MP
Robert Walter MP	Paul Rowen MP
David Wilshire MP	Right hon. Baroness Taylor of Bolton
	Betty Williams MP

Written Answers to Questions

Monday 16 July 2007

TRANSPORT

Air Passenger Duty: Repayments

Mr. Dismore: To ask the Secretary of State for Transport if she will take steps to end the practice of budget airlines *(a)* not to refund air passenger duty to their customers who do not use their flights and *(b)* levying handling charges to make refunds of air passenger duty to customers who do not use their flights unviable; and if she will make a statement. [149289]

Jim Fitzpatrick: Air passenger duty (APD) is a statutory duty levied on aircraft operators and liability is determined based on the number of passengers they carry from UK airports. It is for aircraft operators to decide whether to absorb this levy or pass it on to their customers and whether a refund is made of air passenger duty, or any other portion of the ticket price if the passenger does not travel.

Many airlines, not just low cost airlines, specify on their on-line terms and conditions before booking that charges are applicable for refunds including APD.

The imposition of a reasonable service fee was approved by the Office of Fair Trading (OFT) and further recognised in the 2007 OFT reference to the Competition Commission. Passengers are always advised to check the terms and conditions of a ticket before booking.

Bicycles: Helmets

Mr. Bone: To ask the Secretary of State for Transport what estimate she has made of the proportion of *(a)* adult and *(b)* child cyclists who wear helmets; and what estimate she has made of those numbers (i) five and (ii) 10 years ago. [149618]

Jim Fitzpatrick: Surveys of cycle helmet wearing rates have been carried out for the Department in 1994, 1996, 1999, 2002, 2004 and 2006. The findings from surveys from 1994 to 2004 are shown in the following table. This shows that in 2004 cycle helmets were worn by:

10.8 per cent. of male cyclists under 16

28.7 per cent. of male cyclists 16 years and over

26.3 per cent. of female cyclists under 16

29.7 per cent. of female cyclists 16 years and over.

The 2006 survey of cycle helmet wearing rates will be published in the autumn.

	1994	*1996*	*1999*	*2002*	*2004*
Male					
Under 16	16.0	13.3	12.7	12.3	10.8
16 years and over	15.5	16.7	22.2	25.2	28.7
Female					
Under 16	21.9	17.6	20.9	24.4	26.3
16 years and over	17.0	17.5	22.2	27.0	29.7
All					
Under 16	17.6	14.4	15.0	15.3	14.1
16 years and over	15.9	17.0	22.2	25.7	29.0

Mr. Bone: To ask the Secretary of State for Transport when she expects the Government's evaluation of cycle helmet effectiveness to be completed. [149619]

Jim Fitzpatrick: The Department is planning to commission a new research project on cyclists' road safety in the autumn. This will include a new review of cycle helmet effectiveness. The research project as a whole is likely to take three years, but we are aiming to complete the review of cycle helmet effectiveness within two years, so by autumn 2009.

Bus Services: Gravesham

Mr. Holloway: To ask the Secretary of State for Transport how much subsidy was paid to bus service operators in Gravesham in each year since 1997. [149309]

Ms Rosie Winterton: Bus Service Operators Grant (BSOG) is the only grant paid by the Department direct to operators of local bus services. It is based on the amount of fuel used on providing services and is essentially a reimbursement of about 80 per cent. of the fuel duty incurred.

The Department holds national figures on BSOG spend which is anticipated to be £413 million in financial year 2007-08. We estimate that BSOG payments to operators in the South East region now total around £40 million annually.

Eligible operators based in the Gravesham area may not necessarily run their services in the area. Conversely, operators based outside of Gravesham may well run services within the area.

Buses: Registration

Graham Stringer: To ask the Secretary of State for Transport what estimate she has made of the cost of the re-registration of excursion services as local bus services using coaches when the Concessionary Bus Travel Scheme is implemented in April 2008. [149653]

Ms Rosie Winterton: None. A service will be eligible to offer the statutory concessions only if it meets the criteria set out in the Travel Concessions (Eligible Services) Order 2002.

The Department expects that the majority of 'excursion' services will not meet all the eligibility criteria and so will not have to offer the national bus concession. It will

be for operators and local authorities to assess which services are covered in accordance with the criteria set out in existing legislation.

The Department is keeping the issue of 'eligible' services under review. The definition can be changed by secondary legislation.

Cycling: Accidents

Mr. Bone: To ask the Secretary of State for Transport what the reasons were for the decision to change the way in which child pedal cycle injuries are recorded in the road casualty statistics published on 28 June 2007; and how many such injuries there were in the period covered. [150000]

Jim Fitzpatrick: The way the statistics on child pedal cycle casualties are published has not changed. Child pedal cyclist casualties (aged 0 to 15) are given in Table 2 of "Road Casualties Great Britain: Main results 2006". This was published on 28 June 2007 and copies of this publication have been deposited in the Libraries of the House. There were 3,795 child pedal cyclists injured in reported personal injury road accidents in 2006.

Departments: Public Transport

Mr. Jenkins: To ask the Secretary of State for Transport what incentives she has considered to encourage staff in her Department to use public transport. [148803]

Jim Fitzpatrick: The Department has for several years made available for full and part-time permanent staff, who have been Civil Servants for a full three months, season ticket advances to assist in the cost of their journey to work by public transport. All such loans are interest free and provided they do not exceed £5,000 do not attract income tax on "interest free loans" under the Inland Revenue's "benefits in kind" rules. All season ticket loans are repaid from deductions from salary within the term of the loan, normally 12 months.

DVLA provides a shuttle bus service between its two HQ sites to reduce excessive vehicle use and provides in-house bus services to a number of local areas.

VCA successfully campaigned for bus stops outside their Bristol offices, to encourage staff to use the local services.

Departments: Publicity

David Simpson: To ask the Secretary of State for Transport what assessment she has made of the cost effectiveness of advertising commissioned by her Department in the last 12 months. [148507]

Jim Fitzpatrick: The major campaign activity undertaken by the Department in the 2006-07 fiscal year was in support of the THINK! road safety; Act on CO2 (launched in March 07); aviation security informing travellers about new security rules; and the continuous registration campaign (car tax evasion).

We measure the effectiveness of our campaigns through regular independent pre and post-advertising tracking research which explored:

- the attitudes and behaviour of the general public towards the above campaign issues
- the awareness of each burst of advertising to inform us what percentage of our target audience has been reached and the message take-out.

For the THINK! campaign we also conduct an annual THINK! survey to track long-term shifts in driver and public beliefs and behaviours towards road safety, details of which are available at www.thinkroadsafety.gov.uk. Ultimately, for THINK! we are judged by the number of people killed or seriously injured and we are on course to meet our demanding road safety targets.

On the continuous registration campaign, we demonstrate the effectiveness of our advertising, in addition to tracking research, in terms of the impact on volumes of licensing/statutory off-road notification (SORN) transactions processed and volumes of late licensing penalties issued to those who delay renewing their licence for two months post licence expiry. We also take into account evasion levels as reported in the annual roadside survey.

Finally, we also measure how effectively we buy advertising space compared to other advertisers and can demonstrate that we are achieving highly competitive prices for the taxpayer.

Driving: Licensing

James Brokenshire: To ask the Secretary of State for Transport what steps she is taking to ensure that information obtained from driving licences using scanning equipment at commercial venues is not misused and that data protection requirements are met. [149267]

Jim Fitzpatrick: The purpose of the driving licence is to confirm an individual's entitlement to drive. It is not an identity document and is not intended to be used as such. If a licence holder volunteers information to a commercial entity, it is the responsibility of that organisation to comply with the requirements of the Data Protection Act. It is the responsibility of the Information Commissioner to enforce compliance with the Data Protection Act. DVLA does not have any legal power to monitor data protection compliance of commercial organisation in such circumstances.

M1: Closures

Mr. Greg Knight: To ask the Secretary of State for Transport for what reason the M1 motorway northbound was closed on 5 July 2007; upon whose authority the motorway was closed; and what investigation or inquiry will be held into the circumstances of this closure operation and the reason for it. [149648]

Mr. Tom Harris: A road traffic collision involving four large goods vehicles occurred on the northbound carriageway of M1 adjacent to the J20 northbound entry slip at 2.50 am on 5 July. Leicestershire police led the incident and directed that the motorway should be closed in order to deal with the casualties and recover

the vehicles involved. This was a serious incident involving one death and life-threatening injuries to a second driver who had to be released from his vehicle by the emergency services.

The police handed over the scene to the Highways Agency at 2.51 pm, following the removal of the last vehicle, to prepare the road for reopening. A large amount of diesel and spilled loads had to be cleared and temporary repairs to be made to the carriageway surface before the carriageway could be reopened, which was achieved at 4.44 pm. A permanent repair was left until it could be carried out overnight when there would be less disruption to the travelling public.

Leicestershire police are carrying out their own investigation of the circumstances of the incident and the matter has been voluntarily referred by the police to the Independent Police Complaints Commission (IPCC) who will oversee the result of the police investigation. All of the Highways Agency staff involved in the incident (both in the East Midlands control room and on-road Traffic Officers) were de-briefed on the day of the incident in order to identify and learn any lessons from the Agency's handling of the incident.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Transport when she will answer the letter to her predecessor of 24 May from the right hon. Member for Manchester, Gorton with regard to Mr. J. Woolley. [150468]

Jim Fitzpatrick: A reply was sent on the 26 June 2007 by the then Secretary of State for Transport.

Motor Vehicles: Insurance

Mr. Dismore: To ask the Secretary of State for Transport if she will negotiate amendments to the Motor Insurers Bureau Untraced Drivers Agreement following the judgment in Byrne v MIB; and if she will make a statement. [149272]

Jim Fitzpatrick: The recent judgment on the preliminary issues in the matter of Ben Byrne v (1) the Motor Insurance Bureau and (2) the Secretary of State for Transport is presently the subject of an appeal. In those circumstances it would not be appropriate to make any further comments on the case. Once the case has been finally determined we will carefully consider the decision and any steps that may need to be taken.

Motorcycles: Training

Justine Greening: To ask the Secretary of State for Transport how many motorcyclists were issued with a Certificate of Completion DL196 in each of the last five years, broken down by local authority area; and if she will make a statement. [149462]

Jim Fitzpatrick: The Driving Standards Agency does not record how many motorcyclists were issued with form DL196 broken down by local authority area.

The following table shows how many DL196 certificates were sold to Approved Training Bodies in each of the last five financial years:

Year sold	*DL196 certificates*
2002-03	170,792
2003-04	184,256
2004-05	179,200
2005-06	178,625
2006-07	183,600

Justine Greening: To ask the Secretary of State for Transport how many Certificate of Completion DL196 certificates were reissued to motorcyclists following the expiry of a DL196 certificate previously issued in each of the last five years, broken down by local authority area; and if she will make a statement. [149463]

Jim Fitzpatrick: Information is not collected about the number of DL196 certificates issued to riders who have retaken Compulsory Basic Training following the expiry of an earlier certificate.

New Cross Country Rail Franchise

Mr. McCartney: To ask the Secretary of State for Transport pursuant to the written ministerial statement of 10 July 2007, *Official Report*, columns 53-54WS, on the new cross country rail franchise, which North West passengers will lose current direct journey opportunities; from which stations in the North West; and to which destinations in the South West and south coast. [149521]

Mr. Tom Harris: At the commencement of the December 2007 passenger rail timetable, direct rail services are no longer specified from Carlisle, Penrith, Oxenholme, Lancaster, Preston, Wigan North Western and Warrington Bank Quay to Cheltenham Spa, Bristol Parkway, Bristol Temple Meads and stations in Somerset, Devon and Cornwall or to Birmingham International, Coventry, Leamington Spa, Banbury, Oxford, Reading and stations in Hampshire and Dorset.

These changes were set out in the stakeholder briefing document which was published in October 2006.

Railway Stations: Lifts

Andrew Selous: To ask the Secretary of State for Transport which railway stations from the 251st busiest to the least busiest in England have a passenger lift. [149997]

Mr. Tom Harris: The Department does not hold information about facilities at stations. This information is collated by the Association of Train Operating Companies (ATOC) and published at:

www.nationalrail.co.uk.

Railways: Freight

Anne Main: To ask the Secretary of State for Transport whether it remains the Government's policy that there should be three or four rail freight interchanges around London. [149977]

Mr. Tom Harris: Our position is still as set out in the former "Strategic Rail Authority's Strategic Rail Freight Interchange Policy" 2004 that, for London and the South-East, required capacity would be met by three or four new strategic rail freight interchanges in the region. But it is for the private sector to develop such proposals and progress them through the necessary approvals including planning consent.

This document is available from the House Library or the DFT website at:

http://www.dft.gov.uk/pgr/freight/railfreight/strategicrail freightintercha3222.

Roads: Compensation

David Heyes: To ask the Secretary of State for Transport when she expects *(a)* the negotiation of the Highways Agency to appoint a firm of consultants on fees to be completed and *(b)* the results of the negotiation to be made public, referred to in the statement by the Parliamentary Under-Secretary of State for Transport of 14 December 2005, *Official Report*, column 489WH. [149209]

Mr. Tom Harris: The Highways Agency appointed consultants in January 2006 to make recommendations on the amount it should repay to a successful claimant under Part I Land Compensation Act 1973 for the work of his/her agent. The consultants have produced a draft report and conducted further consultation with interested parties. The Highways Agency is now considering their recommendations and hopes to make an announcement shortly.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Flood Control: Manpower

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff are employed by the Environment Agency at the regional emergency control centre in Worthing; how many of these he expects to be made redundant when the Worthing office closes; and what impact he expects the closure of the office to have on the capability to manage flooding and other emergencies in the area. [149293]

Mr. Woolas *[holding answer 12 July 2007]:* The Environment Agency employs approximately 350 people in Worthing, based on two principal offices—a regional office in Guildbourne House and an area office in Saxon House.

Staffing matters are an issue for the Environment Agency. The Government would not expect the changes to have any adverse impact on the Agency's capability to manage flooding and emergencies in the area.

Floods

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs on what evidential basis the Environment Agency reaches its conclusions about the probability of particular flooding episodes; whether any change will be made to the Agency's mechanisms for assessing that probability following the recent floods; and if he will make a statement. [148949]

Mr. Woolas: The Environment Agency uses the methods contained in the Flood Estimation Handbook (published by the Centre for Ecology and Hydrology), in conjunction with the data on rainfall and river flows collected during a flood event, to assess the probability of such an event.

The data from each event become part of the ongoing record and will inform future updates of the Flood Estimation Handbook. There are currently no plans to change this mechanism.

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs whether he intends to revise the Government's first response to the Making space for water consultation following the recent floods. [148951]

Mr. Woolas: The first response to Making space for water, the cross-Government flood and coastal erosion risk management strategy, sets out what we plan to do. A detailed programme of work has been developed to take this forward.

The programme is already addressing some of the issues highlighted by recent events, but we will consider whether there are any further implications, including changes to our long-term aims and objectives, following the completion of the lessons learned exercise.

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what standards are required of water companies to ensure that pumping stations for drainage of low-lying areas are themselves protected against flooding. [148953]

Mr. Woolas: Sewage pumping stations are designed to convey flows arising from a once in 30 years storm. The majority of stations are designed with submersible pumps and many have duplicated multi-pump arrangements to mitigate against the failure of one pump. As part of the design check, they should be reliable, efficient and capable of dealing with the once in 30 years level of storm intensity at the pumping station itself. Emergency overflows are also provided at most sewage pumping stations to further protect the station from flooding in extreme wet weather events. The detailed design and site-specific design of such facilities is a matter for the water companies and, where appropriate, the planning authority.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what information he has received from *(a)* the Environment Agency and *(b)* the insurance industry on the proportion of flooding in England caused by surface water in each of the last five years. [149290]

Mr. Woolas *[holding answer 12 July 2007]:* I have received no such information. The Environment Agency's national flood risk assessments estimate the numbers of properties at different probabilities of

flood risk (but do not separately identify those which have actually flooded). The most recent of these was completed in 2006. The Office of the Water Regulator (Ofwat) compile figures on the numbers of properties at varying risk of flooding from overloaded sewers. DEFRA does not hold comprehensive national figures on the numbers of properties flooded from all sources of flooding (river, sea, surface, groundwater and sewer) in any given year.

Floods: Gloucestershire

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with *(a)* the Environment Agency, *(b)* district councils and *(c)* Gloucestershire county council on the recent floods in Gloucestershire; and if he will make a statement. [148306]

Mr. Woolas: I have discussed the recent widespread flooding with the Environment Agency but have not yet had focused discussions on the specific flooding that occurred in Gloucestershire. We will review the circumstances surrounding the flooding as a whole to see if lessons need to be learned and applied.

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of the condition of the drains in Gloucestershire following the recent floods in that county; and if he will make a statement. [148307]

Mr. Woolas: Drainage is a complex issue and responsibility rests with water and sewerage companies, the Environment Agency, local authorities and private owners. It is for the owners of the drains to assess and ensure their operability.

There is a need to review the circumstances surrounding the recent flooding to see if lessons need to be learned and applied. This will have to consider the complex interaction between the various sources of flood risk involved.

Floods: Hertfordshire

Mr. Heald: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment his Department has made of the damage caused by flooding in Hertfordshire in the last five years; [148704]

(2) what discussions he has had with the Environmental Agency on improving flood defences in Hertfordshire in light of the recent weather conditions; [148705]

(3) what recent assessment he has made of the adequacy of flood defences in Hertfordshire in light of the recent weather conditions; [148706]

(4) how much his Department spent on *(a)* managing and *(b)* improving flood defences in Hertfordshire in each of the last five years; and if he will make a statement. [148709]

Mr. Woolas: DEFRA provides the Environment Agency with a budget (£436 million this year) towards its national flood risk management activities. Decisions on which improvement projects to promote with this money rest with the Environment Agency within the overall policy and prioritisation framework set by the Government. I have not yet had any discussions with the Agency about Hertfordshire in particular.

I understand from the Environment Agency that the only significant flooding that has occurred in the last five years was in 2002 when the River Colne overtopped its banks adjacent to Lower High Street, Watford. 25 commercial properties were flooded.

The Environment Agency completed works to construct a flood wall at the location in March 2007. The Environment Agency carries out routine inspections of flood defence assets. Currently, 95 per cent. of all Environment Agency and third party-owned flood defence assets within Hertfordshire are at or above a nationally defined target level.

The Environment Agency operates a risk-based inspection programme of all flood defence structures located upon the main river network. The frequency of these inspections is determined by a risk assessment of the consequences of failure of a particular structure. The rolling programme of inspection covers Hertfordshire and the rest of the country.

The recent weather conditions have not presented new information that creates a need to revise this inspection programme for any main river systems within Hertfordshire. All main river flood defences within Hertfordshire are fully assessed in terms of their adequacy and priority for any maintenance needed. Where third party-owned assets require maintenance the Environment Agency informs the owners of what is needed and follows up to ensure that the works are carried out.

The following tables provide information on Environment Agency spending on *(a)* managing and *(b)* improving flood defences in Hertfordshire in each of the last five years for which the information is available.

	Amount spent (£)
Managing flood defences	
2007-08	[1] 890,000
2006-07	870,000
2005-06	831,000
2004-05	799,000
2003-04	[2] 750,000
Improving flood defences	
2006-07	435,000
2005-06	122,000
2004-05	270,000
2003-04	415,000
2002-03	240,000

[1] Amount scheduled for current financial year
[2] This figure is estimated

Floods: Sheffield

Mr. Clegg: To ask the Secretary of State for Environment, Food and Rural Affairs what financial support the Government plan to provide to assist Sheffield in the aftermath of the recent floods. [146570]

Mr. Woolas *[holding answer 29 June 2007]:* Emergency financial assistance can be made available to local authorities under the Bellwin scheme. The scheme is operated by the Department for Communities and Local Government to help with non-insurable clear-up costs incurred in taking immediate action to safeguard life and property following a disaster or emergency in their area.

In addition, a support package has been put together by Department for Communities and Local Government to assist recovery from the floods. £10 million is being made available to local authorities in flood hit areas to support the work that they and other organisations are already doing to help recovery. A further £3 million from Department for Transport for local authorities is available to pay for repair to damaged roads. A contingency reserve of £1 million is to be made available by the Department for Work and Pensions to meet additional grant applications arising out of the recent floods. This can cover replacement of essential household items for communities.

In relation to commercial businesses, Yorkshire Forward, the regional development agency (RDA) for the Yorkshire and Humber region, intends to set up a small-scale recovery scheme for small businesses. The scheme will be run in conjunction with Business Link South Yorkshire and will provide funding assistance for immediate recovery needs. They will be contacting larger companies on an individual basis to discuss their specific needs and how best the RDA might support them.

The Government will continue to monitor the situation closely working with local councils and agencies to assess what more it can do in the coming days and weeks.

Pesticides: Licensing

Peter Bottomley: To ask the Secretary of State for Environment, Food and Rural Affairs how many charges were heard in court during the prosecution of John Rawlings for storing illegal pesticides; what the results of the case were; what order was made for costs; why the complete report on the case was not posted on the website of the Pesticides Safety Directorate and his Department; what steps he proposes to take following the words of the judge in the case about his Department's collaboration with chemical companies to maintain a cartel; and if he will make a statement. [148728]

Mr. Woolas: In the case of R. *v.* Rawlings heard in Shrewsbury Crown court last month, the defendant was found guilty on three out of 14 counts of storage of non-approved pesticides. The judge imposed a conditional discharge for two years in relation to each count. The jury were unable to reach a verdict on the remaining 11 counts. The defendant was ordered to pay £8,500 towards prosecution costs but was granted 50 per cent. of his defence costs from central funds to be calculated at the legal aid rate. The Department does not post complete reports of court cases on its website as it is impractical. A news release, however, was issued summarising the outcome.

The Pesticides Safety Directorate (PSD) is studying the court transcript and will be responding to the judge's comments about the differential in prices between pesticides in the UK and similar pesticides in other member states. The Policy Commission on the Future of Farming and Food (the Curry Commission) recommended in 2002 a move towards a more harmonised system for approvals of pesticides across the EC. Proposals from the European Commission for amendment of the approvals regime, which are currently under negotiation, will help to achieve that objective.

Meanwhile to secure safety of operators, consumers, bystanders, residents and the environment, only pesticides approved as safe under UK conditions may be stored, sold or used in the UK. In the case of pesticides imported from other member states, approval is given, subject to a fee to cover administrative costs, if it is demonstrated firstly that the imported product is not materially different to one approved for UK use, and secondly that the label bears the necessary safety information, in English. Some 145 such approvals for "parallel imports" are issued each year. They are not time limited.

Recycling: Small Businesses

Helen Southworth: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he plans to take to encourage small businesses to improve their recycling rate. [147390]

Joan Ruddock: 'Waste Strategy for England 2007', published on 24 May 2007, sets out a range of measures which will help businesses of all sizes to improve their recycling rates.

These measures include: a higher and faster rate of increase in the landfill tax escalator, which will make it cheaper for businesses to separate waste materials for recycling; and continued advice and support through the Business Resource Efficiency and Waste (BREW) programme.

BREW is funded through the landfill tax, and is aimed at reducing the amount of waste that businesses produce and improving their resource efficiency, including through increased rates of recycling. Results from the first year of the programme suggest that businesses have saved over £4 for each £1 invested through BREW, as well as increased environmental benefits.

In the strategy, the Government encourage local authorities to take on a wider role to help local, particularly smaller, business to reduce and recycle their waste. A joint Local Government Association/ National Industrial Symbiosis Programme/Oxfordshire county council project, funded through BREW, is piloting work on what local authorities can do to contribute effectively to business waste management and resource efficiency (including trade waste recycling collection services). In addition, the Waste and Resource Action Programme (WRAP) is running pilots of recycling collection services for smaller to medium sized enterprises (SME) waste.

Further details on these and other measures aimed at improving small business recycling rates are available in the strategy, which is available on the DEFRA website and in the Library of the House.

Waste Management

Mr. Love: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what steps his Department is taking to reduce the level of waste emissions from eco-centres and recycling plants; [149347]

(2) what steps his Department is taking to prevent recycling plants and eco-centres emitting noxious smells. [149348]

Joan Ruddock: All establishments and undertakings carrying out waste management activities need to hold a waste management licence or register for an exemption from the need for one.

Sites operating under a waste management licence, or an exemption, have an overarching requirement to recover or dispose of waste without causing harm to human health or pollution of the environment. This includes not causing a nuisance through odour. The Environment Agency is the competent authority responsible for carrying out regular inspections of such sites to assess compliance with licence conditions.

Under section 79 of the Environmental Protection Act 1990, local authorities can also serve nuisance abatement notices for sites emitting nuisance odours.

DEFENCE

Defence Export Services Organisation

11. **Dr. Cable:** To ask the Secretary of State for Defence if he will make a statement on the future of the Defence Export Services Organisation. [149383]

Des Browne: Following the recent capability review of the Ministry of Defence, we are reviewing the function of the head office better to align with recent changes elsewhere in the Department, such as the creation of Defence Equipment and Support and the merger of the single service headquarters. This review includes the Defence Export Services Organisation. The review is due to make recommendations later this year.

17. **David Taylor:** To ask the Secretary of State for Defence if he will make a statement on the future of the Defence Export Services Organisation. [149389]

Mr. Bob Ainsworth: I refer the hon. Member to the answer I gave earlier to the hon. Member for Twickenham (Dr. Cable).

David Taylor: To ask the Secretary of State for Defence what recent representations he has received on the future of the Defence Export Services Organisation. [149319]

Mr. Bob Ainsworth *[holding answer 12 July 2007]:* We regularly discuss with industry the support provided to defence exports.

Ministerial Absences

12. **Mr. Bone:** To ask the Secretary of State for Defence who will undertake his ministerial responsibilities in his absence on other official duties; and if he will make a statement. [149384]

Des Browne: I remain in charge of the Department when absent from the Department on official duties. In accordance with the ministerial code, appropriate arrangements are made for ministerial cover when any Minister is absent.

Mental Health

13. **Anne Milton:** To ask the Secretary of State for Defence if he will make a statement on mental health support services for members of the armed forces. [149385]

Derek Twigg: I refer the hon. Member to the answer I gave earlier to the hon. Member for Preseli Pembrokeshire (Mr. Crabb).

Iraq

14. **Mr. Flello:** To ask the Secretary of State for Defence what recent assessment he has made of levels of force protection in Iraq; and if he will make a statement. [149386]

Des Browne: Force protection levels are constantly assessed and reviewed by military commanders in theatre as well as at the UK permanent joint headquarters in order to meet the evolving threat that troops face in Iraq. A range of new capabilities have been deployed in response to these assessments including new intelligence, surveillance, target acquisition and reconnaissance systems, new and upgraded armoured vehicles and base protection measures.

21. **Mr. Mackay:** To ask the Secretary of State for Defence what recent assessment he has made of the security situation in Iraq. [149393]

Des Browne: The security situation in Iraq varies from province to province. In Baghdad, violence perpetrated by sectarian and insurgent groups remains a serious problem, although recent action by Iraqi and coalition forces as part of Fardh al Qanoon, has led to some reduction in violence against civilians.

Outside Baghdad and its environs the security situation is better.

In Basra the violence is a result of a struggle between Shia Militia groups vying for power and money.

Troop Protection

15. **Ann Winterton:** To ask the Secretary of State for Defence what steps he is taking to increase the protection of British armed forces deployed in Iraq and Afghanistan. [149387]

Des Browne: A number of new capabilities have been deployed to each theatre in recent months including intelligence, surveillance, target acquisition and reconnaissance systems, new, better protected armoured vehicles and additional base protection measures. More are due to arrive before the end of the year.

Afghanistan

18. **Sarah McCarthy-Fry:** To ask the Secretary of State for Defence what progress is being made in development and reconstruction in Helmand province. [149390]

Des Browne: The Helmand Provincial Reconstruction Team has implemented over 130 projects to provide tangible benefits to local Afghans, often with engineering support from the military. Examples include the building, extending or refurbishing of 12 schools, the construction of three new parks—including a women's park—six projects improving local healthcare facilities, including the construction of a 20-room midwifery hostel, and five projects improving the rivers and irrigation canals that enable local farmers to earn a living.

20. **Mr. Bellingham:** To ask the Secretary of State for Defence when he next expects to discuss with military commanders the helicopter lift requirements for operations in Afghanistan. [149392]

Des Browne: I meet frequently with military commanders to discuss operations in Afghanistan and we keep our force levels and equipment requirements under constant review. We have sufficient helicopters to undertake the key tasks required of them but we all recognise that operational commanders would be able to do more with additional resources. For that reason, we have announced the purchase of six additional Merlin helicopters and the conversion and earlier availability of eight Chinooks.

Dartmoor: Farmers' Compensation

19. **Mr. Steen:** To ask the Secretary of State for Defence if he will increase the level of compensation his Department provides for hill livestock farmers within the Dartmoor National Park when live firing takes place; and if he will make a statement. [149391]

Derek Twigg: The compensation payment levels are enshrined in an agreement with the Commoners' Associations. These are reviewed every three years with the next one being due this coming September. For obvious reasons I would not wish to pre-empt the outcome of the discussions with the Associations.

Flooding Assistance

22. **Rosie Cooper:** To ask the Secretary of State for Defence what role the UK armed forces have played in assisting people during the recent floods in England. [149394]

Mr. Bob Ainsworth: The armed forces provided valuable assistance during recent floods in Yorkshire and Humberside, and were available to provide further assistance elsewhere in the country if requested.

Fleet Requirements

23. **Mr. Chope:** To ask the Secretary of State for Defence how many destroyers and frigates are required by the fleet. [149395]

Mr. Bob Ainsworth: I refer the hon. Member to the answer I gave earlier to the hon. Member for Wimbledon (Stephen Hammond).

Eurofighter

24. **Mr. Jack:** To ask the Secretary of State for Defence what role his Department will play in securing further overseas orders for the Eurofighter Typhoon. [149396]

Mr. Bob Ainsworth: The Ministry of Defence continues to co-ordinate Government support to UK industry to help win export orders for Eurofighter Typhoon.

Darfur

25. **Andrew Gwynne:** To ask the Secretary of State for Defence what support he has provided to the African Union Mission to Darfur. [149397]

Mr. Bob Ainsworth: The UK has, over the last three years, provided significant assistance to the African Union Mission in Darfur. This includes vehicles and other equipment, technical military advice and training to a number of troop-contributing countries and airlift for Nigerian soldiers. Over and above this ongoing effort, we currently have six specialist military officers in key positions, ensuring our military contribution is focused in those areas where we can have best effect. We will consider future requests for support from either the African Union or the United Nations.

Falklands Anniversary

Chris Ruane: To ask the Secretary of State for Defence if he will assess the impact of the events held to mark the 25th anniversary of the Falklands conflict. [149377]

Derek Twigg: The veterans, widows and families involved in the events held both in the UK and in the Falkland Islands considered them to have been a tremendous success. They appreciated the opportunity to reflect on their experiences and the courage, sacrifice and professionalism of all those, both military and civilian, who contributed to the liberation of the islands in 1982. The commemorations also helped to educate a new generation about the conflict and underlined the professionalism of our armed forces both then and now.

Aircraft Carriers

Mr. Harper: To ask the Secretary of State for Defence when he expects the Future Aircraft Carrier Programme to gain main gate approval. [148267]

Mr. Bob Ainsworth: I refer the hon. Member to the answer my predecessor gave on 22 May 2007, *Official Report*, column 1181W, to the hon. Member for Brecon and Radnorshire (Mr. Williams).

Armed Forces: Deployment

Mr. Jim Cunningham: To ask the Secretary of State for Defence how many British troops are stationed in *(a)* Europe, *(b)* Africa, *(c)* the Middle East and *(d)* Asia. [147489]

Mr. Bob Ainsworth *[holding answer 5 July 2007]:* The strength of UK regular forces posted outside the UK is available in Tri-Service Publication (TSP) 6—Global Location of UK regular forces. However, due to the introduction of a new Joint Personnel Administration System (JPA) the latest publication for the numbers of Naval Service and Army personnel was on 1 October 2006 and are available at:

www.dasa.mod.uk/natstats/tsp6/tsp6_oct06.pdf

The most recent data for the Royal Air Force (RAF) (which are provisional also because of JPA) were published on 1 April 2006 and are available at:

www.dasa.mod.uk/natstats/tsp6/tsp6_apr06.pdf

Defence Analytical Services Agency (DASA) are currently validating JPA RAF location data and expect to publish provisional RAF figures for 1 July 2006 and 1 October 2006 by the end of July 2007.

Copies of TSP 6 are available in the Library of the House of Commons.

Armed Forces: Pay

Mike Penning: To ask the Secretary of State for Defence what the average employment cost was of *(a)* an officer, *(b)* a member of another rank, *(c)* a non-industrial civil servant and *(d)* an industrial civil servant in the (i) Army, (ii) Navy, (iii) Air Force and (iv) Royal Marines in each year since 1997. [147355]

Derek Twigg: The information is not available and can be provided only at disproportionate cost.

Armed Forces: Personal Records

Mr. Harper: To ask the Secretary of State for Defence what information and statistics his Department records on Service families regarding *(a)* accommodation, *(b)* mobility, *(c)* education, *(d)* health care, *(e)* dentistry, *(f)* demographics, *(g)* number of family members and *(h)* age of family members. [149314]

Derek Twigg: This information is not held centrally in the format requested and therefore could be provided only at disproportionate cost.

Armed Forces: Protection

Mark Pritchard: To ask the Secretary of State for Defence how many UK military personnel are providing close protection for EU mission staff. [149130]

Mr. Bob Ainsworth: None.

Armed Forces: Training

Mr. Harper: To ask the Secretary of State for Defence whether the cost of training specifically for operations is included in the costs of operations funded from the Treasury Reserve. [148289]

Mr. Bob Ainsworth *[holding answer 9 July 2007]:* The net additional cost of training specifically for operations is included in the cost of operations funded from the Treasury's Reserve.

Mark Pritchard: To ask the Secretary of State for Defence how many armed forces training *(a)* accidents and *(b)* deaths were investigated by the Land Accident Investigation Unit between June 2006 and June 2007. [149127]

Derek Twigg: Between June 2006 and June 2007 the Land Accident Investigation Team undertook 71 investigations of incidents that occurred during training, including seven fatalities.

Armed Forces: Young People

Mr. Nicholas Brown: To ask the Secretary of State for Defence what proportion of new candidates to the armed forces were school leavers aged 16 and a half years in the last 12 months. [147136]

Derek Twigg: During the Financial Year 2006-07 there were 58,951 applicants for armed forces employment. Of these, 14,812 were from candidates aged under 17 years of age on the date of application, representing 25.1 per cent.

Armoured Fighting Vehicles

Mr. Harper: To ask the Secretary of State for Defence when he expects the Future Rapid Effect System to enter service. [148268]

Mr. Bob Ainsworth: The in-service date for the Future Rapid Effect System will not be fixed until the main investment decision has been taken. The procurement strategy is, however, designed to achieve the earliest in-service date which meets the Army's needs and offers the potential for sustained operational effectiveness.

Mr. Ellwood: To ask the Secretary of State for Defence which British companies are involved in the Future Rapid Effects System project; and in what capacity each plays a part. [148551]

Mr. Bob Ainsworth *[holding answer 11 July 2007]:* UK registered companies currently involved in the FRES programme are listed in the following table:

Company	*Support provided*
Atkins Defence	FRES Systems House
Lockheed Martin UK INSYS Ltd.	Electric Armour Technology Demonstrator Programme
BAES Land Systems (Bridging) Ltd.	Gap Crossing Technology Demonstrator Programme
SULA Systems Ltd.	Independent systems engineering
BMT Sigma	Planning and scheduling
Fraser Nash Consulting Ltd.	Independent safety advice
Synthesys Systems Engineers Ltd.	Independent advice on system integration issues

Company	Support provided
Cap Gemini	Access to a shared working environment to facilitate joint working between FRES IPT, Atkins and other key stakeholders
Commerce Decisions Ltd.	Provision of tender selection tool and associated consultancy support
County Cabins	Providing the Portacabin village at Bovington for the duration of the utility vehicle design competition
General Dynamics (UK) Ltd.	Utility vehicle design competition

Mr. Ellwood: To ask the Secretary of State for Defence what progress has been made with the Future Rapid Effect System programme; and if he will make a statement. [149238]

Mr. Bob Ainsworth *[holding answer 12 July 2007]*: The acquisition strategy for future phases of the FRES programme was announced by my noble Friend Lord Drayson in November 2006. The initial wave of three competitions that will select the utility vehicle (UV) design, UV integrator, and system of systems integrator, has formally been launched and utility vehicle trials have commenced. The outcome of the trials will be announced later this year.

Army: Deployment

Mr. Harper: To ask the Secretary of State for Defence what the *(a)* lowest and *(b)* average period of time between operational tours was for each army infantry battalion over the last three years. [148278]

Mr. Bob Ainsworth: Three years is too short a period to produce a meaningful analysis of tour intervals as only two infantry battalions have undertaken more than two operational tours as formed units in that time. A summary of deployments over the last three years by battalion indicating tour intervals is shown in the following table.

Ser	Army infantry battalion	Last operational deployment (as a unit)	Start date	Previous operational deployment (as a unit)	End date	Prior deployments since June 2004 (as a unit)	Last unit tour interval (months)	Lowest unit tour interval (months)	Average unit tour interval (months)
1	1 Gren Gds	Afghanistan	May 2007	Iraq	May to September 2006	Balkans (October 2004 to March 2005)	8	8	11
2	1 Coldm Gds	Iraq	May 2005	Northern Ireland	March 2000	—	61	n/a	n/a
3	1 SG	Iraq	November 2004	Northern Ireland	November 2001	—	35	n/a	n/a
4	1 IG	Iraq	June 2007	Northern Ireland	March 2004	—	38	n/a	n/a
5	1 WG	Balkans	October 2006	Iraq	April 2005	—	17	n/a	n/a
6	1 Scots (1 RS)[1]	Northern Ireland	January 2006	Iraq	April 2004	—	20	n/a	n/a
7	1 Scots (1 KOSB)[1]	Iraq	July 2003	Northern Ireland	March 2002	—	15	n/a	n/a
8	2 Scots	Iraq	April 2004	Balkans	October 1999	—	53	n/a	n/a
9	3 Scots	Iraq	November 2005	Balkans	October 2003	—	24	n/a	n/a
10	4 Scots	Iraq	July 2004	Iraq	June 2003	—	12	n/a	n/a
11	5 Scots	Balkans	April 2005	Iraq	July 2004	—	8	n/a	n/a
12	1 PWRR	Iraq	May 2006	Iraq	October 2004	—	18	n/a	n/a
13	2 PWRR	Iraq	January 2005	Northern Ireland	December 2003	—	12	n/a	n/a
14	1 RRF	Iraq	November 2005	Iraq	June 2003	—	28	n/a	n/a
15	2 RRF	Northern Ireland	April 2003	Northern Ireland	June 2002	—	9	n/a	n/a
16	1 R Anglian	Afghanistan	May 2007	Iraq	October 2005	—	17	n/a	n/a
17	2 R Anglian	Iraq	May 2006	Afghanistan	October 2003	—	30	n/a	n/a
18	1 KORBR[2]	Iraq	November 2005	Balkans	October 2000	—	60	n/a	n/a
19	1 Kings[2]	Iraq	July 2003	Prior to January 1999	—	—	—	n/a	n/a
20	QLR[2]	Iraq	July 03	Northern Ireland	September 2001	—	21	n/a	n/a
21	1 Lancs[2]	n/a	—	n/a	—	—	—	—	—
22	2 Lancs[2]	Iraq	November 2006	n/a	—	—	—	—	—
23	1 Yorks	Iraq	November 2006	Balkans	September 2004	—	25	n/a	n/a
24	2 Yorks	Balkans	April 2006	Afghanistan	October 2004	—	17	n/a	n/a
25	3 Yorks	Iraq	November 2004	Balkans	June 2001	—	40	n/a	n/a

Ser	Army infantry battalion	Last operational deployment (as a unit)	Start date	Previous operational deployment (as a unit)	End date	Prior deployments since June 2004 (as a unit)	Last unit tour interval (months)	Lowest unit tour interval (months)	Average unit tour interval (months)
26	1 R Welsh	Cyprus (Theatre Reserve Battalion)	May 2007	Northern Ireland	September to January 2006	Iraq (May to October 2004)	15	10	13
27	2 R Welsh	Iraq	June 2007	Iraq	October 2005	—	19	n/a	n/a
28	1 Mercian	Iraq	May 2004	Northern Ireland	December 2002	—	16	n/a	n/a
29	2 Mercian	Afghanistan	May 2007	Afghanistan	April 2005	—	23	n/a	n/a
30	3 Mercian	Iraq	November 2006	Iraq	October 2005	—	12	n/a	n/a
31	1 Rifles (1 RGBW)[3]	Afghanistan	October 2005	Northern Ireland	July 2003	—	26	n/a	n/a
32	1 Rifles (1 D&D)[3]	Iraq	May 2006	Northern Ireland	March 2001	—	61	n/a	n/a
33	2 Rifles	Iraq	November 2006	Northern Ireland	September 2004	—	25	n/a	n/a
34	3 Rifles	Northern Ireland	September 20 04	Northern Ireland	May 2000	—	51	n/a	n/a
35	4 Rifles	Iraq	June 2007	Balkans	October 2001	—	67	n/a	n/a
36	5 Rifles	Iraq	May 2006	Iraq	April 2004	—	24	n/a	n/a
37	1 R Irish	Iraq	July 2005	Iraq	June 2003	—	24	n/a	n/a
38	1 Para[4]	Northern Ireland	March 2005	Iraq	June 2003	—	20	n/a	n/a
39	2 Para	Iraq	November 2005	Iraq	March 2004	—	19	n/a	n/a
40	3 Para	Afghanistan	April 2006	Northern Ireland	August 2004	—	19	n/a	n/a
41	1 RGR	Balkans	October 2005	Balkans	March 2004	—	30	n/a	n/a
42	2RGR	Afghanistan	April 2005	Afghanistan	April 2004	—	11	n/a	n/a

[1] 1 RS and 1 KOSB amalgamated to form 1 Scots in August 2006. 1 Scots has yet to deploy on an operation.
[2] 1 KORBR, 1 Kings and QLR amalgamated in July 2006 to form 1 Lancs and 2 Lancs. 1 Lancs has yet to deploy on an operation.
[3] 1 RGBW and 1 DDLI amalgamated in March 2007 to form 1 Rifles.
[4] As from August 2005 1 Para are no longer under the operational control of HQ Land.

Army: Manpower

Mr. Harper: To ask the Secretary of State for Defence what the *(a)* assessed requirement and *(b)* numbers of personnel in post is for each Army infantry battalion. [148279]

Mr. Bob Ainsworth: Officials are currently collating this information. I will write to the hon. Member and place a copy of my letter in the Library of the House.

Bombs

Mr. Caton: To ask the Secretary of State for Defence what the standard programmes regarding the number of rockets per ripple are when CRV-7 cluster munition rockets are fired in a pre-programme ripple; and what factors influence the choice of ripple programme. [147524]

Mr. Bob Ainsworth: The Multi-Purpose Sub-Munition variant of the CRV-7 (the CRV-7 MPSM), which is only fired from the UK Apache Helicopter, does not fall within the UK's understanding of a cluster munition primarily because of its direct fire capability and also because it has too few sub-munitions. The CRV-7 MPSM is not fired using a pre-programmed ripple.

Mr. Caton: To ask the Secretary of State for Defence what body conducted the tests to establish the six per cent. failure rate for the M261 submunitions carried on CRV-7 cluster munition rockets; how many rockets and submunitions were fired in the tests; and what the *(a)* ground conditions and *(b)* range were. [147525]

Mr. Bob Ainsworth: The CRV-7 with its M261 multi-purpose submunition (which is only fired from the UK Apache Helicopter) does not fall within the UK's understanding of a cluster munition primarily because of its direct fire capability and also because it has too few sub-munitions.

UK contract acceptance tests were conducted by Industry in the Yuma Proving Grounds in Arizona. The trials involved 36 all up rounds firing a total of 315 M73 grenades (one rocket motor failed to fire). The munitions were fired at 1, 3 and 6 km. A 94 per cent. reliability target was achieved.

The UK MOD also holds test data from further US Army trials which corroborates the 94 per cent. reliability figure achieved by UK trials.

Departments: Private Finance Initiative

Mrs. Lait: To ask the Secretary of State for Defence what the total cost is of all private finance initiative projects for which his Department has responsibility completed since 1997; and what the projected cost is of such projects commissioned or under way. [148028]

Mr. Bob Ainsworth: The total costs of all private finance initiative projects are provided at HM Treasury's website, http://www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.cfm. Total cost information is expressed as the sum of unitary charge payments. Unitary charge payments are projections and are conditional on the performance of the private sector contractor. They frequently include inflation, service provision and major refurbishment costs as well as capital repayments.

The information provided at HM Treasury's website provides unitary charge payment information up until 2033-34. The Department has three projects whose life exceeds 2034. These projects and the projected total unitary charge payments for each are as follows:

Project name	*Estimated total unitary charge payment (£ million)*
Allenby/Connaught	12,816.76
ASTUTE Class Training Service (ACTS)	551.15
Colchester Garrison	2,900.56

Mr. Harper: To ask the Secretary of State for Defence pursuant to the answer of 8 May 2007, *Official Report*, column 61W, on Departments: private finance initiative, when each preferred bidder was selected. [148280]

Mr. Bob Ainsworth: The date when each preferred bidder was selected is shown in the following table:

Project	*Date preferred bidder selected*
Future Strategic Tanker Aircraft (FSTA)	February 2005
Royal School of Military Engineering (RSME)	March 2005
Future Provision of Marine Services (FPMS)	February 2006
Corsham Development Project	October 2006
Defence Training Review	October 2006
United Kingdom Military Flying Training System	July 2006

Galileo Project

Mr. Arbuthnot: To ask the Secretary of State for Defence pursuant to the answer of 3 July 2007, *Official Report*, column 955W, on Galileo project, what the wider issues in relation to Galileo are on which his Department provides advice to the Department of Transport. [148694]

Mr. Bob Ainsworth: The MOD provides the Department for Transport with policy advice on the security aspects of Galileo, including system security and security implications of the programme. Along with other Government Departments the MOD also provides advice on EU institutional issues. In addition, drawing on its experience of large procurement projects, the MOD can offer advice on project management, governance, PPP funding and risk management issues.

Helicopters: Spare Parts

Mr. Harper: To ask the Secretary of State for Defence how many times each helicopter type in the *(a)* Army Air Corps, *(b)* Royal Navy and *(c)* Royal Air Force was cannibalised in each of the past 12 months. [148271]

Mr. Bob Ainsworth: The number of cannibalisations involving aircraft operated by the Army Air Corps, Royal Navy and Royal Air Force in the Forward Fleet (with front-line commands and utilised for operational deployment or other tasks) in the last 12 months is shown in the following table:

	2006							*2007*			
	Jun	*Jul*	*Aug*	*Sept*	*Oct*	*Nov*	*Dec*	*Jan*	*Feb*	*Mar*	*Apr*	*May*
Army Air Corps												
Apache AH	22	30	20	14	42	33	23	31	22	30	14	7
A109	0	0	0	0	0	0	0	0	0	0	0	0
Gazelle	3	10	0	0	0	0	0	0	3	6	0	2
Lynx 7 and 9	15	14	44	22	21	41	26	25	26	44	21	8
Royal Navy												
Sea King 4 and 6	15	6	12	17	5	25	19	18	24	10	10	19
Sea King Mk5	11	6	0	11	12	8	7	3	10	12	n/a	n/a
Sea King Mk7	7	7	7	12	9	5	4	7	12	10	n/a	n/a
Merlin Mk1	31	39	27	53	58	47	21	40	62	32	n/a	n/a
Lynx Mk3	11	11	3	6	7	10	5	6	12	18	n/a	n/a

Puma	12	17	9	16	34	3	6	6	8	7	5	12
Search and Rescue Sea King Mk3/3A	23	20	20	12	18	21	7	11	19	12	10	n/a

n/a = Figures not yet available.

Cannibalisation is an accepted short-term measure employed by aviation forces around the world, to ensure the maximum number of aircraft are available. It is often the only course of action where replacement items cannot be sourced in the required time frame.

The figures shown in the table refer to individual instances of cannibalisation as opposed to the number of aircraft involved. All instances of cannibalisation are authorised and undertaken in accordance with clearly defined regulations. The term 'cannibalisation' can refer to the removal of single or small numbers of components, of any size. It does not necessarily refer to the wholesale utilisation of capital components or airframes.

Iraq: Peacekeeping Operations

Dr. Cable: To ask the Secretary of State for Defence pursuant to the answer of 25 June 2007, *Official Report*, column 125W, on Iraq: peacekeeping operations, what the estimated replacement costs of military equipment damaged and destroyed owing to use in Iraq has been since the start of the war in Iraq *(a)* in total and *(b)* for (i) tanks and other armoured vehicles, (ii) aircraft and (iii) helicopters since 1 March 2004. [147488]

Mr. Bob Ainsworth *[holding answer 5 July 2007]:* I have nothing to add to the answer my predecessor gave on 25 June 2007, *Official Report*, column 125W.

Military Aircraft: Spare Parts

Mr. Harper: To ask the Secretary of State for Defence how many times a *(a)* C17A Globemaster, *(b)* Hercules C-130K, *(c)* Hercules C-130J, *(d)* Tristar, *(e)* VC-10 and *(f)* Nimrod MR2 has been cannibalised for spare parts. [148270]

Mr. Bob Ainsworth: The removal of serviceable parts from one aircraft for use on another is a routine and temporary measure to ensure that the maximum number of aircraft are available to the front line.

The number of these instances over the last 12 months (June 2006-May 2007), by donor aircraft, is given in the following table.

Aircraft type	*Number of cannibalisations*
C17	25
C130J	781
C130K	156
TriStar	188
VC10	116
Nimrod MR2	307

Military Bases: Wales

John Smith: To ask the Secretary of State for Defence what plans he has for the future of the Special Forces Support Unit at MOD St Athan; and if he will make a statement. [147284]

Mr. Bob Ainsworth: The UK Joint Special Forces Support Group (SFSG) is an integral part of the UK Special Forces Group and falls under the operational command of the Director of Special Forces. It is our established policy not to comment on special forces matters.

However, I can say that since the SFSG was stood up in April 2006 it has served with distinction in the field and is already providing the UK Special Forces Group with a significantly enhanced capability as envisaged.

Navy: Defence Equipment

Mr. Hancock: To ask the Secretary of State for Defence how many *(a)* escort ships, *(b)* major ships and submarines, *(c)* minor war vessels and *(d)* RFA ships were commissioned into the Royal Navy and Royal Fleet Auxiliary in each year since 2000; and how many in each category are planned to be commissioned in each of the next 10 years. [147859]

Mr. Bob Ainsworth: In the last 10 years the following ships have entered service with the Royal Navy:

In-service date	*Vessel*
2000	1 Type 23 Frigate 2 Sandown Class Mine Hunters
2001	1 Type 23 Frigate 1 Sandown Class Mine Hunter
2002	1 Type 23 Frigate 1 Sandown Class Mine Hunter
2003	1 Landing Platform Dock 3 River Class Patrol Vessels 2 Survey Ships 2 Auxiliary Ships
2004	—
2005	1 Landing Platform Dock
2006	3 Auxiliary Ships

In-service dates for ships are only fixed when the main investment decision has been taken. Of the ships planned to enter service over the next 10 years, the following have agreed in-service dates:

In-service date	*Vessel*
2007	1 Auxiliary Ship 1 River Class Patrol Vessel (Helicopter)
2008	—
2009	1 Type 45 Destroyer
2010	1 Type 45 Destroyer 1 Astute Class Nuclear Submarine
2011	2 Type 45 Destroyers 1 Astute Class Nuclear Submarine
2012	1 Type 45 Destroyer

In-service date	*Vessel*
2013	1 Type 45 Destroyer 1 Astute Class Nuclear Submarine
2014	—
2015	1 Astute Class Nuclear Submarine

Mr. Hancock: To ask the Secretary of State for Defence what the planning assumption is for the service life of *(a)* Type 23 frigates, *(b)* Type 45 destroyers and *(c)* future surface combatants. [147860]

Mr. Bob Ainsworth: Our current planning assumptions are that on average the Type 23 frigates will be in service for 27 years and the Type 45 anti-aircraft destroyers for 25 years. The programme for the procurement of the future surface combatant is still at an early stage and the service life for these ships has yet to be determined.

Navy: Military Bases

Mr. Hancock: To ask the Secretary of State for Defence what his timetable is for publishing the results of the naval bases review. [148526]

Mr. Bob Ainsworth: We have said from the outset of the naval base review (NBR) that its outcome needs to be coherent with other key maritime industrial strategy projects and programmes. It is of paramount importance that we do this in order to determine an overall 'best for Defence' outcome and the best value for the taxpayer.

The Ministry of Defence is therefore engaging with other Government Departments to assess the wider implications for the different NBR options. While this complex work is progressing well, further work is required before final conclusions can be reached.

University Officer Training Corps

Ann Winterton: To ask the Secretary of State for Defence what the *(a)* establishment and *(b)* strength of the University Officer Training Corps was at 1 March. [148567]

Derek Twigg: The total establishment of the 19 units of the University Officers Training Corps (UOTC) is 3,500 of which 2,946 are officer cadets and 554 Territorial Army staff instructors.

As at 31 March 2007, the actual strength of the UOTCs was 5,031 of which 4,429 were from the student body including approximately 500 Army Bursars who have already passed officer selection and who are committed to join the Army; these officer cadets are on strength but are not counted against the establishment. These figures include all officer cadets who are no longer actively training, but have yet to be discharged from the Service.

I also refer the hon. Member to the answer my right hon. Friend the Member for East Kilbride, Strathaven and Lesmahagow (Mr. Ingram) gave on 16 May 2007, *Official Report*, column 1292W, to the hon. Member for Colchester (Bob Russell).

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Drugs

Malcolm Bruce: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* financial and *(b)* other assistance was provided to the Government of Afghanistan to tackle the narcotics industry in that country in each year since 2002; and if he will make a statement. [149213]

Dr. Howells: The total financial assistance provided by the Government to the Afghan Government to tackle the narcotics industry each year since 2002 is as follows:

Total Afghan counter-narcotics spend

Financial year	*£ million*
2002-03	23.1
2003-04	31.3
2004-05	33.2
2005-06	92.8
2006-07	82

Our support comprises direct financial assistance and practical support, such as developing law enforcement and criminal justice institutions, mentoring police and judges, and technical assistance to build the capacity of government institutions. Of this year's £82 million, £37.6 million will be invested in alternative legal livelihoods and development. As Afghanistan's G8 partner nation on counter-narcotics, the UK lobbies for continued and increased international assistance and support for the Afghan Government's National Drug Control Strategy (NDCS). We are also helping the Afghans to sharpen the implementation of the NDCS which has four priorities: targeting the trafficker; strengthening and diversifying legal rural livelihoods; reducing demand; and developing state institutions.

Colombia: Politics and Government

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the political situation in Colombia. [149177]

Dr. Howells: Colombia has suffered from 40 years of internal conflict, fuelled by the illegal drugs trade. In his five years as President, Alvaro Uribe has achieved remarkable advances: security is much improved; violent crime is hugely reduced; 35,000 paramilitaries have demobilised; and the economy is prospering.

President Uribe's Colombia is a key UK ally in the region. UK co-operation with Colombia focuses on the fight against drugs and improving the difficult human rights situation. It is one of constructive engagement rather than uncritical support. We support the efforts of President Uribe to tackle the country's serious inter-connected problems, but we can and do remind the government of Colombia of the need to address areas of concern vigorously.

On drugs, co-operation is close and effective. President Uribe's Government are committed to improving the difficult human rights situation. But serious concerns remain: illegal armed groups commit wide-ranging abuses, and threats to trade unionists and

human rights defenders continue, and are unacceptable. Extra-judicial killings are rising. 49 per cent. of Colombians live in poverty.

We welcomed President Uribe's decision in June to release a number of Revolutionary Armed Forces of Colombia (FARC) operatives, including Rodrigo Granda, as a positive step forward for a path to lasting peace in Colombia. It has been disappointing that the FARC have not responded positively to President Uribe's bold move. Along with EU partners and others in the international community, we have expressed our outrage at the killings in June of 11 Colombian hostages held by the FARC, and extended our condolences to all those affected by this tragedy.

Convention on Suppression of Acts of Nuclear Terrorism

Mr. Dai Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs when the United Nations Convention on Suppression of Acts of Nuclear Terrorism entered into force; when the United Kingdom *(a)* signed and *(b)* ratified the convention; what responsibilities signatory states have to report on implementation of the convention in (i) member states and (ii) their overseas territories; and what steps the Government are taking to encourage non-signatory states to sign. [149504]

Dr. Howells: The International Convention for the Suppression of Acts of Nuclear Terrorism entered into force on 7 July. The UK signed the Convention on 14 September 2005. The legislation required to implement the Convention is now in place in the UK, and the Government are currently preparing the necessary documents to be laid before Parliament prior to ratification. The Convention imposes an obligation on States Parties to report to the UN Secretary-General the final outcome of criminal proceedings undertaken in respect of the offences set out in the Convention. States Parties will also be expected to report to the committees of the UN Security Council that monitor implementation of States' counter-terrorism and non-proliferation obligations, on the implementation of their obligations under the Convention in a more general sense. While the Overseas Territories will not be included at the time of the UK's ratification, there remains the possibility of extending the Convention to the Overseas Territories following consultation with them and the passing of any necessary legislation in each Territory. With our international partners, the UK has strongly encouraged all States to sign and ratify the Convention. Most recently, in a joint statement on counter-terrorism issued at the Heiligendamm Summit on 8 June, the leaders of the G8 called on all States to ratify the Convention.

Cuba: Biological Weapons

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will hold discussions with his Cuban counterpart on Cuba's biological warfare programme. [149470]

Dr. Howells: The Government keep under review the potential military capability of other states, but it is not our practice to divulge the details including relevant discussions with other states.

Departments: Internet

Bill Wiggin: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to publish a record of his activities on the Department's website; what estimate he has made of the *(a)* cost and *(b)* staff time involved; and if he will make a statement. [148207]

Mr. Jim Murphy: My right hon. Friend the Foreign Secretary's key activities are published on the Foreign and Commonwealth Office (FCO) website on a regular basis. Costs for this are covered as part of the general maintenance of the FCO website; a specific breakdown of which is not available as it would incur disproportionate cost to obtain this information. There are also plans to publish a blog on the same website.

Departments: Publicity

David Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the cost-effectiveness of advertising commissioned by his Department in the last 12 months. [148519]

Mr. Jim Murphy: In 2006, the Foreign and Commonwealth Office (FCO) conducted a review of recruitment procedures, which identified the most effective advertising media. At the end of each recruitment competition, information from applicants is assessed to determine the performance of each advertising medium and determine the most appropriate publications for advertisements.

The FCO makes use of cost savings offered by the Central Office of Information.

In accordance with Cabinet Office and Civil Service Commissioners' guidance, the FCO is moving towards placing the majority of job adverts online, although there will still be a need for press advertisements as not all the potential candidate pool will have access to the internet.

Departments: Racial Harassment

David Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many complaints of racial abuse relating to staff for which his Department is responsible have been *(a)* investigated and *(b)* upheld in the last 12 months. [149253]

Mr. Jim Murphy: Informal complaints of any sort are dealt with through the line manager in the first instance and central figures are not held for those. Only if the issue cannot be resolved through the informal route are they logged centrally and dealt with as part of the formal grievance process.

There have been no formal complaints by Foreign and Commonwealth Office staff of racial abuse in the last 12 months.

Electronic Warfare

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his NATO counterparts on cyber-warfare. [149300]

Mr. Jim Murphy: This issue has not been raised by NATO Foreign Ministers, but it was discussed by NATO Defence Ministers at their meeting on 14-15 June, who agreed to work to enhance the ability to protect infrastructure systems of critical importance to the Alliance from cyber-attacks. Cyber-defence is also the subject of discussion at official level in NATO.

Entry Clearances

Philip Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what guidance is given to embassies and consulates on dealing with requests from people wishing to enter the UK. [149410]

Dr. Howells: All guidance given to embassies and consulates on dealing with applications from people wishing to enter the UK is published on the following websites:

http://www.ind.homeoffice.gov.uk/lawandpolicy/immigrationrules/.

http://www.ukvisas.gov.uk/servlet/Front?pagename=OpenMarket/Xcelerate/ShowPage&c=Page&cid=1034241195847.

http://www.fco.gov.uk/Files/kfile/ECBPMarch07.pdf.

The best practice guidance is currently under review and will be published through the same channels in due course.

EU Reform: Treaties

Mr. Evans: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his Portuguese counterpart on the EU constitutional treaty. [148179]

Mr. Jim Murphy: The treaty establishing a constitution for Europe, on which the Government proposed a referendum, is now defunct. The mandate for a reform treaty agreed by the European Council states clearly:

"The constitutional concept, which consisted in repealing all existing Treaties and replacing them by a single text called "Constitution", is abandoned".

As my right hon. Friend the then Prime Minister (Mr. Blair) set out in his statement to Parliament on 25 June, the reform treaty will differ fundamentally from the constitutional treaty in its substance.

My right hon. Friend the Foreign Secretary has discussed a range of issues with his Portuguese counterpart, Portuguese Foreign Minister Luis Amado, including EU institutional issues.

Indonesia: Terrorism

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his international counterparts on counter-terrorism operations in Indonesia. [149175]

Dr. Howells: We have regular discussions with international partners who share our commitment to countering the terrorist threat in Indonesia. I visited Indonesia in March this year and had the opportunity to discuss these issues with Foreign Minister Hasan Wirajuda and Indonesian National Police Chief Sutanto.

Internet: Censorship

Mr. Greg Knight: To ask the Secretary of State for Foreign and Commonwealth Affairs what meetings he and Ministers in his Department have had with the EU on internet censorship; and what was discussed. [148444]

Mr. Jim Murphy *[holding answer 10 July 2007]:* Foreign and Commonwealth Office (FCO) Ministers have not, to date, had any EU meetings on internet censorship.

We are aware of the European Commission's plans to publish a proposal, in the autumn, to make it a criminal offence to place bomb-making instructions on the internet. A conference was held by the European Commission in March to discuss these proposals, at which officials from the Home Office and the FCO participated.

Israel

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to Arab Governments to secure an end to attacks on Israel; what response has been received; and if he will make a statement. [149355]

Dr. Howells: The UK holds regular discussions with Arab Governments on ways to reduce violence in the Middle East, including attacks against Israel. These are often focused on efforts to implement UN Security Council Resolutions (UNSCRs), including those aimed at preventing attacks on Israel. In May we lobbied a number of regional Governments, drawing their attention to the provisions of UNSCR 1747 and seeking their support in implementing the provisions more effectively. Among other things, this resolution imposed a legally binding embargo on the export/transfer of all arms from Iran, including to Hezbollah and Palestinian rejectionist groups. We also regularly raise the implementation of UNSCR 1701, which brought an end to the conflict between Hezbollah and Israel in 2006. We enjoy the support of many Arab partners in our efforts to implement relevant UN Resolutions.

Pakistan: Human Rights

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government have made to the Pakistani authorities on the treatment of lawyers and the families of lawyers who defend those accused of apostacy, with particular reference to the Lahore area; and if he will make a statement. [149655]

Dr. Howells: We have not made any representations to the Pakistani authorities about the treatment of defence lawyers. We do receive regular updates from legal aid groups in Pakistan, including in Lahore, on the progress of their cases and the difficulties faced by the lawyers representing those accused.

In our latest representation to the Pakistani authorities in June, together with the EU, we raised our concerns about the proposed Apostasy Bill. The UK strongly supports freedom of religion and condemns

instances where individuals are persecuted because of their faith or belief, wherever this occurs and whatever the religion of the individual or group concerned.

Pakistan: Politics and Government

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Pakistani Government on the conflict at the Red Mosque in Islamabad. [149656]

Dr. Howells: My right hon. Friend the Foreign Secretary discussed the crisis in the Red Mosque in Islamabad with Pakistan's Foreign Minister Kasuri on 4 July. Officials from our high commission in Islamabad have also had regular discussions with the Ministry of Interior, the National Crisis Management Cell and the police forces, to be briefed on the situation.

Sudan: Peace Negotiations

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what measures he has put in place to ensure that there is a Darfur-Darfur dialogue in place before the forthcoming peace talks in Mombasa. [149374]

Meg Munn: The peace talks in Mombasa are intended to bring together factions of the Sudan Liberation Movement (SLM) to agree a common position on the Darfur political process. Not all factions have agreed to attend the Mombasa meeting.

The Sudan People's Liberation Movement has scheduled a meeting of all the rebel groups, including the SLM, and Darfuri civil society to take place in south Sudan in August. This will build on the Darfur-Darfur dialogue.

We, and our partners, are pressing all sides to commit to this renewed political process and to implement their commitments to the international community.

Venezuala: Oil

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on Venezuela's oil supply offer to Iran. [149176]

Dr. Howells: On his recent visit to Iran, President Chavez signed a large number of co-operation agreements with the Iranian Government, including a number in relation to oil exploration and petrochemical production. It appears that the two Governments are now working on the exact detail of those agreements.

Our embassies in Caracas and Tehran will continue to monitor what emerges from this partnership.

Zimbabwe: Conferences

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has sought clarification of the policy of the Government of Portugal on whether to invite Robert Mugabe and other representatives of the Government of Zimbabwe to attend the EU-Africa summit in Portugal in December 2007. [149102]

Meg Munn: My right hon. Friend the Prime Minister met Prime Minister Socrates of Portugal on 9 July and discussed the EU-Africa summit. They agreed that a diplomatic solution was needed regarding the matter of Zimbabwean representation.

MINISTER FOR WOMEN

Departments: Public Transport

Mr. Jenkins: To ask the Minister for Women and Equality what incentives she has considered to encourage staff to use public transport. [148807]

Mrs. McGuire: I have been asked to reply.

The main incentive the Department offers are interest-free loans for season tickets for travel to work. Use of public transport is encouraged by departmental policies including limited car parking, flexible working, using public transport during the course of travel and making use of travel websites and information services, such as Transport Direct. Staff are also informed about local transport initiatives and promotions. Where the location or nature of the work makes public transport use impractical for staff, car sharing is encouraged.

DUCHY OF LANCASTER

Committee on Standards in Public Life

Norman Baker: To ask the Chancellor of the Duchy of Lancaster if he will make a statement on the future role of *(a)* the Committee on Standards in Public Life and *(b)* the Business Appointments Committee. [149231]

Edward Miliband: Both the Committee on Standards in Public Life and the Advisory Committee on Business Appointments continue to play important roles in upholding standards in public life. The Ministerial Code published on 3 July strengthened the provisions relating to business appointments, making clear that Ministers must seek the advice of the Advisory Committee on Business Appointments and that they will be expected to abide by its advice. The Committee on Standards in Public Life is currently in discussion with Government about its forward programme of work.

Contracts for Services: Religion

Mr. Gordon Prentice: To ask the Chancellor of the Duchy of Lancaster if he will estimate how many faith-based organisations *(a)* received grants and *(b)* were contracted to deliver (i) local authority and (ii) central Government services in the last 12 months; and if he will make a statement. [148710]

Phil Hope: This information is not held centrally. The Government recognise the role which faith-based organisations play in delivering public services through grants and contracts with central and local government. The Government want to ensure that the range of community-based organisations, including faith-based groups, can access the support available to perform

their multiple roles of providing voice to citizens and in building communities. The Office of the Third Sector's Strategic Partners programme includes funding to some faith-based organisations to enable them to provide representative 'voice' for the third sector, or an element of third sector activity, at national level, including on public service delivery issues.

The Third Sector Review, conducted jointly by HM Treasury and the Cabinet Office, as part of the 2007 comprehensive spending review, looking at the future role of the third sector in economic and social regeneration, held targeted events for faith groups as part of its consultation process in 2006. The review also received written representation from faith groups. The Government will seek to ensure continued dialogue with these and other groups and that all of the measures in the Third Sector Review, including the £80 million small grants fund announced in the Budget, will be as accessible as possible to a wide range of organisations.

Departments: Disciplinary Proceedings

David Simpson: To ask the Chancellor of the Duchy of Lancaster how many people in the former Deputy Prime Minister's Department were *(a)* disciplined and *(b)* dismissed for (i) inappropriate use of the internet while at work and (ii) using work telephones to access premium rate telephone numbers in the last 12 months. [149198]

Edward Miliband: None.

Departments: Freedom of Information

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster if he will list the requests made to the Cabinet Office under the *(a)* Freedom of Information Act (FOI) 2000 and *(b)* Environmental Information Regulations in the last six months; and what the (i) FOI case reference number, (ii) request summary, (iii) request outcome and (iv) where appropriate, reason for exemption was in each case. [148868]

Edward Miliband: Information relating to Freedom of Information and Environmental Information requests is published on a quarterly basis by the Ministry of Justice. Information for January—March 2007 was published on 25 June 2007, *Official Report*, column 10WS. Copies of the document are in the Libraries of the House. Information for April—June 2007 is due to be published in the autumn.

Government: Standards

Norman Baker: To ask the Chancellor of the Duchy of Lancaster what overarching studies he plans to undertake as part of his responsibility to make Government work better. [149224]

Edward Miliband: The Prime Minister has already taken several steps to make Government work better. The Prime Minister announced Machinery of Government changes on 27 June, creating the Department for Children, Schools and Families, the Department for Innovation, Universities and Skills and the Department for Business, Enterprise and Regulatory Reform. On 3 July the Prime Minister announced a series of constitutional reform measures in the Green Paper entitled "The Governance of Britain". On 12 June the Cabinet Secretary also announced changes to structures within the Cabinet Office designed to strengthen policy, strategy and co-ordination at the centre of Government.

The Cabinet Office has an overarching purpose of making Government work better. As Minister for the Cabinet Office, I and the Prime Minister will keep this under review, and I will provide the Prime Minister with advice as I see fit.

Ministerial Policy Advisers: Standards

Norman Baker: To ask the Chancellor of the Duchy of Lancaster when he expects to issue a revised version of the Special Advisers' Code. [149230]

Edward Miliband: A revised version of the Model Contract for Special Advisers, incorporating the Code of Conduct for Special Advisers, will be published in due course.

Office of the Deputy Prime Minister: Manpower

Norman Baker: To ask the Chancellor of the Duchy of Lancaster how the *(a)* officials and *(b)* budget of the former Office of the Deputy Prime Minister are deployed. [149229]

Edward Miliband: The Deputy Prime Minister's Office has been disbanded and its residual responsibilities and its functions have been transferred to the Cabinet Office.

Olympic Games: Greater London

Mr. Whittingdale: To ask the Minister for the Olympics how many complaints have been received concerning possible breaches of the regulation protecting the use of the Olympic symbol, motto and other words relating to the Olympics; and how many prosecutions have been initiated for breaches of the regulations protecting the use of the Olympic symbol, motto and other words relating to the Olympics. [148584]

Tessa Jowell: Prosecutions and actions for infringement are initiated by the London Organising Committee of the Olympic Games and Paralympic Games Limited (LOCOG) and other bodies. To date, no prosecutions or actions for infringement have resulted in any judgments of the court in favour of or against LOCOG. LOCOG has written "cease and desist" letters to a number of organisations to remind them of the provisions in place under the London Olympic Games and Paralympic Games Act 2006 and the Olympic Symbol etc. (Protection) Act 1995 which provides protection for the Olympic symbol and other words and representations relating to the Olympics, Paralympics and London 2012.

The Government Olympic Executive (GOE) within DCMS has also had informal exchanges with a number of organisations to give them information about the provisions.

Mark Pritchard: To ask the Minister for the Olympics what plans she has to visit the National Sports Academy at Lilleshall in preparation for the 2012 Olympic Games. [149036]

Tessa Jowell: I will be pursuing a programme of visits to the English regions and Devolved Administrations and plan to include Lilleshall in that programme.

Social Exclusion Unit: Pilot Schemes

Danny Alexander: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 19 June 2007, *Official Report*, column 1673W, on the social exclusion unit: pilot schemes, what pilot projects were *(a)* initiated and *(b)* supported by the social exclusion unit and the social exclusion task force prior to the publication of the Reaching Out action plan; and which of those since have been implemented on a national basis. [147565]

Edward Miliband: Prior to the publication of the social exclusion task force (SETF) report 'Reaching Out: An Action Plan on Social Exclusion', the social exclusion unit (SEU) produced over 40 reports. Many of these refer to piloting new approaches which have been initiated and taken forward by various Government Departments, local authorities and the voluntary and community sector. Important SEU documents include reports on rough sleeping, neighbourhood renewal and teenage pregnancy.

The SETF supports the piloting and testing of new approaches which may help tackle social exclusion either on a local or national scale. We recognise the need for good evaluation of pilot programmes so that findings and best practice can be disseminated and implemented.

CULTURE, MEDIA AND SPORT

British Film Institute: Archives

Mr. Tom Clarke: To ask the Secretary of State for Culture, Media and Sport if he will make a statement on the future of the British Film Institute and its role in conserving archive material. [149613]

Margaret Hodge: The British Film Institute (BFI) has a unique role in providing education and promoting knowledge and understanding of film. BFI also leads on the conservation of film and TV in the UK. In response to the challenges and opportunities faced by the moving image archive sector, the BFI, in partnership with the UK Film Council and film agencies across the UK, has developed a strategy to secure the UK's screen heritage and increase access to it. This strategy is currently undergoing consultation.

Departmental Studies

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 19 January 2007, *Official Report*, column 1360W, on departmental studies, when he intends to place the rest of the requested documents in the Library. [148948]

Margaret Hodge: The following studies have been published and can now be placed in the Library:

Economic Impact of the Department for Culture, Media and Sport's Cultural Investment (renamed "A Framework for Evaluating Cultural Policy").

Assessing the Readiness of the Social Housing Sector for Digital Switchover.

Governance of Non-Departmental Government Bodies.

The following studies are not yet complete but will be placed in the Library on completion:

Casino Impacts Scoping Study.

Sport's Contribution to Achieving Wider Social Benefits.

Measuring Elasticity of Tourism Demand.

International Dimension of the Creative Economy.

Exploring Creative Industry Spillovers.

Museums Indicators Revisions (renamed "Review of Performance Indicator Framework for National Museums and Galleries").

Review of Evidence Base for Delivering SP2/ PSA3 (renamed "Culture on Demand").

Departments: Crime

Mr. Clegg: To ask the Secretary of State for Culture, Media and Sport what criminal offences have been created by primary legislation sponsored by his Department since October 2006. [149595]

Margaret Hodge: Section 3 of the Digital Switchover (Disclosure of Information) Act 2007 creates two new criminal offences. The offences relate to the Digital Switchover Help Scheme and make it an offence to disclose information supplied under the Act without lawful authority. The offence under section 3(1) makes it an offence for a "relevant person" to make such a disclosure and the offence under section 3(2) makes it an offence for a range of persons connected with the relevant person to make such a disclosure.

Departments: Non-departmental Public Bodies

Sir Gerald Kaufman: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 4 June 2007, *Official Report*, column 90W, on Departments: non-departmental public bodies, what the *(a)* capital costs and *(b)* revenue operating costs were of each of the non-departmental public bodies for which her Department is responsible in each of the last five years; and what change this represented in each case from the previous year. [146118]

Margaret Hodge: The information requested is drawn from the Department's records and is shown in the following tables.

Operating grant allocated to DCMS non-departmental public bodies

£000

	Revenue costs

Films: Violence

Bob Spink: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the change in the level of violence portrayed in films, particularly of torture, in the last 10 years; and if he will make a statement. [149647]

Margaret Hodge: None. Under the terms of the Video Recordings Act, I have designated the president and vice presidents of the British Board of Film Classification as the authority responsible for considering content and classifying videos. They also consider cinema films on behalf of local authorities. The Board addresses the nature and degree of violence through the classification system.

Gun Sports: Olympic Games

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what progress is being made in discussions with the Home Department on Olympic target pistol shooters; and if he will make a statement. [150098]

Mr. Sutcliffe: Following discussions between officials from the Department for Culture, Media and Sport and the Home Office, a proposal has been put forward to Ministers at the Home Office and a decision remains pending.

Olympic Games: Greater London

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 14 June 2007, *Official Report*, column 1178W, on the Olympic Games, in what form the ongoing advice provided by KPMG on the cost of the Olympics was received. [146541]

Tessa Jowell: I have been asked to reply as Minister for the Olympics.

KPMG provided advice under contract as part of a team within the then Interim Olympic Delivery Authority and later the Olympic Delivery Authority.

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 20 June 2007, *Official Report*, column 1783W, on Olympic Games: Greater London, in what ways the advice remains pertinent to the formulation of Government policy. [146950]

Tessa Jowell: I have been asked to reply as Minister for the Olympics.

The advice provided by KPMG is being used to inform our ongoing strategy for managing the Olympic project and costs which will be kept under close scrutiny throughout.

Royal Opera House: Directors

Lynne Jones: To ask the Secretary of State for Culture, Media and Sport what mechanisms are in place to monitor the fulfilment by the chief executive of his contractual obligations as full-time chief executive of the Royal Opera House (ROH); and whether the contract requires that the ROH is informed of the hours spent by the chief executive in employment outside the ROH. [149525]

Margaret Hodge: This is a matter for the chair and board of the Royal Opera House.

Sports: Finance

Mr. Evans: To ask the Secretary of State for Culture, Media and Sport what public funding has been made available for sports clubs and facilities in Ribble Valley; and what proportion of these funds is earmarked for Paralympic sports. [149064]

Mr. Sutcliffe: Sport England has allocated £3.6 million to a wide range of community sports projects in the Ribble Valley. This funding has attracted an additional £3.1 million of inward investment into sport.

The Ribble Valley sports projects are designed for use by everyone in the community and, as such, no fixed proportion of the Sport England funding has been earmarked specifically for Paralympic sports.

The projects do, however, cover a number of different sports, including rugby, athletics, tennis and sailing, that are included in the lists of both Olympic and Paralympic sports for 2012.

Sports: Governing Bodies

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport if he will list the sport national governing bodies attending the Labour Party fundraiser at Wembley on 12 July. [150096]

Mr. Sutcliffe: DCMS does not hold the information requested.

Sportsgrounds: Seating

Mr. Hancock: To ask the Secretary of State for Culture, Media and Sport if he will make it his policy to change the regulations to allow safe standing at football grounds; and if he will make a statement. [149500]

Mr. Sutcliffe: We currently have no plans to amend the policy of requiring grounds in the top two divisions in England to be all-seater.

Mr. Hancock: To ask the Secretary of State for Culture, Media and Sport what plans he has to meet the Football Supporters' Federation to discuss its report on safe standing at football grounds; and if he will make a statement. [149501]

Mr. Sutcliffe: DCMS has met and is in regular contact with the Football Supporters' Federation but we have no plans to meet the FSF to discuss their report.

It is Government's view that all-seater stadiums, along with effective stewarding and policing, is the most effective way to ensure spectator safety in the top two English divisions.

Tickets: Touting

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport whether he plans to extend the existing protection from ticket touts to other sports; and if he will make a statement. [150097]

Mr. Sutcliffe: The restriction on sale of tickets for the 2012 London Olympic Games and Paralympic Games is a requirement of the International Olympic Committee. Sales of tickets for football matches are regulated to maintain the segregation of fans for reasons of public disorder. The Department is not planning to extend these measures or propose new legislation at this stage, but will consider a case for events of national significance and the future recommendations arising from the recent Select Committee inquiry.

Tourists: Expenditure

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much was spent by *(a)* domestic and *(b)* foreign tourists in England in each year since 1997. [148828]

Margaret Hodge: The tables show expenditure on visits to England by *(a)* UK residents where this included an overnight stay and *(b)* overseas residents.

Expenditure by UK residents on overnight visits in England

	Current prices (£ million)
1997	17.3
1998	16.4
1999	19.1
2000	19.9
2001	20.3
2002	20.8
2003	20.6
2004	19.0
2005	17.5
2006	16.2

[1] The methodology for the UKTS changed in 2005 meaning that comparisons with previous years should be treated with caution. This change occurred due to concerns with the quality of 2004 data, which are thought to be an under-representation of the true position. There was also a change in survey methodology in 2000, though figures for 1997-99 have been reworked to allow comparisons with later data.

Source:
UK Tourism Survey (National Tourist Boards)[1]

Expenditure by overseas residents during visits to England

	Current prices (£ million)
1997	10.0
1998	10.5
1999	11.0
2000	11.4
2001	9.9
2002	10.3
2003	10.4
2004	11.3
2005	12.3
2006 (provisional)	13.2

Source:
International Passenger Survey (ONS)

In addition, a substantial number of day visits are made to, or within, England. In 2005 an estimated £37 billion was spent on tourism day visits in England by English residents. It is not possible to provide a time series for this information as the surveys are run intermittently.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Advisory Conciliation and Arbitration Service: Finance

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if his Department will provide funding for the Advisory, Conciliation and Arbitration Service to enable dispute resolution services to be made available to parties in employment disputes at an earlier stage. [149495]

Mr. McFadden: The Government's proposals for the way forward on all aspects of dispute resolution, including the provision of ACAS conciliation services in the early stages of disputes, will be published in due course.

Conditions of Employment: Parents

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which business leaders he and the former Secretary of State for Trade and Industry have met in the last 12 months to discuss family-friendly working practices. [148463]

Mr. McFadden: My right hon. Friend, the Secretary of State and other Ministers regularly discuss aspects of family-friendly working practices and legislation with business leaders, both in formal meetings and in the margins of other discussions.

Departments: Public Expenditure

Susan Kramer: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will provide the revised budget for his newly-formed Department for 2007-08, broken down by main budget heading. [147612]

Mr. Thomas *[holding answer 4 July 2007]:* The revised budget for Business, Enterprise and Regulatory Reform will be set out in the Winter Supplementary Estimate.

Departments: Public Transport

Mr. Jenkins: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what incentives he has considered to encourage staff in his Department to use public transport. [148797]

Mr. Thomas: The main incentive the Department offers are interest-free loans for season tickets for travel to work. Use of public transport is encouraged by Departmental policies including limited car parking, flexible working, encouraging use of public transport during the course of business travel and making use of travel websites.

Disciplinary Proceedings: Regulation

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if his Department will bring forward proposals to simplify the rules governing employment disciplinary procedures. [149472]

Mr. McFadden: My Department has recently consulted on simplifying employment dispute resolution, and will publish its proposals in due course.

Electronic Equipment: Waste Disposal

David T.C. Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many and what percentage of distributors of electrical and electronic equipment are members of a distributor take-back scheme. [149072]

Malcolm Wicks: Over 2,500 retailers have joined the distributor take-back scheme accounting for more than 75 per cent. of EEE retailing by sales.

David T.C. Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many and what percentage of distributors of electrical and electronic equipment have initiated a take-back yourself scheme. [149074]

Malcolm Wicks: All retailers of electrical and electronic equipment are obliged to offer in-store take-back if they are not a member of the distributor take-back scheme. Over 2,500 distributors have joined the DTS representing around 75 per cent. of electrical and electronic equipment sales.

David T.C. Davies: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what guidance his Department provided on the waste electrical and electronic equipment regulations to distributors of electrical and electronic equipment before 1 July; and what assessment he has made of the effectiveness of that guidance. [149075]

Malcolm Wicks: The Department published a distributor factsheet and non-statutory guidance on the UK WEEE regulations in February 2007. Further guidance on the role of distributors was issued in April to explain how distributors can fulfil their obligations under the WEEE system. We will continue to update the guidance in light of experience by distributors, who have not raised any significant concerns over the guidance as it stands.

Google: Doubleclick

Lynne Jones: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether he has had discussions with *(a)* the Information Commissioner on the issues of privacy and data protection in the context of Google's proposed acquisition of Doubleclick and *(b)* the Office of Fair Trading on monitoring of the online marketplace and its effect on consumers, innovation and prices; and if he will make a statement. [149526]

Mr. Timms: I have had no such discussions; either with the Information Commissioner or the Office of Fair Trading. Privacy and data protection are matters for the Ministry of Justice. The regulatory control of mergers is a matter for the independent competition authorities with cases considered on the grounds of impact on competition in the relevant market.

The Office of Fair Trading has recently completed a study on internet shopping. Their report available at http://www.oft.gov.uk/advice_and_resources/resource_base/market-studies/internet concludes that the rapid growth of internet shopping is a success story that benefits both consumers and businesses across a range of markets, but that both could do more to make the most of opportunities it provides.

Government Shareholding

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 14 June 2007, *Official Report*, columns 1283-84W, on Government Shareholding, what the nature and status is of the special shares held by his Department in *(a)* Rolls Royce plc and *(b)* British Aerospace plc. [148946]

Mr. Timms: The information is as follows.

(a) The Solicitor for the Affairs of Her Majesty's Treasury, as nominee for the Secretary of State for Trade and Industry, holds the Government's special share in Rolls Royce Group plc, going back to when the Company was privatised in 1987.

The purpose of the Rolls Royce special share, which has a nominal value of £1, is to protect the UK's national security interests. These include security of supply issues associated with its nuclear business (nuclear propulsion for Royal Navy submarines) and for other defence equipment (mainly aero-engine and ship propulsion). The provisions of the special share are tailored as narrowly as possible and kept under review.

Key features of the Rolls-Royce special share are:

A 15 per cent. limit on the percentage of foreign shares in Rolls Royce Group plc (the holding company) that can be held by a single foreign shareholder, or foreign shareholders acting in concert. (A foreign shareholder includes an EU national.)

A requirement that the chief executive and the majority of directors of Rolls Royce Group plc (the holding company) are British.

A requirement that disposals of the whole or a material part of the nuclear business, or the group as a whole, require the consent of the Special Shareholder.

(b) The Solicitor for the Affairs of Her Majesty's Treasury, as nominee for the Secretary of State for Trade and Industry, holds the Government's special share in BAE Systems plc (then known as British Aerospace plc). The purpose of the special share, created in 1985, and which has a nominal value of £1, is to protect the UK's national security interests. The provisions of the special share are tailored as narrowly as possible and kept under review.

Key features of the BAE Systems' special share are:

A 15 per cent. limit on the percentage of shares that can be held by any individual foreign shareholder, or group of foreign shareholders acting in concert, in the company; (A foreign shareholder includes an EU national.)

A requirement that the chief executive and the majority of the board are British;

A requirement that any executive chairman is to be British and, if both the chairman and the deputy chairman are non-executives, that at least one of them is British.

Heating: Carbon Emissions

Mr. Chope: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department is taking to ensure that the low carbon potential of electric heating is realised. [148655]

Malcolm Wicks *[holding answer 10 July 2007]:* The Government are committed to addressing both the causes and consequences of climate change. As announced in the Energy White Paper we are considering a number of policy options to reduce the carbon impact of heat, including electric heating from low carbon sources, and its use in order to determine a strategy for heat.

Industrial Disputes: Mediation

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment his Department has made of the merits of making mediation a compulsory step in employment disputes. [149471]

Mr. Timms: The Government are currently developing their plans for the way forward on the resolution of employment disputes including the role of mediation, in the light of Michael Gibbons' review and the Government consultation "Resolving Disputes in the Workplace". These plans will be published in due course.

Iran: Export Credit Guarantees

Mr. Hague: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 26 June 2007, *Official Report*, column 621W, on Iran: export credit guarantees, whether his Department has received information from other European countries to the effect that they have limited the provision of export credit guarantees to Iran; and if he will make a statement. [148973]

Malcolm Wicks: ECGD receives information about the cover policies operated by other Export Credit Agencies (EGAs) in various international and bilateral fora but this is made known on a confidential basis. However, some EGAs post their current cover policies on individual countries on their public websites. Each EGA is responsible for taking its own decisions on cover policy for individual countries, taking account of its own risk assessments and any international arrangements and/or agreements that exist which may inform what the policy should be.

Maternity Leave

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what proportion of mothers eligible for maternity leave have taken maternity leave in the last 12 months; and what the average length of maternity leave was. [148701]

Mr. McFadden: The most recent estimates are based on the Maternity and Paternity Rights and Benefits in Britain: Survey of Parents, conducted in 2005. The survey is based on a random sample of mothers who had a baby in December 2003 and their partners. Of mothers in paid work, all took at least some of their entitlement to maternity leave, and 98 per cent. received some form of maternity pay; approximately 2 per cent. of mothers in paid work did not receive maternity pay. The survey found that the average length of maternity leave taken was six months.

Minimum Wage: Personal Income

Mr. Jenkins: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number of people in *(a)* the UK, *(b)* the West Midlands and *(c)* Tamworth whose income rose on the introduction of the minimum wage. [149270]

Mr. McFadden: The Department estimates that around 1 million people in the UK stand to benefit from the 2007 uprating of the national minimum wage in October, 110,000 of whom are in the West Midlands. Data at the parliamentary constituency level are not available.

Parental Leave: Industrial Disputes

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether his Department holds figures on the number of employment disputes with *(a)* paternity leave and *(b)* maternity leave as a primary cause of action; and if he will make a statement. [148708]

Mr. McFadden: During the year 2005-06, 155 employment tribunal claims related to a person claiming to suffer a detriment and/or dismissal due to requesting or taking paternity or adoption leave or time off to assist a dependant.

During the same year there were 1,501 employment tribunal claims made related to a person claiming to suffer a detriment and/or dismissal on grounds of pregnancy, childbirth or maternity.

Parental Leave: Low Incomes

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate his Department has made of the number of people from low income families taking *(a)* paternity leave and *(b)* maternity leave in the last period for which figures are available; and if he will make a statement. [148697]

Mr. McFadden: The most recent estimates of take-up of maternity and paternity leave are based on the Maternity and Paternity Rights and Benefits in Britain: Survey of Parents, conducted in 2005. The survey is based on a random sample of mothers who had a baby in December 2003 and their partners. Of mothers in paid work, all took at least some of their entitlement to maternity leave. 93 per cent. of fathers took some time off around the time of the birth. Of the 93 per cent. who took some time off, 79 per cent. took paternity leave.

The Department does not collect data on low income families so has not estimated the number of low income families which have taken up paternity or maternity leave.

Paternity Leave

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what proportion of fathers eligible for paternity leave have taken paternity leave in the last 12 months; and what the average length of paternity leave was. [148700]

Mr. McFadden: The most recent data available on take-up of paternity leave are from the Maternity and Paternity Rights and Benefits: Survey of Parents 2005. The report of findings is available at the House of Commons Library and at www.berr.gov.uk/files/file27446.pdf. Statistics in this report are based on responses from a sample of mothers and fathers who had a child in December 2003 who were surveyed approximately 17 months after the child's birth.

The survey found that 93 per cent. of fathers took some time off around the time of the birth. Of the 93 per cent. who took some time off, 79 per cent. took paternity leave and the average duration was 9.3 days. Table 9.1 in the cited report provides further information.

Post Offices: WH Smith

Mr. Martlew: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many representations Post Office Ltd. received in response to the consultation on moving the Carlisle Crown Post Office to W.H. Smith; and how many of the responses raised problems about access. [149626]

Mr. McFadden: This is an operational matter for Post Office Ltd. Alan Cook the Managing Director has been asked to reply direct to the hon. Member.

Telecommunications

Mr. Crabb: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number of households and businesses with a telephone connection provided using a line concentrator or other line sharing device due to shortages of line capacity; what steps he is taking to reduce the number of such households; and what discussions he has had with telecommunications companies on this issue. [149441]

Mr. Timms: The matter raised is the responsibility of the independent regulator, the Office of Communications (Ofcom). I have asked the chief executive of Ofcom to reply directly to the hon. Member. Copies of the chief executive's letter will be placed in the Libraries of both Houses.

Tidal Power: Severn Estuary

Jenny Willott: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what plans his Department has to commission an independent strategic evaluation of all the options for exploiting tidal power in the Severn estuary; and if he will make a statement. [147987]

Malcolm Wicks *[holding answer 9 July 2007]:* A study of 'Tidal Power in the UK' currently under way and led by the Sustainable Development Commission (SDC) working together with my Department, Welsh Assembly Government, the devolved Administrations and the South West Regional Development Agency is looking in some detail at the issues arising on tidal power.

The study will provide a strategic, independent and evidence-based consideration of all the environmental, social and economic aspects of and options for tidal power both in the Severn estuary and the wider UK from a sustainable development perspective.

The final report is expected to be published in September and will help inform any future consideration of these issues. Further details of the study can be seen at

www.sd-commission.org.uk/pages/tidal/html.

Unfair Dismissal

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if his Department will undertake an assessment of the law of procedural unfairness in unfair dismissal employment disputes. [149473]

Mr. McFadden: The consultation "Resolving Disputes in the Workplace" covered this area, and in light of early responses the Government issued a supplementary review on procedural unfairness in unfair dismissal. The conclusions of this review and the Government's plans for the way forward will be published, alongside those for the main consultation, in due course.

Warwick Manufacturing Group

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 25 June 2007, *Official Report*, column 136W, on the Warwick Manufacturing Group, whether the payments were intended to fund in whole or part the Warwick Manufacturing Group. [148851]

Mr. Timms: The payments detailed in the answer of 25 June 2007, *Official Report*, column 136W, were made in respect of specific services provided by Warwick University, of which the Warwick Manufacturing Group is part, on projects designed to improve the performance of UK industry.

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether the Government provide financial support to the Warwick Manufacturing Group; and if he will make a statement. [148871]

Mr. Timms: The Government do not provide general financial support to the Warwick Manufacturing Group. They have however engaged the services of the University of Warwick, of which the Warwick Manufacturing Group is part, to provide specific services on a range of projects designed to improve the competitiveness of UK industry.

HOME DEPARTMENT

Boris Berezovsky

Andrew Mackinlay: To ask the Secretary of State for the Home Department for what reasons Boris Berezovsky was granted political asylum. [147793]

Mr. Byrne: It is the policy of the Border and Immigration Agency not to comment publicly on individual cases.

Children: Internet

Margaret Moran: To ask the Secretary of State for the Home Department what information her Department holds on which social networking sites have *(a)* adopted and *(b)* not adopted mechanisms to prevent child abuse. [149443]

Mr. Coaker: This information is not held centrally.

However, the Home Secretary's Taskforce for Child Protection on the Internet has set up a working group which includes representatives from social network providers, law enforcement and children's charities. This group is looking at the safety issues for children caused by the development and growth of social networking sites and is developing good practice guidelines.

Crime: Banks

Mr. Sheerman: To ask the Secretary of State for the Home Department what redress is available to a UK citizen against alleged criminal activities by Swiss banks with subsidiary offices located in London. [150234]

Mr. Coaker: Without knowing the full circumstances of a case it is difficult to assess what redress may be available. There may be a case for civil action, or where a criminal offence has been committed in the UK this should be reported to the police for them to decide on appropriate action.

Crime: Drugs

Dr. Iddon: To ask the Secretary of State for the Home Department (1) how much and what proportion of anti-drugs spending the Government allocated to the monitoring and evaluation of the performance of the UK drugs strategy in *(a)* reducing the availability of illicit drugs, *(b)* educating young people, *(c)* drug addiction treatment and *(d)* tackling drug-related crime; [148712]

(2) how much and what proportion of anti-drugs spending the Government allocated to research to inform the UK drug strategy on *(a)* availability of illicit drugs, *(b)* young people's attitudes to drugs, *(c)* treatment and *(d)* drug-related crime in each year since 2002. [148713]

Mr. Coaker: The Home Office allocated £11.4 million between 2002-03 and 2006-07 on monitoring and evaluation. A further £0.9 million is allocated for the current financial year.

The success of the strategy will be measured by the Drug Harm Index, which captures a range of social and health harms caused by drugs. This is published annually by the Home Office. In terms of research and evaluation, the complex nature of drug misuse and its associated problems means that research projects often address a range of substantive issues. As such, it is difficult to break down funding into discrete themes. However key projects since 2002 have been around assessing the impact of interventions to tackle the availability and problems caused by drugs, measuring the relationship between drugs and crime, estimating the trends in drug consumption and the number of problematic users, and the relationship between drug consumption and young people. Completed projects are published on the Home office Research, Development and Statistics web page.

Crime: Victims

Damian Green: To ask the Secretary of State for the Home Department what representations she has received on the information given to British victims of crime when their assailant is released from prison outside the UK. [149345]

Mr. Hanson: I have been asked to reply.

The statutory victim contact scheme operates in cases where the offender has been convicted of a sexual or violent offence and sentenced to 12 months imprisonment or more, in England and Wales only. In the case of life sentences, the probation service will be told of any decision to repatriate a foreign national prisoner, so that arrangements can be made to inform the victim or the victim's family of the impending transfer. Ministers have no record of receiving any representations about the provision of information to British victims of crime when the offender is subsequently released from prison outside the United Kingdom.

Departments: Common Purpose

Philip Davies: To ask the Secretary of State for the Home Department how much her Department paid to Common Purpose in each of the last five years; for what purpose; and what the outcome of the expenditure was. [147602]

Mr. Byrne: The amount paid to Common Purpose UK by the Home Office in each of the last five years is detailed in the following table.

	2002-03	2003-04	2004-05	2005-06	2006-07
Training	4,406	—	7,150	11,909	9,694
Conference fees	—	—	529	—	—
Grants	—	36,500	—	—	—
Total	4,406	36,500	7,679	11,909	9,694

The purpose and outcome of this expenditure was:

Training expenditure: to raise awareness of leadership issues within the community.

Grants: to fund a project on the under- representation of refugee and black minority ethnic groups in board level appointments.

The spend covers the core Home Office, including what is now the Border and Immigration Agency, and the National Offender Management Service and Office of Criminal Justice Reform, both of which are now part of the Ministry of Justice.

Essex Police: Prosecutions

Mr. Amess: To ask the Secretary of State for the Home Department how many cases of legal action brought against Essex police are awaiting a hearing; and how many cases against Essex police were *(a)* settled out of court and *(b)* won by the police in each of the last five years. [149335]

Mr. McNulty: The Home Office does not hold this information which is a matter for the Essex Police.

Immigration

Mr. Clegg: To ask the Secretary of State for the Home Department how many times she has used discretionary powers to allow an individual *(a)* to come to the UK and *(b)* to remain in the UK in each of the last five years. [147782]

Jacqui Smith: Under the Nationality and Immigration Act 2002, the Secretary of State was given discretionary powers to allow an individual to *(a)* come to the UK and *(b)* remain in the UK. Officials from the Border and Immigration Agency act on behalf of the Secretary of State to implement decisions based upon the use of these discretionary powers.

Each asylum and human rights claim is considered on its individual merits in accordance with our obligations under the 1951 UN Refugee Convention and European convention on Human Rights (ECHR). Claimants who meet the definition of a refugee in the 1951 convention are granted asylum. If they do not qualify for asylum but there are other circumstances which make them particularly vulnerable and engage our obligations under the ECHR, they are granted humanitarian protection or discretionary leave. If their application is refused, they have the right of appeal to the independent Asylum and Immigration tribunal. In this way, we ensure that we provide protection of those who need it.

Information provided in the table relates to grants of exceptional leave to remain, humanitarian protection (HP) and discretionary leave (DL) made on asylum applications received in the UK, 2002 to 2006. Humanitarian protection (HP) and discretionary leave (DL) replaced exceptional leave to remain from 1 April 2003.

Principal applicants UK

	Exceptional leave to remain	Grants of humanitarian protection	Grants of discretionary leave
2002	20,135	n/a	n/a
2003	3,975	140	3,095
2004	n/a	160	3,835
2005[1]	n/a	120	2,675
2006[1]	n/a	60	2,260

n/a = not applicable
[1] Provisional

Notes:
1. Figures rounded to nearest five.
2. Humanitarian protection (HP) and discretionary leave (DL) replaced exceptional leave to remain from 1 April 2003.

Distinct from discretionary leave and humanitarian protection policy, it is possible to grant someone limited leave to enter outside the rules. However, it is also possible to grant someone limited leave to enter the United Kingdom under the category of "leave outside the rules". There are two circumstances in which "leave outside the rules" will be considered in non-asylum and non-protection cases:

where someone qualifies under one of the immigration policy concessions; or

for reasons where there are particularly compelling circumstances.

Circumstances in which leave outside the rules is granted are rare and are only approved following ratification by a senior caseworker.

Figures for LOTR can only be obtained by the examination of individual case records at disproportionate cost.

Industrial Health and Safety: Coroners

Mr. Hollobone: To ask the Secretary of State for the Home Department pursuant to the answer of 19 June 2007, *Official Report*, columns 1713-14W, on industrial health and safety: coroners, what steps she has taken to ensure that health and safety regulations requiring employers to make a suitable and sufficient assessment of risks to health and safety to which employees are exposed while at work have been carried out by those responsible for coroners' officers. [149168]

Mr. McNulty *[holding answer 12 July 2007]*: The responsibility for health, safety and welfare policy for police officers and staff transferred from the Home Office to the National Policing Improvement Agency on 1 April 2007. Coroners are appointed and funded by the relevant local authority. Coroner's officers are police staff members employed by local police authorities. The health and safety of coroners and coroner's officers are the responsibility of the relevant local authority, police authority and chief constable. No central data are maintained.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when she expects to answer the letter to her predecessor of 16 May 2007 from the right hon. Member for Manchester, Gorton on Mr. M. Akhtar. [147548]

Jacqui Smith: I wrote to the right hon. Member on 4 July explaining the details of this case.

Police: BNP

Judy Mallaber: To ask the Secretary of State for the Home Department if she will estimate the cost of policing the British National Party Red, White and Blue Festival in Sawley, Lancashire in each of the last four years. [149460]

Mr. McNulty: This is an operational matter for the chief officer and the Police Authority and the information is not held centrally.

Judy Mallaber: To ask the Secretary of State for the Home Department how many police officers and other police staff were involved in policing *(a)* during and *(b)* in preparation for the British National Party Red, White and Blue Festival in Sawley, Lancashire in each of the last four years. [149461]

Mr. McNulty: This information is not held centrally. The deployment of police personnel to specific duties is an operational matter for the chief constable of Lancashire constabulary.

Police: CCTV

Mr. Evans: To ask the Secretary of State for the Home Department how many and what percentage of custody offices in police stations are equipped with fully functioning audio and visual CCTV in *(a)* Lancashire and *(b)* England and Wales. [150010]

Mr. McNulty: This is a matter for the chief constable of the Lancashire constabulary.

Police: Complaints

Mr. Amess: To ask the Secretary of State for the Home Department what the cost was to police forces in (a) Essex, *(b)* Southend and *(c)* England and Wales of defending (i) complaints and (ii) litigation taken against the police in each of the last three years for which figures are available. [149336]

Mr. McNulty: The Home Office does not hold this information; these are matters for the forces concerned.

Mr. Amess: To ask the Secretary of State for the Home Department what recent discussions she has had with the Independent Police Complaints Commission (IPCC) about its target for conclusion of a complaint against the police from the date of registration of the complaint and the average time taken per case since the IPCC was set up; and if she will make a statement. [149337]

Mr. McNulty: This is a matter for the Independent Police Complaints Commission (IPCC) which is responsible for the management of the police complaints system.

Mr. Amess: To ask the Secretary of State for the Home Department what information is collected by her Department about complaints made against police officers; what changes are planned; what recent representations she has received about complaints against police officers; and if she will make a statement. [149338]

Mr. McNulty: The Home Office does not collect this information, which is a matter for the Independent Police Complaints Commission. Any representations about complaints against police officers are also matters for the Independent Police Complaints Commission, to which complainants are referred.

Mr. Amess: To ask the Secretary of State for the Home Department what steps are taken by *(a)* her Department and *(b)* police forces in England and Wales to learn any necessary lessons from cases investigated by the Independent Police Complaints Commission; and if she will make a statement. [149359]

Mr. McNulty: This is a matter for the Independent Police Complaints Commission (IPCC) which is responsible for the management of the police complaints system.

Mr. Amess: To ask the Secretary of State for the Home Department how much was spent by *(a)* Essex and *(b)* Southend police on (i) own force investigations, (ii) supervised investigations, (iii) managed investigations and (iv) independent investigations in each of the last three years for which information is available. [149360]

Mr. McNulty: The Home Office does not hold this information; these are matters for Essex police.

Police: Finance

Mr. Drew: To ask the Secretary of State for the Home Department what proportion of funding of additional year-on-year posts of *(a)* police officers and *(b)* police community support officers in Gloucestershire was provided by (i) Central Government and (ii) local authorities in each year since 1997. [149368]

Mr. McNulty: The recruitment of police officers and police community support officers is a matter for the chief constable, in consultation with the police authority, in the light of their budget provisions.

Police: Manpower

Mr. Amess: To ask the Secretary of State for the Home Department what the ratio of regular police officers to residents is in *(a)* Southend, *(b)* each borough in Essex and *(c)* England and Wales; and what each figure was in (i) 1997, (ii) 2001 and (iii) 2005. [149357]

Mr. McNulty: Information is available from 2003 in terms of numbers of officers per 100,000 population for each Basic Command Unit in Essex, including Southend, and is contained in the following table.

Total police officers (full-time equivalent) per 100,000 population, as at 31 March

	1997	2001	2003	2005	2006
Essex Basic Command Units[1]					
Basildon	[2]—	[2]—	150	158	160
Braintree	[2]—	[2]—	111	113	117
Chelmsford	[2]—	[2]—	94	103	109
Colchester	[2]—	[2]—	124	126	134
Harlow[3]	[2]—	[2]—	133	137	149
Rayleigh	[2]—	[2]—	89	98	102
Southend	[2]—	[2]—	170	179	192
Tendring	[2]—	[2]—	122	129	127
Thurrock	[2]—	[2]—	161	175	183
England and Wales[4]	241	234	254	267	267

[1] Excluding Stansted airport and central services Basic Command Units, where comparisons with residential population are inappropriate.
[2] Figures not collected centrally prior to 2003.
[3] Re-named Essex Western in 2006, without change in boundary.
[4] Officers in all 43 police forces, excluding secondments to National Crime Squad, National Criminal Intelligence Service and other central services. Figures prior to 2003 exclude officers on career breaks and maternity leave.

Police: Motorways

Mr. Greg Knight: To ask the Secretary of State for the Home Department what advice is issued by her Department on the circumstances and manner in which it is safe to set up a rolling police road block on motorways; and if she will make a statement. [149649]

Mr. Coaker: None; this is an operational matter for the police who will decide how best to intervene in particular circumstances. The Association of Chief Police Officers' Guidance on Policing Motorways is available on the ACPO website at

www.acpo.police.uk.

Speed Limits: Cameras

Mr. Amess: To ask the Secretary of State for the Home Department how many forward facing speed cameras were deployed in *(a)* Southend and *(b)* Essex police force area in the last year for which figures are available. [149351]

Mr. Coaker: This information is not collected centrally. I understand however, from Essex police, that they currently possess 10 front facing cameras. Further information as to their deployment is not available.

Mr. Amess: To ask the Secretary of State for the Home Department what assessment her Department has made of the effectiveness of forward facing speed cameras in *(a)* reducing accidents and *(b)* reducing the number of persons attempting to pervert the course of justice; and if she will make a statement. [149353]

Mr. Coaker: The Department for Transport commissioned an independent four-year evaluation of the National Safety Camera programme. This included, in its assessment, the success of cameras within the programme in reducing the number of accidents and casualties. The report, a copy of which is in the Library, did not distinguish between front and rear facing cameras. Photographs from front facing cameras may make it easier to identify the driver of a vehicle at the time it was detected committing a speeding offence, thereby making it possible to offer a fixed penalty to or bring a prosecution against that person. Guidance on the use of speed camera photographs is issued by the Association of Chief Police Officers.

Stop and Search: Arrests

Mr. Clegg: To ask the Secretary of State for the Home Department if she will commission a study of the final outcomes of arrests that follow stop and searches under the Terrorism Act 2000. [147764]

Jacqui Smith: All counter terrorism legislation, including section 44 of the Terrorism Act 2000 (stop and search), is kept under constant review. Reviewing the effectiveness of section 44 stop and search, its impact on communities and its role as a deterrent is an important part of this work.

Lord Carlile, the independent reviewer of counter-terrorism legislation, noted that work continues to improve the usage of section 44 powers in his report into the operation of the Terrorism Act 2000 in 2006. He also comments on the usage and effectiveness of stop and search and we take his recommendations very seriously.

National guidance for the police on the use of stop and search was published in July 2006. One of the key aims of the guidance is to set out a framework for the use of section 44 powers to ensure that they are used appropriately by officers on the ground. The guidance clearly states that the powers should only be used for searching for articles which could be used in connection with terrorism and that officers should have regard to the full range of other stop and search powers which may be more appropriate.

Terrorism: Detainees

Mr. Jenkin: To ask the Secretary of State for the Home Department how many terrorist suspects have been detained for more than 14 days since the implementation of the relevant legislation; and if she will make a statement. [147889]

Mr. McNulty: The maximum period of detention pre-charge was extended to 28 days with effect from 25 July 2006. Statistics compiled from police records show that from 25 July 2006 to 06 July 2007, 10 individuals were held for over 14 days in pre-charge detention. The following table provides a breakdown of this information:

Terrorism Act pre-charge detention statistics

Period of detention	*No of persons held*	*Charged*	*Released w/o charge*	*Other result*
14-15 days	1	1	—	—
15-16 days	—	—	—	—

Terrorism Act pre-charge detention statistics

Period of detention	*No of persons held*	*Charged*	*Released w/o charge*	*Other result*
16-17 days	—	—	—	—
17- 8 days	—	—	—	—
18-19 days	—	—	—	—
19-20 days	3	3	—	—
20-21 days	—	—	—	—
21-22 days	—	—	—	—
22-23 days	—	—	—	—
23-24 days	—	—	—	—
24-25 days	—	—	—	—
25-26 days	—	—	—	—
26-27 days	—	—	—	—
27-28 days	6	3	3	—

Traffic Officers: Essex

Mr. Amess: To ask the Secretary of State for the Home Department how many police officers were employed on speed enforcement duties in *(a)* Southend and *(b)* Essex police in each of the last three years. [149350]

Mr. McNulty: This information is not collected centrally.

Yarl's Wood Detention Centre

Mr. Hancock: To ask the Secretary of State for the Home Department how many representations she has received from *(a)* the Black Women's Rape Action Project and *(b)* Legal Action for Women on (i) conditions inside Yarl's Wood Immigration Removal Centre and (ii) the treatment of detainees, with particular reference to their treatment on route to airports; and if she will make a statement. [148928]

Mr. Byrne: We have received three letters directly from Black Women's Rape Action Project (BWRAP) and one jointly from BWRAP and Legal Action for Women (LAW). We have also received a number of letters via Members of Parliament from BWRAP and jointly from BWRAP and LAW. All the letters refer to the conditions inside Yarl's Wood IRC and the treatment of detainees both within the centre and under escort.

PRIME MINISTER

Delivery Unit

Mr. Heald: To ask the Prime Minister if he will make a statement on the future of the Prime Minister's Delivery Unit and Strategy Unit within the Cabinet Office. [146875]

Edward Miliband: I have been asked to reply.

The Prime Minister's Delivery Unit will report jointly to the Prime Minister and to the Chancellor and will be based in the Treasury. The Strategy Unit will continue to be based in the Cabinet Office and will report to the Prime Minister through the Minister for the Cabinet Office.

TREASURY

Cornwall

Matthew Taylor: To ask the Chancellor of the Exchequer what the gross value added of Cornwall was in each year since 1979. [149361]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 16 July 2007:

The National Statistician has been asked to reply to your recent Parliamentary Question about Gross Value Added (GVA) for Cornwall in each year since 1979. (149361)

Regional Gross Value Added[1] (GVA) data are produced using the official statistical geographies known as NUTS (Nomenclature of Units for Territorial Statistics). GVA data exist for the NUTS2 region of Cornwall and the Isles of Scilly for the time period 1995-2004. These data are shown in table A. Gross Domestic Product[2] (GDP) data for Cornwall and Isles and Scilly were produced for the years 1993 and 1994. These data are shown in table B. Prior to this biannual GDP data exist for the county region of Cornwall. These data are shown in table C.

The data in tables A, B and C were calculated using different methodologies and cannot be used for a consistent time series. These data are at current prices, meaning that they are not adjusted for changes in prices over time.

[1] Gross Value Added (GVA) is Gross Domestic Product (GDP) less taxes (plus subsidies) on products.

[2] Gross Domestic Product data in table B are based on the National Accounts Blue Book 2000 and table C are based on the National Accounts Blue Book 1997 and are calculated on a different basis from the current data. Therefore they cannot be used to calculate a consistent time series.

Table A: gross value added for Cornwall and the Isles of Scilly

	£ million
1995	3,207
1996	3,421
1997	3,591
1998	3,777
1999	3,993
2000	4,266
2001	4,625
2002	4,987
2003	5,381
2004	5,741

Table B: gross domestic product for Cornwall and Isles of Scilly

	£ million
1993	3,006
1994	3,107

Table C: gross domestic product for Cornwall

	£ million
1979	926
1981	1,207
1984	1,547
1987	2,105
1989	2,689
1991	2,886

Delivery Unit

Mr. Hoban: To ask the Chancellor of the Exchequer (1) whether the Prime Minister's Delivery Unit has conducted a review of financial management in the NHS; [148903]

(2) pursuant to the answer of 27 June 2007, *Official Report*, column 747W, on Delivery Unit, if he will place in the Library a copy of the guidance on conducting joint reviews for use in training staff; [148939]

(3) what the subject was of all joint reviews carried out by the Prime Minister's Delivery Unit in each financial year since 2001-02. [148978]

Andy Burnham: PMDU has not conducted a review of financial management in the NHS, though it has worked with the Treasury and the Department of Health on a joint review of balancing DH funding and expenditure.

I will ensure a copy of the PMDU's guidance on conducting joint reviews is placed in the Library.

Since its inception in 2001, PMDU has carried out the following delivery related joint reviews with Departments:

Departments: Disciplinary Proceedings

David Simpson: To ask the Chancellor of the Exchequer how many people in his Department have been *(a)* disciplined and *(b)* dismissed for (i) inappropriate use of the internet while at work and (ii) using work telephones to access premium rate telephone numbers in the last 12 months. [149181]

Angela Eagle: The number of people who have been *(a)* disciplined and *(b)* dismissed for (i) inappropriate use of the internet while at work and (ii) using work telephones to access premium rate telephone numbers in the last 12 months is nil.

Departments: Freedom of Information

Mr. Hoban: To ask the Chancellor of the Exchequer if he will list the requests made to his Department under the *(a)* Freedom of Information Act (FOI) 2000 and *(b)* Environmental Information Regulations in the last six months; and what the (i) FOI case reference number, (ii) request summary, (iii) request outcome and (iv) where appropriate, reason for exemption was in each case. [148869]

Angela Eagle: Information relating to Freedom of Information and Environmental Information requests is published on a quarterly basis by the Ministry of Justice. Information for January to March 2007 was published on 25 June 2007, *Official Report*, column 10WS. Copies of the document are in the Libraries of the House. Information for April to June 2007 is due to be published in the autumn. The Treasury website has a section dedicated to FOI releases.

Departments: Legislation

Mr. Clegg: To ask the Chancellor of the Exchequer what criminal offences have been introduced by his Department in primary legislation since October 2006. [149694]

Angela Eagle: No criminal offences have been included in primary legislation receiving Royal Assent between October 2006 and 11 July 2007.

Departments: Public Transport

Mr. Jenkins: To ask the Chancellor of the Exchequer what incentives he has considered to encourage staff in his Department to use public transport. [148804]

Angela Eagle: I refer the hon. Gentleman to the answer I gave him on 4 July 2007, *Official Report*, column 1067W.

Departments: Racial Harassment

David Simpson: To ask the Chancellor of the Exchequer how many complaints of racial abuse relating to staff for which his Department is responsible have been *(a)* investigated and *(b)* upheld in the last 12 months. [149241]

Angela Eagle: The procedures for investigating complaints of racial abuse have been initiated fewer than five times in the last 12 months. Numbers are therefore not available on the grounds of confidentiality.

European Union Solidarity Fund

Mr. Lancaster: To ask the Chancellor of the Exchequer what applications the UK made to the European Union Solidarity Fund in each of the last five years. [150107]

Kitty Ussher: The UK has made a single application to the European Union Solidarity Fund in the past five years. The application was submitted in 2006 following the Buncefield fuel depot explosion. However, the total damage did not meet the strict criteria for mobilising the fund.

Finance: Iraq

Mr. Hoban: To ask the Chancellor of the Exchequer (1) what mechanisms were put in place in his Department prior to March 2003 to estimate the likely cost of military operations in Iraq; [148895]

(2) what assessment his Department has made of the value-for-money of expenditure on *(a)* military operations and *(b)* reconstruction in Iraq; [148896]

(3) how much was allocated in the 2004 Spending Review to be spent on reconstruction in Iraq, broken down by *(a)* the Department to which it was allocated and *(b)* (i) capital and (ii) resource spending; [148897]

(4) what procedures his Department has in place for assessing the amount to place in the Special Reserve each year to cover the cost of operations in Iraq; [148898]

(5) what estimate his Department made before the 2003 Budget of the cost of the *(a)* war and *(b)* reconstruction in Iraq in each of the subsequent five financial years. [148899]

Andy Burnham: By their nature the total cost of military operations are difficult to estimate from the outset. Pre-Budget report 2002 set aside £1 billion for the cost of operations in Iraq. On the basis of MOD forecasts this was increased to £3 billion at Budget 2003 as a prudent contingency.

The nature of operations, whether in Iraq or elsewhere, means that they cannot be time-limited from the outset. As a result, HM Treasury maintains a rolling annual estimate of the cost of operations and reviews the costs of and provision for military operations at the time of the pre-Budget report and the Budget. Military operations are routinely evaluated in order to measure progress and capture lessons learnt.

By Budget 2003 a total of £240 million had been committed for humanitarian assistance in Iraq, and in addition, Budget 2003 announced a further $100 million to back up the UN and the work of reconstruction and international development. At the Madrid Conference in October 2003, the UK pledged $900 million (£544 million) for reconstruction in Iraq over the period 2003-04 to 2005-06. The 2004 Spending Review allocated funds to enable this commitment to be fulfilled. At the launch of the International Compact for Iraq in Sharm El Sheikh on 3 May 2007, the Foreign Secretary announced that the UK will spend at least £200 million over and above the Madrid pledge, to be disbursed over the next three years.

The Iraq reconstruction programme is subject to the standard internal DFID guidelines for the monitoring and evaluation of all programmes and projects. DFID has reporting arrangements in place for each of the projects it runs in Iraq, which means that funding is tracked and monitored throughout the process.

Effective performance management and lesson learning is key to how DFID assesses its progress against its value for money target.

Identity Cards: Freedom of Information

Mr. Clegg: To ask the Chancellor of the Exchequer what the *(a)* legal and *(b)* other costs have been of dealing with Freedom of Information requests for the publication of the Gateway review on the identity cards scheme. [149771]

Angela Eagle: OGC has received 14 Freedom of Information requests specifically for OGC Gateway™ information on the Home Office's national identity scheme programme. Two of these are being appealed at the High court, and one is being appealed at the Information Tribunal.

The total legal costs incurred in handling these requests so far has been approximately £60,000.

Staff time or other overheads in relation to FOI requests are not recorded by OGC.

Life Expectancy

Mr. Laurence Robertson: To ask the Chancellor of the Exchequer what the life expectancy was of *(a)* men and *(b)* women in each primary care trust area of England for the most recent year for which figures are available. [149513]

Angela Eagle: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 16 July 2007:

As National Statistician, I have been asked to reply to your recent question asking what the life expectancy was of (a) men and (b) women in each primary care trust area of England for the most recent year for which figures are available. (149513)

The most recent available figures for period life expectancy at birth in primary care organisations[1] (PCOs) are for 2001-03, and were provided in the Answer to Question 84021 which can be found in Hansard of 12th July 2006, col. 1840W. A copy of the figures provided is available in the House of Commons Library.

Please note that these figures refer to the names and boundaries of PCOs as they existed before the NHS organisational changes of October 2006. ONS expects to publish life expectancy figures for PCOs for years after 2001-03 based on the current (2006) boundaries.

[1]Primary care organisations consist of Primary Care Trusts and Care Trusts.

Mr. Laurence Robertson: To ask the Chancellor of the Exchequer what the life expectancy of *(a)* men and *(b)* women in England was in each of the last 10 years for which figures are available. [149514]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 16 July 2007:

The National Statistician has been asked to reply to your question regarding what the life expectancy of (a) men and (b) women in England was in each of the last 10 years for which figures are available. I am replying in her absence. (149514)

The table below shows life expectancies at birth for males and females in England for the years 1994-1996 to 2003-2005 inclusive. These are 'period' expectation of life figures, which are calculated from the mortality rates actually experienced in the given years. They do not allow for possible changes in mortality in future years.

Period expectation of life at birth

		Years
	Males	*Females*
1994-96	74.3	79.5
1995-97	74.5	79.6
1996-98	74.8	79.8
1997-99	75.0	79.9
1998-2000	75.3	80.1
1999-2001	75.7	80.4
2000-02	76.0	80.6
2001-03	76.2	80.7
2002-04	76.6	80.9
2003-05	76.9	81.2

'Cohort' life expectancy figures, which do allow for projected changes in mortality at later years, are available from the Government Actuary's Department's website at:

http://www.gad.gov.uk/Life_Tables/Period_and_cohort_eol.htm

Mr. Byers: To ask the Chancellor of the Exchequer what the life expectancy is of *(a)* males and *(b)* females in each of the 25 (i) most and (ii) least deprived electoral wards; and how many, on average, of these years will be spent with a disability. [149945]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 16 July 2007:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what the life expectancy is of (a) males and (b) females in each of the 25 (i) most deprived electoral wards and (ii) least deprived wards; and how many on average of these years will be spent with a disability. (149945)

The attached table provides the period life expectancy at birth in the 25 (i) most deprived and (ii) least deprived wards in England and Wales, as a five-year average for 1999-2003 (the only period available). The figures are presented for (a) males, (b) females and (c) all persons, as some wards are too small for the calculation of life expectancies for males and females separately.

These figures are experimental statistics—that is, statistics which are in a testing or consultation phase and are not fully developed—and should therefore be treated with caution. Because life expectancies for wards can be based on very small numbers of deaths and small populations, they are subject to large variations even when averaged over five years, and extreme results may be due only to chance.

Based on these life expectancy figures, ONS will release experimental statistics on disability-free life expectancy at birth for wards on 23rd August 2007. These will provide a breakdown of the period life expectancy estimate for each ward into years spent without a disability (or disability-free) and years spent with a disability.

A recently published analysis showed that on average, males could expect to spend 18 out of 71 years (25 per cent.) of life with a disability in the most deprived twentieth of all wards in England and Wales grouped together, and 11 out of 79 years (14 per cent.) in the least deprived twentieth. Females could expect to spend 21 out of 78 years of life (27 per cent.) with a disability in the most deprived twentieth of wards, and 13 out of 82 years (16 per cent.) in the least deprived twentieth.[1]

[1] Rasulo D, Bajekal M, Yar M (2007). Inequalities in health expectancies in England and Wales—small area analysis from the 2001 Census. Health Statistics Quarterly 34, 35-45

Table 1. Period life expectancy at birth by sex[1,2] for the 25 most deprived and 25 least deprived[3] wards in England and Wales, 1999-2003[4]

Rank order	*Local authority*	*Ward*	*Years of life*			
			Males	*Females*	*Persons*	*Communal establishment indicator[5]*
	Most deprived

25	Three Rivers	Moor Park and Eastbury	80	80	80	5

[1] Period life expectancy at birth is an estimate of the average number of years a newborn baby would survive if he or she experienced the area's age-specific mortality rates for that time period throughout his or her life. The figure reflects mortality among those living in the area in each time period, rather than mortality among those born in each area. It is not therefore the number of years a baby born in the area in each time period could actually expect to live, both because the death rates of the area are likely to change in the future and because many of those born in the area will live elsewhere for at least some part of their lives.

[2] Wards for which life expectancy for one or both sexes could not be calculated due to small numbers are marked by '—'. Life expectancy for all persons combined is given for all wards.

[3] Deprivation was measured using the Carstairs deprivation score, which reflects levels of household overcrowding, male unemployment, low social class and car ownership.

[4] Five year averages, based on deaths registered in each year, and experimental ward population estimates based on the 2001 Census. The ward names and boundaries used are 2001 Census Standard Table wards.

[5] The presence of medical and care communal establishments; such as nursing homes and hospices, can artificially depress the average life expectancy of the ward in which they are located. To aid interpretation of the figures, this indicator shows the proportion of the population of each ward, aged 65 and over, who were resident in such establishments in 2001. For this purpose, all wards in England and Wales (not only the wards in these boroughs) were divided into six groups which are numbered from 0 to five:

'0' means that none of the over-65 population lived in medical and care communal establishments;

'1' means that the proportion of the over-65 population in such establishments was in the lowest fifth of all wards;

'5' means that the proportion of the over-65 population in such establishments was in the highest fifth of all wards.

Members: Correspondence

Sir Gerald Kaufman: To ask the Chancellor of the Exchequer if he will reply to the letters dated 23 April and 23 May from the right hon. Member for Manchester, Gorton to the Chairman of HM Revenue and Customs on Mr. Tallat Ayub. [149155]

Jane Kennedy: HMRC replied to my right hon. Friend on 10 July 2007.

Ministerial Policy Advisers: Council of Economic Advisers

Mr. Hoban: To ask the Chancellor of the Exchequer what plans he has to continue the arrangements for special advisers to work on a Council of Economic Advisers. [148923]

Angela Eagle: Policy experts will continue to be employed on the Council of Economic Advisers on special adviser terms.

National Income

Jim Cousins: To ask the Chancellor of the Exchequer what *(a)* gross domestic product and *(b)* gross value added per head was in each (i) region and (ii) county of the UK in each year since 1998. [149490]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 16 July 2007:

The National Statistician has been asked to reply to your recent question about gross value added (GVA) and gross domestic product (GDP) per head in each region and county in the UK in each year since 1998.1 am replying in her absence. (149490)

The Office for National Statistics publishes regional GVA[1] using official statistical geographies known as Nomenclature of Units for Territorial Statistics (NUTS)[2]. NUTS1 includes Government Office Regions, Wales, Scotland and Northern Ireland. NUTS2 and NUTS3 include county level data but do not fully correspond to the counties of the United Kingdom. Regional GVA estimates are expressed at current basic prices and do not allow for changes in prices over time (inflation) or differences in regional price levels (purchasing power).

The full range of regional GVA estimates is available on the ONS website:

http/www.statistics.gov.uk/statbase/Product.asp?vlnk=14650

[1] Gross Value Added (GVA) is Gross Domestic Product (GDP) less taxes (plus subsidies) on products.

[2] The Nomenclature of Units for Territorial Statistics (NUTS) provides a single uniform breakdown for the production of regional statistics for the European Union. Regional GVA data are produced at three levels of NUTS in the UK. These are:

NUTS1: Government Office Regions and Scotland, Wales and Northern Ireland.

NUTS2: 37 areas—sometimes referred to as sub-regions.

NUTS3: 133 areas—generally groups of unitary authorities or districts, also known as local areas.

National Insurance

Chris Grayling: To ask the Chancellor of the Exchequer how many national insurance cards are in circulation in the United Kingdom. [149970]

Jane Kennedy: It is not possible to state how many national insurance cards are in circulation. Once a national insurance number (NINO) has been allocated to an individual, HMRC IT systems issue them with a plastic NINO card to act as a permanent reminder of the number. The card clearly states that it is not proof of identity. The card itself is purely a notification card and is not considered to be a secure document and as such the card is not numbered or controlled.

Remittances

Anne Main: To ask the Chancellor of the Exchequer what assessment he has made of the effectiveness of his Department's mechanisms for the monitoring of agencies specialising in international money transfers; and if he will make a statement. [149162]

Kitty Ussher: The Treasury conducted an assessment of the supervision of money service businesses by HMRC for anti-money laundering purposes in autumn 2006. Its conclusions are currently being implemented as part of the UK's criminal and terrorist finance strategy, launched in February this year.

The Government have also committed, following agreement reached on the EU Payment Services Directive (PSD) in April 2007, to bring money transfer companies into regulation from November 2009. The Treasury will launch a public consultation on the implementation of the PSD in autumn 2007.

Revenue and Customs: Personal Records

Andrew George: To ask the Chancellor of the Exchequer (1) with which *(a)* Government Departments and *(b)* local authorities HM Revenue and Customs shares (i) individual tax liability records and (ii) capital gains tax liability records; [148872]

(2) what assessment he has made of the merits of *(a)* cross checking and *(b)* sharing (i) all tax liability records and (ii) capital gains tax liability records with those (A) Government Departments and (B) local authorities for which such data would assist them with the efficient discharge of their responsibilities; [148873]

(3) what rules govern the exchange and sharing of tax data and capital gains tax records with *(a)* officials in other Government Departments and *(b)* officials in local authorities. [148874]

Jane Kennedy: HMRC may only disclose information in accordance with the provisions of section 18 of the Commissioners for Revenue and Customs Act 2005.

Statutory gateways provide HMRC with the lawful authority to share its information with others. Gateways detail with whom the information may be shared and for what purpose. All disclosures must be fully compliant with the provisions of the Data Protection and Human Rights Acts.

These gateways permit HMRC to disclose relevant, necessary and appropriate information in limited and defined circumstances to enable them to efficiently discharge their responsibilities. A list of the most commonly used gateways can be accessed via the following link:

http://www.hmrc.gov.uk/manuals/idgmanual/IDG60000.htm.

Taxation: Casinos

Mr. Pelling: To ask the Chancellor of the Exchequer (1) what assessment he has made of the likely effect of the increase in casino taxation on existing small and medium sized casinos; [149992]

(2) what taxation rates and duties are paid by *(a)* bookmakers, *(b)* casino operators, *(c)* bingo operators and *(d)* online gambling operators in the UK. [149993]

Angela Eagle: The rates of taxation for betting, gaming and lotteries are published in the HM Revenue and Customs Betting and Gaming Factsheet, available at http://www.uktradeinfo.com/index.cfm?task=factbetting.

The Government take all relevant factors into consideration when establishing and maintaining fair regimes for the gambling taxes.

Unemployment: Young People

Mr. Boris Johnson: To ask the Chancellor of the Exchequer how many and what percentage of 19 to 21-year-olds were *(a)* economically inactive and not in full-time education and *(b)* unemployed in each year since 1997, broken down by local education authority. [149097]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 16 July 2007:

The National Statistician has been asked to reply to your Parliamentary Question about persons aged 19 to 21 who are either economically inactive and not in full-time education or unemployed. I am replying in her absence. (149097)

The Office for National Statistics compiles statistics of economic inactivity and unemployment for local areas from the annual local area Labour Force Survey (LFS) and the Annual Population Survey (APS) following International Labour Organisation definitions.

Table 1, attached, shows the numbers and percentages of persons aged 19 to 21 who are economically inactive and not in full-time education, resident in each local education authority in Great Britain, for the 12 months ending in February from 1999 to 2004 from the annual local area LFS and for the 12 months ending in March 2005 to 2006. Data for the 12 month periods ending in February 1997, February 1998 and February 2000 are not readily available for local education authorities.

Table 2, attached, shows the numbers and percentages of persons aged 19 to 21 who are unemployed, resident in each local education authority in Great Britain, for the 12 months ending in February from 1999 to 2004 from the annual local area LFS and for the 12 months ending in March 2005 to 2006. Data for the 12 month periods ending in February 1997, February 1998 and February 2000 are not readily available for local education authorities.

Note that the percentages provided, as requested, are proportions of the 19 to 21 population. This is not the official unemployment rate which is defined as the number of unemployed expressed as the percentage of the economically active population.

As these estimates are for a subset of the population in small geographical areas, they are based on small sample sizes, and are therefore subject to large margins of uncertainty. In this case, the sample sizes are not sufficient to give an accurate estimate of even the direction of the change over time.

As the information provided is extensive, a copy of the tables has been placed in the House of Commons Library.

Welfare Tax Credits

Mr. Hoban: To ask the Chancellor of the Exchequer how many *(a)* individuals and *(b)* households were in receipt of either child tax credit or working tax credit in each year for which figures are available. [148909]

Jane Kennedy: The average number of households benefiting from either child or working tax credits in each year, or receiving the equivalent support through out-of-work benefits, is shown in 'Child and Working Tax Credit Statistics: Finalised annual awards' for 2003-04, 2004-05 and 2005-06. These are available on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-quarterly-stats.htm

These publications also show the number of couple and single adult households benefiting from tax credits, as well as the average number of children in these households.

Welfare Tax Credits: IT

Mr. Wallace: To ask the Chancellor of the Exchequer what the technical issues are which are affecting tax credit IT systems entitlement calculations. [148690]

Jane Kennedy: I refer the hon. Member to paragraph 2.39 of the Comptroller and Auditor General's Standard Report, which is available on the NAO website at:

http://www.nao.org.uk/publications/nao_reports/06-07/0607626.pdf

COMMUNITIES AND LOCAL GOVERNMENT

Departments: Pensions

David Simpson: To ask the Secretary of State for Communities and Local Government how many and what percentage of staff in her Department are making additional voluntary contributions to their pensions; and what steps she has taken in the last 12 months to encourage more people to make such contributions. [147531]

Mr. Iain Wright: Forty-two members of staff in Communities and Local Government (1.9 per cent. of the total number of staff employed by the Department) currently make additional voluntary pension contributions through deductions from their pay. Pension scheme members receive an annual benefit statement showing the pension built up to date, and also a projection of pension on retirement if the member continues in service to scheme pension age. The benefit statement provides details of the Civil Service Pensions website where staff can obtain further information, including on options for making additional voluntary contributions to boost their pension.

Faith Communities Capacity Building Fund

Mr. Leech: To ask the Secretary of State for Communities and Local Government (1) whether her Department has had discussions with the Community Development Foundation on the appropriateness of religious groups receiving grants from the Faith Communities Capacity Building Fund where allegations of cultish behaviour have been made against them; [147208]

(2) what representations her Department has received on cultish behaviour in the *(a)* Friends of the Western Buddhist Order, *(b)* New Kudampa Tradition and *(c)* Soka Gakkai International. [147209]

Mr. Dhanda: The Department has received correspondence from a member of the public regarding the alleged cultish behaviour of the Friends of the Western Buddhist Order, New Kadarnpa Tradition and Soka Gakkai International. No other representation has been received by the Department. Communities and Local Government has commissioned the Community Development Foundation to administer the Faith Communities Capacity Building Fund. Officials made the Community Development Foundation aware of the existence of the allegations. The Department considered whether these allegations had any relevance when set against the Fund's stringent criteria and guidelines. The decision was made that the criteria were satisfied and the award of funding was made.

Fire Services

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government which fire services provide no whole-time fire cover at night across their entire service area. [148983]

Mr. Dhanda *[holding answer 11 July 2007]:* The information requested is not held centrally.

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government what assessment she has made of levels of night-time fire cover across the country; and if she will make a statement. [148984]

Mr. Dhanda *[holding answer 11 July 2007]:* Fire and Rescue Authorities (FRAs) are required by the Fire and Rescue Service National Framework to have in place and maintain an Integrated Risk Management Plan (IRMP) which reflects local need and sets out plans to tackle effectively both existing and potential risks to communities. The IRMP enables the Authority to tailor cover, to fire and other incidents, to local circumstances by evaluating where risk is greatest and allocating resources accordingly.

It is not the role of Ministers to intervene in the operational proposals of an authority's IRMP; that is for elected members of the authority concerned to determine following full consultation with the local community. The local authority is best placed to act on the professional advice of principal officers and to balance the competing local demands on available resources for the benefits of the communities they serve.

Floods: EU Grants and Loans

Mr. Lancaster: To ask the Secretary of State for Communities and Local Government whether an application has been made to the European Union Solidarity Fund as a result of the recent flooding across the UK. [150088]

John Healey: We are keen to access appropriate sources of funding to help deal with the flooding that has so badly affected some of the English regions. We are urgently investigating whether the recent flooding would meet the criteria set by the European Commission for applying for support to the European Union Solidarity Fund.

Floods: Milton Keynes

Mr. Lancaster: To ask the Secretary of State for Communities and Local Government whether *(a)* Milton Keynes Council and *(b)* Stoke Goldington Parish Council will be eligible following the severe flooding in Stoke Goldington, Milton Keynes to apply for part of the £14 million emergency fund for flooded communities recently announced by the Prime Minister. [149169]

John Healey *[holding answer 12 July 2007]:* The £14 million package of aid announced by the Prime Minister comprises three elements.

Firstly, there is a £10 million Flood Recovery Grant Scheme administered by my Department to support local authorities in their work within communities affected by the flooding, and in particular to enable them to help those in greatest and most immediate need get back on their feet. This is funding for lower-tier local authorities, so Stoke Goldington Parish Council is not eligible.

I announced on 13 July a series of initial payments to local authorities under this scheme, based on the information available to me at the time about the number of households affected by flooding and on my judgment as how to best share the available funding to the best benefit of affected communities. Milton Keynes was considered for, but has not received, an initial payment. We will be making allocations in due course of the remaining funding, and are encouraging all affected local authorities to work closely with their Government Office on assessing the impact of the recent flooding. I will consider the case for payments to all eligible councils on the basis of the information I have at that time.

Secondly, there is £3 million from the Department for Transport to assist emergency capital works needed to restore the functionality of the highway network. This is for highways authorities, which means that Milton Keynes can apply but Stoke Goldington cannot. Applications will be considered on a case-by-case basis, depending on the nature and urgency of the repairs, and the availability of resources.

Finally, there is £1 million which can be drawn on as contingency reserve by the Department for Work and Pensions for use by Jobcentre Plus to support additional demand for Social Fund Community Care Grants. This is not funding for local authorities but for individuals, who should apply direct to Jobcentre Plus in the usual way.

Floods: Northern Region

Mrs. Gillan: To ask the Secretary of State for Communities and Local Government how many of the residential properties affected in the recent flooding in the north of England were built in the last 10 years. [149174]

Yvette Cooper: The information requested is not held centrally.

Homelessness: North East region

Bill Etherington: To ask the Secretary of State for Communities and Local Government what progress is being made towards tackling homelessness on Wearside; and if she will make a statement. [148529]

Mr. Iain Wright: Local authorities on Wearside have made good progress in tackling homelessness since 2003. Collectively they have already met the 2010 temporary accommodation reduction target and homeless acceptances have dropped by over 30 per cent. during that period.

Local authority	*Homelessness acceptances*	*Temporary accommodation*
Sunderland

Housing: Bournemouth

Mr. Ellwood: To ask the Secretary of State for Communities and Local Government what plans her Department has to increase targets for future house building in Bournemouth. [149981]

Mr. Dhanda: I refer the hon. Member to the answer given on 11 July 2007, *Official Report*, columns 1471-72W. The draft South West Regional Spatial Strategy, which recently completed its examination in public, states a range for 2006-26 of between 680 and 780 dwellings per annum for Bournemouth.

Future housing targets for Bournemouth will be set out in the Local Development Framework for the district, and will need to be in accordance with the Regional Spatial Strategy when finalised.

Housing: Essex

Andrew Rosindell: To ask the Secretary of State for Communities and Local Government (1) how many vulnerable households lived in non-decent homes in Essex in the latest period for which figures are available; [147371]

(2) how many vulnerable households in non-decent homes there are in Essex. [147961]

Mr. Iain Wright: Information on the number of vulnerable households living in non-decent homes in each local authority district is not available centrally. A

Decent Home: Definition and guidance for implementation (June 2006-Update) advises local authorities, as part of their strategic management of housing in their area, to carry out periodic surveys to, amongst other things, assess the number of vulnerable households living in non-decent homes who own or privately rent their accommodation. Individual local authorities are best placed to advise on their latest assessment. The guidance referred to above is available on the Communities and Local Government website at:

www.communities.gov.uk/index.asp?id=1152190

Housing: Low Incomes

Adam Afriyie: To ask the Secretary of State for Communities and Local Government how many affordable homes were built in Windsor in each year since 1997. [148786]

Mr. Iain Wright *[holding answer 12 July 2007]:* The number of affordable homes provided through new build and acquisitions on behalf of Windsor and Maidenhead local authority are in the following table. These figures include 'social for rent' and 'low cost home ownership'.

	Number of affordable housing dwellings provided
1997-98	164
1998-99	184
1999-2000	270
2000-01	123
2001-02	117
2002-03	118
2003-04	87
2004-05	120
2005-06	69

Source:
Housing Corporation and returns from local authorities

Housing: Multiple Occupation

Mr. Jenkins: To ask the Secretary of State for Communities and Local Government what estimate she has made of the number of domestic residential properties in multiple occupation as a percentage of the total number of individual properties in each local authority area. [148887]

Mr. Iain Wright: A table detailing the latest estimates of the number of all houses in multiple occupation (HMOs) as a percentage of the total number of dwellings in each local authority area has been placed in the Library of the House. The data were provided by local authorities to the Department as part of their Annual Housing Strategy Statistical Appendix.

NORTHERN IRELAND

Abortion

Ann Winterton: To ask the Secretary of State for Northern Ireland if he will take steps to seek the views of the Northern Ireland Assembly before any legislation is brought forward at Westminster which would change the law relating to abortion in Northern Ireland. [148566]

Paul Goggins: The Government have no plans to amend the law on abortion in Northern Ireland. We believe the best forum for discussion of these questions is the Northern Ireland Assembly, once it has assumed responsibility for the criminal law.

Mr. Donaldson: To ask the Secretary of State for Northern Ireland what powers Parliament retains to legislate on abortion in Northern Ireland. [149805]

Paul Goggins: The legislation governing abortion in Northern Ireland falls within the field of criminal law and, as such, remains a reserved matter in Northern Ireland under the terms of paragraph 9(a) of Schedule 3 to the Northern Ireland Act 1998. This means that any legislation on it would fall to Parliament at Westminster to take forward, although, as with all reserved matters, under the terms of section 8(b) of the 1998 Act, the Northern Ireland Assembly may legislate on this matter with the consent of the Secretary of State.

Community Policing

Mr. McGrady: To ask the Secretary of State for Northern Ireland what progress has been made on community policing in Northern Ireland. [149418]

Paul Goggins: My Department continues to work closely with PSNI in relation to the development of community policing. In September 2006, PSNI set up a dedicated branch to develop its approach to policing with the community. A review of neighbourhood policing was also undertaken, drawing on best practice from other police services.

In his final report of 19 May 2007, the Oversight Commissioner for Police Reform indicated that five of the eight recommendations on policing with the community were complete and that substantial progress had been made on the remaining three.

On 18 June 2007 the chief constable and his senior staff approved the corporate framework for neighbourhood policing. The 25 recommendations contained therein will now begin to be implemented throughout all police districts. Workshops to inform officers about the 25 recommendations and the way ahead are currently being held within the eight police districts and will be completed by 27 July 2007.

A Corporate Implementation Team (whose role it will be to deliver the recommendations) has been selected. A project plan is being prepared; however all eight districts are already implementing those recommendations that can be implemented now.

Departments: Official Hospitality

David Simpson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 6 June 2007, *Official Report*, column 515W, on Departments: official hospitality, if he will provide a breakdown by main budget heading of his Department's *(a)* agencies and *(b)* NDPBs expenditure on official hospitality for each of the last three years. [146803]

Paul Goggins: The following table indicates how much the Northern Ireland Office's agencies and executive NDPBs spent on official hospitality for each of the last three years:

£

	(a) Hospitality spend—agencies	(b) Hospitality spend—executive NDPBs
2004-05	44,807	122,313
2005-06	41,191	141,088
2006-07	77,555	228,380

Departments: Racial Harassment

David Simpson: To ask the Secretary of State for Northern Ireland how many complaints of racial abuse relating to staff for which his Department is responsible have been *(a)* investigated and *(b)* upheld in the last 12 months. [149246]

Paul Goggins: During the last 12 months the NIO has not received any official complaints of racial abuse. All staff joining the NIO undergo mandatory equal opportunities awareness training as part of their induction, which includes guidance on appropriate behaviour in the workplace. A new diversity course, which concentrates on treating others with dignity, is due to be rolled out to the whole Department in the coming months.

Police: County Armagh

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland what recent discussions he has had with the Police Service of Northern Ireland on *(a)* policing and *(b)* the security situation in South Armagh; and if he will make a statement. [149524]

Paul Goggins: My Department has regular discussions with the PSNI on a variety of topics related to policing and security, including matters relating to South Armagh. For security reasons, it would not be appropriate to comment further on the exact nature of such discussions.

Prisoners Release

Mr. Donaldson: To ask the Secretary of State for Northern Ireland how much has been paid to prisoners who were released early from prison under the terms of the Belfast Agreement. [149807]

Paul Goggins: Each prisoner released under the terms of the Northern Ireland Sentence Act (1998) were given a discharge grant, maximum £103.81, in line with that given to all persons released from prison. There was no special provision for these prisoners.

Mr. Donaldson: To ask the Secretary of State for Northern Ireland how much has been paid to prisoners under the provisions for the resettlement of offenders since 1998. [149808]

Paul Goggins: Under the provisions for the resettlement of offenders, there was no special provision made for individual prisoners released under the terms of the Northern Ireland Sentence Act (1998). On their release these prisoners were given a discharge grant in line with that given to all persons released from prison. In addition, various Northern Ireland Departments and the Northern Ireland Office made funding available to ex-prisoner groups. This included Peace and Gap funding.

Proscribed Organisations

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland how many paramilitary-style assaults took place in Northern Ireland in each of the last 12 months for which figures are available, broken down by group deemed responsible; and if he will make a statement. [149522]

Paul Goggins: The information requested is shown in the following tables.

Casualties as result of paramilitary-style assaults

	Perceived attribution[1]		
	Loyalists	Republicans	Total
2006			
July	5	1	6
August	2	5	7
September	1	2	3

2007			
January	0	1	1
February	0	0	0
March	0	0	0
April	0	0	0
May	0	0	0
June	0	0	0

[1]Please note that the PSNI capture these incidents as Loyalists or Republicans, they are not broken down into specific groups. Attribution is as perceived by PSNI based on the information available and does not necessarily indicate the involvement of a paramilitary organisation.

Note:
Statistics are provisional and may be subject to minor amendment.

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland how many acts of criminality took place in Northern Ireland by paramilitary groups in each of the last 12 months for which figures are available, broken down by group deemed responsible; and if he will make a statement. [149523]

Paul Goggins: The information is not available in the format requested. However, since April 2004 the Independent Monitoring Commission has monitored

and reported on paramilitary-style crimes and involvement in organised crime. The Commission has presented 15 reports to date with detailed analysis of paramilitary activity.

In addition, the Police Service of Northern Ireland holds up-to-date and comprehensive statistical analysis on crime and security in Northern Ireland. The information can be accessed on PSNI's website at www.psni.police.uk.

WORK AND PENSIONS

Child Support Agency: Marketing

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions (1) how much was spent on *(a)* managing the Child Support Agency's (CSA) corporate identity in each year since 1997-98 and *(b)* branding of the CSA in each of the last two years; [133913]

(2) how much was spent by the Child Support Agency on *(a)* staff parties, *(b)* newspapers, magazines and periodicals, *(c)* stationery and *(d)* other promotional merchandise branded with the name of the Child Support Agency in each of the last five years; [133914]

(3) how much was spent by the Child Support Agency on branding in each year since 1997. [136014]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 16 July 2007:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions:

How much was spent on (a) managing the Child Support Agency's (CSA) corporate identity in each year since 1997-98 and (b) branding of the CSA in each of the last two years. [13393]; and

How much was spent by the Child Support Agency (CSA) on (a) staff parties (b) newspapers, magazines and periodicals (c) stationery and (d) other promotional merchandise branded with the name of the CSA in each of the last five years.[133914]; and

How much was spent by the Child Support Agency on branding in each year since 1997. [136014]

The Child Support Agency is an Executive Agency of the Department for Work and Pensions (and prior to 8th June 2001 formed part of the Department of Social Security). The Agency uses the Department's accounting system to record and report expenditure. While the accounting system does not have the functionality to report separately the discreet activities and day-to-day costs associated with either managing the Agency's corporate identity, or branding, and the information is therefore not available in the format you requested, we can identify external consultancy cost of approximately £60,000 on researching brand development incurred in September 2005.

In response to your other question:

Staff Parties—The Agency has incurred no expenditure on staff parties in any of the last five years.

Newspapers, magazines and periodicals—The Department for Work and Pensions accounting system does not enable us to provide an analysis of spending on these products. As such, the information is not available in the requested format.

Stationery—As the Department's accounting system combines spend on both printing and stationery, I am therefore unable to provide a breakdown of Stationery only. The total costs for printing and stationery are included in the table below.

Other promotional merchandise branded with the name of the Child Support Agency—The Agency spend on branded material is included in the table below. The Department's accounting system is unable to provide a separate breakdown of branded products (forms, leaflets etc) compared to non-branded items (routine stationery i.e. pens, paper etc).

The printing and stationery costs included in the table all cover posters, leaflets, letters, printing supplies, paper, pens etc. used by the Child Support Agency in a given year. The costs for printing and stationery over the last 5 years are as follows:

Financial year	*Printing and stationery (£ million)*
2002-03	2.2
2003-04	1.8
2004-05	1.8
2005-06	2.1
2006-07	2.2
Total	10.1

I hope you find this answer helpful.

Children: Poverty

Jim Cousins: To ask the Secretary of State for Work and Pensions pursuant to the answers of 25 June 2007, *Official Report*, columns 450W and 455W, to the hon. Member for Birkenhead, on children: poverty, if he will give the equivalent data for the north-east region in each case. [148208]

Mrs. McGuire: Specific information regarding low income for the United Kingdom is available in "Households Below Average Income 1994-95 to 2005-06 (Revised)".

Figures on the 30 per cent. of median income threshold and any lower thresholds, and on the number of children removed from relative poverty due to payment of child support in the north-east, are not statistically robust as the sample sizes are too small.

The available information has been placed in the Library.

Departments: Departmental Records

Harry Cohen: To ask the Secretary of State for Work and Pensions how many files *(a)* Capita and *(b)* other private contractors are holding for his Department and its agency; what the cost is of this service; and if he will make a statement. [147189]

Mrs. McGuire: The number of files Capita is holding for the Department for Work and Pensions and its agencies at July 2007 is approximately 52.7 million. No files are held by other private contractors.

The record storage contract with the Department was competitively let to Capita in June 2004. Capita is the only approved file store service provider to the Department and its agencies. It is now the principal method of storing benefit claims, once discharged from the processing office, and other paper records and registered files. The contract with Capita is until June 2010 with an option to extend up to June 2014. The current annual cost of this service is about £15.5 million. Since 2004 the contract has realised value for money savings, both in service efficiencies and reduced estates costs, in the region of £16.5 million.

Departments: Disciplinary Proceedings

David Simpson: To ask the Secretary of State for Work and Pensions how many people in his Department have been *(a)* disciplined and *(b)* dismissed for (i) inappropriate use of the internet while at work and (ii) using work telephones to access premium rate telephone numbers in the last 12 months. [149179]

Mrs. McGuire: The information on the number of people disciplined and dismissed for inappropriate use of the internet for the period January 2006 to December 2006 is shown in the following table. We are in the process of collating information for 2007.

January 2006 to December 2006

	Number
Dismissed	8
Disciplined	53

No information is held on the number of disciplinary actions or dismissals for using work telephones to access premium rate numbers.

Departments: Early Retirement

Mr. Jenkins: To ask the Secretary of State for Work and Pensions how many of his staff took early retirement in the last five years; at what cost; what grades of staff took early retirement; and what percentage of each grade took early retirement. [148808]

Mrs. McGuire: The number of staff from the Department for Work and Pensions who took early retirement and early severance, unconnected to early retirement, in each of the last five years together with the associated cost is in Table 1. The cost and the number of each individual category is not separately identifiable.

The grade of these staff and the percentage of each grade is in Table 2.

Table 1

	Number of early retirements and severances	*Total cost (£ million)*
2002-03	270	19.4
2003-04	316	16.1
2004-05	927	29.6
2005-06	3,027	140.0
2006-07	2,306	55.8
Total	6,846	260.9

Note:
Staff numbers are full time equivalent (rounded)

Table 2

		SCS	*G6*	*G7*	*SEO*	*HEO*	*EO*	*AO*	*AA*
2002-03	Number of early retirements and severances	5	1	6	3	18	45	151	41
	Percentage of grade	2.3	0.2	0.6	0.1	0.3	0.1	0.2	0.3

	Percentage of grade	3.7	2.0	0.5	1.5	1.6	1.7	2.4	4.8

Note: Staff numbers are full time equivalent (rounded)

Departments: Official Visits

David Simpson: To ask the Secretary of State for Work and Pensions how much was spent on overnight accommodation by civil servants within his Department's areas of responsibilities in the last 12 months. [149059]

Mrs. McGuire: Within the last 12 months £11.7 million was spent on overnight accommodation by civil servants within the Department for Work and Pensions.

This expenditure was procured through the contracted service provider. There were additional accommodation costs incurred where staff booked their own accommodation independently to the contracted service and re-claimed the costs as expenses. Identifying these costs would exceed the disproportionate threshold.

Departments: Pay

Chris Grayling: To ask the Secretary of State for Work and Pensions how many employees in his Department and its agencies are paid more than £100,000 per annum. [150056]

Mrs. McGuire: There are currently 62 DWP employees paid more than £100,000 per annum,

including base pay and non-consolidated, non-pensionable bonuses. This represents less than 0.1 per cent of the Department's employees.

Departments: Private Finance Initiative

Mrs. Lait: To ask the Secretary of State for Work and Pensions what the total cost is of all private finance initiative projects for which his Department has responsibility completed since 1997; and what the projected cost is of such projects commissioned or under way. [148027]

Mrs. McGuire: The Department has only one PFI route to obtain estates services under the private sector resource initiative for the management of the estate (PRIME) contract.

PRIME is a 20-year PFI partnership deal, competitively let to Trillium (now Land Securities Trillium) on 1 April 1998 by the then Department of Social Security and expanded in 2003 to cover the former Employment Service estate. The estimated NPV for the original contract was £2.008 billion. The estimated NPV for the expansion was £1.2 billion.

The Department currently has no plans to use PFI in new areas, but the option will be considered for future services, except IS/IT which under Government policy are not considered suitable for PFI.

A list of all signed PFI deals with unitary charges is available at:

http://www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.cfm

Departments: Public Transport

Mr. Jenkins: To ask the Secretary of State for Work and Pensions what incentives he has considered to encourage staff in his Department to use public transport. [148805]

Mrs. McGuire: The main incentive the Department offers is interest-free loans for season tickets for travel to work. Use of public transport is encouraged by departmental policies including limited car parking, flexible working, using public transport during the course of travel and making use of travel websites and information services, such as Transport Direct. Staff are also informed about local transport initiatives and promotions. Where the location or nature of the work makes public transport use impractical for staff, car sharing is encouraged.

Departments: Racial Harassment

David Simpson: To ask the Secretary of State for Work and Pensions how many complaints of racial abuse relating to staff for which his Department is responsible have been *(a)* investigated and *(b)* upheld in the last 12 months. [149260]

Mrs. McGuire: The information currently held centrally by the Department is the number of complaints of racial abuse investigated by the Department's central team of investigators.

During the last 12 months (for the period July 2006-June 2007) the Department has one reported case, which is currently under investigation.

Departments: Redundancy

Mr. Alan Reid: To ask the Secretary of State for Work and Pensions how many employees of his Department were made compulsorily redundant in each year since it was established. [149371]

Mrs. McGuire *[holding answer 12 July 2007]:* The Department for Work and Pensions was established in June 2001, bringing together the former Department of Social Security and Employment Service.

As part of its Efficiency Programme, the Department has run a number of staff early release schemes in each year since its formation. All but two early releases under these schemes have been on a voluntary basis. One member of staff was made compulsorily redundant in December 2005; one member of staff was made compulsorily redundant in May 2007.

Mr. Alan Reid: To ask the Secretary of State for Work and Pensions how many employees in each service or agency of his Department were made compulsorily redundant in each year since it was established. [149620]

Mrs. McGuire: The Department for Work and Pensions was established in June 2001, bringing together the former Department of Social Security and Employment Service.

As part of its Efficiency Programme, the Department has run a number of staff early release schemes in each year since its formation. All but two early releases under these schemes have been on a voluntary basis. One member of staff from Jobcentre Plus was made compulsorily redundant in December 2005; one member of staff from the Child Support Agency was made compulsorily redundant in May 2007.

Departments: Scotland

Mr. Alan Reid: To ask the Secretary of State for Work and Pensions what the headcount target figure is for the number of employees in his Department in Scotland for 2007-08; and how many staff are in post. [149621]

Mrs. McGuire: Based on current plans, the Department for Work and Pensions has an overall headcount target for March 2008 of 103,468 Full Time Equivalents (FTE). There is no specific headcount target for Scotland as a whole but current work force plans indicate that staffing levels in Scotland will be in the region of 11,000 FTE by March 2008.

As at 31 March 2007 overall staffing in the Department stood at 108,472 FTE of which 11,697 FTE were in Scotland.

Hazardous Substances: Castle Point

Bob Spink: To ask the Secretary of State for Work and Pensions which sites in Castle Point the Health and Safety Executive considers to be potential hazards due to storage of combustible materials; and when each was last inspected. [149917]

Mrs. McGuire: There are two sites within the area of Castle Point that are covered by the Planning (Hazardous Substances) Act 1990 and the Control of Major Accident Hazards Regulations (COMAH) 1999 by virtue of the quantity and nature of flammable substances stored or processed on the site. These are:

Calor Gas Ltd (last visited May 2007);

Oikos Storage Ltd (last visited March 2007).

Incapacity Benefit: Bedfordshire

Andrew Selous: To ask the Secretary of State for Work and Pensions how many incapacity benefit claimants there were in south west Bedfordshire constituency *(a)* at the latest date for which figures are available and *(b)* in each of the last five years. [149315]

Mrs. McGuire *[holding answer 12 July 2007]:* The available information is in the following table.

Number of incapacity benefit/severe disablement allowance claimants in south west Bedfordshire parliamentary constituency

Quarter ending November each year	*Number of claimants*
2002	2,720
2003	2,860
2004	2,900
2005	2,820
2006	2,860

Notes:
Figures are rounded to the nearest 10.
Source:
DWP Information Directorate 100 per cent. WPLS

Natural Gas

John Battle: To ask the Secretary of State for Work and Pensions if he will bring forward proposals to make public liability insurance a legal requirement for Corgi-registered gas installers. [148180]

Mrs. McGuire: There are no plans to introduce legislation in this area. However, the proposed new regime for domestic gas safety, announced by the Government in March, will include provision for consideration of, and advice to HSE on, the role of public liability insurance for gas installers by the new provider of the gas installer registration scheme.

Pension Service

Dr. Julian Lewis: To ask the Secretary of State for Work and Pensions if he will take steps in response to the shortcomings in the Pension Service identified by the Parliamentary Commissioner for Administration (Ombudsman) in the report of 31 May 2007 (reference PA-3021) into the complaint of John and Jeanne Fawcett; and what steps he is taking to ensure future avoidance of similar errors. [147945]

Mr. Mike O'Brien *[holding answer 9 July 2007]:* The administration of the Pension Service is a matter for the Chief Executive of the Pension Service, Alexis Cleveland. I have asked her to provide the hon. Member with the information requested.

Letter from Alexis Cleveland, dated 16 July 2007:

The Secretary of State has asked me to reply to your question about the steps taken in response to the Ombudsman's Report of 31 May 2007 (reference PA-3021) into the complaint of John and Jeanne Fawcett; and what steps he is taking to ensure future avoidance of similar errors. This is something that falls within the responsibilities delegated to me as Chief Executive of The Pension Service.

Mr and Mrs Fawcett's complaint was a difficult and complex case and I regret that it took so long to resolve.

The inaccurate advice was provided in 1994 through a predecessor organisation. When we receive Ombudsman reports they are forwarded to the Pension Centre manager concerned to highlight any errors and ensure the correct training is given to staff to prevent any reoccurrence. The findings of all Ombudsman cases are captured in a Lessons Learned Log issued by The Pension Service's Parliamentary Commissioner for Administration/Independent Case Examiner Focal Point. The shortcomings identified in this particular case feature in the Log and have been sent to all nominated customer service staff within our Pension Centres for cascading to staff to avoid similar errors occurring in future.

A wide range of action has been taken to ensure staff are fully equipped to be able to provide customers with the information they need on deferring State Pension. We have also provided detailed deferral information to customers on The Pension Service website as well as in the form of posters in GPs' surgeries, Post Offices and Libraries.

The Pension Service operates a robust three-tier process for handling complaints:

Resolution at front line point of contact

Resolution by Business Unit Manager

Resolution by Chief Executive

If the customer remains unsatisfied, from April 2007 we have introduced an Independent Case Examiner who can look at their complaint. The customer can also go to their MP, who may refer their case to the Parliamentary Commissioner for Administration (Ombudsman).

Complaints are recorded on a database to assist complaint management and provide Management Information on performance and causes of complaints. Staff are encouraged to take ownership of complaints and resolve them at the point of contact wherever possible and there are good examples of using complaint data to improve services in The Pension Service.

I hope this is helpful.

Poverty: Children

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of children living in poverty in Cornwall; and if he will make a statement. [148970]

Mrs. McGuire: The information is not available below the level of Government office region.

CHILDREN, SCHOOLS AND FAMILIES

Building Schools for the Future Programme

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what the *(a)* start and *(b)* end date was of the Prime Minister's delivery unit's review of the Building Schools for the Future programme; and on what date a final report was produced. [148855]

Jim Knight: The Prime Minister's Delivery Unit's review of the Building Schools for the Future began in October 2006, and was concluded when the final report was issued on 16 January 2007.

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families if he will list the parties to whom the Prime Minister's delivery unit's recent review of the Building Schools for the Future programme made recommendations. [148856]

Jim Knight: The recommendations were made to DFES and HMT, as joint commissioners of the review.

The reports and other associated documentation following joint PMDU reviews are confidential advice to Ministers and are not put into the public domain. This includes all documentation connected with the substance of the review.

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what the *(a)* total value and *(b)* estimated cost is to the public purse in each financial year until 2050 of private finance initiative contracts signed under the Building Schools for the Future programme. [148900]

Jim Knight: Information on schools private finance initiative contracts, including balance sheet treatment and unitary charges, is included in HM Treasury's PFI Signed Projects List, which is available through

www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.

This is a working document containing information on current signed PFI projects. It is updated on a six-monthly basis to reflect the updates HM Treasury receives from Departments at Budget and pre-Budget report.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will make a statement on progress on Building Schools for the Future. [149069]

Jim Knight: Building Schools for the Future (BSF) is a hugely ambitious programme. Just three years into the programme, 49 local authorities, one third of all authorities in England, are now firmly engaged with BSF. Eight local authorities have now reached financial close, covering 65 schools and £1.1 billion worth of capital investment. There are currently 51 schools in construction, and it is anticipated that by the end of the year, a further 70 will be under way. Beyond 2010-11, we expect that around 200 new or remodelled schools will open each year.

Building Schools for the Future Programme: Private Finance Initiative

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 25 June 2007, *Official Report*, column 537W, on the Building Schools for the Future programme: how much his Department has allocated in private finance initiative credits to each Building Schools for the Future project that has been agreed; and how much the local authority contributed towards the cost of each project. [148850]

Jim Knight: Initial allocations of PFI credits to support projects in Building Schools for the Future currently total £3.3 billion, and are set out as follows:

Local authority	*PFI (£ million)*
Bradford	116.9
Bristol	157.2
Greenwich	183.5
Knowsley	250.0
Lancashire	246.4
Leeds	185.7
Leicester	151.3
Lewisham	63.0
Newcastle	81.4
Newham	65.5
Sheffield	89.0
Solihull	86.8
South Tyneside and Gateshead	112.6
Waltham Forest	53.9
Wave 1 Total	1,843.2
Birmingham A	92.4
Islington	103.9
Kingston on Hull	158.8
Nottingham	66.6
Wave 2 Total	421.6
Barnsley	324.3
Durham (East)	79.5
Derbyshire (NE)	55.4
Kent	98.8
Lewisham	102.3
Salford	131.6
Sandwell	59.8
Southwark	40.9
Tameside	96.9
Wave 3 Total	989.7

These allocations may change as the project scopes are finalised. Full information on how much local authorities' contributions will be are not held by the Department.

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families (1) how many schools are in the process of being *(a)* built and *(b)* refurbished under the Building Schools for the Future programme; and how many in each category are being built or refurbished under the private finance initiative; [148853]

(2) how many schools have been *(a)* built and *(b)* refurbished under the (i) Academies and (ii) Building Schools for the Future programme; and how many in each category were built or refurbished under the private finance initiative. [148854]

Jim Knight: Building Schools for the Future (BSF) is a core part of the Department's capital strategy, providing a new approach to capital investment in secondary schools. BSF aims to create world-class, 21st-century schools—environments which will inspire learning for decades to come and provide exceptional assets for the whole community. Subject to future public spending decisions, the intention is to achieve this aim for every secondary school pupil within 15 waves from 2005-06 onwards.

To date, four BSF schools have been completed. Of these, three are newly built and one refurbished. None was procured under PFI arrangements.

There are currently 51 BSF schools in construction. Of these, 30 are new build projects and 21 are refurbishment projects. Of the 30 new build schools, 23 are being procured as part of PFI schemes.

There are 27 academies open where construction work has been completed. Of these, 22 are predominantly new build projects and five are predominantly refurbishment projects. None was procured under PFI arrangements.

Children: Poverty

Mr. Laws: To ask the Secretary of State for Children, Schools and Families whether his Department will assume lead responsibility for policy on reducing child poverty; and if he will make a statement. [149135]

Kevin Brennan: The Department will have a key role, alongside the Department for Work and Pensions and HM Treasury, in delivering the Government's strategy for ending child poverty by 2020. It will lead on ensuring that there is a strong focus on services and support that will help break intergenerational cycles of poverty as well as actions that help raise this generation of families out of poverty levels of income. Budgets and activities held elsewhere in Government that support these services—for example, those for improving the quality of housing for families and for homelessness held by the Department for Communities and Local Government—will be identified and jointly managed through the programme arrangements for the child poverty target.

Children: Protection

Mrs. Gillan: To ask the Secretary of State for Children, Schools and Families how many individuals registered on List 99 have home addresses in Wales. [146285]

Kevin Brennan [*holding answer 29 June 2007*]: The addresses held by the Department of individuals on List 99 were recorded at the time these people were placed on the list. Identifying the number of individuals who had home addresses in Wales at the time of listing would require individual case records to be checked and this would incur disproportionate cost.

Once an individual is on List 99, a standard or enhanced Criminal Records Bureau (CRB) disclosure will reveal the barred status of that individual to an employer together with details of any criminal convictions. Information on an individual's address at the time of listing is not necessary in order to check whether that person is barred.

City Academies: Private Finance Initiative

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families how many schools are being *(a)* built and *(b)* refurbished under the Academies programme; and how many in each category are being built or refurbished under the private finance initiative. [148901]

Jim Knight: There are no Academies being built or refurbished under PFI arrangements. The level of new build and refurbishment required by an Academy is determined during the feasibility study. 48 projects have completed this feasibility study but have not yet completed construction, of these 36 are predominantly new build projects and 12 are predominantly refurbishment projects.

City Academies: Sponsorship

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what guidance documents his Department has issued to local authorities on co-sponsorship of schools under the academies programme. [148919]

Jim Knight: The Department welcomes and values the input and influence of local authorities in academy projects as partners and/or co-sponsors. Seven local authorities are already co-sponsoring academies, including Sunderland and Kent. Where local authorities express an interest in academy sponsorship, the Academies Prospectus and general guidance on academy sponsorship are also made available.

Departments: Atkins

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what the *(a)* date, *(b)* value and *(c)* purpose was of each payment by his Department to Atkins (formerly WS Atkins) since 1997. [148870]

Jim Knight: This information could be collected only at disproportionate cost.

Departments: Flags

Bob Russell: To ask the Secretary of State for Children, Schools and Families what guidance he has given to schools on the flying of the Union flag on a daily basis; and if he will make a statement. [150119]

Jim Knight: No guidance has been issued to schools on this issue. Schools are free to fly the Union flag on any day they choose, but it is for individual schools to choose whether to do so or not.

Departments: Ministerial Duties

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) what the departmental responsibilities are of each Minister in his Department; and if he will make a statement; [149137]

(2) if he will make a statement on his Department's responsibilities. [149138]

Kevin Brennan: I refer the hon. Member to the list of ministerial responsibilities which can be found on the Department's website at:

http://www.dcsf.gov.uk/aboutus/whoswho/ministersresp.shtml

Departments: Public Expenditure

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what his estimate is of the real terms increases in his Department's budgets for *(a)* all spending, *(b)* spending on schools and *(c)* spending on schools capital projects for each year from 2007-08 to 2010-11; and if he will make a statement. [149144]

Jim Knight: The Spending Review settlement provided for a significant increase in DfES funding over the next three years to reach £75.5 billion by 2010-11, approximately £11 billion higher than in 2007-08. DCSF is still agreeing the exact split of budgets with DIUS so it is not possible to give an exact total for my Department's budgets at this moment. We will publish the DCSF's budget in due course.

Paul Holmes: To ask the Secretary of State for Children, Schools and Families what the education budget is for 2007-08, broken down by main budget heading; what percentage of the budget is allocated to schools; and if he will make a statement. [149406]

Jim Knight: It is not possible to provide the 2007-08 education budget at present as the Department for Children, Schools and Families is still agreeing the exact split of budgets with the Department of Innovation Universities and Skills. However, the estimated plans for 2007-08 for the Department for Education and Skills can be found in Table 8.2 of the 2007 Departmental Annual Report.

Departments: Publications

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will list the departmental circulars, guidance notes and other communications sent by his Department and its predecessors to *(a)* primary school head teachers and governors and *(b)* secondary school head teachers and governors since 1 April 2004, indicating in each case the (i) purpose and (ii) contents of the communications; and if he will make a statement. [149145]

Jim Knight: The Department sends information automatically to schools in England only in exceptional cases, having stopped regular paper mailings in December 2004.

Discussions with head teachers and detailed research showed that schools wanted to be able to choose the printed publications they needed, when they needed them, and to be able to order multiple copies.

Instead, the Department has successfully introduced an online ordering service where schools are able to either download or order paper based copies of publications including guidance. A regular fortnightly email is sent to schools to inform them of new publications. In addition, "Spectrum" provides schools, head teachers and chairs of governors with a summary of all the latest resources, publications, guidance and regulations. It is available online and can also be requested in paper copy.

Copies of "Teachers Magazine" are distributed to all schools six times each year. The "Governors Newsletter" is available on subscription only. Both products offer news and information, and point readers to further details available online or in other publications.

I do not intend to make a statement. An annual report is presented to Parliament each year, listing the documents sent from the Department and its agencies to all schools.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will list the data releases planned to be made by his Department over the next 12 months; what the expected date is of each; and if he will make a statement. [149346]

Jim Knight: The readily available information relates to the release of National Statistics publications. No record is centrally held of all data releases. The process for setting dates for National Statistics publications runs on a six-monthly cycle with dates being set in March and September for the following six months (firm commitments) and the six months after that (expected publications). In the run-up to each separate month, exact dates are set for publications in that month. The date setting process is managed by the Department's Head of Profession for Statistics and the published Compliance Statement can be found at:

http://www.dfes.gov.uk/rsgateway/nat-stats.shtml

The following table lists the statistical first release (SFRs) and statistical bulletins that will be issued from now through to September 2007. The exact dates for August and September have not been set, other than for the attainment publications which have fixed dates agreed in advance. The list replicates the original pre-announced schedule of publications published in March 2007 which can be found at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000720/index.shtml

and as such contains publications which have now transferred to the Department for Innovation, Universities and Skills (DIUS).

		Publication
24 July 2007	SFR:	Children accommodated in secure children's homes, year ending 31 March 2007 England and Wales
August 2007	SFR:	National curriculum assessments at key stage 2 in England, 2007 (provisional). This SFR will be published on the first Tuesday in August (7 August 2007)
	SFR:	National curriculum assessments at key stage 3 in England, 2007 (provisional). This SFR will be published on the second Tuesday in August (14 August 2007)
	SFR:	National curriculum assessments at key stage 1 in England, 2007. This SFR will be published on the last Thursday in August (30 August 2007)
	Bulletin:	School destinations of secondary school pupils resident in London boroughs, 2007 (internet only).
September 2007	SFR:	Schools and pupils in England: January 2007 (final)
	SFR:	School work force in England (including pupil: teacher ratios and pupil: adult ratios), January 2007 (revised)
	SFR:	Referrals, assessments and children and young people who are the subjects of child protection plans: year ending 31 March 2007
	SFR:	Children looked after in England (including adoptions and care leavers) year ending 31 March 2007
	Volume:	Higher education statistics for the UK: 2005-06[1]

[1] Prepared and published by the Higher Education Statistics Agency, in consultation with DIUS statisticians.

The following statistical first releases (SFRs), statistical bulletins and statistical volumes are provisionally scheduled to appear in the following six months from October 2007 to March 2008.

		Publication
October 2007	SFR:	GCSE and equivalent results in England, 2006-07 (provisional). This SFR will be published on the third Thursday in October (18 October 2007)
	SFR:	GCE/VCE A/AS and equivalent examination results in England, 2006-07 (provisional). This SFR will be published on the third Thursday in October (18 October 2007)
	SFR:	Foundation stage profile 2007: national results (provisional)
	SFR:	Neighbourhood statistics—announcement of the release of small area national curriculum assessment, GCSE and equivalent attainment and post-16 attainment by pupil characteristics in England, 2005-06
November 2007	SFR:	Private fostering arrangements in England, year ending 31 March 2007
	SFR:	Youth cohort study: the activities and experiences of 19 year olds: England and Wales 2007
	SFR:	National curriculum assessment, GCSE and equivalent attainment and post-16 attainment by pupil characteristics in England 2006-07 (provisional)
	SFR:	Student support for higher education in England, academic year 2007-08 (provisional)[2]
	Volume:	Education and training statistics for the United Kingdom: 2007 (internet only)
December 2007	SFR:	Further education, work-based learning and adult and community learning—learner numbers in England: 2006-07[3]
	SFR:	National curriculum assessments at key stage 2 and key stage 1 to key stage 2 value added measures in England 2006-07 (revised)
January 2008	SFR:	GCE/VCE A/AS and equivalent examination results in England, 2006-07 (revised)
	SFR:	GCSE and equivalent results and associated value added measures in England, 2006-07 (revised)
	SFR:	Higher education enrolments and qualifications obtained at higher education institutions in the UK in the academic year 2006-07[1]
	SFR:	Foundation stage profile 2007 national results (final)
February 2008	SFR:	Level 2 and 3 attainment by young people in England measured using matched administrative data: attainment by age 19 in 2007 (provisional)
	SFR:	Vocational qualifications in the UK: 2006-07
	SFR:	Pupil absence in schools in England, 2006-07
	SFR:	National curriculum assessments at key stage 3 and key stage 2 to key stage 3 value added for young people in England, 2006/-07 (revised)
	SFR	The level of highest qualification held by adults: England 2007
March 2008	SFR:	Further education, work-based learning and personal and community development learning—learner numbers in England on 1 October 2007[3]
	SFR:	Participation rates in higher education: academic years 1999-2000 to 2006-07 (provisional)
	Volume:	Children looked after by local authorities year ending 31 March 2007 (internet only)

[2] Prepared and published by Student Loans Company, in consultation with DIUS statisticians.
[3] Prepared and published by the Learning Skills Council in consultation with DCSF and DIUS statisticians.

Departments: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what priorities have been set for his Department by the Prime Minister; and if he will make a statement. [149153]

Jim Knight: My right hon. Friend the Secretary of State for Children Schools and Families set out his priorities in a statement to the House on 10 July 2007.

Education: Children

Mr. Frank Field: To ask the Secretary of State for Children, Schools and Families how many children did not reach a good level of development at the end of the Foundation Stage, defined as a score of six points on all the assessment scales for personal, social and emotional development and communication, language and literacy of the Foundation Stage Profile, in the latest period for which figures are available. [149235]

Beverley Hughes *[holding answer 12 July 2007]:* The latest figures for 2006 indicate that 56 per cent. of children in maintained schools were not achieving a good level of development, defined as a score in the Foundation Stage profile of a minimum of 6 points in each of the assessment scales relating to the two key areas of communication, language and literacy and personal, social and emotional development. This estimate is subject to a margin of statistical sampling error as the figures were derived from a sample of individual child records submitted by each local authority. The level of sampling error calculated by analysts within my Department indicates a probability of 0.95 that the true value will be between 55.5 per cent. and 56.4 per cent.

The latest figures on the percentage of children on the Foundation Stage Profile were published in a Statistical First Release (SFR) 03/2007 "Foundation Stage Profile 2006: National Results" on 25 January 2007. A copy of this release is available on my Department's website at:

www.dfes.gov.uk/rsgateway

Education: Tamworth

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families how much was allocated for capital expenditure on education in Tamworth in each year since 1997. [148795]

Jim Knight: Allocations of capital expenditure are made on a local authority rather than a constituency basis, and central records are maintained by local

authority. Capital allocations to Staffordshire in each year since 1997, including Tamworth, are set out in the following table.

	£ million
1997-98	7.4
1998-99	28.4
1999-2000	18.5
2000-01	34.1
2001-02	27.4
2002-03	32.9
2003-04	35.5
2004-05	41.1
2005-06	29.2
2006-07	41.2
2008-08	33.2

In recent years, the £41.1 million allocated in 2004-05 includes targeted capital funding (TCP) of £3.6 million, and the £41.2 million in 2006-07 TCP of £8.7 million.

Education: Young People

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of *(a)* 16 year olds, *(b)* 17 year olds and *(c)* 18 year olds were in full-time education or training in each year from 1997 to 2007. [149133]

Jim Knight: The figures provided in the table are for 16, 17 and 18-year-olds in 'total education and training' in each year from 1997 to 2007 in England, and will include some learners in part-time training.

Young people in education and training in England

Percentage

	16	*17*	*18*
1997	86.9	80.3	62.7
1998	86.3	80.2	62.1
1999	87.1	80.9	62.4
2000	86.4	80.5	62.3
2001	85.7	78.3	61.1
2002	86.4	78.4	60.7
2003	86.9	79.5	60.6
2004	87.6	79.6	60.7
2005	88.7	80.3	61.5
2006 (provisional)	89.7	81.5	61.1

Where 'total education and training' includes those in full-time education (maintained schools, further education, higher education), LSC funded work-based learning (minus WBL in full-time education), employer funded training and other education and training.

Faith Schools: Admissions

Mr. Allen: To ask the Secretary of State for Children, Schools and Families (1) if he will bring forward measures to abolish the practice of maintained faith schools of giving priority to children on the grounds of religious belief and practice in admissions criteria; and if he will make a statement; [149264]

(2) what the legal basis is for maintained schools to give priority in their admissions arrangements and criteria to children on the grounds of religious belief and practice. [149266]

Jim Knight *[holding answer 11 July 2007]:* We have no plans to prevent faith schools that are oversubscribed from giving priority in admissions to children of their faith. Faith schools play an important role in ensuring diversity of provision and there is a high demand for faith-based education from parents.

It is unlawful under section 49 of the Equality Act 2006 for a school to discriminate against a child on the grounds of his religion or belief in the terms on which it offers to admit him or by refusing to accept an application for a place. However, schools designated as having a religious character under section 69 of the School Standards and Framework Act 1998 are exempt from this prohibition by virtue of section 50 of the Equality Act 2006 and may, therefore, give priority, when oversubscribed, to children on the basis that they are members of or practise their faith.

Faith Schools: Finance

Mr. Allen: To ask the Secretary of State for Children, Schools and Families what proportion of its *(a)* revenue and *(b)* capital funding each maintained secondary school designated as having a particular religious character or ethos, and which gives priority in admissions on such grounds, received from the public purse in 2006-07. [149265]

Jim Knight: Schools with a religious character receive their revenue funding from local authorities on the same basis as other maintained schools. It is a matter for each local authority—in consultation with their Schools Forums—to determine the level of funding between different providers, based on an assessment of local circumstances.

Capital funding for schools with a religious character depends on their category. Voluntary controlled and foundation schools with a religious character receive their capital funding from local authorities.

The governing bodies of voluntary aided schools are responsible for capital expenditure at their schools, normally supported by grant from the Secretary of State.

I shall arrange for details of capital grant paid by the Secretary of State to the governing bodies of voluntary aided schools, over 93 per cent. of which have a religious character, to be placed in the Library of the House. The Government do not collect data on capital expenditure on individual schools by local authorities and governing bodies.

Financial Services: Curriculum

Mr. Laws: To ask the Secretary of State for Children, Schools and Families whether financial education in schools will be delivered through personal, social and health education; and if he will make a statement. [149928]

Beverley Hughes: Opportunities for the teaching and learning of financial capability occur across the curriculum. It is for schools to decide how to organise their provision but commonly it is delivered through personal social and health education (PSHE) or across subject areas including maths, citizenship, business studies and enterprise education. My Department has

published curriculum guidance for all key stages to help teachers identify where financial capability sits within the curriculum and the Qualifications and Curriculum Authority has published units of work to help teachers with lesson planning and assessment of pupil progress.

The revised curriculum for secondary schools, launched last week, includes a new dedicated programme of study for "Economic Well Being and Financial Capability" as part of a revised personal, social, health and economic (PSHE) education. The new curriculum will begin teaching from September 2008 and will add a new focus on financial education in schools. We are revising curriculum guidance for schools in light of these changes and will publish the updated guidance in due course.

Foster Care: Gravesend

Mr. Holloway: To ask the Secretary of State for Children, Schools and Families how many foster parents are required in the Gravesham area to meet current demand for placements. [149303]

Kevin Brennan: Data on the number of foster parents which are required in the Gravesham area to meet the current demand for placements are not collected centrally by the Department for Children, Schools and Families (DCSF).

Further Education: Departmental Responsibilities

Mr. Laws: To ask the Secretary of State for Children, Schools and Families which aspects of further education in England are the responsibility of his Department; and if he will make a statement. [149134]

Jim Knight: The Department will take on responsibility for policy and funding for the education of children and young people up to age 19 from the Department for Education and Skills. Sponsorship of the FE service will sit with the new Department for Innovation, Universities and Skills. Both Departments will work closely together to ensure strategic objectives and policy pre and post-19 are coherent and consistent.

GCE A Level

Stephen Williams: To ask the Secretary of State for Children, Schools and Families what records his Department holds on the number of students at *(a)* state comprehensive schools, *(b)* state grammar schools, *(c)* state secondary modern schools, *(d)* other state secondary schools, *(e)* further education colleges, *(f)* state sixth form colleges and *(g)* independent schools and colleges who were taking at least two A-levels in the last four years for which figures are available. [147892]

Jim Knight: The Department holds two different records on the achievement of Advanced level qualifications. The first is a list of candidates who have been entered for any Level 3 qualification during the academic year and the second is a list of all Level 3 qualification entries and the grades awarded for these. There are common variables on each list that allow them to be linked together to determine which qualifications were taken by each candidate.

The Department uses this information to publish the School and College Achievement and Attainment Tables, and from this exercise, figures for the number of candidates taking at least one A-level or equivalent are readily available and are presented in the following table.

16 to 18-year-olds attempting at least one GCE/VCE A-level or VCE Double Award in summer of academic year

	2003	*2004*	*2005*	*2006*
Comprehensive schools	111,565	113,013	116,452	116,545
Selective schools	18,844	19,322	19,980	20,057
Modern schools	3,490	3,416	3,805	3,966
Other maintained schools	33	292	309	304
Independent schools	34,106	34,846	33,586	33,763
Sixth form colleges	47,821	47,738	49,913	50,093
Other FE sector colleges	52,812	46,630	39,590	33,563
All schools and colleges	268,671	265,257	263,635	258,291

Figures for those taking two or more A-levels are not readily available and can be produced only at disproportionate cost.

General Certificate of Secondary Education

Mr. Willetts: To ask the Secretary of State for Children, Schools and Families how many and what proportion of pupils in maintained mainstream schools who gained *(a)* five, *(b)* six, *(c)* seven, *(d)* eight and *(e)* nine or more good GCSEs in 2006 gained (i) five, (ii) four and (iii) three C grades. [148691]

Jim Knight: This information can be provided only at a disproportionate cost.

General Certificate of Secondary Education: Gender

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the reasons for girls performing on average more highly than boys in GCSE examinations; and if he will make a statement. [149080]

Jim Knight: Girls have out-performed boys since GCSE examinations were introduced in 1988. In 2006 63.4 per cent. of girls and 53.8 per cent. of boys achieved five plus A*-C grade GCSEs. Girls are ahead of boys at all stages of education from early years and foundation onwards. The gap in England has been broadly stable over two decades, and is in line with that in other OECD countries.

The reasons are complex but appear mainly related to biological differences, differences in maturation, and differences in attitudes to learning and reading at different ages. The Department's recently published research paper "Gender and education: the evidence on pupils in England", of which there is a copy in the Library of the House, sets out the research evidence.

Two points should however be noted: first, boys' GCSE attainment has improved sharply over the past decade, broadly keeping pace with that of girls; second, gender gaps can be minimised by good teaching practice and by the encouragement of reading, ensuring that pupils of both genders make good progress.

The Department is planning a programme of school-level investigations and action research activities designed to identify good practice in raising boys' motivation and attainment, particularly in the field of literacy. This will build on existing Departmental initiatives such as "Boys Into Books", which has enabled every state-funded secondary school to select for its library 20 free books targeted at teenage boys. It will also feed into the forthcoming National Year of Reading which will promote reading both for leisure and school attainment purposes.

Grammar Schools

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will list the grammar schools in England as at 1 January 2007, broken down by local education authority. [149149]

Jim Knight: There are 164 grammar schools in England, as shown in the following table:

LA name	*School names*
Barnet (3)	The Henrietta Barnett School
	Queen Elizabeth's School
	St. Michael's Catholic Grammar School
Bexley (4)	Bexley Grammar School
	Townley Grammar School for Girls
	Chislehurst and Sidcup Grammar School
	Beths Grammar School
Birmingham (8)	Sutton Coldfield Girls' School
	Bishop Vesey's Grammar School
	Handsworth Grammar School
	King Edward VI Handsworth School
	King Edward VI Five Ways School
	King Edward VI Camp Hill Girls' School
	King Edward VI Camp Hill School (Boys)
	King Edward VI Aston School
Bournemouth (2)	Bournemouth School
	Bournemouth School for Girls
Bromley (2)	Newstead Wood School for Girls
	St. Olave's and St. Saviour's Grammar School
Buckinghamshire (13)	John Hampden Grammar School
	Burnham Grammar School
	Aylesbury High School
	Dr. Challoner's High School
	Sir Henry Floyd Grammar School
	Chesham High School
	Aylesbury Grammar School
	The Royal Latin School
	Wycombe High School
	Dr. Challoner's Grammar School
	Sir William Borlase's Grammar School
	Beaconsfield High School
	Royal Grammar School
Calderdale (2)	The North Halifax Grammar School
	Crossley Heath School
Cumbria (1)	Queen Elizabeth's Grammar School
Devon (1)	Colyton Grammar School
Enfield (1)	The Latymer School
Essex (4)	Chelmsford County High School for Girls
	King Edward VI Grammar School
	Colchester Royal Grammar School
	Colchester County High School for Girls
Gloucestershire (7)	Sir Thomas Rich's School
	High School for Girls
	Ribston Hall High School
	Marling School
	Stroud High School
	Pate's Grammar School
	The Crypt School
Kent (33)	Tunbridge Wells Girls' Grammar School
	Tunbridge Wells Grammar School for Boys
	Weald of Kent Grammar School
	Invicta Grammar School
	Highsted School
	Highworth Grammar School for Girls
	The Harvey Grammar School
	Dover Grammar School for Girls
	Clarendon House Grammar School
	Maidstone Grammar School
	Maidstone Grammar School for Girls
	Borden Grammar School
	The Norton Knatchbull School
	Simon Langton Girls' School
	The Judd School
	The Grammar School for Girls Wilmington
	Wilmington Grammar School for Boys

LA name	School names
	Dartford Grammar School
	Dartford Grammar School for Girls
	Simon Langton Grammar School for Boys
	Cranbrook School
	The Skinners' School
	Oakwood Park Grammar School
	Sir Roger Manwood's School
	The Folkestone School for Girls
	Tonbridge Grammar School for Girls
	Barton Court Grammar School
	Queen Elizabeth's Grammar School
	Dover Grammar School for Boys
	Dane Court Grammar School
	Chatham House Grammar School for Boys
	Gravesend Grammar School for Boys
	Gravesend Grammar School for Girls
Kingston upon Thames (2)	The Tiffin Girls' School
	Tiffin School
Kirklees(1)	Heckmondwike Grammar School
Lancashire (4)	Bacup and Rawtenstall Grammar School
	Lancaster Royal Grammar School
	Lancaster Girls' Grammar School
	Clitheroe Royal Grammar School
Lincolnshire (15)	Kesteven and Grantham Girls' School
	Kesteven and Sleaford High School
	Boston High School for Girls
	Spalding High School
	Queen Elizabeth's High School
	Bourne Grammar School
	Spalding Grammar School
	Skegness Grammar School
	Queen Elizabeth's Grammar School
	The King's School
	Carre's Grammar School
	King Edward VI School
	Caistor Grammar School
	The Queen Elizabeth's Grammar School—Horncastle
	Boston Grammar School
Liverpool (1)	The Liverpool Blue Coat School
Medway Towns (6)	Chatham Boys' Grammar School
	Fort Pitt Grammar School
	Sir Joseph Williamson's Mathematical School
	Rainham Mark Grammar School
	Chatham Girls' Grammar School
	The Rochester Girls' Grammar School
North Yorkshire (3)	Ripon Grammar School
	Skipton Girls' High School
	Ermysted's Grammar School
Poole (2)	Parkstone Grammar School (Girls)
	Poole Grammar School
Plymouth (3)	Devonport High School for Girls
	Plymouth High School for Girls
	Devonport High School for Boys
Reading (2)	Reading School
	Kendrick Girls Grammar School
Redbridge (2)	Ilford County High School
	Woodford County High School
Stoke-on-Trent (1)	St. Joseph's College
Slough (4)	St. Bernard's Convent School
	Langley Grammar School
	Herschel Grammar School
	Slough Grammar School
Southend (4)	Westcliff High School for Boys
	Westcliff High School for Girls
	Southend High School for Girls
	Southend High School for Boys
Sutton (5)	Wilson's School
	Nonsuch High School for Girls
	Sutton Grammar School for Boys
	Wallington High School for Girls
	Wallington County Grammar School
Torbay (3)	Torquay Grammar School for Girls
	Churston Grammar School
	Torquay Boys' Grammar School
Trafford (7)	Altrincham Grammar School for Girls
	Stretford Grammar School
	Urmston Grammar School
	Sale Grammar School
	Altrincham Grammar School for Boys
	St. Ambrose College
	Loreto Grammar School
Telford and Wrekin (2)	Newport Girls' High School
	Adams' Grammar School
Walsall (2)	Queen Mary's High School
	Queen Mary's Grammar School

LA name	School names
Warwickshire (5)	Stratford-upon-Avon Grammar School for Girls
	King Edward VI Grammar School
	Lawrence Sheriff School
	Rugby High School for Girls
	Alcester Grammar School
Wiltshire (2)	South Wilts Grammar School for Girls
	Bishop Wordsworth's Grammar School
Wirral (6)	Wirral County Grammar School (Girls)
	West Kirby Grammar School for Girls
	Calday Grange Grammar School
	Wirral Grammar School for Boys
	St. Anselm's College
	Upton Hall Convent School FCJ
Wolverhampton (1)	Wolverhampton Girls' High School

Local Education Authorities: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the performance of local education authorities in England; which authorities have been assessed by his Department as having unsatisfactory performance; and if he will make a statement. [149078]

Jim Knight: The performance of local authorities and their partners in improving outcomes for children and young people is assessed by Ofsted and other inspectorates. Since 2005, they have made an annual performance assessment of children's services in each local authority, and have been undertaking a programme of joint area reviews which will include every local authority area in England once between 2005 and 2008. Ofsted's April 2007 publication "Narrowing the Gap: The Inspection of Children's Services" found an improving picture, with children's services in 107 out of the 139 authorities covered by the report making a good or excellent contribution towards delivering better outcomes for children and young people.

A number of areas have been assessed, by either an annual performance assessment or a joint area review, to be making an inadequate contribution to improving one or more aspects of children's services. They are Bristol, Cornwall, Devon, Herefordshire, Isle of Wight, Isles of Scilly, Medway, North East Lincolnshire, Nottingham, Peterborough, Plymouth, Sandwell, Staffordshire, Stoke-on-Trent and Thurrock.

The Government support and challenge all local authorities to improve their performance, with activity co-ordinated through the appropriate Government Office. Where a local authority is failing to perform functions to an adequate standard, the Secretary of State will, as a last resort, consider use of his statutory powers to secure the proper performance of functions. This can include directing that functions are performed in a particular way or by a specified person on behalf of the authority.

Partnerships for Schools: City Academies

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families which academies that *(a)* have opened have been and *(b)* are under development will be delivered through Partnerships for Schools. [148920]

Jim Knight: 47 Academies are now open; of these 27 have completed construction. None of these buildings were delivered/are being delivered by Partnerships for Schools (PfS). We expect that all Academies which have yet to enter into development will be delivered by PfS. There are currently 100 academies in development. 55 of these buildings are being delivered through PfS and these are:

Birmingham, an Academy to replace Heartlands
Birmingham, a new Academy in the East
Birmingham, an Academy to replace Shenley Court
Bolton, an Academy to replace Withins
The Stadium Academy, Brent
Palmer Academy, Brighton
Oasis Academy, Bristol
The Bristol Brunei Academy, Bristol
Colston's Girls' Academy, Bristol
Swanswell, Coventry
Cumbria, an Academy to replace Ehenside
Cumbria, an Academy to replace North Cumbria
Eastbourne Church of England Academy, Darlington
Derbyshire, an Academy to replace Shirebrook
Essex, an Academy in East Basildon
Essex, a second Academy in East Basildon
Hackney Skinners Academy
Hammersmith and Fulham Academy
Herefordshire, an Academy to replace Wyebridge
Isle of Sheppey, Kent
Kent, an Academy to replace Cornwallis
Kent, an Academy to replace Oldborough
Lancashire, an Academy to replace Accrington Moorhead
Lincolnshire, an Academy to replace Priory, Joseph Rushton, City of Lincoln
Lincolnshire, a second Academy to replace Priory, Joseph Rushton, City of Lincoln
Barnfield West Academy, Luton
Barnfield South Academy, Luton
Manchester Digital Communications Academy
Manchester Construction and the Built Environment Academy
Manchester Creative Media Academy
Manchester Finance and Professional Service Academy
Manchester Business Enterprise Academy
Manchester Health Academy
Milton Keynes, an Academy to replace Sir Frank Markham
The Open Academy, Norfolk
Havelock Academy, North East Lincolnshire
North Lincolnshire, an Academy to replace High Ridge
Hirst Academy, Northumberland
Nottingham Bulwell Academy
The Samworth University Academy, Nottingham
The Samworth Church Academy, Nottinghamshire
The Oxford Academy

St Anne's Academy, Rochdale
Salford, an Academy to replace Hope High
Shireland Collegiate Academy, Sandwell
George Salter Collegiate Academy, Sandwell
Walworth Academy, Southwark
St Michael's and All Angels CofE, Southwark
St Helens, an Academy to replace St Aelred's
Pennywell/Quarry View Academy, Sunderland
Castle view Academy, Sunderland
Red House Academy, Sunderland
New Charter Academy, Tameside
Telford and Wrekin, an Academy to replace Abraham Darby
Wellesley Academy, Wiltshire

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families if he will place in the Library a copy of the letter sent by the Department for Education and Skills to Partnerships for Schools asking it to take on the delivery of academies. [148921]

Jim Knight: The announcement that Partnerships for Schools (PfS) would take on delivery of the academies buildings programme was made on 23 March 2006 by written statement in the House of Commons and House of Lords, *Official Report*, column 28WS. This was then consolidated as part of the PfS business plan which is agreed with the Department.

Performing Arts: Licensing

Mr. Vaizey: To ask the Secretary of State for Children, Schools and Families (1) what discussions he has had with the entertainment industry on the effectiveness of child performance licensing by local authorities; [149123]

(2) what guidance his Department issues to local authorities on child performance licensing. [149124]

Kevin Brennan: The Department has not had recent discussions with the entertainment industry on the effectiveness of child performance licensing by local authorities and has not issued guidance to local authorities on child performance licensing. Local authorities are responsible for licensing children who take part in performances and for the enforcement of child performance legislation.

Playing Fields: Sales

Mr. Evans: To ask the Secretary of State for Children, Schools and Families what area of school playing fields in *(a)* England, *(b)* the North West and *(c)* Ribble Valley has been sold in the last 10 years. [149062]

Jim Knight: Since October 1998 the Secretary of State has approved 187 applications that involve the sale of an area of land capable of forming a sports pitch of at least 0.2 hectares at schools in England. Of these 89 were in respect of closed schools. The number of these at schools in the north-west is 34 (16 of these at closed schools). There have not been any applications approved that involve the sale of a sports pitch at a school in Ribble Valley. Prior to October 1998 there was no regulation of the sale of school playing fields at local authority schools.

Data on school playing fields were supplied to the Department by local authorities in 2001 and 2003. However, because the data were incomplete, it is not possible to assess accurately the number and area of school playing fields.

Primary Education: Class Sizes

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of Key Stage 2 pupils are in classes of 30 pupils or more. [149067]

Jim Knight: In January 2007, 23 per cent. of Key Stage 2 pupils were in one-teacher classes of 30 pupils or more.

Primary Education: Mathematics

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of children achieved *(a)* level 4 and above and *(b)* level 5 in Key Stage 2 (i) mathematics, (ii) English and (iii) science in each year since 1997; and if he will make a statement. [149120]

Jim Knight: Primary standards are at their highest levels ever. Since 1997 there have been significant improvements in the percentage of pupils achieving level 4 and level 5 in the National Curriculum tests.

Last year 79 per cent. of 11-year-olds achieved the target level 4 or above in English and 76 per cent. did so in maths. In 1997 less than two thirds of 11-year-olds reached this level in either subject (63 per cent. in English and 62 per cent. in maths). The proportion of 11-year-olds reaching level 5 has doubled in English since 1997—in 2006 32 per cent. reached this level compared with just 16 per cent. in 1997 and 33 per cent. did so in mathematics compared with 18 per cent. in 1997.

The information is shown in the following table.

Percentage of pupils at KS2 achieving level 4 or above and level 5 or above, 1995-2006—Key Stage 2

	Percentage at Level 4 or above	*Percentage at Level 5 or above*
English		
1995	49	7
1996	57	12
1997	63	16
1998	65	17
1999	71	22
2000	75	29
2001	75	29
2002	75	29
2003	75	27
2004	78	27
2005	79	27
2006	79	32
Mathematics		
1995	45	13
1996	54	14
1997	62	18
1998	59	17
1999	69	24
2000	72	25
2001	71	25
2002	73	28

Percentage of pupils at KS2 achieving level 4 or above and level 5 or above, 1995-2006—Key Stage 2

	Percentage at Level 4 or above	Percentage at Level 5 or above
2003	73	29
2004	74	31
2005	75	31
2006	76	33
Science		
1995	70	22
1996	62	14
1997	69	19
1998	69	16
1999	78	27
2000	85	34
2001	87	34
2002	86	38
2003	87	41
2004	86	43
2005	86	47
2006	87	46

Notes:
1. Figures for 2006 are based on revised data. Figures for all other years are based on final data.
2. Levels W and 1 were valid in 1995 and 1996 only. Level 6 was valid from 1995-2002 only.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) if the review of primary and early years mathematics teaching led by Sir Peter Williams will carry out a systematic review or meta-analysis of research literature on mathematics learning; [149631]

(2) if he will list the members of the review of primary and early years mathematics teaching led by Sir Peter Williams; [149632]

(3) whether the review of primary and early years mathematics teaching led by Sir Peter Williams will examine the curriculum standards of foreign countries that outperform England in international comparisons; [149633]

(4) whether the review of primary and early years mathematics teaching led by Sir Peter Williams will make recommendations on the content of the *(a)* primary mathematics curriculum and *(b)* primary national strategy; [149634]

(5) how much funding has been allocated to the review of primary and early years mathematics teaching led by Sir Peter Williams; [149635]

(6) when he expects the review of primary and early years mathematics teaching led by Sir Peter Williams to issue an *(a)* interim and *(b)* final report; [149636]

(7) what the terms of reference are of the review of primary and early years mathematics teaching led by Sir Peter Williams. [149637]

Jim Knight: The maths review will cover all of primary mathematics teaching up to the end of Key Stage 2 and will also look at the teaching of problem solving, reasoning and numeracy to 3 to 5-year-olds, as defined in the Early Years Foundation Stage (EYFS).

Through examination of the available evidence including international best practice and through engagement with the teaching profession, the review will consider and make recommendations in the following areas:

What is the most effective pedagogy of maths teaching in primary schools and early years settings. That consideration will include instructional methodologies, teaching and learning strategies, and lesson designs that are most effective in helping children to progress in their learning.

What range of provision best supports children across the full ability range, including the most gifted. The highest priority will be given to those who are not progressing fast enough to reach national expectations. The review will specifically make recommendations to inform the development of an early (age 5 to 7) intervention programme for children who are failing to master the basics of numeracy—"Every Child Counts".

What conceptual and subject knowledge of mathematics should be expected of primary school teachers and early years practitioners, and how should initial teaching training and continuing professional development be improved to secure that knowledge.

What is the most effective design and sequencing of the design and sequencing of the mathematics curriculum. Recommendations in this area will inform a future review of the primary curriculum as a whole.

How should parents and families best be helped to support young children's mathematical development.

The review will build on the recent renewal of the primary framework for mathematics and the EYFS.

The review will start in September with an interim report being produced in March and a final report published in June 2008.

We will discuss further details of the conduct of the review as well as potential advisers and funding implications with Sir Peter Williams in due course.

A copy of the letter from the Secretary of State to Sir Peter Williams, setting out the terms of reference for the review, has been placed in the House Libraries.

Private Education

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of children were educated in independent schools in each year from 1997 to 2007. [149079]

Jim Knight: The available information is contained in the following table. These figures are based on children of all ages.

Proportion of children[1] who have been educated in independent schools[2]

	Percentage
1997	6.74
1998	6.73
1999	6.72
2000	6.72
2001	6.80
2002	6.91
2003	6.97
2004	7.04
2005	7.01
2006	7.07
2007	7.09

[1] Excludes dually registered pupils.
[2] Excludes CTCs and academies.

Schools' Census

Private Education: Playing Fields

Mr. Evans: To ask the Secretary of State for Children, Schools and Families (1) what the average area is of playing fields per school for independent schools in *(a)* the North West and *(b)* England; [150012]

(2) what the average area is of playing fields per school for state schools in *(a)* the North West and *(b)* England. [150013]

Jim Knight: The information requested is not held centrally. Data on state school playing fields were supplied to the Department by local authorities in 2001 and 2003. However, because the data were incomplete, it is not possible to assess accurately the number and area of school playing fields.

Pupil Exclusions

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the major causes were of permanent exclusions from English schools in the latest 12 months for which information is available; and if he will make a statement. [149154]

Jim Knight: The available information is contained in the following table. Information is not collected for primary schools.

Maintained secondary schools[1, 2]: number and percentage of permanent and fixed period exclusions by reason for exclusion: England, 2005/06

	Number of permanent exclusions[3]	Percentage of all permanent exclusions[3, 4]	Number of fixed period exclusions	Percentage of all fixed period exclusions[4]
Physical assault against a pupil	1,260	16	62,670	18
Physical assault against an adult	740	9	8,240	2
Verbal abuse/ threatening behaviour against a pupil	330	4	12,730	4
Verbal abuse/ threatening behaviour against an adult	900	11	79,370	23
Bullying	80	1	5,270	2
Racist abuse	30	0	3,370	1
Sexual misconduct	110	1	2,620	1
Drug and alcohol related	450	6	8,360	2
Damage	170	2	9,390	3
Theft	220	3	7,770	2
Persistent disruptive behaviour	2,370	30	72,340	21
Other	1,340	17	71,720	21
Total (5)	7,990	100	343,840	100

[1] Includes middle schools as deemed.
[2] For the 2005/06 school year, information on the reason for exclusion was collected via the School Census for the first time for secondary schools only (the Termly Exclusions Survey has discontinued). For exclusions during 2006/07, information on the reason for exclusion will also be collected from primary and special schools.
[3] Estimates based on incomplete pupil level data.
[4] The number of exclusions by reason expressed as a percentage of the total number of exclusions.
[5] There were two permanent and four fixed period exclusions for which circumstance were not known—these were included in the 'total' column only.
Note:
Totals may not appear to equal the sum of component parts because numbers have been rounded to the nearest 10.
Source:
School Census

This table was published as part of the recent Statistical First Release on exclusions which can be found at

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000733/index.shtml.

Pupils: Medical Treatments

Mr. Burstow: To ask the Secretary of State for Children, Schools and Families (1) what assessment he has made of the provision by schools of emergency medical treatment for pupils; and if he will make a statement; [148751]

(2) what *(a)* representations and *(b)* reports he has received on the (i) implementation, (ii) effectiveness and (iii) adequacy of supporting materials of the document Managing Medicines in Schools and Early Years Settings; and if he will make a statement; [148752]

(3) what assessment he has made of the cost-effectiveness of arrangements to duplicate sets of emergency medication for children deemed at risk of medical emergency; and if he will make a statement. [148753]

Jim Knight: We have issued guidelines on, but do not assess, English schools' provision of first aid and their management of prescribed medicines, including duplicate sets, for pupils whose health might suffer without routine medication during the school day. Our guidance 'Managing Medicines in Schools and Early Years Settings' signposts school staff and parents to information provided by the four leading charities for anaphylaxis, asthma, diabetes and epilepsy, with whom my officials meet regularly.

Pupils: Per Capita Costs

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what his estimate is of the average level of funding per pupil in *(a)* state funded secondary schools and *(b)* private sector day schools in each year since 1990-91; and if he will make a statement. [149150]

Jim Knight: The information is as follows:

Average level of funding per pupil in (a) state funded secondary schools

The average revenue funding figures per pupil aged 11 to 15 for years 1997-98 to 2005-06 are as follows. These figures are in real terms. Comparable figures are not available for 1990-91 to 1996-97.

	Secondary (11 to 15-year-olds)
1997-98	3,390
1998-99	3,470
1999-2000	3,610
2000-01	3,900
2001-02	4,110
2002-03	4,210
2003-04	4,280
2004-05	4,450
2005-06	4,640

Notes: 1.
Price Base: Real terms at 2005-06 prices, based on GDP deflators as at 27 September 2006.
2. Figures reflect relevant sub-blocks of Standard Spending Assessment/Education Formula Spending (EFS) settlements and exclude the pensions transfer to EFS.
3. Total funding also includes all revenue grants in DfES departmental expenditure Limits relevant to pupils aged 11 to 15 and exclude education maintenance allowances (EMAs) and grants not allocated at LEA level.
4. The pupil numbers used to convert m figures to per pupil are those underlying the SSA/EFS settlement calculations.
5. Rounding: Figures are rounded to the nearest £10.
6. Status: Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal.

The revenue per pupil figures shown in the following table are taken from the new dedicated schools grant (DSG) and are in cash terms. They are not comparable with those for the years 1997-98 to 2005-06 because the introduction of the DSG in 2006-07 fundamentally changed how local authorities are funded. As the DSG is just a mechanism for distributing funding there is not a primary/secondary split available. The figures are for all funded pupils aged three to 15.

DSG	
2005-06 Baseline	3,411
2006-07	3,643
2007-08	3,888

Average level of funding per pupil for (b) private sector day schools

Data for part *(b)* are not collected by the Department. However, the Independent Schools Council Census provides indications of average termly fees, in real terms based on 2005-06 prices, for day pupils as shown in the following table:

(b) Average Fees for Day Pupils in Independent Schools

ISC Census Academic Year	*Termly fees*	*Annual fees (termly fees *3)*
1989/90	1,621	4,864
1990/91	1,691	5,072
1991/92	1,803	5,409
1992/93	1,894	5,682
1993/94	1,885	5,655
1994/95	1,936	5,809
1995/96	1,996	5,989
1996/97	2,026	6,077
1997/98	2,074	6,223
1998/99	2,146	6,437
1999/2000	2,242	6,726
2000/01	2,360	7,079
2001/02	2,486	7,457
2002/03	2,584	7,752
2003/04	2,764	8,291
2004/05	2,852	8,555
2005/06	2,980	8,940
2006/07	3,123	9,368

Pupils: Questionnaires

Mr. Redwood: To ask the Secretary of State for Children, Schools and Families what the Government's policy is on asking 10-year-olds about drink and drugs in official surveys. [149437]

Jim Knight: The Government are committed to reducing substance misuse-related harm among young people. We know that some young people begin to experiment with smoking, alcohol and drugs at an early age. We also know that, the earlier they start to use drugs and alcohol frequently, the more likelihood there is of long-term harm. Understanding the extent of young people's use of drugs and alcohol at a local level is key to identifying problems early and providing effective prevention.

The Tellus survey conducted by Ofsted asks year 6 (age 10) primary school pupils about smoking and alcohol use, but does not ask about illicit drug use until pupils are in secondary school.

Pupils: Tamworth

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families how much was spent per pupil in Tamworth in each year since 1997. [148702]

Jim Knight: The requested information is allocated to local authorities and not at constituency level. The Tamworth constituency is part of Staffordshire LA. The revenue funding figures per pupil in Staffordshire in each year since 1997 are provided in the following table:

Staffordshire

	£ *Revenue funding per pupil*
1997-98	2,310
1998-99	2,480
1999-2000	2,510
2000-01	2,650
2001-02	2,940
2002-03	3,100
2003-04	3,360

Staffordshire

	£ *Revenue funding per pupil*
2004-05	3,660
2005-06	4,040

Notes:
1. The combined LA and school based expenditure includes all expenditure on the education of children in LA maintained establishments and pupils educated by the LA other than in maintained establishments. This includes both school based expenditure and all elements of central LA expenditure except youth and community and capital expenditure from revenue (CERA). A sector breakdown for combined LA and school based expenditure is not available from 2002-03 and consequently this table shows the total LA recurrent expenditure (except youth and community) per pupil by LA since 1995-96.
2. 1999-2000 saw a change in data source when the data collection moved from the R01 form collected by the ODPM to the section 52 outturn forms collected by the DfES. 2002-03 saw a further break in the time series following the introduction of consistent financial reporting (CFR) and the associated restructuring of the outturn tables. The change in sources is shown by the line.
3. Pupil figures include all pre-primary pupils, including those under-fives funded by the LA and being educated in private settings, pupils educated in maintained mainstream schools and other LA maintained pupils. The pupil data for pupils attending maintained mainstream schools and other LA maintained pupils. The pupil data for pupils attending maintained nursery, primary, secondary and special schools are taken from the DfES annual schools census. Private voluntary and independent (PVI) under-five pupil numbers are taken from the Early Years census but are only included for 1999-2000 onwards. For 1998-99 onwards other LA maintained pupils are included in the pupil count. This includes all pupils attending schools not maintained by the authority for whom the authority is paying full tuition fees, or educated otherwise than in schools and pupil referral units under arrangements made by the authority drawn from form 8b submitted to the DfES. Also included as other LA maintained pupils are all pupils attending pupil referral units who are not registered at a maintained school drawn from the DfES annual school census. All pupil numbers are adjusted to be on a financial year basis.
4. Figures are rounded to the nearest 10 and are subject to change by the LA.

School Leaving: Lancashire

Mr. Evans: To ask the Secretary of State for Children, Schools and Families how many students in the Ribble Valley constituency left full-time education at the age of 16 in each of the last 10 years. [148985]

Jim Knight *[holding answer 11 July 2007]:* Participation of 16-year-olds in education and training is published in the Statistical First Release: Participation in Education and Training by 16 and 17-year-olds in each local area in England. The following table shows the percentage of 16-year-olds participating in full-time education together with the population estimate for Lancashire local authority. Although the remaining young people are not in full-time education, many are in apprenticeships or part-time education. The latest year for which data are available is end 2005.

	Percentage of 16-year-olds in full-time education	*16-year-old population*
2005	71	15,700
2004	69	16,000
2003	66	16,000
2002	66	15,000
2001	65	15,000
2000	66	15,000
1999	66	15,000
1998	64	14,000
1997	65	18,000
1996	65	18,000

These figures are not currently available at parliamentary constituency level.

Schools: Assessments

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what plans he has to give schools additional flexibility on school testing; and if he will make a statement. [149893]

Jim Knight: Schools within the Making Good Progress pilot will be trialling 'single level' tests. There will be tests available from level 3 to level 8 of the national curriculum in reading, writing and mathematics. Teachers in pilot schools will have two opportunities a year to enter pupils in any year group within Key Stage 2 or 3 for a test when they judge that they are performing securely at that level. The pilot will last for two years from September 2007 and for its duration pupils will also continue to sit end-of-Key-Stage tests.

Schools: Capital Investment

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what his most recent estimate is of capital spending in real terms on schools in each year from 1996-97 to 2010-11; and if he will make a statement. [149068]

Jim Knight: The Department does not maintain records centrally of capital spending in schools. This is because allocations from the Department are pooled with other resources available to each local authority, which then decides how much should be spent on schools, and on the timing of spend. Particularly, Devolved Formula Capital, which is for schools' own use, can be saved up by schools for three years or longer to finance larger capital projects.

The following table shows capital allocations to local authorities and schools in each year from 1996-97 to 2007-08, using the GDP deflator to adjust to 2005-06 prices.

Allocations have not yet been confirmed for each year in the period 2008-09 to 2010-11 and are not shown. However, in cash terms, they are planned to rise to £8.0 million by 2010-11. The GDP deflator has the effect of increasing cash values before 2005-06, and reducing cash values from 2006-07.

	Capital allocations to local authorities (£ billion)
1996-97	0.7
1997-98	0.9
1998-99	1.1
1999-2000	1.2
2000-01	2.1
2001-02	2.1
2002-03	3.5

	Capital allocations to local authorities (£ billion)
2003-04	4.1
2004-05	4.7
2005-06	5.6
2006-07	5.7
2007-08	6.1

The Department for Communities and Local Government receives information on capital spend from local authorities. This will differ from the allocation figures shown above, due to timing differences.

Schools: Chelmsford

Mr. Burns: To ask the Secretary of State for Children, Schools and Families how many pupils in *(a)* West Chelmsford and *(b)* Chelmsford local authority area are at (i) primary and (ii) secondary school. [149605]

Jim Knight: Chelmsford is not a local authority area. The available information has been provided for West Chelmsford parliamentary constituency and Essex local authority area.

All schools: number (headcount) of pupils [1]—As at January 2007 (provisional)

	Headcount of pupils	
	West Chelmsford parliamentary constituency	*Essex local constituency authority area*
Maintained Nursery	181	291
Maintained Primary	7,934	105,552
Maintained Secondary	8,678	90,503
Maintained Special	238	1,840
Non-Maintained Special	[2]—	102
Pupil Referral Units	[2]—	326
Independent Schools	1,618	11,466
City Technology Colleges and Academies	[2]—	[2]—

[1] Excludes dually registered pupils. Includes pupils with other providers in Pupil Referral Units.
[2] Not applicable, no schools of this type
Source:
School Census

Schools: Curriculum

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what changes there were to the schools curriculum in each year from 1992-93 to 9 July 2007; and if he will make a statement. [149122]

Jim Knight: In 1993 Sir Ron Dearing was asked by the Government to review the National Curriculum and its assessment. As a result, a revised version of the curriculum was produced in 1995. The key changes were:

- a reduction in prescribed content;
- increased flexibility;
- statutory testing being limited to core subjects only;
- the introduction of information and communication technology—to be taught as a subject in its own right and through other subjects;
- a reduction in the number of compulsory subjects at KS4; and
- replacing statements of attainment for teacher assessment with eight level descriptions for each subject and end of key stage statements for art, music and P.E.

The curriculum underwent further revision in 2000. The key principles of the 2000 review included:

- improving the coherence and alignment of subjects—including through a common format for programmes of study;
- reducing duplication and prescription across subjects;
- introducing citizenship as a subject at Key Stages 3 and 4;
- allowing more flexibility at Key Stage 4; and
- developing an overt statement of the aims and purposes of the curriculum.

In September 2004, the Key Stage 4 curriculum was amended to reduce the number of compulsory National Curriculum subjects to six: English, mathematics, science, ICT, citizenship and physical education. We also introduced entitlement areas in languages, design and technology, the arts, and humanities.

In 2006, the Education and Inspections Bill introduced a new statutory entitlement for all Key Stage 4 students to study science programmes leading to at least two GCSEs, and an entitlement to diplomas.

A review of the secondary curriculum is currently under way and will be rolled out to secondary schools from September 2008. The new secondary curriculum will:

- further reduce prescription over subject content;
- create flexibility for teachers to support pupils who are struggling to master the basic skills of English and maths;
- free up time and space for greater personalisation of the curriculum, allowing pupils to study some areas in more depth;
- highlight connections across and between the subjects; and
- give a new emphasis to the development of personal and life skills.

Schools: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what real terms change in schools funding he plans for each year from 2007-08 to 2015-16; and if he will make a statement. [149109]

Jim Knight: The Spending Review settlement provided for a significant increase in DfES funding over the next three years to reach £75.5 billion by 2010-11, approximately £11 billion higher than in 2007-08. DCSF is still agreeing the exact split of budgets with DIUS so it is not possible to give the real term increases in school funding from 2008-11 at this moment. We will announce the increase in school funding in the autumn. The level of school funding from 2012-16 will not be known until the DCSF receives its allocation in the next Spending Review.

Schools: Information and Communications Technology

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what representations he has received on the health impact of interactive whiteboards. [148759]

Jim Knight: We have received a number of representations from the media, schools, the public and industry over the last few years. Our consistent view is that there are no health risks associated with the use of interactive whiteboards in schools if the boards are used in accordance with the guidelines issued by the British Educational Communications and Technology Agency on behalf of the Department. These guidelines, developed in collaboration with the Health and Safety Executive and the National Radiological Protection Board, are publicly available to all schools and interested parties.

Schools: Teaching Methods

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families if he will make a statement on the implementation of personalised learning in schools. [148225]

Jim Knight: The Secretary of State announced new plans on Tuesday 10 July to encourage a personalised approach to teaching and learning in schools, with a focus on ensuring that every child has the chance to make the most of their talents and fulfil their potential.

We will be providing £150 million for Assessment for Learning training over the next three years to help teachers better track their pupils' progress and personalise their learning to stretch gifted children and help underachieving children catch up. Assessment for learning plays a critical role in helping teachers monitor the progress of every pupil against their own individual expectations and triggering swift intervention for those pupils whose progress slows.

There will be a major review of maths teaching in primary schools which will seek to define the most effective methods of teaching and learning maths to develop pupils' deeper understanding; and this will inform the design of Every Child Counts, a new intervention programme for young children who are struggling with numeracy.

The Secretary of State has also announced a £265 million extended schools subsidy over the next three years to ensure that children from disadvantaged backgrounds benefit from extra out-of-hours tuition and after-school clubs in sport, music and drama.

Personalised learning means taking a highly structured approach to pupils' progress in the round, encouraging pupils to take ownership of their own learning, and engaging with their parents as partners. These new programmes build on the work already under way, such as the Making Good Progress Pilots and supporting the well-being of children and young people through the roll-out of the Social and Emotional Aspects of Learning (SEAL) programme.

Secondary Education

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the potential impact of the increased flexibility of the proposed Key Stage 3 programmes of study proposed in the report of the secondary curriculum review on the effectiveness of Key Stage 3 assessment. [148137]

Jim Knight: The proposed changes to Key Stage 3 programmes of study will not change the requirements for testing in the Key Stage 3 core subjects of English, maths and science. In its regulatory role, QCA is responsible for ensuring the maintenance of standards over time, taking account of any changes to the curriculum.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the average size, by pupil numbers, of English secondary schools was in each year from 1990 to 2007; and if he will make a statement. [149108]

Jim Knight: The available information is given in the following table.

Secondary schools[1]: average size of school based on full-time equivalent pupils[2,3] Position in January each year: 1997 to 2006—England

	Average size of school
1997	852
1998	861
1999	877
2000	890
2001	928
2002	944
2003	962
2004	975
2005	980
2006	982
2007	978

[1] Includes middle schools as deemed.
[2] Excludes dually registered pupils.
[3] Part-time pupils are counted as 0.5 full-time equivalents.
Note:
Figures for earlier years are not readily available.
Source:
School Census

Along with the average school size, it is also important to consider the spread of school sizes, information on which is given for 2006 and 2007 in the table as follows:

Maintained secondary schools: number of schools by size[1] At January each year—England

	2006		*2007*	
School size	*Number*	*Percentage*	*Number*	*Percentage*
Up to 100	3	0	6	0
101 to 200	26	1	31	1
201 to 300	51	2	51	2
301 to 400	100	3	108	3
400 to 500	159	5	152	5
501 to 600	186	6	178	5
601 to 700	233	7	240	7
701 to 800	330	10	345	10
801 to 900	366	11	364	11
901 to 1,000	361	11	337	10
1,001 to 1,100	334	10	359	11
1,101 to 1,200	304	9	268	8
1,201 to 1,300	241	7	243	7
1,301 to 1,400	236	7	226	7

Maintained secondary schools: number of schools by size[1] At January each year—England

	2006		2007	
School size	*Number*	*Percentage*	*Number*	*Percentage*
1,401 to 1,500	159	5	149	4
1,501 to 1,600	96	3	97	3
1,601 to 1,700	67	2	70	2
1,701 to 1,800	48	1	50	1
1,801 and over	67	2	69	2
Total	3,367	100	3,343	100

Source:
School Census

Figures included in this response do not include Academies.

Secondary Education: Carlisle

Mr. Martlew: To ask the Secretary of State for Children, Schools and Families what recent discussions officials in his Department have had with Cumbria county council on secondary education provision in Carlisle; and if he will make a statement. [149624]

Jim Knight: Officials from across the DCSF have met with officers from Cumbria county council on a number of occasions to discuss the planned city-wide secondary school reorganisation in Carlisle. There have been ongoing discussions relating to the capital investment in Carlisle in response to the January 2005 floods and how it will be used to raise standards in education across the city. This includes working with the council on the academy proposal to replace St. Aidan's school and about finding sponsorship for a possible second academy in Carlisle, based on the Morton school which is currently in special measures.

Secondary Education: Class Sizes

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of secondary school pupils were in classes with over *(a)* 30 pupils, *(b)* 25 pupils and *(c)* 20 pupils in each year from 1990-91 to 2007-08. [149107]

Jim Knight: The available information is contained in the following table. Data on classes of over 25 and 20 pupils are not readily available. The available relevant data have been italicised. Note that these figures do not include academies.

Maintained secondary schools: classes as taught[1,2]—Position in January each year: 2003 to 2007[3], England

	2003	*2004*	*2005*	*2006*	*2007[3]*
Secondary schools					
Average class size	21.9	21.8	21.7	21.5	21.3
Total number of classes	142,190	143,650	143,500	144,330	144,420
Percentage of classes with					
1 to 30 pupils	92.0	91.8	92.3	92.4	92.7

Percentage of pupils in classes with					
1 to 30 pupils	88.3	88.0	88.6	88.7	89.0
31 to 35 pupils	*11.5*	*11.7*	*11.2*	*11.0*	*10.7*
36 or more pupils	*0.2*	*0.2*	*0.3*	*0.3*	*0.3*

[1] One teacher classes as taught during a single selected period in each school on the day of the census in January.
[2] Includes middle schools as deemed.
[3] Provisional. Source: School Census

The contents of this table were published as part of the recent Statistical First Release on pupil characteristics which can be found at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000726/index.shtml

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) what his most recent estimate is of the pupil-teacher ratios in secondary schools in the *(a)* state and *(b)* private sector; and if he will make a statement; [149110]

(2) what the pupil-to-teacher ratio was in English *(a)* primary and *(b)* secondary schools in (i) 2006 and (ii) 2007. [149203]

Jim Knight: In January 2007 the pupil-teacher ratio was 21.8 in English local authority maintained primary schools and 16.5 in secondary schools. These figures are the latest available and are provisional. The equivalent figures for 2006 are 22.0 and 16.6 respectively. This information is from the Department of Children, Schools and Families School Census.

No estimate has been made of pupil-teacher ratios in private sector secondary schools.

Secondary Education: Colchester

Bob Russell: To ask the Secretary of State for Children, Schools and Families (1) pursuant to the answer of 9 July 2007, *Official Report*, column 1218W, on secondary education: Colchester, if he will list the other issues discussed by senior officials from his Department and officers from Essex county council; [149366]

(2) pursuant to the answer of 9 July 2007, *Official Report*, column 1218W, on secondary education: Colchester, on which dates senior officials from his Department met officers from Essex county council to discuss secondary school provision in Colchester. [149367]

Jim Knight *[holding answer 12 July 2007]:* The officials met officers from Essex county council most recently on 22 May, 20 June, 28 June and 10 July of this year.

In addition to secondary provision in Colchester, issues discussed at these meetings included the primary capital programme (for which Essex is a pathfinder), school organisation plans, sixth form provision in relation to academies, the role of national leaders in education, and schools in other areas in Essex that are in special measures or currently causing concern.

Specialist Schools: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many specialist schools there were in each year from 1997 to 2007; what assessment he has made of the effectiveness of specialist schools in raising performance; and if he will make a statement. [149070]

Jim Knight: The number of specialist schools in each year from 1997 to 2007 is as follows:

	Number
1997	221
1998	304
1999	377
2000	513
2001	664
2002	972
2003	1,435
2004	1,945
2005	2,376
2006	2,607
2007	2,807

Research evidence on the impact of the specialist school programme (SSP) to date is positive both in terms of the impact on attainment and in terms of the wider reported benefits on school ethos, teaching and learning and pupil motivation. There have been several independent assessments of the programmes, for example:

London School of Economics (2000);

OFSTED evaluations of the progress of Specialist Schools 2001 and 2005;

"A Study of the Specialist Schools Programme", Institute of Education, University of Warwick 2004.

The evidence shows that specialist schools outperform non-specialist schools. On overall school improvement and value added measures, specialist schools' results have delivered higher standards for children since their inception.

Specialist schools are the future of secondary education in England. We want every secondary school that meets the criteria to attain specialist status. We are well on track to meet our target of 95 per cent. of eligible secondary schools to be specialist by 2008. Currently over 2.8 millions students attend specialist schools.

All specialist schools must work with partner schools and the wider community and we are keen to exploit the strengths of our strongest schools to lead system-wide reform. There are over 550 high performing specialist schools which have taken on additional options extending their partnership working with other schools. We have also a very small scale pilot testing exploring specialism in primary schools.

Teachers: Assessments

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families (1) to which key stage level in the national curriculum each of the qualified teacher status skills tests is roughly equivalent; [148857]

(2) how many times the qualified teacher status skills tests were *(a)* sat and *(b)* passed in each financial year since they were introduced, broken down by type of test; [148858]

(3) what the total cost of administering the skills tests was in each financial year since the qualified teacher status skills tests were introduced. [148859]

Jim Knight: The qualified teacher status (QTS) skills tests equate to key stage 4 of the national curriculum.

The Training and Development Agency for Schools (TDA) holds data on the number of QTS skills tests attempted by teacher trainees who successfully passed the tests, but not on those who have not successfully passed the tests. The available data on numbers of tests attempted are collected on an academic, rather than financial year, basis. The following table shows for each of the academic years 2000/01 to 2005/06 and for each test, the number of teacher trainees who successfully passed that test in that year, the mean number of attempts taken and, therefore, the total number of tests attempted by them. The table also shows for each year and for each test, the number of teacher trainees who either did not attempt the test or who did not pass the test during that period.

The total cost to the TDA for administering the skill tests in each financial year since their introduction in 1999 is as follows:

Financial year	*Total cost for year (£)*
1999-2000	1,803,000
2000-01	5,245,000
2001-02	5,972,000
2002-03	4,132,000
2003-04	5,349,000
2004-05	4,722,000
2005-06	4,262,000
2006-07	4,024,000
2007-08 (forecast)	3,654,000
Total costs	39,163,000

	2000/01	2001/02	2002/03	2003/04	2004/05	2005/06
Numeracy						
Passed	22,949	25,984	29,088	31,306	33,247	34,126
Mean number of attempts required to pass	1.28	1.28	1.31	1.36	1.49	1.49
Approximate number of tests sat by those who passed	29,375	33,260	38,105	42,576	49,538	50,848

Approximate number of trainees who did not pass the tests	n/a	232	496	659	587	702

Teachers: Pay

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families what the pay scale was of a qualified teacher with seven years' experience in each year since 1996. [148819]

Jim Knight: The basic pay for a full-time qualified classroom teacher with seven years' experience, and a good honours degree, in each year since 1996 is set out in the following table.

£

	Spine point	Annual salary England and Wales (excluding the London area)	
		Pay spine A (until 30 November)	*Pay Spine B (from 1 December)*
1996	9	20,700	20,901
1997	9	21,318	21,591
1998	9	22,023	22,410
1999	9	23,193	
2000	9	23,958	
2001	9	24,843	
2002	U1	27,861	
2003	U1	28,668	
2004	U1	29,385	
2005	U1	30,339	
2006	U1	31,098	

The table reflects the structural changes to teachers' pay over the years in question, including the introduction of the upper pay scale in 2000, and assumes a rate of progression achieved by the majority of classroom teachers. Some teachers could have progressed to higher pay levels due to excellent performance or relevant previous experience attracting a higher starting point, or may have moved to the Advanced Skills Teacher or Leadership Group spines. The figures are based on the pay rates for England and Wales. Pay rates are higher for the London area. The figures do not include the additional pay teachers may receive which currently include:

Teaching and Learning Responsibility payments—which currently range from £2,306 to £11,275.

Special Educational Needs allowances—currently £1,818 or £3,597.

Recruitment and retention incentives and benefits—as approved by the governing body or local authority.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the average salary was of *(a)* a primary school teacher, *(b)* a primary school head teacher, *(c)* a secondary school teacher and *(d)* a secondary school head teacher in (i) cash terms and (ii) real terms in each year since 1995; and if he will make a statement. [149061]

Jim Knight: The following table shows the average salary of nursery, primary and secondary classroom and head teachers in each March between 1995 and 2005, the latest year available. The figures are given in cash terms and adjusted for inflation using the HM Treasury GDP deflator.

Average salary of full-time regular qualified classroom[1] and head teachers in nursery, primary and secondary schools, March of each year—England and Wales

£

	Nursery and primary schools				*Secondary schools*			
	Classroom teachers		*Head teachers*		*Classroom teachers*		*Head teachers*	
	Cash	*Adjusted[2]*	*Cash*	*Adjusted[2]*	*Cash*	*Adjusted[2]*	*Cash*	*Adjusted[2]*
1995	19,300	25,100	28,000	36,300	21,400	27,800	38,500	50,000
1996	19,800	24,900	28,900	36,400	21,900	27,600	39,800	50,200
1997	20,400	24,900	30,100	36,600	22,600	27,600	41,500	50,700
1998	20,900	24,800	31,100	36,900	23,300	27,600	43,000	50,900
1999	21,700	25,100	32,500	37,600	24,200	27,900	44,800	51,700
2000	22,500	25,500	35,100	39,800	25,000	28,300	48,200	54,600
2001	24,000	26,800	37,300	41,600	26,600	29,800	50,600	56,500
2002	25,200	27,500	39,400	43,000	28,000	30,600	54,100	58,900
2003	26,800	28,300	41,800	44,200	29,700	31,400	57,600	60,900
2004[3]	27,800	28,600	44,000	45,200	30,800	31,600	60,500	62,200
2005[3]	28,800	28,800	46,000	46,000	31,800	31,800	63,600	63,600

[1] Classroom teachers include teachers on the main, upper and AST pay scales.
[2] Adjusted for inflation using HM Treasury GDP deflator where 2004/05 = 100
[3] Provisional estimates.
Note:
Figures are rounded to the nearest £100.
Source:
Database of Teacher Records

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families what the pay scales for a newly qualified teacher were in each year since 1996. [149268]

Jim Knight: The minimum pay rate for full-time newly-qualified classroom teachers, in each year since 1996, is set out in the following tables:

	Spine point	*Annual salary England and Wales (excluding the London area) (£)*	
		Pay spine A (until 30 November)	*Pay spine B (from 1 December)*
1996	0	12,342	12,462
1997	0	12,711	12,873
1998	0	13,131	13,362
1999	1	14,658	

	Scale point	*Annual salary England and Wales (excluding the London area) (£)*	
		Pay spine A (until 30 November)	*Pay spine B (from 1 December)*
2000	1	15,141	
2001	1	16,038	

	Scale point	*Annual salary England and Wales (excluding the London area) (£)*	
		From 1 April 2002	*From 1 September 2002*
2002	1	(1) 16,599	(M1) 17,595

	Scale point	*Annual salary England and Wales (excluding the London area) (£)*	
		From 1 April 2002	*From 1 September 2002*
2003	M1	18,105	
2004	M1	18,558	
2005	M1	19,161	
2006	M1	19,641	

The table reflects the structural changes to teachers' pay over the years in question, including the shortening of the pay scale and assimilation to the new shortened pay scale in 2002. It assumes that all newly-qualified classroom teachers started on the lowest point of the pay scale, though until September 2002 all newly-qualified teachers would have started above the minimum point if they had a good honours degree. In addition, those with relevant previous experience may receive one or more additional points. The figures are based on the pay rates for England and Wales. Pay rates are higher for the London area. No allowances or incentives are included.

Teachers: Qualifications

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effect on the educational attainment of pupils of being taught by teachers who have no formal qualification in the subject they are teaching; and how many such teachers there are, broken down by *(a)* region and *(b)* subject. [148698]

Jim Knight: No assessment has been made of the effect on the educational attainment of pupils of being taught by teachers who have no formal qualifications in the subjects they are teaching.

The following table shows the number of teachers teaching each subject and their highest post A-level qualification in that subject. For example, it shows that in November 2002 an estimated[1] 28,200 teachers were teaching maths and, of these, between 22 per cent. and 26 per cent. held no post A-level qualification in maths. The same information is not available by region.

The information was first published in the 2003 National Statistics Volume "Statistics of Education: School Workforce in England", available at http://www.dfes.gov.uk/rsgateway/DB/VOL/v000443/WorkforceinEngland.pdf. A copy is available in the House of Commons Library.

The data were collected in the 2002 Secondary School Curriculum and Staffing Survey.

A repeat of the survey was carried out in February 2007 and results should be published towards the end of the summer.

Full-time teachers in maintained secondary schools—highest post A-level qualifications[1] held in the subjects they teach[2] to year groups 7-13, England

Total[2, 7]	33 ± -	10 ± -	7 ± -	5 ± -	1 ± -	44 ± -	388.4

'-' = zero or less than 0.5.

[1] Where a teacher has more than one post A-level qualification in the same subject, the qualification level is determined by the highest level reading from left (Degree) to right (Other Qual.). For example, teachers shown under PGCE have a PGCE but not a degree or BEd in the subject, while those with a PGCE and a degree are shown only under Degree.

[2] Teachers are counted once against each subject which they are teaching.

[3] Includes higher degrees but excludes BEds.

[4] Teachers qualified in combined/general science are treated as qualified to teach biology, chemistry, or physics. Teachers qualified in biology, chemistry or physics are treated as qualified to teach combined/general science.

[5] Teachers qualified in other/combined technology are treated as qualified to teach design and technology or information and communication technology. Teachers qualified in design and technology or information and communication technology are treated as qualified to teach other/combined technology.

[6] Information and Communication Technology is abbreviated as ICT and Personal Social and Health Education is abbreviated as PSHE.

[7] 'Other' not included in total percentages.

Secondary Schools Curriculum and Staffing Survey 2002.

Teachers: Science

Mr. Boris Johnson: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 4 July 2007, *Official Report*, column 1099W, on teachers: science, what steps he is taking to ensure that there is a sufficient number of new teachers with a specialism in *(a)* physics and *(b)* chemistry. [149159]

Jim Knight: We are providing a bursary of £9,000 to PGCE trainee teachers in the sciences and a golden hello of £5,000 after their first year of teaching. As a further incentive, providers of teacher training receive an additional 'bounty' of £1,000 for every place on a science course which is taken up by a physics or chemistry graduate.

The Training and Development Agency for Schools (TDA) funds enhancement courses to increase the number of specialist mathematics, physics and chemistry teachers. These courses have enabled over 1,000 additional people to qualify to teach in these subjects.

Over the last five years we have been running the Student Associate Scheme which focuses on physics and chemistry and places high quality undergraduates in schools for up to 20 days to provide curriculum support for teachers and to carry out project work with pupils. It also gives participants a taste of teaching as a career. The Secretary of State for Department for Innovation, Universities and Skills (DIUS) has just announced that participation in the scheme is to be doubled.

The TDA's highly successful advertising campaign has also contributed significantly to increases in teacher recruitment, and is now concentrating on attracting teachers to priority subjects, including mathematics, physics and chemistry.

Vacancy rates for science teachers in secondary schools have fallen by almost half—from 1.6 per cent. in 2001 to 0.9 per cent. in 2006, when 3,007 people started mainstream teacher training in science. Of these, 12 per cent. were studying physics, 18 per cent. chemistry, 30 per cent. biology and 40 per cent. general science.

Teachers: Tamworth

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families how many *(a)* teachers and *(b)* teaching assistants were employed in (i) primary and (ii) secondary schools in Tamworth in (A) 1997 and (B) at the last date for which figures are available. [148793]

Jim Knight: The following table provides the full-time equivalent number of teachers and teaching assistants employed in local authority maintained nursery/primary and secondary schools in Tamworth constituency in January 1997 and 2006, the latest year for which figures are available at this level.

Constituency level information for 2007 will become available in September.

Full-time equivalent number of regular teachers and teaching assistants in service in nursery/primary and secondary schools in Tamworth constituency, January 1997 and 2006

	Teachers		Teaching assistants	
	Nursery/ primary	*Secondary*	*Nursery/ primary*	*Secondary*
1997	370	360	130	60
2006	360	390	270	150

Note:
Figures are rounded to the nearest 10.
Source:
School Census

Young People: Parents

Mr. Laws: To ask the Secretary of State for Children, Schools and Families when he plans to publish his strategy on teenage parents; and if he will make a statement. [149867]

Beverley Hughes: We plan to publish the strategy shortly. The original teenage pregnancy strategy—published in 1999—included action both to reduce the rate of teenage pregnancies and to provide better support for teenage parents. We have made steady progress in reducing the teenage pregnancy rate. The latest data (2005) show that the under-18 conception rate has fallen by 11.8 per cent. since the strategy's baseline year (1998), to its lowest level for over 20 years.

The refreshed 'support' strategy which we will be issuing aims teenage mothers having fewer or to reduce the risk of subsequent pregnancies and to improve the lives of teenage parents and their children, who are at high risk of poor outcomes; including:

- Poor child health outcomes, such as a 60 per cent. higher rate of infant mortality and increased risk of low birth weight;
- Poor emotional health and well-being experienced by teenage mothers; and
- Increased risk that teenage parents and their children will live in poverty.

Better support for teenage parents not only reduces their risk of poor outcomes now, but is also part of our long-term strategy to reduce teenage pregnancy rates in the future—as it will mean that their children will be less likely to experience the factors that increase the risk of teenage pregnancy, such as social deprivation, poor educational attainment and low aspirations. Through better support we can also help teenage parents to avoid second and subsequent unplanned pregnancies—it is estimated that 20 per cent. of births to teenagers are to young women who are already teenage mothers.

INTERNATIONAL DEVELOPMENT

Central America: Children

Mr. Hollobone: To ask the Secretary of State for International Development what recent steps his Department has taken to promote the welfare of street children in Central America. [149602]

Mr. Malik: The Department for International Development (DFID) is assisting street children in Honduras and Guatemala through our support to the World Bank (WB) and the Inter-American Development

Bank (IDB). DFID funds are being used to strengthen WB and IDB programmes to tackle the factors that force many children onto the street. For example, DFID assistance through the IDB has included $145,000 to build the capacity of Guatemalan non-governmental organisations (NGOs) and public sector officials to reintegrate street children back into society. DFID has also contributed $150,000 to the IDB in Honduras for a programme to better prioritise social assistance to vulnerable groups, such as street children, using better data collection and analysis.

DFID provides core funding to the United Nations Fund for Children (UNICEF) who run programmes throughout Central America aimed at improving children's access to health and education. Street children have also benefited from UNICEF's programmes in the region on HIV and AIDS and to eliminate child labour and violence against children.

Departments: Disciplinary Proceedings

David Simpson: To ask the Secretary of State for International Development how many people in his Department have been *(a)* disciplined and *(b)* dismissed for (i) inappropriate use of the internet while at work and (ii) using work telephones to access premium rate telephone numbers in the last 12 months. [149189]

Mr. Malik: DFID's Discipline and Dismissal Procedures are fully compliant with UK legislation and apply to home civil servants working in both the UK and overseas. The same procedures apply to our locally appointed staff, who work in our network of overseas offices, unless local law dictates otherwise.

DFID disciplined fewer than five staff for inappropriate use of the internet while at work in the last 12 months. Due to the small numbers involved, a breakdown by type of offence, employment status and outcome is not made public on the grounds of confidentiality. None of these staff was dismissed.

DFID did not discipline or dismiss any staff for using work telephones to access premium rate numbers in the last 12 months.

The arrangements for staff accessing the internet, and the use of office telephones, are described in our response to a similar question raised on 1 May 2006, which covered the preceding five year period.

Departments: Public Transport

Mr. Jenkins: To ask the Secretary of State for International Development what incentives he has considered to encourage staff in his Department to use public transport. [148799]

Mr. Malik: DFID provides interest-free loans to staff for the purchase of travel season tickets. This is the only direct incentive we provide to staff, although we also publicise public transport alternatives, particularly in London where we do not have any car parking for staff. We also engage with local authorities on the provision of public transport around our East Kilbride office, and monitor and report on trends in our Green Transport Plans.

Departments: Publicity

David Simpson: To ask the Secretary of State for International Development what assessment he has made of the cost effectiveness of advertising commissioned by his Department in the last 12 months. [148514]

Mr. Malik: In the 12 months since July 2006, DFID's main promotional activity was in support of the launch of the Third White Paper on International Development. This was the largest campaign that DFID has run to date. The campaign was evaluated to show which promotional method gave the best rate of response and the best value for money. This showed that e-communications compared favourably with flyer inserts into periodicals and newspapers. This information is being used to inform future campaigns and promotional activity.

DFID's other main area of advertising spend is recruitment and procurement advertising which is assessed in terms of response rate and quality. At present there is no formal system for evaluating the cost effectiveness of each advert. However, DFID is introducing an e-enabled recruitment system that will help with this evaluation in the future.

DFID is committed to reducing the cost of advertising generally by the use of shorter and more focused advertisements and through maximising discounts through the Central Office of Information.

Departments: Racial Harassment

David Simpson: To ask the Secretary of State for International Development how many complaints of racial abuse relating to staff for which his Department is responsible have been *(a)* investigated and *(b)* upheld in the last 12 months. [149249]

Mr. Malik: DFID's Grievance Procedures are fully compliant with UK legislation and apply to civil servants working in the UK and overseas. We also apply them to our locally appointed staff overseas, who work under local contracts, unless local law dictates otherwise.

DFID investigated fewer than five complaints of racial harassment in the last 12 months. Due to the small number, a breakdown by number, employment status and outcome is not made public on the grounds of confidentiality. All complaints were thoroughly investigated by trained staff and appropriate action was taken by senior managers hearing the cases.

Governance and Transparency Fund

Mr. Evans: To ask the Secretary of State for International Development what the estimated cost is of administration of the funding distribution mechanism of the Governance and Transparency Fund; and from which budget that funding comes. [148176]

Mr. Malik: Under the agreement reached with the managing agent for the Governance and Transparency Fund (GTF), the exact cost of administration will depend on the number of proposals submitted and the

number of projects supported. We estimate that the administration cost will be approximately £1.6 million. This will come from DFID's administration budget, not from the £100 million programme budget allocated to the GTF.

Iraq: Reconstruction

Mr. Hoban: To ask the Secretary of State for International Development (1) what bodies his Department consulted in or before March 2003 on the likely cost of the reconstruction of Iraq in the event of military action being taken against that country; [148904]

(2) what his Department's estimate was in March 2003 of the cost of reconstruction in Iraq in each of the subsequent five financial years. [148905]

Mr. Malik: Before March 2003, the UK Government, together with United Nations agencies, international NGOs and Coalition partners such as the United States and Australia, prepared contingency plans that included the possibility of prolonged urban warfare, large population movements, or the widespread destruction of essential infrastructure. The cost of reconstruction was considered substantial. Iraq had suffered more than 20 years of conflict, mismanagement and underinvestment by the Saddam regime.

From June to October 2003, the World Bank, United Nations and Coalition Provisional Authority (CPA) undertook a joint needs assessment and recommended investing some US$56 billion towards reconstruction over four years (this was not divided into financial years). It was expected that oil revenues would make a significant contribution to this reconstruction. Against this, the international community pledged an initial US$32 billion for the reconstruction of Iraq at the Madrid Donors' Conference in October 2003 to which the UK pledged an initial £544 million. Iraq has plenty of resources in its own budget, with forecast oil revenues of $33 billion in 2007. Our priority is therefore to help the Iraqi Government make better use of these resources so that they can deliver better public services.

Mr. Hoban: To ask the Secretary of State for International Development how much his Department has spent on reconstruction in Iraq in each financial year since 2002-03. [148972]

Mr. Malik: Since 2002-03, DFID has disbursed the following on bilateral assistance to Iraq:

£000

Financial year	*Reconstruction and development assistance*	*Humanitarian assistance*	*Total DFID bilateral programme*
2002-03	0	18,853	18,853
2003-04	99,261	110,052	209,313
2004-05	27,724	21,383	49,107
2005-06	82,105	4,764	86,869
2006-07	39,483	10,085	49,568
Total	248,573	165,137	413,710

Liberia: Children

Mr. Caton: To ask the Secretary of State for International Development what resources his Department has provided for *(a)* children's services projects and *(b)* child protection programmes in Liberia over the last two years; what further such projects are planned; and if he will make a statement. [148331]

Mr. Thomas: DFID's humanitarian support for Liberia in the last two years has focused on the provision of basic services and on protection issues for the most vulnerable, particularly children, including the internally displaced (IDPs), returning refugees, and those not yet returned.

DFID has provided over £2 million in support of the provision of basic and secondary health care services, through agencies such as Save the Children and Merlin, which have given emphasis to providing free primary health care, including reproductive and sexual health care services to children, adolescents, women and other vulnerable groups recovering after the conflict. DFID support for the return of IDPs and refugees, including food and shelter, has totalled £2.8 million over the last two years.

Our continuing support to Community Development Programmes provides assistance to enterprise and apprenticeship schemes to give skills training opportunities for youth (£1.9 million over the last two years).

DFID's wider programme of support to Liberia will continue at £10 million per annum and will include increased support to the health sector and to water and sanitation services to provide equitable access to the most vulnerable, including children.

Palestinians: International Assistance

Mr. Hague: To ask the Secretary of State for International Development when he expects the final decision on the terms for the restoration of EU funding to the Palestinian Authority under the Temporary International Mechanism to be made; and when he expects the delivery of aid under the Mechanism to be resumed. [148957]

Mr. Malik: The Temporary International Mechanism (TIM) has continuously provided support since June 2006 to Palestinian Authority employees and to the poorest Palestinians. The Quartet recently extended the TIM until the end of September 2007. On 9 July the European Parliament Commission approved an additional €90 million for payments through the TIM. This will provide sufficient resources to fund TIM payments until the end of September.

On 18 June, European Union Foreign Ministers discussed the resumption of assistance to the PA. They concluded that the EU should urgently develop the conditions for direct practical and financial assistance. The EU is currently discussing with Prime Minister Salaam Fayyad how best to assist the Emergency Government.

JUSTICE

Bedford Prison: Prisoners Release

Mrs. Dorries: To ask the Secretary of State for Justice how many prisoners have been released early from HM Prison Bedford in each month since January 2007; and if he will make a statement. [149552]

Mr. Hanson: Under the Criminal Justice Act 1991, those sentenced to determinate sentences of four years or more are eligible for parole halfway through their sentence. If parole is not granted then release occurs at the two-thirds point of the sentence (or at a subsequent parole review if earlier). Numbers of prisoners recommended for parole are shown at table 10.4 of the offender management caseload statistics 2005, a copy of which can be found in the Library. Prisoners sentenced to determinate terms of under four years under the 1991 Act are generally released automatically at the halfway point of their sentence. The Home Detention Curfew scheme (HDC) has been in operation since January 1999. Subject to meeting the eligibility criteria and passing a careful risk assessment, prisoners serving sentences of between three months and less than four years may be released up to four-and-a-half months (135 days) early from prison subject to an electronically monitored curfew normally between 7pm and 7am. Information on the numbers of prisoners released under Home Detention Curfew (HDC), can be found in table 10.3 in the offender management caseload statistics 2005.

The End of Custody Licence was introduced on 29 June 2007. Eligible prisoners serving between four weeks and less than four years may be released under licence from prison up to 18 days before their automatic release date.

Figures on the numbers of releases on Home Detention Curfew from HMP Bedford between January and June 2007 can be found in the following table:

Releases from HMP Bedford on Home Detention Curfew, January to June 2007

	Number
January	6
February	6
March	9
April	9
May	3
June	4

Additionally there were 41 releases from HMP Bedford on End of Custody Licence between 29 June and 5 July 2007, and one release on parole from Bedford Prison in June 2007.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Bombings: Compensation

Mr. Ian Taylor: To ask the Secretary of State for Justice how many complaints he has received from hon. Members on the level of compensation offered by the Criminal Injuries Compensation Board to those injured as a result of the bombing of tube trains and a bus on 7 July 2005. [149276]

Maria Eagle: Victims of the London bombings of 7 July 2005 are eligible for compensation under the Criminal Injuries Compensation Scheme on the same basis as victims of other violent crime in Great Britain. Three MPs wrote of their own volition to say that amounts of compensation payable to 7/7 victims should be increased, and a further two wrote in support of constituents' letters saying that the compensation payable following fatal injury was not enough.

Committal Proceedings

Simon Hughes: To ask the Secretary of State for Justice what estimate he has made of the average cost of an adjourned committal hearing. [147959]

Maria Eagle: The average cost per hour in a magistrates court in 2005-06 was £415 on a full cost basis including apportionment of central overheads.

While there are other interpretations, this answer is based on that of a Section 6 (1) and Section 6 (2) committal hearing definition. There is anecdotal evidence to suggest these times can vary considerably from one area to another depending on the practices of the Justice's Clerk.

A section 6(1) committal in which the defence object to being committed to the Crown court (e.g. no case to answer on the papers argued). Then the magistrates court adjourns to a convenient date for the prosecution to prepare their case, to enable the Bench to read the papers and to hear the legal argument at the adjourned hearing. This would probably run to 2 if not 3 hours including the time taken by the magistrates to read the papers and hear the legal argument. The estimated cost for a Section 6(1) committal hearing is between £830 to £1,245.

A section 6(2) committal is where the court decides to commit to the Crown court for trial and there is a 6-week adjournment for the prosecution to prepare their case. This type of committal would last on average 30 minutes. The average cost for a Section 6(2) is £207.50.

Departments: Official Visits

David Simpson: To ask the Secretary of State for Justice how much was spent on overnight accommodation by civil servants within his Department's areas of responsibilities in the last 12 months. [149050]

Maria Eagle: It is not possible to list the costs spent on overnight accommodation by civil servants in the last 12 months without incurring disproportionate costs as the expenditure is not separately identifiable within the Department's accounts.

All official travel by civil servants is undertaken in accordance with the requirements of the "Civil Service Management Code", a copy of which is also available in the Library of the House for the reference of Members.

Departments: Publicity

David Simpson: To ask the Secretary of State for Justice what assessment he has made of the cost effectiveness of advertising commissioned *(a)* by his Department and *(b)* in relation to policy areas for which it is now responsible in the last 12 months. [148510]

Maria Eagle: Since 9 May when my Department was created we have commissioned advertising for the Camberwell Green Magistrates Court Payback scheme, magistrates recruitment; recruitment to judicial and executive posts; and recruitment to civil service posts within the Department.

Between 6 July 2006 and 9 May 2007, the Department for Constitutional Affairs commissioned advertising to publicise the Operation Payback initiative targeting fine defaulters, and recruitment advertising for magistrates, for judicial office and for executive posts within the civil service.

Response to the Camberwell Community Payback advertisement was monitored and evaluated by the operational team at Camberwell court. The advert achieved the desired response through extensive positive media coverage and this is still ongoing.

On magistrates recruitment, the numbers recruited in 2006-07 exceeded the target for the year. All other advertising has been for recruitment which is evaluated by the number and calibre of applicants successfully filling vacancies.

Each judicial selection exercise has a specifically tailored marketing plan to ensure use of the most appropriate advertising channels which to date has achieved higher numbers and better quality of applicants.

In respect of recruitment to the Senior Civil Service, my department is working with Cabinet Office and a number of other Departments to explore how we can adapt and improve recruitment and achieve cost savings in line with best practice in the market place. This includes a migration to on-line advertising with all vacancies being advertised on the Civil Service Recruitment Gateway and using generic adverts with signposting to enable the Ministry to pool resources and advertise with other Departments in a single advert to reduce use of newspaper space.

Departments: Racial Harassment

David Simpson: To ask the Secretary of State for Justice how many complaints of racial abuse relating to staff for which his Department is responsible have been *(a)* investigated and *(b)* upheld in the last 12 months. [149248]

Maria Eagle: Complaints of racial abuse within my Department are dealt with by a specialist "Dispute Resolution Team". The Dispute Resolution Team is responsible for appointing two trained investigators, who will investigate the allegations and prepare a report for a Determining Authority. The Discipline Policy lists a breach of the equality and diversity or harassment policies as an example of gross misconduct for which the sanction of dismissal may be considered.

Due to a small number of complaints it is not possible to give the exact details as this could breach the confidentiality of the persons involved.

In the Prison Service, formal complaints of racial abuse are investigated in accordance with Prison Service Order (PSO) 8460 "Conduct and Discipline" which sets out the procedures for dealing with staff misconduct and contains detailed guidance on the conduct of all types of investigations; and PSO 2800 "Race Equality" which contains policy and guidance on the management of race equality.

Investigation Support Section (ISS) records show that at least 79 formal disciplinary investigations into allegations of a racist nature were commissioned during the 12-month period to 13 July 2007. Of these 79 cases, nine are awaiting completion, 35 investigations have resulted in the complaint being upheld and 35 have resulted in no further action. It is not possible to break the figures down any further as one investigation can involve a complaint being made against more than one member of staff and whilst the initial outcomes are recorded by ISS, details of successful appeals are held locally.

The Ministry of Justice does not tolerate racist behaviour of any nature, including racial abuse. All staff undertake mandatory "Diversity Training" on taking up an appointment with the Ministry of Justice and the "Ministry of Justice News" carries regular items regarding diversity issues. There are several Staff Networks (including PROUD—"People of diverse Racial Origins Uniting the Department") which hold regular meetings and produce newsletters.

Drugs: Ribble Valley

Mr. Evans: To ask the Secretary of State for Justice how many people were convicted for drugs-related offences committed in Ribble Valley constituency in each of the last 10 years. [148935]

Maria Eagle: Data on court proceedings held by the Office for Criminal Justice Reform are not broken down by constituency area. However, information on the number of persons convicted of drug offences and motoring offences related specifically to drugs, in courts in the Ribble Valley area for the years 1996-2005 are available, and are provided in the table.

It is not possible to identify the number of other offences, for example murders, assaults or robberies which involved defendants who were taking illegal drugs as the court proceedings database does not hold specific information on offences beyond descriptions provided by the statutes under which prosecutions are brought. These detailed circumstances are held only on court files, and are not reported to the Office For Criminal Justice Reform. Information for 2006 will be available in the autumn.

Number of persons found guilty of drug offences and other selected offences involving drugs as a result of proceedings brought in courts in the Ribble Valley area, 1996-2005[1,2]

	Drug offences[1]									
Local criminal justice area	*1996*	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*
South Ribble	71	126	129	103	67	60	64	55	37	39
Blackburn, Darwen and Ribble Valley	149	226	273	255	253	209	274	250	187	189

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces and courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Driving or attempting to drive a motor vehicle while unfit through drink or drugs (impairment)—drugs Road Traffic Act 1988 S.4(1)[1]

Local criminal justice area	*2004*	*2005*
South Ribble	4	1
Blackburn, Darwen and Ribble Valley	1	3

[1] Offences of Driving or attempting to drive a motor vehicle and being in charge of a mechanically propelled vehicle while unfit to drive through drink or drugs (impairment) were split in 2004 to provide separate offences for drink and drugs.

Being in charge of a mechanically propelled vehicle while unfit to drive through drink or drugs (impairment)—drugs Road Traffic Act 1988 S.4(2)[1]

Local criminal justice area	*2004*	*2005*
South Ribble	—	—
Blackburn, Darwen and Ribble Valley	—	1

[1] Offences of Driving or attempting to drive a motor vehicle and being in charge of a mechanically propelled vehicle while unfit to drive through drink or drugs (impairment) were split in 2004 to provide separate offences for drink and drugs.

Family Courts

Tim Loughton: To ask the Secretary of State for Justice how many applicants to the family courts were referred for *(a)* mediation, *(b)* early intervention and *(c)* reports in public law in the 2006-07 financial year; and at what cost to the public purse. [149750]

Bridget Prentice: The Government believe that mediation can have considerable advantages over going to court in the settling of family disputes, especially where children are involved. There are already 10 in-court referral schemes, where family mediators work together with CAFCASS and the courts to refer appropriate cases for mediation. These have developed locally. The number of referrals is not collected centrally and could be provided only at disproportionate cost by analysing court files.

In 2005-06 the Legal Services Commission (LSC) funded a total of 14,000 mediation cases for family disputes at a cost of £13.8 million. In about 60 per cent. of publicly funded cases, mediation results in a resolution of all the issues. Figures for 2006-07 will be published shortly and are broadly similar. Provisional figures show the success rate rising to 66 per cent. Expenditure on publicly funded mediation where family proceedings were commenced cannot be identified separately by the LSC.

In terms of early intervention, CAFCASS and CAFCASS Cymru are providing an in-court conciliation service for cases brought under section 8 of the Children Act 1989. These are most commonly applications made to the courts as a result of parental disputes about a contact or residence matter. The service is available in every county court at the first hearing. The Family Court Adviser assists and encourages the parties to reach agreement themselves rather than proceed to a contested hearing and judicial adjudication. Research into various models of in-court conciliation shows that 76 per cent. of parents reported a full or partial agreement. CAFCASS is now piloting earlier conciliation meetings that take place away from court.

The courts do not collect data on the number of conciliation meetings held. However, provisional CAFCASS figures show that in 2006-07 their practitioners participated in 26,344 dispute resolution meetings, spending 57,880 hours on these cases—an increase in time spent on early intervention of nearly 34 per cent. on the previous year. The cost of providing these meetings is part of CAFCASS running costs.

In public law proceedings, the courts may request a range of reports and assessments. Information on the types and numbers of reports and assessments is contained on individual court files. This information, and the cost of providing these reports and assessments, is not collected centrally and could be provided only at disproportionate cost.

Tim Loughton: To ask the Secretary of State for Justice how many applications there were to family courts in the last financial year. [149751]

Bridget Prentice: The table shows the number of applications made in the family courts in England and Wales in 2006-07, broken down by broad application type.

The table presents aggregated figures covering all jurisdictions—the High Court, County Courts and Family Proceedings Courts.

All underlying data relate to the 2006-07 financial year, except for Public and Private Law Children Act applications in the Family Proceedings Courts, for which 2006 calendar year has been used as this is the most recent 12-month period for which complete data are available.

These figures exclude cases which were reported as having been transferred between courts.

Number of applications made to the family courts in England and Wales, 2006-07

	Total
Public Law Children Act	20,709
Private Law Children Act	103,088
Adoption	5,885
Divorce and Separation	149,298
Ancillary Relief	72,191
Domestic Violence	26,308
Total	377,479

Fines: Children

Mr. Drew: To ask the Secretary of State for Justice what guidance his Department provides to magistrates on administering fines to minors who are unable to pay them. [149325]

Maria Eagle: The decision to impose a fine is a matter for the court, in exercise of its judicial discretion. Under section 137 of the Powers of Criminal Courts (Sentencing) Act 2000, where a child is dealt with by way of a financial penalty, the court has a duty to order that the fine, compensation or costs awarded be paid by the parent or guardian, unless they cannot be found. In the case of young person aged 16 or more the court has discretion to make such an order as opposed to a duty.

The Judicial Studies Board, which is responsible for overseeing the training of magistrates, has published the Youth Court Bench Book. The book has been sent to all youth court magistrates and says, on the imposition of fines, that

> "fines should reflect the seriousness of the offence taking into account the means of the defendant, or the parent if the parent is made responsible for payment, and any credit for a guilty plea".

Homicide: Life Sentences

Ian Lucas: To ask the Secretary of State for Justice if he will abolish the mandatory life sentence for murder. [149534]

Mr. Hanson: There are no plans to abolish the mandatory life sentence for murder. The sentence of mandatory life imprisonment reflects the uniquely serious nature of the offence.

Police Custody: Wales

Jenny Willott: To ask the Secretary of State for Justice how much and on what dates *(a)* South Wales police, *(b)* Gwent police, *(c)* Dyfed Powys police and *(d)* North Wales police have invoiced his Department to cover costs incurred under Operation Safeguard since it began; and if he will make a statement. [149420]

Mr. Hanson: The following table provides the costs and dates covered by invoices submitted by the following police forces: Dyfed Powys, North Wales and South Wales. We have not received any invoices from Gwent police.

Invoices submitted by police forces for Operation Safeguard

Police force	*Dates covered*	*Totals*
Dyfed Powys	1 November 2006 to 10 November 2006	19,408
Dyfed Powys	12 October 2006 to 31 October 2006	28,700
Dyfed Powys	11 December 2006 to 23 December 2006	28,859
Dyfed Powys	16 January 2007 to 29 January 2007	38,548
Dyfed Powys	30 January 2007 to 22 February 2007	53,562
Dyfed Powys	22 February 2007 to 31 March 2007	109,634
North Wales	12 October 2006 to 12 November 2006	86,277
North Wales	17 January 2007 to 20 February 2007	100,007
North Wales	21 February 2007 to 31 March 2007	52,202
South Wales	10 October 2006 to 15 December 2006	734,765
	29 January 2007 to 31 March 2007	—
Total		1,251,961

Prisoners

Mr. Garnier: To ask the Secretary of State for Justice what the prison population in England and Wales was on *(a)* 20 June 2007 and *(b)* 27 June 2007. [149327]

Mr. Hanson: Figures on the prison population are published each Friday on the Prison Service website. On Friday 22 June the prison population (including those held in police cells under Operation Safeguard) was 80,948. On Friday 29 June the prison population (including those held in police cells under Operation Safeguard) was 81,040.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners Release

Mr. Garnier: To ask the Secretary of State for Justice how many prisoners who were released under the End of Custody Licence on 29 June 2007 and 2 July 2007 had previously been refused parole or release on home detention curfew. [149328]

Mr. Hanson: Parole applies to prisoners serving sentences of four years or more. Prisoners are eligible for consideration for End of Custody Licence if they have been sentenced to less than four years. No prisoner released under End of Custody Licence would have previously been refused parole during their current sentence.

Of the 1,390 prisoners release under End of Custody Licence on 29 June 2007 and 2 July 2007, 951 have previously been refused release on home detention curfew.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Mr. Garnier: To ask the Secretary of State for Justice how many prisoners who were released under the end of custody licence on 29 June 2007 and 2 July 2007 were originally convicted of *(a)* a violent offence, *(b)* domestic violence and *(c)* burglary. [149331]

Mr. Hanson: The number of releases under end of custody licence on 29 June 2007 and 2 July 2007 by offence group are as follows:

	All
All	1,390
Violence against the person	284
Robbery	15
Burglary	118

Domestic violence is not a specific offence.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Mr. Garnier: To ask the Secretary of State for Justice how many prisoners were released under the end of custody licence on 29 June 2007 and 2 July 2007; and how many of those prisoners were serving (i) less than 12 months and (ii) more than 12 months. [149332]

Mr. Hanson: The answer to the question can be found in the following table:

	All
Total ECL releases on 29 June and 2 July 2007	1,390
Sentences of less than 12 months	1,165
Sentence of 12 months to less than four years	225

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Mrs. Dorries: To ask the Secretary of State for Justice which categories of prisoner are eligible for early release from prison; and if he will make a statement. [149548]

Mr. Hanson: The end of custody licence was announced by the then Lord Chancellor on 19 June 2007 and came into use on the 29 June for eligible prisoners serving sentences of four weeks or more but less than four years.

Eligible prisoners are released a maximum of 18 days before their normal, automatic release date subject to spending a minimum of seven days in custody following sentence.

The suitability of each prisoner for release under end of custody licence (ECL) is assessed according to set criteria. All prisoners who are potentially eligible will be screened against these criteria. We will not release:

Registered sex offenders, whether or not they are currently serving a sentence for a sexual offence;

Prisoners serving sentences for serious violence;

Prisoners who have previously escaped from custody;

Prisoners who have previously breached temporary release conditions during the current sentence, have offended during a period under temporary release at any time, or prisoners currently serving a sentence for failing to return from temporary release;

Prisoners with no accommodation arranged;

Foreign national prisoners who will be subject to deportation at the end of their sentence;

Prisoners who are subject to extradition proceedings;

Sentenced prisoners who have been remanded into custody on further charges or who are awaiting sentence;

Prisoners who, within the period of their current sentence, had been recalled either from HDC or from normal licence;

Prisoners required to undertake a treatment programme as a condition of the normal (end of sentence) supervision licence that could not be arranged during the period of THL; and

Prisoners who are under 18 years of age.

Mrs. Dorries: To ask the Secretary of State for Justice for what period of time the Government's early release scheme for prisoners will be in operation; and if he will make a statement. [149549]

Mr. Hanson: The end of custody licence was introduced as a temporary measure but it is too early to say how long the scheme will be in operation. We will keep this under review in the light of new prison capacity coming on stream and the review by Lord Carter.

Prisoners Release: Domestic Violence

Mr. Garnier: To ask the Secretary of State for Justice whether probation staff were required to carry out accommodation checks in respect of prisoners who were released under the end of custody licence scheme where the original offence was less than 12 months and the offence involved domestic violence. [149329]

Mr. Hanson: Probation staff are not required to carry out accommodation checks for prisoners released on ECL. Prisons are being advised to bring forward the procedures they would follow at the automatic release date. Where necessary, this would normally involve a member of prison staff ensuring that the local police liaison officer was aware of the situation and able to brief the force to whose area the prisoner was returning.

Prisoners Release: Rehabilitation

Mr. Garnier: To ask the Secretary of State for Justice what assistance with rehabilitation and resettlement was given to prisoners released under the end of custody licence scheme after 27 June 2007. [149326]

Mr. Hanson: Prisoners who are subject to supervision on release (all prisoners serving 12 months or more and prisoners under 22 years of age) will be required to meet their probation officer after release on the end of custody licence (ECL) and to have regular contact after that in line with their supervision programme. Prisoners required to undertake a treatment programme as a condition of the normal (end of custodial sentence) supervision licence will not be released on ECL unless the programme can be brought forward to begin from release on ECL.

Prisoners released on the scheme may be eligible to receive subsistence payments in lieu of benefits to cover the period they are on ECL. This payment is made because prisoners on ECL are released under temporary licence from prison in accordance with the provisions of the Prison Act 1952 and, as such, are statutorily ineligible to receive benefits payments.

Prisoners Release: Reoffenders

Mr. Garnier: To ask the Secretary of State for Justice how many prisoners who were released under the end of custody licence on 29 June 2007 and 2 July 2007 have subsequently been rearrested for further suspected offences. [149330]

Mr. Hanson: Nine offenders out of 1,390 (0.65 per cent.) released under the end of custody licence on 29 June and 2 July have subsequently been identified to the Ministry of Justice as having been arrested for further offending.

Prisoners Release: Wales

Mrs. Gillan: To ask the Secretary of State for Justice how many prisoners were released from each of the prisons in Wales before completing their full sentences in each week since 1 January 2007. [149601]

Mr. Hanson: Under the Criminal Justice Act 1991, those sentenced to determinate sentences of four years or more are eligible for parole halfway through their sentence. If parole is not granted then release occurs at the two-thirds point of the sentence (or at a subsequent parole review if earlier). Numbers of prisoners recommended for parole are shown at table 10.4 of the offender management caseload statistics 2005, a copy of which can be found in the Library of the House. Prisoners sentenced to determinate terms of under four years under the 1991 Act are generally released automatically at the halfway point of their sentence. The home detention curfew scheme has been in operation since January 1999. Subject to meeting the eligibility criteria and passing a careful risk assessment, prisoners serving sentences of between three months and less than four years may be released up to four and a half months (135 days) early from prison subject to an electronically monitored curfew normally between 7 pm and 7 am. Information on the numbers of prisoners released under home detention curfew (HDC), can be found in tables 10.3 in the offender management caseload statistics 2005.

The end of custody licence was introduced on 29 June 2007. Eligible prisoners serving between four weeks and less than four years may be released under licence from prison up to 18 days before their automatic release date.

Figures showing the numbers of prisoners released on (i) home detention curfew (January to June 2007) and (ii) end of custody licence (between 29 June and 5 July only) and (iii) releases on parole (January to June 2007) from prison establishments in Wales are in the following tables

(i) HDC

	Cardiff	*Swansea*	*Usk/ Prescoed*	*Parc*

This information is not readily available on a weekly basis.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners: Females

Mr. Heath: To ask the Secretary of State for Justice when he will respond to the proposals made in the Corston review. [150140]

Mr. Hanson: The Government have given a broad welcome to the report. The 43 recommendations which it makes are wide-ranging and propose action by a number of different Government Departments and organisations. We are carefully exploring the recommendations with all the Departments and agencies concerned and will develop a detailed response by late autumn.

Prisons: Overcrowding

Mrs. Dorries: To ask the Secretary of State for Justice what steps his Department has taken to address overcrowding in prisons; and if he will make a statement. [149551]

Mr. Hanson: The Ministry of Justice is dealing with pressures on the prison estate by building more capacity. A new capacity-building programme which will deliver 8,000 new prison places by 2012 was announced in July 2006 and a further 1,500 places were announced on 19 June 2007.

In parallel, we will ensure that courts have tough community sentences at their disposal to deal with less serious, non-violent offenders.

On 19 June the Government announced the introduction of a presumption in favour of release on license for prisoners serving between four weeks and four years for the final 18 days of their sentence. This is a temporary measure to deal with immediate pressure on the prison estate.

Prisons: Screening

Mr. Garnier: To ask the Secretary of State for Justice what *(a)* assessment he has made of and *(b)* research he has commissioned into the health and safety impact of the use of body orifice scanning machines in prison. [149687]

Mr. Hanson: The manufacturer has stated that the body orifice security scanner operates within the International Commission on Non-ionising Radiation Protection guidelines. A compliance certificate was also issued.

Mr. Garnier: To ask the Secretary of State for Justice what assessment he has made of the possibility of the use of body orifice scanning machines in prisons and young offender institutions following the trial in one prison; and if he will make a statement. [149688]

Mr. Hanson: The trial of the body orifice security scanner has been extended to the remainder of the high security prisons. A decision on whether to roll it out to all prisons and young offender institutions will be made at the end of the trial, once the results have been evaluated.

Sexual Offences: Wales

Mrs. Gillan: To ask the Secretary of State for Justice how many probation officers are involved in the monitoring of sex offenders in each police force area in Wales. [149454]

Mr. Hanson: As this is an operational matter we do not collect this information centrally. My officials are establishing whether these data are available from the four probation areas in Wales and I will write to the hon. Lady as soon as I know.

Terrorism: Greater London

Mr. Frank Field: To ask the Secretary of State for Justice how many victims of the bombings on 7 July 2005 have had their compensation claims paid in full. [149736]

Maria Eagle: As at 6 July 2007, the Criminal Injuries Compensation Authority (CICA) had received 614 applications in respect of the 7 July bombings, 50 of these since 1 January 2007. They had finalised 496 cases, of which 401 have been paid in full, 51 were rejected by CICA and 44 are 'on offer' to the claimant. In addition, another 57 cases have received interim awards. CICA are proactively seeking to settle the outstanding cases as quickly as possible by getting the necessary information from applicants, the police and medical and other authorities.

Of the 118 outstanding cases, 25 are cases where claimants have exercised their right of appeal against the initial offer of compensation from CICA.

Victim Support Schemes: Fines

Mr. Drew: To ask the Secretary of State for Justice if he will make a statement on the operation of victim surcharges; and what representations he has had from the magistracy on the effectiveness of surcharges, with particular reference to their effect on the level of fine defaulting. [149324]

Maria Eagle: An internal audit on the victims surcharge process within the courts is due to commence in August 2007. This will be followed in early 2008, by a further internal audit on the amount of victims surcharge being collected and allocated to the Victims Fund. A formal evaluation of the effect of the victims surcharge on the payment rate has not been undertaken. However the current year to date payment rate is 95 per cent. compared to 83 per cent. at the same period last year.

The Office for Criminal Justice Reform is currently analysing the representations it has received on the victims surcharge. I will write to the hon. Member shortly with the details he requests and place a copy of the letter in the Library of the House.

Young Offender Institutions: Re-offenders

Mr. Blunkett: To ask the Secretary of State for Justice what the rate of re-offending was of people held in each young offender institution in each of the last five years. [147798]

Mr. Hanson: Offenders held in young offender institutions can be aged between 15 and 21. We do not currently calculate re-offending rates for this age band.

The most recent juvenile re-offending rates for those aged 15 to 17 who were discharged from custody were published in "Re-offending of juveniles: results from the 2004 cohort". This covers juvenile offenders who were released from all kinds of custody, including Secure Training Centres (STCs) and Local Authority Secure Children's Homes (LASCHs), in the first quarters of 2000 and 2004, in England and Wales. 77.8 per cent. of 15 to 17-year-old juveniles released from custody in the 2004 cohort re-offended during the following 12 months. The figure for the 2000 cohort was 78.2 per cent. The actual re-offending rate is the percentage of offenders who re-offended during a one year follow-up period and who subsequently received a pre-court disposal or were convicted in court. This is discussed further in the Statistical Bulletin which can be found at;

http://www.homeoffice.gov.uk/rds/pdfs06/hosb1006.pdf

For those aged 18 to 20, the most recent re-offending rates for offenders discharged from custody were published in "Re-offending of adults: results from the 2004 cohort". This covers offenders who were released from all prisons in the first quarter of 2004, for England and Wales. 74.8 per cent. of offenders aged 18 to 20 in the 2004 cohort re-offended during the 24-month follow-up period. The figures for previous years were 74.8 per cent. in 2003, 77.9 per cent. in 2002 and 77.4 per cent. in 2000. For this age group, the actual re-offending rate is the percentage of offenders who re-offended during a two year follow-up period and who were subsequently convicted in court. This is discussed further in the Statistical Bulletin which can be found at;

http://www.homeoffice.gov.uk/rds/pdfs07/hosb0607.pdf

The datasets used to provide these figures do not contain information about the institutions from which the juveniles and young offenders were released and therefore separate figures for YOIs are not available. Furthermore, juveniles and young offenders may be moved between institutions while serving their sentences so it is difficult to relate their re-offending to any particular institution.

Juvenile re-offending rates for years other than 2000 and 2004 are not available. Re-offending rates for 18 to 20-year-olds are not available for 2001.

Young Offenders: Police Cautions

Mr. Drew: To ask the Secretary of State for Justice what advice the Department offered to those authorities issuing conditional cautions to ensure that a responsible adult is always present when a caution is being issued to a minor. [149658]

Mr. Hanson: The conditional caution scheme brought in by the Criminal Justice Act 2003 does not apply to those aged under 18. The Criminal Justice and Immigration Bill currently before Parliament does contain a proposal to extend conditional cautions to those aged 16-17. The proposal, at Clause 53 and Schedule 11 of the Bill, includes a commitment to

prepare a Code of Practice for what will be called the youth conditional caution. That code will include details of the safeguards that should be observed when dealing with young people including ensuring that the existing appropriate adult process is used.

LEADER OF THE HOUSE

Members: Pay

Malcolm Bruce: To ask the Leader of the House how many hon. Members have sought a reduced parliamentary salary since 1997. [149737]

Helen Goodman: Figures before 2003 are not available. Since 2003 two Members have sought a reduced salary.

Malcolm Bruce: To ask the Leader of the House what the procedure is in circumstances where an hon. Member wishes to take *(a)* a reduced and *(b)* no parliamentary salary. [149738]

Helen Goodman: Any hon. Member who wishes to take a reduced salary or no parliamentary salary can write to the Department of Finance and Administration with their instructions.

HEALTH

Ambulance Services: Reorganisation

Daniel Kawczynski: To ask the Secretary of State for Health what public consultation *(a)* her Department has undertaken and *(b)* her Department requires regional ambulance services to undertake in their restructuring process. [146510]

Mr. Bradshaw: The Department supported the conclusions and recommendations of the 2005 review, "Taking Healthcare to the Patient: Transforming NHS Ambulance Services", one part of the implementation of which included a reduction in the number of national health service ambulance trusts broadly in line with strategic health authority boundaries. A 14-week consultation on the future configuration of ambulance services commenced on 14 December and ran until 22 March 2006.

In terms of local public consultation, I refer the hon. Member to the answer given to him on 14 May 2007, *Official Report*, column 570W, which set out the extent to which NHS organisations—including ambulance trusts—are required to involve and consult patients and the public in the planning of services, in the development of proposals for changes in services, and in decisions affecting the operation of services.

Cancer

Mr. Dai Davies: To ask the Secretary of State for Health pursuant to the answer of 21 June 2007, *Official Report*, column 2145W, on cancer, if he will make it his policy to conduct such an assessment. [148645]

Ann Keen: We have no plans to make such an assessment. The network of Public Health Observatories, working closely with health colleagues to improve the health of communities across the United Kingdom, will continue to monitor the health and morbidity trends of the regions they cover, and highlight areas where further investigation and intervention might be required.

Cancer: Children

Dr. Gibson: To ask the Secretary of State for Health what steps his Department is taking to support parents of children with cancer. [148520]

Ann Keen: The national service framework (NSF) for children, young people and maternity services sets out a long-term programme intended to stimulate sustained improvement in children's health and well-being. NSFs are long-term strategies for improving specific areas of health care by setting national standards for a defined service (e.g. cancer services or renal services) or a particular care group (e.g. children or older people). Standard eight of the NSF sets out an expectation that:

> "Children and young people who are disabled or who have complex health needs, receive co-ordinated, high quality child and family-centred services which are based on assessed needs, which promote social inclusion and, where possible, enable them and their families to live ordinary lives. Palliative care is available to those who need it and a range of flexible, sensitive services is available to support families in the event of the death of a child."

The children's NSF puts children, young people and their families at the centre of their care, building services around their needs.

Cancer: Medical Treatments

Dr. Kumar: To ask the Secretary of State for Health (1) which NHS hospitals in the UK offer photodynamic therapy as a treatment for cancer; and what assessment the NHS has made of the effectiveness of this therapy; [148049]

(2) what conditions photodynamic therapy is used to treat through the NHS; and what assessment he has made of the relative value for money of photodynamic therapy. [148050]

Ann Keen: Photodynamic therapy (PDT) can be used as a treatment for skin cancer and cancers on or near the lining of internal organs, such as bile duct cancer. It can also be used to treat the classic and predominantly classic forms of age-related macular degeneration and is being investigated as a treatment for psoriasis and acne. It is for the national health service at a local level to decide whether to provide photodynamic therapy services. The Department does not collect information on where this treatment is provided.

As part of its programme of work on interventional procedures, the National Institute for Health and Clinical Excellence (NICE) has issued guidance on the use of PDT in the treatment of several cancers.

NICE has stated that PDT for the treatment of Barrett's oesophagus, advanced bronchial carcinoma, endobronchial carcinoma, bile duct cancer and skin tumours is safe and works well enough for use in the

NHS, provided normal arrangements are in place for consent, audit and clinical governance.

NICE has also issued guidance on the use of PDT for early stage oesophageal cancer, stating that current evidence on PDT for the treatment of this disease is not adequate to support its use without special arrangements for consent, audit and clinical governance.

The Department has not made any estimate of the cost implications of the provision of PDT for the treatment of cancer.

In September 2003 NICE issued guidance recommending the use of PDT for treating wet age-related macular degeneration in some patients. All primary care trusts are funding PDT for patients with age-related macular degeneration in line with this guidance.

The Department is investing £1 million in a study to gather evidence on the clinical and cost effectiveness of PDT for people with the predominantly classic form of age-related macular degeneration. This study will inform NICE when its guidance on photodynamic therapy is reviewed.

Cardiovascular System: Diseases

Lorely Burt: To ask the Secretary of State for Health pursuant to the answer of 21 June 2007, *Official Report*, column 2148W, on cardiovascular system: diseases, which recommendations made to officials considering the new national stroke strategy are of relevance to the prevention and management of peripheral arterial disease. [147952]

Ann Keen: Copies of the consultation document on the national stroke strategy are available in the Library. The draft strategy contains recommendations on risk management that are of relevance to peripheral arterial disease. The consultation period for this draft strategy will extend to 12 October 2007.

Lorely Burt: To ask the Secretary of State for Health (1) what plans he has to meet patient groups representing those diagnosed with peripheral arterial disease; [148046]

(2) what programmes are *(a)* planned and *(b)* in place to raise awareness of peripheral arterial disease with (i) the public and (ii) health professionals. [148087]

Ann Keen: There are no plans at the current time to meet patient groups representing those diagnosed with peripheral arterial disease.

There no programmes planned or in place to raise awareness specifically for peripheral arterial disease with the public or health professionals.

However, the risk factors which increase an individual's chances of developing peripheral arterial disease include smoking, drinking alcohol, poor diet and lack of physical activity. Through the public health White Paper 'Choosing Health' the Department has set out a programme of action to help improve the health of the public including action on smoking and diet. This builds on existing work such as campaigns on smoking and diet, National Institute for Health and Clinical Excellence (NICE) guidelines on the management of hypertension, points for prevention activities in the general practitioner contract and support for the Blood Pressure Association's blood pressure awareness campaigns.

The coronary heart disease and diabetes national service frameworks have also driven forward improvements in primary and secondary prevention of risk factors associated with circulatory disease in general. This includes better control of blood pressure and blood glucose, cholesterol management and the use of aspirin.

Children: Screening

Mr. Hancock: To ask the Secretary of State for Health when the Gateway Approval (ref 7698) concerning consent for a dental screening epidemiological survey for school children was issued; for what reasons the practice of negative permission was discontinued; and what other tests on children are subject to negative permission consents. [147954]

Ann Keen: We decided that, under the current good practices followed on consent to treatment, dental examinations in schools should only be carried out when the parents/carers or, if judged competent, the child had given positive consent. The guidance advises on how consent can be obtained in connection with the arrangements made for the admission of children to school. We are not aware of other screening tests conducted in connection with epidemiological surveys, which are subject to negative consent.

Consultant Midwives

Mr. Baron: To ask the Secretary of State for Health pursuant to the answer of 20 March 2007, *Official Report*, column 863W, on consultant midwives, how many consultant midwives there were in the NHS in England in 2006, broken down by strategic health authority. [146228]

Mr. Bradshaw *[holding answer 28 June 2007]:* The number of consultant midwives in the national health service in England in 2006, broken down by strategic health authority, was shown in the table.

NHS Hospital and Community Health Services: Consultant Midwives, England

NHS non-medical census.

Dental Services

Sandra Gidley: To ask the Secretary of State for Health what will happen to unused units of dental activity at the end of the contract year. [148481]

Ann Keen: Where a provider of national health services dental services delivers more than 96 per cent. but less than 100 per cent. of the annual service levels agreed with the local primary care trust (PCT), the PCT is responsible for setting a period during the following contract year during which these services are to be provided.

It is a breach of contract to provide less than 96 per cent. of the annual service levels agreed in a contract. In these circumstances, it is up to the PCT to decide whether to allow some or all of these unprovided services to be carried forward to the following contract year. Where a provider has failed to provide at least 96 per cent. of the agreed annual service levels, the PCT may depending on the circumstances wish to propose a reduction in the future contract value and corresponding service levels for that contract, so that these resources can be reinvested in other local dental services.

Sandra Gidley: To ask the Secretary of State for Health what the average number of units of dental activity is which an NHS dentist with a majority NHS patient list is expected to undertake in a year. [148483]

Ann Keen: It is for primary care trusts to agree locally with providers of national health service (NHS) dental services the service levels to be provided over the course of each year, subject to transitional provisions governing dentists with NHS contracts in the period before April 2006. These service levels will vary depending on a range of local factors.

Dental Services: Finance

Sandra Gidley: To ask the Secretary of State for Health what the total value of NHS orthodontic treatment was in each of the last five years, broken down by primary care trust. [148476]

Ann Keen: Data identifying the value of orthodontic treatment alone by financial years and for specific local areas are not available centrally and could be obtained only at disproportionate cost.

However a special analysis of general dental services costs over a 12-month reference period from 1 October 2004 to 30 September 2005 was prepared to help calculate funding levels for the new primary dental service arrangements introduced from 1 April 2006. Tables have been placed in the Library which draw on that analysis and set out the total payments during that 12-month reference period for all courses of treatment which included an element of orthodontic care in each of the primary care trusts in England operational at the time.

Dental Services: Hampshire

Sandra Gidley: To ask the Secretary of State for Health how many *(a)* dental practices and *(b)* dentists in Hampshire provide NHS treatment; how many hours of NHS dentistry they offered in each (i) week and (ii) month in the latest period for which figures are available; and if he will make a statement on the availability of NHS dental treatment in Hampshire. [148487]

Ann Keen: As at 31 March 2007 there were 632 dentists on open national health service contracts within Hampshire primary care trust (PCT). This information is also contained in the report published by the Information Centre for health and social care, "NHS Dental Statistics for England: Quarter 4: 31 March 2007", which is available in the Library. Information on numbers of dental practices could be made available only at disproportionate cost.

PCTs hold contracts with providers of NHS dental services, setting out the agreed level of services to be provided over the course of the year. Services are measured primarily in terms of the number of courses of treatment provided for NHS patients (with courses of treatment grouped into three main bands and given different weightings to reflect their relative complexity). The Department does not hold information on the number of hours of NHS dentistry provided.

The dental reforms implemented last year gave PCTs, for the first time, the responsibility for providing or commissioning dental services in their area. It is for PCTs locally, working with dentists and with the local public, to assess patient needs, review current service provision and develop services in ways that most effectively reflect local needs and priorities.

Dental Services: Manpower

Sandra Gidley: To ask the Secretary of State for Health how many orthodontists worked in the NHS in each year since 1997. [148474]

Ann Keen: The following table sets out the numbers of dentists working in the orthodontic specialty in the hospital or community health services as at 30 September for each year from 1997 to 2006.

Number of hospital and community health services (HCHS): medical and dental staff working within the orthodontics specialty, grade and year, England as at 30 September each year

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*

Notes:
1. '—' denotes zero
2. '0' denotes more than zero, less than one.

Source:
The Information Centre for health and social care medical and dental workforce census.

Most NHS orthodontic treatment is provided by dentists in primary care, generally working under general dental services (GDS) contracts or personal dental services (PDS) agreements. However the numbers of dentists providing orthodontic treatment under GDS or PDS could be provided only at disproportionate cost.

Dental Services: Stockport

Mark Hunter: To ask the Secretary of State for Health how many units of dental activity were allocated to Stockport primary care trust area for financial year *(a)* 2006-07 and *(b)* 2007-08. [147254]

Ann Keen: The Department does not allocate fixed quotas of units of dental activity (UDAs) for each primary care trust (PCT). When providing PCTs with their net resource allocations for primary dental services, the Department provides, as a guide, indicative figures for the equivalent gross resources and levels of patient charge revenue a PCT might receive based on indicative assumptions about the annual level of UDAs commissioned and the mix between charge-paying and exempt patients. However it is for PCTs to decide locally what types of service they should commission and what levels of units of dental activity they should seek from those services. Although UDAs (which are a weighted measure of courses of treatment) are the main contract currency under the new local commissioning arrangements, they are only one of a range of indicators that PCTs may wish to use to monitor and manage dental services.

Dental Services: Waiting Lists

Sandra Gidley: To ask the Secretary of State for Health how many patients in *(a)* England and *(b)* Hampshire are waiting for orthodontic treatment; and how many have been waiting for treatment for (i) up to six, (ii) up to 12, (iii) up to 24 and (iv) over 36 months. [148475]

Ann Keen: Information is not collected centrally on waiting times for national health service orthodontic treatment provided in primary care.

Information is collected and published quarterly at England and primary care trust (PCT) level on the numbers of NHS patients waiting for first consultant outpatient appointments and the numbers waiting for hospital admission (for ordinary and day case admissions) for orthodontic treatment as at the end of each quarter. The following tables show the available commissioner-based information for England and for Hampshire PCT. This information is also available at:

www.performance.doh.gov.uk/waitingtimes/2006/q4/index.html.

Numbers of patients waiting for first consultant outpatient appointment by length of wait as at 31 March 2007

Number of weeks waiting	*Under 4*	*4 to <8*	*8 to <13*	*13 plus*

Hampshire	193	78	6	0

Numbers of patients waiting for hospital admission by length of wait as at 31 March 2007

Number of weeks waiting	*Under 13*	*13 to <26*	*26 plus*
England	377	15	0
Hampshire	0	0	0

Dental Services: Yorkshire and Humberside

Mr. Graham Stuart: To ask the Secretary of State for Health what the average number of patients per NHS dentist was in Beverley and Holderness in each year since 1999; and if he will make a statement. [148353]

Ann Keen: The information is not available in the format requested. The following table shows the numbers of patients registered per national health service dentist within the Beverley and Holderness constituency, as at 31 March 1999 to 2006. This information is based on the old contractual arrangements.

Number of patients registered per NHS dentist within Beverley and Holderness constituency, as at 31 March each year

	Number
1999	1,320
2000	1,423
2001	1,350
2002	1,326
2003	1,420
2004	1,435
2005	1,176
2006	1,266

Notes:
1. No account is taken of the level of service, if any, that each dentist provides.
2. Dentists consist of principals, assistants and trainees. Information on NHS dentistry in the community dental service, in hospitals and in prisons is excluded.

Sources:
The Information Centre for health and social care
Business Services Authority Dental Services Division (NHSBSA DSD)

Numbers of registrations no longer form part of the data available under the new NHS dental contractual arrangements, introduced on 1 April 2006. The new measure is patients seen in the previous 24 months and is not comparable to the registration data for earlier years.

Numbers of patients seen in the previous 24 months per dentists on open NHS contracts as at 31 March 2007 are available by strategic health authority (SHA) and primary care trust (PCT) area. The latest information for East Riding of Yorkshire PCT is provided in the following table. To provide these data at constituency level would incur disproportionate cost.

Number of patients seen in the previous 24 months per dentist (performer) on open NHS contracts within East Riding of Yorkshire PCT as at 31 March 2007

	Number
2007	1,868

Notes:
1. A performer is defined as a dentist who has been set up on the NHSBSA DSD Payments online POL system by the PCT to work under an open contract during the relevant time period. Data provided are a count of the individuals listed as performers on open contracts within a PCT, including orthodontists. No allowance is made for the level of service, if any, that the individual performer has delivered during the given period.
2. Dentists consist of performers in general dental services, personal dental services and trust-led dental services.
3. The numbers of dentists as at 31 March 2007are provisional and are subject to revision. The final work force figures for 2006-07 will not be available until August 2007 when the Information Centre will publish an end year report on the first 12 months of the new contractual arrangements.
4. Patients have been identified by using surname, first initial, gender and date of birth.
5. Number of patients seen is recorded according to the location of the dentist.

Dentists

Sandra Gidley: To ask the Secretary of State for Health how many dentists worked within the NHS in each year since 1997; and how many provided *(a)* primary and *(b)* secondary care. [148486]

Ann Keen: Numbers of national health service dentists in England as at 31 March 1997 to 2006 are available in the 'NHS Dental Activity and Workforce Report England: 31 March 2006'. Annex E also contains information by strategic health authority (SHA) and primary care trust (PCT) area. Information by parliamentary constituency area is available in Annex G.

This information is based on the contractual arrangements that applied until April 2006. This report is available in the Library and is also available at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/dentistry/nhs-dental-activity-and-workforce-report-england-31-march-2006.

Numbers of NHS dentists in England as at 30 June, 30 September, 31 December 2006 and 31 March 2007 are available in Table G of Annex 3 of the 'NHS Dental Statistics for England Q4:31 March 2007' report.

This report is available in the Library and is also available at:

www.ic.nhs.uk/pubs/dentalq4.

The figures for 31 March 2007 and the earlier quarters in the 2006-07 year are provisional and are subject to revision. The final workforce figure for 2006-07 will not be available until August 2007 when the Information Centre for health and social care will publish an end year report on the first 12 months of the new contractual arrangements. This information is based on the new dental contractual arrangements and is not directly comparable with earlier information.

The figures for 31 December 2006 and 31 March 2007 include some salaried dentists who will also be included in the Hospital and Community Health Service figures and are shown as follows.

Information on the number of dentists working in the hospital and community health services is set out in the table.

Hospital and Community Health Services (HCHS) : dental staff by year: England as at 30 September each year

	Numbers (headcount)
1997	3,567
1998	3,610
1999	3,616
2000	3,530
2001	3,532
2002	3,654
2003	3,763
2004	3,852
2005	3,970
2006	3,909

The Information Centre for health and social care Medical and Dental Workforce Census

Dentists: Romsey

Sandra Gidley: To ask the Secretary of State for Health what steps he is taking to increase the number of NHS dentists in the Romsey constituency. [148485]

Ann Keen: The dental reforms implemented last year gave primary care trusts (PCTs), for the first time, the responsibility for providing or commissioning dental services in their area. It is for PCTs to assess local

needs, review current service provision and develop services to meet local needs. We understand that Hampshire PCT is developing plans to increase services in the Romsey area.

Departments: Contracts

Mr. Stephen O'Brien: To ask the Secretary of State for Health pursuant to the answer of 19 June 2007, *Official Report*, columns 1383-5W, on Departments: contracts, whether service category 27 excludes services under *(a)* service category 25 and *(b)* Common Procurement Vocabulary Codes 74511000-4, and from 85000000-9 to 85323000-9 (except 85321000-5 and 85322000-2). [148840]

Mr. Bradshaw: Service Category 27 excludes Service Category 25.

CPV codes 74511000-4, and CPV codes from 85000000-9 to 85323000-9, except 85321000-5 and 85322000-2 are also not included in Service Category 27.

Departments: Delivery Unit

Mr. Hoban: To ask the Secretary of State for Health pursuant to the answer of 25 June 2007, *Official Report*, columns 235-36W, on Departments: Delivery Unit, how many copies of the final report of each review were produced; and to whom they were distributed. [148942]

Mr. Bradshaw: The Prime Minister's Delivery Unit provided copies of the final reports to the Prime Minister, Secretary of State and a small number of senior officials.

Mr. Hoban: To ask the Secretary of State for Health pursuant to the answer of 25 June 2007, *Official Report*, columns 235-36W, on Departments: Delivery Unit, how many recommendations were made by each of the listed reviews to *(a)* the NHS, *(b)* his Department and *(c)* other Government Departments. [148943]

Mr. Bradshaw: The Prime Minister's Delivery Unit's Priority Reviews, regardless of topic, typically contain between half a dozen and two dozen recommendations.

Departments: Opinion Leader Research

Mr. Hoban: To ask the Secretary of State for Health pursuant to the answer of 21 June 2007, *Official Report*, column 2168W, on Departments: Opinion Leader Research, for what reason the payment quoted for Opinion Leader Research differs from that given in the answer of 26 February 2007, *Official Report*, column 1108W. [147039]

Mr. Bradshaw: The figures in the answer of 21 June 2007 reflect the total payments made to Opinion Leader by the Department in each year since 2002-03. The figures in the answer of 26 February 2007 reflect payments made by the Department in 2005-06 to the Central Office of Information who managed the contract with Opinion Leader for work undertaken on behalf of the Department on the Your health, Your care, Your say listening exercise.

Departments: Public Expenditure

Mr. Hoban: To ask the Secretary of State for Health (1) what her Department's delegated expenditure limit above which expenditure must be approved by HM Treasury was in each year since 1993 for which figures are available; [146533]

(2) pursuant to the answer of 20 June 2007, *Official Report*, column 1899W, on Departments: Public Expenditure, what the delegated limits are for the schemes and transactions under each category of expenditure. [146537]

Mr. Bradshaw: The detailed information requested has been placed in the Library.

For the categories listed in the answer of 20 June 2007, *Official Report*, column 1899W, delegated limits for the Department have remained the same since the mid 1990s. Only those limits relating to the private finance initiative, public capital and information, management and technology capital schemes have changed.

Mr. Hoban: To ask the Secretary of State for Health pursuant to the answer of 20 June 2007, *Official Report*, column 1899W, on Departments: Public Expenditure, for which private finance initiative schemes his Department had to gain HM Treasury's approval in *(a)* 2006-07, *(b)* 2005-06 and *(c)* 2004-05. [146538]

Mr. Bradshaw: The following table gives details of the private finance initiative schemes which gained HM Treasury approval for their full business cases since 2004 under the prevailing delegated limits.

	Scheme	*Capital value (£ million)*
2004	Barking, Havering and Redbridge Hospitals NHS Trust	238
	Leeds Teaching Hospitals NHS Trust	265
	Central Manchester and Manchester Children's Hospitals NHS Trust	512
2005	Newcastle upon Tyne Hospitals NHS Trust	299
	Oxford Radcliffe Hospitals NHS Trust	129
	Sherwood Forest Hospitals NHS Trust	326
	Portsmouth Hospitals NHS Trust	236
2006	St. Helens Hospitals NHS Trust	338
	University Hospitals Birmingham NHS Trust	627
	Barts and The London Hospitals NHS Trust	1000
2007	Mid Yorkshire Hospitals NHS Trust	343
	University Hospital of North Staffordshire NHS Trust	306

Mr. Hoban: To ask the Secretary of State for Health what discussions he has had with ministerial colleagues in the Treasury on the reprofiling of his Department's budget before the 2006 Budget; and who initiated those discussions. [146947]

Mr. Bradshaw: It is standard practice for the Secretary of State to have regular discussions with HM Treasury Ministers about this and other finance issues.

Departments: Public Participation

Mr. Lansley: To ask the Secretary of State for Health which third parties are represented in his Department's National Stakeholder Forum. [147571]

Ann Keen: The information is shown in the following table.

Name	*Job title*	*Organisation*
Lord Victor Adebowale	Chief Executive	Turning Point
John Adler	Chief Executive	Sandwell and West Birmingham Hospitals NHS Trust
Richard Barker	Director General	The Association of the British Pharmaceutical Industry

Disability Aids

Mr. Andrew Smith: To ask the Secretary of State for Health when he expects the review of community equipment for disabled people and wheelchair services to report. [149172]

Mr. Ivan Lewis: With regards to the review of community equipment, I reviewed the outline business case and on 19 April 2007, I approved the next phase of the development of the new model.

During the next 10 months, the transforming community equipment and wheelchair services team will work with users and their carers, councils and their primary care trust partners, practitioners as well as other stakeholders to develop the outline community equipment model to operational status by April 2008.

With regards to wheelchair services, I have agreed a further data gathering exercise and asked the Care Services Efficiency Delivery programme to report to me in autumn 2007.

Disability Aids: Children

Mr. Andrew Smith: To ask the Secretary of State for Health what assessment he has made of the availability of communication aids to disabled children; and if he will make a statement. [149173]

Mr. Ivan Lewis: We have not made any assessment of the availability of communication aids to disabled children.

The transforming community equipment services project is developing a market model for the provision of community equipment, including communication aids.

Responsibility for assessing people's individual communication aids needs rests with local health and social care agencies. They are in the best position to determine local service priorities, using the increasing resources that the Government have made available.

Doctors: Foreign Workers

Peter Bottomley: To ask the Secretary of State for Health who chose the 5 February 2007 date set for the Home Office stamp to be placed in the passports of Highly Skilled Migrant Programme doctors; why it was chosen; what other dates were considered; what process of consultation took place on the choice of date; whether responses were received from *(a)* the Home Department, *(b)* representatives of doctors in training and *(c)* directors of medical training; who has the power to (i) change the date and (ii) accept a Home Department letter in place of the Home Office stamp; what estimate he has made of the number of (A) junior doctors and (B) medical directors who were unaware of the details of the requirement; and what information was available to Ministers of the time it would take for (x) Highly Skilled Migrant Programme status to be granted and (y) the stamp to be placed in a passport. [148311]

Mr. Bradshaw: The Conference of Post-Graduate Medical Deans Steering Group for Recruitment and Selection for Specialty Training was created to establish the rules and criteria for entry to specialty training in 2007. Its membership included post-graduate deans for medical education, representatives of employers, deanery recruitment teams, royal colleges, trainee doctors and the Department. The steering group agreed that all eligibility criteria including for example General Medical Council registration, Royal College exams, English language proficiency and the right to work in the United Kingdom, would be assessed on the last date on which applications to the 2007 recruitment could be submitted. The date was originally set at

4 February. When the application period was extended until 5 February the date for assessing eligibility criteria was also extended. The decision to set the assessment of eligibility criteria on 5 February was a practical one, designed to ensure that all doctors would be subject to the same criteria, and that eligibility was fixed at the start of the process rather than being subject to change at any time, creating operational difficulties.

The Home Office advised that the Highly Skilled Migrant Programme approval letter does not grant doctors leave to remain in the United Kingdom under the Highly Skilled Migrant Programme and so was not accepted when the assessment of a candidate's right to work was made.

The eligibility criteria for round 2 have been published and no changes have been made.

Donors

Mrs. Dean: To ask the Secretary of State for Health what measures his Department has considered to increase the number of organs retrieved from *(a)* heart-beating and *(b)* non-heart-beating donors. [148879]

Ann Keen: The Department launched "Saving Lives. Valuing Donors: A Transplant Framework for England" in 2003 and the National Service Framework for Renal Services in 2004. These set out the Department's key aims for organ and tissue transplantation over the following 10 years. Over the last five years, Government investment in hospital-based initiatives has helped increase live and non-heart-beating donor rates. An organ donor taskforce will report to Ministers in autumn 2007 on how organ donor rates can be further improved.

Fluoride: Drinking Water

Mr. Crausby: To ask the Secretary of State for Health what estimate he has made of the cost to each health authority of implementing the fluoridation of public drinking water. [148451]

Ann Keen: For a strategic health authority with an average population of 5 million we estimate the capital costs of the water plant would be about £25 million and the recurrent costs of the operation of the plant and the fluoride chemicals would be around 80p per head of population per year.

Health Services: Training

Mr. Jenkins: To ask the Secretary of State for Health how many training commissions there were for the main health service professions, including podiatry between 2001 and 2006. [148821]

Ann Keen: The number of training commissions for nurses and all allied health professionals including chiropodists/podiatrists between 2001-02 and 2005-06 is shown in the table.

The second table shows the number of trainee doctors who entered medical school between 2001-02 and 2005-06.

Pre registration training commissions

	Nursing	*All allied health professionals*	*of which: Chiropody/ podiatry*
2001-02	20,624	5,513	345
2002-03	21,523	6,454	427
2003-04	22,815	7,098	451
2004-05	23,377	7,456	559
2005-06	23,230	7,640	446

HEFCE

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 21 June 2007, *Official Report*, column 2178W, on health services: training, if he will publish validated data relating to expenditure and training in 2006-07, broken down by strategic health authority. [147495]

Ann Keen: The following table shows the 2006-07 Multi-Professional Education and Training (MPET) allocations made to strategic health authorities (SHAs) and the actual outturn expenditure reported by the SHAs.

2006-07 MPET allocation and expenditure

£ 000

SHA	*2006-07 allocation*	*2006-07 outturn*	*Variance*
East Midlands	276,532	254,930	21,602
Eastern	291,090	258,953	32,137
London	898,301	823,584	74,717
North East	199,527	189,623	9,904
North West	500,102	467,240	32,862
South Central	256,782	223,683	33,099
South East Coast	201,456	174,302	27,154
South West	308,193	272,016	36,177
West Midlands	350,911	304,652	46,259
Yorkshire and Humberside	484,048	440,461	43,587
England Total	3,766,940	3,409,444	357,496

Notes:
1. All figures are provisional.
2. Allocation figures do not include any money recurrently remapped from service.

Health: Stockport

Mark Hunter: To ask the Secretary of State for Health what estimate he has made of the percentage of people in Stockport who have long-term illnesses. [147255]

Ann Keen: In the 2005 Healthcare Commission primary care trust (PCT) survey of patients, 34 per cent. of respondents in Stockport PCT responded yes to the question "Do you have a long-standing physical or mental health problem or disability?"

Hospitals: Finance

Norman Lamb: To ask the Secretary of State for Health which major hospital schemes with a capital value over £20 million reached financial close in *(a)* 2006 and *(b)* 2007 so far; which are expected to reach financial close in (i) 2007, (ii) 2008 and (iii) 2009; and what the actual or expected capital cost and completion date is of each scheme. [148931]

Mr. Bradshaw: The information is in the table

Year of financial close/tender award[1]	*National health service trust*	*Capital value (£ million)*	*Operational date*	*Procurement route*
2006	Hull and East Yorkshire Hospitals	67	Q2 2008	Private finance initiative (PFI)

[1] Tender award date1 is the equivalent of financial close for public capital funded schemes.
[2] It is not yet known what schemes are likely to reach financial close or award tender during 2009.

Hospitals: Private Finance Initiative

Mr. Evennett: To ask the Secretary of State for Health which hospitals in Greater London do not have private finance initiative debts. [148575]

Mr. Bradshaw: Under a private finance initiative contract a debt is incurred in the course of normal commercial practice under which the private sector partner submits a monthly invoice for services provided. Information is not collected centrally on failures by national health service trusts to meet these payments.

Kidney Patients: Medical Treatments

Mrs. Dean: To ask the Secretary of State for Health (1) how many people *(a)* received an estimated glomerular filtration rate test for kidney function, *(b)* were referred to a nephrologist for further investigation and *(c)* received treatment for chronic kidney disease in the last 12 months for which figures are available; [148847]

(2) how many people received treatment for the management of chronic kidney disease in each year since 2000. [148883]

Ann Keen: This information is not collected centrally and there are no plans to collect data on these specific issues.

The overwhelming majority of people with chronic kidney disease (CKD) are under the care of general practitioners and do not need to be seen by secondary or tertiary hospital services.

At general practice level, the maintenance of a practice register of patients with CKD became a part of the quality and outcomes framework in April 2006, which should mean that a very comprehensive CKD dataset will develop over the next few years.

Data on people newly diagnosed with CKD for the year 2006-07 should be available from September 2007.

Mrs. Dean: To ask the Secretary of State for Health what assessment his Department has undertaken of whether the standards and markers of best practice identified in the National Service Framework for Renal Services are being met across England. [148848]

Ann Keen: The Department published "The National Service Framework for Renal Services: Second Progress Report" in May 2007, and this sets out its up to date view on the implementation of the National Service Framework for Renal Services.

Mrs. Dean: To ask the Secretary of State for Health how many people received renal replacement therapy in each year since 2000; and what estimate his Department has made of the number of people likely to receive renal replacement therapy over the next 10 years. [148878]

Ann Keen: According to the renal registry, actual numbers at 31 December each year were as follows.

	England
2000	29,074
2001	30,042
2002	31,009
2003	32,297
2004	33,644
2005	34,975

Projected growth in numbers on renal replacement therapy is set out in the National Service Framework for Renal Services. It is predicted that numbers will rise to around 45,000 over the 10 years ending in 2014.

Mrs. Dean: To ask the Secretary of State for Health (1) how many people with established renal failure waited longer than six months to be referred for assessment and surgery prior to receiving haemodialysis in each of the last four years for which figures are available; [148881]

(2) how many people with established renal failure waited longer than four months to be referred for assessment and surgery prior to receiving peritoneal dialysis in each of the last four years for which figures are available. [148882]

Ann Keen: There is no specific waiting list for dialysis. Dialysis is often an emergency treatment and patients with no kidney function will die in a matter of weeks if they do not receive dialysis. For patients whose disease has been identified well in advance of end-stage renal failure, dialysis begins at a time that the individual and his or her consultant feel is appropriate. Part 1 of the National Service Framework for Renal Services recommends starting to prepare people for dialysis about a year before it will be needed, as such preparation leads to better outcomes for the patient.

Mrs. Dean: To ask the Secretary of State for Health what guidance is issued to GPs concerning estimated glomerula filtration rate test results for kidney function. [148884]

Ann Keen: The National Service Framework (NSF) for Renal Services recommended that, when kidney function is assessed and monitored, the most sensitive way to detect kidney disease is by use of a formula-based estimation of glomerular filtration rate (eGFR). To support the introduction of eGFR reporting, in 2006 the Department issued an information pack to the national health service. This consists of fact sheets which were sent to all general practitioners' practices and pathology laboratories, explaining how to calculate and interpret eGFR, together with a note on frequently asked questions.

Mrs. Dean: To ask the Secretary of State for Health how many dialysis machines were available for use within the NHS in each year since 2000; and how many were located in *(a)* hospital renal units, *(b)* satellite units and *(c)* at patients' homes. [148885]

Ann Keen: This information is not collected centrally on a regular basis. The Department commissioned the United Kingdom Renal Registry to undertake a one-off UK-wide survey in 2003 which identified (in 2002) 1,313 dialysis stations in hospital units in England, 1,268 in satellite units and 482 in people's homes. The number will almost certainly have grown significantly since.

Mrs. Dean: To ask the Secretary of State for Health how many people received *(a)* haemodialysis and *(b)* peritoneal dialysis in NHS facilities in each year since 2000. [148886]

Ann Keen: Information on the services provided specifically in national health services facilities is not collated centrally, as almost all United Kingdom haemodialysis facilities, whether operated by the NHS itself or the independent sector, are contracted to the NHS.

As at 31 December each year, the numbers of patients receiving NHS services for renal dialysis in England, whether in NHS or independent sector settings, were as follows:

	Haemodialysis	*Peritoneal Dialysis*
2000	10,651	4,741
2001	11,235	4,673
2002	11,789	4,605
2003	12,961	4,455
2004	13,875	4,333
2005	14,438	4,227

Maternity Services: Manpower

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* maternities and *(b)* full-time equivalent midwives there were in England in each year since 1997; how many full-time equivalent midwives per 1,000 maternities there were in each year; and what definition his Department uses of maternity. [147533]

Ann Keen: The number of maternities is collected by the Office for National Statistics (ONS) through birth registration, and published in FM1, Birth Statistics.

	Number of maternities
1997	602,452
1998	596,413
1999	583,923
2000	567,297
2001	558,271
2002	560,332
2003	584,450
2004	601,467
2005	607,090

The latest data available for the number of maternities in England are for 2005. Provisional data for 2006 show that there were 669,531 live births in England. The number of births is not the number of maternities, due to multiple births and still births.

The number of full-time equivalent (FTE) midwives is collected by the Information Centre (previously collected by the Department) in the Non-Medical Workforce Census, an annual snapshot census on 30 September.

	FTE midwives
1997	18,053
1998	18,168
1999	17,876
2000	17,662
2001	18,048
2002	18,119
2003	18,444
2004	18,854
2005	18,949
2006	18,862

The latest available data are for 2006.

The previous data can be used to calculate the number of FTE midwives per 1,000 maternities:

	Midwives per 1,000 maternities
1997	30.0
1998	30.5
1999	30.6

	Midwives per 1,000 maternities
2000	31.1
2001	32.3
2002	32.3
2003	31.6
2004	31.3
2005	31.2

Notes:
1. These data are collected using the ONS definition of a maternity: "A confinement resulting in the birth of one or more live-born or stillborn children." Therefore, the number of maternities is less than the total number of live births and stillbirths.
2. A still birth is a child that has issued forth from its mother after the 24th week of pregnancy, and that did not at any time after being completely expelled from its mother breathe or show any signs of life. Loss of the foetus before 24 weeks is not recorded as a still birth, but as a miscarriage.

Medical Treatments: EU Countries

Mr. Andrew Smith: To ask the Secretary of State for Health (1) what plans he has to improve the online application service for European health insurance cards; [148988]

(2) how many complaints his Department has received about the online application procedure for the European health insurance card in the last 12 months; [148989]

(3) what mechanism his Department has for monitoring the performance of the online application service for the European health insurance card. [148990]

Dawn Primarolo: The Department receives a lot of correspondence (this includes phone calls, letters and e-mails) relating to the European health insurance card (EHIC). This is not broken down into category and we do not therefore have a figure for the number of complaints concerning the online application service. The online application service is very successful with 3.3 million cards being issued between 1 June 2006 and 31 May 2007 using this process (nearly 60 per cent. of all applications). Feedback received is that our normal speed of service is particularly valued.

Performance of the EHIC service is monitored through regular service level agreement meetings with the Business Services Authority (BSA) who administer the scheme. Feedback is regularly reviewed by both the Department and the BSA and improvements to the service including the online application service are made as required.

Midwives: Employment

Mr. Frank Field: To ask the Secretary of State for Health what steps he is taking to provide job opportunities in the NHS for new midwives on graduation. [147380]

Ann Keen: The social partnership forum action plan for maximising employment opportunities for newly qualified healthcare professionals in a changing national health service was launched on 13 April. It sets out recommendations between employers, trade unions and the education sector, to put in place positive steps to maximise the employment opportunities for healthcare graduates, including midwives.

NHS Employers is responsible for monitoring progress against each of the action plan recommendations and will provide a report to the monthly meetings of the social partnership forum steering group.

NHS Treatment Centres: Standards

Anne Milton: To ask the Secretary of State for Health pursuant to the answer of 19 June 2007, *Official Report*, column 1637W, on NHS treatment centres: standards, what the evidential basis is for the statement that NHS walk-in centres contribute significantly to improving access to services for many people. [148644]

Mr. Bradshaw: An estimated 3 million people every year are seen and treated at national health service walk-in centres in England. The centres are treating patients who would otherwise be using other NHS services.

NHS: Anniversaries

Dr. Francis: To ask the Secretary of State for Health what plans he has to commemorate the 60th anniversary in July 2008 of the founding of the national health service; and if he will make a statement. [149617]

Mr. Bradshaw: The Department is currently considering plans to commemorate the 60th anniversary.

NHS: Consultants

Mr. Hoban: To ask the Secretary of State for Health (1) pursuant to the answer of 14 June 2007, *Official Report*, column 1314W to the hon. Member for Rayleigh on NHS: consultants, what the names were of the working groups and reference groups set up during the negotiation and implementation of the consultant contract; [146536]

(2) what the membership of each of the working groups and reference groups was. [146949]

Ann Keen: During the negotiations for the consultant contract there were a number of informal reference and working groups from 2001-04. These groups conducted business in meetings but also covered a large amount of business via e-mail. These groups did not have official titles. The main groups were:

the negotiation group—which included national health service chief executives, medical directors, human resources directors, and representation from the NHS Confederation;

a wider reference group—which included a wider range of representatives from NHS employing organisations; and

the implementation group—members from NHS Modernisation Agency, NHS Confederation, strategic health authorities and NHS employing organisations.

Mr. Hoban: To ask the Secretary of State for Health pursuant to the answer to the hon. Member for Rayleigh of 14 June 2007, *Official Report*, column 1313W, on NHS: consultants, which of her Department's Ministers were involved in these discussions. [146549]

Ann Keen: My right hon. Friend the Member for Darlington (Mr. Milburn) was the Secretary of State for Health during the 2002 Spending Review discussions on the contract. At the time that the new contract proposals were agreed, my right hon. Friend the Member for Airdrie and Shotts (John Reid) was Secretary of State for Health.

NHS: Finance

Daniel Kawczynski: To ask the Secretary of State for Health what assessment she has made of the impact on service provision by health trusts of the clawing back of funding. [146523]

Mr. Bradshaw: Unaudited figures for 2006-07 show that the national health service delivered a net surplus of £510 million at the end of 2006-07, recovering from a £547 million deficit in 2005-06. This transformation in financial performance has been achieved in the context of continued improvements in both access to and the quality of patient care.

A key component to the overall financial recovery in 2006-07 has been the rigorous action taken by strategic health authorities (SHAs) to manage financial risk at local level. This has been largely achieved by the prudent management of central NHS programme funds to create a £450 million contingency, and by the top-slicing of primary care trust allocations to create SHA reserves. We have not expected any one NHS sector to contribute more in financial savings than any other part of the health system, except where that sector has specifically contributed to a deficit.

The financial recovery in 2006-07, brought about by this local action and the introduction of a stronger, fairer and more transparent financial regime, has put the NHS on a much firmer financial footing for 2007-08 and beyond.

Mr. Lansley: To ask the Secretary of State for Health which items of expenditure were included in the NHS bundle for (a) 2006-07 and (b) 2007-08; and what the overall value of the NHS bundle was in each year. [147581]

Mr. Bradshaw: The national health service bundle incorporates a number of budgets formally managed directly by the Department.

The value of the strategic health authority (SHA) bundle for 2006-07 was £5,460 million, and for 2007-08 is £6,946 million. Allocations are made direct to SHAs that manage the distribution of funds among the different programmes, taking account of local circumstances.

The overall allocations are made up of £3,734 million in 2006-07 and £4,307 million in 2007-08 for work force programmes, and £1,725 million in 2006-07 and £2,639 million in 2007-08 for the remainder of the programmes.

All figures quoted are resource budgets rounded to the nearest £ million.

John Hemming: To ask the Secretary of State for Health what the planned capital expenditure for the NHS in 2007-08 was in the *(a)* 2006 and *(b)* 2007 Budget; and what the reasons are for the difference between the two figures. [147926]

Mr. Bradshaw: Departmental expenditure limits for the Department and national health service are available in annex C of the Budget 2006 and Budget 2007. As set out in Budget 2007 the Government updated the capital figures for 2007-08 for the NHS in England to make them consistent with projected levels of spend, leaving aside exceptional items. NHS spending plans were unaffected by revisions to expenditure figures published in Budget 2007.

NHS: ICT

Mr. Hoban: To ask the Secretary of State for Health pursuant to the answer of 25 June 2007, *Official Report*, column 747W, on NHS: ICT, in which document the Cabinet Office best practice is set out. [148940]

Mr. Bradshaw: Strategic guidance is provided on the Cabinet Office website under IT in Government and can be accessed at:

www.cio.gov.uk/reliable_project_delivery/index.asp.

Two further basic references, recommended by the Office of Government Commerce which supports operational governance for the national programme for IT, are PRINCE 2 and Managing Successful Programmes. These can be found at:

www.ogc.gov.uk/methods_prince_2.asp and

www.ogc.gov.uk/delivery_lifecycle_overview_of_managing_successful_programmes_msp_.asp

In addition, Improving Programme and Project Delivery available at www.pm.gov.uk/files/pdf/ippd.pdf is an example of other documentation available on government websites which provides helpful guidance in this area.

NHS: Procurement

Mark Tami: To ask the Secretary of State for Health (1) what plans his Department has to review NHS purchasing processes, with particular reference to enabling clinicians to commission appropriate technologies where hospital-acquired infections are concerned; [147458]

(2) if he will make a statement on NHS purchasing processes, with particular reference to the delivery of effective management of hospital-acquired infections. [147459]

Mr. Bradshaw: All national health service procurement must fully comply with European Union regulations and be a transparent process. Proper emphasis must be placed on guidance provided by the National Institute for Health and Clinical Excellence and information on products provided by the centre for evidence based purchasing. However, the Government recognise the need to ensure swift access for clinicians to products which are innovative and effective in supporting the reduction in healthcare-associated infections, and processes are being reviewed to meet this challenge.

A best practice procurement framework has been developed as part of the health industry taskforce outcomes to ensure NHS procurement is aligned to NHS objectives and delivers outputs that are relevant. This framework will also ensure better decision making

in the NHS through category management and sourcing groups managed locally by the collaborative procurement hubs.

By working within this new framework the key targets and objectives of health and social care, such as health care-associated infection, can be appropriately aligned with benefits to be derived from procurement.

Currently there are no plans to review NHS procurement processes.

Mr. Evans: To ask the Secretary of State for Health how many NHS suppliers have been awaiting outstanding payments for *(a)* up to (i) 30, (ii) 60, (iii) 90 and (iv) 120 days and *(b)* more than 120 days; and what the value of the payments owed is in each case. [149302]

Mr. Bradshaw: The information requested is not collected centrally.

Osteoporosis: Medical Treatments

Mr. Drew: To ask the Secretary of State for Health (1) what estimate he has made of the number of women who do not respond to alendronate as treatment for osteoporotic fractures; [149278]

(2) what guidance his Department provides to general practitioners on the provision of treatment to men at risk of osteoporotic fractures; [149279]

(3) what assessment his Department has made of the impact of demographic change on the incidence of osteoporosis. [149280]

Ann Keen: The Department has made no assessment of the impact of demographic change on the incidence of osteoporosis.

Detailed guidance for health professionals on the provision of treatment for both men and woman at risk of osteoporotic fractures is provided on the National Library for Health Clinical Knowledge Summaries website www.cks.library.nhs.uk.

No estimate has been made of the number of women who do respond to alendronate as a treatment to prevent further osteoporotic fractures.

Patients: Travel

Tim Farron: To ask the Secretary of State for Health whether rurality and travelling distance for patients are considered alongside national clinical guidelines during acute services reviews. [149458]

Ann Keen: Any proposals for major changes to services are a matter for the national health service locally.

We would expect the local NHS to take into account the widest possible variety of issues, including rurality and travelling distance, when putting forward and consulting on such proposals.

No decisions will be taken about changes to local NHS services until full public consultation has taken place.

Thyroid Disease: Fluoride

Mr. Crausby: To ask the Secretary of State for Health (1) what research he has *(a)* commissioned and *(b)* evaluated on the incidence of thyroid disease in fluoridated areas; [148450]

(2) what plans he has to establish mechanisms to monitor the ingestion of fluoride as a precaution against toxicity. [148452]

Ann Keen: The Department has commissioned and funded two research studies on fluoridation and health. "A Systematic Review of Public Water Fluoridation", published by the University of York in 2000, identified two studies, which found no significant association between thyroid disorders, water fluoridation, and one study with a positive association. However, the positive study looked at combined fluoride/iodine intakes and has not been published in a peer review journal. "Water Fluoridation and Health", published by the Medical Research Council (MRC) in 2002 endorsed York's recommendation on the need for further research into fluoridation, but awarded low priority to further research on thyroid disorders. This was because the MRC judged the scientific plausibility of an association between water fluoridation and thyroid disease to be low.

We are committed to a continuing programme of research on the effects of fluoridation on health. And, under section 90A of the Water Industry Act 1991, strategic health authorities (SHAs) are required to monitor the effects of fluoridation schemes on the health of persons living in the fluoridated area and publish reports containing an analysis of the effects on health at four-yearly intervals. The West Midland Public Health Observatory is leading on the compilation of a set of standard indicators which will enable comparisons to be made between the findings of different SHAs.

Transplant Surgery: Kidneys

Mrs. Dean: To ask the Secretary of State for Health how many patients were removed from the national transplant list for kidneys without completing an organ transplant in each of the last three years for which figures are available. [148843]

Ann Keen: The number of patients removed from the United Kingdom kidney transplant list during 2004-06 is shown in the following table.

Status	*2004*	*2005*	*2006*
Removed[1]	377	426	326
Died	281	306	293
Total	658	732	619

[1] There are many reasons for removal—for example, condition improved, condition deteriorated. Patients can be reregistered following removal.

Transplant Surgery: Standards

Mrs. Dean: To ask the Secretary of State for Health what proportion of renal and transplant units are participating in national comparative audits and benchmarking by submitting data to the UK Renal Registry of the Renal Association and UK Transplant. [148844]

Ann Keen: The Renal Registry is now collecting data on incidence and prevalence for 100 per cent. of United Kingdom renal units (with summary data being provided by the five non-linked sites in England). One hundred per cent. of transplant units submit data to UK Transplant.

Water: Schools

Dr. Kumar: To ask the Secretary of State for Health what discussions he has had with the Secretary of State for Children, Schools and Families on the *(a)* provision of water in schools and *(b)* effect of dehydration on mental performance. [148040]

Ann Keen: The Department has not discussed with the Secretary of State for Children, Schools and Families the provision of water in schools or the effect of dehydration on mental performance.

It is important that children develop a healthy diet, and a school plays an important role in helping to introduce and reinforce these behaviours. Through the national Healthy Schools programme run jointly between the Department, and the Department for Children, Schools and Families, schools are doing a lot of work to improve diet, for example by phasing out items which are low in nutritional value such as fizzy drinks. Teachers tell us that improved diet has had both health and other benefits such as calmer children who are better behaved and a ready to learn. Good hydration helps to reduce tiredness and irritability, and increases concentration. It also contributes to a more settled and productive learning environment.

Written Answers to Questions

Tuesday 17 July 2007

NORTHERN IRELAND

Royal Ulster Constabulary

Mr. Donaldson: To ask the Secretary of State for Northern Ireland whether the three former senior officers of the Royal Ulster Constabulary GC, Chris Albiston, Raymond White and Freddie Hall, who were named by the hon. Member for Foyle (Mark Durkan) on 24 January 2007, *Official Report*, column 1415W, following a report by the Police Ombudsman for Northern Ireland, were formally interviewed concerning any alleged offence during the course of the ombudsman's investigation into the death of Raymond McCord Junior and related matters; and if he will take steps to clear their names. [149982]

Paul Goggins: The three former senior officers, Chris Albiston, Raymond White and Freddie Hall, named by the hon. Gentleman were not formally interviewed in connection with any alleged offence in the course of the Police Ombudsman's investigation. I am happy to put on record that these officers, in common with many colleagues, served with commitment and distinction in very demanding policing roles in Northern Ireland.

SOLICITOR-GENERAL

Departments: Consultants

Mr. Meacher: To ask the Solicitor-General how much the Law Officers' Departments spent on *(a)* management consultants and *(b)* other external consultants and advisers in each year since 2000; and which of these consultants undertook work for the Department with a total contractual value in excess of £10 million over this period. [146331]

The Solicitor-General: I am answering this question on behalf of the Crown Prosecution Service, Serious Fraud Office, Revenue and Customs Prosecutions Office, Treasury's Solicitors Department and HMCPS Inspectorate.

It has not been possible to distinguish between expenditure on management consultants and other external consultants. The statistics are also dependent on individual budget holders allocating expenditure to the correct code.

£000

Financial year	*CPS*	*SFO*	*RCPO*	*TSol*[1]	*HMCPSI*
2000-01	4,043	341	n/a	202	n/a
2001-02	7,126	298	n/a	195	153
2002-03	4,947	762	n/a	311	63
2003-04	7,139	672	n/a	278	51
2004-05	7,819	1,296	n/a	274	59
2005-06	3,784	1,919	127	658	66
2006-07	3,924	1,453	236	328	57

[1] Including AGO

In addition the Treasury Solicitors' department has incurred the following costs for externally procured legal advice for representation including expenditure which is recovered from client organisations through charges as part of the business operations of TSol.

	£000
2000-01	17,531
2001-02	20,418
2002-03	27,089
2003-04	28,187
2004-05	22,981
2005-06	17,409
2006-07 (forecast)	20,254

Departments: Legislation

Mr. Clegg: To ask the Solicitor-General what legislative provisions within the responsibility of the Law Officers' Departments introduced since 1997 have not yet been brought into force. [149681]

The Solicitor-General: My Department is not generally responsible for the carriage of legislation. We are not aware of any legislative provisions within our responsibility and introduced since 1997, which have not yet been brought into force.

Public Sector: Misconduct

Mr. Clegg: To ask the Solicitor-General how many *(a)* prosecutions and *(b)* convictions there were of public sector employees for offences relating to their official duties in the last period for which figures are available. [149682]

The Solicitor-General: The Crown Prosecution Service (CPS) maintains no central record of whether the defendants it prosecutes are public sector employees or whether the offences for which defendants are prosecuted relate to their official duties.

This information may be held on individual case files, but could only be obtained by locating and examining a huge numbers of individual case files and would incur disproportionate cost (Code of Practice on Access to Information, part 2, clause 9).

Police Cautions

Mr. Drew: To ask the Solicitor-General what monitoring the Law Officers' Departments undertake of the operation of the issuing of conditional cautions; and how many such cautions have been issued in each police authority. [149294]

The Solicitor-General: The joint Crown Prosecution Service (CPS)/Association of Chief Police Officers (ACPO) prosecution team is responsible for the implementation of and the day-to-day monitoring of the conditional cautioning scheme.

Monitoring of the use of the conditional cautions is undertaken at both national and local level. An information data set has been produced, which contains national and local performance data including the number of offenders being conditionally cautioned and the types of offences conditional cautions have

been issued for. The information data set is issued by the national prosecution team on a monthly basis to all staff across areas with lead responsibility for conditional cautioning.

Information contained in the information data set is obtained from the CPS case management system and management information system as well as from local areas and Home Office research, development and statistics (RDS) data. Collating the data in this way allows for a consistent, national recording mechanism which does not require additional reporting from areas.

Conditional cautioning is being implemented across each criminal justice area in a phased approach. To date, conditional cautioning is operational in 93 police basic command units across 41 out of the 42 criminal justice areas. Full implementation of the scheme across 230 basic command units is expected to be achieved by April 2008. There have been 2,963 conditional cautions issued nationally since the first pilot schemes were introduced in 2005. A breakdown of the number of conditional cautions in each CPS area is also available from:

conditional.cautioning:cps.gsi.gov.uk

In Gloucestershire, conditional cautions were introduced on 25 June 2007 in the Cotswold and Stroud division. However, to date no conditional cautions have been issued in this division.

SCOTLAND

Departments: Official Hospitality

Mr. Carmichael: To ask the Secretary of State for Scotland how much his Department has spent on hospitality events in each of the last five years. [148613]

David Cairns: Scotland Office hospitality expenditure is detailed in the following table:

	Hospitality expenditure (£)
2002-03	41,882
2003-04	25,969
2004-05	18,420
2005-06	17,748
2006-07	23,411

Departments: Official Visits

David Simpson: To ask the Secretary of State for Scotland how much was spent on overnight accommodation by civil servants within his Department's areas of responsibilities in the last 12 months. [149054]

David Cairns: I refer the hon. Member to the answer that I gave on 17 May 2006, *Official Report*, column 994W.

Departments: Racial Harassment

David Simpson: To ask the Secretary of State for Scotland how many complaints of racial abuse relating to staff for which his Department is responsible have been *(a)* investigated and *(b)* upheld in the last 12 months. [149244]

David Cairns: There have been no complaints of racial abuse in the last 12 months.

Dover House: Official Hospitality

Mr. Carmichael: To ask the Secretary of State for Scotland how many receptions have been held at Dover House in each of the last five years. [148605]

David Cairns: The number of receptions held at Dover House is as shown in the following table. The receptions not funded by the Scotland Office were third party events organised and funded by organisations such as charities and trade associations.

	Third party events	*Scotland Office funded events*	*Total number of events*
2002-03	21	7	28
2003-04	14	8	22
2004-05	24	7	31
2005-06	11	5	16
2006-07	25	5	30

Navy: Military Bases

Mr. Gerald Howarth: To ask the Secretary of State for Scotland what discussions he has had with the Secretary of State for Defence on the Naval Base Review, with particular reference to Faslane. [149556]

David Cairns: The Secretary of State has regular discussions with colleagues in the Ministry of Defence on a range of subjects.

WALES

Departments: Official Visits

David Simpson: To ask the Secretary of State for Wales how much was spent on overnight accommodation by civil servants within his Department's areas of responsibilities in the last 12 months. [149058]

Mr. Hain: A total of £12,263.38 was spent on overnight accommodation by civil servants in the 12 months to 31 March 2007, the latest period for which we have final figures. This reflects the increased travel requirements of Cardiff-based staff in support of the heavy parliamentary legislative programme delivered by the Wales Office.

Pipelines: Natural Gas

Mark Pritchard: To ask the Secretary of State for Wales what discussions he has had with the Welsh Assembly Government on health and safety and the new Welsh gas pipeline. [149217]

Mr. Hain: My hon. Friend the Member for Carmarthen, West and South Pembrokeshire (Nick Ainger), and I had regular discussions with Welsh Assembly Government ministerial colleagues, including about the health and safety considerations of both phases of the liquid natural gas pipeline (LNG), and I will continue to do so as necessary.

I am confident that stringent conditions are attached to the approval. All pipelines in the United Kingdom

are designed, tested and operated in accordance with the strictest standards established by the Health and Safety Executive and the Institute of Gas Engineers.

Both the National Grid (NG) and the Milford Haven Port Authority have been working closely with Government and security services to make sure they have robust security arrangements.

The NG takes safety and security of people and assets extremely seriously and continually carries out thorough reviews of safety and security at its sites around the country based on potential risks, and has a number of procedures in place. In 35 years the UK's high-pressure National Grid Transmission System has never experienced a serious incident affecting life or property, and I am sure that NG is doing its utmost to maintain this exemplary record.

LEADER OF THE HOUSE

Members: Correspondence

Mr. Allen: To ask the Leader of the House if she will commission research on the effect of the new postage and stationery rules on the ability of hon. and right hon. Members to communicate effectively with their constituents. [148357]

Helen Goodman: The monetary cap on the use of pre-paid envelopes from 1 April 2007 was balanced by the introduction of the Communications Allowance, which provides extra resources to enable Members to engage proactively with their constituents.

The rules of the new allowance will be reviewed and if necessary revised by the Members Estimate Committee in the light of experience and on advice by the Advisory Panel on Members' Allowances.

There are no plans to commission any research on the postage and stationery rules.

Members: Cycling

Martin Horwood: To ask the Leader of the House pursuant to the answer of 25 June 2007, *Official Report*, column 9W, on Members: cycling, if she will take steps to enable hon. Members to register with the Government's cycle to work scheme in their capacity as an employer so that their staff members can participate in the scheme. [148573]

Helen Goodman: As employers, Members may register for the scheme, which has costs as well as benefits for Members' staff. Any Member doing so would be responsible for administering the scheme and ensuring that the scheme rules were met.

Oral Questions

Mr. Allen: To ask the Leader of the House when she expects the new rota for oral questions to be completed; and what provision she expects to make for *(a)* regional Ministers and *(b)* the Minister for the East Midlands to answer oral questions. [149740]

Helen Goodman: The Leader of the House confirmed the questions rota until the summer recess on 4 July for departmental Ministers. The rota, and related matters including the issue of question times for regional Ministers, will be considered during the summer recess.

INTERNATIONAL DEVELOPMENT

Afghanistan: Reconstruction

Nick Harvey: To ask the Secretary of State for International Development how many reconstruction projects have been undertaken in Helmand province over the last five years; and where these have taken place. [150023]

Mr. Malik: Through the national solidarity programme, the Government of Afghanistan (GoA) have approved 697 reconstruction projects in Helmand of which 250 have been completed. These have taken place in Lashkar Gah, Nahr-e-Saraj, Kajki, Musa Qala, Baghran, Now Zad, Washer, Nad Ali, Nawa-i-Barakzai, Dishu, Garmsir, Sangin and Reg. Through DFID's support to GoA's rural water and sanitation programme, 229 wells to provide clean drinking water in Helmand have been completed. These are located in Lashkar Gah, Nahr-e-Saraj, Nawa and Nad Ali. Work is also being undertaken on 50 kilometres of DFID-funded roads in Lashkar Gah.

Since April 2006, the UK has funded 150 quick impact projects through the provincial reconstruction team (PRT) based in Lashkar Gah. Of these, 81 were reconstruction projects and 52 have been completed. These have taken place in Lashkar Gah, Gereshk, Sangin, Garmsir, Musa Qala and Nahr-e-Saraj.

In addition to this, the United States Government through USAID have completed 75 projects through their alternative livelihoods programme over the last two years in Helmand. These projects have covered every district in Helmand except for Dishu.

Nick Harvey: To ask the Secretary of State for International Development how many reconstruction projects undertaken in Helmand province over the last five years have been destroyed or delayed due to fighting. [150024]

Mr. Malik: Over the past 30 years, infrastructure in Afghanistan, including Helmand province, has sustained substantial damage due to conflict, and neglect resulting from the collapse of governmental institutions. Since the UK assumed the lead of the provincial reconstruction team (PRT) in April 2006, the security situation has not been suitably permissive to allow either the PRT or provincial authorities to undertake a full battle damage assessment, encompassing destroyed or delayed projects, across Helmand.

The PRT works closely with the provincial authorities to undertake consultations with communities across the province to enable them to compile a provincial development plan (PDP) that will address the reconstruction and development needs of Helmand. The civilian and military elements within the PRT are working in close partnership to minimise the future risk of damage to infrastructure and non-combatants.

Latin America: Overseas Aid

Lynne Featherstone: To ask the Secretary of State for International Development when his Department expects to publish its Latin America Regional Assistance Plan 2008-11. [150485]

Mr. Malik: The Department for International Development's Latin America policy will be reviewed in the autumn in the light of consultations on a new DFID strategy for Latin America.

We expect to have the Latin America Regional Assistance Plan 2008-11 published by the end of 2007.

Palestinians: EC Aid

Mr. Lancaster: To ask the Secretary of State for International Development whether he plans to use the Temporary International Mechanism as an acceptable method of delivering aid to the Palestinian population beyond its current extension to September. [150257]

Mr. Malik: Any decision to extend the Temporary International Mechanism (TIM) beyond September will need to be taken by the Quartet in consultation with the Palestinians. The EU is currently discussing with Prime Minister Salaam Fayyad how best to provide financial and practical assistance to the emergency government. He has welcomed the continuation of support through the TIM, but has not yet indicated how he would like it to evolve after September.

DEFENCE

Afghanistan: Reconstruction

Paul Flynn: To ask the Secretary of State for Defence how many reconstruction projects in the Helmand province have been *(a)* started and *(b)* completed in the last two years. [148723]

Mr. Malik: I have been asked to reply.

Through the national solidarity programme, the Government of Afghanistan (GoA) have approved 697 reconstruction projects in Helmand over the last two years, of which 250 have been completed. Through DFID's support to GoA's Rural Water and Sanitation Programme, 1,000 wells to provide clean drinking water in Helmand have been surveyed, and 229 have been completed. Since April 2006, the UK has funded 150 quick impact projects through the provincial reconstruction team (PRT) based in Lashkar Gah. Of these, 81 were reconstruction projects and 52 have been completed. Work is also ongoing on 50 kilometres of DFID-funded roads in Lashkar Gah.

In addition to this, the United States Government through USAID have completed 75 projects through its alternative livelihoods programme over the last two years in Helmand.

Armed Forces: Health

Mr. Harper: To ask the Secretary of State for Defence what responsibility his Department has for the health care of service personnel ill or injured *(a)* due to duties and *(b)* due to incidents unrelated to duties. [148233]

Derek Twigg: The MOD is responsible for ensuring the medical care of serving members of the armed forces. The actual delivery of health care is performed by a combination of the Defence Medical Services, the NHS, coalition forces or private medical providers, depending on the geographical location, circumstances and clinical need of the patient.

If service personnel require medical treatment when on leave in the UK away from their normal duty station, they should obtain it from local NHS facilities. If inpatient treatment is required, administrative arrangements are in place for the hospital to inform the relevant service authority, in order that the appropriate military medical and welfare processes can be set in motion, which may include transfer to facilities convenient to home or unit if necessary.

Armed Forces: Life Insurance

Dr. Murrison: To ask the Secretary of State for Defence what provision he has made for personnel being deployed abroad to assist them in securing life insurance. [149677]

Derek Twigg *[holding answer 16 July 2007]:* MOD already provides significant financial support for attributable death during service. This was improved under the 2005 Armed Forces Pension Scheme and the Compensation Scheme introduced on 6 April 2005.

As a matter of policy MOD leaves the decision whether to take out additional cover in the form of personal insurance to the individual as individual needs vary and personal insurance is a complex issue.

In the past, service personnel have sometimes encountered difficulties in obtaining affordable life insurance that provides cover for war risks such as chemical or biological attack.

One scheme currently available to all service personnel, including those deployed abroad is PAX which provides personal accident and life cover. PAX covers war risks, but has in the past imposed restrictions (such as closing the scheme or introducing war and terrorism risks) for new members.

In addition, MOD's Service Risks Insurance Premiums Refunds scheme currently contributes towards extra life insurance premiums incurred by personnel involved in certain high-risk activities such as flying. The compensation available is 90 per cent. of the extra premium up to a total sum assured, which is increased every year in line with service pay and is currently £157,000.

In addition, the MOD launched on 8 May a new life insurance scheme, aimed exclusively at service personnel, Service Life Insurance (SLI). The scheme is available to all service personnel—including those deployed abroad on operations—and guarantees affordable cover, including against the risks of war and terrorism throughout their service and civilian life. Premiums are comparable to those paid by civilians, with no premium loading for personnel deployed on operations—or those involved in high-risk activities.

Armed Forces: Nijmegen Marches

Mr. Hoyle: To ask the Secretary of State for Defence whether UK armed forces personnel will be taking part in the Nijmegen Marches in 2007; and if he will make a statement. [148130]

Mr. Bob Ainsworth: Around 1,060 UK armed forces personnel will be involved in the 2007 Nijmegen Marches.

Armed Forces: Recruitment

Mr. Harper: To ask the Secretary of State for Defence what the current percentage shortfalls are for each pinch point trade in the *(a)* Army, *(b)* Royal Navy and *(c)* Royal Air Force. [148232]

Mr. Bob Ainsworth: A manning pinch point is defined as a trade or area of expertise where there is insufficient trained strength (officers or ratings/other ranks) to perform directed tasks. This might be as a result of adherence to single-service harmony guidelines, under-manning, and/or levels of commitment that exceed the resourced manpower ceiling for the trades or areas of expertise involved.

The percentage shortfall for each pinch point trade is as follows:

Army

Pinch point trade	*Percentage shortfall*
Ammunition Technician	19.41
Clerk of Works	16.28
Intelligence Operator	9.21
Vehicle Mechanic	7.85
Armourer	9.21
Recovery Mechanic	10.58
Mechanical Fitter	5.36
ITU Nurse	38.46
EM Nurse	45.28
Radiologist	80.00
Orthopaedic Surgeon	53.85
General Surgeon	50.00
UAV Operator Level 4	47.71
Anaesthetist	45.95
General Medical Practitioner	44.39
Radiographer	42.86
Registered General Nurse	36.04
ME Geographical	27.05
Explosives Ordnance Disposal	26.11
ODP	44.64
MEC3S	17.95
Postal and Courier Operator	9.36
Chef	7.15
Petroleum Operator	3.77
IS Engineer	3.44

Royal Navy

Pinch point trade	*Percentage shortfall*
Merlin aircrew (pilots)	32
Merlin aircrew (observers)	43
Merlin aircrew (aircrew)	30
Harrier GR7 Flying Instructors	85
Leading Seaman (Warfare)	42

Royal Navy

Pinch point trade	*Percentage shortfall*
Ableseaman (Divers)	3
Royal Marine (Marine)	9
Royal Marine (Corporal)	11
Royal Marine (Sergeant)	13
Leading Air Engineer Technician	35
Petty Officer (Mine Warfare)	33
Leading Aircraft Controllers	36
Ableseaman Warfare Specialist (Sensor Submarine)	32
Ableseaman Warfare Specialist (Tactical Submarine)	32
Strategic Weapon System Junior Rates (Engineering Technician)	30
Strategic Weapon System Junior Rates (Leading Engineering Technician)	25
Marine Engineer Submarine Nuclear Watchkeepers—CatA2	28
Marine Engineer Submarine Nuclear Watchkeepers—Cat B	19

Royal Air Force

Pinch point trade	*Percentage shortfall*
Operations Support (Intelligence)	2.5
Operations Support (Regiment)	12.3
Operations Support (Provost)	5.2
PMRAFNS (Nurses)	19.8
Weapons Systems (Air Loadmaster)	10.2
Gunner	13.0
Registered General Nurse (Other Ranks)	11.7
Medical	28.8
Musician	13.1
Pharmaceutical Health Technician	15
Radiographer	15.4
RAF Police	6.2
Registered Mental Nurse	21.3

Armed Forces: Royal Engineers

Mr. Lancaster: To ask the Secretary of State for Defence when he expects *(a)* 124 Fd Sqn RE(V) and *(b)* 129 Fd Sqn RE(V) to form. [148980]

Mr. Bob Ainsworth *[holding answer 11 July 2007]*: On current plans 124 Field Squadron RE (V) and 129 Field Squadron RE(V) will begin to form up from 1 April 2009.

Arms Control

Mr. Jim Cunningham: To ask the Secretary of State for Defence what role his Department plays in delivering the objectives of the G8 global partnership. [149466]

Mr. Bob Ainsworth: I refer my hon. Friend to the Global Partnership, UK Fourth Annual Report 2006, copies of which are available in the Library of the House.

Army

Mr. Gordon Prentice: To ask the Secretary of State for Defence how many soldiers were commissioned from the ranks in each of the last five years; and if he will make a statement. [149402]

Derek Twigg: The following table shows the number of trained soldiers who have outflowed to officer from the ranks for the period 1 April 2002 to 28 February 2007:

Date of flow	*Number of outflows to officer*
2002-03	360
2003-04	330
2004-05	320
2005-06	340
2006-07[1]	370

[1] Due to the introduction of a new personnel administration system for all three services, Army data shown at 1 April 2007 and 1 May 2007 are not available. Consequently Army data shown are for the latest 12 months available, comprising data from 1 March 2006 to 28 February 2007.

Notes:

1. UK regular forces includes nursing services and excludes full-time reserve service personnel, Gurkhas, the Home Service battalions of the Royal Irish Regiment and mobilised reservists.
2. All data have been rounded to the nearest 10. Numbers ending in "5" have been rounded to the nearest multiple of 20 to prevent systematic bias.

Defence Agencies

Nick Harvey: To ask the Secretary of State for Defence (1) how many people were employed within the *(a)* Defence Housing Executive and *(b)* Defence Estates in each year since 1997, broken down by occupation; [149669]

(2) how many redundancies there were within *(a)* the Defence Housing Executive and *(b)* Defence Estates in each year since 1997, broken down by occupation. [149670]

Derek Twigg: Details of civilian full-time equivalent (FTE) strengths are given in the following table.

FTE strengths

	Defence Estates[1]	*Defence Housing Executive*[2]
As at April:		
1997	1,230	—
1998	1,160	—
1999	1,240	1,020
2000	1,220	960
2001	1,350	990
2002	1,420	940
2003	1,550	880
2004	2,450	—
2005	2,820	—
2006	2,900	—
2007	2,860	—

Details of civilian FTE redundancies are given in the following table.

FTE redundancies

	Defence Estates[1]
As at April:	
1997	[3]—
1998	10
1999	[3]—
2000	15
2001	[3]—
2002	[3]—
2003	10
2004	10
2005	[3]—
2006	30
2007	60

[1] Known as the Defence Estates Organisation until 1 March 1999 and subsequently merged with Defence Housing Executive on 1 April 2004; formally ceased to be a Defence Agency on 1 April 2007.

[2] Defence Housing Executive was formed April 1999 and merged with Defence Estates on 1 April 2004.

[3] Denotes less than 5.

Notes:

1. These table use the revised definition of civilian personnel (see www.dasa.mod.uk for details).
2. Figures include values for part-time staff proportionate to those of full-time staff.
3. All figures are rounded to the nearest ten; as a result totals may not always equal the sum of the parts. For visibility rounding has only been applied to figures of ten and above.
4. For DHE strength figures are available for the first five years it existed, but redundancies are not separately identifiable.

Information relating to occupation is not held centrally and could be provided only at disproportionate cost.

Defence Export Services Organisation

Lynne Featherstone: To ask the Secretary of State for Defence if he will make a statement on the future of the Defence Export Services Organisation. [149158]

Mr. Bob Ainsworth: The Ministry of Defence will continue to offer high quality support to UK-based defence manufacturers to help them win contracts for legitimate defence exports.

Mr. Gerald Howarth: To ask the Secretary of State for Defence what recent discussions he has had with HM Treasury on the future of the Defence Export Services Organisation; and if he will make a statement. [149320]

Des Browne *[holding answer 12 July 2007]:* I have regular discussions with colleagues at the Treasury on issues of mutual interest.

Defence Export Services Organisation: Finance

Lynne Featherstone: To ask the Secretary of State for Defence (1) what funding the Defence Export Services Organisation received in each of the last five years; and if he will make a statement; [149132]

(2) what future funding for the Defence Export Services Organisation was included in the 2007 Budget. [149157]

Mr. Bob Ainsworth: I refer the hon. Member to the answer my predecessor gave on 24 April 2006, *Official Report*, column 845W, to the hon. Member for Birmingham, Selly Oak (Lynne Jones). The net operating costs of the Defence Export Services Organisation in financial years 2005-06 and 2006-07 were £14.497 million and £15.015 million respectively.

Provision of £13.7 million has been made for the net operating costs of the Defence Export Services Organisation in 2007-08.

Departments: Early Retirement

Mr. Jenkins: To ask the Secretary of State for Defence how many of his staff took early retirement in the last five years; at what cost; what grades of staff took early retirement; and what percentage of each grade took early retirement. [148817]

Derek Twigg: The information in respect of the number, grade and percentage of staff who took early retirement is provided in the following tables:

Table 1: Early retirement 2002-03 to 2006-07

	Headcount
2002-03	700
2003-04[1]	1,200
2004-05	790
2005-06	1,100
2006-07	1,100

[1] The streamlining of Head Office prior to the reoccupation of main building in London led to 540 personnel taking early retirement on compulsory early retirement on structural grounds.

Note:
This table excludes Royal Fleet auxiliary and locally engaged civilian staff for whom no information on civilian early retirements is available.

Table 2: Early retirement 2002-03 to 2006-07 by grade

Grade	*2002-03*	*2003-04*[1]	*2004-05*	*2005-06*	*2006-07*
Band B Level 1	10	50	10	20	30
Band B Level 2	20	120	20	50	60
Band C Level 1	50	120	80	160	110
Band C Level 2	80	180	140	230	160
Band D	90	220	100	230	170
Band E Level 1	160	160	140	110	140
Band E Level 2	50	60	40	50	40
Other Non Industrial	20	20	10	20	20
Industrial	160	150	130	90	200
Trading Fund Personnel	70	120	110	160	180
Total	700	1,200	790	1,100	1,100

[1] The streamlining of Head Office prior to the reoccupation of main building in London led to 540 personnel taking early retirement on compulsory early retirement on structural grounds.

Note:
This table excludes Royal Fleet auxiliary and locally engaged civilian staff for whom no information on civilian early retirements is available.

Table 3: Percentage of each grade that took early retirement 2002-03 to 2006-07[1]

Grade	*2002-03*	*2003-04*[2]	*2004-05*	*2005-06*	*2006-07*
Band B Level 1	1.9	9.2	1.7	2.2	4.6
Band B Level 2	1.2	6.2	1.1	2.4	2.7
Band C Level 1	1.1	2.4	1.5	2.8	1.8
Band C Level 2	0.7	1.6	1.2	1.9	1.4
Band D	0.6	1.6	0.7	1.6	1.3
Band E Level 1	0.8	0.8	0.7	0.6	0.7
Band E Level 2	0.4	0.5	0.4	0.5	0.5
Other Non Industrial	3.5	1.4	3.0	4.8	3.0
Industrial	0.9	1.0	0.8	0.6	1.4
Trading Fund Personnel	0.6	1.0	1.0	1.4	1.7

[1] Percentage is based solely on early retirement data by grade compared against a 13-month average strength profile by grade for each financial year.

Notes:
1 The streamlining of Head Office prior to the reoccupation of main building in London led to 540 personnel taking early retirement on compulsory early retirement on structural grounds.
2 This table excludes Royal Fleet auxiliary and locally engaged civilian staff for whom no information on civilian early retirements is available.

The information requested about costs is not held centrally and could be provided only at disproportionate cost.

Departments: Flags

Bob Russell: To ask the Secretary of State for Defence what guidance he has given to military establishments on the flying of the Union flag on a daily basis; and if he will make a statement. [150117]

Derek Twigg: Guidance is set out in Queen's Regulations and stipulates that all service and major commands and headquarters are required to fly the Union flag daily. In addition, these establishments are permitted to fly flags signifying the relevant single service and commander, corps, regimental, station and establishment.

Departments: Manpower

Mr. Heald: To ask the Secretary of State for Defence how many headquarters staff funded by the public purse in his Department are classified as people without posts. [142742]

Derek Twigg: Numbers are not held centrally and could be provided only at disproportionate cost.

Departments: Public Expenditure

Mr. Hoban: To ask the Secretary of State for Defence if he will place in the Library a copy of *(a)* his Department's final bid to HM Treasury for resources in the 2004 spending review and *(b)* the final settlement letter from HM Treasury setting out his Department's expenditure limits for the period covered by the review. [148892]

Des Browne: No. Publication of such documents would be prejudicial to the conduct of public affairs.

Departments: Public Transport

David Simpson: To ask the Secretary of State for Defence what estimate his Department has made of the number of its staff using public transport to commute. [147320]

Derek Twigg: The Department has not estimated the number of its staff using public transport to commute. MOD encourages the use of public transport and cycling to work by providing interest-free loans for the purchase of public transport season tickets.

Departments: Racial Harassment

David Simpson: To ask the Secretary of State for Defence how many complaints of racial abuse relating to staff for which his Department is responsible have been *(a)* investigated and *(b)* upheld in the last 12 months. [149255]

Derek Twigg: The number of formal complaints of racial harassment in the Ministry of Defence and armed forces for the period 1 April 2006 to 31 March 2007, the latest period for which figures are available, was as follows:

	Investigated	*Upheld*
Armed forces	15	6
MOD civil service	0	0

The Department's Unified Diversity Strategy makes clear that harassment of any kind is not tolerated in the Ministry of Defence or the armed forces. Revised complaints procedures were published in January 2007. Ongoing internal communications keep personnel informed of their rights and responsibilities.

Ex-servicemen: Hearing Impaired

Dr. Murrison: To ask the Secretary of State for Defence when and how ex-servicemen and women waiting for digital hearing aids due to service-related hearing loss will be informed of their priority status. [149673]

Derek Twigg: Advice regarding entitlement to priority treatment from the NHS is referenced in Leaflet 2 which is sent out by the Service Personnel and Veterans Agency with the war pension disablement acceptance notification letter.

Regular reminders about priority treatment for war pensioners are circulated by the Health Departments to senior NHS managers who are tasked to ensure that relevant clinical staff are aware. Reminder action, due this year, will reference this issue. Priority for assessment, treatment, aids etc is decided by the clinician in charge based on clinical need.

Dr. Murrison: To ask the Secretary of State for Defence what instructions have been sent to NHS trusts in relation to affording priority status to ex-servicemen and women needing digital hearing aids due to service-related hearing loss. [149674]

Derek Twigg: MOD is working with the UK Health Departments regarding awareness of NHS priority treatment among health professionals. Later this year Health Departments will distribute reminders to the chief executives of trusts requiring them to ensure that general practitioners and hospital clinicians are aware of all those veterans who are eligible for priority treatment, including the group who have noise-induced sensorineural hearing loss accepted as caused by service. Priority refers to assessment, treatment and provision of aids. Allocation of priority is by the clinician in charge based on clinical need.

Iraq: Peace Keeping Operations

Mr. Hoban: To ask the Secretary of State for Defence what his Department's estimate was in March 2003 of the cost of operations in Iraq in each of the subsequent five financial years. [148893]

Des Browne: The total estimate figures for the net additional costs of operations in Iraq, included in Spring Supplementary Estimates for the years 2002-03 to 2006-07, were as follows.

Financial year	*£ million*
2002-03	1,000
2003-04	1,539
2004-05	975
2005-06	1,098
2006-07	1,002

Mr. Evans: To ask the Secretary of State for Defence how many UK troops are deployed on operations in Iraq. [150011]

Des Browne *[holding answer 16 July 2007]:* As of June 2007, around 5,500 UK armed forces personnel are deployed on operations in Iraq, although numbers do fluctuate due, for example, to roulements and rest and recuperation breaks.

Military Bases: Wales

John Smith: To ask the Secretary of State for Defence what discussions he has had with Airbus Cimpa on the temporary use of redundant bays in the Red Dragon hangar at MOD St Athan. [147285]

Derek Twigg: No formal discussions have taken place between the Ministry of Defence and Airbus Cimpa regarding this matter.

Ministry of Defence Police: Overtime

Andrew George: To ask the Secretary of State for Defence what assessment he has made of the impact of the decision of the Ministry of Defence Police to cancel all non-mandatory staff overtime on *(a)* the security of military bases and *(b)* the capacity of his Department (i) to implement its anti-terrorism strategy and (ii) to meet its financial targets. [148255]

Mr. Bob Ainsworth: I am unable to comment on security matters in detail as to do so would, or would be likely to prejudice national security. The Chief Executive of the Ministry of Defence Police and Guarding Agency is managing this reduction in overtime.

MV Bugaled Breizh

Andrew George: To ask the Secretary of State for Defence pursuant to the answer of 19 February 2007, *Official Report*, column 321W, on the MV Bugaled

Breizh, whether his Department has received any communication from those conducting the French judicial investigation into the sinking of the Bugaled Breizh; and whether a completed report of that investigation has been received. [148875]

Mr. Bob Ainsworth: The Department has received indirect communication from the French Tribunal conducting the inquiry into the loss of the fishing vessel Bugaled Breizh via the Home Office (United Kingdom Central Authority) and the French embassy, London. This has been for additional information to assist with their inquiries and declassification of signal messages respectively. The Department has not received or had sight of any official reports from the investigation.

Navy: Drug Seizures

Mr. Hollobone: To ask the Secretary of State for Defence what quantity of illegal drugs was seized by the Royal Navy in each of the last three years. [149603]

Mr. Bob Ainsworth *[holding answer 16 July 2007]:* I refer the hon. Member to the answer my predecessor gave on 26 June 2007, *Official Report*, column 670W, to the hon. Member for Ribble Valley (Mr. Evans).

Project MoDEL

Mr. Harper: To ask the Secretary of State for Defence what the *(a)* original cost estimate was and *(b)* current cost estimate is of Project MoDEL. [148230]

Derek Twigg: The approval for the Project MoDEL contract included £177 million for capital expenditure for the development of RAF Northolt. Project MoDEL is currently forecast to remain within its original approval.

A second contract including around £30 million for capital expenditure was awarded to a separate contractor to relocate the British Forces Post Office to RAF Northolt. This contract is also currently forecast to remain within its original approval.

Transport: AWE Burghfield

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 9 July 2007, *Official Report*, column 1286W, on transport: AWE Burghfield, under what circumstances special nuclear materials convoys travel from AWE Burghfield without *(a)* a visible police escort and *(b)* emergency support vehicles; and if he will make a statement. [149517]

Mr. Bob Ainsworth: I am withholding the information as its release would, or would be likely to, prejudice national security.

Mr. Hancock: To ask the Secretary of State for Defence whether local incident management plans are put in place when special nuclear materials convoys travel from AWE Burghfield; and whether local authorities are informed before those convoys travel. [149949]

Mr. Bob Ainsworth: The transportation of nuclear and other hazardous materials is governed by the Radioactive Material (Road Transport) (Great Britain) Regulations 2002 and the Carriage of Dangerous Goods and Use of Transportable Pressure Equipment Regulations 2004 (as amended in 2005). Although the Department is exempt from the regulations, it is nevertheless MOD policy to comply with their principles although they place no obligation on a carrier to inform local authorities. The publicly available Local Authority Emergency Services Information (LAESI) document provides the emergency services, local and health authorities with information on contingency arrangements for the transport of special nuclear material.

Reserve Forces: Deployment

Mr. Harper: To ask the Secretary of State for Defence how many reservists are deployed on overseas operations, broken down by deployment location. [148263]

Mr. Bob Ainsworth: As at 31 March 2007, the latest figures available, reservists were deployed in joint operational areas (JOA) as follows:

Iraq: 451

Afghanistan: 359

Balkans: 44.

In addition, some 500 mobilised reservists were in the UK, predominantly undertaking pre-deployment training, post-deployment leave or receiving medical treatment. Finally, 35 sponsored reserves were on mobilised service and serving in or between the JOAs and the UK.

Weapons

Mark Pritchard: To ask the Secretary of State for Defence how many recorded missing *(a)* weapons and *(b)* weapons parts reports were made to the Royal Military Police between May 2002 and May 2007. [149128]

Mr. Bob Ainsworth: The number of weapons and weapon parts lost, missing or stolen from the armed forces between 2002 and 2007 is shown in the table for each whole calendar year. This provides details of all cases reported to the Royal Military Police's Service Police Crime Bureau and includes losses which have been investigated by the Ministry of Defence Police, Home Department Police Forces and other branches of the Service Police. The data cover a range of reported incidents, including weapons which have been lost or stolen in operational theatres and the loss of private firearms lodged in MOD armouries. The data are held by calendar year. To break them down in any other way could be done only at disproportionate cost.

	2002	*2003*	*2004*	*2005*	*2006*	*2007*[1]
Air Rifle or Pistol	0	2	0	0	0	0

WORK AND PENSIONS

Child Support Agency

Mr. Laws: To ask the Secretary of State for Work and Pensions what estimate he has made of the time taken by the Child Support Agency to secure a liability order; and what the key factors are in determining that timescale. [146176]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 17 July 2007:

In reply to your recent Parliamentary Questions regarding the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what estimate he has made of the time taken by the Child Support Agency to secure a liability order, and what the key factors are in determining that timescale.

The current time taken to secure a liability order from the courts from first referral to the Child Support Agency enforcement teams is 115 calendar days in England and Wales and 171 days in Scotland. The key factors in determining this timescale are; primarily, the local availability of court services and the requirement to allow a period of time between the court summons and court date, to allow the non-resident parent time to prepare for the hearing.

In Scottish courts, the non-resident parent also has the ability to object to the courts, which can impact on the time taken to obtain the liability order.

I hope you find this answer helpful.

Mr. Laws: To ask the Secretary of State for Work and Pensions how many requests have been made by the Child Support Agency to HM Revenue and Customs in each *(a)* month and *(b)* quarter since January 2003 in respect of access to information on the incomes of non-resident parents; and if he will make a statement. [146182]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 17 July 2007:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many requests have been made by the Child Support Agency to HM Revenue and Customs in each *(a)* month and *(b)* quarter since January 2003 in respect of access to information on the incomes of non-resident parents; and if he will make a statement.

Such information as is available is set out in the attached table, which shows the number of requests dealt with by Her Majesty's Revenue and Customs (HMRC) where the Child Support Agency has made a request for information on the non-resident parents income.

The information supplied relates to queries dealt with by two parts of HMRC, the Centre of Research and Intelligence (CRI) and the National Insurance Contributions Office.

I hope you find this answer helpful.

Number of requests actioned by the Centre of Research and Intelligence from 1 January 2003 to 24 June 2007

Month	2003	2004	2005	2006	2007
January	1,837	1,619	2,024	2,949	4,319
February	1,587	2,082	2,227	2,470	3,096

July	1,658	2,856	2,351	2,968	
August	2,319	2,143	2,058	2,385	
September	1,980	2,101	2,210	2,425	
Quarter 3 (July-September)	5,957	7,100	6,619	7,778	
October	2,877	2,714	2,219	3,779	
November	2,225	1,919	2,355	2,852	
December	1,444	1,810	1,467	1,927	
Quarter 4 (October-December)	6,546	6,443	6,041	8,558	
Total	23,276	26,500	25,619	31,636	20,318

Number of referrals issued to National Insurance Contributions Office

Year	2002-03	2003-04	2004-05	2005-06	2006-07	2007-08 to date
Totals	3,597	8,452	18,883	35,448	53,795	6,294

Note to table:
The information on referrals to the National Insurance Contributions Office is only available annually

Child Support Agency: Debt Collection

Mr. Laws: To ask the Secretary of State for Work and Pensions what limitations there are on the amount of Child Support Agency arrears which can be recovered by a deduction of earnings order from a non-resident parent; and if he will make a statement. [146138]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 17 July 2007:

In reply to your recent Parliamentary Questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what limitations there are on the amount of Child Support Agency arrears which can be recovered by a deduction of earnings order from a non-resident parent; and if he will make a statement.

Regulation 11 of the Child Support (Collection and Enforcement) Regulations 1992, requires the Agency not to exceed 40% of a liable person's net earnings when imposing a deduction from earnings order.

I hope you find this answer helpful.

Child Support Agency: Fees and Charges

Mr. Laws: To ask the Secretary of State for Work and Pensions what expenditure by the Child Support Agency on solicitor legal costs was in each year since 2000-01. [146169]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 17 July 2007:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of state promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what the total expenditure by the Child Support Agency on solicitor legal costs is for each year since 2000-01.

The Agency's accounting system does not report solicitor's legal costs in a discreet expense account; as such I am unable to provide the information in the format requested.

Solicitors legal costs are grouped together with court fees and charges into a single expense account code. The total costs of solicitors and court fees in each of the last six financial years is shown in the table below.

Financial year	*£ million*
2006-07	2.158
2005-06	1.408
2004-05	0.896
2003-02	0.606
2002-03	0.526
2001-02	0.498

The increase in legal costs in 2006-07 is a result of the increased legal enforcement action the Agency is undertaking as part of the Operational Improvement Plan.

Information for the 2000-01 financial year is not available as this year falls outside of the legislative requirement to keep accounting records for six years.

I hope you find this answer helpful.

Children: Maintenance

Mr. Kevan Jones: To ask the Secretary of State for Work and Pensions (1) for what reasons the Child Support Agency offices in Birkenhead and Bolton have different criteria for determining eligibility for an advance payment of arrears; [146852]

(2) for what reasons the Child Support Agency parliamentary business unit in Birkenhead is unable to communicate via telephone with the CSA office in Bolton. [146853]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 17 July 2007:

In reply to your recent parliamentary questions regarding the Child Support Agency the Secretary of State promised a substantive reply from the chief executive.

You asked the Secretary of State for Work and pensions, for what reasons the Child Support Agency offices in Birkenhead and Bolton have different criteria for determining eligibility for an advance payment of arrears, [146853] and

You asked the Secretary of State for Work and pensions, for what reasons the Child Support Agency Parliamentary Business Unit in Birkenhead are unable to communicate via telephone with the Child Support Agency office in Bolton. [146853]

All cases, including those being managed clerically at the Bolton office, are subject to the same legislative and procedural rules. This includes the decision to make an advance payment where maladministration has occurred and a range of pre-defined criteria are satisfied.

We actively encourage use of the telephone as the primary means of communication between offices to update or discuss particulars on a case. It is only in the case of a complaint being received in the Agency about a clerical case maintained by the Bolton office that, initially, the inquiry is emailed to Bolton. This is to ensure the Bolton office has all the necessary information to progress and resolve the client's concerns. Subsequently, contact should be made by telephone.

I hope you find this answer helpful.

Financial Assistance Scheme

Jenny Willott: To ask the Secretary of State for Work and Pensions (1) what the average processing time for pension schemes applying to qualify for initial payments was under the financial assistance scheme for each month since the scheme began operating; and if he will make a statement; [148250]

(2) what the average processing time was for pension schemes applying to qualify for initial payments under the FAS in each month since the scheme began operating; and if he will make a statement. [148602]

Mr. Mike O'Brien: The following table shows the months in which schemes have requested initial payments and the average time taken from the date of request to the date on which the scheme was accepted for initial payments.

Month of request for initial payments	*Average number of days between request and acceptance*
2005	
October	41
December	47
2006	
January	19
February	42
March	47
April	48
May	41
June	32
July	20
August	42
September	20
October	4
November	12
December	11
2007	
January	20
February	22
April	8

Month of request for initial payments	*Average number of days between request and acceptance*
May	16
June	7

Jenny Willott: To ask the Secretary of State for Work and Pensions (1) what the average processing time was for pension schemes applying to qualify for assistance under the financial assistance scheme in each month since the scheme began operating; and if he will make a statement; [148251]

(2) what the average processing time for pension schemes applying to qualify for assistance under the financial assistance scheme has been since the scheme has been operating; and if he will make a statement. [148604]

Mr. Mike O'Brien: In order to obtain a decision on qualification for assistance under the financial assistance scheme, a pension scheme must successfully go through the two stages of notification and qualification. This involves the trustees and administrators providing basic scheme information to the FAS operational unit.

As at 29 June 2007, the average time taken since operations started in September 2005 from receipt at FASOU of a correctly completed application form for qualification to a qualification decision being issued was 47 working days.

Equivalent information on a month-by-month basis is not available and could be obtained only at disproportionate cost.

Industrial Health and Safety: Coroners

Mr. Hollobone: To ask the Secretary of State for Work and Pensions pursuant to the answer from the then Minister of State, Ministry of Justice, of 19 June 2007, *Official Report*, columns 1713-4W, on Industrial Health and Safety: Coroners, what steps he has taken to ensure that health and safety regulations requiring employers to make a suitable and sufficient assessment of risks to health and safety to which employees are exposed while at work have been carried out by those responsible for coroners and coroners' officers. [149167]

Mrs. McGuire *[holding answer 12 July 2007]:* Coroners are appointed and funded by the relevant local authority. Their officers are employed by the relevant local authority or police authority. Compliance with health and safety requirements for risk assessments relating to their work is a matter for the relevant employer. The Health and Safety Executive continues to work with employers to develop and implement sensible risk controls.

Industrial Health and Safety: Publicity

Mr. Hoban: To ask the Secretary of State for Work and Pensions how much was spent by the Health and Safety Executive on campaigns to raise awareness of the dangers of working at height in each of the last five years. [148860]

Mrs. McGuire: The HSE's 'Height Aware' campaign 2006 cost about £1.7 million including publicity, promotional events and evaluation of its effectiveness. In 2005 the HSE ran some initiatives focusing on ladder safety costing around £17,500. The HSE is currently building on these with the current 'Ladder Exchange' initiative, for which final costs are not yet available. A falls from height campaign specifically targeting those working in the construction sector was run in 2003-04, costing £275,000. These campaigns were aimed at reducing deaths and serious injuries arising from falls from ladders which cost the British economy more than £60 million a year.

Pensions: Financial assistance scheme

Mr. Touhig: To ask the Secretary of State for Work and Pensions how many pension schemes in England and Wales are eligible for the financial assistance scheme. [147299]

Mr. Mike O'Brien: The FAS operational unit does not hold the precise information requested specifically for schemes in England and Wales as in many cases the principal employer of the underfunded pension schemes are no longer in existence. They have therefore been provided with the address of the scheme trustee, administrator or the official receiver which does not reflect the location of the sponsoring employer of the pension scheme.

A total of 682 schemes have qualified for FAS assistance. This is correct up to and including the 22 June 2007.

Pensions: Financial Assistance Scheme

Jenny Willott: To ask the Secretary of State for Work and Pensions how many and what proportion of pension schemes whose qualification status for the financial assistance scheme is undecided are *(a)* waiting for scheme trustees to provide additional information before a decision can be made and *(b)* having their application considered by the Department; and if he will make a statement. [148603]

Mr. Mike O'Brien: As at 6 July 2007 there are a total of 38 pension schemes whose status for the FAS is yet to be decided. Of these, 10 schemes (26 per cent.) are being considered based on the initial information provided by the trustees; we are awaiting further information from the trustees of 15 schemes (40 per cent.) and the remaining 13 schemes (34 per cent.) have indicated that a compromise agreement is in place, so we are unable to progress the application until the legislation to implement the extension to cover these schemes is in place.

Social Security Benefits: Repayments

Mr. Keith Simpson: To ask the Secretary of State for Work and Pensions if he will undertake an evaluation of the 28-day hospital stay rule for young people with cancer. [150309]

Mrs. McGuire: From 10 April 2006, apart from those in receipt of disability living allowance, attendance allowance and carer's allowance, patients receiving free in-patient treatment in NHS hospitals no longer have their benefits reduced to a flat rate figure.

The role of DLA is to help with the extra costs of disability-related needs. These needs are met free of charge by the NHS when someone is in hospital. Payment of DLA for adults therefore stops after four weeks to avoid duplicate provision. However, payment of DLA to children aged under 16 does not stop until after 12 weeks, regardless of their diagnosis. Carer's allowance would also normally continue to be paid to the carer for this 12-week period. The 12-week rule recognises that children may have special needs for support from their parents while they are adjusting to hospital life.

We have no plans to change the current rules.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Subsidies

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how many claimants received interest on their 2005 single farm payments for sums paid after 30 June 2006; what the total amount of interest paid was; and if he will make a statement. [148735]

Jonathan Shaw: As of 30 June 2007 5,745 claimants had been paid interest in respect of the single payment scheme for 2005. The total amount of interest paid was £1,203,619.97.

Carbon Emissions

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs what the level of *(a)* carbon dioxide emissions and *(b)* greenhouse gas equivalent emissions was in the UK in each year since 1990; what the percentage change was in each year; and what the comparable figures and percentages were for (i) the EU, (ii) the US, (iii) China, (iv) Russia, (v) countries in sub-Saharan Africa and (vi) other developing countries. [149810]

Mr. Woolas: For information relating to UK and EU emissions, I refer my right hon. Friend to the answer provided by my predecessor on 8 March 2007, *Official Report*, column 2184W.

Table 1 contains UK CO_2 and greenhouse gas emissions, and percentage changes, for each year between 1990 and 2005, the latest year for which data are available. Table 2 contains comparable figures for the EU-15, who have a collective target of -8 per cent. under the Kyoto protocol.

DEFRA does not hold the information requested for the US, China, Russia, sub-Saharan Africa and other developing countries. Emissions estimates are submitted under the United Nations framework convention on climate change, which is the parent treaty for the Kyoto protocol and Montreal decisions. The United States and Russia are both Annex I parties, and are therefore required to submit annual estimates of emissions to the Convention. China, and all African countries, are non-Annex I parties to the convention, and are therefore not required to submit annual emissions estimates. All emissions data submitted to the convention are available on the UNFCCC website.

Table 1: CO_2 and GHG emissions from the UK

	GHG emissions (with LULUCF)	*Percentage change on previous year*	*Percentage change on 1990*	*Net CO_2 emissions including land use, land use change and forestry*	*Percentage change on previous year*	*Percentage change on 1990*
1990	773.0	—	—	592.1	—	—

2004	3,926	0.4	-2.8	3,203	0.9	2.2
2005	3,877	-1.2	-4.0	3,164	-1.2	0.9

Carbon Emissions: Cattle

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what research he has commissioned into reducing methane emissions from cows. [149644]

Mr. Woolas: For information relating to research into reducing methane emissions from livestock, I refer my hon. Friend to the answer given on 10 July 2007, *Official Report*, column 1380W.

In addition to our work on reducing emissions from livestock through nutrition, husbandry, genetics, and nutrient management, we are also exploring the potential for the use of anaerobic digestion to reduce methane emissions. Anaerobic digestion can reduce greenhouse gas emissions by capturing methane from the decomposition of organic materials, such as livestock manures and slurries, sewage sludge and food wastes, to produce a biogas. The biogas can be used as a renewable energy source, both for heat and power, and as a transport fuel.

Departments: Lighting

Mr. Nicholas Brown: To ask the Secretary of State for Environment, Food and Rural Affairs whether his Department participated in the Lights out London campaign. [147126]

Joan Ruddock: DEFRA participated in the Lights out London campaign in order to raise awareness of the issue of climate change by encouraging people to change their behaviour both at work and at home. One of the actions people can take to reduce CO_2 emissions is to turn off lights.

Eight departmental buildings in London complied with the initiative.

Departments: Private Finance Initiative

Mrs. Lait: To ask the Secretary of State for Environment, Food and Rural Affairs what the total cost is of all private finance initiative projects for which his Department has responsibility completed since 1997; and what the projected cost is of such projects commissioned or under way. [148025]

Jonathan Shaw: There are no private finance initiative projects completed since 1997 for which the Department or its sponsored bodies have responsibility. There are, however, currently three PFI projects under way for which DEFRA does have responsibility and the details of these are shown in the following table. The Department is not presently involved in any other PFI projects which are at the commissioning stage. The total costs shown in the table include unitary charge payments which are conditional on the performance of the private sector contractors.

Organisation	*Project description*	*Projected cost (£ million)*
Natural England	Office facilities at Brooklands Avenue, Cambridge	92.89
Environment Agency	Broadland flood alleviation project	169.93
Environment Agency	Pevensey Bay sea defences	35.39
Total		298.21

The Department also gives support in the form of PFI credits to allow local authorities to enter into PFI contracts to provide waste recycling and management facilities. These projects are, however, managed by and the responsibility of the local authority concerned and not DEFRA itself.

Departments: Public Transport

Mr. Jenkins: To ask the Secretary of State for Environment, Food and Rural Affairs what incentives he has considered to encourage staff in his Department to use public transport. [148788]

Jonathan Shaw: The main incentive the Department offers are interest-free loans for season tickets for travel to work. Use of public transport is encouraged by departmental policies including limited car parking, flexible working, using public transport during the course of travel and making use of travel websites and

information services, such as Transport Direct. Staff are also informed about local transport initiatives and promotions. Where the location or nature of the work makes public transport use impractical for staff, car sharing and the use of low emission vehicles is encouraged.

Fisheries: Italy

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if he will discuss with *(a)* the European Commission and *(b)* the Italian authorities the illegal use of driftnets by Italian fishermen in the Mediterranean. [149282]

Jonathan Shaw: My ministerial predecessor, my hon. Friend the Member for Exeter (Mr. Bradshaw), took the opportunity at the 11-12 June Agriculture and Fisheries Council, to raise our concerns about the continuing illegal use of drift nets in EU waters. The Commission made it clear that it took such illegal activity seriously and that it is currently investigating the activities of both Italian and French vessels in this regard. In addition, the regulation defining drift nets, to provide for more robust enforcement of the existing controls, has now been formally adopted.

Floods

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the *(a)* number of deaths, *(b)* number of homes flooded, *(c)* amount of damage caused by floods and (d) the insured losses arising from floods in each of the last 10 years. [148950]

Mr. Woolas: For *(a)*, the data available on deaths due to drowning do not give a sufficiently detailed breakdown to enable direct attribution to flooding to be made. However, we are aware that in recent years two deaths resulted from the flooding in Carlisle in 2005, for example, whilst a number of deaths have been reported during the recent floods.

For *(b)*, the following estimates include homes flooded in England as a result of river or sea flooding only.

	Homes flooded
1997	281
1998	5,796
1999	1,930
2000	9,916
2001	1,641
2002	786
2003	1,516
2004	1,139
2005	4,116
2006	746

Source:
Environment Agency flood incident management teams, regional flood risk management teams and flood risk mapping and data.

For 2007, the current total of reports of recent flooding from all sources, including surface water as well as river flooding, is now over 37,000 residential properties and businesses affected.

For *(c)* and *(d)*, full details for each year are not available. However, for the autumn floods of 2000—the most widespread floods in recent years—the total costs were then estimated at around £1 billion. In addition, the following data for major weather events in the last 10 years are from the Association of British Insurers.

	Incident	*Cost estimate (£ million)*
December 1997 to January 1998	Heavy storms and flooding throughout Great Britain	270
April 1998	Heavy rain causing flooding	137
October 1998	Heavy rain causing flooding	100
October-November 2000	Heavy rain causing flooding	760
January 2005	Floods in Carlisle	243
January 2005	Storms in Scotland	124

For 2007, the ABI has estimated that claims total around £1.5 billion for the recent floods.

Floods: Lewes

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make a statement on the effect of the timescale for the introduction of improved flood defences in Lewes arising from the allocation of existing funding by HM Treasury. [149457]

Mr. Woolas *[holding answer 16 July 2007]:* The Environment Agency is developing a £2 million project to improve defences for the Cliffe area of Lewes, funded through a locally raised levy.

It is working closely with Lewes district council and private developers to identify opportunities to provide improved defences as part of redevelopment schemes within the town. Following completion of the Cliffe works, expected in late 2009, 166 residential and 58 other properties will benefit from improved protection.

No final decisions have been taken on the allocation of the £200 million of increased spending in 2010-11. Following the comprehensive review settlement, expected by the autumn, and a subsequent departmental allocations exercise, a separate prioritisation process will determine funding for individual flood risk management projects.

Sewers

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs what capacity of excess rainfall the storm water and sewerage system of each major urban area in England can bear; and if he will make a statement. [149623]

Mr. Woolas: My Department does not hold this information. Water and sewerage companies are responsible for assessing the capacity of public sewers in order to ensure the effectual drainage of their area.

Typically, the public sewerage system overall is designed to withstand a one-in-30-year storm event

and waste water treatment works are designed to deal with six times dry weather flows without discharging excess water to a watercourse.

It has been estimated that up to 50 per cent. of the sewerage network may be in private hands (for example, householders) and information on capacity for this section of the network is not available. Earlier this year, the Government announced that existing private sewers and lateral drains that drain to public sewers would be transferred into the ownership of water and sewerage companies. This will significantly improve the integrated management of the sewerage network as a whole.

As well as private sewers, there is also an extensive network of surface water drainage associated with highways which is the responsibility of highways authorities. This frequently discharges and interacts with the public sewerage network.

DEFRA is also funding 15 pilot projects to test alternative approaches to the integrated management of urban drainage across the different organisations with responsibilities in this area.

The Office of the Water Services compiles figures on the numbers of properties at varying risk of flooding from overloaded public sewers. The price limits for 2005-10 allowed a programme of nearly £1 billion to safeguard homes against the risk of sewer flooding. By then, the proportion of properties at risk would reduce to 0.01 per cent. of households.

Tree Felling

Mr. Greg Knight: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment his Department has made of levels of deforestation in England; and if he will make a statement. [150073]

Joan Ruddock: A national survey of trees and woodland is carried out every 15-20 years by the Forestry Commission. The most recent inventory was published in 2001 and the next survey is planned to start next year. When completed this will enable an assessment of deforestation (i.e. the area of woodland lost between the two surveys) to be carried out. However, the Forestry Commission estimates that the current level of deforestation in England is running at between 500 and 1,000 hectares per year. This is almost entirely due to the removal of planted woodland to restore priority open habitats including lowland heath and upland peat bog.

New woodland creation has averaged almost 5,000 hectares per year over the last five years, outweighing the area lost to open habitat restoration.

COMMUNITIES AND LOCAL GOVERNMENT

Adoption: Babies

David T.C. Davies: To ask the Secretary of State for Communities and Local Government whether her Department provides financial incentives to local authorities to increase take-up of adoptions of babies under the age of six months. [149433]

John Healey: The Department for Communities and Local Government and the Office for the Deputy Prime Minister before it has since 2000 provided a system of performance incentivisation for local authorities in England across a range of service areas. This system operated via the local public service agreements, which have since been merged with local area agreements. These agreements offered a reward grant to local authorities who could deliver outcomes over and above the level of performance Government would otherwise expect.

Sixty one local authorities chose to include in their LPSA or LAA a measure performance on adoption and/or stability of placements for looked-after children, though the targets would not refer specifically to babies under the age of six months. Reward would be payable to local authorities and their partners for achievement of these particular targets, and in a number of cases this has now been claimed. Details on each target have been made available in the Library of the House, though we do not have data on the age of the children adopted in local authority areas.

Community Development: Business

Margaret Moran: To ask the Secretary of State for Communities and Local Government what steps her Department *(a)* has taken and *(b)* plans to take to support social enterprises. [150108]

John Healey: The Department launched a third sector strategy discussion paper on 7 June which includes consideration of the need of third sector organisations for more sustainable forms of investment. Our women and equality unit has commissioned a study to understand the barriers to ethnic minority women entering social enterprise and the support they need. Assistance for social enterprises is also available through the local enterprise growth initiative. So far, 29 local authorities have benefited from the first two rounds. Local authorities that have been successful may include projects to support social enterprises to encourage entrepreneur ship.

We will set out future proposals for supporting the third sector, including social enterprise, in the light of our assessment of responses to the discussion paper and the outcome of the 2007 comprehensive spending review.

Margaret Moran: To ask the Secretary of State for Communities and Local Government what proportion of the total value of contracts which her Department holds is held with social enterprises. [150109]

John Healey: The Department does not currently hold information on suppliers in a way that captures the identification of contracts held with social enterprises. The Department is, however, seeking to revise its financial systems to capture information on third-sector suppliers, including social enterprises, and is liaising with the Office of the Third Sector to ensure that we adopt a common approach with the rest of Government.

Community Relations: Holocaust

Mr. Dismore: To ask the Secretary of State for Communities and Local Government what assessment she has made of the contribution of the Holocaust Educational Trust's 'Lessons from Auschwitz' project to *(a)* community cohesion, *(b)* race relations, *(c)* faith groups relations and *(d)* the understanding of the Holocaust by young people; and if she will make a statement. [149285]

Mr. Dhanda: I believe that the 'Lessons from Auschwitz' project makes an important contribution to the promotion of good relations between people from different ethnic, cultural and faith backgrounds, and in particular to ensuring young people appreciate the continuing lessons of the Holocaust for our society today. This is reflected in the Government's recent response to the all-party parliamentary inquiry into anti-semitism. The Department has contributed £20,000 to the Searchlight Educational Trust's 'Young Citizen' magazine, the first issue of which contains testimonies from students who have participated in the 'Lessons from Auschwitz' project.

Departments: Common Purpose

Philip Davies: To ask the Secretary of State for Communities and Local Government how much her Department paid to Common Purpose in each of the last five years; for what purpose; and what the outcome of the expenditure was. [147604]

Mr. Iain Wright: Over the last five financial years the Communities and Local Government has spent the following with Common Purpose:

Financial year[1]	*Spend (£)*
2002	20,930
2003	53,874
2004	39,018
2005	58,846
2006	134,324

[1] Commencing

The purpose of the expenditure was to procure management training in leadership for senior managers and others within the Department, with the objective of enhancing their capability as potential leaders, both within their own organisation and in society as a whole.

The outcome of the expenditure should be that participants will gain new skills and competencies for leadership development and the Department will benefit from stronger, more inspired leaders who are more outward looking and closer to the community.

Departments: Early Retirement

Mr. Jenkins: To ask the Secretary of State for Communities and Local Government how many and what proportion of staff in her Department took early retirement in the last five years, broken down by grade; and at what cost. [148739]

Mr. Iain Wright: The numbers of staff taking early retirement from the Department for Communities and Local Government, and its main predecessor the Office of the Deputy Prime Minister, are set out, analysed by grade, and at what cost, in the following table. This does not include departmental agencies or non-departmental public bodies.

The cost of the earlier years exits, less than 15 per cent. of the 492 exits' total, and analysis by grade of 13 of the earliest staff exits, is not shown as it could be provided only at disproportionate cost.

Department for Communities and Local Government (including Government offices)

Departments: Private Finance Initiative

Mrs. Lait: To ask the Secretary of State for Communities and Local Government what the total cost is of all private finance initiative projects for which her Department has responsibility completed since 1997; and what the projected cost is of such projects commissioned or underway. [148016]

Mr. Iain Wright: The Department has responsibility for 46 signed PFI projects, of which all but one are contracts entered into by local authorities. The total level of capital investment being supported is £1,154 million. The projected annual payments, up to 2033-34, are £4,015 million. These payments cover the whole contract, including services, as well as payment for the capital investment, and are conditional on the performance of the contractor.

Costs for individual projects are available on the HM Treasury website, at:

www.hm-treasury.gov.uk/documents/public_private__partnerships/ppp_pfi_stats.cfm.

Flood Control

Mr. Laurence Robertson: To ask the Secretary of State for Communities and Local Government what estimate she has made of the cost of upgrading drainage systems in the UK to tackle the consequences of flash flooding; and if she will make a statement. [146212]

Mr. Woolas: I have been asked to reply.

Early estimates outlined in the Government's Foresight report on future flood risk suggested that investment of £100 million-£400 million per year may be required to limit damages caused by urban drainage flooding to levels similar to today under some scenarios for several decades. However, the authors of this report acknowledged that these estimates were based on very limited data.

Floods: Milton Keynes

Mr. Lancaster: To ask the Secretary of State for Communities and Local Government when she will provide a substantive answer to Question 149169, on flooding in Milton Keynes, tabled on 9 July 2007, for answer on 12 July 2007. [150569]

John Healey: I have now replied to the hon. Member's question.

Homelessness

Margaret Moran: To ask the Secretary of State for Communities and Local Government how many homeless people there were in each local authority area in England at the latest date for which figures are available. [149429]

Mr. Iain Wright: Information about local authorities' actions under homelessness legislation is collected quarterly at local authority level, in respect of households rather than people.

Information reported each quarter by local authorities about their activities under homelessness legislation includes the number of households accepted by local authorities as eligible for assistance, unintentionally homeless and in priority need, and therefore owed a main homelessness duty. The duty owed to an accepted household is to secure suitable accommodation. If a settled home is not immediately available, the authority may secure temporary accommodation until a settled home becomes available.

This data is published in our quarterly statistical release on statutory homelessness, which includes a supplementary table showing the breakdown of key data, including acceptances and temporary accommodation, by each local authority. This is published on our website and placed in the Library each quarter. The latest release was published on 11 June 2007 and contains data for the period January to March 2007:

http://www.communities.gov.uk/index.asp?id=1002882&PressNoticeID=2438

Since 1998, information has also been collected on the number of people who sleep rough—that is, those who are literally roofless on a single night—and these are also published on our website, by local authority:

http://www.communities.gov.uk/pub/705/NationalRoughSleepingEstimate2006_id1502705.xls

Housing: Leeds

John Battle: To ask the Secretary of State for Communities and Local Government what her latest estimate is of the number of new homes planned to be built in the next 10 years in the Leeds metropolitan District, broken down by *(a)* private homes to buy, *(b)* private homes to rent *(c)* housing association properties and *(d)* local authority homes to rent. [148646]

Mr. Iain Wright: The draft regional spatial strategy for Yorkshire and the Humber (the "Yorkshire and Humber plan") was submitted to the Government in December 2004. This gives a net housing delivery target for Leeds of 2,260 per annum up to 2016 and 2,950 per annum between 2016 and 2021.

In May 2007 the examination in public panel report on the plan was published. This report states that Leeds should accommodate more housing growth than currently set out in the draft RSS, but does not specify a number. Ministers are currently considering the panel report and the Secretary of State will publish proposed changes to the draft RSS later in the summer.

How these target numbers will be divided into various tenures is a matter which will be determined by both the housing market and regional and local planning processes and functions.

Housing: Low Incomes

Margaret Moran: To ask the Secretary of State for Communities and Local Government what recent discussions she has had with registered social landlords and housing corporations on using RSLs' spare borrowing capacity for construction of new affordable homes. [149427]

Mr. Iain Wright: We continue to have discussions with the Housing Corporation and housing associations on RSLs' borrowing capacity. In March 2007, the corporation published 'Unlocking the Door', analysing how past investment locked up in stock could be released to finance more affordable housing. The corporation has concluded that there is unused capacity and that housing associations can borrow more against their existing businesses. There is therefore scope for efficiency savings to be secured for new affordable housing.

The Housing Corporation is currently considering the responses it has received to its consultation document on recycled capital grants and links to property values.

Members: Correspondence

Margaret Moran: To ask the Secretary of State for Communities and Local Government for what reasons the letter from the hon. Member for Luton South to her predecessor relating to Mrs. Webb of Luton, dated 17 November 2006, was not replied to until 4 June 2007. [149430]

Mr. Iain Wright: I apologise to my hon. Friend for the delay in responding to the correspondence, which was due to an administrative oversight. We attach great importance to the prompt and efficient handling of correspondence, particularly from hon. Members. Earlier this year, Communities and Local Government introduced new arrangements for the handling of ministerial correspondence and early indications are that the changes have significantly improved our performance.

Mobile Homes: Surveys

Mr. Oaten: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 9 July 2007, *Official Report*, column 1277W, on mobile homes: surveys, how many of the eight respondents supporting option 3 were *(a)* individuals and *(b)* organisations; and if she will identify these respondents. [150421]

Mr. Iain Wright: Of the eight respondents that supported option 3, five were individuals and three were organisations. I am not able to disclose the identity of the individuals as we have given a commitment to individual respondents that their personal details will not be disclosed outside of the Department. However, the three organisations were Basingstoke and Deane borough council, Arun district council and South Norfolk district council.

Ordnance Survey: Copyright

Mr. MacNeil: To ask the Secretary of State for Communities and Local Government how much was raised by the Ordnance Survey from the sale to commercial enterprises of the rights to use licensable or copyright material in each of the last five years. [150285]

Mr. Iain Wright: Revenue from commercial enterprises including licensed partners and distributors, from licenses for digital data and map copying and from sales of mapping for the years 2002-03 to 2006-07 were £50,475,353, £51,250,715, £51,930,385, £54,772,770 and £57,804,021 respectively.

Travelling People: Eastern Region

Anne Main: To ask the Secretary of State for Communities and Local Government what the reason was for the initiation of the proposed single-issue revision of the Eastern regional spatial strategy in relation to the provision of Gypsy and Traveller sites. [149976]

Mr. Iain Wright: The single issue review of its Regional Spatial Strategy, "Planning for Gypsy and Traveller Accommodation in the East of England" currently being carried out by the East of England Regional Assembly reflects the important role that "Office of the Deputy Prime Minister Circular 1/06, Planning for Gypsy and Traveller Sites" gives to Regional Spatial Strategies in addressing the shortage of authorised accommodation for Gypsies and Travellers.

The main steps in the process are:

Local authorities assess needs through their Gypsy and Traveller accommodation assessments;

The regional planning body (i.e. the Regional Assembly) defines the total level of need in the region and the level of additional pitch provision at district council level through its regional spatial strategy;

The regional spatial strategy is confirmed by the Secretary of State, following an examination in public conducted by an independent panel if necessary;

Local planning authorities define the locations for new sites through their local development documents and ensure delivery through their strategic housing role.

The Regional Assembly gave a commitment to carry out such a review in early 2006 at the examination in public into the main review of the East of England regional spatial strategy, where it admitted that its policy did not meet the requirements of the Circular.

We are grateful to the Regional Assembly for its work on the Gypsy and Traveller accommodation review, which is the first in the country to fully reflect the requirements of circular 1/06.

CULTURE, MEDIA AND SPORT

Arts: Finance

Ms Dari Taylor: To ask the Secretary of State for Culture, Media and Sport what discussions he has held with HM Treasury on funding commitments for the arts in the comprehensive spending review 2007. [149965]

James Purnell: Discussions on the CSR are continuing between DCMS and HM Treasury.

Cultural Heritage: Iraq

Tim Loughton: To ask the Secretary of State for Culture, Media and Sport what support and funding his Department has made available to the Department

of Antiquities in Iraq to counter looting of archaeological sites and artefacts. [150361]

James Purnell: My Department has not provided direct funds to the Department of Antiquities in Iraq to counter looting or archaeological sites. Instead, the UK's response to the heritage crisis in Iraq has been led by its sponsored bodies. In particular the British Museum has:

provided expertise and training on conservation and site management;

sent two archaeologists to Iraq who were instrumental in co-ordinating the quick supply of a wide range of desperately needed materials and equipment to the Baghdad Museum; and

arranged and managed (with additional funding of £15,000 from the DCMS) a project that allowed three interns coming from the Iraqi Ministry of Culture to learn the skills necessary for the future management of the Babylon archaeological site.

Departments: Early Retirement

Mr. Jenkins: To ask the Secretary of State for Culture, Media and Sport how many and what proportion of staff took early retirement from his Department in the last five years, broken down by grade; and at what cost. [148740]

Margaret Hodge: As numbers of staff by grade are so small, five or less, we are unable to provide the breakdown of early retirements as requested, on the grounds of confidentiality. The information relating to the overall early retirements numbers and costs in the last five years is contained in the table.

	Number of staff	*Proportion of staff as a percentage of the headcount*	*Overall cost to Department until the minimum pension age of 60 (£)*
2002-03	0	n/a	n/a
2003-04	1	0.204	[1]
2004-05	0	n/a	n/a
2005-06	5	0.956	847,469.49
2006-07	6	1.138	912,624.54

n/a = Not applicable
[1] Confidentiality applies

Departments: Publicity

David Simpson: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the cost effectiveness of advertising commissioned by his Department in the last 12 months. [148516]

Margaret Hodge: DCMS ensures that the most appropriate newspapers, publications and websites are used when advertising its job vacancies and public appointments, and monitors carefully the costs involved in placing these advertisements. My Department is co-operating fully with the central initiative of sharing recruitment advertising space and costs with other Government Departments where this is possible.

Departments: Racial Harassment

David Simpson: To ask the Secretary of State for Culture, Media and Sport how many complaints of racial abuse relating to staff for which his Department is responsible have been *(a)* investigated and *(b)* upheld in the last 12 months. [149256]

Margaret Hodge: There have been no formal complaints of racial abuse from DCMS employees in the last 12 months.

The Department is fully committed to equal opportunities and will not tolerate any form of discrimination, harassment or victimisation. There is an equal opportunities complaints procedure available on the Departments' intranet which provides a mechanism for staff to raise and have addressed problems or concerns.

Digital Switchover Help Scheme

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what account has been taken of the continuing development of the *(a)* technology and *(b)* options available in relation to digital switchover in decisions over the form of assistance on offer. [149753]

James Purnell: In order to take into account the continuing development of the technology, an emerging technologies group will be established. This group will consider such developments and, where appropriate, will make recommendations to the BBC and DCMS to amend the help scheme's core receiver requirements accordingly.

The scheme will be platform-neutral and will therefore allow those eligible to choose from the range of options where they are available. Those opting for cable, satellite or digital TV via a phone line, will have to pay any difference in cost.

Mr. Carmichael: To ask the Secretary of State for Culture, Media and Sport if he will make a statement on Government support for pensioners and vulnerable groups preparing for digital switchover. [150004]

James Purnell: The digital switchover help scheme will be available to households where at least one person is 75 years or over, severely disabled or is registered as blind or partially sighted during the eligibility period, which starts eight months before switchover in their region. The scheme will provide equipment to convert one TV set to the most cost-effective digital platform in the relevant area. Where necessary, there will also be an in-home service to help with the installation and use of equipment, or the upgrading of an aerial. Those eligible for the scheme will also be able to opt for an integrated digital television or personal video recorder. It will also be possible to opt for a different digital platform (broadband, cable, satellite or terrestrial) from the one proposed by the scheme. The scheme will make a financial contribution towards these alternative options, but the eligible household would need to meet the cost of any shortfall or continuing subscription.

Where the eligible household opts for the digital terrestrial platform, the scheme will provide a set top converter box which meets the scheme's core receiver requirement. This incorporates a number of features, such as audio description, which are intended to be beneficial to the targeted groups.

There will be a £40 charge for the help scheme, but where the qualifying person is also in receipt of certain benefits, the assistance will be provided free of charge. Eligibility for the scheme will be based on Department for Work and Pensions data, which enables the scheme to target communications thus avoiding complex application forms and the need for complex and costly verification procedures.

Listed Buildings

Linda Gilroy: To ask the Secretary of State for Culture, Media and Sport on which occasions Ministers have not followed the advice of English Heritage in relation to the listing of buildings in each of the last five years. [150431]

Margaret Hodge: No central record is maintained, either by the Department or English Heritage, to show the number of occasions on which advice provided by English Heritage on listing applications is overruled. The information requested could be provided only at disproportionate cost.

Olympic Games: Greater London

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport (1) if he will list his Department's responsibilities with regard to the 2012 Olympics; [147850]

(2) which Minister is responsible for elite athlete training for the London 2012 Olympics; which Minister will have responsibility for the sports legacy of 2012; and which Minister will have responsibility for the National Lottery statutory instrument due to be laid before the House after the summer adjournment. [148082]

James Purnell: The Minister for the Olympics is responsible for the Government's overall Olympic Programme and legacy plans, to which a number of Departments will contribute. As such, she will co-chair (with the Mayor of London) the Olympic Board and exercise statutory and other functions with respect to the London Organising Committee, the Olympic Delivery Authority and the Olympic lottery distributor.

The Government Olympic Executive, which remains part of the Department for Culture, Media and Sport, will report to the Minister for the Olympics through the Permanent Secretary of the Department.

As part of his wider responsibilities, the Secretary of State for Culture, Media and Sport is responsible for:

Elite athlete training for the London 2012 Olympics;

The sports legacy for 2012;

Laying before the House the National Lottery statutory instrument transferring funds to the Olympic lottery distributor.

To ensure close co-ordination, the Minister for Sport will continue, as previously, to attend the Olympic Board.

The Secretary of State and the Minister for the Olympics have joint responsibility for the Cultural Olympiad. This recognises the importance of the cultural programme to London 2012, and of seeing the Olympiad as a key opportunity for the cultural sectors, with a lasting legacy.

The Secretary of State will continue to exercise statutory and other functions in respect of the various established sporting, cultural and other bodies including UK Sport and Sport England.

Playing Fields: Planning

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport (1) when his Department plans to consult on the proposals in the Town and Country Planning (General Development Procedure) Order 1995 on playing fields of 0.2 hectares and above; [148823]

(2) when his Department plans to bring forward the changes recommended in the Town and Country Planning (General Development Procedure) Order 1995 announced in his Department's press release "Planning to Safeguard Open Spaces and Playing Fields" of July 2002. [148824]

Mr. Iain Wright: I have been asked to reply.

We are strongly committed to reducing the threshold for statutory consultation on the sale of playing fields from 0.4 ha to 0.2 ha and this will be reflected in the consultation paper on the review of statutory consultees due later this year.

Public Buildings: Plymouth

Linda Gilroy: To ask the Secretary of State for Culture, Media and Sport on what date, and at what stage of the process, the *(a)* Secretary of State and *(b)* other Ministers were informed of the advice from English Heritage on the listing of the civil centre in Plymouth. [150427]

Margaret Hodge: English Heritage provides advice to the Secretary of State on listing applications once they have consulted owners and local planning authorities and completed a full assessment of the building. English Heritage provided their advice on the listing of the civic centre in Plymouth to the then Secretary of State, my right hon. Friend the Member for Dulwich and West Norwood (Tessa Jowell) on 12 June 2007.

Linda Gilroy: To ask the Secretary of State for Culture, Media and Sport what representations were received by the Department objecting to the listing of the civic centre in Plymouth; and what advice he received from officials within his Department on the listing of the civic centre. [150428]

Margaret Hodge: Between receipt by English Heritage of the application to list the building in April 2006 and the decision to list being taken in June 2007, the Department received two representations objecting to the possible listing. These representations were made by my hon. Friends the Members for Plymouth, Sutton (Linda Gilroy) and for Plymouth, Devonport (Alison Seabeck). The then Minister for Culture, my hon.

Friend the Member for Tottenham (David Lammy) was advised that objections to the possible listing had been received, but that the application to list was with English Heritage pending the completion of an adviser's report.

Linda Gilroy: To ask the Secretary of State for Culture, Media and Sport what account was taken of representations objecting to the listing of the civic centre in Plymouth received by his Department. [150429]

Margaret Hodge: All relevant evidence is taken into account in determining listing applications. For evidence to be relevant it must relate to the statutory criteria of special architectural or historic interest set out in planning policy guidance note 15. These are the only factors that the Secretary of State may take into account in making listing decisions. State of repair, cost of maintenance and unsuitability for modern needs are matters which are not relevant to the assessment of a building's qualifications for listing—but they are all things which can be taken into account by the planning authority in considering any application to demolish or alter a listed building.

Linda Gilroy: To ask the Secretary of State for Culture, Media and Sport what role Ministers in his Department played in the approval of the listing of the civic centre in Plymouth; and on what date the listing of the civic centre in Plymouth was approved by Ministers. [150430]

Margaret Hodge: English Heritage administers the listing system on behalf of the Secretary of State, but it is the Secretary of State who decides whether a building should be added to the statutory list. The decision to list the civic centre in Plymouth was made on 21 June 2007.

Mr. Streeter: To ask the Secretary of State for Culture, Media and Sport what extra revenue his Department will make available to Plymouth council in respect of the financial implications of the listing of Plymouth civic centre by English Heritage. [150487]

Margaret Hodge: Government funding for the historic environment in England is channelled through English Heritage. Grants are available for structural repairs to listed buildings that English Heritage considers to be of outstanding historical or architectural interest. Grants are usually restricted to buildings listed Grade I or Grade II*—rather than Grade II listed—but all applications are dealt with on their individual merits. There are a number of charitable trusts that make grants towards the preservation and upkeep of historic buildings. In addition, the National Heritage Memorial Fund (NHMF) has powers to provide financial assistance towards the repair and maintenance of buildings of importance to the national heritage, through the Heritage Lottery Fund (HLF). Decisions on applications are made by the NHMF trustees, who seek advice from English Heritage and other professional bodies.

Mr. Streeter: To ask the Secretary of State for Culture, Media and Sport what recent discussions he has had with the chief executive of English Heritage on its decision to list Plymouth civic centre; and if he will make a statement. [150488]

Margaret Hodge: There have been no discussions between my right hon. Friend the Secretary of State and the chief executive of English Heritage on the decision to list Plymouth civic centre.

Radio Frequencies

Mr. Spellar: To ask the Secretary of State for Culture, Media and Sport what the Government's policy is on the continued use of the FM and AM bands for radio broadcasts. [150124]

James Purnell: Spectrum planning is primarily a matter for Ofcom as the regulator. However, the Government note the proposals made in Ofcom's 'Future of Radio Review—Phase 3' about alternative uses for the FM and AM bands, on which they have recently consulted.

Radio: Digital Broadcasting

Bob Spink: To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the impact on *(a)* low income households and *(b)* those in areas of poor digital radio reception of the switch-off of FM and AM analogue radio for digital radio. [150069]

James Purnell: None. The Government have no current plans to switch-off either the FM or AM analogue radio signals, but will keep this under review as required by section 67 of the Broadcasting Act 1996.

Tourism: Income

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what the total value of the tourism industry was to the UK economy in each year since 1997. [148538]

Margaret Hodge: Estimates of the value of the tourism industry to the UK economy are shown in the table. 2005 is the latest year for which estimates have been made. Due to data quality issues relating to overnight domestic tourism, no figures are available for 2004.

These figures cover spending by domestic residents on tourism day visits and on overnight trips, spending by inbound visitors to the UK, fares paid to UK carriers by overseas residents and imputed rent from UK residents' ownership of second homes.

From 1997 to 1999 the figures measuring the contribution to the economy are expressed as a percentage of gross domestic product. From 2000, estimates are measured in terms of gross value added and are based on the results of the 'UK Tourism Satellite Account—First Steps Project', which gives a more accurate statement.

Tourism expenditure

£ billion

	UK tourism expenditure (at current prices)	*UK tourism expenditure (2005 prices)*	*Contribution to the economy*
1997[1]	65.7	80.1	[2]4.9
1998[1]	70.0	82.5	[2]4.9
1999[1]	73.3	85.1	[2]4.9
2000	74.9	84.4	[3]3.8
2001	72.9	80.8	[3]3.6
2002	73.7	80.4	[3]3.5

Tourism expenditure

	UK tourism expenditure (at current prices)	UK tourism expenditure (2005 prices)	£ billion Contribution to the economy
2003	74.2	78.6	[3, 4]3.3
2005	85.0	85.0	[3, 5]n/a

[1] Figures from 1997 to 1999 do not include imputed rent from second home ownership.
[2] Percentage of GDP.
[3] Percentage of GVA.
[4] Revised from previously published figure of 3.4 per cent. due to ONS revision of total UK GVA figure.
[5] An estimate for the percentage of GVA for 2005 is not yet available.

Tourism: Marketing

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what the return on spending resulting from VisitBritain's marketing activity was in each year since 2003. [148537]

Margaret Hodge: Since 2003, VisitBritain's marketing activity has resulted in an annual return on grant-in-aid investment as follows:

Country marketed	2003-04	2004-05	2005-06
Britain			
Ratio	30:1	47:1	54:1
Visitor spend (£ million)	1,080	1,669	1,906
England			
Ratio	6:1	11:1	20:1
Visitor spend (£ million)	65.9	145.5	243.2
England Intl			
Ratio	—	—	32:1
Visitor spend (£ million)	—	—	32.3

Notes:
1. Visitor spend is money spent by visitors as a result of VisitBritain's campaigns.
2. England was not marketed internationally prior to 2005-06.

HEALTH

Abortion

Anne Milton: To ask the Secretary of State for Health pursuant to the answer of 20 June 2007, *Official Report*, column 1891W, on abortion, how many repeat abortions have occurred in *(a)* Guildford and Waverley primary care trust, *(b)* Surrey and *(c)* England in each year since 1997. [148738]

Dawn Primarolo: The data requested are set out in the following table.

Repeat abortions for residents of Guildford and Waverley Primary Care Trust (PCT)[1], Surrey[2] and England, 1997 to 2006

	Guildford and Waverley PCT[1]				Surrey[2]				England			
	Previous abortions None		Previous abortions One or more		Previous abortions None		Previous abortions One or more		Previous abortions None		Previous abortions One or more	
	No.	%	No.	%	No.	%	No.	%	No.	%	No.	%
1997	n/a	n/a	n/a	n/a	2,227	71	893	29	115,000	71	47,757	29
1998	n/a	n/a	n/a	n/a	2,266	72	885	28	119,562	70	50,480	30
1999	n/a	n/a	n/a	n/a	2,193	72	861	28	116,168	70	49,938	30
2000	n/a	n/a	n/a	n/a	2,189	69	964	31	116,627	69	51,396	31
2001	n/a	n/a	n/a	n/a	2,194	70	924	30	116,470	69	52,354	31
2002	423	69	190	31	1,203	67	596	33	115,766	69	52,729	31
2003	418	70	182	30	1,256	67	618	33	118,697	68	55,270	32
2004	466	73	176	27	1,275	66	654	34	121,052	68	56,639	32
2005	390	65	213	35	1,231	65	654	35	120,584	67	58,068	33
2006	n/a	n/a	n/a	n/a	2,109	66	1,075	34	125,620	68	59,687	32

[1] Data are not available by PCT prior to 2002. Guildford and Waverley PCT was in existence between years 2002 and 2005. It became part of Surrey PCT in 2006.
[2] For years 1997-2001, Surrey is made up of East Surrey and West Surrey Health Authorities.
For years 2002-05, PCTs included in Surrey are East Surrey, North Surrey and East Elmbridge and Mid Surrey.
In 2006, Surrey relates to Surrey PCT (formerly Guildford and Waverley PCT, Surrey Heath and Woking PCT, North Surrey, East Elmbridge and Mid Surrey PCT and East Surrey PCT).

Alcoholic Drinks: Children

Sandra Gidley: To ask the Secretary of State for Health how many children attended emergency departments as a result of excessive alcohol consumption in each of the last five years. [147983]

Dawn Primarolo: This information is not recorded centrally. However, the following table details the number of admissions to hospital for children whose initial attendance at an accident and emergency department was for an alcohol-related problem.

National health service hospitals England 2001-02 to 2005-06

	Finished admission episodes (alcohol related, selected methods of emergency admissions)
2001-02	3,618
2002-03	3,335

National health service hospitals England 2001-02 to 2005-06

	Finished admission episodes (alcohol related, selected methods of emergency admissions)
2003-04	3,826
2004-05	3,716
2005-06	3,939

Note:
Counts of finished admission episodes where there was a primary diagnosis code for selected *alcohol related diseases and for selected **methods of admission for children aged 15 and under.
*Alcohol related diseases defined as following ICD-10 codes recorded in primary diagnosis:
F10: Mental and behavioural disorders due to use of alcohol;
K70: Alcoholic liver disease;
T51: Toxic effect of alcohol.
**Selected methods of admission:
Emergency (via A and E services including the casualty department of the provider);
Emergency (other means, including patients who arrive via A and E department of another health care provider).

Departments: Common Purpose

Philip Davies: To ask the Secretary of State for Health how much his Department paid to Common Purpose in each of the last five years; for what purpose; and what the outcome of the expenditure was. [147596]

Dawn Primarolo: The following table provides the payment details covering 2003-04 to 2007-08 and relate to invoices paid covering fees and expenses.

	£
2003-04	11,084.00
2004-05	5,181.75
2005-06	12,866.85
2006-07	6,110.00
2007-08	0.00
Total	35,242.10

Departments: Early Retirement

Mr. Jenkins: To ask the Secretary of State for Health how many of his staff took early retirement in the last five years; at what cost; what grades of staff took early retirement; and what percentage of each grade took early retirement. [148814]

Dawn Primarolo: A breakdown of sums paid from 2004-05 to date, specific to the Department, is given in the following table.

	Total (£ million)
2004-05	23.1
2005-06	6.5
2006-07	4.7
2007-08	4.9

The following table provides the number of staff that have taken early retirement/severance and compulsory leavers since 2004.

	People number
2004-05	200
2005-06	33
2006-07	39
2007-08	55

Details of specific grades of staff and percentage of staff in grades could be established only at disproportionate cost.

Departments: Equality

Mr. Lansley: To ask the Secretary of State for Health if he will place in the Library a copy of his Department's equality impact assessment of his Department's reorganisation of corporate services, referred to on page 43 of his Department's single equality scheme 2007-2010, published on 8 June 2007. [147557]

Dawn Primarolo: The qualitative nature of the review means that some of the data and content in the final report enables employees/team identification. Therefore, only an executive summary has been placed in the Library.

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for Health what criminal offences have been created by primary legislation sponsored by his Department since October 2006. [149600]

Dawn Primarolo: No new criminal offences have been created through primary legislation sponsored by the Department since October 2006. The National Health Service Act 2006 and National Health Service (Consequential Provisions) Act 2006 were consolidation Acts, which make no substantial changes to the substance of the law.

Departments: Official Visits

David Simpson: To ask the Secretary of State for Health how much was spent on overnight accommodation by civil servants within his Department's areas of responsibilities in the last 12 months. [149046]

Dawn Primarolo: The cost for the last tax year booked via the Department's agent Expotel Hotel Reservations was:

2006-07: £970,818.

Drugs: Children

Mrs. May: To ask the Secretary of State for Health what measures are in place to ensure that children younger than six years are not prescribed methylphenidate drugs. [147886]

Dawn Primarolo: There are no specific measures in place to ensure that children younger than six years are not prescribed methylphenidate drugs.

Methylphenidate is licensed only for children over six years of age as part of a comprehensive treatment programme for attention-deficit hyperactivity disorder where remedial measures alone prove insufficient. Drug treatment for ADHD should only be initiated by an appropriately qualified health professional with expertise in ADHD and should be based on a

comprehensive assessment and diagnosis. Continued prescribing and monitoring of drug treatment may be performed by general practitioners, under shared care arrangements.

A medical practitioner may, however, prescribe methylphenidate to children younger than six years (prescribing a licensed medicine for an unlicensed use, so called 'off-label prescribing'). Medical practitioners are ultimately responsible for all their prescribing decisions. They should always satisfy themselves that all drugs or other substances they consider appropriate for their patients can be safely prescribed, that patients are adequately monitored and that, where necessary, expert hospital supervision is available.

Health Services: Finance

Mr. Burstow: To ask the Secretary of State for Health (1) what steps have been taken to allocate the £1 billion funding proposed in the public health White Paper between *(a)* health trainers, *(b)* sexual health services, *(c)* school nurses and *(d)* other services; and if he will make a statement; [148720]

(2) what representations he has received on ring-fencing the £1 billion funding proposed in the public health White Paper for health trainers, sexual health services, school nurses and other services; and if he will make a statement. [148721]

Dawn Primarolo: Primary care trusts were notified of their revenue allocations for 2006-07 and 2007-08 in February 2005. The allocations separately identify funding to support the initiatives set out in the White Paper "Choosing Health: making healthy choices easier" a copy of which is available in the Library. PCTs determine how to use the funding allocated to them.

Leukaemia: Drugs

Mr. Gray: To ask the Secretary of State for Health pursuant to the answer of 10 July 2007, *Official Report*, column 1450W, on leukaemia: drugs, what the reasons were for deciding not to refer dasatnib to the National Institute for Health and Clinical Excellence; and in what circumstances the drug would be considered for referral in the future. [149958]

Dawn Primarolo: The Department has not received a proposal from the National Institute for Health and Clinical Excellence (NICE) for an appraisal of dasatinib for chronic myeloid leukaemia. However, I understand that NICE is currently considering a proposal for an appraisal of this treatment against its published criteria for the selection of topics.

Maternity Services: East Sussex

Gregory Barker: To ask the Secretary of State for Health what funding has been allocated for maternity services at the Conquest and Eastbourne district general hospitals for the period 2008-09. [149318]

Ann Keen: Revenue allocations are made to primary care trusts and not directly to hospitals or national health service trusts. PCTs commission health care from providers according to their locally agreed priorities.

Meat Products: Additives

Mr. Drew: To ask the Secretary of State for Health what research he has commissioned into the impact on health of E number additives found in burgers and sausages. [149645]

Dawn Primarolo: The Food Standards Agency has responsibility for food additive issues. No research has been commissioned by the FSA into the impact on health of E number additives found in burgers and sausages.

All additives are subject to strict European Union legislative controls and are assessed for safety by independent experts before permission is granted for their use in food. Existing additives are re-evaluated in light of new scientific information and the European Food Safety Authority is currently re-evaluating all colours used in food.

EFSA's re-evaluation of the additive Red 2G (E128) a colour permitted in specific types of sausages and burgers has shown that in laboratory tests it may have the potential to damage the genetic material in cells and cause cancer in animals. Based on that opinion, the FSA has recommended that food producers stop using Red 2G.

NHS: Expenditure

Mr. Laurence Robertson: To ask the Secretary of State for Health what estimate he has made of the cost to the NHS of treating patients who are ill as a result of *(a)* alcohol, *(b)* smoking, *(c)* obesity and *(d)* poverty-related issues in the last 12 months. [149515]

Dawn Primarolo: While it is not possible to give exact figures for the past 12 months due to how and when data is collected[1], the following will give an indication of the annual cost in each of the areas requested:

Alcohol-related illness costs the national health service £1.7 billion each year

Smoking costs the NHS between £1.4 and £1.7 billion every year

Obesity costs the NHS approximately £1 billion per year.

Information about the cost to the NHS of treating patients who are ill as a result of poverty-related issues is not readily available.

[1] The information provided was also gleaned from a number of sources which may have computed the costs in different ways.

NHS: Foreigners

David T.C. Davies: To ask the Secretary of State for Health what estimate his Department has made of the annual cost of treating foreign nationals who are not entitled to NHS care. [148259]

Dawn Primarolo: It is not possible to provide the information requested. Successive governments have not required the national health service to provide statistics on the number of foreign nationals seen, treated or charged under the provisions of the NHS (Charges to Overseas Visitors) Regulations 1989, as amended, nor any costs involved.

NHS: Redundancy

Norman Lamb: To ask the Secretary of State for Health what the *(a)* average, *(b)* highest and *(c)* lowest (i) redundancy payments to those made redundant and (ii) early retirement packages for those taking them from the NHS were in the last 12 months. [146323]

Mr. Bradshaw *[holding answer 28 June 2007]:* The costs of redundancy payments and early retirement packages for 2006-07 will not be available until the autumn.

Plagiocephaly

Sir Nicholas Winterton: To ask the Secretary of State for Health what research his Department has commissioned on plagiocephaly; and if he will make a statement. [149953]

Dawn Primarolo: Neither the Department nor the Medical Research Council is currently funding research on plagiocephaly.

The Department funds national health service research and development through the National Institute for Health Research. The institute's research programmes support high quality research of relevance and in areas of high priority to patients and the NHS. Details, including the scope of the programmes and the arrangements for making applications for support from them, are available on the NIHR website at:

www.nihr.ac.uk

Funding awards are in all cases made after open, competitive peer review.

Psychiatry: Drugs

Mr. Hands: To ask the Secretary of State for Health pursuant to the answer of 14 May 2007, *Official Report*, column 623W, on Psychiatry: Drugs, how his Department measured the efficacy of the use of Prozac on children; what baseline was used; and what scientific methodology was employed. [148193]

Dawn Primarolo: The Medicines and Healthcare products Regulatory Agency evaluated data in two double-blind placebo-controlled trials submitted by the applicant which included children and adolescents aged eight to 18 years. (A double-blind trial is one where the person administering and receiving the medication does not know what the medication is placebo or active treatment in this case). The duration of these trials was eight weeks and one year. In addition, there was a trial published in the literature which included adolescents aged 12 to 17 years. It was a double-blind placebo-controlled trial and included comparator groups with cognitive behaviour therapy alone or a combination of fluoxetine and CBT.

Various rating scales were used to measure efficacy and these included the children's depression rating scale—revised, the clinical global impressions of severity, clinical global impressions of improvement, Montgomery Asberg depression rating scale and others.

The measurement of efficacy was a clinically significant change in the severity of depression as measured on a rating scale developed specifically to diagnose depression and determine its severity. The baseline used was the child's depression score prior to treatment which had to indicate depression of at least 'moderate' severity.

Differences between treatment and placebo were evaluated using statistical methodology and clinical assessment.

Smoking: West Kent NHS and Social Care Trust

Mr. Holloway: To ask the Secretary of State for Health how many patients in the West Kent primary care trust have used NHS stop smoking services to set a quit date since 2001; and how many had stopped smoking at four-week follow up. [149305]

Dawn Primarolo: The information is not available in the format requested.

Data are available on the number of people who have set a quit date through the national health service stop-smoking services and, of those, how many people had successfully quit smoking at the four-week follow up (based on self-report) for West Kent primary care trust, from 2002-03 to 2005-06. These figures are presented in the following table.

Data for 2001-02 are unavailable by PCT.

Data for 2006-07 are due to be published during the week commencing 13 August 2007.

People setting a quit date and successful quitters, in West Kent Primary Care Trust[1], 2002-03 to 2005-06

Number

	2002-03	*2003-04*	*2004-05*	*2005-06*
Setting a quit date	631	2,817	4,883	5,789
Successful quitters at the four week follow up (self-report)	381	2,353	3,948	3,607

Note:
Figures presented here are based on the new PCT structure introduced in 2006, which have been produced by aggregating data for Dartford, Gravesham and Swanley, Maidstone Weald and South West Kent PCTs.
Source:
The Information Centre for health and social care, Lifestyle Statistics.

DUCHY OF LANCASTER

Social Exclusion: Homelessness

24. **Gordon Banks:** To ask the Chancellor of the Duchy of Lancaster what assessment he has made of the potential effect of social exclusion on future levels of homelessness. [149817]

Gillian Merron: There are many factors linked to social exclusion that may contribute to homelessness, for example unemployment, relationship breakdown or substance abuse. One of the first social exclusion unit reports set out the Government's strategy for tackling rough sleeping. This was followed in 2005 by "Sustainable Communities: Settled Homes; Changing Lives", which is our strategy for reducing and tackling broader homelessness.

Voluntary Sector Funding

25. **Mr. Mackay:** To ask the Chancellor of the Duchy of Lancaster if he will make a statement on trends in the level of Government funding for voluntary sector organisations. [149818]

Phil Hope: Recent surveys indicate that Government funding for voluntary sector organisations has doubled between 1996-07 (£5 billion) and 2004-05 (£10 billion). Initiatives like Futurebuilders, Capacitybuilders, the Invest to Save budget, expansion of Gift Aid and the new youth volunteering charity, v, have helped build the third sector's ability to make a real difference in local communities. The announcement of the £30 million community assets fund and the £80 million scheme for grants for small community organisations continues to demonstrate the Government's commitment to supporting the third sector.

Third Sector Funding

27. **Mr. Andy Reed:** To ask the Chancellor of the Duchy of Lancaster what recent discussions he has had with ministerial colleagues on Government policy on funding for the third sector. [149820]

Phil Hope: There have been a number of discussions with ministerial colleagues on third-sector issues generally, including on funding. Recent surveys indicate that Government funding for voluntary sector organisations has doubled between 1996-97 (£5 billion) and 2004-05 (£10 billion). The announcement of the £30 million community assets fund and the £80 million scheme for small community organisations continues to demonstrate the Government's commitment to supporting the third sector.

Early Years Intervention

28. **Jessica Morden:** To ask the Chancellor of the Duchy of Lancaster what assessment he has made of the costs and benefits of intervening in the early years of a child's life to prevent social exclusion. [149821]

30. **Rosie Cooper:** To ask the Chancellor of the Duchy of Lancaster what assessment he has made of the costs and benefits of intervening in the early years of a child's life to prevent social exclusion. [149824]

Gillian Merron: Early intervention is a core principle in the social exclusion action plan. For example this document highlighted the relative costs and benefits of a rigorously tested programme in the US, the Nurse Family Partnership, that provides intensive home visiting by health visitors to disadvantaged mothers from pregnancy until the child is two years old.

Third Sector: Government Policy

29. **Miss McIntosh:** To ask the Chancellor of the Duchy of Lancaster what representations he has received on the role of the third sector in contributing to the delivery of Government policy. [149823]

Phil Hope: As part of the third sector review, we have undertaken the largest consultation we have ever done with the third sector. This included 93 open consultation events held around the country and, themed roundtable discussions. Over 250 written responses were also received.

The interim report of the third sector review summarised the main messages from the consultation. A fuller analysis of the consultation is also available. The Government consult with the third sector on a regular basis, through the strategic partners programme and key advisory bodies.

Young People's Services

31. **Simon Hughes:** To ask the Chancellor of the Duchy of Lancaster what plans he has to assist the voluntary sector in developing its role in providing services for young people. [149825]

Phil Hope: Voluntary sector organisations already play a significant role in delivering services for young people. The Department for Children, Schools and Families leads on policy for young people. Since 2006-07 DCSF has invested over £20 million in funding to voluntary sector organisations through its children, young people and families grant scheme.

Voluntary sector organisation offer significant expertise in developing strategies expertise in developing strategies for children, families and young people. The DCSF has released guidance making it clear that local authorities should engage voluntary and community sector organisations as strategic partners.

Civil Servants: Pensions

Chris Grayling: To ask the Chancellor of the Duchy of Lancaster what the total civil service pension liabilities are. [150044]

Gillian Merron: Information on the most recent estimate of liability for the principal civil service pension scheme is available in the resource accounts 2005-06 of Cabinet Office: Civil Superannuation which is available at:

http://www.civilservice-pensions.gov.uk/publications.

A copy is also available in the Library for the reference of Members.

Resource accounts showing the liabilities at 31 March 2007 will be laid before Parliament by the summer recess.

Departments: Ministerial Red Boxes

John Hemming: To ask the Chancellor of the Duchy of Lancaster how many ministerial red boxes his Department bought in each of the last five years; what the cost of each was; who the suppliers were; and what tendering process was used in selecting them. [150483]

Edward Miliband: Red boxes are used by successive Ministers over a number of years. The specific information requested for the last five years could be provided only at disproportionate cost.

Red boxes are ordered via the Department's stationery contract with Banner Business Supplies. The contract was agreed following a joint competitive procurement procedure with HMRC.

Departments: Public Transport

David Simpson: To ask the Chancellor of the Duchy of Lancaster what estimate the Prime Minister's Office has made of the number of its staff using public transport to commute. [147316]

Gillian Merron: The Cabinet Office has made no such estimate, but the vast majority of Cabinet Office staff (which includes the Prime Minister's Office) work in central London. It is a realistic assumption that staff travel to and from work by public transport as we have a number of measures in place to encourage more sustainable business travel.

Electronic Government

John Battle: To ask the Chancellor of the Duchy of Lancaster what steps the Government are taking to improve accessibility to Government websites; and if he will make a statement. [148181]

Gillian Merron: The Government are committed to ensuring that all Government websites are accessible and easy to use for people, and this includes design and content delivered in a way that is appropriate for the user. The Government have already streamlined the number of websites (down by 551) since April 2006 and will strengthen the direct.gov.uk and businesslink.gov.uk websites by making all citizen and business facing material available through them.

Gift Aid

Mr. Hollobone: To ask the Chancellor of the Duchy of Lancaster what recent discussions he has had with HM Treasury Ministers on promoting the take-up of Gift Aid. [149860]

Phil Hope: I refer the hon. Member to the answer to the hon. Member for Wellingborough (Mr. Bone) given by the then Parliamentary Secretary (Edward Miliband) on 11 June 2007, *Official Report*, columns 775-76W.

A consultation was launched on 19 June 2007 with the charitable sector on measures to increase take-up of Gift Aid. The Budget also announced the Government's wish to work with the sector on improving the use of payroll giving and ensuring greater awareness of how to give in a tax-effective way.

Government Communications Network

Norman Baker: To ask the Chancellor of the Duchy of Lancaster if he will make a statement on the future *(a)* role, *(b)* budget and *(c)* staffing levels of the Government communications network. [149232]

Gillian Merron: As a virtual organisation, the Government communications network does not directly employ staff but is administered by the Government communication team within Cabinet Office. In the future the GCN's role will be to continue to raise professional standards, share best practice and improve the way communications are co-ordinated across departments. The 2007-08 budget of the team supporting the network is £1.5 million.

Office of the Third Sector

John McDonnell: To ask the Chancellor of the Duchy of Lancaster how much it cost to set up the Office of the Third Sector; and what its running costs are estimated to be in 2007-08. [150422]

Phil Hope: The costs associated with moving the OTS to its new offices, recruiting new staff and the other associated administrative costs were met from within the existing budgets of the two exporting departments and the Cabinet Office.

Details of the administration costs for the Office of the Third Sector in 2007-08 are published in the Central Government Supply Estimates (2007-08) Command Paper [HC 438] on page 655. A copy is available in the Library for the reference of Members.

Olympic Games: Greater London

Norman Baker: To ask the Minister for the Olympics what mechanism is in place to ensure co-ordination between her and the Government Olympic Executive. [149226]

Tessa Jowell: The Government Olympic Executive, which remains part of the Department for Culture, Media and Sport, will report to the Minister for the Olympics through the Permanent Secretary of the Department.

TRANSPORT

Halifax Railway Station

10. **Mrs. Riordan:** To ask the Secretary of State for Transport what recent expenditure has been incurred on improving facilities at Halifax railway station. [149836]

Mr. Tom Harris: Network Rail and Northern Rail are working with local stakeholders to improve the condition of Halifax railway station. Recent work includes the re-opening of the public toilets at the station, renewal of the station lighting and an improvement in the frequency of station cleaning.

Rail Franchises

11. **Mr. Leigh:** To ask the Secretary of State for Transport what steps her Department is taking to apply the lessons learnt from the termination of the Connex franchise to other franchises. [149838]

Mr. Tom Harris: The Department has taken steps to implement the lessons learned from the termination of the Connex franchise. These include awarding franchises on the basis of a balanced assessment of costs and deliverability, more effective risk-based performance monitoring and detailed "operator of last resort" contingency plans.

First Great Western

12. **Peter Luff:** To ask the Secretary of State for Transport what assessment she has made of the performance of First Great Western in conducting the Great Western franchise. [149839]

Mr. Tom Harris: Joint action plans are in place between Network Rail and First Great Western to address performance issues. Additionally, First Great Western is implementing a 40-point recovery plan. These are monitored monthly.

In the year to 31 March 2007 First Great Western achieved an average punctuality of 83.2 per cent. across the franchise as a whole.

Mr. Drew: To ask the Secretary of State for Transport pursuant to the answer of 12 July 2007 to question 149369, on First Great Western, if she will publish her Department's monitoring results on punctuality, reliability and service quality for First Great Western for the last three months for which statistics are available. [150454]

Mr. Tom Harris: First Great Western service punctuality and reliability were as follows for the last three rail industry periods.

	Punctuality (percentage MAA)	*Reliability (all cancellations)*
Period 1	83.00	711
Period 2	82.84	600
Period 3	82.65	754

First Great Western is exceeding its service quality benchmark as stipulated in the franchise agreement.

Flooding: West Yorkshire

13. **Mary Creagh:** To ask the Secretary of State for Transport what assessment has been made of the impact of the recent floods on the transport infrastructure in West Yorkshire. [149840]

Ms Rosie Winterton: The Government Office for Yorkshire and Humberside has been in contact with local authorities in West Yorkshire for an assessment of the impact on their networks of the recent floods.

Rail Passenger Numbers

14. **Mrs. Dorries:** To ask the Secretary of State for Transport what recent assessment she has made of likely levels of overcrowding on the railways over the next three years; and if she will make a statement. [149842]

Mr. Tom Harris: We will continue to increase capacity through the franchising process and in other ways.

The high level output specification, to be published this summer, will set out the additional rail capacity that the Government propose to buy to meet the recent and forecast growth in demand for rail travel.

Airport Security

16. **James Brokenshire:** To ask the Secretary of State for Transport what discussions she has had with the Home Secretary on adequacy of airport security since the recent events at Glasgow airport; and if she will make a statement. [149844]

Ruth Kelly: Department for Transport Ministers regularly meet with ministerial colleagues in the course of performing their ministerial duties. Information relating to private meetings, discussion and advice is not normally disclosed as to do so could harm the frankness and candour of discussion. There is regular discussion at official level between this Department and the Home Office regarding security issues of mutual interest.

A46

17. **Paddy Tipping:** To ask the Secretary of State for Transport if she will make a statement on the future funding of highway improvements on the A46 between Newark and Widmerpool. [149845]

Ms Rosie Winterton: The East Midlands region has prioritised funding for the dualling of the A46 between Newark and Widmerpool from its indicative regional funding allocation for major transport schemes up to 2015-16.

Midland Mainline

18. **Mr. Hollobone:** To ask the Secretary of State for Transport if she will take steps to ensure the maintenance of standards of the train service on Midland Mainline to and from Kettering during the remainder of the existing franchise period. [149846]

Mr. Tom Harris: The quality of service obligations contained in the Midland Mainline franchise agreement remain in force until the end of the current franchise and are closely monitored. Additionally, the franchise agreement contains provisions that come into force during the last 12 months of a franchise which ensure the franchisee continues to provide good service and maintain franchise standards and value for the government and the incoming franchisee.

London Underground PPP

Dr. Cable: To ask the Secretary of State for Transport if she will make a statement on the performance of the London Underground public-private partnership; and what recent assessment she has made of the financial implications for the public purse. [149843]

Ms Rosie Winterton: The public private partnership (PPP) has delivered new trains, refurbished stations and upgraded lines. But it is clear that performance between the two PPP companies has been variable with Metronet, to date, delivering less than was expected and at higher unit costs. It is now for London Underground, working in partnership with Metronet, to agree how to secure the delivery of contract outcomes for the funding committed.

A1: Gateshead

Mr. Henderson: To ask the Secretary of State for Transport what discussions she has had with local authorities in Tyne and Wear on the upgrading of the A1 through Gateshead and Newcastle. [149854]

Mr. Tom Harris: I have not yet had an opportunity to meet with the Tyne and Wear local authorities. But I do know that previous Ministers met with them, and that officials of the Highways Agency meet with both officials and members of Gateshead and Newcastle Councils to keep them informed of progress on this scheme.

Accidents: Compensation

Dr. Iddon: To ask the Secretary of State for Transport whether provision has been made for the payment of compensation to a person injured in a road traffic accident in which the person causing the injury was incapacitated by automatism. [150094]

Jim Fitzpatrick: The statutory requirements to insure the use of a motor vehicle are as set out in part VI of the Road Traffic Act 1988. A person must not use a vehicle on the road unless there is in force in relation to the use of the vehicle by that person a valid policy of insurance in respect of third party risk, or a valid security.

A person injured in a road traffic accident is required under the law on civil liability to prove negligence on the part of the person they consider responsible if they are to succeed in a claim for compensation. Whether a person incapacitated by automatism can be held liable will depend on the circumstances of the case. This is ultimately a matter for the courts.

Bus Services: Gravesham

Mr. Holloway: To ask the Secretary of State for Transport what funding is planned to be made available for bus services in Gravesham in each year for which figures are available. [149308]

Ms Rosie Winterton: Public funding of bus services now totals £2.5 billion annually, through local authorities or direct to bus operators. There are no central projections of future spend in individual local authority areas.

Commuters: Motorcycles

Bill Wiggin: To ask the Secretary of State for Transport when she expects statistics on motorcycle usage to be included in the Department for Transport's "Travel to Work" fact sheets; and if she will make a statement. [150449]

Ms Rosie Winterton: The Department's fact sheet "Travel to Work" does not contain statistics on motorcycle usage as this accounts only for a small proportion (approximately 1 per cent.) of trips to work. Personal travel fact sheets are published on an ad hoc basis and there are no current plans to update this fact sheet, the latest version of which was published on 12 July 2007.

East Coast Railway Line

Mr. Sheerman: To ask the Secretary of State for Transport what progress she has made in ensuring that the new operator of the east coast line will provide a fast, efficient and safe service. [149837]

Mr. Tom Harris: The new Intercity east coast franchise is designed to achieve value for money while at the same time improving operational performance and providing capacity to meet future demand growth. We expect to be able to announce the winner of the franchise competition next month.

Motorcycles

Bill Wiggin: To ask the Secretary of State for Transport when she expects her Department's travel fact sheet on motorcycling to be next updated; and if she will make a statement. [150496]

Ms Rosie Winterton: There are no current plans to update the Personal travel facts heet on motorcycling. However, the 2007 edition of the Compendium of motorcycling statistics is due to be published in October 2007.

Railway Stations

Mr. Gray: To ask the Secretary of State for Transport how many new railway stations have been opened since privatisation; and how many are being constructed in England. [150246]

Mr. Tom Harris: These are operational matters for Network Rail, as the owner and operator of the national rail network. The hon. Member should contact Network Rail's Chief Executive at the following address for a response to his question.

John Armitt
Chief Executive
Network Rail
40 Melton Street
London NW1 2EE

Railways: Deaths

Mr. Steen: To ask the Secretary of State for Transport (1) how many accidental deaths there were on the First Great Western rail network *(a)* west of Swindon and Newbury and *(b)* on the London to Didcot line covered by the area commander for London north in each of the last three years; [149362]

(2) how many suicides there were on the First Great Western rail network London to Didcot line covered by the area commander for London north in each of the last three years. [149363]

Mr. Tom Harris: This information is not held by the Department for Transport but by the British Transport Police who can be contacted at:

British Transport Police
25 Camden Road
London
NW1 9LN
Email: general.enquiries@btp.pnn.police.uk.

Railways: Security

Mr. Clegg: To ask the Secretary of State for Transport what the *(a)* installation and *(b)* running costs are of the vehicle access barriers at Victoria and Waterloo stations. [149579]

Mr. Tom Harris: The costs of the barrier trial at Victoria and Waterloo stations between June and September 2006 were as follows:

	£
Installation	85,042
Running costs	28,224
Total	113,266

The Corus barriers were supplied from an existing stock administered by the Association of Chief Police Officers.

Road Traffic

Mr. Spellar: To ask the Secretary of State for Transport if she will make a statement on the extension of active traffic management and hard shoulder running following the experiment on the M42. [150123]

Mr. Tom Harris: An interim evaluation report on the performance of the M42 active traffic management pilot project is due to be published shortly. Initial results have been encouraging and the Highways Agency is continuing to review the network to identify other potential locations that might benefit from the introduction of ATM.

Road Traffic Control

Mr. Greg Knight: To ask the Secretary of State for Transport if she will list the locations in England where traffic on a primary route is reduced to single-file traffic controlled by traffic lights when crossing a narrow bridge or other bottleneck. [150112]

Ms Rosie Winterton: The design, installation and maintenance of traffic signals are matters for the relevant traffic or highway authorities. They are not required to notify the Department when installing them, and as such information on the numbers of signals is not held centrally.

Road Works

Lyn Brown: To ask the Secretary of State for Transport what plans she has to ensure that local authorities have more effective control over street works by utility companies. [149841]

Ms Rosie Winterton: The Government are implementing regulations under parts 3 and 4 of the Traffic Management Act 2004 to update the current system of managing road works by utilities, known as street works, and giving local highway authorities powers to implement proactive controls by allowing them to apply to run permit schemes.

Roads: Repairs and Maintenance

Mr. Carmichael: To ask the Secretary of State for Transport what recent estimate she has made of the cost of local road repairs identified as repaired; and whether the Government are on track to meet their target of completing such repairs by 2010. [148148]

Ms Rosie Winterton: The national road maintenance condition survey for 2005 showed that the 10-year plan interim target to halt carriageway deterioration by 2004 had been achieved. We have encouraged local authorities to produce asset management plans for local roads. As more of these become available we expect to gain a better understanding of the investment required to bring local road conditions up to the appropriate operational standards.

Speed Limits: Cameras

Mr. Amess: To ask the Secretary of State for Transport how many people were *(a)* killed and *(b)* seriously injured as a result of road traffic accidents at the location of static speed cameras in (i) Southend and (ii) Essex police force area (A) before the introduction and (B) after the introduction of each speed camera in each of the last three years for which figures are available. [149352]

Jim Fitzpatrick: The information is not held in the form requested. Fixed cameras operated by the Essex safety camera partnership under the national safety camera programme, which ended on 31 March 2007, reduced the number of fatal casualties at camera sites by an average of 43 per cent. per year, and reduced the number of people killed or seriously injured at camera sites by an average of 51 per cent. per year. This means around three lives were saved and 55 fewer people were killed or seriously injured each year. I have arranged for tables to be placed in the Libraries of the House regarding the performance of fixed speed cameras in Essex.

Transport: Costs

Susan Kramer: To ask the Secretary of State for Transport what estimate she has made of the percentage change in real terms of the cost of travelling by *(a)* private car, *(b)* bus and *(c)* train since (i) 1977, (ii) 1987 and (iii) 1997. [150423]

Jim Fitzpatrick: The following table shows the percentage change in real terms of the cost of travelling by car, bus and train since 1977, 1987 and 1997 compared to 2006.

	(i) 1977-2006	*(ii) 1987-2006*	*(iii) 1997-2006*
(a) Private car	-10	-7	-10
(b) Bus	+55	+29	+13
(c) Train	+52	+28	+6

Source: Retail Price Index—Office for National Statistics.

Comparisons with average household disposable incomes are as follows: between 1977 and 2006, average household disposable income increased by 125 per cent.; between 1987 and 2006, average household disposable income increased by 70 per cent.; and between 1997 and 2006, average household disposable income increased by 25 per cent.

Transport: Tickets

Stephen Hammond: To ask the Secretary of State for Transport (1) what steps the Government are taking to ensure a common scope for multi-modal ticketing projects; [148998]

(2) whether the integrated transport smartcard organisation specification for implementing a national multi-modal ticketing system is *(a)* permissive and *(b)* definitive specification; [148999]

(3) what steps the Government plan to take to develop a definitive national integrated transport smartcard organisation standard. [149000]

Ms Rosie Winterton: The Department for Transport sponsored development of the ITSO specifications for an interoperable smart card ticketing interface. These specifications, which were published in March 2004 and are Crown copyright, provide a common standard enabling schemes to operate with each other. Consumers can thus benefit from a more consistent interface to public transport and the ability to use one card across many different transport operators and schemes in the UK.

Local transport authorities in England are able to decide whether to introduce smart card technology on buses, trams and metro systems. The second edition of the Department for Transport's guidance on local transport plans stipulates that the eGIF standards, in which ITSO is a recommended standard, shall be used for smart card procurements.

The Department is currently consulting on the specifications for a national concessionary bus travel pass for older and disabled people in England. This includes an option to specify, in regulations, that the passes must be in smartcard format and be ITSO compliant. It is a requirement of all new rail franchises that a percentage of tickets sold must meet the ITSO specification.

FOREIGN AND COMMONWEALTH OFFICE

Ascension Islands: Human Rights

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the United Nations Human Rights Commission on the status of those living on Ascension Island. [150071]

Meg Munn: The Foreign and Commonwealth Office has had no discussions with the United Nations Human Rights Commission on the status of those working and living on Ascension Island. The human rights of those currently on Ascension Island are protected by various human rights instruments which have been extended to the island, including the European convention on human rights. Details of these instruments are available on the FCO website at:

http://www.fco.gov.uk/servlet/Front?pagename=OpenMarket/Xcelerate/ShowPage&c=Page&cid=1013618138395.

Ascension Islands: Pensions

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs how many state pensions were paid to people living on Ascension Island in each year since 1997. [149911]

Meg Munn: Ascension Island has no state pension scheme. The payment of pensions to individuals working and living on Ascension Island is a private matter for those individuals.

Ascension Islands: Politics and Government

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps have been taken to promote democracy since the Ascension Island council elections in May 2007. [149907]

Meg Munn: The election planned for May was not held, as two people only put themselves forward for election to the seven-member council, and that would have resulted in a non-quorate Island Council. During the temporary period of suspension of the Island Council (Ascension) Ordinance 2002, a number of areas of work are being developed to ensure the best prospect of continuation of the democratic process. This includes a programme of information and education on the benefits of a democratic structure of government for Ascension Island to help underline the importance for those working and living there of participating in the decision-making process. Public meetings to discuss issues of importance to the island are being offered and the first of these was hosted on Ascension Island on 28 May by the governor.

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs what the terms of reference are of the Ascension Island advisory council; and if he will make a statement. [149908]

Meg Munn: The purpose of the advisory group is to advise the governor on policies and proposed legislation which impact on the lives of those working and living on Ascension Island. It has no formal executive or legislative power. The formation of the group is an interim measure designed to help ensure continuing good governance of Ascension during the temporary suspension of the Island Council (Ascension) Ordinance 2002.

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with Ascension Island users on the future of the island; and if he will make a statement. [149910]

Meg Munn: Foreign and Commonwealth Office officials in London last met with the employing organisations as a group on 15 January to discuss operational issues relating to Ascension Island. The governor, the administrator and London-based officials have frequent contact with employing organisations and other groups and individuals with an interest in Ascension Island. These meetings cover a

broad range of subjects, including operational and other issues of importance to those working and living on Ascension Island.

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans are being drawn up to hold elections to the island council on Ascension Island in 2008. [150298]

Meg Munn: The governor and his advisers are using the period of the suspension of the Island Council (Ascension) Ordinance 2002 to inform and advise those eligible to vote on Ascension Island of the importance of re-establishing a fully democratic system at the earliest opportunity. The temporary suspension is expected to last for a period of up to 12 months following which the governor intends to be able to call an election. The Government's policy remains to work with the Ascension Island Government towards improving the working and living environment for those on Ascension Island within the current policy framework.

British Overseas Territories: Departmental Responsibilities

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Ministry of Justice on the transfer of responsibility for the overseas territories from his Department; and if he will make a statement. [149913]

Meg Munn: As the Minister responsible for the overseas territories, I can confirm that there has been no discussions with the Ministry of Justice on the transfer of lead responsibility for the overseas territories from the Foreign and Commonwealth Office. Other Government Departments continue to support the overseas territories in their areas of responsibility.

China: Animal Welfare

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Chinese authorities on the animal welfare implications of bear bile farming. [149283]

Meg Munn: The Government remain concerned about animal welfare issues in China, including bear bile farming. We continue to seek to raise our concerns with the Chinese authorities at every appropriate opportunity, including at senior level. Most recently, my hon. Friend the then Parliamentary Under-Secretary of State for the Environment, Food and Rural Affairs (Barry Gardiner) raised bear bile farming with Vice Minister Zhao Xuemin in July 2006. My right hon. Friend the then Minister for Trade, Investment and Foreign Affairs (Mr. McCartney) raised bear bile farming with Chinese Vice Foreign Minister Zhang Yesui, also in July 2006.

Democratic Republic of Congo: Human Rights

Mr. Crabb: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of the Democratic Republic of Congo on the recent murder of the journalist Serge Maheshe to press for a transparent and credible investigation and eventual trial of the perpetrators. [150312]

Meg Munn: Together with European partners in Kinshasa, our ambassador in Kinshasa has publicly condemned Mr. Maheshe's murder. We made it clear to the Congolese Government that the international community was shocked by this incident and demanded that the perpetrators be brought to justice. The trial of Mr. Maheshe's alleged killers is now under way. We continue to monitor its progress.

The Government remain fully committed to the promotion and protection of human rights across the Democratic Republic of Congo. We will continue to press the Congolese authorities on the need to protect the rights of human rights defenders and call for judicial action to be brought against any perpetrators of human rights abuse.

EU Reform: Treaties

Mr. Cash: To ask the Secretary of State for Foreign and Commonwealth Affairs what advice he has received on the legal status of the mandate agreed at the June European Council; and whether the Government are bound by that mandate. [147734]

Mr. Jim Murphy *[holding answer 9 July 2007]:* The Government received legal advice from Government lawyers on all aspects of the mandate for a reform treaty. The mandate is a political commitment by the Governments of member states.

Mr. Cash: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will *(a)* list and *(b)* place in the Library all legal documents agreed at the June European Council. [147735]

Mr. Jim Murphy *[holding answer 9 July 2007]:* No legal documents were agreed at the June European Council. The European Council conclusions and mandate for a reform treaty are political agreements by the Governments of member states. A copy has already been placed in the Library of the House.

Mr. Evans: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 2 July 2007 to the right hon. Member for Birkenhead (Mr. Field), *Official Report*, columns 898-99W, on the European Union: treaties, on what date he expects the white paper to be presented. [148367]

Mr. Jim Murphy: The Government expect to publish a White Paper setting out their approach to the intergovernmental conference (IGC) on the proposed Reform treaty to coincide with the opening of the IGC.

European Council

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs which individuals, other than the then Prime Minister, represented the United Kingdom at the heads of Government Council Meeting of the European Union of 21 and 22 June 2007. [149716]

Mr. Jim Murphy: My right hon. Friend the then Foreign Secretary (Margaret Beckett) also represented the United Kingdom at the European Council.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs when the presidency conclusions of the European Council of 21 and 22 June 2007 (Doc. 11177/07) were agreed by all attending delegations; and when they were received by the Government. [149717]

Mr. Jim Murphy: The presidency conclusions of the European Council were agreed at the Council.

Conclusions for heads of Government to consider were presented by the presidency at the Council.

Iraq: Reconstruction

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department has spent on reconstruction in Iraq in each financial year since 2002-03. [148971]

Dr. Howells: The Foreign and Commonwealth Office's financial contribution to reconstruction in Iraq is made principally through the tri-departmental global conflict prevention pool and the peacekeeping pool, managed jointly with the Department for International Development and Ministry of Defence.

The spend upon Iraq from these pools since 2003 is as follows:

	£
2003-04	4,995,000
2004-05	28,625,000
2005-06	28,442,000
2006-07	40,947,000

We have also contributed to the NATO training mission in Iraq and to the EU Just Lex rule of law mission for Iraq.

NATO

	£
2004-05	173,000
2005-06	250,000

EU Just Lex

	£
2005-06	1,603,000
2006-07	2,277,000

The programmes that the FCO, DFID and MOD fund through the GCPP and the peacekeeping pool aim to build the capacity of the Iraqi Government, including support to the criminal justice system, civil society, human rights and the central Ministries in Baghdad. Spend is higher in 2006-07 than in other years, due to the implementation of a comprehensive programme of work in Basra to address governance, rule of law and security issues. MOD, DFID and FCO agreed to commit an extra £20 million over two years for Basra on top of existing funds.

The NTMI provides leadership training opportunities for the Iraqi security forces. EU Just Lex conducts out of country training for senior Iraqi police, members of the judiciary and penitentiary staff. It has trained over 1,000 officers since its inception in 2005.

Kosovo: Frontiers

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with Prime Minister Ceku of Kosovo on Kosovan claims to Novi, Pazar and Bujanovac in southern Serbia. [149434]

Mr. Jim Murphy: The Kosovo Assembly, in its declaration of 5 April, committed to implementing in full the comprehensive settlement for Kosovo's status proposed by UN special envoy Martti Ahtisaari. The general principles of that settlement state that

> "Kosovo shall have no territorial claims against, and shall seek no union with, any state or part of any state".

In our contacts with Prime Minister Ceku, this issue has not been raised.

Kosovo: Religious Buildings

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs what information his Department has on the number of mosques which have been built in Kosovo since 1991. [149435]

Mr. Jim Murphy: According to figures provided to officials by the head imam of the Kosovo Islamic Union, of the 218 mosques destroyed during the 1990s, 147 have been reconstructed. Twenty seven new mosques have also been built.

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his Saudi counterpart on Saudi Government funding for the construction of mosques in Kosovo. [149436]

Mr. Jim Murphy: My right hon. Friend the Foreign Secretary has not discussed the issue of funding for the construction of mosques in Kosovo with his Saudi counterpart.

Lord Levy

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost to public funds was of the reception held to mark the departure of Lord Levy; and what contribution to the total cost was made by Lord Levy. [150254]

Dr. Howells: I refer the hon. Member to the answer given by my right hon. Friend the then Minister for Europe (Mr. Hoon) to the hon. Member for Angus (Mr. Weir) on 12 June 2007, *Official Report*, column 982W. The final cost was £6,000.

As my right hon. Friend the former Foreign Secretary (Margaret Beckett) was hosting the event, all costs were met by her entertainment budget. My noble Friend Lord Levy did not contribute towards the final cost.

Russia: EU Economic Policy

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has held with his Russian counterpart on plans to bring Russia into closer economic union with the European Union. [149037]

Mr. Jim Murphy: My right hon. Friend the Foreign Secretary has held no discussions with his Russian counterpart, Sergei Lavrov, on bringing Russia into closer economic union with the EU. The UK supports opening talks on a new EU-Russia partnership agreement as soon as possible, which will intensify relations across a range of issues, including economic issues.

St Helena

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs when the new Governor of St. Helena will be *(a)* named and *(b)* in post. [149909]

Meg Munn: The announcement of the appointment of a new governor will be made when all the recruitment procedures have been completed satisfactorily and the appointment has been approved by Her Majesty The Queen and notified formally to the current governor and St. Helena executive council. I hope that this will be achieved in order to allow the new governor to take up their post before the end of 2007.

Uganda: Politics and Government

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the well-being of Forum for Democratic Change members *(a)* James Musinguzi Garuga, *(b)* Dr. Suleiman Kigundu and *(c)* Joseph Musasazi Kifefe; and if he will make a statement. [147840]

Meg Munn: We have not received any specific reports on the well-being of these individuals. However, we continue to raise our concerns about the detention of the alleged members of the People's Redemption Army (PRA) with the Government of Uganda. Most recently, our high commissioner in Kampala raised this with President Museveni on 10 May.

We are aware of reports that Mr. Kifefe has been granted bail due to serious illness, although we cannot confirm this. We will continue to make further representations to the government of Uganda calling for the court proceedings relating to the PRA suspects to be expedited in a fair and just manner.

TREASURY

Commuters: Tees Valley

Ms Dari Taylor: To ask the Chancellor of the Exchequer what recent estimate he has made of the number of people who travel to work each day by *(a)* public transport and *(b)* private transport within and to the sub-region of the Tees Valley. [149964]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 17 July 2007:

As National Statistician and Registrar General for England and Wales I have been asked to reply to your recent question asking what recent estimate has been made of how many people travel to work each day by *(a)* public transport and *(b)* private transport within and to the sub-region of the Tees Valley. (149964)

The number of people using public transport to travel to work to and within the Tees Valley area was 26,557, while those using private transport total 185,515.

Figures are as at 2001 Census Day (29 April 2001) and are extracted from 2001 Census table T10—Theme table on resident, daytime and workplace population.

As "Tees Valley" is not a standard ONS geography, we have taken it to include the Unitary Authorities of:

Darlington

Hartlepool

Middlesbrough

Redcar and Cleveland and

Stockton-on-Tees

The public transport category includes: underground, metro, light rail, tram, train, bus, minibus, coach, taxi or minicab. Private transport includes: car or van driver, passenger in car or van, motorcycle, scooter or moped and bicycle

820 people gave their mode of travel to work as "Other"—this might include, for example, ferry, aeroplane etc.

Delivery Unit

Norman Baker: To ask the Chancellor of the Exchequer what the forward programme of work is of the Prime Minister's delivery unit. [149228]

Andy Burnham: As set out in the written ministerial statement on machinery of government changes of 28 June 2007, the Prime Minister's delivery unit will continue to work on the critical priorities and actions needed to strengthen delivery across Government, and on the reform of key public services, reporting to the Prime Minister and the Chancellor of the Exchequer.

Employment: Lancashire

Mr. Evans: To ask the Chancellor of the Exchequer how many people in Ribble Valley constituency were recorded as being in full-time employment in the financial year ended March *(a)* 1997 and *(b)* 2007. [150260]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 17 July 2007:

As National Statistician, I have been asked to reply to your Parliamentary Questions asking how many people in Ribble Valley constituency were recorded as being in full-time employment in the financial year ended March *(a)* 1997 and *(b)* 2007. (150260)

The Office for National Statistics compiles employment statistics for local areas from the annual local area Labour Force Survey (LFS) and the Annual Population Survey (APS) following International Labour Organisation definitions.

There were 38,000 people, aged 16 and over, in full-time employment, resident in the Ribble Valley constituency, for the 12 months ending February 1997, from the local area LFS. There

were 34,000 people, aged 16 and over, in full-time employment, resident in the Ribble Valley constituency, for the 12 months ending December 2006, from the latest available data from the APS.

As these estimates are for a subset of the population in small geographical areas, they are based on small sample sizes, and are therefore subject to large margins of uncertainty. In this case, the sample sizes are not sufficient to give an accurate estimate of even the direction of the change over the period.

Personal Income

Mr. Meacher: To ask the Chancellor of the Exchequer what percentage of total UK *(a)* income and *(b)* wealth was held by (i) each quintile of the income distribution, (ii) the top 10 per cent., (iii) the top 5 per cent., (iv) the top 1 per cent. and (v) the top 0.1 per cent.; how many persons were in each category; what the lowest level of income and wealth was in each category; and what the levels and percentages were in (A) 1979, (B) 1990, (C) 1997, (D) 2002 and (E) 2007. [149811]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 17 July 2007:

As National Statistician, I have been asked to reply to your recent question asking the Chancellor of the Exchequer, what percentage of total UK (a) income and (b) wealth was held by (i) each quintile of the income distribution, (ii) the top 10 per cent., (iii) the top five per cent., (iv) the top one per cent, and (v) the top 0.1 per cent.; how many persons were in each category; what the lowest level of income and wealth was in each category; and what the levels and percentages were in (A) 1979, (B) 1990, (C) 1997, (D) 2002 and (E) 2007. (149811).

Income

Statistics on household and personal incomes are available from both household surveys and tax records.

The ONS publishes an annual article on 'The effects of taxes and benefits on household income' which is based on data collected in the Expenditure and Food Survey (EPS). The EPS uses an annual sample of approximately 7,000 households in the UK, and provides a comprehensive measurement of all sources of income for private households in the UK. The results are presented for households rather than individuals, and the individuals within each household are assumed to benefit equally from the household's income. While these survey based results provide an accurate picture of the broad distribution of income, because of the relatively small sample size, it is not possible to produce reliable statistics for households at the extremes of the distribution, particularly the top (or bottom) 1 per cent and top (or bottom) 0.1 per cent of households.

Tax records do provide more reliable statistics about the top end of the income distribution. HM Revenue and Custom's Survey of Personal Incomes (SPI) is based on a large sample of tax records and provides a measure of annual income for taxpayers. The survey excludes almost two fifths of adults in the UK who have no income tax liability, and measures individual rather than household income. However, it does provide very good coverage of the top end of the income distribution, since all individuals at the top of the income distribution should be taxpayers.

For these reasons, estimates of income have been provided from both of these sources.

Results for quintile groups and for the top ten per cent have been provided from the ONS's taxes and benefits article (Table 1), while results for the top 5 per cent, top 1 per cent, and top 0.1 per cent have been provided from HMRC's Survey of Personal Incomes (Table 2).

However it should be emphasised that the results from these two sources are not directly comparable because of important differences in concept and coverage. The ONS figures are based on household incomes, and are based on a ranking of households, so in this case the top decile, is the top 10 per cent of households, ranked by household income. The HMRC figures on the other hand, show individual incomes and are based on a ranking of individuals. Furthermore, the ONS's estimates are based on a sample of all private households in the UK, whereas the HMRC figures are only representative of taxpayers. So in this case, the top 1 per cent, is the top 1 per cent of individuals, based on a ranking of taxpayers only.

Table 1 shows the percentage share of total equivalised disposable household income for quintile groups and for the top decile. Also shown are the lower bounds (the percentile points) for these groups (in £ per year), and the number of households per quantile group.

The income quantile groups are determined by ranking households according to their equivalised disposable income. Equivalised incomes are standardised to take into account different sizes and compositions of households. The standard household is deemed to be a two adult household with no children, and so these equivalised incomes can be interpreted as indicating a standard of living that would be achieved by a standard household with that income. Disposable income is gross income from all sources less income tax, national insurance contributions and council tax.

Table 2 shows the percentage share of total income for the top 5 per cent, top 1 per cent, and top 0.1 per cent of individual taxpayers. The figures are shown both before and after deduction of income tax (but without national insurance contributions or council tax deducted), although the ranking of individuals is based on income before tax. Again, percentile points and the number of individuals in each of these groups are also shown.

Both sets of estimates provided here are subject to sampling variation, although the HMRC estimates are based on a very large sample of administrative records (520,000 in 2004/05) and are therefore less subject to sampling variation. For this reason, the income shares in Table 2 are shown to an extra decimal place, while those in Table 1 are rounded to the nearest 1 per cent.

Estimates have been provided for the years closest to those requested, although particularly for 1979, not all estimates are available. The earlier years which are shown in Table 1 are calendar years rather than financial years.

Wealth

Information on the percentage of UK wealth held by those in different income ranges is not available. Although HMRC do produce wealth distribution statistics, the data which underpins these statistics includes no information on income and cannot be combined with other data sources to provide a suitable basis for analysing the relationship between wealth and income. Wealth distribution statistics are published at http://www.hmrc.gov.uk/stats/personal_wealth/menu.htm

The ONS has recently introduced a Household Assets Survey which will measure both income and wealth for UK households. Initial results from the Household Assets Survey are due to be published at the end of this year.

Table 1: percentage shares of total equivalised disposable household income[1,2] by quantile group for all households[3]; and quantile boundaries

	1979	*1990*	*1997-98*	*2002-03*	*2005-06*
Quantile shares (Percentage)

n/a = Not available
[1] Ranked by income before tax.
[2] After tax income is equal to gross income less income tax (but national insurance contributions and council tax are not deducted).
Source:
HMRC, Survey of Personal Incomes

Revenue and Customs: Location

Mr. Paul Murphy: To ask the Chancellor of the Exchequer what account is taken of economic development issues when considering proposals to move HM Revenue and Customs jobs away from objective 1 areas. [150230]

Jane Kennedy: Economic development issues are among a number of factors that will be taken into account in the impact assessments conducted before final decisions are made to close any HM Revenue and Customs office and relocate jobs elsewhere.

Social Security Benefits

Chris Grayling: To ask the Chancellor of the Exchequer what proportion of children live in households where the household income is entirely dependent on benefits. [150055]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 17 July 2007:

As National Statistician, I have been asked to reply to your recent question asking the Chancellor of the Exchequer what proportion of children live in households where the household income is entirely dependent on benefits. (150055).

Statistics on the receipt of benefits are published in the article "The effects of taxes and benefits on household income". The latest article, for the year 2005-06, was published on the National Statistics website on 17 May 2007 at http://www.statistics.gov.uk/taxesbenefits. This annual analysis is based on data from the Expenditure and Food Survey, which is an annual survey of approximately 7,000 households in the UK.

Based on the same survey results used to produce the annual taxes and benefits article, it has been estimated that 11 per cent. of children in the UK live in households where the household income is entirely dependent on benefits.

Stamp Duties: Bexley

Mr. Evennett: To ask the Chancellor of the Exchequer what the average amount of stamp duty paid on housing transactions in the London borough of Bexley was in *(a)* 1997-98 and *(b)* 2006-07. [149452]

Kitty Ussher: Reliable information is not available for 1997-98. Estimates of stamp duty land tax on housing transactions, and numbers of transactions, for each local authority will be published in September for 2006-07.

Sustainable Development

Mr. Bone: To ask the Chancellor of the Exchequer if he will adopt the development of infrastructure in the Government's sustainable development areas as a particular cross-departmental priority issue for driving forward from the centre; and if he will make a statement. [149822]

Angela Eagle: The Government are committed to ensuring that housing growth is accompanied by the social, transport and environmental infrastructure needed to support development, and as such has been conducting a policy review into supporting housing

growth. Further announcements will be made in the forthcoming housing Green Paper and the comprehensive spending review.

Taxation: Domicile

Dr. Cable: To ask the Chancellor of the Exchequer (1) what the change has been in the number of non-domicile tax claimants in the last 12 months; [150074]

(2) how many investigations there have been into claimants of non-domicile status in the last five years; and whether any investigations resulted in claimants being *(a)* fined and *(b)* imprisoned for wrongfully claiming non-domicile status. [150075]

Jane Kennedy: In 2004-05 the number of non-domicile tax claimants was 112,000. This is the latest year for which this information is available.

No information is available on the number of investigations undertaken. In certain cases, where it has been determined that non-domicile status is incorrect, individuals have incurred a penalty as well as any tax due: there is no record of any individual having been imprisoned as a result.

Teenage Pregnancy: North East Region

Mr. Henderson: To ask the Chancellor of the Exchequer what the rate of teenage pregnancies was in *(a)* the Newcastle upon Tyne city authority and *(b)* neighbouring local authorities in the North East region in the last five years. [149849]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 17 July 2007:

As National Statistician I have been asked to reply to your recent question asking what the rate of teenage pregnancies has been in (a) the Newcastle upon Tyne city authority and (b) neighbouring local authorities in the North East region in the last five years. (149849)

ONS does not routinely publish teenage conception figures for girls aged under 20 by local authority areas. Figures are however published for conceptions for girls aged under 18 at local authority level. Figures for Newcastle upon Tyne and neighbouring local authorities are shown in the attached table and these are estimates of the number of conceptions that resulted in a live birth, stillbirth or legal termination. Figures for 2005 are provisional.

Under 18 conceptions: number and rate for Newcastle upon Tyne and neighbouring local authorities in the Tyne and Wear metropolitan county, 2001-05[1]

	2001		2002		2003		2004		2005[1]	
	Number	Rate	Number	Rate	Number	Rate	Number	Rate	Number	Rate
Tyne and Wear	1,072	52	1,128	54	1,176	56	1,088	52	1,042	50
Gateshead	152	42	158	44	175	49	159	45	161	44
Newcastle upon Tyne	267	58	283	60	268	55	283	58	254	52
North Tyneside	190	53	198	55	189	52	187	51	172	47
South Tyneside	168	54	169	52	180	55	165	52	147	48
Sunderland	295	51	320	55	364	63	294	52	308	55

[1] Figures for 2005 are provisional.

Tobacco: Counterfeit Manufacturing

Mr. Breed: To ask the Chancellor of the Exchequer (1) how many tobacco companies employ an anti-counterfeit solution of the kind set out in the voluntary agreement with the tobacco industry as announced in the 2007 Budget; [150426]

(2) what success criteria and targets have been agreed with the tobacco industry for industry performance against the voluntary agreement to introduce a covert anti-counterfeit mark to all UK tobacco products as announced in the 2007 Budget; [150425]

(3) when he expects his Department to review the voluntary agreement made with the tobacco industry on introducing a covert anti-counterfeit mark to all UK tobacco products as announced in the 2007 Budget. [150424]

Angela Eagle: The four largest tobacco manufacturers representing over 97 per cent. of the UK cigarette market intend to introduce the anti-counterfeit security technology.

The voluntary agreement with the tobacco industry will enable enforcement officials to identify counterfeit product quickly and easily.

Time scales for the introduction of the technology have been agreed with the tobacco manufacturers. All cigarette packs intended for the UK duty paid market manufactured from October 2007 will incorporate the technology, and all packs of hand-rolling tobacco manufactured from October 2008, at the latest, will also incorporate the technology.

The results of enforcement activity will be continually monitored by HMRC, to inform understanding of the threat posed by counterfeit penetration in the retail sector, and HMRC will also continue to examine technologies that could help to counter the trade in illicit tobacco products.

Unemployment: Lancashire

Mr. Evans: To ask the Chancellor of the Exchequer how many people in Ribble Valley constituency were not in education, employment or training in the financial year ended March *(a)* 1997 and *(b)* 2007. [150261]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 17 July 2007:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many people in Ribble Valley constituency were not in education, employment or training in the financial year ended March *(a)* 1997 and *(b)* 2007. (150261)

There were 7,000 people of working age, resident in the Ribble Valley constituency, who were not in full-time education, employment or training, for the 12 months ending February 1997, from the annual local area Labour Force Survey. The corresponding figure from the latest Annual Population Survey, for the 12 months ending in December 2006, was 8,000.

Estimates for a subset of the population in a small geographical area, are based on very small sample sizes, and are therefore subject to large margins of uncertainty. In this case, the sample sizes are not sufficient to give an accurate estimate of even the direction of the change over the period.

Welfare Tax Credits: Lancashire

Mr. Evans: To ask the Chancellor of the Exchequer how many people in Ribble Valley constituency received tax credits in each of the last five years. [150262]

Jane Kennedy: I refer the hon. Gentleman to the answer given to the hon. Member for West Lancashire (Rosie Cooper) on 18 June 2007, *Official Report*, column 1502W.

Young People: Gravesham

Mr. Holloway: To ask the Chancellor of the Exchequer how many 16 to 18-year-olds were not in education, employment or training in Gravesham in *(a)* May 1997 and *(b)* May 2007. [150281]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 17 July 2007:

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many 16 to 18 year olds were not in education, employment or training in Gravesham in (a) May 1997 and (b) May 2007. (150281)

The sample sizes, from the annual local area Labour Force Survey for the 12 months ending February 1997, and from the latest Annual Population Survey for the 12 months ending in December 2006, are too small to provide estimates of the numbers of 16 to 18 year olds not in full-time education, employment or training, resident in the Gravesham constituency.

HOME DEPARTMENT

Animal Experiments

Annette Brooke: To ask the Secretary of State for the Home Department (1) what the minimum cage size is for a seven-year-old single rhesus macaque for use in scientific procedures for laboratory experimentation purposes; and for how many hours per day that minimum space is permissible; [149971]

(2) when she expects to announce a revision to the codes of practice to ensure that British laboratories are compliant with the new standards outlined in article 5 (guidelines for accommodation and care of animals) of the European convention for the protection of vertebrate animals used for experiment and other scientific purposes (ETS No. 123); and if she will make a statement; [149972]

(3) whether there are rules governing *(a)* space requirements and *(b)* use of restraints for animals during animal experimentation. [150085]

Meg Hillier *[holding answer 16 July 2007]:* The weight of a seven-year-old rhesus macaque would typically be between 6 and 9kg. For an animal of that weight the Home Office code of practice for the housing and care of animals used in scientific procedures specifies an enclosure with a minimum floor area of 14,000 sq cm and with a height of at least 1.5 metres, if singly housed, and per animal if housed, as is usual, in groups. These minima are often exceeded in practice, particularly if animals have to be singly housed, or if they weigh more than 9kg, for which animals the code of practice gives no specific provision. The code of practice does not specify the time for which access to additional space must be provided. However the majority of primates are kept in grouped housing or, if they have to be singly housed, are allowed access to larger exercise enclosures during the working day.

We aim to publish a revised code of practice to take account of the guidelines set out in the revised appendix A to the Council of Europe convention for the protection of vertebrate animals used for experiment and other scientific purposes (ETS 123) in 2008, after the requirements for consultation and parliamentary scrutiny have been met.

The United Kingdom Government played an active part in producing the revised Council of Europe guidelines and began the process of ensuring their adoption in the United Kingdom well before they were finally agreed in June 2006. Implementation of the guidelines is not dependent on the publication of a revised UK code of practice and is being achieved more quickly and more effectively through the day to day contact between our inspectors and the scientific community.

All animals used in procedures licensed under the Animals (Scientific Procedures) Act 1986 must be housed in accordance within the cage and pen dimensions in the Home Office code of practice for the housing of animals in designated breeding and supplying establishments. Any form of restraint applied for an experimental or other scientific purpose that may cause pain suffering distress or lasting harm may be applied only as part of a programme of work specified in a project licence issued under the Animals (Scientific Procedures) Act 1986. There must be adequate scientific justification for the use of restraint, it must be the least degree of restraint necessary to achieve the scientific objectives and it must be applied for the shortest period of time to achieve those objectives.

Animal Experiments: Laboratories

Annette Brooke: To ask the Secretary of State for the Home Department (1) how many laboratories there were in England and Wales which undertook experimentation on animals in each of the last four years; [149322]

(2) how many inspectors were employed in England and Wales to monitor experimentation on animals in laboratories in each of the last four years. [149323]

Meg Hillier: The operation of the Animals (Scientific Procedures) Act 1986 is a reserved matter and the Home Office implements the legislation throughout England, Scotland and Wales.

The total number of places in England and Wales designated as user, breeding and/or supplying establishments under the 1986 Act at 31 December in each of the last four years was:

	Number
2006	178
2005	183
2004	193
2003	197

Under the 1986 Act, the animals scientific procedures inspectorate is a national body with responsibilities throughout England, Scotland and Wales, and no inspectors are appointed solely with respect to the operation of the legislation in England and Wales. However, we estimate that the number of inspectors whose working time was devoted to establishments in England and Wales in each of the last four years was:

	Number
2001	22.75
2005	22.75
2004	24.75
2003	22.25

Detailed information about the work of the inspectorate is provided in the ASPI annual reports for 2004 and 2005, copies of which are in the House Library. These annual reports explain what the inspectors do and how they do it, and provide details of the inspectorate's staffing and structure, ways of working, professional background and skills, and training and development.

Asylum

David Heyes: To ask the Secretary of State for the Home Department pursuant to the answer of 14 June 2007, *Official Report*, column 1221W, on asylum, and the correspondence received by the hon. Member for Ashton under Lyne from the Border and Immigration Agency, how many cases there are of applicants in the category referred to in that correspondence as receiving support and may be given some form of leave to remain; and how many such applications were submitted in each of the last five years. [149071]

Mr. Byrne: Lin Homer, the chief executive of the Border and Immigration Agency, wrote to the chair of the Home Affairs Select Committee on 19 February 2007 about the legacy programme. She explained that once reports can be produced on the programme in which Parliament and the wider public can have suitable confidence, Parliament will be updated accordingly. A copy of this letter has been placed in the Library of the House.

Border and Immigration Agency

Mr. Clappison: To ask the Secretary of State for the Home Department pursuant to the answer of 9 July 2007, *Official Report*, column 1182W, to the hon. Member for Wells (Mr. Heathcoat-Amory) on the Border and Immigration Agency, what steps the Government have taken in respect of the Ramzy case; and when she expects it to be resolved. [149553]

Mr. Byrne: The Government, together with the governments of Lithuania, Portugal and Slovakia, submitted written observations to the European Court of Human Rights in the case of Ramzy *v.* the Netherlands in November 2005. The observations were the same as those submitted in two other cases which raise similar issues, A *v.* the Netherlands and Nassim Saadi *v.* Italy.

The Grand Chamber held an oral hearing in the case of Nassim Saadi *v.* Italy on 11 July 2007, and the UK made an oral submission to the court. The court has given no indication about when it will give judgment in this case or how it proposes to deal with the other two cases.

Children: Protection

Mr. Holloway: To ask the Secretary of State for the Home Department what safeguards are in place to prevent known paedophiles from opening a children's agency specialising in theatre, television and modelling; and if she will make a statement. [148729]

Mr. McFadden: I have been asked to reply.

I refer the hon. Gentleman to my previous answer on 11 July 2007, *Official Report*, column 1546W.

The Safeguarding Vulnerable Groups Act 2006, which will be implemented from Autumn 2008, provides the legislative framework to help prevent unsuitable people from working with children. The Act applies where an individual is undertaking regulated activity, which includes teaching, training, supervising, caring for or offering advice, guidance or instruction to children where it is done frequently or intensively (overnight or on more than two days in a 30-day period). Operating a children's agency would also be included. An individual who is barred under the new scheme will commit an offence if they seek to engage in this activity and an employer will commit an offence if they seek to use such a person.

In addition, those running agencies are required to meet the provisions of the Employment Agencies Act 1973 and associated regulations, which are designed to protect those using the work-finding services they provide.

The regulations provide that agencies which supply individuals to work with or alongside vulnerable persons, including children, must carry out strict checks regarding those individuals which include taking up of independent references. Where agencies supply workers to work with children, these checks would include a Criminal Records Bureau check.

Closed Circuit Television: Garages and Petrol Stations

Margaret Moran: To ask the Secretary of State for the Home Department what discussions she has had with petrol companies on use of CCTV images from petrol station forecourts to assist in the detection of vehicle crime. [149451]

Mr. Coaker: None. The use of CCTV images from petrol station forecourts to assist in the detection of vehicle crime is a matter for agreement between individual police forces and petrol companies as part of locally developed crime reduction strategies.

Departments: Early Retirement

Mr. Jenkins: To ask the Secretary of State for the Home Department how many of her staff took early retirement in the last five years; at what cost; what grades of staff took early retirement; and what percentage of each grade took early retirement. [148811]

Mr. Byrne: There are a number of areas in the Home Office that have run early retirement schemes. Details of staff numbers in each scheme, the grades of staff who took early retirement and the percentage of each grade that took early retirement are not centrally available and could be obtained only at disproportionate cost.

Overall cost figures are available and published in the Home Office consolidated resource accounts. The following table shows the provisions made each year for the full costs of new cases of early departures, since 2002-03.

Final figures for 2006-07 will be published in the Home Office resource accounts, expected in September 2007.

	Total (£000)[1]
2002-03	16,135
2003-04	9,774
2004-05	52,707
2005-06	22,369

[1] Includes totals for the core department, agencies and the 42 local probation boards but not the NDPBs.

Departments: Pay

Mrs. Lait: To ask the Secretary of State for the Home Department how many former employees of her Department are being paid their original salaries after their employment has ended. [149476]

Mr. Byrne: Overpayment information is not held centrally and could be obtained only at disproportionate cost. The Home Office does not knowingly pay salaries to staff who have left the Department. Overpayments do occur from time to time, sometimes as a consequence of payments being made to staff who have left the Department, but efforts are always made to recover them.

Immigration

Mr. Clegg: To ask the Secretary of State for the Home Department how many people were granted leave to remain in the UK through the long-residence concession in each of the last 10 years. [147781]

Jacqui Smith: The latest available statistics on grants of settlement on the basis of long residence for 1996 to 2005 are provided in the following table.

Grants of settlement by selected category of grant, excluding EEA nationals and Switzerland—United Kingdom, 1996-2005

Category of grant	*Number of persons* *Long residency*[1,2]
1996	2,300
1997	1,700
1998	1,900
1999	1,400
2000	3,700
2001	2,255
2002[3]	5,290
2003[4]	9,205
2004[5]	3,005
2005	2,925

[1] Includes persons granted settlement following application under the regularisation scheme for overstayers.
[2] Excludes dependants.
[3] Swiss nationals are excluded from 1 June 2002.
[4] Data from 2003 also exclude dependants of EEA and Swiss nationals in confirmed relationships granted permanent residence.
[5] Includes nationals of Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia before 1 May 2004, but excludes them from this date.
Note: Figures for 2001-05 have been rounded to the nearest five. Figures for 2000 and earlier have been rounded to two significant digits.

Imports: Primates

Mr. Hancock: To ask the Secretary of State for the Home Department whether she *(a)* has renewed and *(b)* intends to renew the approval of Nafovanny in Vietnam to import non-human primates to the UK. [149503]

Meg Hillier: The Animals (Scientific Procedures) Inspectorate visited the Nafovanny centre during April 2007. The present position is that their current period of acceptance has been extended from 31 May 2007 to 31 August 2007 pending consideration of the breeding centre's application to retain acceptance for a further two-year period.

Members: Correspondence

Clare Short: To ask the Secretary of State for the Home Department when her Department will reply to the letters of 24 May and 5 June 2007 from the right hon. Member for Birmingham, Ladywood on behalf of Nazia Saghir (Home Office ref: S1359575/2). [148637]

Mr. Byrne: I wrote to the right hon. Member on 12 July 2007.

Pornography: Children

Tim Loughton: To ask the Secretary of State for the Home Department how many police officers and civilian personnel work in countering computer-based child pornography in each police force in England and Wales. [150326]

Mr. Coaker: Information on how many police officers and civilian personnel work in countering computer-based images of child abuse is not collected centrally. The Home Office does not use the term child pornography.

Yarl's Wood Detention Centre

Mr. Hancock: To ask the Secretary of State for the Home Department how many detainees at Yarl's Wood immigration removal centre received compensation as a result of civil claims in each of the last three years; and if she will give details of each claim. [148929]

Mr. Byrne: The information requested could be obtained by the detailed examination of individual case records only at disproportionate cost.

JUSTICE

Coroners: Armed Forces

Mr. Jim Cunningham: To ask the Secretary of State for Justice what recent progress has been made in concluding inquests for personnel killed on operational duty overseas since 2003. [149465]

Bridget Prentice: I would refer my hon. Friend to the written ministerial statement made on 20 June that gives details of the progress with these inquests. Since 20 June a further eight military inquests and one inquest of a civilian whose body was repatriated via RAF Brize Norton have been held.

Data Protection

Margaret Moran: To ask the Secretary of State for Justice what assessment he has made of the implications of data mashup for data protection. [149440]

Mr. Wills: Data mashing is a term used for taking and combining data from different sources to create new and often innovative services. This is most commonly done with published structured data made available on the world wide web via application programming interfaces, using data and services from providers such as Google, Yahoo and Amazon. Data mashing is the process, the mashup is the product.

In the United Kingdom, all forms of processing personal data are regulated by the Data Protection Act 1998. Although the Act does not refer specifically to data mashing or mashup, its provisions will apply where a website operator in the UK takes legitimate public sources of information about individuals and then publishes a combined version of that information on the internet. In particular the first principle requiring the processing to be fair and lawful will apply.

Departments: Public Transport

Mr. Jenkins: To ask the Secretary of State for Justice what incentives he has considered to encourage staff in his Department to use public transport. [148800]

Maria Eagle: For business journeys, the Ministry of Justice encourages staff to use public transport where practicable. Staff policy for travel and subsistence requires that staff restrict the use of pool cars or private motor vehicles to journeys that cannot be readily made by public transport.

Further assistance and encouragement is provided by the offer of interest-free loans for the purchase of season tickets for travel to work by public transport and for bicycles (including safety equipment) which are available to all employees that have at least two months service. These advances are repayable in equal monthly instalments within the life of the ticket or over a maximum of 12 months for the purchase of the bicycle. The Ministry also offers;

- reimbursement of a young persons railcard for employees under the age of 24.
- reimbursement of standard public transport fares for new entrants under the age of 21 taking up an initial appointment who have to live away from home because of their workplace.
- three free journeys by public transport to the parental home each year for single employees under 21, who are appointed or transferred from a post where they lived with their parents to a post beyond reasonable travelling distance and who live in lodgings.

In addition, all prisons in England and Wales have travel plans. Each plan covers issues such as staff travel to and from work, car parking on site, car sharing, the use of fleet vehicles and official travelling by staff. While the format of the plans was standardised, the actual plans reflected the different circumstances at each site. Local authorities are now placing increasing emphasis on reducing travel impacts and ask to see copies of prisons' travel plans when considering planning applications for new houseblocks or other major work at existing prisons.

The main London headquarters buildings of the National Offender Management Service and the prison service also have a travel plan. This covers staff travel to work, visitors to Headquarters buildings and delivery and contractors' vehicles and aims to ensure that staff use, wherever, possible, environmentally friendly methods of travelling to work in order to minimise the impact of their travelling arrangements on the environment.

Domestic Violence: Victim Support Schemes

Mr. Drew: To ask the Secretary of State for Justice what training and guidance will be provided for the courts and other organisations on section 1 of the Domestic Violence, Crime and Victims Act 2004. [149425]

Bridget Prentice: Section 1 of the Domestic Violence, Crime and Victims Act 2004 was implemented on 1 July 2007. This inserts a new section 42A into the Family Law Act 1996 that makes the breach of a family non-molestation order a criminal offence punishable by up to five years' imprisonment. Comprehensive training and guidance has been given to court staff and the judiciary. My Department worked with the police, CPS and other agencies preparing training and guidance tailored to their procedures and requirements. Ministry of Justice officials also have spoken at domestic violence events and conferences. My Department has also updated our guidance for court

users "Domestic Violence—A Guide to Civil Remedies and Criminal Sanctions" which outlines the range of options available to victims of domestic violence. This is now available in English, Welsh and eight other languages.

Employment Tribunals Service: Compensation

Bob Spink: To ask the Secretary of State for Justice what advice has been given to the chairmen of employment tribunals on *(a)* the awarding of costs and *(b)* the calculation of costs to be awarded to the successful party; and if he will make a statement. [149963]

Bridget Prentice: The Employment Tribunals (Constitution and Rules of Procedures) Regulations 2004 provide a power for employment tribunal chairmen to order the payment in respect of the costs incurred by another party in bringing or defending an employment tribunal claim. They currently limit any award to a maximum of 10,000.

No guidance has been given by the Lord Chancellor and Secretary of State for Justice to employment tribunal chairmen on when to award costs or on how any cost awards should be calculated.

Employment tribunal chairmen are independent members of the judiciary and it would not be appropriate for Ministers to give guidance on when they should use these powers or on the level of award made.

Family Courts: Fees and Charges

Tim Loughton: To ask the Secretary of State for Justice what assessment he has made of the likely effect of the introduction of fixed fees for family work on the number of family cases represented in financial year 2007-08. [149748]

Maria Eagle: The final family fee schemes, published on 22 June by the Legal Services Commission, and due to be implemented on 1 October, were accompanied by a full regulatory impact assessment. No cuts are being made to family legal aid as a result of the introduction of new fee schemes, and the LSC is not expecting a drop in the number of clients helped in 2007-08, or in future years, as a result of the new fee schemes.

Nearly 800,000 people were helped with civil and family legal help (excluding asylum and immigration) in 2006-07, compared with 595,000 in 2004-05, and the LSC aims to increase this by a further 50,000 in 2007-08.

Judiciary: Public Appointments

Mark Pritchard: To ask the Secretary of State for Justice what discussions he has had with the Bar Council on increasing the number of judicial appointments from people with state educational backgrounds. [149482]

Mr. Straw: None yet, but Ministers and I hope to meet the Bar Council in due course. The Judicial Appointments Commission, a non-departmental public body, has, since its launch in April 2006, responsibility for the selection of judges for appointment to courts and tribunals. One of its statutory duties is to encourage diversity in the range of persons available for selection for appointment. In line with this obligation, the commission has had discussions with the Bar Council about how best to attract greater numbers of eligible candidates from under represented groups generally.

Promoting judicial service, widening the range of people eligible for judicial office and encouraging a broader range of applicants all form part of the judicial diversity strategy, for which the Ministry of Justice, Judicial Appointments Commission and judiciary are jointly responsible.

Offenders: Deportation

Mr. Spellar: To ask the Secretary of State for Justice what progress he is making on reaching deportation agreements with the top five countries with the most nationals in British prisons. [149922]

Maria Eagle: Jamaica, Nigeria, Pakistan, Somalia, and Iraq represent the top five countries in terms of the number of their nationals held in prison here with which the United Kingdom does not yet have a prisoner transfer agreement in place.

A limited prisoner transfer agreement between the United Kingdom and Jamaica was signed on 26 June 2007. It will not come into force until both countries have completed their respective domestic constitutional procedures. Negotiations with Nigeria are ongoing. We are pressing the Nigerians authorities to conclude the negotiations as quickly as possible. An agreement with Pakistan has been concluded and will be signed shortly. The agreement is subject to ratification and will not come into effect until both countries have completed their domestic ratification procedures. Because of the domestic situation in both Somalia and Iraq no negotiations on a prisoner transfer agreement are likely in the near future.

Prisoners Release

Mrs. Dorries: To ask the Secretary of State for Justice how many prisoners have been released early from prisons in each month since January 2007; and if he will make a statement. [149550]

Mr. Hanson: Figures showing the numbers of releases under the home detention curfew scheme and on parole in the period January to June 2007 can be found in the following table:

Releases between January and June 2007 on home detention curfew and parole

	Home detention curfew	*Parole*
January	947	209
February	917	199
March	981	209
April	900	203
May	997	203
June	980	[1]

[1] Data not yet available

Additionally, there were 1,701 releases between 29 June 2007 and 5 July, under the end of custody licence scheme.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Mrs. Dorries: To ask the Secretary of State for Justice how many prisoners released early from HM prisons have been recalled; and if he will make a statement. [149555]

Mr. Hanson: As at 5 July, the Ministry of Justice had been notified of 30 out of 1,701 offenders (1.76 per cent.) released under the end of custody licence as having been subsequently recalled to custody from that licence.

Information on end of custody licence, including recalls, will be placed in the Library on a monthly basis.

Prisoners' Release

John Bercow: To ask the Secretary of State for Justice what assessment he has made of the impact of the prisoner early release programme upon *(a)* the ability of the prison service to meet individual prisoner's resettlement needs, *(b)* prisoner rehabilitation, *(c)* recidivism and *(d)* the ability of the probation service to meet the needs of individuals. [149792]

Mr. Hanson: Prisoners released on the end of custody licence are subject to normal sentence planning and resettlement activities, including offending behaviour programmes and interventions, undertaken by offenders across the prison estate from the start of sentence. On release, they are eligible to receive subsistence payments and housing costs to meet essential needs in lieu of benefits during the licence period.

Release on an ECL allows prisoners to start the process of looking for gainful employment, to undertake training and provides an opportunity to re-establish links with family and the local community.

The ECL will be monitored closely. Information on it, including prisoners notified to the National Offender Management Service as having re-offended during the period on ECL, will be placed in the Library on a monthly basis. Additional funding has been made available to probation services for ECL and the level of resources needed will be kept under review.

Prisoners: Ambulance Services

Mr. Evans: To ask the Secretary of State for Justice how many prisoners have been transported to hospital from *(a)* all prisons and *(b)* high security prisons in each of the last five years; and at what cost. [150259]

Maria Eagle: Transport of prisoners to hospital from all prison, including high security prisons, are arranged by establishments and records of such moves and costs are not held centrally and could be collated from each establishment only at disproportionate cost.

Prisoners: Females

Mr. Heath: To ask the Secretary of State for Justice what plans he has to build local secure units for female prisoners as proposed in the Corston review. [150141]

Mr. Hanson: The Government have given a broad welcome to the report. The 43 recommendations which it makes are wide-ranging and propose action by a number of different Government Departments and organisations. We are carefully exploring the recommendations with all the Departments and agencies concerned and will develop a detailed response by late autumn.

Prisoners: Sentencing

Nick Herbert: To ask the Secretary of State for Justice how many prisoners are on indeterminate sentences for public protection with tariffs of *(a)* less than three years, *(b)* between three and five years, *(c)* between five and 10 years and *(d)* more than 10 years. [150497]

Mr. Hanson: Figures relating to the lengths of tariffs on prisoners serving indeterminate sentences in all prison establishments in England and Wales as at the end of March 2006 can be found in the following table:

Number of IPPs by length of tariff

Months	*Total*
1-18	147
19-36	326
37-48	107
49-60	46
61-120	53
121+	4
Not recorded	24
Total	706

This table is taken from table 11.2 in the offender management caseload statistics 2005, a copy of which can be found in the House of Commons Library.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Nick Herbert: To ask the Secretary of State for Justice what plans he has to review the operation of indeterminate sentences for public protection; and if he will make a statement. [150499]

Mr. Hanson: The Government keep all sentencing policy under constant review.

Nick Herbert: To ask the Secretary of State for Justice (1) how many prisoners on indeterminate sentences for public protection have been released after serving more than their minimum tariff; and in how many of those cases the assessment of their danger to the public was carried out *(a)* before and *(b)* after completion of their minimum tariff; [150502]

(2) how many prisoners on indeterminate sentences for public protection have been released since 2004; and how many had served *(a)* less than one year, *(b)* between one and two years, *(c)* between two and three years and *(d)* more than three years; [150498]

(3) how many prisoners serving indeterminate sentences for public protection released on licence have *(a)* been returned to prison and *(b)* been convicted for offences while on licence. [150500]

Mr. Hanson: No prisoner serving an indeterminate sentence may be considered for release until they have completed their tariff—that is, the period of imprisonment considered necessary to meet the requirements of retribution and deterrence. The Parole Board may direct a tariff-expired indeterminate sentence prisoner's release only if it is satisfied that it is no longer necessary for the protection of the public that the prisoner should be confined.

As at 16 July 2007, seven prisoners serving indeterminate sentences of imprisonment for public protection (IPP) have been released on the direction of the Parole Board. Six of these offenders were released after the tariff period had expired. In each of these cases, the Parole Board hearing to assess the offender's risk of harm took place after the relevant tariff expiry date. In the seventh case, the prisoner was released before tariff-expiry on compassionate grounds due to ill health and has since died.

Two of the six offenders had their sentences quashed following their release. Of the remaining four, none has been recalled to custody or been convicted of any further offences.

The following table shows the time served in custody before release in the six cases referred to above:

Time served	*Number of cases*
Less than 1 year	2
1-2 years	4
2-3 years	0
More than 3 years	0

Prisons

Mr. Heath: To ask the Secretary of State for Justice what his most recent projections are of the *(a)* uncrowded and *(b)* maximum capacity of prisons in each of the next five years. [150136]

Mr. Hanson: The National Offender Management Service undertakes a rolling programme of refurbishment on the prison estate. As schemes come back into use following refurbishment, other schemes are taken forward and the accommodation is taken out of use.

Eight thousand new prison places were announced by the Home Secretary in July 2006 and a further 1,500 places by the Lord Chancellor on 19 June. The programme is still in the planning stages and the number of places to be provided beyond 2007 has not been finalised.

Mr. Heath: To ask the Secretary of State for Justice what provision has been made in his Department's budgets for capital works on the prison estate in 2007-08, broken down by *(a)* refurbishment, *(b)* newbuild on existing prison sites and *(c)* newbuild sites. [150143]

Mr. Hanson: The total capital budget for prison capacity in 2007-08 is £475 million. This is broken down as follows:

(a) Refurbishment: £190 million;

(b) New build on existing prison sites: £257 million;

(c) New prisons: £28 million.

Prisons: Drugs

Mrs. Gillan: To ask the Secretary of State for Justice whether the 12-step drug rehabilitation programme will continue in the prisons other than Swansea which operate the scheme. [149535]

Mr. Hanson: The 12-step programme is an integral part of the range of intensive accredited drug treatment programmes available in prisons. The 12-step programme at HMP The Verne has now ceased and the funding has been moved to HMP Dartmoor, where the programme will start shortly. There are currently no further plans to withdraw the programme from any other establishment where it is being delivered.

Mrs. Gillan: To ask the Secretary of State for Justice what the cost per head is of the replacement drug rehabilitation programme to be introduced in Swansea prison from November 2007. [149536]

Mr. Hanson: There are currently no plans to introduce a replacement drug rehabilitation programme at HMP Swansea.

Mrs. Gillan: To ask the Secretary of State for Justice how many prisoners who completed or commenced the 12 step drug rehabilitation programme in Swansea prison have been charged with further drug-related offences after their release from prison. [149537]

Mr. Hanson: The information requested is not available. There is no effective tracking mechanism in place. The tracking of an individual who has engaged with treatment interventions and subsequently went on to re-offend would involve the use of the police national computer and this would constitute a breach of confidentiality.

Mrs. Gillan: To ask the Secretary of State for Justice what the cost per prisoner is of the 12-step drug rehabilitation programme in Swansea prison. [149538]

Mr. Hanson: The cost of running the 12 Step Programme at HMP Swansea is subject to conditions of commercial confidentiality.

Mrs. Gillan: To ask the Secretary of State for Justice how many prisoners who commenced the 12-step drug rehabilitation programme in Swansea were released early before the end of their sentence. [149539]

Mr. Hanson: In 2006-07—the latest period for which figures are available—no prisoners released early from HMP Swansea had commenced the 12-step programme.

Mrs. Gillan: To ask the Secretary of State for Justice how many prisoners have started the 12-step drug rehabilitation programme in Swansea prison since its introduction; and how many have completed the programme. [149540]

Mr. Hanson: The following table shows, the number of prisoners starting and completing the 12-step programme at HMP Swansea.

	Starts	Completions
2004-05[1]	34	7
2005-06	31	11
2006-07	32	17

[1] Data available from August 2004. Programme commenced in 2001

Mrs. Gillan: To ask the Secretary of State for Justice if his Department will publish the assessment of the efficacy of the 12-step drug rehabilitation scheme at Swansea prison. [149541]

Mr. Hanson: Published research shows that prisoners who completed a 12-step programme had significantly lower rates of reconviction after two years—down 11per cent.—provided effective treatment was continued on release. Efficacy is also determined by the quality of local delivery. Audit conducted locally, shows over the past three years, a marked decline in the quality of delivery of the 12-step programme at HMP Swansea.

Secure Training Centres

Ms Keeble: To ask the Secretary of State for Justice if he will place in the Library the reports of the Home Department monitors in each secure training centre. [149957]

Mr. Hanson: Monitoring reports are operational documents, the purpose of which is to enable the Youth Justice Board to track and improve performance. They contain detailed information about young people that has been provided in confidence. Placing them in the public domain could adversely affect the board's ability to monitor the running of secure training centres.

Secure Training Centres: Restraint Techniques

Ms Keeble: To ask the Secretary of State for Justice on how many occasions handcuffs were used on trainees in each secure training centre in each of the last three years. [149859]

Mr. Hanson: I refer my hon. Friend to the answer given by my hon. Friend the Parliamentary Under-Secretary for the Home Department on 19 February 2007, *Official Report*, column 338W. Complete data are not available before 2006.

Tribunals

Bob Spink: To ask the Secretary of State for Justice in what proportion of employment tribunal cases the chairman awarded costs to the claimant in the last period for which figures are available; and if he will make a statement. [149920]

Bridget Prentice: In 2005-06, there were 148 cases in which a claimant was awarded costs by an employment tribunal. This represents 0.66 per cent. of all cases disposed of at a hearing.

Wellingborough Prison

Mr. Bone: To ask the Secretary of State for Justice what plans there are to extend the capacity of HM prison Wellingborough; and if he will make a statement. [150307]

Mr. Hanson: There are no firm plans at present to increase the capacity of HMP Wellingborough. However, the National Offender Management Service is considering the potential to build around 50 to 60 additional places at the prison. These proposals do not form part of the current capacity building programme and the development of plans to increase capacity at HMP Wellingborough would be discussed in full with local planners.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Bankruptcy

Miss Begg: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many homes were sold in creditor bankruptcy cases in each year since the implementation of the Enterprise Act 2002. [149507]

Mr. McFadden: The Insolvency Service does not hold this information as the realisation of bankrupts' interest in properties is generally undertaken by an insolvency practitioner acting as trustee rather than the Official Receiver. However, as part of the evaluation of the Enterprise Act 2002, the Insolvency Service is collecting information on property realisations in a sample of all bankruptcy cases in England and Wales. This study is ongoing and the final results will be published in autumn 2007. Interim reports are available on the Insolvency Service website at:

www.insolvency.gsi.gov.uk

Miss Begg: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what information services are available to individuals to help them decide which course of action to pursue when they have been made bankrupt. [149508]

Mr. McFadden: Once an individual is made bankrupt in England and Wales they are subject to the bankruptcy provisions in the Insolvency Act 1986. All bankrupts are interviewed by a member of the Insolvency Service.

All bankrupts are given or sent a copy of the Insolvency Service "Guide to Bankruptcy", which includes alternatives to bankruptcy.

The Insolvency Service produces a wide range of leaflets which are available in both paper form and on its website at www.insolvency.gov.uk. Those leaflets cover matters directly relating to the bankruptcy process, the consequences of bankruptcy and information on alternatives to bankruptcy.

Miss Begg: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what responsibilities the Official Receiver has to make clear to individuals the different options open to them in bankruptcy; and if he will make a statement. [149509]

Mr. McFadden: The responsibilities and duties of the Official Receiver are set out in the Insolvency Act 1986, which extends to England and Wales.

While there is no statutory duty on the Official Receiver to provide details of the different options available to bankrupts, all are given or sent the

Insolvency Service "Guide to Bankruptcy", which includes information on alternatives to bankruptcy. In addition, leaflets informing bankrupts of their options are available in paper form and on the Insolvency Service website:

www.insolvency.gov.uk/

The "Guide to Bankruptcy" covers the possibility of a fast track voluntary arrangement. A leaflet on FTVAs is also available in paper form or from the Insolvency Service website.

Consumer Goods: Animal Experiments

Mr. Ellwood: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what information is available to consumers for them to determine whether products on sale have been subject to animal testing. [148986]

Mr. Thomas *[holding answer 12 July 2007]:* Cosmetic products covered by the Cosmetic Products (Safety) Regulations 2004 (as amended), which implement the EU directive on cosmetic product safety, give manufacturers the choice of whether or not to make a claim about animal testing on their products. In practice most cosmetic product manufacturers do not make claims, and those that do make claims about no animal testing having been carried out on the product or its ingredients.

Departmental Responsibilities

Charles Hendry: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what his Department's responsibilities are for technology. [148749]

Mr. Timms: The Department for Business, Enterprise and Regulatory Reform will lead work to create the conditions for business success. This includes liaising closely with the Department for Innovation, Universities and Skills, which now leads on technological innovation and research. The Department will address market and regulatory issues to ensure that business can take full advantage of technological developments and enable it to compete successfully in the global economy.

Departments: Aviation

Mr. Prisk: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many flights to overseas destinations were taken by employees of UK Trade and Investment in the last three calendar years; and what the total cost was of such flights. [148355]

Mr. Thomas: UK Trade and Investment has no direct employees of its own and draws mainly on staff from the Department for Business, Enterprise and Regulatory Reform and from the Foreign and Commonwealth Office. The information requested is not readily available centrally, and to collect it would involve disproportionate cost.

Departments: Disciplinary Proceedings

David Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many people in his Department have been *(a)* disciplined and *(b)* dismissed for (i) inappropriate use of the internet while at work and (ii) using work telephones to access premium rate telephone numbers in the last 12 months. [149183]

Mr. Thomas: In the former Department of Trade and Industry, 12 staff were disciplined and five staff dismissed for inappropriate use of the internet while at work in the last 12 months.

Furthermore, no members of staff in the former Department of Trade and Industry were disciplined for using work telephones to access premium rate telephone numbers in the last 12 months.

Departments: Domestic Visits

Mr. Atkinson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what role his private office played in organising his visit to NETpark, Sedgefield, County Durham and other destinations in the north-east; whether officials from his Department accompanied him on the visit; and what the cost was to his Department of the visit. [150306]

Mr. Thomas: The visit to NETpark was organised and funded by the Labour party. The Secretary of State's private office arranged a fact finding visit to Sheffield to study the impact of flooding on local businesses followed by a visit to Newcastle for a meeting with the chair of One North East. The Secretary of State was accompanied by one of his special advisers to enable him to deal with any departmental business unconnected with the political visit.

Departments: Marketing

Susan Kramer: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the cost of setting up his new Department is; and how much has been budgeted for *(a)* fees paid to advisors, *(b)* replacing official stationery and *(c)* other transition costs. [147542]

Mr. Thomas *[holding answer 4 July 2007]:* The costs of setting up the Department of Business, Enterprise and Regulatory Reform are ongoing and the processes will take some time to complete. I will write to the hon. Member setting out the costs once these processes have been completed and place copies of the letter in the Libraries of both Houses.

Mrs. May: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the total cost was of creating signs displaying his Department's name for ministerial offices. [147812]

Mr. Thomas: The Department has incurred no additional costs associated with providing signage for the ministerial Offices as these signs are produced internally and by reusing existing signage.

Mrs. May: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much has been spent on external consultancy fees involved in the *(a)* relocation and *(b)* rebranding of his Department, broken down by (i) company contracted and (ii) services provided. [147814]

Mr. Thomas: The information is as follows.

To date:

No external consultancy fees have been incurred in the relocation of the Department.

Bell Design has been paid £10,563.50 for graphic design services.

Departments: Private Finance Initiative

Mrs. Lait: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the total cost is of all the private finance initiative projects for which his Department has responsibility that have been completed since 1997; and what the projected cost is of such projects that have been commissioned or are under way. [148026]

Mr. Thomas: BERR holds one operational PFI contract, which is with its IT service provider Fujitsu Services. This contract was signed in 1998: it began in 1999 and is due to end in 2014.

Expenditure to date under this contract has been £288.7 million.

Projected expenditure, for the rest of the life of the contract, is expected to be £243.5 million.

Total project cost of this service is expected to be £532.2 million.

Departments: Publicity

David Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the cost effectiveness of advertising commissioned by his Department, including relevant campaigns commissioned by its predecessor in the last 12 months. [148503]

Mr. Thomas: The former Department of Trade and Industry commissioned a limited amount of advertising in the financial year to March 2007 via the Central Office of Information. This comprised the following:

classified recruitment advertising for the Small Business Service;

online advertising about the national minimum wage, targeting young people; and

press and online advertising about the NMW, targeting migrant workers.

The cost effectiveness of the advertising was assessed by the number of responses—for example, cost-per-click in the case of the online advertising targeting young people, and potential audience size as calculated by press circulation and online user figures in the case of the advertising targeting migrant workers.

Details of any other expenditure by the Department is not held centrally and could be provided only at disproportionate cost.

Departments: Racial Harassment

David Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many complaints of racial abuse relating to the staff of *(a)* his Department and *(b)* its predecessor have been (i) investigated and (ii) upheld in the last 12 months. [149261]

Mr. Thomas: There have been no complaints of racial abuse in the Department or its predecessor over the last 12 months.

Departments: Sick Leave

David Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many staff in his Department have taken *(a)* five or more, *(b)* four, *(c)* three and *(d)* two periods of sick leave of less than five days in the last 12 months. [147050]

Mr. Thomas: In the former DTI records show:

Spells of absence of less than 5 days	*Number of staff (DTI HQ, inc SBS and UKTI), 2006-07*
5 or more	135
4	117
3	226
2	447

Departments: Sign Language

Kerry McCarthy: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the merits of providing British sign language videos on his departmental website for the benefit of those whose first language is BSL. [142499]

Mr. Thomas: Resources are currently allocated to a project that will secure accessibility improvements to my Department's website, with the specific aim of ensuring that it meets government accessibility requirements.

My Department has made no assessment of the merits of providing BSL videos on its website.

Electronic Equipment: Recycling

Mr. Hancock: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what in-store facilities are being made available in Hampshire for customers to return white goods under the waste electrical and electronic equipment directive; what his strategy is for increasing such facilities in the county; and if he will make a statement. [148527]

Malcolm Wicks: Detailed figures at a county level are not available, but all retailers of electrical and electronic equipment are obliged to offer in-store take-back if they are not members of the distributor takeback scheme.

Within Hampshire all 26 local authority civic amenity sites have been approved as designated collection facilities and are playing their part in the UK waste electrical and electronic equipment system. Estimates made by Hampshire county council suggest that Hampshire is already diverting an average of 11 kg of waste electrical items per person from landfill.

Employment Tribunals Service: Finance

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the average estimated cost of an employment tribunal case is to *(a)* an employee, *(b)* an employer and *(c)* the state. [148095]

Mr. McFadden: The survey of employment tribunal applications 2003 estimated that the mean paid cost of advice and representation for all applicants was £445, while for those applicants who said they had paid for advice and representation it was £2,493. Mean non-advice related costs of a tribunal case to applicants (travel, communications and loss of earnings) were £4,553.

For all employers, the mean paid costs of advice and representation were £1,491, while for those employers who said they had paid for advice and representation it was £4,362. In addition, employers said they spent an average of 9.8 days (mean) or four days (median) on tribunal cases.

The average cost to the Exchequer of an employment tribunal application is around £606 (based on figures for 2005-06).

Employment: Tribunals

Bob Spink: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will make it his policy to ensure that costs are generally awarded to claimants who are successful in employment tribunal cases against employers. [149962]

Mr. McFadden: Employment tribunals have powers to make cost orders against parties who have acted vexatiously, abusively, disruptively or otherwise unreasonably. Michael Gibbons' review of employment dispute resolution in Great Britain, published on 21 March, made wide-ranging recommendations for changes to the dispute resolution system. The Government are considering the responses to their consultation on the Gibbons proposals, which closed on 20 June, and will publish their response in due course.

Energy Supply: Biofuels

Alan Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much energy installed biomass generation has contributed to UK electricity supply through the national grid in each of the last five years. [148430]

Malcolm Wicks: Biomass, here defined as farm waste, animal waste derived fuel (such as poultry litter and, meat and bone), straw, energy crops, sawdust, wood pellets, olive pellets, sunflower pellets, cereal products, palm oil kernels and nuts, tall oil and municipal solid waste (biodegradable fraction) is estimated to have contributed as follows to electricity supplied through the public electricity distribution systems of the United Kingdom:

	Generation from biomass transferred to the public distribution system (GWh)	*Total electricity supplied (GWh)*	*Biomass as a proportion of supply (percentage)*
2001	1,532	371,187	0.4
2002	1,906	368,979	0.5
2003	2,375	374,469	0.6
2004	2,792	373,401	0.7
2005	4,218	379,485	1.1

Note: These figures are the latest available data and include the contribution of biomass co-fired with fossil fuels.
Source: Digest of UK Energy Statistics, 2006.

Energy Supply: European Union

Miss McIntosh: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent representations he has received on the liberalisation of the energy sector in the EU. [149530]

Malcolm Wicks: Ministers and officials are in regular contact with business and others to discuss further action to liberalise the internal energy market.

Following endorsement by the European Council of the European Commission's strategic energy review of earlier this year, we expect the Commission to bring forward proposals for legislation in the autumn.

Enterprise Act 2002: Insolvency

Dr. Cable: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many *(a)* fast-track voluntary arrangements and *(b)* post-bankruptcy individual voluntary arrangements have been made in each year since the introduction of the Enterprise Act 2002. [148969]

Mr. McFadden: The individual insolvency provisions of the Enterprise Act 2002 came into force on 1 April 2004.

	2004-05	*2005-06*	*2006-07*
Fast track voluntary arrangements	8	9	3
Total number of post-bankruptcy IVAs	135	114	71

EU Law: Recycling

Charles Hendry: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether he has received representations opposing the producer compliance schemes requirement under the waste electrical and electronic equipment directive for all participants to be jointly and severally liable for other businesses within the scheme. [148744]

Malcolm Wicks: The WEEE regulations prevent a producer from being excluded from a scheme part way through a compliance period. Producer compliance schemes have made representations on this in relation to a situation when a producer fails to pay its membership fees and thus the scheme has the obligation but has not received the necessary payments

from the producer to cover the associated costs. However producer compliance schemes are required under the regulations to ensure that they have sufficient resources to fully discharge the obligation of their members. If a producer does not adhere to membership requirements, such as payment of fees etc., the scheme can use existing debt recovery regulations to pursue the producer.

Industrial Diseases: Compensation

Dan Norris: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what total amount has been paid to date to former miners in Wansdyke constituency following claims for compensation for *(a)* respiratory disease and *(b)* vibration white finger. [149903]

Malcolm Wicks: The total amount of compensation paid to former miners and their families in the Wansdyke constituency for chronic obstructive pulmonary disease is £33.5 million, and for vibration white finger is £8,550.

Industrial Relations: Disputes Procedures

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the average time for an employment dispute to be resolved was in the last 12 months. [148459]

Mr. McFadden: Information on the average duration of tribunal cases for the time period in question is not yet available.

Insolvency

Mr. Djanogly: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps are taken by the Official Receiver in creditor bankruptcy cases to assess the return to creditors that would be achieved through *(a)* the appointment of an insolvency practitioner as trustee in bankruptcy and *(b)* a fast track voluntary agreement. [150310]

Mr. McFadden: In all bankruptcy cases the Official Receiver will identify, and establish valuations for, assets in the bankrupt's estate. Where there are sufficient assets to warrant the appointment of an insolvency practitioner as trustee, then a first meeting of creditors is called for creditors to vote for the insolvency practitioner of their choice who will have responsibility for the realisation of assets and distribution of funds to creditors.

In cases where there are no assets, or insufficient assets to attract an insolvency practitioner, the Official Receiver will not call a first meeting of creditors and will be appointed trustee.

Since 2002 the Insolvency Service has had a policy of retaining and dealing with cases where asset realisations are straightforward and creditors have not indicated they wish to appoint an insolvency practitioner. In most cases this provides a higher return to creditors.

All bankrupts are provided with the "Guide to Bankruptcy", which sets out the various alternatives to bankruptcy. If the facts of the case suggest that a fast track voluntary arrangement is appropriate, it will also be discussed with the bankrupt at interview. The key factor in determining whether an FTVA is appropriate is whether the creditors will receive a better return from the FTVA than they could obtain in the bankruptcy.

Mr. Djanogly: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps are taken by the Official Receiver in creditor bankruptcy cases to ensure that the best return to the bankrupt's creditors is achieved. [150311]

Mr. McFadden: In all bankruptcy cases the Official Receiver will identify what assets are comprised in the bankrupt's estate and will obtain third-party verification of the valuations given by the bankrupt.

Where there are sufficient assets to warrant the appointment of an insolvency practitioner as trustee, a first meeting of creditors is called, and the creditors vote for the insolvency practitioner of their choice who is responsible for the realisation of the assets and distribution of funds to creditors.

In cases where there are no or insufficient assets, the Official Receiver will not call a first meeting of creditors and will be appointed as trustee.

Since 2002 The Insolvency Service has had a policy of retaining and dealing with cases where asset realisations are straightforward and creditors have not expressed a wish to appoint an insolvency practitioner. In the majority of cases this provides a greater return for creditors.

In cases where the Official Receiver forms the view that an individual voluntary arrangement or fast track voluntary arrangement would produce a better return to creditors than a bankruptcy, he will inform the bankrupt of these options.

Joint Industry Board for the Electrical Contracting Industry: Arbitration

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what proportion of cases that have gone through the joint industry board for the electrical contracting industry's dispute resolution procedures have been successfully arbitrated. [149474]

Mr. McFadden: The joint industry board for the electrical contracting industry's dispute resolution scheme is voluntary for members of these industries and therefore the hon. Member should consult the scheme's administrators for details of its performance.

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment his Department has made of the joint industry board for the electrical contracting industry's dispute resolution procedures; and if he will make a statement. [149475]

Mr. McFadden: In the light of Michael Gibbons' review and the Government's consultation 'Resolving Disputes in the Workplace', the Government are considering a broad spectrum of approaches to resolving work place disputes, including those procedures currently

operated by the joint industry board. The consultation closed on 20 June and the Government will publish their response and proposals for the way forward in the autumn.

Manpower: Renewable Energy

Alan Simpson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate his Department has made of levels of employment in the UK renewable energy sector in each of the last five years. [148428]

Malcolm Wicks: The Department does not make annual estimates as to the number of people employed within the renewable energy sector.

The latest year for which we have an estimate is 2004, which indicated that the renewable energy sector, in that year, generated around 8,000 UK jobs.

Oil

John Hemming: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether the Government plan to review their estimate of when global oil supply will peak following the recent medium term oil market report published by the International Energy Agency; and if he will make a statement on global oil supplies. [149511]

Malcolm Wicks: Although the IEA's July 2007 medium-term oil market report has revised downwards projections for future global oil production capacity, it nevertheless still sees total capacity increasing by around 10 per cent. between 2007 and 2012 and remaining above demand. Moreover, the report also notes that:

"While hydrocarbon resources are finite, nonetheless issues of access to reserves, prevailing investment regime and availability of upstream infrastructure and capital seem greater barriers to medium-term growth than limits to the resource base itself."

The IEA report therefore supports the approach set out in chapter 1 of the 2007 energy White Paper: that the key challenge is not one of insufficient global oil resources, but rather one of promoting—domestically and internationally—more investment across the energy sector and also improvements in energy efficiency.

Parental Leave: Low Incomes

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate his Department has made of the length of *(a)* paternity leave and *(b)* maternity leave taken by people from low-income families in the last period for which figures are available; and if he will make a statement. [148696]

Mr. McFadden: The most recent data available on take-up of maternity and paternity leave is from the Maternity and Paternity Rights and Benefits: Survey of Parents 2005. The report of findings is available at the House of Commons Library and at www.berr.gov.uk/files/file27446.pdf. Statistics in this report are based on responses from a sample of mothers and fathers who had a child in December 2003 who were surveyed approximately 17 months after the child's birth.

Estimates of duration of paternity leave and maternity leave have not been analysed for low-income families.

Duration of paternity leave has been analysed by fathers' income. The following table, an excerpt of table 9.1 in the cited report, shows duration of paternity leave split by fathers' income (figures are percentages).

Income (£l month)	*No paternity leave*	*Less than two weeks*	*Two weeks*	*More than two weeks*
0 to 999	34	27	28	11
1,000 to 1,999	16	32	37	15
2,000 to 2,999	22	37	31	11
3,000 +	21	35	36	9

Duration of maternity leave has been analysed by mothers' income. Table 3.1a of the cited report, shows duration of maternity leave, paid and unpaid, split by hourly pay band. Analysis of this data is presented on pages 28 to 29 of the cited report.

Income (£/hour)	*Less than 26 weeks maternity leave*	*26 weeks maternity leave*	*27 to 51 weeks maternity leave*	*52 weeks + maternity leave*
0 to five	14	64	11	10
Six to eight	10	57	18	14
Nine to 11	12	42	24	21
12 to 14	14	33	35	17
15 to 19	17	32	32	19
20 +	19	30	30	21

Renewables Obligation

Lynne Jones: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the annual cost was of the renewables obligation to the average household in 2006; and what the projected cost is of the obligation to the average household by 2010. [148559]

Malcolm Wicks: Ofgem has calculated the annual cost to the average household in 2006-07 to be £7.35. This is projected to rise to £11.41 by 2010-11 at 2006 prices.

Lynne Jones: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what his estimate is of the increase in renewable energy generation since the implementation of the renewables obligation; what the average cost has been per household *(a)* in total and *(b)* per kilowatt hour generated; and what estimate he has made of the cost of delivering the same increase through different feed in tariff mechanisms. [148724]

Malcolm Wicks: According to the digest of United Kingdom energy statistics 2006, renewables electricity generation from RO-eligible sources has increased from 5.75 TWh in 2002 to 13.17 TWh in 2005.

Ofgem has calculated the cumulative cost of the RO from 2002-03 to 2005-06 (the last date for which figures are currently available) to consumers to be £21.81 per household (in 2002 prices).

Ofgem has also calculated the overall UK price per kWh of electricity generated by the RO. Between 2002-03 and 2005-06 it fell from 5.1 pence per kWh to 3.9 pence per kWh.

As we have said in the "Meeting the Energy Challenge",

"while a number of other EU member states have used mechanisms such as feed-in tariffs, it is hard to draw firm conclusions as to the effectiveness of these mechanisms from international comparisons, as other forms of support also vary".

World War II: Medals

Mr. Beith: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will make Bevin Boy badges available to the *(a)* widows and *(b)* children of those who qualified for it but have died. [147415]

Malcolm Wicks *[holding answer 3 July 2007]:* As with other veteran badges, the Bevin Boys badge is a survivors badge and it is intended that it can be worn in public by Bevin Boys to raise awareness of the important role they played during World War II and in the post-war reconstruction of the UK. However, as it is anticipated that the application form will not be launched before October this year, it is proposed that applications will be accepted from the widows of Bevin Boys who died on or after 20 June 2007, when the badge was announced, where a death and marriage certificate are attached to the application. Precise details will be announced when the application form is released.

CHILDREN, SCHOOLS AND FAMILIES

Academies

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what freedoms are available to academies that are not automatically available to local authority schools; and if he will make a statement. [149861]

Jim Knight: Academies have a range of freedoms that are not automatically available to local authority schools.

These freedoms include:

Freedom to establish their own pay and conditions system for staff, with the exception of those who transfer from the predecessor school under the transfer of undertakings and protection of employment regulations.

A greater degree of flexibility in their curriculum provision than community schools. Following the Secretary of State's statement on 10 July 2007, all future academies will follow the national curriculum programmes of study in the core subjects: English; Science, Maths and ICT. However, academies do not have to follow the national curriculum disapplication procedures.

Greater flexibility over the size and composition of governing bodies. Academy governance is not prescribed in regulations, but the Department does insist on parental and local authority representation in all cases: all academies must have one elected parent and one governor appointed by the local authority. Beyond this, academies are free to determine their own governance arrangements.

Freedom over the length of school days and the number of sessions taught. This allows academies to tailor the school day to target underachievement and raise standards as effectively as possible.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many academies there were in each year since 2000-01; and how many he expects there to be in each year to 2012-13. [149862]

Jim Knight: The Government are committed to opening 400 academies. Details of the number of academies opened and planned to open between 2002 (when the first academy opened) and 2008 are included in the following table. The number of academies that open in subsequent years will depend on the final allocation of the Department's comprehensive spending review settlement. We remain committed to our target of the same 200 academies open for in the pipeline by 2010 as we progress to opening 400 academies.

	Number
2002	3
2003	9
2004	5
2005	10
2006	19
April 2007	1
September 2007	36
2008	50

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the cost has been of each academy built since 2000-01; and what the estimated costs are of each academy so far approved but not completed. [149863]

Jim Knight: There are 27 academies where building work has been completed. The capital cost of each is detailed under the heading 'Completed Costs' in the following chart.

These figures represent the known position as at June 2007 and are subject to change as final accounts have yet to be agreed.

The chart also details the estimated capital cost of other academies where building work has not yet been completed.

	Academy name	*£ million*[1]
	Completed costs	
1	Bexley Business Academy	38.5
2	Walsall City Academy	17.5
3	Greig City Academy	16.5

89	Spires Academy	7.0
90	The Marsh	10.0
91	The Rhodesway Academy	20.0

[1] Rounded to the nearest half million

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what support will be required from local authorities for academies to be approved in future by his Department; and if he will make a statement. [149978]

Jim Knight: The Department will continue to work closely with local authorities, as it does at present, on the development of academy projects and the reorganisation of secondary provision in their areas more generally. We welcome the influence and input of local authorities as partners, co-sponsors and catalysts for change in their local communities.

Academies: General Certificate of Secondary Education

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the *(a)* GCSE results and *(b)* truancy rates were for each academy in each year since 2000; and if he will make a statement. [149892]

Jim Knight: The first academies opened in September 2002, so the first year in which GCSEs were taken by academy pupils was 2003, GCSE results for each academy where pupils have taken GCSEs are provided in tables A and B.

The Department collects information on unauthorised absence rates, and it includes instances of lateness and family holidays that have not been authorised by the school, as well as truancy. Table C shows the unauthorised absence rates for each academy for 2002-03 (the first year in which academies were open and submitted absence data) to 2005-06 (the latest absence data available). Overall, the level of unauthorised absence in academies shows a downward trend.

Table A: Percentage of pupils in academies achieving five A[1]*-C at GCSE*

Academy	Year opened	2003 KS4 results[1]	2004 KS4 results[1]	2005 KS4 results	2006 KS4 results
The Business Academy, Bexley	2002	21.0	34.3	29.1	32.3

Care Proceedings

John McDonnell: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the likely effect of the proposals contained in the public law outline on *(a)* the time taken to complete and *(b)* the costs of cases coming to court. [149701]

Bridget Prentice: I have been asked to reply.

The judiciary are currently seeking views on a revised public law outline, designed to reduce unnecessary delay by providing a more streamlined case management process for public law care cases. The current six case management stages, within the existing case management protocol are reduced to four. The public law outline proposals take forward a key recommendation contained in the "Review of the Child Care Proceedings System in England and Wales", commissioned jointly by the former Department for Constitutional Affairs and the former Department for Education and Skills and published in May 2006. The review's recommendations are intended to achieve better outcomes for children, as well as helping to ensure that resources across the family justice system are used to best effect. Reduction in unnecessary delay together with an increased emphasis on pre-proceedings preparation should contribute to a containment of costs.

Children: Obesity

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many children have been placed on child protection registers due to obesity concerns. [150362]

Beverley Hughes: The information is not available in the form requested.

The latest figures on the numbers and percentage of children subject to child protection plans or placed on the child protection register were published in a statistical first release 045/2006 "Referrals, Assessments and Children and Young People on Child Protection Registers, England—Year ending 31 March 2006" on 16 November 2006. A copy of this release is available on my Department's website:

www.dfes.gov.uk/rsgateway/

The 'Working Together to Safeguard Children: Every Child Matters' guidance published in 2006 by the Government sets out the clear processes to be followed by agencies if there are concerns about a child's welfare. A copy of this document is available from the Library.

Climate Change: Curriculum

Dan Norris: To ask the Secretary of State for Children, Schools and Families what resources have been provided to primary and secondary schools by his Department to ensure improved teaching of issues relating to climate change; and what future such resourcing is planned. [149906]

Jim Knight: In May 2007, DCSF and the Department for Environment, Food and Rural Affairs sent a climate change pack to every secondary school in England. The online teacher guidance accompanying the pack provided material to support the teaching of climate change in geography, science and citizenship. DCSF has also funded a carbon detective kit for pupils aged seven to 14 to help them investigate the sustainability performance of their own school www.carbondetectives.org.uk. The pack and detective kit are part of the wider DCSF sustainable schools programme, which aims to embed sustainability in the curriculum, how schools operate (e.g. reducing energy and water usage) and in their work with the local community:

www.teachernet.gov/uk/sustainableschools

As part of the action plan for geography launched in March 2006, teaching resources are being developed for the new secondary curriculum to be taught in schools from September 2008, and they include modules on climate change. This work will be linked to wider guidance being developed by the Qualifications and Curriculum Authority to support the implementation of the new curriculum.

In addition to work being supported by DCSF, DEFRA has sponsored a number of projects aimed at raising awareness of climate change through the climate challenge fund. Seventeen out of the 83 projects have schools as their main audience or have specifically targeted aspects of their project. These

projects include a wide variety of resources from online tools, workshops for teachers, DVDs, peer to peer education and touring exhibitions:

www.climatechallenge.gov.uk

In the autumn, DCSF will make a sustainable schools teacher resource pack available that will include materials on climate change.

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for Children, Schools and Families what legislative provisions introduced by his Department's predecessor since 1997 have not yet been brought into force. [149564]

Jim Knight: The information requested is as follows:

DCSF Acts still to be implemented in England

School Standards and Framework Act 1998

Section 128 (substitutes new section 18 of Education Act 1996 re financial assistance to non-maintained schools)

Education Act 2002

Sections	
8-10	Exemptions for schools which meet performance criteria
31	Control of school premises
201	Provisions relating to free school lunches/milk for children in funded nursery education outside the maintained school setting

Childcare Act 2006

Sections	
2-5	Improvement of young children's well-being
6-10	Child care
17	Charges
32-38 *	Child care registers and regulation of early years provision
40, 47-51	Early years foundation stage
52-61	Regulation of later years provision for children under eight
65, 76	Voluntary registrations
80, 81	Reports and information
95	Certain institutions not to be regarded as schools

Education and Inspections Act 2006

Sections	
5	School improvement partners (in form only in relation to secondary schools that are not special schools and primary schools which are not special schools and special schools in LEAs listed in the commencement orders)
37	Staff at foundation or voluntary school with religious character
74(1), (2), (3), (5)	Curriculum requirements for key stage 4
75	Modification to Learning and Skills Act 2000 in relation to education and training to satisfy entitlements
77 and Schedule 8	Travel to schools etc: meaning of "eligible child". Partially in force
81	LEAs in England provision of transport for certain adult learners
154	Duty to report on contribution of certain schools to community cohesion

Education and Inspections Act 2006

Sections	
169 to 171	Prohibition in participation in management of independent schools

Children Act 2004

Section 1.8	In force only in so far as it gives authorities the power to appoint an officer (a director if children's services) for the purposes specified in that section
Section 19	Not yet in force
Schedule 2	Not yet in force

Children and Adoption Act 2006

Not yet in force except for section 17 (short title, commencement and extent), *Safeguarding Vulnerable Groups Act 2006*

Departments: Public Expenditure

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of the increase in education spending since May 1997 has been allocated to higher pay, and if he will make a statement. [149204]

Jim Knight: The requested information is not readily available.

Education: Children in Care

Mark Pritchard: To ask the Secretary of State for Children, Schools and Families what measures he has put in place to improve the educational achievements of children in institutional care. [149038]

Jim Knight: Our recently published White Paper "Care Matters: Time for Change" sets out specific proposals to improve the education of all children in care. Most children in care live with foster carers—only 13 per cent. live in children's homes. Our proposals include: a £500 educational allowance for children in care at risk of falling behind at school; putting the 'designated teacher' on a statutory footing to improve the expertise in schools; appointing 'virtual school heads' to oversee their education; improving attendance and reducing exclusions; reducing mobility of school placements, particularly in the crucial years before GCSEs; and a bursary of a minimum of £2,000 for all children in care who go on to university. These proposals build on the measures already in place: a specific duty on local authorities to promote the educational achievement of children in care and a requirement to give them the highest priority in school admission arrangements.

Further Education: Young People

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many young people did not stay on in education and training after age 16 in each of the last five years; and if he will make a statement. [149931]

Jim Knight: The following figures are for individuals at academic age 16[1] who were not in any education or training in the last five years (2002-06).

[1] Academic age is the age of the individual measured at the beginning of the academic year, 31 August. Academic age 16 would be for those individuals in the year following compulsory education.

	End of calendar year				
	2002	2003	2004	2005	2006[1]
Total not in any education or training	85,900	85,100	82,700	74,000	68,500
Percentage of population not in any education or training	13.6	13.1	12.4	11.3	10.3
Population	631,000	647,800	664,800	656,000	662,300

[1] Provisional.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many and what proportion of children did not remain in education after the age of 16 years in each year since 1990-91; and if he will make a statement. [149974]

Jim Knight: The figures provided are for individuals at academic age 16[1] who were not in education or training (NET) in each year from 1990 to 2006. These figures are available in the statistical first release published by the Department (SFR 22/2007).

These NET figures are calculated by subtracting the number of young people estimated to be in education and training from the population; here, education and training covers those in full- or part-time education, work-based learning (including apprenticeships), and those on employer funded or other education and training not otherwise included in the figures.

[1] Academic age is the age of the individual measured at the beginning of the academic year, 31 August. Academic age 16 would be for those individuals in the year following compulsory education.

End of calendar year	Total NET	Percentage NET of the population	16-year-old population
1990	88,000	14.7	599,100
1991	67,000	11.7	573,100
1992	61,500	11.2	550,300
1993	49,900	9.4	531,200
1994a*	50,500	9.3	545,800
1994b*	50,400	9.2	545,800
1995	68,400	11.5	595,000
1996	77,500	12.6	613,600
1997	79,200	13.1	605,900
1998	81,300	13.7	594,500
1999	77,300	12.9	598,800
2000	82,300	13.6	606,700
2001	90,600	14.3	633,500
2002	85,900	13.6	631,600
2003	85,100	13.1	647,800
2004	82,700	12.4	664,800
2005	74,000	11.3	656,000
2006 provisional	68,500	10.3	662,300

The break in the time series in 1994 is due to changes in the source of further and higher education data; additionally overseas higher education students studying in England are included from 1994 onwards.

Literacy: Publishing

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) on what basis publishers are included in the list of publishers and their programmes in the choosing a phonics programme: publishers and their programmes section of his Department's standards site; [149871]

(2) whether he plans to assess the effectiveness of the letters and sounds programme against alternative synthetic phonics programmes; [149872]

(3) whether the letters and sounds programme was piloted prior to its adoption by the primary national strategy; [149873]

(4) what assessment he has made of the effectiveness of the Letters and Sounds programme developed by the PNS; [149874]

(5) what steps his Department is taking to encourage the adoption of effective synthetic phonics programmes in primary schools; [149875]

(6) what assessment he has made of the effectiveness of the phonics programmes listed on the choosing a phonics programme: publishers and their programmes section of his Department's standards site. [149876]

Jim Knight: The Department launched a new phonics area of the standards website in March this year. The website contains published criteria to help schools and early years settings judge how well phonics teaching programmes meet the characteristics of high quality phonic work as defined in Sir Jim Rose's review of the teaching of early reading. To ensure that this process is as easy and useful as possible for schools and settings we have invited publishers of commercial programmes to evaluate their own programme against the criteria and complete a self-assessment form which is then published on the site. This is a purely voluntary process.

The Department does not rank, endorse or promote any particular commercial phonics programme. We have committed to establishing a monitoring process to assess the accuracy of the information provided in the self-evaluation forms. This process is currently being developed and further information about how it will work will be provided on the website.

Letters and Sounds is one of many high quality phonics teaching programmes that meet the core criteria and we are not promoting it as the preferred phonics programme. An early version of the materials was previewed in some local authorities and with practitioners and the feedback was overwhelmingly positive. Letters and Sounds was distributed to all primary schools and local authorities during May and June. It will therefore take some time for the full effects to become known but we are confident that Letters and Sounds will make a significant contribution to improving standards of literacy. Initial feedback from practitioners indicates a very positive response to the materials and we will use this information to further

refine our support for local authorities. The primary national strategy is monitoring and evaluating the effectiveness of Letters and Sounds and Sir Jim Rose has been asked to report back at the end of the year on the implementation of his recommendations, including on Letters and Sounds.

Systematic, high-quality phonics is proven to be the most effective way of teaching children to read and is an integral part of the renewed primary literacy framework and the early years foundation stage. The resources and guidance on the phonics website provide schools and early years settings with the tools they need to make informed decisions about which high quality phonics programme will best suit their needs. The primary national strategy's communication language and literacy development programme, which builds on the successful Early Reading Development Pilot, was developed to implement the recommendations of Sir Jim's review. The programme began in autumn 2006. Through the programme, every local authority now has a local CLLD lead who will work to strengthen leadership and management of early literacy and support all primary schools and early years settings in the use of an effective phonics programme.

Numeracy: Policy

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what *(a)* numeracy and *(b)* literacy strategies have been announced since 1 May 1997; and if he will make a statement. [149932]

Jim Knight: The Government introduced the national literacy strategy in 1998 and the national numeracy strategy in 1999. Both applied to primary schools. The key stage 3 strategy, which covered English, maths, science and ICT, was introduced in phases from 2001. Each of the strategies has been continually updated to reflect best practice through the addition of further support and materials.

In 2006, the primary framework for literacy and mathematics—the core document of the PNS—was revised to raise expectations of progress and implement the recommendations of the Rose review. This was the first time the framework had been updated since the introduction of the national literacy strategy and national numeracy strategy.

Personal Social and Health Education

Mr. Hancock: To ask the Secretary of State for Children, Schools and Families what recent assessment he has made of the standards of sex and relationships education in schools. [149988]

Jim Knight: The Department has not undertaken or commissioned any recent assessment of sex and relationship education in schools. Ofsted is responsible for assessing the quality of schools' provision in the area of personal, social and health education, including SRE, through its inspection framework and subject reports, and last reported on SRE in 'Sex and Relationships Education in Schools' in 2002.

Primary Education: Autism

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number of primary school age children diagnosed with autism. [150342]

Jim Knight: In January 2007 some 18,800 children in maintained primary schools were identified as having an autistic spectrum disorder and provision made for them at the school action plus level of support as set out in the Special Education Needs code of practice or through a statement. Further information on SEN can be found in SFR 20/2007, which is available on the Department's website at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s00732/index.shtml

Primary Education: Children in Care

Mr. Frank Field: To ask the Secretary of State for Children, Schools and Families what proportion of 11-year-old children in care achieved at least level 4 at key stage 2 in the latest period for which figures are available. [149772]

Jim Knight *[holding answer 16 July 2007]:* In 2006, the proportion of children continuously looked after for at least 12 months aged 11 and achieving at least level 4 at key stage 2 for English, maths and science was 43 per cent., 41 per cent. and 57 per cent. respectively[1]. Although educational outcomes for children in care are improving slowly more needs to be done to close the achievement gap compared to all children.

Our White Paper, "Care Matters: Time for Change" describes how we will improve educational outcomes for children in care. Measures include giving all children in care at risk of not meeting expected levels of achievement a personal educational allowance of £500; requiring all schools to have a designated teacher to focus on the learning needs of this vulnerable group and funding 'virtual school heads' to drive up attainment, school attendance and reduce exclusions of children in care. We also intend to legislate so that children in care move schools only in exceptional circumstances, particularly during their GCSE years.

[1] Statistical first release (SFR) 17/2007 "Outcome Indicators for Looked After Children: 12 Months to 30 September 2006, England', www.dfes.gov.uk/rsgateway/.

Primary Education: Curriculum

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will list the curriculum changes in *(a)* primary schools and *(b)* secondary schools since 1 May 1997; and if he will make a statement. [149936]

Jim Knight: A revised curriculum was introduced in 2000. For primary schools the changes were:

the introduction of a statement setting out the rationale for the school curriculum, including its values and aims;

a new general statement on inclusion, setting out the different ways in which teachers should ensure that individuals or

groups of pupils are provided with appropriate opportunities for learning across all national curriculum subjects;

the introduction of revised English programmes of study at key stages 1 and 2 which are aligned with the national literacy strategy 'Framework for Teaching';

the introduction of revised mathematics programmes of study at key stages 1 and 2 which are aligned with the 'Framework for Teaching Mathematics';

the introduction of a non-statutory framework for the teaching of personal, social and health education.

For secondary schools the changes were:

the introduction of a statement setting out the rationale for the school curriculum, including its values and aims;

a new general statement on inclusion, setting out the different ways in which teachers should ensure that individuals or groups of pupils are provided with appropriate opportunities for learning across all national curriculum subjects;

the introduction of citizenship as a subject at key stages 3 and 4;

allowing more flexibility at key stage 4 to enable pupils making significantly less progress than their peers to focus on fewer subjects and allow talented pupils to build on their strengths.

In September 2004, the key stage 4 curriculum was amended to reduce the number of compulsory national curriculum subjects to six: English, mathematics, science, ICT, citizenship and physical education. We also introduced entitlement areas in languages, design and technology, the arts, and humanities.

A review of the secondary curriculum was recently completed and will be rolled out to secondary schools from September 2008. The new secondary curriculum will:

further reduce prescription;

create flexibility for teachers to support pupils who are struggling to master the basic skills of English and mathematics;

free up time and space for greater personalisation of the curriculum, allowing pupils to study some areas in more depth;

increase the emphasis placed on developing personal, learning and thinking skills.

Pupils: Per Capita Costs

Dan Norris: To ask the Secretary of State for Children, Schools and Families what the funding was per *(a)* primary and *(b)* secondary school pupil in the Bath and North East Somerset council area in each year from 1995-96 to 2006-07. [149902]

Jim Knight: The revenue funding figures per pupil aged 3-10 and 11-15 for Bath and North East Somerset local authority for years 1997-98 to 2005-06 are given in the following table. Comparable figures are not available for 1995-96 to 1996-97.

	Primary (3 to 10-year-olds)	*Secondary (11 to 15-year-olds)*
1997-98	2,230	3,020
1998-99	2,350	3,100
1999-2000	2,510	3,260
2000-01	2,710	3,500
2001-02	2,850	3,610
2002-03	2,900	3,680
2003-04	3,070	3,800
2004-05	3,140	3,950
2005-06	3,360	4,140

Notes:
1. Price base: Real terms at 2005-06 prices, based on gross domestic product deflators as at 27 September 2006.
2. Figures reflect relevant sub-blocks of standard spending assessment/education formula spending settlements and exclude the pensions transfer to EFS.
3. Total funding also includes all revenue grants in DCSF departmental expenditure limits relevant to pupils aged 3-10 and 11-15, and exclude education maintenance allowances and grants not allocated at local education authority level
4. The pupil numbers used to convert £ million figures to £ per pupil are those underlying the SSA/EFS settlement calculations plus PLASC 3-year-old maintained pupils and estimated 3 to 4-year-olds funded through state support in maintained and other educational institutions where these are not included in the SSA pupil numbers.
5. Founding: figures are rounded to the nearest £10.
6. Status: some of the grant allocations have not been finalised, if these do change, the effect on the funding figures is expected to be minimal.

The revenue per pupil figures shown in the following table are taken from the dedicated schools grant that was introduced in April 2006. They are in cash terms. They are not comparable with those for the years 1997-98 to 2005-06 because the introduction of the DSG in 2006-07 fundamentally changed how local authorities are funded.

The 1997-98 to 2005-06 figures are based on education formula spending that formed the education part of the local government finance settlement, plus various grants. This was an assessment of what local authorities needed to fund education rather than what they spent. In addition, the DSG has a different coverage to EFS. EFS comprised a schools block and an LEA block (to cover LEA central functions) whereas DSG covers only the school block. LEA block items are still funded through DCLG's local government finance settlement but education items cannot be separately identified. Consequently, there is a break in the Department's time series as the two sets of data are not comparable. An alternative time series is currently under development.

To provide a comparison for 2006-07 DSG, the Department has isolated the schools block equivalent funding in 2005-06; as described above this does not represent the totality of 'education' funding in that year. As the DSG is just a mechanism for distributing funding there is not a primary/secondary split available. The figures are for all funded pupils aged 3-15.

	Figures
2005-06	
DSG baseline plus grants	3,993
2006-07	
DSG plus grants	4,235

Notes:
1.The revenue funding per pupil figures only run to 2005-06 because we cannot provide a consistent time series beyond that year as the introduction of the DSG in 2006-07 fundamentally changed how local authorities are funded. The 1997-98 to 2005-06 figures are based on EFS, which formed the education part of the local government finance settlement, plus various grants. This was an assessment of what local authorities needed to fund education rather than what they spent. In 2006-07 funding for schools changed with the introduction of the DSG which is based largely on an authority's previous spending.
2. In addition, DSG has a different coverage to EFS: EFS comprised a schools block and an LEA block (to cover LEA central functions) whereas DSG only covers the school block. LEA block items are still funded through DCLG's local government finance settlement but education items cannot be separately identified. This means we have a break in our time series as the two sets of data are not comparable, an alternative time series is currently under development.
3. To provide a comparison for 2006-07 DSG, we have isolated the schools block equivalent funding in 2005-06; as described above this does not represent the totality of 'education' funding in that year.
4. Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal.

School Leaving

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the *(a)* costs and *(b)* benefits of raising the education leaving age to 18 years; and if he will make a statement. [149986]

Jim Knight: The estimated costs of raising the participation age are set out in the regulatory impact assessment published alongside the Green Paper on 22 March. This can be accessed at:

http://www.dfes.gov.uk/consultations/downloadableDocs/RIA%20[FINAL]%20word%20version.pdf

I have placed a copy in the Library of the House. We estimate that there will be one-off costs of around £200 million, made up of £80 million for new buildings and facilities, and £120 million for the training of new staff. We estimate that there will be annual costs of around £740 million on top of costs already factored into achieving our existing aspiration of 90 per cent. participation of 17-year-olds by 2015. This is made up of £590 million in additional participation costs, £50 million in additional funding for local authorities (to run the registration system, to provide additional support and guidance, and to enforce the duty), £10 million in enforcement costs and £90 million in additional costs to support those with special educational needs.

Initial analysis suggests that the additional economic benefit to the economy from all young people participating to 18, over and above the current 90 per cent. participation aspiration, is around £1.4 billion for a single cohort of young people (discounted over their lifetime). The likely benefits of raising the participation age are much wider than this, however, as we know those who participate and attain post 16 enjoy better health, better social skills and reduced likelihood of being involved in crime.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number of additional pupils aged over 16 years who will be in *(a)* schools, *(b)* further education colleges and *(c)* other academic and vocational education if the education leaving age is raised to 18; and if he will make a statement. [150242]

Jim Knight: Figure 4.3 of the "Raising Expectations: staying in education and training post-16" Green Paper, shows the number of additional 16 to 17-year-olds we would expect to be participating in each learning setting if we introduce compulsory participation to age 18. The overall population of 16 and 17-year-olds is projected to decrease after 2007/08, so the increases in participation numbers are not as great as they would be without this demographic trend.

The Green Paper can be found at:

http://www.official-documents.gove.uk/document/cm70/7065/7065.pdf

School Sixth Forms

Mr. Brady: To ask the Secretary of State for Children, Schools and Families pursuant to the oral answer of 10 July 2007, on school sixth forms, by which mechanism *(a)* funding for new sixth forms will be routed through local education authorities and *(b)* pupils involved in 14 to 19 programmes in (i) schools and (ii) further education colleges will be funded. [149650]

Jim Knight: Arrangements for the transition of funding for 16 to 18's in school sixth forms and colleges to local authorities, including the mechanisms which will be used to route funds through local authorities to schools, will be subject to consultation to ensure there will be no disruption to schools and colleges and the introduction of diplomas, and subject to the passage of the necessary legislation.

Funding of diplomas at key stage 4 from 2008-09 will be through a new specific formula grant to local authorities, as announced in the written statement on school funding made to Parliament on 25 June.

Schools: Chelmsford

Mr. Burns: To ask the Secretary of State for Children, Schools and Families how many spare places there are for pupils in *(a)* West Chelmsford constituency and *(b)* Chelmsford local authority area in (i) primary and (ii) secondary schools. [149604]

Jim Knight *[holding answer 16 July 2007]:* The Department collects information annually from each local authority on the numbers of surplus school places. The most recent data available is for 2006. The following tables outline the numbers of surplus places in primary and secondary schools within the West Chelmsford parliamentary constituency and the Chelmsford district council area, which falls within Essex local authority area.

Surplus places in primary schools in West Chelmsford in 2006

School name	*Surplus places*

Schools: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) what progress has been made towards the target set in the 2006 Budget to bring state school funding per pupil up to the private school level; and if he will make a statement; [149113]

(2) by what date he expects to reach the target of raising spending on pupils in English state schools to the equivalent level in the private education sector; and if he will make a statement. [149143]

Jim Knight: Total funding per pupil in the maintained sector was £4,800 in 2005-08, compared with our estimate of £8,000 per pupil in the independent sector. As set out in Budget 2006, the Government aim—over time, and adjusting for inflation—to increase levels of funding to that level.

The comprehensive spending review settlement for education announced in Budget 2007 allows the Government to take a significant further step towards this ambition—with total per pupil revenue and capital funding rising from under £2,500 in 1997-98 to £5,550 in 2007-08 and £6,600 in 2010-11. Progress over future spending reviews will depend on the Government's fiscal position; demographic change; and progress by schools in continuing to deliver improvements in results and wider support for parents and pupils.

Schools: Fire Prevention

Dr. Gibson: To ask the Secretary of State for Children, Schools and Families what plans he has to install sprinklers in existing and new-build primary and secondary schools. [150408]

Jim Knight: Our policy is that all new primary and secondary schools will have fire sprinklers installed. The decision should be taken based on a risk analysis. There may be a few cases where new schools are at a low risk of fire and that sprinklers would not represent good value for money. The risk analysis and cost-benefit analysis tools we have recently published to help clients decide whether or not to install sprinkler systems in schools can also be used to determine whether or not an existing school should have sprinklers fitted, as part of a major refurbishment project.

Schools: Further Education

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what plans he has to increase the number of schools with post-16 provision; and if he will make a statement. [149885]

Jim Knight: In the 14-19 education and skills implementation plan published in December 2005, we set out our plans to create 50,000 additional 16-19 school, college and work based learning places by September 2007. We will ensure that in every area, young people have access to high quality post-16 learning opportunities in schools, colleges and work-based learning.

We believe in encouraging successful and popular schools to develop sixth form provision. We have introduced the 'sixth form presumption' that sixth form proposals will be approved from high performing specialist schools that are awarded a vocational specialism, Over three years, we anticipate that this will enable around 60 schools to add new post-16 provision. thirteen schools successfully applied to open sixth form provision in 2006/07 through this route, and a further 27 are eligible to do in 2007/08.

Additional school sixth forms will also be created to meet local need as a result of other proposals from local authorities and schools, through the Academies programme, through local Building Schools for the Future capital investment strategies and as a result of 16-19 competitions (which are run by the Learning and Skills Council where there is a need for substantial new post-16 provision that is not met through an academy or a 'presumption' proposal). In parallel, we have also introduced the 'FE presumption' which encourages high performing colleges to expand to provide additional places for 16 to 19-year-olds.

Schools: Manpower

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many *(a)* teachers, *(b)* pupils, *(c)* teaching assistants and *(d)* support staff there were in English (i) primary schools and (ii) secondary schools in each year since 1996-97, broken down by each local authority area; and if he will make a statement. [149140]

Jim Knight: Information for all the years requested could be provided only at disproportionate cost.

The following tables provide the full-time equivalent number of teachers, pupils, teaching assistants and support staff in local authority maintained nursery/primary and secondary schools for each local authority in England, January 1997 and 2006, the latest information available.

Pupil numbers by local authority and phase are published as national statistics each year and this information for 2006 is available on the Departments website at the following URL:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000682/index.shtml.

Local authority figures for 2007 are likely to be available on 27 September.

School Census

Schools: Rural Areas

Mr. Evans: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number of rural schools that are likely to close in each year to 2015. [150258]

Jim Knight: The Department has not made an estimate of the number of rural schools that are likely to close in each year to 2015. Decisions about school closures are made by the local authority, or schools adjudicator. When considering proposals, local authorities and the schools adjudicator are required to have regard to statutory guidance which contains a presumption against closing rural primary schools. While this does not mean that no rural primary school will ever close, the case for closure must be strong and in the best interests of educational provision in the area.

Local authorities are responsible for the overall planning of school places in their area and we expect them to ensure that school places are where parents want them.

Schools: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the structural changes necessary in the schools system to drive up standards; and if he will make a statement. [149939]

Jim Knight: My right hon. Friend the Secretary of State made a statement to the House on 10 July setting out the Government's plans for raising standards in schools. The Education and Inspections Act 2006 put in place a new framework which will underpin these plans, including the creation of trusts to strengthen the governance of schools and enable schools to forge permanent relationships with external partners. The Act requires local authorities to promote diversity and increase choice, and gives them new powers to commission school places in response to parental demand. Local authorities also have enhanced powers to tackle poorly performing schools. The academies programme will continue to drive up standards in disadvantaged communities.

As my right honourable Friend made clear, the Government's focus is on standards. We are confident that the framework that we have put in place gives schools and local authorities the tools they need to deliver better outcomes for children and families.

Secondary Education: Admissions

Mr. Byers: To ask the Secretary of State for Children, Schools and Families what percentage of parents did not receive their first choice of school on transfer of their child from primary to secondary education, broken down by local education authority, in the last period for which figures are available. [149946]

Jim Knight *[holding answer 16 July 2007]:* The Department does not routinely collate data on preferences met, but did obtain this information from a number of local authorities during March 2007. A copy of the data received will be placed in the House Library.

Outcome of the secondary school admissions process in England for entry in September 2007

Notes:
1. This data was produced as a result of an ad-hoc request, asking local authorities for information on preferences met on national offer date (1 March) i.e. the date on which all offers for entry to secondary school in September 2007 should be sent.
2. As the Department does not specify how this data must be measured and reported, as it is not routinely collected, there are differences in how individual local authorities may have measured preferences met, e.g. most would have measured the proportion of parents living in their area who were offered a place at their first preference of school (regardless of the location of that school); while others measure the proportion of those offered a place at a school in that area for whom it was a first preference (regardless of where the parent resides).
3. The picture in most, if not all, local authority areas would have changed. National offer date is only the beginning of a process. Following receipt of offers of school places, parents have to say if they will accept them. Some will not, e.g. because they have moved away, taken a place at an independent school etc. These places can then be reoffered to other parents, who may be made an improved offer from that sent to them on 1 March. Between offer date and the end of July, many parents also appeal against refusal of places at preferred schools. In 2005-06, 36.4 per cent. of secondary school admission appeals were successful.
Source: Data provided to the DfES during March 2007 (see notes).

Secondary Education: Curriculum

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what evidence the Qualifications and Curriculum Authority had that the new secondary curriculum will be effective; and if he will place in the Library copies of that evidence. [150386]

Jim Knight: The revised curriculum will be effective in providing flexibility for catch-up classes in English and mathematics; effective in providing flexibility to allow pupils to extend and deepen their understanding in areas where they have particular aptitudes and interests; and effective in providing pupils with the personal attributes and practical life skills they will need for success at work and in their daily lives.

The approach taken by the Qualifications and Curriculum Authority in developing the new curriculum builds on evidence from work carried out with schools and colleges going back a number of years. For example, the 'futures in action' programme, which has been running since 2005, has continued to demonstrate a high degree of consensus about many of the characteristics of how the curriculum should be shaped. QCA's work is also supported by the results of its international comparisons and its annual curriculum monitoring programme, which includes interviews and questionnaires with head teachers, deputy heads, teachers and pupils.

It is not practical to collect all of this research evidence, from the UK and abroad, and to place copies of all relevant documents in the Libraries of the House. However, much of this information can be accessed via the QCA's website at:

www.qca.org.uk/curriculum

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families if he will ask the Qualifications and Curriculum Authority to publish the agenda and minutes of the external committee for the secondary curriculum. [150387]

Jim Knight: The Department has no plans to ask the Qualifications and Curriculum Authority to publish the agendas and minutes of its secondary curriculum review external committee.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families on what basis it was decided to separate concepts, processes and knowledge in the revised programmes of study for the national curriculum. [150388]

Jim Knight: The aim of the secondary curriculum review was to clarify the fundamental aspects of subjects which underpin their study and draw on content to promote deeper understanding.

We do not expect teachers to teach concepts, processes and discretely, but to integrate them in the classroom.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families if he will conduct a comparative analysis of the proposed secondary curriculum and the curricula of those education systems that perform best in international comparisons. [150391]

Jim Knight: The Qualifications and Curriculum Authority has been compiling comparative information on curriculum and assessment frameworks since 1996. The work is managed and updated by the international information unit at the National Foundation for Educational Research. It provides descriptions of government policy on education for 20 countries.

The countries concerned are: Australia, Canada, England, France, Germany, Hungary, Ireland, Italy, Japan, Korea, the Netherlands, New Zealand, Northern Ireland, Scotland, Singapore, Spain, Sweden, Switzerland, the USA and Wales.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what revisions were made to the revised national curriculum programmes of study following the statutory consultation process. [150392]

Jim Knight: Changes were made to the mathematics programmes of study to develop the key concepts to make them more in line with those in other subjects and to show what underpins the study of mathematics. The Qualifications and Curriculum Authority met with the advisory committee on mathematics education to discuss the changes.

Revisions were made to the key concepts, key processes and range and content of citizenship programmes of study to provide greater clarity of what should be offered in the light of Sir Keith Ajegbo's review on diversity and citizenship.

The modern foreign languages programme of study was amended to provide an illustrative list of the European and major world languages which can be taught.

Changes were made to retain 'systems and control' and 'resistant materials' as elements of compulsory study within the key stage 3 design and technology curriculum.

Changes were made to align better the personal wellbeing programmes of study with the social and emotional aspects of learning programme.

The economic wellbeing programmes of study were renamed economic wellbeing and financial capability.

In other subjects drafting changes were made to provide greater clarity.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) how many responses to the secondary curriculum statutory consultation relating to a programme of study at key stages 3 and 4 were received from parents, broken down by subject; [150393]

(2) whether the Qualifications and Curriculum Authority actively sought the involvement of parents during the statutory consultation period for the new secondary curriculum; [150395]

(3) how many parents were involved with activities undertaken by the Qualifications and Curriculum Authority on the statutory consultation period for the new secondary curriculum; [150396]

(4) how many events for parents were held by the Qualifications and Curriculum Authority as part of the consultation process for the secondary curriculum review. [150397]

Jim Knight: There were no specific consultations with parents covering the programmes of study for particular subjects.

The Qualifications and Curriculum Authority, working with St. Martin's college, held two consultation events for parents in Sandwell on 16 March 2007 and in Bristol on 22 March 2007. The QCA also exhibited at the education show, which was widely attended by parents and teachers, though numbers were not collected.

The widespread media coverage generated by the consultation launch and subsequent features and newspaper supplements were designed to ensure that all parents could engage with the review if they so wished.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 16 April 2007, *Official Report*, column 310W, on Secondary Education: Curriculum, how many responses the Qualifications and Curriculum Authority received in relation to the secondary curriculum review consultation on the *(a)* programme of study and *(b)* supporting materials from (i) parents and (ii) pupils. [150418]

Jim Knight: A total of 10,613 people had direct contact with the Qualifications and Curriculum Authority regarding the new curriculum through conferences, young people's forums and workshop events.

There were 1,891 responses to the online consultation questionnaire. 39 of these came from parents and 15 from pupils. Data are not broken down by programme of study or supporting materials.

The following table outlines the profile of respondents to the online consultation in detail. Of the 1,891 responses to the survey, 1,596 were from individuals and 295 were from groups.

Respondent type	*Number of respondents*
School	1,219
Classroom or subject teacher/lecturer	623

Secondary Education: Sponsorship

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will make a statement on his policy that every secondary school should have a business and university partner. [149864]

Jim Knight: It is the aspiration of the Government for every secondary school to have a business and university or college partner. Already over 85 per cent. of secondary schools, through becoming specialist schools, have developed relationships with local businesses. We currently have over 200 secondary, primary and special schools working towards trust status, which will cement partnerships with the private sector, higher education and further education sectors, and voluntary sector, in order to support strong school leadership. My right hon. Friend, the Secretary of State announced on 10 July his intention to encourage universities to take a much greater role in the academies programme, and the abolition of the requirement for universities and high-performing schools and colleges to provide £2 million before they can sponsor an academy.

The Secretary of State has invited the National Council for Educational Excellence to advise him on how businesses, universities and colleges can play a bigger part in support of schools, and on how independent and maintained schools can work together to raise standards for the benefit of all.

Teachers: Autism

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what steps he is taking to promote specialist teacher training for teachers dealing with children with autism. [150436]

Jim Knight: All teachers, as part of their initial teacher training and induction period, must demonstrate that they can differentiate their teaching to meet the needs of pupils, including those with special educational needs or disabilities, and know how to seek advice from those with specialist knowledge, such as the school's SEN co-ordinator.

Once qualified, all teachers are expected to discuss their own development needs in performance management reviews, and to address development priorities. This could include strengthening knowledge and understanding of SEN, including autism. Where schools have identified a need to strengthen knowledge and understanding of SEN or disabilities, as a school priority, this should be addressed through their school improvement and development plans.

All schools receive a school development grant that they are able to use to support improvements in any aspect of teaching and learning. This includes professional development. A wide variety of courses are available covering SEN and disabilities, ranging from awareness raising through to in-depth studies leading to specific qualifications. It is, however, a matter for individual teachers and their schools to determine their own particular training and development needs. Local authorities may retain a proportion of this grant, under certain conditions, to provide specific training and development of SEN.

In 2002, we published jointly with the Department of Health 'Autistic Spectrum Disorders (ASD): Good Practice Guidance', which offered a series of pointers to good practice, including a number on in-service training. The guidance advised that

"all those who plan or provide for children with ASD should have some knowledge and understanding of autism".

In October 2007, the Department plans to formally launch its inclusion development programme which will help enhance teacher confidence in key areas of SEN. The programme will focus initially on speech, language and communication needs and dyslexia, since the ability to communicate is fundamental to learning and progression for all children with SEN and disabilities. It is envisaged that it will then address the needs of learners with ASD and behavioural, emotion and social difficulty, with other types of needs covered over time.

The Department is also working with voluntary sector organisations and others to support the establishment of an Autism Trust, which will aim to improve teachers' specialist skills in working with children with ASD. We will announce further details later this year.

Teachers: Bureaucracy

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what steps were taken to reduce the bureaucratic burden on teachers in each year since 2000-01; and if he will make a statement. [149935]

Jim Knight: Since 2000-01 the Government have taken a number of actions to address the bureaucratic burden on teachers and we continue to work to ensure that teachers' time is spent on key activities that support teaching and learning.

The key to helping schools and teachers on the ground is the new relationship with schools. The Department has built a new relationship with schools aimed at reducing bureaucratic burdens on them while reinforcing school autonomy at the same time as sharpening school accountability. This relationship included the introduction of a new inspection framework which halves the time and effort schools expend on inspection while focusing inspection even more closely on improving teaching and learning. The new relationship is also supporting and simplifying schools' external accountability by the deployment of a nationally accredited school improvement partner to every school.

The Government, employers and a majority of school work force unions signed 'Raising Standards and Tackling Workload: a National Agreement' in 2003. This set out a number of changes to teachers' contracts intended to bring downward pressure on working hours, and these were implemented between 2003 and 2005.

The agreement included a provision that teachers could no longer be required routinely to undertake a range of administrative or clerical tasks.

Implementation of the national agreements' provisions have been overseen by the Workforce agreement monitoring group (made up of the Agreement's signatories) and the group continues to work to ensure that teachers and head teachers have conditions of service which enable them to focus on their core roles of teaching and leading and managing teaching and learning.

In 2003, my Department also set up the implementation review unit comprising representatives from among head teachers, teachers and support staff currently working in schools. Appointed through an open, public appointments process, this was the first ever panel of

this type to scrutinise the work of a major Government Department. Working independently of, but in partnership with the Department and its agencies, the IRU both challenges and supports the Department on examining policy design and implementation from a burdens and bureaucracy perspective.

We have also rationalised data collections and set up a system to ensure that we collect only essential data from schools, scrutinised by external practitioners through a star chamber board on which head teachers sit. Wherever possible, data are collected by sample. The data are collected once only and used many times. This has led to a significant decrease in the number of requests for new data from schools.

The Department takes the views of schools and teachers very seriously. Discussions with head teachers and detailed research showed that schools wanted to be able to choose the printed publications they needed, when they needed them, and to be able to order multiple copies. In response to this, we stopped regular paper mailings to all schools; and since December 2004, have successfully introduced an online ordering service where schools are now able to either download or order paper based copies of publications they need. A regular fortnightly e-mail is sent to schools to inform them of new publications.

Teachers: Pay

Mr. Laurence Robertson: To ask the Secretary of State for Children, Schools and Families what recent discussion he has had with the schoolteachers' review body on *(a)* holding a review into the level of teachers' pay and *(b)* the level of teachers' pay; and if he will make a statement. [150174]

Jim Knight: The Government submitted written evidence to the STRB on 24 May, in respect of the remit set on 29 March, and the Secretary of State and I attended an oral evidence session with the STRB on 12 July. The Secretary of State also wrote to the chairman of the STRB on 5 June about the current pay award.

Teachers: Recruitment

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what funding has been allocated to the Teach First scheme for each of the next five years. [149884]

Jim Knight: We have confirmed that Teach First will be expanding—indeed this was announced in the Budget 2005. Precise funding allocations to the teacher training providers and schools working with Teach First depend on numbers recruited against agreed targets.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what steps he is taking to attract more of the best graduates into teaching; and if he will make a statement. [149887]

Jim Knight: The highly successful advertising campaigns run by the Training and Development Agency for Schools (TDA) have contributed significantly to increases in graduate recruitment to teaching, and there is evidence that this has had a positive effect on schools' ability to attract high quality teachers. Teacher vacancy rates are, at 0.6 per cent., now considerably lower than rates for other comparable professions.

Over 75 per cent. of new entrants to teacher training are now graduates who take a post graduate certificate of education or career changers on employment-based routes such as the graduate teacher programme. More trainee teachers than ever have a degree at 2:1 or higher.

We offer a training bursary of £9,000 to those taking a PGCE in shortage subjects, which currently include maths, science, English, modern foreign languages, technology, music and religious education. A golden hello of £5,000 is also paid for maths and science (£2,500 for the other shortage subjects) when a new teacher has completed their induction in schools. A bursary of £6,000 is offered to trainees taking a primary PGCE or a PGCE in history, geography and physical education.

During the past five years we have been running the student associate scheme, which focuses on maths, physics and chemistry and places high quality undergraduates in schools for up to 15 days to provide curriculum support for teachers and to carry out project work with pupils. It also gives participants a taste of teaching as a career. My right hon. Friend the Secretary of State for Innovation, Universities and Skills has just announced that participation in the scheme is to be doubled.

The Government also provides funding for Teach First a relatively new programme that recruits and trains particularly high-quality graduates to teach shortage subjects in challenging schools for two years, with the option to make a longer-term career in teaching beyond this time. In his statement to the House on 10 July, my right hon. Friend the Secretary of State for Children, Schools and Families said that he will consult on a new Teach Next programme to promote mid-career routes into teaching, especially for people from industry and the sciences.

Teaching Methods: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what total funding was allocated for personalised learning in each year since 2004-05, broken down by initiative; what the planned figures are for each year to 2012-13; and if he will make a statement. [149934]

Jim Knight: No funding was specifically allocated for personalised learning in 2004-05. In 2006-07, £500 million was allocated for personalised learning. In 2007-08, £990 million was allocated.

This money was included in schools base budgets, with no conditions of grant, and was not allocated to specific initiatives. Our guidance to schools indicated that our priorities for the funding were: to support intervention and catch-up provision for children who have fallen behind in English and maths; to support the education of gifted and talented learners; and to help learners from deprived backgrounds to access after-school and year-round activities.

The comprehensive spending review full allocations (for the period 2008-11) for personalised learning will be announced in due course. This will include funding for two areas of work that have already been announced:

£150 million (£50 million in each of the three years of the CSR period) for assessment for learning, a key element of personalising learning. This was announced by the Secretary of State in his statement on 10 July;

funding to support 300,000 pupils to receive one-to-one tuition in English and Maths, 30,000 children being supported by the Every Child a Reader programme; and the establishment of the Every Child Counts programme. This was announced in Budget 2007.

Extended schools are also an important part of personalising learning for all children. The Secretary of State announced a subsidy of £265 million for extended schools over the CSR period on 10 July. This consists of £8.5 million in 2008-09, £40 million in 2009-10 and £217 million in 2010-11. This extra investment is to help disadvantaged children to access out-of-school activities, which can support their learning.

Teenage Pregnancy

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what the teenage pregnancy rates was in each year since 1990-91; and what he expects it to be in 2007-08. [149930]

Angela Eagle: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 17 July 2007:

As National Statistician I have been asked to reply to your recent question asking what estimate has been made of teenage pregnancy rates for each year since 1990-91 to 2007-08. (149930)

Teenage conception figures for girls aged under 20 are routinely published by ONS for England and Wales and by health authority areas. These figures are estimates of the number of conceptions that resulted in a live birth, stillbirth or legal termination.

The number and rate of teenage conceptions and also conceptions to girls aged under 18 (used to monitor the Government's target on teenage pregnancy) for England and Wales, 1990 to 2005 (the most recent year for which figures are available), are shown in the attached table. Figures for 2005 are provisional.

Conceptions by age: number and rate for England and Wales, 1990-2005[1]

	Under 20		Under 18	
	Number	Rate[2]	Number	Rate[3]
1990	113,330	68	44,756	48
1991	101,625	64	40,088	45
1992	93,417	62	37,551	44
1993	87,163	60	35,794	42
1994	85,352	59	36,091	42
1995	86,586	59	37,880	42
1996	94,872	63	43,489	46
1997	96,007	63	43,358	46
1998	101,627	65	44,119	47
1999	98,787	63	42,028	45
2000	97,666	62	41,348	44
2001	95,970	61	40,990	43
2002	97,107	60	41,951	43
2003	98,592	60	42,162	42
2004	101,262	60	42,198	42
2005	101,888	60	42,187	41

[1] Figures for 2005 are provisional.
[2] Rate per 1,000 females aged 15-19.
[3] Rate per 1,000 females aged 15-17.

INNOVATION, UNIVERSITIES AND SKILLS

Aimhigher Programme: Finance

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills what plans his Department has to fund the Aim Higher programme beyond September 2008. [149492]

Bill Rammell: While the overall comprehensive spending review settlement for DfES has been announced we are working through the implications of the recent machinery of government changes and are not yet in a position to comment on specific programmes. We hope to be in a position to make an announcement in the near future.

Apprentices

Mr. Dai Davies: To ask the Secretary of State for Innovation, Universities and Skills what percentage of apprenticeships are *(a)* work-based and *(b)* college-based; and if he will make a statement on the future of apprenticeships. [149519]

Bill Rammell: In England, 100 per cent. of Learning and Skills Council funded apprentices must spend a significant period of their learning in a work-based environment in employment in order to complete a full apprenticeship. In addition, some learners participate in programme led apprenticeships in preparation for full apprenticeships. PLAs enable learners to take some of the required apprenticeship qualifications, such as key skills, in a further education college or with another provider before taking up employment as an apprentice. In 2005-06, 24,580 learners, 12.3 per cent. of the combined total of 199,480 PLA and apprenticeship starts, started a programme led apprenticeship and 174,900 or 87.7 per cent. started an apprenticeship in employment.

The apprenticeship programme has been extremely successful with the number of apprentices in learning rising threefold since 1997 and now standing at some 250,000. Quality has also improved, with the completion rate now standing at almost 60 per cent., up from just 24 per cent. five years ago. As a result, the apprenticeship programme is recognised as the principal route for acquiring nationally recognised, high quality occupational skills which contribute to the strength of our economy. We now want to build on that success by expanding the programme further so that in 2013 any suitably qualified young person will be entitled to an apprenticeship place. In addition we have accepted the recommendation of the Leitch review of skills for a target of 500,000 apprentices in learning in the UK by 2020.

Civil Servants: Qualifications

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills if he will make it his policy to encourage colleagues with postdoctoral titles to employ them in public as an encouragement to learning. [148220]

Bill Rammell: There is no departmental policy on this and I believe that the use of academic titles should remain a matter of personal choice.

Degrees: Employment

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the employment rate of students who did not complete their degree in each of the last five years. [149780]

Bill Rammell: The information is not held centrally.

Departments: Compensation

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what total amount of compensation claims was made against public bodies for which his Department is responsible in the last 12 months; and if he will list the 10 highest such claims, identifying the nature of each case. [148185]

Mr. Lammy: This information is not held centrally by the Department and can be obtained only at disproportionate cost.

Departments: Ethnic Groups

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills if he will make a statement on his policy on support for minority groups within his Department. [148206]

Mr. Lammy: The Department was established on 28 June 2007 but, like predecessor Departments, we will be putting an equality and diversity delivery plan in place as a key part of our human resources strategy.

Departments: Legislation

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills if he will list the *(a)* national and *(b)* European court cases since 1997 whose judgements have required a change in policy by his Department. [148217]

Mr. Lammy: The information requested is not routinely collated and so could be provided only at disproportionate cost.

Departments: Racial Harassment

David Simpson: To ask the Secretary of State for Innovation, Universities and Skills how many complaints of racial abuse relating to staff for which his Department is responsible have been *(a)* investigated and *(b)* upheld in the last 12 months. [149250]

Mr. Lammy: No complaints of racial abuse were investigated in the Department in the last 12 months. Formal complaints of racial abuse would be investigated quickly and thoroughly and, where complaints were upheld, appropriate disciplinary action would be taken. All cases are treated seriously.

The Department believes that each and every individual has the right to be treated fairly, with dignity and respect. As such, we do not tolerate unacceptable behaviour towards others. The overall aim of our harassment and bullying policy is to prevent such unacceptable behaviour occurring but, where it does occur, to ensure that appropriate and effective action is taken to deal with it and prevent it happening again. This applies to everyone in the Department. Every individual is personally responsible for their own behaviour, and every manager is responsible for enforcing the policy in accordance with the guidance and procedures set out in our staff handbook.

Education: Finance

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills how much funding each relevant education institution received for improving retention in each of the last 10 years. [149092]

Bill Rammell: The Higher Education Funding Council for England allocates funding directly to higher education institutions towards the costs of widening participation activities. Since 2003-04 this allocation has included an element for improving retention, which is intended to increase student success. I have arranged for a table to be placed in the House of Commons Library detailing the amounts of funding allocated to each institution for the four years from 2003-04 to 2006-07. There was no specific allocation to institutions for improving retention prior to 2003-04: institutions then, as now, were expected to support student retention activities from within their overall block grant.

Student success within institutions arises from a wide range of factors including teaching quality and student support services. Supporting student success is therefore intrinsically linked with the total investment that institutions make, of which the improving retention element of the widening participation allocation is just one part.

Postgraduate Education

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills what plans he has to encourage more UK-domiciled graduates to study at postgraduate level. [149034]

Bill Rammell: Between 1996-97 and 2005-06, the latest year for which data are available, the number of UK domiciled students entering higher education to study at postgraduate level rose by 35,000 (26 per cent.) to 170,000. We will continue to support our world-class higher education system so that it remains attractive to students, whatever their background.

Postgraduate Education: Social Class

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills how many and what percentage of postgraduates were from socioeconomic classes four to seven in each of the last 10 years, broken down by subject. [149033]

Bill Rammell: The latest information for enrolments on postgraduate courses by subject of study are given in the tables. A new classification for recording subject of study was introduced in 2002-03 and so figures from 2002-03 onwards are not comparable to earlier years.

Figures for postgraduate enrolments by social class are not available.

Number of UK domiciled postgraduate enrolments at higher education institutions in England (excluding the Open University) by subject of study, 1995/96 to 2001/02

Research Councils: Finance

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills (1) what the projected *(a)* total budget and *(b)* administration costs of each of the research councils is for (i) 2007-08 and (ii) 2008-10; [148914]

(2) what the *(a)* total expenditure and *(b)* total administration cost of each of the research councils was in each year since 1997. [148915]

Ian Pearson: The total expenditure and total administration cost of each research council since 1997 is given in the following tables. From 2004-05 all of the research councils have adopted a standard definition for administration costs. Prior to this there were some definitional differences between the research councils. The total expenditure figures for 2007-08 are the budget allocations. Budget allocations for 2008-09, 2009-10 and 2010-11 have not yet been made.

[1] Research councils own forecasts.
[2] AHRC became a research council on 1 April 2005.
[3] STFC became a research council on 1 April 2007, formed from a merger of CCLRC and PPARC.

Research Councils: Official Hospitality

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills what the expenditure of each of the research councils was on hospitality and entertainment in each year since 1997. [148913]

Ian Pearson: The expenditure of each research council on hospitality and entertainment since 1997 is given in the following table. Research councils hospitality expenditure primarily takes the form of refreshments for visitors, particularly those undertaking review work or providing advice as members of boards or committees. The research councils do not generally fund any entertainment activities.

Research councils expenditure on hospitality and entertainment

£ million

	AHRC[1]	BBSRC[2]	EPSRC	ESRC[2]	MRC	NERC[2,3]	CCLRC[4]	PPARC[2,4]	STFC[4]
1997-98	x	n/a	0	n/a	0	n/a	0	n/a	x
1998-99	x	n/a	0	n/a	0	n/a	0	n/a	x
1999-2000	x	n/a	0	n/a	0	n/a	0	n/a	x
2000-01	x	n/a	0	n/a	0	0.2	0	n/a	x
2001-02	x	0	0	n/a	0	0.3	0	n/a	x
2002-03	x	0	0	n/a	0	0.4	0	n/a	x

2006-07	0	0.1	0	0	0	0.7	0	0.1	x

[1] AHRC became a Research Council on 1 April 2005. [2] Identification of this type of expenditure not produced in all years for BBSRC, ESRC, NERC, PPARC. [3] NERC figures include hospitality at scientific meetings, public events and conferences. [4] STFC became a Research Council on 1 April 2007, formed from a merger of CCLRC and PPARC.

Students: Expenditure

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills what the total cost was to the public purse of student maintenance support to *(a)* part-time undergraduate and *(b)* full-time undergraduate students in each of the last three academic years. [149086]

Bill Rammell: The cost to Government of student maintenance support for the last three financial years is shown in the following table. Figures exclude fee grants and fee loans paid to higher education institutions:

£000

Financial year	Full-time maintenance support—student loans in RAB terms[1] and student grants	Part-time maintenance support
2004-05 outturn	690,907	8,368
2005-06 outturn	871,843	12,871
2006-07 estimated outturn	1,066,464	18,400

[1] The student loans RAB charge estimates the future cost to Government of subsidising and writing off student loans issued in that year. It does not show cash lent to students, which has risen each year since the introduction of student loans.

PRIME MINISTER

Business Council for Britain

Mr. Hoban: To ask the Prime Minister (1) what the remit is of *(a)* the Business Council for Britain and *(b)* the Chancellor's high-level group; [148468]

(2) how often he expects to meet the members of the Business Council for Britain; [148469]

(3) what steps he plans to put in place to ensure that the work of the Business Council for Britain does not overlap with that of the Chancellor's high-level group; [148470]

(4) whether minutes of the meetings of the Business Council for Britain will be published. [148471]

The Prime Minister: As Chancellor, I announced in the Budget 2006 a commitment to work with the financial sector to establish a high-level group to develop and support a new strategy to promote London as the leading international financial centre. My right hon. Friend the Chancellor will continue this work with the high-level group.

On the Business Council for Britain, which will assist the Government in putting in place the right strategy to promote the long-term health of the UK economy, I refer the hon. Member to my written statement on 28 June 2007, *Official Report*, column 36WS.

Chequers

Norman Lamb: To ask the Prime Minister pursuant to the answer of 26 October 2006, *Official Report*, column 2036W, to the hon. Member for North-East Hertfordshire (Mr. Heald), on Chequers, when he expects the information on guests who have been entertained at Chequers to be ready for publication; and what the reason is for the time taken to do so to date. [149398]

The Prime Minister: The information requested will be published in due course.

Norman Baker: To ask the Prime Minister if he will make a statement on the financial arrangements in place in respect of the continued occupation of Chequers by his predecessor; and how long he expects that occupation to continue. [150256]

The Prime Minister: My predecessor no longer has the use of Chequers.

Committees: National Security

Mr. Dai Davies: To ask the Prime Minister what *(a)* matters were discussed and *(b)* decisions were taken at the first meeting of the new National Security Committee on 12 July. [150451]

The Prime Minister: I refer the hon. Member to the press briefing given by my spokesman on 12 July 2007. A transcript of this is available on the No. 10 website at http://pm.gov.uk/output/Page12436.asp and a copy has been placed in the Library of the House.

Departments: Official Visits

David Simpson: To ask the Prime Minister how much was spent on overnight accommodation by civil servants within his office's areas of responsibilities in the last 12 months. [149053]

The Prime Minister: For these purposes, my office forms part of the Cabinet Office. I refer the hon. Member to the answer given to him by my hon. Friend the Parliamentary Secretary for the Cabinet Office (Gillian Merron) on 12 July 2007, *Official Report*, column 1641W.

Departments: Racial Harassment

David Simpson: To ask the Prime Minister how many complaints of racial abuse relating to staff for which he is responsible have been *(a)* investigated and *(b)* upheld in the last 12 months. [149245]

The Prime Minister: For these purposes, my office forms part of the Cabinet Office. I refer the hon. Member to the answer given to him by my hon. Friend the Parliamentary Secretary for the Cabinet Office (Gillian Merron) on 12 July 2007, *Official Report*, column 1641W.

Members: Surveillance

Norman Baker: To ask the Prime Minister whether it is his policy that no authorisation will be given for the interception of communications in respect of *(a)* hon. Members and *(b)* Members of the House of Lords; and if he will make a statement. [150253]

The Prime Minister: I refer the hon. Member to the answer given to him by my predecessor, Mr. Blair on 27 November 2006, *Official Report*, column 330W.

Middle East: Special Envoy

Mr. Dai Davies: To ask the Prime Minister what discussions he has had with the *(a)* United States President, *(b)* Russian President, *(c)* UN Secretary-General and *(d)* presidents of the European Commission and European Council on the appointment of a special envoy on behalf of the Quartet initiative in the Middle East. [148717]

The Prime Minister: I have discussed the middle east peace process with a wide range of world leaders.

Ministerial Duties: Olympic Games

Norman Baker: To ask the Prime Minister what the reasons were for locating the Minister of State for the Olympics in the Cabinet Office. [149227]

The Prime Minister: I refer the hon. Member to the press briefings given by my spokesman on 28 June 2007. Transcripts of these are available on the No. 10 website (http://www.number-10.gov.uk/output/Page12386.asp), and copies have been placed in the Library of the House.

Ministers: Official Residences

Norman Baker: To ask the Prime Minister if he will list the official residences occupied by *(a)* Ministers and *(b)* former Ministers. [150255]

The Prime Minister: I refer the hon. Member to the press briefing given by my spokesman on 12 July 2007. A transcript of this is available on the No. 10 website at http://www.number-10.gov.uk/output/Page12448.asp and a copy has been placed in the Library of the House.

Ministers: Pay

Mr. Amess: To ask the Prime Minister what the total cost was of *(a)* ministerial salaries and *(b)* private offices in each Government Department in 2006-07. [149333]

The Prime Minister: A full list of ministerial salaries is available on the civil service website:

http://www.civilservice.gov.uk/other/parliamentary/pay/index.asp

A copy of the list has been placed in the House Library. The information requested in respect of private offices is not held centrally and could be provided only at disproportionate cost.

Petitions: Internet

Margaret Moran: To ask the Prime Minister what examples of the practice known as astroturfing have been identified in respect of petitions on the No. 10 website. [149450]

The Prime Minister: Criteria on the acceptance and publication of e-petitions is available on the No. 10 website (http://petitions.pm.gov.uk/terms). A copy of this web page has been placed in the Library of the House.

Politics and Government

Mr. Amess: To ask the Prime Minister what *(a)* primary and *(b)* delegated legislation regulates machinery of Government changes; what changes have been made to each since enactment; what further amendments are planned; and if he will make a statement. [149334]

The Prime Minister: The main piece of legislation that is relevant to machinery of government changes is the Ministers of the Crown Act 1975, which consolidated the existing legislation in this area.

Since its enactment, the Act has been amended by the Constitutional Reform Act 2005, the Commissioners for Revenue and Customs Act 2005 and the Ministry of Overseas Development (Dissolution) Order 1979 (SI 1979/1451).

Written Answers to Questions

Wednesday 18 July 2007

TRANSPORT

Airports: Security

Mr. Clegg: To ask the Secretary of State for Transport what measures are in place to regulate and monitor the performance of private companies responsible for providing security at UK airports. [149761]

Jim Fitzpatrick: The national aviation security programme lays down the security measures and standards in the UK. Airports, airlines and others are legally bound to comply with mandated security measures but they are free to sub-contract specific statutory security tasks to third parties. The Department for Transport monitors through its compliance activity the standards of implementation and where performance is below the standards required will take action against the regulated party to ensure that improvements are made.

Humber Bridge

Mr. Greg Knight: To ask the Secretary of State for Transport for how much longer one carriageway in each direction is likely to remain closed on the Humber Bridge; on what basis it was decided that work on the bridge should not be carried out on a 24 hour basis; and if she will arrange for the tolls to be reduced while work is being carried out. [150263]

Ms Rosie Winterton: These are all matters for the Humber Bridge Board.

Off-road Vehicles: Leisure

Mr. Paul Murphy: To ask the Secretary of State for Transport what guidance her Department has given local authorities on the use of off-road vehicles for recreational purposes; and if she will make a statement. [150228]

Jonathan Shaw: I have been asked to reply.

DEFRA has published two guidance documents on the use of off road vehicles for recreational purposes, "Regulating the use of motor vehicles on public rights of way and off road—A guide for Local Authorities, Police and Community Safety Partnerships" and "Making the Best of Byways". Together these documents set out the powers available to tackle illegal practices, provide good practice examples, and give advice on both the practical management and maintenance of routes.

Public Transport: Crimes of Violence

Susan Kramer: To ask the Secretary of State for Transport how many incidences of violent crime were recorded by the British Transport Police since 2004, broken down by region. [150574]

Mr. Tom Harris: This information is not held by the Department for Transport but by the British Transport Police who can be contacted at: British Transport Police, 25 Camden Road, London NW1 9LN, E-mail: general.enquiries@btp.pnn.police.uk.

Railways: Freight

Mr. Jenkins: To ask the Secretary of State for Transport when she expects the Minister for Railways to announce the upgrading of the freight route between Southampton and Birmingham. [150288]

Mr. Tom Harris: As detailed in the then Secretary of State's written ministerial statement to Parliament of 18 December 2006, *Official Report*, columns 134-6WS, the Southampton to west coast mainline rail gauge enhancement scheme is one of the strategic freight schemes being considered for funding from the productivity strand of the Transport Innovation Fund.

Final decisions on each of the schemes under consideration will be taken through the Department's investment appraisal framework on an individual basis, as each business case is completed. I hope to be in a position to make further announcements about the individual schemes in the course of this year.

Railways: Vehicle Access Barriers

Mr. Clegg: To ask the Secretary of State for Transport what evaluation she has made of the trial of vehicle access barriers at Victoria and Waterloo stations. [149578]

Mr. Tom Harris: The aim of the trial was to test the practicalities of deploying and maintaining portable access control barriers in an operational environment.

The trial proved that such barriers could be deployed while maintaining adequate passenger flow rates and emergency access. It also proved, however, that the deployment of such barriers needs very careful planning due to their weight and the resulting loading on the supporting structure.

Further to this trial the Department for Transport is undertaking survey work at stations, in co-operation with operators and the British Transport Police, to assess options for more permanent vehicle access control measures. We are also working with operators to ensure that vehicle access control issues are taken into account as part of planned station developments.

Railways: Standards

Susan Kramer: To ask the Secretary of State for Transport how many trains were cancelled in *(a)* 2006-07 and *(b)* the last 12 months; and what reasons were given for cancellations, broken down by train operating company. [150575]

Mr. Tom Harris: Train cancellation data for the rail network as a whole is collected and processed by Network Rail. For a response, the hon. Member may wish to contact Network Rail's Chief Executive at the following address:

John Armitt,
Chief Executive,
Network Rail,
40 Melton Street,
London NW1 2EE

Roads: Safety Measures (Cornwall)

Julia Goldsworthy: To ask the Secretary of State for Transport what recent discussions her Department has had with Cornwall county council on road safety issues in Cornwall. [150153]

Jim Fitzpatrick: There have been no recent road safety specific issues discussed between the Department for Transport and Cornwall county council.

In December 2006, the Department notified Cornwall of its assessment of their second local transport plan, covering the period 2006-07 to 2010-11. The road safety element of the plan was assessed as being "Excellent" which meant that the Department considered that Cornwall are on track to achieve beyond the 2010 national road safety targets.

HOUSE OF COMMONS COMMISSION

Members: Postal Services

Mr. Allen: To ask the hon. Member for North Devon, representing the House of Commons Commission if he will take steps to restore the availability of casual stationery and envelopes in the Members' Post Office; and how much has been saved by preventing Members from using franked envelopes in the Members' Post Office. [149643]

Nick Harvey: The Post Office has continued to supply limited amounts of stationery including prepaid envelopes, and these are now recorded against Members' names. Savings of around £5,000 have been made in the first quarter of 2007-08 by ending the issue of casual stationery and envelopes in the Members' Post Office.

In its report on the Communications Allowance (First Report 2006-07, HC 319), the Members Estimate Committee directly linked the new allowance to an annual limit of £7,000 per Member on pre-paid stationery. The House approved the report on 28 March 2007.

The operation of the arrangement will be kept under review.

PRIME MINISTER

Ministers

Mr. Hoban: To ask the Prime Minister if he will place in the Library copies of the letters of appointment of each of the Ministers in the Government. [148924]

The Prime Minister: In forming the new Government, I spoke to Ministers and discussed the Government's priorities, but did not exchange letters of appointment.

Select Committees: Publications

Mr. Gordon Prentice: To ask the Prime Minister when he expects the Government to respond to the fifth report of the Public Administration Select Committee session 2005-06, "Whitehall Confidential? The Publication of Political Memoirs" HC689. [150489]

The Prime Minister: The Government are considering the report of the Public Administration Select Committee, "Whitehall Confidential? The Publication of Political Memoirs" and will respond shortly.

DUCHY OF LANCASTER

Civil Servants: Pay

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster what the salary range is for each pay band of civil servants in the Cabinet Office. [148908]

Gillian Merron: Since April 1996 all Departments and agencies have had delegated responsibility for the pay and grading of staff, except for those below the senior civil service. Current Cabinet Office salary ranges for each pay band can be found at:

http://careers.civil-service.gov.uk/Index.asp?txtNavID=176&txtOverRideDocID=144&635132=&internal=true

Details on current senior civil service pay bands is available from:

www.civilservice.gov.uk/management/performance/scs

Departments: Postal Services

Mr. Jenkins: To ask the Chancellor of the Duchy of Lancaster what volume of correspondence his Department sent *(a)* by Royal Mail and *(b)* by other commercial delivery services in each of the last five years; and what the reasons were for the use of other commercial delivery services. [150443]

Gillian Merron: Information on the volume of correspondence sent by *(a)* Royal Mail and *(b)* by other commercial delivery services can be provided only at disproportionate cost.

The vast majority of our mail services are provided by Royal Mail. Commercial delivery services are used when a 'same day' service is required within the UK and for time sensitive international deliveries

Departments: Publicity

David Simpson: To ask the Chancellor of the Duchy of Lancaster what assessment he has made of the cost effectiveness of advertising commissioned by his Department in the last 12 months. [148504]

Gillian Merron: The Cabinet Office currently only uses advertising for recruitment purposes. Cost effectiveness plays a key part in recruitment advertising, for example all vacancies are advertised on the Civil Service Gateway at no cost. For the graduate fast stream, which the Cabinet Office runs for the whole of the civil service, the Cabinet Office employs a mixed media approach, which a 2007 survey of applicants confirmed as the most cost-effective.

Cost-effectiveness is a key part of the Cabinet Office's best practice guidance for Government communicators when commissioning advertising, this can be seen at:

www.cabinetoffice.gov.uk/government_communication/engage/planning_process.asp

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Advisory, Conciliation and Arbitration Service

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what funding his Department provided to the Advisory, Conciliation and Arbitration Service in each of the last five years; and what funding his Department plans to provide in each of the next three years. [150031]

Mr. McFadden: BERR funding for ACAS over the last five years is shown in the following table:

	£ million
2003-04	46.0
2004-05	47.3
2005-06	47.3
2006-07	45.2
2007-08	43.0

These figures do not include the following provided by BERR to ACAS:

Investment Funding of £15.2 million to finance efficiency savings for the three years from 2005-06;

Capital Funding of £1.2 million for 2005-06, £1.0 million for 2006-07 and £1.0 million for 2007-08.

Funding for the period covered by the 2007 comprehensive spending review (i.e. 2008-09, 2009-10 and 2010-11) has yet to be agreed with ACAS.

Departments: Ministerial Duties

Mr. Harper: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the priorities of the Minister for the South West are in 2007. [148287]

Mr. Bradshaw *[holding answer 9 July 2007]:* I have been asked to reply.

As the Minister for the South West, I am conducting a series of visits to all counties in the region to seek the views of local political leaders and other interested parties about their priorities. My role will be to champion the region and to represent the region in the formulation of central government policy.

Employment: Disciplinary Proceedings

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if his Department will bring forward proposals to increase the discretion of employment tribunals in their consideration of the rules governing employment disciplinary procedures. [150103]

Mr. McFadden: BERR keeps the employment tribunal rules under constant review, with the objective of improving the delivery of justice for all parties.

Employment: Industrial Disputes

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether his Department plans to abolish fixed conciliation periods in employment disputes. [150105]

Mr. McFadden: The consultation paper "Resolving disputes in the workplace", published on 21 March 2007, invited views on whether the fixed terms for conciliation in employment disputes should be repealed. My Department's plans on the way forward will be set out in our response to that consultation which will be published in due course.

Mediation

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment his Department has made of the level of awards made to injured parties in employment disputes who have *(a)* settled and *(b)* not settled their cases through mediation. [150099]

Mr. McFadden: Mediation is a confidential process, private to the parties involved. No award is made in relation to cases that are settled through a mediation process prior to a tribunal hearing.

Mr. Heald: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what information his Department makes available to the public on mediation in employment disputes; how this information is made available; and if he will make a statement. [150104]

Mr. McFadden: BERR makes information available to the public on employment dispute resolution through the Directgov and Business Link websites. BERR also funds the work of the Advisory, Conciliation and Arbitration Service (ACAS) including the provision of mediation and conciliation for employment disputes.

Parental Leave: Tamworth

Mr. Jenkins: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate his Department has made of the number of people from low income families in Tamworth constituency taking *(a)* paternity leave and *(b)* maternity leave in the last period for which figures are available. [150304]

Mr. McFadden: The most recent estimates of take-up of maternity and paternity leave are based on the Maternity and Paternity Rights and Benefits in Britain: Survey of Parents, conducted in 2005. The survey is based on a random sample of mothers who had a baby in December 2003 and their partners.

Of mothers in paid work, all took at least some of their entitlement to maternity leave. 93 per cent. of fathers took some time off around the time of the birth. Of the 93 per cent. who took some time off, 79 per cent. took paternity leave.

The Department does not collect data on low income families so has not estimated the number of low income families which have taken up paternity or maternity leave. The Department does not collect data on take-up of maternity and paternity leave at constituency level.

Post Office: Land

Frank Dobson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether the sites being considered by the Government for release for development of affordable homes include sites owned by the Post Office. [150101]

Mr. Iain Wright *[holding answer 16 July 2007]:* I have been asked to reply.

No. The recent review of surplus land was directed at central Government Departments and their agencies and as Royal Mail Holdings, of which Post Office Ltd. is a wholly owned subsidiary, is a self-financing public corporation, they were not included in the review.

Regional Development Agencies: Official Hospitality

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the expenditure of each regional development agency was on hospitality and entertainment in each year since 1997. [148912]

Mr. Timms: The following table shows the regional development agencies' (RDAs) expenditure on hospitality and corporate entertainment since their creation to the last full financial year. There are some variances between RDAs in the way this expenditure is classified and recorded.

RDA	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*
AWM	8,500	28,500	[1]163,500	8,600	8,900	8,000	15,816	43,862
EEDA	n/a	n/a	n/a	5,849	11,608	11,118	12,534	7,153
EMDA	284	17,870	6,510	38,722	48,344	48,301	48,185	20,077
LDA	0	209	31,220	16,801	23,133	19,462	27,341	19,202
NWDA	7,144	16,750	21,556	32,908	38,834	35,639	44,975	45,209
ONE	6,659	2,849	30,853	50,644	40,360	34,600	40,421	38,324
SEEDA	24,304	34,689	47,063	36,089	50,858	50,640	35,995	42,061
SWRDA	8,937	13,045	17,723	25,362	17,065	20,552	21,531	17,785
YF	3,405	20,095	19,616	44,992	64,428	39,276	29,397	42,460

[1] Exceptional hospitality costs in respect of the 2002 Ryder Cup. This was one off expenditure giving significant coverage to the West Midlands around the globe.

Regional Planning and Development: South West Region

Mr. Harper: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment the Minister for the South West has made of the regional strategy for the South West. [148286]

Mr. Bradshaw *[holding answer 9 July 2007]:* I have been asked to reply.

There are two regional strategies—the regional spatial strategy and the regional economic strategy. As the 'Governance of Britain' (Cmd 7170) set out, as the Minister for the South West, along with the other regional Ministers, I will advise the relevant Secretary of State on the approval of regional strategies.

WALES

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for Wales (1) what legislative provisions introduced by his Department since 1997 have been repealed; [149699]

(2) what legislative provisions introduced by his Department since 1997 have not yet been brought into force. [149700]

Mr. Hain: The information is as follows:

Government of Wales Act 1998

Parts have been repealed by the Government of Wales Act 2006 as set out in schedule 12 of that Act.

Health (Wales) Act 2003

The entire Act was brought into force on 26 November 2003. Parts of schedule 1 and 3 were repealed by the NHS (Consequential Provisions) Act 2007; Part of schedule 2 was repealed by the Public Audit (Wales) Act 2005 and part of schedule 3 by the Government of Wales Act 2006.

Public Audit (Wales) Act 2004

The entire Act has been brought into force. The substantive provisions were brought into force by three commencement orders, with effect from dates between 1 January and 20 July 2005; the rest had come into force on Royal Assent.

Sections 2, 6-11 and 65(2) were repealed by the Government of Wales Act 2006. Parts of schedule 2 (which contains amendments of other enactments) have been repealed by the Government of Wales Act 2006, the Health Act 2006, the NHS (Consequential Provisions) Act 2007, and the Education and Inspections Act 2006. Part of section 54 was repealed by the Public Audit (Wales) Act 2004 (Relaxation of Restriction on Disclosure) Order 2005.

Public Services Ombudsman for Wales Act 2005

The Act has been brought into force on 12 October 2005, except for section 20 and paragraph 15(5) of schedule 1; as a consequence of the Government of Wales Act 2006, the following provisions have been repealed with effect from 25 May 2007:

sections 12(9), 16(9), 21(11), 23(6), 24(2)(b) and (3), 44(3) and parts of schedules 1 and 6.

Commissioner for Older People (Wales) Act 2006

The entire Act has been brought into force. The substantive provisions were brought into force with effect from 14 October 2006; the rest had come into force on Royal Assent.

Parts of section 27(1) (definitions) have been repealed as a consequence of the Government of Wales Act 2006 and changes in NHS legislation. Section 28(6) has been repealed as a consequence of the Government of Wales Act 2006. The repeals were made by the Government of Wales Act 2006 (Consequential Modifications and Transitional Provisions) Order 2007 and the NHS (Consequential Provisions) Act 2007.

Transport (Wales) Act 2006

The entire Act has been brought into force. The substantive provisions were brought into force with effect from 26 May 2006; the rest had come into force on Royal Assent.

Sections 2(6) and (7) and 5(9) were repealed as a consequence of the Government of Wales Act 2006 by the Government of Wales Act 2006 (Consequential Modifications and Transitional Provisions) Order 2007.

Government of Wales Act 2006

No provisions have been repealed and the Act has now come into force in accordance with section 161 except for sections 107, 108 and 110 to 115 which will only come into force in accordance with section 105.

Mr. Clegg: To ask the Secretary of State for Wales what criminal offences have been introduced by his Department in primary legislation since October 2006. [149702]

Mr. Hain: None.

Ministerial Red Boxes

John Hemming: To ask the Secretary of State for Wales how many ministerial red boxes his Department bought in each of the last five years; what the cost of each was; who the suppliers were; and what tendering process was used in selecting them. [150417]

Mr. Hain: Ministerial boxes are used by successive Ministers over many years. No new boxes have been ordered in the last five years.

Any new ones would be ordered through contracts put in place by the Ministry of Justice.

Flags

Mr. Paul Murphy: To ask the Secretary of State for Wales if he will hold discussions with the First Minister on the flying of the Union Flag on UK Government buildings in Wales. [150220]

Mr. Hain: In line with the Government's decision to relax the rules for flying the Union Flag on Government buildings, while consultation on changing the rules takes place, the flying of the Union Flag on UK Government buildings in Wales is a matter for the individual Departments.

Gender Identity Disorder

Lynne Jones: To ask the Secretary of State for Wales what discussions he has had with the Chief Executive of Health Commission Wales on the legal requirement to provide treatment for gender dysphoria and the implications for institutions providing services in England for Welsh patients; and if he will make a statement. [149527]

Mr. Hain: The responsibility for health in Wales has been devolved to the Welsh Assembly Government. I have regular discussions with the First Minister on a range of issues including the commissioning of services by the NHS in Wales.

It is a legal requirement for health bodies to ensure that they do not impose a 'blanket ban' on particular procedures or diagnoses without taking regard of the individual circumstances in each case. However, it is up to the local health boards in Wales to make decisions on setting local priorities for the commissioning and funding of services.

Private Finance Initiative

Mr. Paul Murphy: To ask the Secretary of State for Wales if he will hold discussions with Cabinet colleagues on the use of private finance initiatives in UK Government-sponsored projects in Wales. [150221]

Mr. Hain: The private finance initiatives are an important part of the Government's strategy for delivering high quality public services.

In assessing where PFI is appropriate, the Government's approach is based on its commitment to efficiency, equity and accountability and the principles of public sector reform. PFI is only used where it can meet these requirements and deliver clear value for money without sacrificing the terms and conditions of staff.

Where these conditions are met, PFI delivers a number of important benefits. By requiring the private sector to put its own capital at risk and to deliver clear levels of service to the public over the long-term, PFI helps to deliver high quality public services and ensure that public assets are delivered on time and to budget.

It is a matter for individual Government Departments to decide whether to use PFI in projects in Wales applying normal value for money principles.

Tidal Power: Severn Estuary

Mr. Paul Murphy: To ask the Secretary of State for Wales what assessment he has made of the *(a)* advantages and *(b)* disadvantages of tidal power generation in the Severn Estuary; and if he will make a statement. [150216]

Mr. Hain: The Government's energy strategy outlined in our Energy White Paper (EWP) demonstrates that we firmly believe it is vital that we keep all our options open, including the various opportunities and technologies that tidal power has to offer us.

Wales is supremely well placed to harness the benefits of tidal and wave power because we have such an extensive coastline. However, we are some way off from drawing final conclusions. That is why the Government are working with the Welsh Assembly Government, the Sustainable Development Commission (SDC), the South West Regional Development Agency and other key interested parties to look strategically at the tidal resource in the UK.

As our EWP states, the SDC launched a study, the purpose of which is to consider whether the impact of climate change justifies the potential costs and benefits

of all tidal technologies including the barrage and tidal lagoons, and their public acceptability. The SDC aims to publish the report this towards the end of the summer.

The work that the SDC is undertaking will not be the only study on tidal technologies. Further detailed studies will need to be conducted, and that these will also include for example, assessments on the environmental impact and the EU Birds and Habitats Directive. So the SDC study will by no means be the last word, but a progressive next step.

It is vital that we consider all options if we are to respond to the twin challenges of climate change and security of supply. Tidal technology has an important role to play in meeting these challenges.

CULTURE, MEDIA AND SPORT

Casinos

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much was spent on the *(a)* Casino Advisory Panel, *(b)* casinos impact scoping study and *(c)* development of the (i) Gambling (Inviting Competing Applications for Casino Premises Licences) Regulations 2007 and (ii) Gambling (Categories of Casino) Regulations 2006. [150546]

Mr. Sutcliffe: When the Casino Advisory Panel submitted its Final Report to the Secretary of State on 30 January 2007 its total costs were approximately £400,000.

A group led by Lancaster university has been commissioned to advise on the methodology for the assessment of the social and economic impact of the new casinos. This work has cost £50,000.

The Gambling (Inviting Competing Applications for Casino Premises Licences) Regulations 2007 and Gambling (Categories of Casinos) Regulations 2006 were prepared by officials and lawyers working for the Department for Culture, Media and Sport. No external costs were incurred in the development of these regulations.

Olympic Games: Greater London

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 14 June 2007, *Official Report*, column 1178W, on the Olympic Games, on what date KPMG stopped providing ongoing advice on the cost of the Olympics. [146542]

Tessa Jowell: I have been asked to reply as Minister for the Olympics.

KPMG were contracted to provide advice to the Department until July 2006. Following that KPMG have been contracted by the Olympic Delivery Authority to provide ongoing assistance in compiling their cost estimates.

Radio: Western Isles

Mr. MacNeil: To ask the Secretary of State for Culture, Media and Sport what assistance is planned for improvements to the infrastructure for local radio in the Western Isles. [150313]

James Purnell: The Government have no role in the building or improvement of local radio infrastructure. Ofcom has responsibility for spectrum planning issues, while broadcasters themselves are responsible for transmission matters, including the building and maintaining of transmitters.

WORK AND PENSIONS

Child Maintenance and Enforcement Commission: Powers

Mr. Laws: To ask the Secretary of State for Work and Pensions what plans he has to require the Child Maintenance and Enforcement Commission to apply to a court before *(a)* confiscating a driving licence and *(b)* removing a passport; what the reasons are for the proposed element of judicial involvement in each case; and if he will make a statement. [146621]

Mr. Plaskitt: As is currently the case with the Child Support Agency, the Commission will need to apply to the court to seek an order disqualifying the non-resident parent for holding or obtaining a driving licence.

The Child Maintenance and Other Payments Bill does however make provision for the Commission to administratively disqualify the non-resident parent for holding or obtaining travel authorisation. The disqualification would though be suspended, pending a court hearing, in the event that the non-resident parent lodged an appeal against the decision within 28 days of receiving the notification.

The loss of a driving licence has the potential to have an immediate and serious impact on the non-resident parent's day to day life, as well as implications for others—because people driving while disqualified are also uninsured. We have therefore decided that this decision should remain with the court. By contrast, most people require passports on relatively few occasions during the year, such as when taking foreign holidays.

Departments: European Union

Philip Davies: To ask the Secretary of State for Work and Pensions how many officials in his Department are *(a)* involved in assisting European Council negotiations, *(b)* involved in assisting and advising the European Commission, *(c)* seconded to the European Commission, *(d)* involved in monitoring EU decisions, communications, regulations and directives, *(e)* involved in enforcing compliance with EU decisions, communications, regulations and directives and *(f)* involved in other work related to the European Council, Commission or Court of Justice. [146084]

Mr. Plaskitt: Officials throughout the Department for Work and Pensions are involved in a full range of EU business. Those working specifically on the activities listed total: 16 in the International Employment and Social Policy Division; four in the Private Pensions Policy and Regulation Division; two in the Family, Poverty and Work Division; nine in the Law, Governance and Special Policy Group; eight in

European Social Fund Division; and 25 in Jobcentre Plus, supporting EU labour market mobility. The Department has two officials seconded to the European Commission, but a complete breakdown of the figures as requested would incur disproportionate cost.

COMMUNITIES AND LOCAL GOVERNMENT

Beaches: Safety

Mr. Hancock: To ask the Secretary of State for Communities and Local Government how many people *(a)* died and *(b)* were injured as a result of accidents on and around (i) local authority and (ii) privately owned beaches in each of the last three years for which figures are available. [149497]

John Healey: Information on the national total of deaths and injuries on local authority and privately owned beaches is currently not held centrally.

Mr. Hancock: To ask the Secretary of State for Communities and Local Government what recent discussions she has had with *(a)* local authorities, *(b)* the Royal National Lifeboat Institution and *(c)* other interested parties on (i) responsibility and (ii) facilities for beach safety; and if she will make a statement. [149498]

John Healey: The provision of information and practical beach safety measures is at the discretion of beach owners, including local authorities. Awareness of these issues is high among coastal authorities and many undertake these activities as part of their strategy to support and encourage tourism.

In February 2007, following discussions between the Royal National Lifeboat Institution, the Local Government Association Coastal Special Interest Group and the Department, the group wrote to all coastal local authorities in England, recommending to those with specific responsibilities for managing beaches, the offer by the RNLI to provide local authorities with a risk assessment service at no cost.

Community Development: Bedfordshire

Margaret Moran: To ask the Secretary of State for Communities and Local Government what arrangements her Department had in place to monitor the Bedfordshire Citizen Service Partnership; and what information her Department holds on arrangements for oversight and scrutiny of the partnership put in place by Bedfordshire county council. [149422]

John Healey: At the start of the project the Department agreed outcomes and milestones for the Bedfordshire Citizen Service Partnership with the lead authority, Bedfordshire county council.

Bedfordshire county council was responsible for putting in place arrangements to monitor progress on the project. The Department requested quarterly progress reports and a final implementation report from the lead authority. Progress reports from the Citizen Service Partnership indicate that a Joint Committee was established, made up of one nominated member from Bedfordshire county council, Luton council, Mid-Bedfordshire district council and South Bedfordshire district council. The responsibility of the Joint Committee was to facilitate all the functions in relation to the electronic delivery of services on behalf of the authorities. It met quarterly.

Community Development: South West Region

Mr. Drew: To ask the Secretary of State for Communities and Local Government what plans she has to increase black and minority ethnic engagement and participation in rural community life in south-west England; and what discussions she has had with South West Action for Communities in Rural England Network on this matter. [149408]

Mr. Dhanda: The Commission on Integration and Cohesion was commissioned to investigate issues relating to Cohesion and Integration in August 2006. A report was published on 14 June. Over the next few months the Government will be engaging widely with partners, and will respond fully in the autumn. This will include taking into account issues affecting black and minority ethnic engagement in rural communities.

The Department for Communities and Local Government funded the Black South West Network to work with the South West ACRE (Action for Communities in Rural England) Network to enhance black and minority ethnic engagement in the region.

In March 2007 a multi-agency group, chaired by the South West Regional Assembly, was established to examine the effects of migrant workers on communities in the region and to identify actions necessary to support both those workers and the communities, both urban and rural, in which they live.

Council Tax

Mr. Dai Davies: To ask the Secretary of State for Communities and Local Government whether she has examined the value for money obtained from the council tax since May 1997. [148714]

John Healey: Good progress has been made in delivering value for money for local taxpayers, as shown from information contained in annual efficiency statements since 2004-05. The Local Government White Paper sets out steps to ensure a performance framework remains in place to underpin continual improvement in value for money .

Ethnic Groups: South West Region

Mr. Drew: To ask the Secretary of State for Communities and Local Government how many and what percentage of the total population in each South West local authority area were of ethnic minority origin in the latest year for which figures are available. [149409]

Mr. Dhanda: The most recent information available was published in the 2001 census.

The headline Census Population by Ethnic Group statistics are contained within Key Statistics table KS06 which can be accessed via the Neighbourhood Statistics website:

http://www.neighbourhood.statistics.gov.uk/dissemination/Downloadl.do

Housing Associations

Andrew Rosindell: To ask the Secretary of State for Communities and Local Government how many community controlled housing associations there are in *(a)* England and *(b)* Essex. [147969]

Mr. Iain Wright: Housing associations registered with the Housing Corporation are not defined or categorised as "community controlled". There are 246 housing co-operatives registered with the Corporation in England of which one operates in Colchester, Essex. In addition five registered social landlords in England have been established on "Community Gateway" principles of community empowerment and devolution of management and ownership. Six others are currently seeking registration with the Corporation on this basis, of which one is based in Braintree in Essex.

Regional Government: East Midlands

Mr. Allen: To ask the Secretary of State for Communities and Local Government (1) if she will appoint a nine-member all party executive for the East Midlands region as a sounding board for regional issues; [149741]

(2) if she will consider bringing forward proposals to elect a nine-member all party executive for the East Midlands region. [149742]

John Healey: I refer the hon. Member to the oral statement made to the House on 17 July 2007, announcing the publication of the review of sub-national regeneration and economic development. The review sets out the Government's proposals for the future of regional institutions including regional assemblies.

Regional Government: South West Region

Mr. Harper: To ask the Secretary of State for Communities and Local Government if the Minister for the South West will make it his policy *(a)* not to support the continued existence of the South West Regional Assembly and *(b)* not to allocate any functions or any funding to that Assembly. [149407]

John Healey: I refer the hon. Member to the oral statement made to the House on 17 July 2007 announcing the publication of the Review of Sub-national Regeneration and Economic Development. The review sets out the Government's proposals for the future of regional institutions including regional assemblies.

Religious Buildings: Mosques

Mr. MacShane: To ask the Secretary of State for Communities and Local Government how many mosques there are in the UK. [150018]

Mr. Dhanda: The information requested is not held centrally.

Shropshire County Council: Unitary Councils

Daniel Kawczynski: To ask the Secretary of State for Communities and Local Government what documentation her Department received from political lobbyists working for Shropshire county council in *(a)* February, *(b)* March, *(c)* April, *(d)* May and *(e)* June 2007. [147667]

John Healey: We have received no documentation from political lobbyists in connection with the proposal for a unitary Shropshire.

Daniel Kawczynski: To ask the Secretary of State for Communities and Local Government what guidance her Department provided to local councils in *(a)* running and *(b)* funding campaigns over their bids for unitary authority status. [147794]

John Healey: The Department wrote to all chief executives in areas affected by the 16 unitary proposals under consultation, drawing their attention to the code of recommended practice on local authority publicity. The code makes it clear that local authorities should not at any time use public funds to mount publicity campaigns whose primary purpose is to persuade public to hold a particular view on a question of policy, and that authorities must take particular care when publicity is issued immediately prior to an election.

Daniel Kawczynski: To ask the Secretary of State for Communities and Local Government what plans she has to meet councillors from Shrewsbury council to discuss the unitary authority proposals for Shropshire. [147664]

John Healey: On 19 June, Ministers met with representatives of a number of Shropshire district councils, including Shrewsbury and Atcham to hear their representations on the proposal from Shropshire county council and Oswestry borough council for a unitary Shropshire. The consultation closed on 22 June and we have no plans for any such further meetings.

Daniel Kawczynski: To ask the Secretary of State for Communities and Local Government what meetings her Department has had with lobbyists working for Shropshire county council to discuss the proposed unitary authority for Shropshire. [147665]

John Healey: None.

World War II: Genocide

Miss Kirkbride: To ask the Secretary of State for Communities and Local Government what assessment she has made of the Holocaust Educational Trust's Lessons from Auschwitz project. [150251]

Mr. Dhanda: I refer the hon. Member to the answer given to my hon. Friend the Member for Hendon (Mr. Dismore) on 17 July 2007, *Official Report*, column 217W.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture

Matthew Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what the average farm size was in the *(a)* dairy, *(b)* crop, *(c)* horticulture, *(d)* livestock, *(e)* poultry and *(f)* organic sectors in (i) Cornwall, (ii) the South West and (iii) England in each year since 1979. [149219]

Jonathan Shaw: The following tables show the average holding size in (i) Cornwall and the Isles of Scilly (ii) the South West and (iii) England by predominant activity for 1995 to 2005. Holdings which farm organically are included in the results but cannot be identified separately. Data for 2006 will be available later this month.

Notes:
1. There have been changes in the farm type classifications therefore comparison over time is not possible for some categories.
2. Prior to 2000 minor holdings are not included in the figures. From 2000 onwards all holdings are included. A minor holding has to meet all the following conditions:
(a) have a total area of less than six hectares
(b) a labour requirement of less than 100 standard person days
(c) no regular full-time farmer or worker
(d) a glasshouse area of less than 100 square metres
(e) the occupier does not farm another holding
3. The introduction of the Single Payment scheme in 2005 has lead to an increase in the number of registered holdings.

Note that the fall in output values in 2005 is partly a consequence of the introduction of the Single Payment scheme which is not included in output (as it is decoupled from production).

Matthew Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what the average farm income in Cornwall was of *(a)* dairy, *(b)* crop, *(c)* horticultures, *(d)* livestock, *(e)* poultry and *(f)* organic farms in each year since 1979. [149221]

Jonathan Shaw: Table 1 shows average net farm income per farm in Cornwall for those farm types that are sufficiently represented in the Farm Business Survey from 1980. Table 2 shows comparable data for

the South West Government Office Region. Data are not available on a comparable basis for 1979. Data on organic enterprises were not collected prior to 1999-2000.

Net farm income is defined as the return to the principal farmer and spouse for their manual and managerial labour and on the tenant type capital of the business. It excludes all income arising from outside the farm business.

Table 1

Average net farm incomes (£/farm) in Cornwall[1]

March/February years	*[2]Dairy farms*	*Livestock farms*
1980-81	7,500	4,000
1981-82	11,100	8,500

Notes:
1. There have been changes in the farm type classifications therefore comparison over time is not possible for some categories.
2. In the years 1981 to 1986, some data for the Isles of Scilly was suppressed for confidentiality reasons. These data are not included in the figures.
3. Prior to 2000, minor holdings are not included in the figures. From 2000 onwards, all holdings are included. A minor holding has to meet all the following conditions:
(a) have a total area of less than six hectares
(b) a labour requirement of less than 100 standard person days
(c) no regular full-time farmer or worker.
(d) a glasshouse area of less than 100 square metres
(e) the occupier does not farm another holding.
4. The introduction of the Single Payment Scheme in 2005 has lead to an increase in the number of registered holdings.
Source:
June Agricultural Survey and June Agricultural Census.

Matthew Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs how many farm holdings there were in each sector of farming in Cornwall in each year since 1979. [149223]

Jonathan Shaw: The number of registered holdings in Cornwall and the Isles of Scilly at June each year from 1981 to 2005 can be found in the following table. Data for 1979 and 1980 are not available at this level. Figures for 2006 will be available later in the month.

Animal Welfare: Convictions

Mark Pritchard: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with police forces in England and Wales on establishing a central database for people convicted of animal welfare crimes. [149479]

Jonathan Shaw: There have been no discussions between DEFRA and police forces in England and Wales on this issue. Data about people convicted of cruelty to animals are already stored in centrally held criminal records.

Bovine Tuberculosis: Disease Control

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if he will press for action to be taken under the Berne Convention against countries where control of badgers is undertaken by methods banned under that convention. [150087]

Jonathan Shaw: Badgers (*Meles, meles*) are listed as a protected species under appendix III of the Berne Convention, but they are not an endangered species. The Berne Convention provides for exceptions to be made so as to allow the use of means and methods of killing prohibited under appendix IV, subject to certain conditions. I am not aware that any country is breaching the Berne Convention with respect to badger control.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what research he has evaluated on the proactive culling of badgers in Ireland in response to bovine tuberculosis; and what assessment he has made of the possible application of this policy to the UK. [149703]

Jonathan Shaw: We have reviewed the published findings of the Irish Four Areas badger culling trial (which were published in Preventative Veterinary Medicine in January 2005), as well as advice from independent scientists on whether the findings of the Irish research can be applied to the situation in England. The experience in the Republic of Ireland is not directly transferable to England because the badger population, farming practices and general environment are all very different. As a result, while we can learn from the Republic of Ireland's experiences, directly applying such a policy here is not possible.

The independent advice, together with a statement from DEFRA's chief scientific adviser, was published on the DEFRA website in March 2005 and can be found in the news archive at:

http://www.defra.gov.uk/animalh/tb/newsarchive.htm

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with the Irish Government on a vaccination strategy to reduce the incidence of bovine tuberculosis. [149704]

Jonathan Shaw: DEFRA officials have visited Ireland several times to discuss the UK and Irish work programmes and areas of potential future collaboration, particularly regarding the design of badger field studies and licensing requirements for Bacille Calmette-Guérin (BCG). The Veterinary Laboratories Agency also has active research links with Irish researchers.

Milk Production

Matthew Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what the volume of milk production was in *(a)* Cornwall, *(b)* the South West and *(c)* England in each year for which figures are available. [149220]

Jonathan Shaw: Precise estimates of milk production in these regions are not readily available. However, the following table provides estimates of the volume of milk produced in Cornwall, the South West and England for the years 1979 to 2006 calculated by applying the average UK milk yield to the number of dairy cows in each region.

Milk production (million litres)

	Cornwall and Isles of Scilly	*South West region*	*England*

Departments: Racial Harassment

David Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs how many complaints of racial abuse relating to staff for which his Department is responsible have been *(a)* investigated and *(b)* upheld in the last 12 months. [149254]

Jonathan Shaw: During the last 12 months (for the period July 2006 to July 2007) there have been no complaints of racial abuse relating to staff for which this Department is responsible that have been either investigated or upheld.

The Department has an internal intranet site which details the departmental policy on bullying and harassment. The site also details further information and the procedures for dealing with complaints of bullying and harassment together with details of local contacts and support advisers who can give help and advice to staff.

Departments: Regulation

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what progress his Department has made towards meeting its target of making a 25 per cent. reduction in administrative burdens on business by the end of 2009; [148730]

(2) what estimate he has made of the cost to business of administrative burdens imposed by regulations from his Department in each year since 2001; and if he will make a statement; [148731]

(3) what progress has been made by his Department towards its target of 25 per cent. reduction in administrative burdens on business by the end of 2009; and if he will make a statement; [149207]

(4) what estimate he has made of the cost to business of administrative burdens and regulations from his Department in each year since 2001; and if he will make a statement. [149208]

Jonathan Shaw: The total administrative burden from the 362 DEFRA regulations which, as of May 2005 imposed such a burden, was assessed to be £527.8 million per annum. This represents the Department's

administrative burden baseline. In our Simplification Plan "Maximising Outcomes, Minimising Burdens", which was published in December 2006 and is available from the Library, administrative reductions of around £159 million were identified. This represents a reduction of 30 per cent. on the baseline. Progress since then will be reported in our 2007 plan which is due for publication in the autumn. However, the Department is progressing well toward meeting its net administrative burden reduction target of 25 per cent. by 2010.

The cross-Government administrative burden measurement exercise, which identified the baseline administrative burden, was carried out by Pricewaterhouse Coopers (PwC) on behalf of the Cabinet Office. The exercise used an internationally agreed model, recommended to the Government by business. As the first UK Government to take this radical approach to managing the regulatory burden, there are no comparable data before 2005 when the exercise was carried out.

Energy: Radio

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what comparative analysis he has made of the power consumed by listening to the radio using *(a)* a traditional analogue set powered by the mains, *(b)* a digital radio powered by the mains and *(c)* via a television receiving digital radio through a set-top box receiver; and if he will make a statement. [149719]

Joan Ruddock: The Government's Market Transformation Programme (MTP) has tested a limited number of digital radios. The average energy needed to operate by those radios tested was around 8.5 watts. A typical traditional analogue radio requires 2 watts.

The Energy Saving Trust (EST) recently tested four televisions to estimate the energy consumed by listening to digital radio via a television and set-top box receiver. These tests indicated that listening to digital radio in this way required between 60 and 183 watts. The actual energy used varied according to the type of television, the screen size and whether the screen was on or the display was black. Black screen display is only available for BBC radio channels.

'Screen blanking', which allows the selected radio station to be received in audio only, can reduce the energy consumption to around 25 watts. Although not yet widely available, we expect this technology to become more common in the near future.

Farms: Income

Matthew Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what the average farm income was in *(a)* Cornwall, *(b)* the south west and *(c)* England of farms of size (i) less than 5 ha, (ii) 5 to 20 ha, (iii) 20 to 50 ha, (iv) 50 to 100 ha and (v) more than 100 ha in each year since 1979. [149218]

Jonathan Shaw: The following tables show average net farm income per farm in *(a)* Cornwall *(b)* the South West Government Office Region and *(c)* in England of farms of size (i) less than 5 ha, (ii) 5 to 20 ha, (iii) 20 to 50 ha, (iv) 50 to 100 ha and (v) more than 100 ha in each year since 1980. Data are not available on a comparable basis for 1979.

Farm Business Survey

Net farm income is defined as the return to the principal farmer and spouse for their manual and managerial labour and on the tenant type capital of the business. It excludes all income arising from outside the farm business.

Fisheries

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment he has made of levels of fish stocks in UK waters. [150080]

Jonathan Shaw: I refer my hon. Friend to the answer given on 19 June 2007, *Official Report*, columns 1662-63W.

Fisheries: Quotas

Mr. Greg Knight: To ask the Secretary of State for Environment, Food and Rural Affairs what recent estimates his Department has made of illegal fishing volumes *(a)* inland and *(b)* at sea; and if he will make a statement. [150115]

Jonathan Shaw: By its very nature illegal fishing is clandestine and so it is extremely difficult to make an accurate estimate of the levels of illegal fishing activities. We therefore use the level of prosecutions as a proxy for the level of illegal activity. Data below relates to inland and sea fisheries in England and Wales.

For inland Fisheries, the National Enforcement Database holds information that relates to offences where nets, snares, traps and spears have been used and where unauthorised fishing and failing to return fish has taken place. It predominantly records cases where serious poaching has occurred, which can result in imprisonment.

The following table shows the total number of fisheries convictions per year 2002-06.

	Convictions
2002	46
2003	31
2004	25
2005	70
2006	39

Source:
National Enforcement Database

The total number of convictions under the Sea Fisheries Regulations Act 1966 are as follows.

	Convictions
2002	0
2003	0
2004	4
2005	3
2006	10

Source:
National Enforcement Database

The following table shows the total number of convictions where people have been found to be fishing without a rod licence. This type of conviction holds a maximum fine of £2,500. The Fisheries Offence Prosecution System records cases involving salmon, trout, freshwater fish and eels. It does not include convictions for salt water related cases.

	Convictions
2003-04	3,651
2004-05	4,099
2005-06	4,939
2006-07	4,209

Source:
Fisheries Offence Prosecution System

At sea, the total numbers of sea fisheries offences detected in England and Wales per year resulting in convictions are set out as follows:

	Convictions
2000	131
2001	103
2002	84
2003	112
2004	73
2005	69
2006	88

Note:
The above table refers to the year in which the offences were detected. Convictions may occur in the same or following years.
Source:
Marine and Fisheries Agency—UK Fisheries Monitoring, Control and Surveillance System.

At the international level, with the caveat that estimates are based on a few case studies, recent UK funded work has reported that fish to the value of $4 billion US to $9 billion US are caught illegally worldwide every year. The UK is one of the countries in the international arena leading the fight against illegal, unreported and unregulated fishing, following the recommendations of the 2006 High Seas Task Force report, "Closing the Net". Together with international partners we have made progress on key projects aimed at exposing illegal activities, deterring them and improving enforcement action against those responsible.

Floods: Shropshire

Mark Pritchard: To ask the Secretary of State for Environment, Food and Rural Affairs what measures have been put in place to assist those affected by floods in Shifnal in Shropshire. [149199]

John Healey: I have been asked to reply.

The package of immediate support for flood hit areas announced by the Prime Minister on 7 July included a fund of £10 million to local authorities to support the work being done to help recovery for those hardest hit. On 13 July I approved a series of initial Flood Recovery Grant payments to 34 flood hit local authorities to help those in greatest and most immediate need get back on their feet.

On the basis of the relative number of households affected (based on the available information at the time) £50,000 was awarded to Bridgnorth district council in Shropshire. It is up to Bridgnorth district council to spend the money how they wish in line with local priorities and to decide what measures should be put in place to assist those affected in places such as Shifnal.

The £10 million is additional money to any resources provided under the Bellwin scheme which Bridgnorth district council may be in a position to apply for.

Paté de Fois Gras

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if he will bring forward proposals to ban the sale of foie gras. [149284]

Jonathan Shaw: I refer the hon. Member to the reply given to the hon. Member for Romford (Andrew Rosindell) on 25 June 2007, *Official Report*, column 83W.

Pet Shops

Mark Pritchard: To ask the Secretary of State for Environment, Food and Rural Affairs whether he proposes to bring forward regulations to ban the sale of puppies and kittens through pet shops. [149481]

Jonathan Shaw: DEFRA does not propose to ban the sale of puppies and kittens through pet shops. However, new regulations on pet vending will be introduced under the Animal Welfare Act 2006. We are considering a number of changes to improve the welfare of all animals sold through pet shops. All proposals will be subject to public consultation and parliamentary approval.

Sheep: Electronic Tagging

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the cost to the farming industry of implementing the sheep double tagging regulations; and if he will make a statement. [149160]

Jonathan Shaw: The Department's regulatory impact assessment (RIA), produced in 2005 to assess the options available for implementing European Union Council Regulation 21/2004, identified that implementation of the double tagging requirements would actually be cheaper than maintaining the national arrangements in place at the time. A revised RIA is being prepared to assess present day costs, but the 2005 estimates indicated there would be an annual saving to the industry in the order of around £2.8 million a year if double tagging, as provided for by the regulation, was introduced. Double tagging was not introduced at the time because of traceability issues and because it was not supported by industry.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons he decided to withdraw the application to the European Commission for the extension to sheep double tagging derogation; what advice he received on this course of action; and if he will make a statement. [149161]

Jonathan Shaw: The European Union's Food and Veterinary Office report on the latest mission was uncompromising. It identified that compliance with the derogated rules on sheep identification and movement reporting by the industry remained inadequate. The

European Commission made it very clear that they would not propose an extension to the UK derogation from double tagging. With the agreement of sheep industry stakeholders, the application for the derogation was withdrawn. Not to have done so might have compromised the outcome of forthcoming negotiations on the electronic identification of sheep.

Water Supply

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of long-term future water supply. [150083]

Mr. Woolas: The Environment Agency is the statutory body with the duty for managing water resources in England and Wales. Its aim is to ensure that the management and future development of our water resources is carried out in a sustainable manner.

In 2001, the Environment Agency published "Water Resources for the Future—A Strategy for England and Wales". This is a key part of the framework for integrated water resources planning carried out by the Environment Agency and water users, particularly the water companies. The publication considers both national and regional water resource strategies. These strategies set out pressures on water resources and how the Environment Agency expects these to be managed over the next 25 years.

In addition, all water companies in England and Wales have water resource management plans that describe how each company aims to secure a sustainable supply-demand balance for the public water supply over the next 25 years. Under the provisions of the Water Act 2003 these plans became mandatory from 1 April 2007 and for the first time they will be subject to public consultation.

HOME DEPARTMENT

Biometrics

Mr. Oaten: To ask the Secretary of State for the Home Department what recent tests her Department has carried out on the effectiveness of biometric *(a)* fingerprints, *(b)* iris scan and *(c)* facial identification systems. [149610]

Mr. McNulty *[holding answer 16 July 2007]:* The Biometrics Centre of Expertise (BCE) was created two years ago and is a part of the Home Office Scientific Development Branch (HOSDB). Its work includes following developments in fingerprint, iris and face recognition technologies. The BCE provide advice to Government Departments (such as UKVisas, Border and Immigration Agency (including eBorders), IPS) running biometric programmes, several of which have included testing as part of the procurement and implementation phases.

The BCE also maintain strong relationships with academia, industry and foreign governments which have conducted biometric testing. The BCE have not specifically commissioned biometric testing in relation to fingerprint, iris or face recognition however, the team has part funded the MTIT (Minutiae Template Interoperability Testing) project—a European project under the Sixth Framework programme (STREP)—which had a substantial testing component.

In policing, the National Policing Improvement Agency (NPIA) took over responsibility from PITO for the IDENT1 national finger and palm print system for the UK police service from 1 April 2007. As part of the supplier selection process for IDENT1 in 2004, PITO undertook extensive operational accuracy benchmarks of the two shortlisted suppliers' proposals. As a result of those tests, the NPIA is able to give assurance to the police service that IDENT1 search accuracy represents the state of the art for large scale biometric systems, in a law enforcement environment, and that it is fully capable of meeting the police requirements for both forensic identification and for the ongoing identity management of offenders, based on their fingerprints.

The matching performance of IDENT1 is routinely monitored and assessed by Northrop Grumman (the system integrator responsible for delivering the service) to ensure that it continues to meet the operational requirements of the UK police service.

The NPIA has undertaken no tests recently on iris or face, but are evaluating the potential for face recognition technologies for policing and plan to undertake some tests shortly.

Bournemouth

Mr. Ellwood: To ask the Secretary of State for the Home Department when she next expects to visit Bournemouth on official business. [148194]

Mr. Byrne: I have no current plans to visit Bournemouth.

Children: Internet

Margaret Moran: To ask the Secretary of State for the Home Department how many *(a)* internet service providers, *(b)* social networking sites and *(c)* other IT companies have adapted the Child Exploitation and Online Protection Centre's report abuse mechanism. [149448]

Mr. Coaker: The Child Exploitation and Online Protection (CEOP) Centre, which was launched in April 2006, works across the UK and maximises international links to deliver a holistic approach to tackling child sex abuse wherever and whenever it happens, in particular, from those who use the internet and other new technologies in the sexual exploitation of children. It combines police powers with the dedicated expertise of business sectors, government, specialist charities and other interested organisations.

CEOP Centre's report abuse mechanism allows members of the public to report potentially illegal activity (such as allegations of sexual grooming) direct to law enforcement. To date, over 750,000 children across the UK have been educated on how to use this reporting mechanism. The Home Secretary's Task Force has set up a working group which includes representatives from social network providers, CEOP and children's charities, to look at the range of safety issues for children caused by the development and

growth of social networking sites and develop good practice guidelines. We hope to publish this soon. One of the key areas under discussion is the means by which the public can make reports about potentially illegal activity to CEOP when they are online. One of the largest providers of Instant Messaging (IM) services in the UK has embedded the report abuse mechanism into its IM.

Electronic Surveillance: Admissibility of Evidence

Stephen Hesford: To ask the Secretary of State for the Home Department whether intercept evidence obtained by British security services is, in any circumstances, available and admissible as court evidence in foreign jurisdictions. [149413]

Mr. McNulty: The statutory prohibition on the use of intercept as evidence applies to all warranted interception undertaken on behalf of any UK intercepting agency, including the security service. However, under the EU Mutual Legal Assistance Convention arrangements, an EU member state can request the UK to undertake interception on behalf of one of its law enforcement agencies. This would be subject to restrictions imposed by the Secretary of State which can stipulate, amongst other things, that the material is not used in evidence.

Entry Clearances

John Bercow: To ask the Secretary of State for the Home Department what assessment she has made of the independent monitor's report into the issuing of tourist visas for visitors to the UK. [149803]

Dr. Howells: I have been asked to reply.

UKvisas' detailed responses to the specific recommendations made by the Independent Monitor in her 2006 report can be accessed on the UKvisas website at:

www.ukvisas.gov.uk/servlet/Front?pagename=OpenMarket/Xcelerate/ShowPage&c=Page&cid=1006977150169.

The responses are available under the "Table of Comments by UKvisas in Response to the Independent Monitor's Report 2006".

Insurance: Motor Vehicles

Mr. Laurence Robertson: To ask the Secretary of State for the Home Department what discussions she has had with the police about the accuracy of information provided to them by the Motor Insurers Bureau on uninsured drivers; and if she will make a statement. [150172]

Mr. Coaker *[holding answer 17 July 2007]:* The police make extensive use of the Motor Insurance Database (MID) to help identify vehicles being driven uninsured and seize around 1,500 vehicles a week. We are aware of very few cases where it has been alleged that inaccurate data have led to an unjustified seizure and the police inform us that such occurrences are very rare.

The Motor Insurers Bureau (MIB) makes information available to the police via the MID.

The accuracy of the MID is solely the responsibility of the insurance industry. It is for the police to decide in any individual case if they believe the information they obtain from the MID is sufficient to give them reasonable grounds for believing that a vehicle is being driven without appropriate insurance. In cases of doubt the MIB also provides a dedicated police helpline. Any challenge to the police seizure would be a matter for the courts.

Mr. Laurence Robertson: To ask the Secretary of State for the Home Department what guidance she gives to the police about seizing uninsured cars; and if she will make a statement. [150173]

Mr. Coaker *[holding answer 17 July 2007]:* The police seize vehicles driven by a person without appropriate insurance under section 165A of the Road Traffic Act 1988. The addition of this provision to the 1988 Act was one of a number of roads policing measures included in the Serious Organised Crime and Police Act 2005. Information on all these measures and the powers they confer was given to chief officers of police at the time and has been supplemented subsequently by responses to individual inquiries. How the powers are exercised is an operational matter for individual chief officers and any guidance that might be issued by the Association of Chief Police Officers.

Local Authorities: Terrorism

Mark Pritchard: To ask the Secretary of State for the Home Department what recent discussions she has had with local authorities about civil contingencies and emergency planning in the event of a *(a)* nuclear, *(b)* biological and *(c)* chemical or dirty bomb detonating in the United Kingdom. [149202]

Mr. McNulty: The Home Office has no direct responsibility for local authority emergency planning; however, given their important role in civil contingency planning and preparation at a local level, local authorities are represented throughout the Chemical, Biological, Radiological and Nuclear (CBRN) Resilience Programme governance structure. Home Office officials therefore have regular discussions with local authority representatives on a wide range of issues relating to contingency planning for the possible use by terrorists of CBRN materials.

Mujahedin-e Khalq: Disclosure of Information

Mr. Drew: To ask the Secretary of State for the Home Department if she will publish the information produced in camera for the hearing to discuss whether the People's Mujahedin of Iran should be de-proscribed. [150470]

Mr. McNulty: The Proscribed Organisation Appeals Committee (POAC) sits in public save when considering material the disclosure of which is contrary to the public interest. The closed session with a special advocate representing the interests of the appellants enables POAC to consider material that would be the subject of public interest immunity in ordinary High Court proceedings. The special advocate sees the sensitive material and can make submissions upon it.

In respect of the closed material deployed before it, POAC itself decides, in the light of argument from the special advocate, whether the Secretary of State's claim to maintain its confidentiality should be accepted. We will not therefore be publishing any of the closed material that will be heard before POAC.

Police: Driving Under Influence

David Simpson: To ask the Secretary of State for the Home Department pursuant to the answer by the Secretary of State for Wales of 5 July 2007, *Official Report*, column 1187W, on police: driving under influence, if she will introduce a central record of the number of police officers in Wales prosecuted, disciplined or dismissed for drink-driving offences. [149101]

Mr. McNulty: We have no plans to introduce such a central record. Police disciplinary action, whether in relation to drink driving or other misconduct, is a matter for individual chief officers.

Pornography: Children

Tim Loughton: To ask the Secretary of State for the Home Department how much funding has been made available to *(a)* Sussex Police and *(b)* all police forces in England and Wales to deal with computer-based child pornography in each of the last five years. [150324]

Mr. McNulty: Government funding for police authorities is chiefly allocated using a funding formula that provides an assessment of the relative need of each police force in England and Wales.

Funding to combat computer-based images of child abuse is not separately identified. Decisions on the distribution of resources are matters for the chief officer and the police authority.

Racial Violence

Sandra Gidley: To ask the Secretary of State for the Home Department how many xenophobic crimes there were in *(a)* Southampton, *(b)* Hampshire and *(c)* England in each year since 1997. [151028]

Mr. Coaker: The information requested is not collected centrally in the recorded crime statistics. The crime statistics have data for racially or religiously aggravated offences as defined by statute but those specifically of a xenophobic nature cannot be separately identified.

Sexual Offences: Internet

Margaret Moran: To ask the Secretary of State for the Home Department if she will take steps to require social networking sites *(a)* to cross-check new members against registered sex offenders' lists and *(b)* to prevent registered sex offenders from signing up for services. [149426]

Mr. Coaker: Access to information about the personal details and whereabouts of registered sex offenders is restricted to law enforcement agencies. The police do have the power to disclose information about sex offenders to the public in appropriate circumstances. However, we do not intend to make this information routinely available to internet service providers or other persons or organisations not concerned with law enforcement.

The Review of the Protection of Children from Sex Offenders, published on 13 June, indicated that the Government will take steps to enable sex offenders to be required to register their e-mail addresses with the police. This will provide greater assistance to law enforcement agencies in monitoring offenders' use of information and communication technology.

Sexual Offences: Wales

Mrs. Gillan: To ask the Secretary of State for the Home Department how many sex offenders are registered in each police force area in Wales. [149455]

Mr. Coaker *[holding answer 16 July 2007]:* I refer the hon. Member to the answer given to her on 9 July 2007, *Official Report*, column 1344W.

Mrs. Gillan: To ask the Secretary of State for the Home Department how many registered sex offenders in each police force area in Wales are *(a)* not at their registered address and *(b)* being searched for by their monitoring team. [149456]

Mr. Coaker *[holding answer 16 July 2007]:* I refer the hon. Member to the answer given to her on 9 July 2007, *Official Report*, column 1344W.

In the event of a registered sex offender being recorded as missing, the police will immediately begin efforts to trace that offender.

Sussex Police: Finance

Tim Loughton: To ask the Secretary of State for the Home Department what the budget is for Sussex police *(a)* in 2007-08 and *(b)* 2008-09. [150340]

Mr. McNulty: The budget for Sussex police authority in 2007-08 is £237.1 million, an increase of 4.4 per cent. or £9.9 million over 2006-07.

We will be announcing details of the police funding settlement for 2008-09 later this year. Sussex police authority will then be in a position to consider its final budget for 2008-09.

Sussex Police: Manpower

Tim Loughton: To ask the Secretary of State for the Home Department how many *(a)* police officers and *(b)* civilian staff have been employed by Sussex police in each of the last 10 years, expressed as *(a)* a head count and *(b)* as whole time equivalents. [150341]

Mr. McNulty: The available data for full-time equivalent police officers and police staff are given in the table. Headcount figures for police officers exclude those on long term absence, referred to as officers "available for duty", are available from 2002-03 onwards.

Police officer strength for Sussex police force area as at 31 March 1996 to 31 March 2006

As at 31 March:	Full-time equivalent[1]	Headcount[2]
1996	3,074	—
1997	3,085	—
1998	2,996	—
1999	2,847	—
2000	2,822	—
2001	2,855	—
2002	2,893	—
2003	2,989	3,003
2004	3,039	3,145
2005	3,044	3,048
2006	3,092	3,086

[1] Full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding, there may be an apparent discrepancy between totals and the sums of the constituent items. Figures exclude those on career breaks or maternity/paternity leave.
[2] Officers available for duty. Excludes those on long term absence. Data available from 2002-03, following police numbers task force recommendations in 2001.

Police staff strength[1] for Sussex police force area as at 31 March 1996 to 31 March 2006

As at March:	Full-time equivalent[2]	Headcount[4]
1996	1,131	—
1997	1,149	1,250
1998	1,185	1,304
1999	1,393	1,516
2000	1,328	1,430
2001	1,454	1,563
2002	1,507	1,617
2003[3]	1,578	1,706
2004[3]	1,811	1,948
2005[3]	1,950	2,101
2006[3]	1,994	2,157

[1] Civilian staff have been referred to as Police staff since March 2003. Figures exclude Traffic Wardens, Police Community Support Officers and Designated Officers (s.38).
[2] Full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding, there may be an apparent discrepancy between totals and the sums of the constituent items. Figures exclude those on career breaks or maternity/paternity leave.
[3] Strength figures as at 31 March 2003 onwards include those staff on career breaks or maternity/paternity leave. Therefore these figures are not comparable with those provided for other years in the table.
[4] Data not available prior to 1997.

Yarl's Wood Detention Centre: Complaints

Mr. Hancock: To ask the Secretary of State for the Home Department how many detainees of Yarl's Wood Immigration Removal Centre were removed from the UK before their civil claims for ill treatment were settled in each of the last three years. [149795]

Mr. Byrne: The information requested could only be obtained by the detailed examination of individual case records at disproportionate cost.

DEFENCE

Afghanistan: Peace Keeping Operations

Mr. Dai Davies: To ask the Secretary of State for Defence what assessment he has made of the figures provided by the United Nations Assistance Mission in Afghanistan for the number of Afghan civilians killed by *(a)* Taliban fighters and *(b)* NATO forces in Afghanistan. [148716]

Des Browne: All casualties are a source of profound regret and ISAF and coalition forces seek at all times to avoid them. The targeting process, weapons selection, doctrine, training and rules of engagement all recognise this. The Taliban show no such concerns when they target civilians indiscriminately with suicide bombs or improvised explosive devices, nor when they deliberately kill innocent civilians such as teachers and local leaders for opposing their views.

Aircraft Carriers

Miss McIntosh: To ask the Secretary of State for Defence what recent representations he has received on the future of the aircraft carrier fleet. [149533]

Mr. Bob Ainsworth: My right hon. Friend has received no recent representations on the future of the existing aircraft carrier fleet.

Aldershot Barracks: Housing

Mark Pritchard: To ask the Secretary of State for Defence what discussions have been held with *(a)* Aspire Defence and *(b)* Sodhexo Defence on the provision of hot water in non-commissioned officers' living accommodation at Aldershot barracks. [149126]

Derek Twigg: Discussions are routinely held with Aspire Defence Limited about the provision of hot water to existing buildings, while major rebuilding work takes place.

Known faults relating to the provision of plumbing services to the non-commissioned officers' living accommodation in Aldershot are being dealt with promptly by Aspire.

Sodexho have been sub-contracted by Aspire Defence Services (a sub-contractor of Aspire Defence Limited) to provide retail, catering and cleaning services and have no responsibility for the provision of 'hot water' to non-commissioned officers' living accommodation at Aldershot barracks.

Armed Forces: Desertion

Nick Harvey: To ask the Secretary of State for Defence how many service personnel were reported as absent without leave in each *(a)* month and *(b)* year between January 1997 and December 2003. [147937]

Mr. Bob Ainsworth: The following table shows absence without leave statistics by calendar year between 1997 and 2003:

	Navy	RAF	Army
1997	30	15	1,450
1998	30	15	1,850
1999	35	20	2,055
2000	60	25	2,710
2001	95	25	2,650

	Navy	RAF	Army
2002	105	25	2,950
2003	120	35	2,820

Notes:
1 Both the Navy and the Army record AWOL statistics by the number of incidences of AWOL rather than the number of people who have gone AWOL, so there may be a number of people who are represented more than once in these figures.
2 Figures are rounded to the nearest five and are as at 6 July 2007.

Monthly breakdowns of the figures for the Royal Air Force and the Army could be provided only at disproportionate cost. A table showing the number of Royal Navy personnel absent without leave in each month between 1997 and 2003 is as follows:

	1997	1998	1999	2000	2001	2002	2003
January	2	6	1	5	4	8	8
February	1	5	5	8	15	9	4
March	3	4	1	1	5	7	7
April	1	0	2	4	10	8	12
May	1	0	2	5	9	6	11
June	2	2	4	4	7	10	13
July	2	0	8	5	14	11	17
August	1	2	3	1	6	16	10
September	5	2	3	5	6	13	11
October	5	4	4	7	6	14	4
November	4	3	2	6	7	4	8
December	5	1	0	4	3	5	13

The RN criterion for personnel being reported as AWOL is that Commanding Officers must ensure missing persons/absentees are reported to Naval Provost Marshal (East) within a period of 24 hours. The Army maintains a central record through those incidents reported to the Royal Military Police which occur when an individual has been absent for seven days. Absences for less than seven days are only recorded at unit level and not held centrally. The RAF figures show the records of incidents of AWOL reported regardless of timescale.

Differences in figures for individual years compared to previous answers occur because personnel may have been wrongly reported as AWOL in the first instance, or conversely they may have subsequently been found to have been AWOL and the records rectified later.

Armed Forces: Health Services

Mr. Harper: To ask the Secretary of State for Defence what surveys of patient care his Department undertakes; and if he will publish the results. [149313]

Derek Twigg: The Royal Centre for Defence Medicine at Selly Oak, Birmingham and the Defence Medical Rehabilitation Centre at Headley Court are both currently conducting surveys of patient care. Both surveys indicate that the overwhelming majority of patients rate their overall care as good, very good or excellent.

I am currently reviewing the survey data that are collected across all defence medical units, with a view to publication of further details in due course.

Armed Forces: Housing

Mark Pritchard: To ask the Secretary of State for Defence what complaints mechanism is available to military personnel who wish to register a complaint about living accommodation provided by *(a)* Aspire Defence and *(b)* Sodhexo Defence in military establishments. [149125]

Derek Twigg: Aspire Defence Ltd. is contracted to deliver and maintain new and refurbished single living, working, technical and recreational accommodation, including the full range of support services, to Aldershot Garrison and the garrisons located around the Salisbury Plain Training Area.

If an individual wishes to register a complaint about their living accommodation, or any other aspects of Aspire's service (including that provided by their subcontractors); they can either report it to the Aspire Helpdesk (in person, by telephone or facsimile) or through the chain of command. The Aspire Helpdesk operates on a 24 hour, seven days a week basis, and is available to all personnel. It is performing to an exceptionally high standard, with 97 per cent. of calls being answered within 30 seconds, compared to the contractual specification of 95 per cent.

Sodexho has no responsibilities for the provision or maintenance of accommodation at military establishments. Sodexho, as subcontractors on several PFI contracts, provide Soft Facilities Management services such as cleaning, catering, retail and leisure.

Dr. Murrison: To ask the Secretary of State for Defence how much was spent on *(a)* routine maintenance and *(b)* upgrading of armed forces (i) married quarters and (ii) single accommodation in each year since 1997. [149666]

Derek Twigg: I refer the hon. Member to my answer on 16 January 2007, *Official Report*, column 1008W, and to my letter of 20 March 2007, a copy of which is available in the Library of the House.

Nick Harvey: To ask the Secretary of State for Defence how many cases of carbon monoxide poisoning were reported in armed forces accommodation in each year since 1997. [149668]

Derek Twigg: Records going back to 1997 are either no longer available or in a collated form. It will take time to identify what information is available and I will write to the hon. Member and place a copy of my letter in the Library of the House.

From the information that is readily available, I can confirm that there have been five suspect cases of carbon monoxide reported since January 2006 in service families accommodation in England and Wales, of which two were substantiated and remedial action taken.

Nick Harvey: To ask the Secretary of State for Defence what proportion of service families' accommodation was deemed uninhabitable in each year since 2005. [150028]

Derek Twigg: The information requested is not held centrally and it will take time to collate. I will write to the hon. Member and place a copy of my letter in the Library of the House.

Dr. Murrison: To ask the Secretary of State for Defence how many service married quarters were built in each year since 1997. [150126]

Derek Twigg: The information requested is not held centrally and will take time to collate. I will write to the hon. Member and place a copy of my letter in the Library of the House.

Armed Forces: Life Insurance

Dr. Murrison: To ask the Secretary of State for Defence if he will make an assessment of the merits of seeking to promote risk-blind life insurance schemes endorsed by his Department for low-risk armed services personnel. [149678]

Mr. Bob Ainsworth *[holding answer 16 July 2007]*: As a matter of policy MOD does not endorse or sponsor any commercial insurance scheme. The MOD, therefore, leaves the decision on whether to take out personal insurance to the individual as individual needs vary and personal insurance is a complex issue which is increasingly regulated by the Financial Services Authority (FSA). The MOD does, however, provide significant financial benefits for attributable death and injury during service. These were improved under the 2005 Armed Forces Pension scheme and Compensation scheme introduced on 6 April 2005.

There are two main life insurance schemes available to Service personnel that cover all risks including war and terrorism. Both provide cover to all personnel, regardless of whether they are low or high risk to the insurer. One of these schemes, PAX (which provides personal accident and life cover) is risk blind as the premium is set at a flat rate for all. Whilst premiums under the other scheme, Service Life insurance (SLI), take account of age and smoking history and therefore are not risk blind, they are not loaded for high risk activities and are therefore comparable to those paid by civilians.

Departments: BAE Systems

Mr. Carswell: To ask the Secretary of State for Defence how many former departmental staff are working in senior management positions with BAE Systems. [148145]

Derek Twigg: The MOD does not hold this information.

Departments: Disciplinary Proceedings

David Simpson: To ask the Secretary of State for Defence how many people in his Department have been *(a)* disciplined and *(b)* dismissed for (i) inappropriate use of the internet while at work and (ii) using work telephones to access premium rate telephone numbers in the last 12 months. [149194]

Derek Twigg: Information is not held centrally in respect of MOD civil servants and could be provided only at disproportionate cost.

The following table shows the figures for the armed forces during the period June 2006 to June 2007.

	Disciplined				*Dismissed*			
	Royal Navy	*Army*	*RAF*	*Total*	*Royal Navy*	*Army*	*RAF*	*Total*
Internet	1	1	0	2	0	0	0	0
Telephone	0	1	0	1	0	0	0	0

Notes:
1. The same army service person disciplined for inappropriate use of the internet while at work was also disciplined for using a work telephone to access premium rate telephone numbers.
2. These figures show the records of details held centrally, there may also be cases dealt with at unit/station level by disciplinary or administrative action depending on the circumstances. Records of these are not held centrally.

Departments: Land

Mr. Hancock: To ask the Secretary of State for Defence what disposals his Department made of land in Hampshire in each year since 1997; and whether he required any of the land to be used for social housing. [149940]

Derek Twigg: The Ministry of Defence (MOD) supports the Government's housing agenda and works closely with English Partnerships, the regional development agencies, local authorities and other key stakeholders when considering its disposal strategy. This will often include an assessment of development and regeneration opportunities, including the need for social housing, through the preparation of a planning briefer outline planning application. This can be taken forward by prospective purchasers but it is not for the MOD to impose any requirements.

The MOD property assets disposed of in Hampshire for the years requested are listed as follows. The list does not include the Service Families Accommodation (SFA) in Hampshire, that was part of the SFA estate in England and Wales sold to Annington Homes Ltd. in 1996.

While every care has been taken in preparing this response in the time available, the accuracy can not be guaranteed prior to 2000 when electronic records were introduced.

Financial year 2006-07

Clayhall Cottage, 51 Clayhall Road, Gosport
Defence Munitions Dean Hill, Main Site and adjacent land
Royal Navy Military Transport Depot, Hilsea
Queensgate site, Farnborough
Community Centre, Guillemont Fields, Cove
Further land at North Lane, Aldershot
Land at 1 Roman Way, Barton Stacey
Civil Enclave, Farnborough

Financial year 2005-06

HMS Daedalus Technical Site and Residual Airfield areas
HMS Daedalus Main Airfield area.
Fleet Photographic Unit, Stamshaw
Footbridge above Nimrod Drive (Rowner Footbridge)
Portsmouth Private Finance Initiative (SFA) Phase 1, Daedalus
Small plot of land adjacent to Eastney Sports Ground

Strip of land at 54 Military Road, Gosport
Small parcel of Land at Oil Fuel Depot Gosport
Pumphouse Site, Church Crookham
Land adjacent King George V cottages, Minley
Land at Lancaster Way, Farnborough
Minley Farm West, Minley

Financial year 2004-05

The Brambles, 44 Marine Parade West, Lee-on-the-Solent
1-46 Rodney Close, Rowner, Gosport
Land at Seafield Park, Stubbington
Land at Manor House Farm, Barton Stacey
Garden Land at Amport House, Andover
Ski-Slope, Aldershot
Burger King/Car wash site, Wellington Ave, Aldershot
Land at Norris Bridge, Aldershot
RAF Officers' Mess, Farnborough Rd, Farnborough
Land adjacent to Hawley Training Area
Land at North Lane, Aldershot

Financial year 2003-04

Disposal of SCU Leydene, East Meon
Sale of Fort Southwick, Portsdown
2-12 (even) Military Road, Hilsea, Portsmouth
Royal Engineer Lines/St. Lucia Lodge, Bordon
Land at Hospital Road, Aldershot
Land at The Ferns, Aldershot
Vine Cottage Bungalow plot, Aldershot

Financial year 2002-03

Land at United Services Sports Ground, Portsmouth

Sale of Royal Marines Association Pavilion, Eastney, Portsmouth
Land at Tipner Lane Portsmouth
Land at Stamshaw Promenade
Hilsea Sportsfield
Sale of land at Hilsea Sportsfields
Ordnance Supply Unit Liphook, Liphook
48, Coopers Lane, Bramley

Departments: Official Visits

David Simpson: To ask the Secretary of State for Defence how much was spent on overnight accommodation by civil servants within his Department's areas of responsibilities in the last 12 months. [149043]

Derek Twigg: This information is not held centrally in the form requested and could be provided only at disproportionate cost.

Departments: Public Appointments

Lynne Jones: To ask the Secretary of State for Defence what the business appointments process comprises; and whether interviews are required in addition to written applications. [149732]

Des Browne *[holding answer 16 July 2007]:* The Rules on the Acceptance of Outside Appointments by Crown Servants' are set out in The Civil Service Management Code (Section 4.3 Annex A). Applications from MOD staff at Senior Civil Service Pay Band 2 (SCS PB2) or military equivalent and below will be approved at an appropriate senior level within the MOD, taking into consideration the results of internal consultation and representations from competitor companies, and. in the case of SCS PB2 level applicants, the views of the Head of the Home Civil Service. For more senior applicants, the MOD provides the independent Advisory Committee on Business Appointments with a recommendation and the final decision is made by the Prime Minister on the advice of the Advisory Committee.

Interviews are not required, but a meeting may be requested by an applicant before a final decision is taken on their application.

Depleted Uranium: Irish Sea

Chris Ruane: To ask the Secretary of State for Defence how many depleted uranium shells were fired into the Irish Sea and the waters feeding into the Irish Sea in each of the last 30 years. [146891]

Derek Twigg *[pursuant to the reply, 5 July 2007, Official Report, c. 1134W]:* The final sentence should read:

The reason for the discrepancies cannot be fully determined as original records have been destroyed, but it is known that in some case, preparatory rounds, which did not contain DU, were included in the earlier data.

Ex-servicemen: Disabled

Nick Harvey: To ask the Secretary of State for Defence what the average period of time was for former service personnel between their discharge from service and receipt of veterans' disability benefits in each month in the last five years. [148345]

Derek Twigg: The information is not held centrally and could be provided only at disproportionate cost.

Iraq: Peace Keeping Operations

Mr. Gray: To ask the Secretary of State for Defence how many fatalities there were in *(a)* Iraq and *(b)* Afghanistan in each year since 2003. [150162]

Des Browne: Information on casualties and fatalities in Iraq and Afghanistan is published on the MOD website (http://www.mod.uk/DefenceInternet/FactSheets/OperationsFactsheets) two weeks in arrears.

The following table shows the number of fatalities UK forces have suffered while carrying out operations in Iraq and Afghanistan since 2003.

	Operation	
	Telic (Iraq)	*Herrick (Afghanistan)*
2003	53	0
2004	22	1
2005	23	1
2006	29	39
1 January 2007-15 July 2007	32	20

Ministry of Defence Police: Colchester Garrison

Bob Russell: To ask the Secretary of State for Defence how many Ministry of Defence Police *(a)* inspectors, *(b)* sergeants and *(c)* constables are employed at Colchester Garrison. [150467]

Derek Twigg: The current number of Ministry of Defence Police officers employed at Colchester is:

	Number
Sergeants	2.5
Constables	6.5

Modern Housing Solutions: Engineers

Nick Harvey: To ask the Secretary of State for Defence how many engineers are *(a)* employed and *(b)* privately contracted by Modern Housing Solutions. [150021]

Derek Twigg: Modern Housing Solutions (MHS) does not directly employ any engineers, although there are 1,861 engineers who are sub-contracted by MHS.

Nick Harvey: To ask the Secretary of State for Defence to how many days of paid holiday engineers for Modern Housing Solutions are entitled; and at what times of year they are granted holiday leave. [150022]

Derek Twigg: There are no engineers directly employed by Modern Housing Solutions (MHS). All are sub-contracted by MHS and as such their holiday entitlement is at the discretion of their respective employers.

Navy: Military Bases

Mr. Hancock: To ask the Secretary of State for Defence when further consultation over the naval bases review will be commissioned; when it will begin; for what reason further consultation is being undertaken; and if he will make a statement. [149484]

Mr. Bob Ainsworth: The naval base review (NBR) is currently considering a number of broad cross-Government issues. As part of this work, we are currently engaged with other Government Departments including HM Treasury, the Department for Business, Enterprise and Regulatory Reform and the Department for Communities and Local Government. Working with them, we are assessing the possible cross-Government cost implications for the different NBR options to ensure a clear understanding of the best value for the taxpayer.

While this complex pan-Government work is progressing well, further work is required before final conclusions can be reached. One aspect of this additional work might be the need for public consultation.

Dr. Julian Lewis: To ask the Secretary of State for Defence whether a decision has been taken in principle to retain all three naval bases. [149881]

Mr. Bob Ainsworth: No decisions have yet been taken with respect to the naval base review.

Nimrod Aircraft

Mr. Liddell-Grainger: To ask the Secretary of State for Defence how many RAF personnel are stationed at the Nimrod MRA4 trainer facility at Kinloss on an *(a)* permanent and *(b)* temporary basis; and at what cost in the last period for which figures are available. [149581]

Mr. Bob Ainsworth: Five RAF personnel are permanently stationed at the Nimrod MRA4 training facility at RAF Kinloss and their costs are estimated at £400,000 per annum. RAF members of the joint MOD/BAE Systems flight trials team who are

stationed at Warton travel to RAF Kinloss to man the simulator as required, to assess the operation of the simulator against the actual aircraft and to confirm its suitability for training. Costs of these personnel are not separately recorded.

RAF Lakenheath: Nuclear Weapons

Mr. Hancock: To ask the Secretary of State for Defence how many US nuclear weapons are based at USAF Lakenheath, Suffolk; and what plans there are to reduce the number. [149496]

Mr. Bob Ainsworth: NATO's Strategic Concept (paragraph 63) states that

> "Nuclear forces based in Europe and committed to NATO provide an essential political and military link between the European and the North American members of the Alliance. The Alliance will therefore maintain adequate nuclear forces in Europe."

It is NATO and UK policy to neither confirm nor deny the presence of nuclear weapons at a given location.

Territorial Army: Expenditure

Mr. Harper: To ask the Secretary of State for Defence what the total expenditure was on the Territorial Army in each year since 1997. [148234]

Mr. Bob Ainsworth: The information is not held in the format requested and could be provided only at disproportionate cost.

Torpedoes: Environment Protection

Dr. Julian Lewis: To ask the Secretary of State for Defence what limitations have been imposed on Royal Navy heavyweight torpedo firings following adverse environmental impact assessments in respect of the copper guidance wires; and if he will make a statement. [149883]

Mr. Bob Ainsworth: We are not aware of any adverse environmental impact statements in respect of the Royal Navy's heavyweight torpedo guide wire system. No restrictions have therefore been imposed on heavyweight torpedo firings.

FOREIGN AND COMMONWEALTH OFFICE

Commonwealth Heads of Government Conference

Mr. Greg Knight: To ask the Secretary of State for Foreign and Commonwealth Affairs what matters are to be discussed at the Commonwealth Heads of Government meeting in November; what the Government's objectives for that meeting are; and if he will make a statement. [150264]

Meg Munn: The Ugandan theme for the Commonwealth Heads of Government meeting is transforming Commonwealth societies to achieve political, economic and human development. The formal agenda has yet to be confirmed, although there will be reports to Heads of Government from the Commonwealth Secretary-General's Commission on Respect and Understanding and from the Committee on Commonwealth Membership, as well as the selection of a new Commonwealth Secretary-General. My right. hon. Friend the Prime Minister looks forward to taking part in frank and fruitful discussions with his Commonwealth counterparts on these and other key issues at the meeting.

Entry Clearances: Training

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what training programmes are in place for staff assessing visa applications. [149804]

Dr. Howells: Entry clearance officers (ECOs) with no previous entry clearance experience must complete an intensive three-week course before undertaking entry clearance work at our missions overseas. Immigration officers from the Border and Immigration Agency must complete a one-week 'conversion' course. Both courses are based on continuous assessment and all ECOs must obtain a "Pass" mark at the end of their training before they can take up their posting.

Entry clearance managers (ECMs) must complete an eight-day course covering all aspects of visa section management. Officers who have had no entry clearance experience within the previous two years must also complete the three-week ECO course before taking up an ECM position.

In addition, the training team delivers regional training workshops in the ten Director of Visa Services global regions between September and April each year.

Iran: Capital Punishment

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of the use of capital punishment, in particular stoning, in Iran over the last 12 months. [149714]

David Miliband: We are deeply concerned at the increasing use of capital punishment in Iran. Last year Iran executed more people than any other country in the world except China (whose population is over 15 times the size). Many of the most basic standards in the application of capital punishment are absent and executions are often carried out in public. Iran is one of a tiny handful of countries that continues to execute juvenile offenders. This abhorrent practice is a clear breach of Iran's international human rights commitments under the International Covenant on Civil and Political Rights and the Convention on the Rights of the Child, and runs contrary to the moratorium on juvenile executions that Iran announced in 2005.

We received reports that a man and a woman, Jafar Kiani and Mokarrameh Ebrahimi, were due to be stoned to death for adultery in Qazvin province in June. The EU presidency made representations to the Iranian authorities, and the executions were halted. We were very disturbed to hear confirmation from the Iranian Judiciary, that Mr. Kiani was subsequently executed by stoning on 5 July. The Head of Iran's Judiciary announced a moratorium on stonings in 2002 and although stoning sentences continue to be handed down by judges, this is the first confirmed report of a sentence being carried

out in recent years. The EU presidency issued an immediate statement, on 10 July, condemning the sentence, which is in clear violation of international laws, and called on Iran to stop the execution of Ms Ebrahimi. The UN High Commissioner for Human Rights also issued a statement of concern on 10 July. We are also concerned by the recent announcement by a Judiciary spokesperson that Iran intends to hang 20 criminals imminently.

We remain strongly opposed to the death penalty in all its forms and consider stoning to be a cruel and inhuman punishment. We will continue to urge Iran to uphold its international human rights obligations, to implement fully the moratoria on stonings and juvenile executions and to introduce them into law, as recommended in the UN General Assembly Resolution on Human Rights in Iran adopted in December 2006, in order to abolish these punishments completely.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of trends in use of stoning as a penalty in Iran. [150491]

Dr. Howells: I refer my hon. Friend to the reply I gave him today (UIN 149983) and the reply my right hon. Friend the Foreign Secretary gave to the right hon. Member for Richmond, Yorks (Mr. Hague) also today (UIN 149714).

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made in the case of Jafar Kiani, recently stoned to death in the village of Aghche Kand, North West Iran, for alleged adultery. [149983]

Dr. Howells: We received reports in June that Jafar Kiani and his partner Mokarrameh Ebrahimi were due to be executed imminently by stoning for adultery. The EU presidency immediately made representations to the Iranian authorities, on behalf of all EU partners, in Tehran and Berlin on 20 June. The Iranian Foreign Ministry and Judiciary gave assurances that the moratorium on stoning, announced in 2002, was still in place and the executions would be halted.

We were therefore extremely shocked to hear confirmation from the Iranian Judiciary that Jafar Kiani was subsequently stoned to death on 5 July, despite these assurances. Although stoning sentences continue to be handed down by judges, this is the first confirmed report of a sentence being carried out in recent years. Mr. Kiani's execution violates both Iran's declared moratorium on stoning and the International Covenant on Civil and Political Rights (ICCPR), to which Iran is a party. The ICCPR states that "in countries which have not abolished the death penalty, the sentence of death may be imposed only for the most serious crimes" and that "no-one shall be subjected to torture or to cruel, inhuman or degrading treatment or punishment". The stoning of Mr. Kiani violates both these principles.

The EU presidency issued an immediate statement on 10 July condemning the execution of Mr. Kiani and called on Iran to stop the execution of Mokarrameh Ebrahimi. The UN High Commissioner for Human Rights also issued a statement of concern on 10 July. I called in the Iranian ambassador on 16 July to protest this execution. I restated our fundamental opposition to the death sentence in all circumstances and urged the authorities to uphold the moratorium and to ensure that it is applied in the case of Ms Ebrahimi.

Iran: Nuclear Power

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what response he has made to the remarks by the head of the International Atomic Energy Agency (IAEA) at the 9 July meeting of the IAEA board of governors that there has been a slowing in the process of commissioning new cascades in Iran's centrifuge facility at Natanz; and what the change in the use of centrifuges at Natanz has been. [149629]

David Miliband: We have noted the remarks of the Director-General of the International Atomic Energy Agency (IAEA), Dr. El Baradei, about a slowing in the process of commissioning new cascades at Natanz. We await further information from the IAEA before we can make a detailed assessment of this development, but a key point is that the relevant UN Security Council resolutions require Iran to suspend all enrichment-related activities, not merely to slow down the rate of their expansion.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what his latest assessment is of Iran's military nuclear capability. [150179]

Dr. Howells: We have serious concerns about Iran's nuclear programme. The Director-General of the International Atomic Energy Agency (IAEA) reported on 23 May that he was still unable to verify certain aspects relevant to the scope and nature of Iran's programme. Therefore, the IAEA was unable to provide assurances about the absence of undeclared nuclear material and activities, or about the exclusively peaceful nature of the programme. Until the IAEA can provide such assurances, the international community's concerns about Iran's programme will remain.

Middle East: Terrorism

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what recent representations he has made to the Palestinian authorities on the production of children's videos encouraging attacks on Israeli citizens; and if he will make a statement; [150994]

(2) what recent representations he has made to Arab Governments on the production of children's videos encouraging attacks on Israeli citizens; and if he will make a statement. [150995]

Dr. Howells: Following the broadcast in April of a Palestinian children's TV programme which sought to incite violence against Israel and the US, the then Palestinian National Unity Government asked the TV station to stop the programme. The then Palestinian Information Minister, Mustafa Barghouti said the programme took a "mistaken approach" to the political

situation. The programme was finally pulled on 29 June. We have not made any representations to the Palestinian Authority or Arab Governments on this issue.

The UK continues to condemn any actions which incite hatred and violence.

Moldova: Official Visits

Mark Pritchard: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to support the first ever visit of the President of Moldova to the United Kingdom in autumn 2007; and if he will make a statement. [150243]

Dr. Howells: We are looking at future opportunities for inward visits from Moldova from senior figures including the President of Moldova. The timing of the president's visit, however, has not yet been confirmed.

The UK enjoys a constructive relationship with Moldova and welcomes further co-operation between the UK and Moldova both bilaterally and within the EU. Over the last year, we have welcomed many high profile visitors to the UK, particularly Moldovan Ministers and parliamentarians. The Speaker of the Moldovan Parliament, Dr. Marian Lupu, visited the UK in February last year for meetings with Foreign and Commonwealth Office officials. Valeriu Ostalep, Deputy Minister for Foreign Affairs and European Integration visited the UK in July 2006, while the Minister of Defence, Valeriu Plesca, visited the UK in September 2006, meeting with, among others, my noble Friend the Minister of State for Defence, Lord Drayson. My right hon. Friend the Member for Ashfield (Mr. Hoon) the then Minister for Europe met President Voronin and other senior figures during his visit to Moldova in February this year, and met the First Deputy Prime Minister, Mrs. Zinaida Grecianii, on her visit here last November.

Nuclear Disarmament

Mr. Dai Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs by what means he plans to take forward the proposals announced by his predecessor to the Carnegie International conference on 25 June of creating a disarmament laboratory to support a verification of the dismantlement of nuclear warheads and delivery vehicles. [150235]

Dr. Howells: My right hon. Friend the former Foreign Secretary announced that the UK would act as a "disarmament laboratory" for the thinking and practical work required to move forward global nuclear disarmament.

As the speech made clear, we are supporting an independent International Institute of Strategic Studies (IISS) in-depth study to help determine the requirements for the eventual elimination of all nuclear weapons. In particular, we are working with IISS on holding a workshop to focus on some of the crucial technical questions in this area.

We have also tasked the Atomic Weapons Establishment at Aldermaston with some detailed work on key stages in the verification of the reduction and elimination of nuclear weapons. This work is beginning and will produce results over the next few years.

Palestinians: Politics and Government

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is *(a)* taking and *(b)* plans to take to strengthen the emergency Government of Mahmoud Abbas; and if he will make a statement. [149943]

Dr. Howells: EU Foreign Ministers agreed at the 18 June General Affairs and External Relations Council to urgent practical and financial assistance including: direct financial support to the new Palestinian Government; support to the Palestinian civilian police; the resumption of the EU border assistance mission at the Rafah (Gaza-Egypt) crossing; and intensive efforts to build the institutions of a future Palestinian state.

On 19 June, my right. hon. Friend the then Secretary of State for International Development announced a £1 million contribution to the International Committee of the Red Cross' work in Gaza and the West Bank. We continue to support the temporary international mechanism, which plays a valuable role in providing assistance to the Palestinian people. We are also working with the new emergency Government to help bring stability and security to the occupied Palestinian territories.

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to President Abbas of the Palestinian Authority to amend the Fatah constitution to remove articles that call for eradication of Israel; what response was received; and if he will make a statement. [149944]

Dr. Howells: The Fatah constitution does call for the "eradication of Zionist economic, political, military and cultural existence". But Fatah, as a member of the Palestine Liberation Organisation (PLO), is a signatory to the Oslo Peace Accords, which clearly state that "the PLO recognises the right of the State of Israel to exist in peace and security".

The letter of mutual recognition from Yasser Arafat, representing the PLO at the time, to Yitzhak Rabin, the then Israeli Prime Minister, in September 1993 clearly states

> "the PLO affirms that those articles of the Palestinian Covenant which deny Israel's right to exist, and the provisions of the Covenant which are inconsistent with the commitments of this letter are now inoperative and no longer valid. Consequently, the PLO undertakes to submit to the Palestinian National Council for formal approval the necessary changes in regard to the Palestinian Covenant."

We have therefore not made any representations to Palestinian President Abbas on this issue.

Western Sahara: Referendums

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the UN Secretary General on the possibility of a referendum on the future of the western Sahara; and if he will make a statement. [150507]

Dr. Howells: My right. hon. Friend the Foreign Secretary has not discussed the question of western Sahara with the UN Secretary-General, but UK officials in New York are in regular contact with their UN counterparts. We will continue, through my meetings and those of officials, to discuss this issue with all interested parties.

The UK regards the status of western Sahara as undetermined, pending UN efforts to find a solution. To this end, the UK fully supports the efforts of the UN Secretary-General and his personal envoy to the western Sahara, Peter van Walsum, to assist the parties to achieve a just, lasting and mutually acceptable political solution, which will provide for the self determination of the people of western Sahara.

The UN Security Council adopted UN Security Council Resolution 1754 on 30 April, which extended the mandate of the UN mission for the referendum in western Sahara. There are no plans for a referendum to be held in the near future. However, the resolution also called for both sides to enter into negotiations without preconditions. The UK welcomes the first round of these talks between the parties, hosted by the UN in Manhasset, New York, on 18-19 June, and the agreement by all parties to take part in a further round in August.

CHILDREN, SCHOOLS AND FAMILIES

Antisocial Behaviour: Torbay

Mr. Sanders: To ask the Secretary of State for Children, Schools and Families what initiatives to tackle antisocial behaviour the Government have funded in Torbay since 1997. [148092]

Kevin Brennan: In 2005-06, Torbay council received £216,044 revenue and £46,305 capital Safer Stronger Communities Fund grant from the Home Office. This included £25,000 for a local antisocial behaviour co-ordinator, to prioritise and drive forward action on local issues.

Since 2006-07, Torbay council has received centrally pooled Safer Stronger Communities (SSC) funding from Communities and Local Government. The pooled grant available was £216,044 revenue and £46,305 capital in 2006-07; and £321,848 revenue and £182,475 capital in 2007-08. Although there is no requirement to use this funding for specific antisocial behaviour initiatives, Torbay has agreed through its local area agreement to deliver a range of outcomes using this funding including a reduction in public perceptions of antisocial behaviour.

In 2006-07, Torbay received £14,000 from the Respect Task Force for targeted action against antisocial behaviour, £2,000 for a merchandise procurement and publicity campaign, £5,000 towards project work to scope a single non-emergency number and £7,000 towards a clean up campaign.

As one of the 77 target areas working closely with the Respect Task Force, Torbay has been allocated additional funding in 2007-08 of up to £50,000 for a parenting practitioner to work with parents whose children are involved in or at risk of engaging in antisocial behaviour.

Children: Databases

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) when he expects the ContactPoint project to commence operation; [150348]

(2) how many people are expected to be able to access ContactPoint; [150349]

(3) what response he has had from local authorities about their preparedness to commence operation of ContactPoint; [150350]

(4) how much has been spent on ContactPoint; and how much has been budgeted for completion of the project; [150351]

(5) what estimate has been made of the annual running costs of ContactPoint once it has been initiated. [150352]

Kevin Brennan: In relation to question 150348, ContactPoint will be available to all local authorities in England by the end of 2008. By that time the system will have also been made available to our National Partners—Barnardo's, NSPCC, NCH, the Children's Society, KIDS, Child Exploitation and Online Protection Centre and the Children and Family Court Advisory and Support Service—who will work with us in implementing the system and who will grant access and manage users in their organisations when it is operational. ContactPoint will be deployed initially in April 2008 to 17 Early Adopter authorities and Barnardo's, the Early Adopter National Partner.

In relation to question 150349, we estimate that there will be some 330,000 ContactPoint users working in education, health, social care, youth justice and the voluntary sector.

In relation to question 150350, we are working closely with all local authorities and National Partners to ensure their readiness for deployment in 2008. They provide regular reports on their progress to the Department, through an online tool—the local authority readiness assessment (LARA) system. Departmental officials also provide significant support to each authority and National Partner, in particular through a team of 11 regional coordinators who offer one to one support and bi-monthly networking and update opportunities. Local authorities and National Partners have also been provided with a range of tools and other support and guidance materials. Progress towards readiness to receive access to ContactPoint is on track.

In relation to question 150351, we spent £28.4 million in 2006-07 and a further £11.2 million in the first three months of 2007-08. The total costs for implementing the system are estimated at £224 million. This includes the costs of adapting systems that will supply the data to ContactPoint and adapting the day-to-day systems used by practitioners they can access ContactPoint from their own systems. It also includes the costs to ensure security, data accuracy and staff training.

In relation to question 150352, running costs thereafter are estimated to be £41 million per year. Most of this will go directly to local authorities to fund staff to ensure the ongoing security, accuracy and audit of ContactPoint.

Children: Day Care

Keith Vaz: To ask the Secretary of State for Children, Schools and Families what consultations his Department has undertaken with different community groups on the provision of child care. [149926]

Beverley Hughes: We consulted widely in the summer and autumn last year on draft statutory guidance to local authorities undertaking child care sufficiency assessments; and between February and May this year on draft statutory guidance to local authorities on securing sufficient child care. Both documents benefited from revisions made in the light of comments from a range of groups, including local authorities themselves, representative organisations and child care providers. Our guidance emphasises the importance of local authorities—whose job it is to facilitate and support child care in their areas—establishing the needs of their different community groups and working to meet them.

Departments: Marketing

Mrs. May: To ask the Secretary of State for Children, Schools and Families what the cost was of establishing his Department; and how much was accounted for by *(a)* relocation expenses and *(b)* re-branding expenses on (i) signs, (ii) stationery and (iii) departmental publications. [147810]

Ed Balls: There were no costs for relocation or re-branding. Costs for producing branded material in relation to the creation of DCSF were as follows:

	£
Relocation	No cost
Signs	3,750
Stationery (recycling costs of previous stock)	900
Departmental publications	No cost

Departments: Policy

Mr. Laws: To ask the Secretary of State for Children, Schools and Families when he plans to publish the goals and direction for his Department for the next 10 years including his Children's Plan; and if he will make a statement. [149868]

Ed Balls: As I set out in my statement to the House on 10 July 2007, we are launching a nationwide consultation to draw up a children's plan for our country. I plan to be able to report the results of that consultation and set out the emerging children's plan in the autumn setting out the goals and directions for the Department for the next 10 years.

Pupil Exclusions

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) what data were collected by his Department on reasons for exclusions in maintained primary and secondary schools in 2005-06; [148889]

(2) if he will make a statement on the changes to the collection of data on the reasons for exclusion in maintained primary and special schools. [148890]

Kevin Brennan: In the academic year 2005/06 data on the reason for exclusion were collected from maintained secondary schools only.

Prior to 2005/06 data on the reason for exclusion were collected as part of the Termly Exclusions Survey for maintained primary, secondary, special schools and pupil referral units. However there has been a staggered move to collect exclusions data through the School Census, streamlining data collection and reducing both the number of data collections and the administrative burden on schools.

Secondary schools returned exclusion data via the School Census for the first time in May 2006. Primary and special schools returned fixed period and permanent exclusion data through the census for the first time in May 2007. No data on fixed period or reason for exclusion were collected from primary or special schools for 2005/06. The data collected in May 2007 relate to exclusions occurring in the previous autumn term, therefore data will be available for the 2006/07 academic year.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many *(a)* temporary and *(b)* permanent exclusions there were of (i) 12-year-olds, (ii) 13-year-olds and (iii) 14-year-olds in the most recent 12 months for which figures are available; what proportion those figures represented of the age cohort in each case; and if he will make a statement. [149147]

Kevin Brennan: The available information on fixed term and permanent exclusions is contained in the following tables.

These tables were published as part of the recent Statistical First Release on exclusions which can be found at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000733/index.shtml.

Maintained secondary schools [1,2]: number of fixed period exclusions by age and gender England, 2005-06[3]

= less than five, or a rate based on less than five.
[1] Includes middle schools as deemed.
[2] For the 2005/06 school year, information on fixed period exclusions from secondary schools was collected via the School Census for the first time (the Termly Exclusions Survey has been discontinued). For exclusions during 2006-07, information on fixed period exclusions will also be collected from primary and special schools.
[4] Age as at 31 August 2005.
[5] There were 140 exclusions for which gender and age were unclassified and three male exclusions for whom age was unclassified. These have been included in the total only.
[6] The number of exclusions expressed as a percentage of the number (headcount) of pupils of each age in secondary schools as at January 2006.
Note:
1. Totals may not appear to equal the sum of component parts because numbers have been rounded to the nearest 10.

School Census

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many pupils were *(a)* temporarily and *(b)* permanently excluded from English (i) infant schools, (ii) primary schools, (iii) secondary schools and (iv) colleges in each year since 1990-91, broken down by age; and if he will make a statement. [149148]

Kevin Brennan: The available information on fixed term and permanent exclusions is contained in the following tables. The breakdown of infant schools and colleges requested is not available.

Information is not available back to 1990-91. Data were collected for earlier years for permanent exclusions but not published as part of the most recent Statistical First Release.

Maintained primary, secondary and special schools[1, 2]: Number of fixed period exclusions by type of school—England, 2003/04-2005/06[3]

Percentage of successful appeals where reinstatement was directed[4]	n/a	n/a	n/a	n/a	n/a	71.3	57.0	49.1	55.5

n/a = Not available.
[1] Excludes non-maintained special schools.
[2] Shown as a percentage of appeals lodged.
[3] Shown as a percentage of appeals heard.
[4] Shown as a percentage of appeals determined in favour of the parent/pupil.
Note:
Totals may not appear to equal the sum of component parts because numbers have been rounded to the nearest 10.
Source:
School Exclusion Appeals Survey.

This table was published as part of the recent Statistical First Release on exclusions which can be found at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000733/index.shtml

Information is not available back to 1990/91. Data were collected in 1995/96 and 1996/97 but not published as part of the most recent Statistical First Release.

Pupils: Intimidation

Mr. Laws: To ask the Secretary of State for Children, Schools and Families pursuant to the Prime Minister's answer of 4 July 2007, *Official Report*, column 956, what the basis was for the Prime Minister's statement that the additional funding for ChildLine would be spread over two years; and if he will make a statement. [150513]

Ed Balls: The Government plan to provide the National Society for the Prevention of Cruelty to Children with a £30 million grant to help the NSPCC update and expand its helpline services, including ChildLine, which support vulnerable children and help keep them safe from abuse. The grant will in fact be spread over the next four years.

School Meals: Take-Up

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of children in English schools took school meals in each year since 1997; and if he will make a statement. [149118]

Kevin Brennan: Information on the quality, availability and uptake of school meals is not held centrally. However, data from the school census show the proportion taking free school meals as at January 2007 was 13.1 per cent. in maintained nursery and primary schools and 9.6 per cent. in maintained secondary schools. This compares with 13.3 per cent. and 9.9 per cent. respectively for January 2006. Figures for earlier years cannot be provided due to time constraints.

Also, figures from the School Food Trust's 2006 annual survey of school meals take-up in England showed that take-up of school meals in 2005-06 was 42.3 per cent. in primary schools and 42.7 per cent. in secondary schools. Findings from the 2007 survey will be available in August.

Schools: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many schools were in *(a)* special measures and *(b)* receipt of intensive local authority support in each local authority area in each year since 1996; and if he will make a statement. [149081]

Jim Knight: The numbers in the table represent the schools in special measures at the end of each academic year since 31 August 1997. The figures for 2006/07 show the position at 31 March 2007, using the most recent information published by Ofsted.

Local authority support is expected in every case of special measures. The nature of the support will vary according to the needs of the individual school and will be reflected in the statement of action for the school which the authority is required to prepare. Ofsted assess the quality of the local authority's support on their monitoring visits to the school.

Sure Start Programme: Ethnic Groups

Keith Vaz: To ask the Secretary of State for Children, Schools and Families (1) what representations he has received from ethnic minority groups on the Sure Start scheme; [149923]

(2) what expenditure there has been on targeting the Sure Start scheme at ethnic minority communities; [149924]

(3) what comparative studies his Department has commissioned on the value of the Sure Start scheme to different ethnic minority communities; [149925]

(4) what discussions officials in his Department have had with counterparts in the Department for Communities and Local Government on the assistance provided by the Sure Start scheme to ethnic minority communities. [149927]

Beverley Hughes: Supporting families from black and minority ethnic families is a key priority for Sure Start local programmes and children's centres. The Department of Children, Schools and Families (DCSF) allocates grant funding to local authorities and decisions on spending this are taken locally. However we encourage them to take positive steps to provide services specially targeted to meet the needs of black and minority ethnic families.

A comprehensive national evaluation of the Sure Start programme is being carried out on behalf of DCSF by the Institute for the Study of Children, Families and Social Issues, Birkbeck, University of London. This looks extensively at the experience of ethnic minority communities in Sure Start local programmes and specifically includes an assessment of the impact of Sure Start local programmes on child, family and parental outcomes from which impacts for children and families from different ethnic minority groups can be identified. The national evaluation uses the 2001 census ethnic group classification with results generally focusing on the following groups: White, Mixed Indian, Pakistani, Bangladeshi, Black Caribbean, Black African and Other. An early assessment of the impact of Sure Start local programmes on children, families and communities published in November 2005 found no significant differences in outcomes for children and families from different ethnic minority groups. The next phase of the longitudinal study of impacts is due to be published in spring 2008 and will include an assessment of impacts of the Sure Start programme for different ethnic minority groups. In addition, a focused study on how Sure Start Local Programmes worked with black and minority ethnic groups that identifies good practice in working with BME groups has also been carried out as part of the national evaluation and is available on the DCSF website at:

http://www.dfes.gov.uk/rsgateway/DB/RRP/u015229/index.shtml.

The revised practice guidance for local authorities and Sure Start children's centres, published last November, took account of the findings in the focused study report and gave advice about how to engage and support families from black and minority ethnic communities. We also issued late last year a performance management framework to help local authorities and children's centres judge how well their services were meeting and improving outcomes for families. This included specific advice about monitoring access and outcomes of black and minority ethnic families. In addition, 'Together for Children', the consortium appointed to support local authorities during the children's centre roll-out, have produced a toolkit which features advice and case studies on reaching families at greatest risk of social exclusion, including Black and minority ethnic families.

My officials are in contact with their counterparts at the Department for Communities and Local Government (DCLG) about how Sure Start children's centres provide support to minority ethnic communities and DCLG are also represented on the steering group for the national evaluation of Sure Start. My Department has received no representations from ethnic minority groups on the Sure Start scheme.

Sure Start Programme: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what recent assessment he has made of the effectiveness of the Sure Start programme; and if he will make a statement. [149866]

Beverley Hughes: There is a comprehensive national level evaluation of Sure Start in place, which began in January 2001 and will run until 2008. To date, 24 reports have been published, including four published at the end of June. These can be found at:

http://www.surestart.gov.uk/research/evaluations/ness/nesspublications/

Each element of the evaluation explores how effective Sure Start local programmes (SSLPs) are and provides examples of good practice and understanding that can feed into the future development of children's centres. A number of these studies focus on a specific aspect of work, for example, outreach and home visiting or maternity services, others take a more overarching view such as the reports "Understanding Variations in Effectiveness amongst SSLPs" and "Changes in the Characteristics of SSLP Areas between 2000/01 and 2004/05" that were published last month.

These studies found that SSLPs were most effective when they implemented the programme well across all areas and that particularly important factors were having robust structures for governance and leadership, a welcoming and inclusive atmosphere, and empowerment of providers and users of services. They also found that there had been improvements in Sure Start local programme areas between 2001 and 2005, such as a reduction in the number of children living in workless households that was larger than that for England as a whole, though such changes cannot be directly linked to the work of the Sure Start programme.

Early findings from the evaluation's Impact Study were published in November 2005 and showed that SSLPs had had some positive impacts on parenting and child outcomes, but that more needed to be done to reach the most disadvantaged groups. A fuller assessment of the impact of Sure Start based on a longitudinal study of children at age three years will be published in spring 2008.

INTERNATIONAL DEVELOPMENT

Afghanistan: Overseas Aid

Miss McIntosh: To ask the Secretary of State for International Development if he will make a statement on delivery of humanitarian aid in Afghanistan. [149531]

Mr. Malik: According to the United Nations Office for Humanitarian Affairs (UN OCHA)[1], the following has been contributed to the humanitarian effort in Afghanistan over the last three years:

	US $
2004	162,366,273
2005	79,906,460
2006	153,181,425

Prior to 2003, the majority of DFID aid to Afghanistan was focused on immediate reconstruction and humanitarian needs. In 2003-04, the focus shifted to long- term developmental programmes in support of the Government of Afghanistan.

DFID still retains some limited capacity to respond to humanitarian crises. For example, in 2006-07 the UK committed the following humanitarian aid to Afghanistan: £1 million for drought mitigation; £1.2 million to support HALO Trust's de-mining programme; and £30,000 to provide food and other essential items like soap and blankets for 3,000 internally displaced families in Helmand.

Security concerns present difficulties for NGOs and development workers wishing to operate in some areas, particularly the south. This is why the presence of NATO forces, and British troops in Helmand, are essential to create the conditions in which humanitarian aid can be delivered more effectively. The vast majority of Afghans want to see a peaceful, prosperous, democratic country. We will continue to support them.

[1] OCHA website database at:
www.ocha.unog.ch; appeal and funding

Departments: Freedom of Information

Mr. Andrew Mitchell: To ask the Secretary of State for International Development if he will list the requests made to his Department under the Freedom of Information Act (FOI) 2000 in the last six months; and what the *(a)* FOI case reference number, *(b)* request summary, *(c)* request outcome and *(d)*, where appropriate, reason for exemption was in each case. [149030]

Mr. Malik: A list of DFID Freedom of Information requests between January and June 2007 has been placed in the Library of the House.

Developing Countries: Water

Mr. Heald: To ask the Secretary of State for International Development if he will make a statement on the effects of climate change on the provision of water in developing countries; and what steps his Department is taking on the matter. [150232]

Mr. Thomas: Climate change will affect the availability of water through levels of rainfall increasing (around the equator and in higher latitudes), decreasing (in mid-latitudes), becoming more variable from year to year and being more extreme (excessive rainfall in wet seasons and longer and more pronounced droughts in dry seasons). This will make provision of water in developing countries, where access to clean water is already extremely low and management of water for agriculture and other activities is weak, even harder.

The UK is already committed to helping developing countries increase access to clean water. We are doubling funding available for water and sanitation in Africa to £91 million by 2007-08 and then doubling it again to £200 million a year by 2010-11. We have issued a Global Call to Action, calling for increased money for water and sanitation, for it to be spent more effectively and for the right structures to be in place to make this happen.

We are also working to help developing countries take account of the impact of climate change on their ability to provide access to water. The new £800 million Environment Transformation Fund, announced in the last budget, will provide funds for developing countries to adapt to the impact of climate change, including on water. As the largest donor to the UN's Special Adaptation Funds, at £20 million, we are already helping developing countries take account of adaptation in their planning. We are improving access to relevant climate data for developing countries to plan on the basis of likely water availability. We are funding research into the best local responses to climate change, including to water supply problems, through our £24 million support to African research institutions, and will do the same in Asia and Latin America. We are making sure our own investments, including in the water sector, take account of the impact of climate change, as part of our on-going climate risk assessment exercise in Bangladesh, China, India and Kenya. And the impact of climate change will be central to our new water resource management strategy.

In the longer term, the Government are working to minimise the impact of climate change on developing countries by achieving a post-Kyoto deal which stabilises greenhouse gas emissions below a dangerous level.

Mr. Heald: To ask the Secretary of State for International Development what funding his Department provides to increase water provision in developing countries. [150233]

Mr. Thomas: Provisional estimates of DFID bilateral expenditure show that DFID spent, £46.8 million on water and sanitation in financial year 2006-07.

In addition to direct bilateral expenditure on specific water and sanitation projects, spending on a range of other projects and programmes across DFID's portfolio will contribute to improving water supply and sanitation in developing countries. DFID's total support to the water sector—including through the World Bank, the multilateral development banks and the EC—was estimated to be £242 million in 2005-06, the latest year for which figures are available on this basis.

Mr. Heald: To ask the Secretary of State for International Development what estimate his Department has made of the number of people in the world without access to clean drinking water; and whether it is predicted that this figure will rise or fall in future years. [150231]

Mr. Thomas: The number of people lacking access to clean drinking water is estimated to be 1.1 billion.

If current trends continue, the number of people without access to clean water will decrease further by 150 million by 2015, leaving over 900 million without access. In sub-Saharan Africa the situation is much worse, with the number of people without access to clean water increasing by 60 million between 1990 and 2004, taking account of the increase in population of 217 million. On current trends, between 2004 and 2015 the number of people lacking access to clean water in sub-Saharan Africa will increase by a further 47 million, taking account of projected population increases of 200 million.

St Helena: Airport

Dr. Cable: To ask the Secretary of State for International Development what the original budgeted cost for St. Helena airport was; and what the most recent estimated total outturn cost is. [149912]

Mr. Malik: Cost estimates for the St. Helena airport have not been published, as to do so could prejudice the outcome of the current competitive procurement process. DFID continues to update its estimates as additional information becomes available during the development of specifications for the airport and through the tender process.

Western Sahara: Overseas Aid

Jeremy Corbyn: To ask the Secretary of State for International Development how much aid has been provided to western Sahara refugees by his Department; and how much is planned to be provided in 2008-09. [150510]

Mr. Malik: DFID does not have a bilateral aid programme for western Sahara refugees. However, between September 2006 and January 2008 the European Community Humanitarian Aid Office (ECHO) is providing a €10 million (£6.8 million) package of relief in the sectors of food, water, sanitation, health, education and shelter through various UN agencies and international NGOs. The UK contribution is 17.3 per cent., which is approximately £1.2 million. DFID also contributed $49 million to the UN Refugee Agency (UNHCR) in 2006 for its work with refugees across the world, including from western Sahara. DFID's humanitarian aid package for 2008-09 has not yet been agreed.

JUSTICE

Prisoners

6. **Andrew Selous:** To ask the Secretary of State for Justice what steps his Department is taking to improve the literacy and numeracy of prisoners. [150200]

Maria Eagle: Delivering the basic skills of reading and writing is a key priority, bolstering employability and reducing re-offending as is the achievement of work skills qualifications.

Offender education spend has trebled from £57 million in 2001 to £183 million this year. 36 per cent. of prisoners are engaged in education, up from 30 per cent. 94,200 prisoners improved their literacy, language or numeracy skills by at least one level between 2001-04 and gained 249,104 work skills qualifications in total. The introduction of the Offender Learning and Skills Service planned and funded by the LSC should enable us to build on this issue.

Nick Herbert: To ask the Secretary of State for Justice what projection he has made of the prison population in England and Wales on *(a)* 1 October, *(b)* 1 January, *(c)* 1 April and *(d)* 1 July in each year to April 2012. [150503]

Mr. Hanson: Prison population projections have been published in Home Office Statistical Bulletin 11/06 (July 06). Three scenarios (high, medium, low) have been calculated. All figures relate to the last day of the month. The projected prison populations closest to 1 October, 1 January, 1 April and 1 July in each year to April 2012 are shown in the following table.

End of month	*High*	*Medium*	*Low*
September 2007	81,600	80,340	79,090
December 2007	80,200	78,710	77,200
March 2008	83,300	81,590	79,840
June 2008	84,670	82,730	80,730
September 2008	85,970	83,740	81,500
December 2008	84,690	82,160	79,670
March 2009	87,920	85,100	82,370
June 2009	89,410	86,290	83,320
September 2009	90,680	87,290	84,030
December 2009	89,370	85,700	82,160
March 2010	92,560	88,620	84,800
June 2010	94,020	89,810	85,700
September 2010	95,210	90,720	86,290
December 2010	93,810	89,040	84,290
March 2011	96,930	91,880	86,810
June 2011	98,310	92,970	87,590
September 2011	99,420	93,760	88,050
December 2011	97,940	91,950	85,930
March 2012	100,980	94,660	88,320

Revised prison population projections will be published in August 2007.

Young Offenders

7. **Miss McIntosh:** To ask the Secretary of State for Justice how many young people were in young offender institutions in *(a)* 1997 and *(b)* 2007; and if he will make a statement. [150201]

Bridget Prentice: Young Offender Institutions accommodate sentenced prisoners aged from 15 to 21. At the end of June 1997 there were 7,949 sentenced young offenders including 1,673 aged under 18. At the end of May this year there were 9,137 sentenced young offenders including 1,894 aged under 18.

Queen's Speech

8. **Mr. Heppell:** To ask the Secretary of State for Justice if he will consult Parliament and the public on the contents of the Queen's Speech. [150202]

Mr. Straw: Last Wednesday my right hon. Friend the Prime Minister set out the details of the content of the provisional list of Bills for the next parliamentary Session. His purpose was such that our Government's initial thinking, previously private, could be the subject of widespread discussion and public debate. Full information is now available on the Cabinet Office website and in hard copy. We want to hear from all Parliamentarians, members of the public and individual groups their views on what was proposed.

Victims of Crime and Witnesses: Support

9. **Margaret Moran:** To ask the Secretary of State for Justice what steps he is taking to make additional support available to victims of crime and witnesses in court proceedings. [150203]

Maria Eagle: The Government have already done much to support victims and witnesses in criminal proceedings. We have:

- Introduced special measures such as live links, video-recorded evidence-in-chief and intermediaries. An independent evaluation in 2004 found that one-third of witnesses would not have been willing or able to give evidence without special measures
- Given £30 million annually to Victim Support, who provide the Witness Service in every court
- Introduced a statutory Code of Practice to give victims legal rights for the first time
- Spent £2.75 million on new court live link systems to help witnesses give evidence since 2006
- Met the target of having separate waiting facilities in 90 per cent. of magistrates courts ahead of schedule.

Prisoner Rehabilitation Programmes

10. **Mr. Evennett:** To ask the Secretary of State for Justice what assessment he has made of the impact of prison overcrowding on prisoner rehabilitation programmes. [150204]

Mr. Hanson: The main risk entailed by overcrowding is that prisoners do not complete offending behaviour programmes because they are transferred to another establishment before the programme is completed.

The Prison Service monitors the delivery of all offending behaviour programmes closely. Less than 1 per cent. of those who started offending behaviour programmes in 2006-07 failed to complete because of transfer.

Probation Services

11. **David Taylor:** To ask the Secretary of State for Justice what recent assessment he has made of the impact of contestability on probation services; and if he will make a statement. [150205]

Mr. Straw: If we are to tackle re-offending effectively, we need a flexible approach which brings together all those with a contribution to make. We need to be able to commission services at national, regional and local level according to need. Contestability will enable specialist, low-volume, high-cost services to be commissioned at a national or regional level, where that makes sense.

But it also enables the local lead provider to continue to act as provider and commissioner. Lead providers will concentrate on delivering core offender management, while commissioning much of the interventions work from local providers. Provided their performance meets the requirements, the lead provider in a probation area will be the probation trust.

Early Release Scheme

12. **Robert Neill:** To ask the Secretary of State for Justice when he expects to end the scheme of early release of prisoners. [150206]

Mr. Hanson: The end of custody licence was introduced on 29 June as a temporary measure. It is too early to say how long the scheme will be in operation. We will keep under the review the length of time it will remain in use in the light of new prison capacity coming on stream and the review by Lord Carter.

Restraint Methods

13. **Ms Keeble:** To ask the Secretary of State for Justice what mechanisms are in place to ensure that methods of restraint used in secure training centres are safe. [150207]

Mr. Hanson: The methods used must be approved by the Secretary of State, who receives advice from the Youth Justice Board. The Board periodically appoints a panel of experts, including medical experts, to assess safety. A full review was conducted in 2004-05 and a further review is currently being established.

Magistrates Courts: Cheshire

14. **Sir Nicholas Winterton:** To ask the Secretary of State for Justice if he will make a statement on the future provision of magistrates courts in Cheshire. [150208]

Maria Eagle: HMCS is committed to putting the public first in the delivery of justice. There are currently seven magistrates courts in Cheshire. HM Courts Service will continue to manage the court provision in Cheshire to maintain and improve the justice system for the public.

Governance of Britain Green Paper

15. **Malcolm Bruce:** To ask the Secretary of State for Justice pursuant to his Department's Green Paper on the governance of Britain, if he will make a statement on his future plans for constitutional reform, further devolution and electoral reform. [150209]

Mr. Wills: The Prime Minister and I published the Green Paper, 'The Governance of Britain', on 3 July. A range of reforms have already been introduced, including:

- appointment of regional Ministers;
- publication of the proposed legislative programme, accompanied by the Prime Minister's statement to the House;
- revocation of legislation allowing special advisers to give orders to civil servants;

publication of a revised ministerial code;

creation of the National Security Council; and

commitment of the Prime Minister, Foreign Secretary and Secretary of State for Defence to neither add nor subtract names from the final Honours List passed to HM the Queen.

In the coming weeks, we intend to publish a consultation paper on the role of the Attorney-General, to launch the Goldsmith Review of Citizenship, to set up a Youth Citizenship Commission and to finalise arrangements for regional select committees. In the longer term, it is proposed to introduce a Constitutional Reform Bill to Parliament in the next Session, to complete the voting systems review and to begin work on engaging with the British people on a statement of values. As my right hon. Friend the Prime Minister said in his statement to the House:

"As we focus on the challenges that we face...our starting point should be to discuss together and then...agree and set down the values, founded in liberty, which define our citizenship and help to define our country."—[*Official Report*, 3 July 2007; vol. 462, c. 819.]

Finally, while we do not envisage further devolution of powers from the UK Parliament to national Assemblies, the Green Paper makes it clear that the Government remain committed to enhancing democracy by devolving more power directly to the people. In line with this we are to consult on a range of measures to fully engage local people in local decisions.

Approved Premises

Mr. Heath: To ask the Secretary of State for Justice how many and what percentage of people housed in approved premises are categorised as *(a)* high and *(b)* very high risk in each region; and if he will make a statement. [150138]

Mr. Hanson: As at 28 February 2007, the number of residents housed in Approved Premises in England and Wales categorised as *(a)* high risk of serious harm was 1,165, representing 63 per cent. of all residents. The number categorised as *(b)* very high risk of serious harm was 115, representing 6 per cent. of all residents. These figures do not include the Prospects Approved Premises, which are a specialist resource for offenders with substance misuse problems.

The regional profile of offenders, by risk of harm, was as follows:

	High risk of harm (A)		*Very high risk of harm (B)*	
Region	*Number*	*Percentage*	*Number*	*Percentage*
East	60	49	6	5
East Midlands	102	65	16	10
London	184	74	14	6
North East	83	67	13	10
North West	232	75	16	5
South East	88	48	15	8
South West	82	60	8	6
Wales	68	77	8	9
West of Midlands	120	56	9	4
Yorkshire and Humberside	146	57	10	4
Totals	1,165	63	115	6

Mr. Heath: To ask the Secretary of State for Justice if he will make a statement on his future plans for approved premises. [150139]

Mr. Hanson: In September 2004, the Government published a strategy which directed Approved Premises in England and Wales to be used primarily to supervise certain high risk of serious harm offenders on release from custody into the community. That strategy was reviewed and reaffirmed in the context of the Child Sex Offender Review, the report of which was published in June this year.

Approved Premises provide for enhanced supervision of offenders and are, therefore, a valuable public protection resource. Such supervision would be much more difficult to provide if offenders were dispersed into less suitable accommodation in the community.

The National Offender Management Service (NOMS) has recently initiated an Approved Premises Service Review, to make recommendations as to how the supervision of high risk of serious harm offenders in Approved Premises should be commissioned from April 2008.

Oakhill Secure Training Centre: Inspections

Ms Keeble: To ask the Secretary of State for Justice when he will place in the Library a copy of the inspection reports on Oakhill secure training centre by the Commission for Social Care Inspectorate. [150329]

Mr. Hanson: In accordance with the service level agreement between Ofsted, the Youth Justice Board and the Ministry of Justice, papers received following the unannounced inspections at Oakhill secure training centre in January and April 2007 will be included as appendices to the report of the next announced inspection of the centre. The inspection will be conducted by Ofsted and is due to take place in October. The report will be a publicly available document.

Prisons: Construction

Mr. Paul Murphy: To ask the Secretary of State for Justice what criteria his Department uses when evaluating the suitability of potential new sites for prisons. [150212]

Mr. Hanson: As part of the 8,000 capacity programme, the National Offender Management Service is looking to identify potential new prisons sites within areas of greatest need.

These sites should be close to or within large urban conurbations, enabling prisoners to be located close to home for family contact and to assist in finding employment on release; near or within reasonable travelling distance of courts; and to have good access to public transport and major roads.

TREASURY

Alcoholic Drinks: Young People

Sandra Gidley: To ask the Chancellor of the Exchequer how many deaths of teenagers there were in which alcohol was cited as a cause or contributing factor in *(a)* 2007 and *(b)* the last five years. [150412]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 18 July 2007:

The National Statistician has been asked to reply to your recent question asking how many deaths of teenagers there were in which alcohol was cited as a cause or contributing factor in (a) 2007 and (b) the last five years. I am replying in her absence. (150412)

The latest year for which figures are available is 2006. The table below shows the number of deaths of teenagers where an alcohol-related cause was the underlying cause of death or was mentioned as a contributory factor on the death certificate. Figures are provided from 2001 to 2006.

Number of deaths of those aged 13 to 19 where an alcohol-related cause[1] was the underlying cause of death or was mentioned as a contributory factor on the death certificate the death certificate.[2] England and Wales, 2001-06[3]

	Underlying cause of death	*Mentioned as contributory factor*
2001	10	40
2002	1	25
2003	6	35
2004	3	45
2005	9	53
2006	3	42

[1] Selected using the National Statistics definition of alcohol-related deaths. The International Classification of Diseases, Tenth Revision (ICD-10) codes for the definition are listed as follows:
F10—Mental and behavioural disorders due to use of alcohol
G31.2—Degeneration of nervous system due to alcohol
G62.1—Alcoholic polyneuropathy
I42.6—Alcoholic cardiomyopathy
K29.2—Alcoholic gastritis
K70—Alcoholic liver disease
K73—Chronic hepatitis, not elsewhere classified
K74—Fibrosis and cirrhosis of liver (excluding
K74.3-K74.5—billiary cirrhosis)
K86.0—Alcohol induced pancreatitis
X45—Accidental poisoning by and exposure to alcohol
X65—Intentional self-poisoning by and exposure to alcohol
Y15—Poisoning by and exposure to alcohol, undetermined intent
[2] The number of deaths—where an alcohol-related cause was mentioned as a contributory factor also includes those deaths where the cause was selected as the underlying cause of death.
[3] Data are for deaths registered in each calendar year.

Childbirth

Sandra Gidley: To ask the Chancellor of the Exchequer how many births there were in each month since January 2001. [150955]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 18 July 2007:

As National Statistician I have been asked to reply to your question on the number of births there has been each month since January 2001. (150955)

The latest available figures on live births by month are for 2005. The table below shows the figures requested for the years 2001 to 2005 and covers live births registered in England and Wales.

Live births in England and Wales, 2001 to 2005, by month

	2001	*2002*	*2003*	*2004*	*2005*
January	50,591	49,165	50,579	53,028	52,527
February	45,150	45,150	46,017	49,350	48,080

Children's Centres: Finance

Miss McIntosh: To ask the Chancellor of the Exchequer what discussions he has had with the Secretary of State for Children, Schools and Families on funding for children's centres from April 2008. [149532]

Andy Burnham: Treasury Ministers have discussions on a wide range of issues as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the Government's practice to provide details of these discussions.

Death

Mr. Lansley: To ask the Chancellor of the Exchequer what the death rate from *(a)* stroke, *(b)* heart disease, stroke and related illnesses and *(c)* all cancers was among (i) people aged 65 years and under, (ii) people aged 75 years and under and (iii) all people, in each year since 1977. [150400]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 18 July 2007:

The National Statistician has been asked to reply to your recent question asking what the death rate from (a) stroke, (b) heart disease, stroke and related illnesses and (c) all cancers was among (i) people aged 65 years and under, (ii) people aged 75 years and under and (iii) all people, in each year since 1977. I am replying in her absence. (150400)

The latest year for which figures are available is 2005. The table below shows age-standardised mortality rates from 1977 to 2005 for (a) stroke, (b) all circulatory diseases, and (c) cancer, for people aged under 65, under 75, and all ages.

Age-standardised mortality rates[1] by age group, for selected causes of death: England and Wales, 1977-2005[2]

	Stroke			All circulatory diseases			Cancer		
	Under 65	Under 75	All ages	Under 65	Under 75	All ages	Under 65	Under 75	All ages
1977	212	493	1,206	1,270	2,496	4,873	1,017	1,624	2,151
1978	206	482	1,190	1,294	2,519	4,892	1,022	1,633	2,165
1979	209	480	1,188	1,295	2,500	4,870	1,020	1,631	2,177
1980	192	446	1,118	1,228	2,390	4,653	1,007	1,621	2,170
1981	181	427	1,071	1,179	2,323	4,521	996	1,609	2,164
1982	179	415	1,045	1,139	2,261	4,424	974	1,598	2,151
1983	172	399	1,010	1,127	2,242	4,351	981	1,612	2,175
1984	165	399	1,042	1,070	2,150	4,221	994	1,637	2,240
1985	163	385	1,042	1,058	2,126	4,254	979	1,619	2,235
1986	155	373	999	1,019	2,057	4,078	961	1,598	2,206
1987	149	353	955	979	1,984	3,914	956	1,593	2,213
1988	137	337	927	924	1,914	3,813	952	1,602	2,226
1989	131	322	898	868	1,829	3,701	931	1,583	2,217
1990	125	307	870	837	1,764	3,577	915	1,561	2,190
1991	125	305	879	802	1,715	3,550	899	1,547	2,181
1992	120	288	835	762	1,635	3,406	884	1,530	2,167
1993	114	266	762	756	1,631	3,408	865	1,492	2,107
1994	108	255	726	690	1,510	3,174	839	1,465	2,079
1995	109	253	726	679	1,481	3,133	818	1,439	2,048
1996	108	250	716	654	1,419	3,026	803	1,406	2,008
1997	102	238	686	615	1,337	2,880	770	1,365	1,962
1998	104	233	677	600	1,300	2,828	768	1,354	1,955
1999	98	222	654	565	1,226	2,709	746	1,313	1,909
2000	89	201	603	532	1,138	2,528	731	1,282	1,870
2001	89	206	655	514	1,093	2,527	724	1,265	1,880
2002	90	201	653	497	1,040	2,462	714	1,252	1,871
2003	87	192	635	479	991	2,393	694	1,220	1,836
2004	80	173	575	440	906	2,196	675	1,195	1,803
2005	75	161	539	422	854	2,077	665	1,178	1,783

[1] Rate per million population, age-standardised to the European Standard Population.

[2] Selected using International Classification of Diseases, Eighth Revision (ICD-8) codes for the years 1977 to 1978, Ninth Revision (ICD-9) codes for the years 1979 to 2000, and Tenth Revision (ICD-10) codes for the years 2001 to 2005. The codes selected are listed as follows:

Stroke—ICD-8 430-438; ICD-9 430-438; ICD-10 I60-I69

All circulatory diseases—ICD-8 390-444.1, 444.4-458.9, 782; ICD-9 390-459; ICD-10 I00-I99

Cancer (all malignant neoplasms)—ICD-8 140-207; ICD-9 140-208; ICD-10 C00-C97

Between 1984 and 1992, a different interpretation of the World Health Organization selection Rule 3 was used to select the underlying cause of death in England and Wales, to that used internationally. This change means that comparisons between this period, and years before and after, should be interpreted with caution. The impact of the change on mortality statistics was analysed and reported in annual mortality publications for 1984 and 1993-94 (notes 1 and 2). The introduction of ICD-10 for coding cause of death in 2001 also means that figures are not comparable with data for years before this date. Comparisons between the data before and after 2001 should therefore also be interpreted with caution. Articles specifically examining the effects of the change in classification for circulatory disease and cancer trends were published in Health Statistics Quarterly 22 and Health Statistics Quarterly 23 (notes 3 and 4). More information about these changes, as well as the results of the study, can be found on the National Statistics website at www.statistics.gov.uk/icd10mortality.

[3] Data are for deaths registered in each calendar year between 1977 and 1992, and occurrences of death in each calendar year from 1993 onwards.

Defence: Expenditure

Dr. Julian Lewis: To ask the Chancellor of the Exchequer what proportion of UK GDP was spent on the defence budget, excluding the costs of campaigns in Afghanistan and Iraq, in each of the last five years for which figures are available. [149879]

Andy Burnham: HM Treasury's Public Expenditure Statistical Analyses 2007 details historical and planned defence budget expenditure, excluding the additional costs of military operations. Annual GDP deflators can be found on the Treasury's website at:

http://www.hm-treasury.gov.uk/economic_data_and_tools/gdp_deflators/data_gdpfig.cfm

Departments: Legislation

Mr. Clegg: To ask the Chancellor of the Exchequer what legislative provisions introduced by his Department since 1997 have not yet been brought into force. [149695]

Angela Eagle: 60 Acts have received Royal Assent between 1997 and 16 July 2007, all of those have been brought into force in full or in part.

Mr. Clegg: To ask the Chancellor of the Exchequer what legislative provisions introduced by his Department since 1997 have been repealed. [149696]

Angela Eagle: Between 1997 and 16 July 2007 60 Acts have received Royal Assent, of those Acts 28 have been repealed in full. Of the 28 Acts that are no longer in force, 26 were Appropriation or Consolidated Fund Acts and the remaining two were repealed as a result of a consolidation exercise.

Departments: Telephone Services

Mr. Breed: To ask the Chancellor of the Exchequer (1) how many call centres were used by his Department in *(a)* 2005-06 and *(b)* 2006-07; and what assessment he has made of their efficiency in each year; [149757]

(2) how customer satisfaction with call centres used by his Department is measured; and what the results were of customer surveys carried out in 2005-06 and 2006-07. [149758]

Angela Eagle: There were no call centres used by HM Treasury in *(a)* 2005-06 and *(b)* 2006-07.

Government Departments: Buildings

Colin Challen: To ask the Chancellor of the Exchequer pursuant to the answer of 12 June 2007, *Official Report*, column 939W, on Government Departments: buildings, what percentage of commercial sector buildings in England and Wales were occupied by the wider Government estate in each of the last five years. [150399]

Angela Eagle: The earlier answer provided figures for central Departments, their agencies and sponsored bodies. Other occupancy details are not held centrally and could be obtained only at disproportionate cost.

Government Departments: ICT

Margaret Moran: To ask the Chancellor of the Exchequer which mission-critical information and communications technology projects in Government are proceeding without having gone through a Gateway review process. [149445]

Angela Eagle: The OGC Gateway™ process is mandatory for all projects and programmes within central civil Government. Gateway reviews are carried out at key decision points in the life of a project or programme.

Margaret Moran: To ask the Chancellor of the Exchequer (1) which mission-critical information and communications technology projects in Government are proceeding despite receiving one or more red lights in the Gateway review process; and, in each case, how many red lights were received and which Department was responsible for the project; [149446]

(2) in what circumstances mission critical information and communications technology projects may proceed despite a red light in the Gateway Review process. [149447]

Angela Eagle: A red Gateway review does not mean that the project or programme must be stopped. A red Gateway means that to achieve success there is at least one issue that requires immediate action.

HM Revenue and Customs: Census

Alistair Burt: To ask the Chancellor of the Exchequer what access *(a)* HM Revenue and Customs and *(b)* the Valuation Office Agency have to (i) Census data and (ii) Census test data. [150639]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 18 July 2007:

As National Statistician and Registrar General for England and Wales I have been asked to reply to your recent question asking what access (a) HM Revenue and Customs and (b) the Valuation Office Agency have to (i) Census data and (ii) Census test data. (150639)

Neither HM Revenue and Customs nor the Valuation Office Agency have any access to personal census data, including Census Test data. Under the provisions of Section 8 of the Census Act 1920 as amended by the Census (Confidentiality) Act 1991, personal census information which relates to an identifiable individual or household, is kept strictly confidential. It would be a criminal offence to disclose personal information from the census without lawful authority. These provisions also apply to Census Test data.

Anonymised and aggregated statistical census data are available free of charge from the National Statistics website—www.statistics.gov.uk.

Immigrants: Employment

Chris Grayling: To ask the Chancellor of the Exchequer how many people who have entered the UK in the last 10 years are included in the figures for employment. [150245]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 18 July 2007:

As National Statistician, I have been asked to reply to your Parliamentary Question about the number of people who entered the UK in the last ten years and who are in employment. (150245)

For the three month period ending March 2007 there were 1.5 million overseas born people in employment who had entered the UK in the last ten years. This figure includes those who were children when they arrived.

When interpreting this figure, it is important to bear in mind that the Labour Force Survey (LFS) is not designed to cover everyone who is present in the UK. The survey may undercount the numbers of people who were born overseas for the following reasons :-

The LFS sample covers people living in private households, those in National Health Service (NHS) accommodation, and students living in halls of residence who have a UK-resident parent. Students living in halls of residence who do not have a UK-resident parent are not covered by the sample.

The LFS does not cover people living in other types of communal establishment (such as hostels, hotels, boarding houses, or mobile home sites).

Individuals living at sampled addresses are generally included in the survey only if they regard the address as their main residence. Those who have been living at the address for less than six months are not eligible to take part in the survey.

The survey results are weighted to estimates of the 'usually resident' UK population living in private households, NHS accommodation and student halls of residence. The population figures cover long-term international migrants (people who change their country of usual residence for 12 months or more). They do not include people moving to the UK for less than 12 months, nor do they exclude from the usually resident population people moving out of the UK for less than 12 months.

The LFS estimates at this detailed level are only consistent with the UK population estimates published in February and March 2003 and they do not incorporate the more recent population estimates that are used in the headline labour market series.

Estimates are taken from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Office of Government Commerce: Reviews

Margaret Moran: To ask the Chancellor of the Exchequer (1) if he will hold discussions with ministerial colleagues on ensuring that departmental audit committees act on recommendations of Gateway reviews; [149444]

(2) if he will take steps to ensure that Ministers hold regular reviews of mission critical ICT projects being undertaken by their Department. [149442]

Angela Eagle: The role of departmental audit committees in scrutinising information about a Department's major projects and programmes, including information from Gateway reports, and regular reporting for Ministers on mission critical projects, has been raised by the Public Accounts Committee in their report, 'Delivering successful IT-enabled business change' [HC113 5 June 2007]. The Government will be responding to the PAC's recommendation in a Treasury Minute.

Public Expenditure: Wales

Mr. Paul Murphy: To ask the Chancellor of the Exchequer whether he plans to review the Barnett formula for allocating the block grant for Wales. [150229]

Andy Burnham: The Government have no plans to review the Barnett formula.

Taxation: Environment Protection

Bob Spink: To ask the Chancellor of the Exchequer what assessment he has made of the effectiveness of *(a)* central and *(b)* local government environmental taxes on cutting (i) toxic and (ii) carbon emissions. [149646]

Angela Eagle: The environmental taxes levied by Government are the climate change levy, landfill tax and aggregates levy.

The climate change levy is estimated to have reduced emissions by a cumulative 16.5 million tonnes of carbon up to 2005 and by 2010 it is estimated to deliver savings of over 3.5 million tonnes of carbon per year.

Landfill tax is expected to save up to 0.2 MtC a year by 2010 and, between 1997-98 and 2005-06 the amount of active waste disposed to landfill fell by 14 per cent.

The aggregates levy is also achieving its environmental objectives; there has been an 8 per cent. reduction in sales of primary aggregates between 2001 and 2005.

Bob Spink: To ask the Chancellor of the Exchequer what environmental taxes are levied by central Government. [149686]

Angela Eagle: The environmental taxes levied by Government are the climate change levy, landfill tax and aggregates levy. The Government recognise that other taxes, such as fuel duty and air passenger duty, have a positive environmental impact and can be used to achieve environmental aims and that other measures such as vehicle excise duty have been reformed to build in environmental incentives.

Unemployment: Young People

Mr. Clappison: To ask the Chancellor of the Exchequer how many 16 to 18-year-olds are not in education, employment or training, broken down by constituency in ascending order. [150849]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 18 July 2007:

As National Statistician, I have been asked to reply to your Parliamentary Question about young people not in employment, education or training.

Table 1 attached, shows the numbers of 16 to 18 year olds not in full-time education, employment or training, resident in Great Britain parliamentary constituencies, in ascending order, for the 12 months ending in December 2006, from the Annual Population Survey. The table shows that for the majority of constituencies the smaple size is too small to provide estimates. For the remaining constituencies the number of persons, aged 16 to 18, not in full-time education, employment or training, is less than 2,500 in all cases.

Estimates for a subset of the population in a small geographical area, are based on very small sample sizes, and are therefore subject to large margins of uncertainty.

As the information is extensive, a copy of this table has been placed in the House of Commons Library.

Visits

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 20 June 2007, *Official Report*, column 1879W, on visits, whether he stayed in British Government accommodation in each location. [147098]

Angela Eagle: I have nothing further to add to my hon. Friend's previous answer.

HEALTH

Accident and Emergency Departments

Mr. Lansley: To ask the Secretary of State for Health in which accident and emergency departments turnaround teams have been deployed, as stated on page 23 of the Cabinet Office's Capability Review of his Department, published on 22 June 2007; at what cost to the public purse in each case; and if he will make a statement. [147559]

Mr. Bradshaw: In the past a team consisting of people with clinical and national health service management experience provided support to individual NHS trusts, giving them advice and guidance on delivering and sustaining the accident and emergency (A and E) four hour target.

The level of support to organisations varied at different times, including offering a range of advice and support from one-off or occasional telephone advice through to intensive visits. It is therefore not possible to provide a definitive list of every trust that has had some form of contact with the team, nor to provide the cost in each case.

Such a team no longer exists, as the A and E four hour target has been achieved and is now an operational standard for the NHS.

In addition, the former national health service Modernisation Agency's Emergency Services Collaborative was a national time limited programme that aimed to improve emergency care across the whole system; improve patient, carer and staff experience and reduce total journey times through A and E departments. The Department allocated £30 million to the national health service Modernisation Agency to fund this national service improvement programme.

Mr. Lansley: To ask the Secretary of State for Health how many attendances there have been at accident and emergency departments *(a)* in total and *(b)* per 100,000 population in each year since 1997-98 (i) in England and (ii) broken down by strategic health authority area. [149488]

Mr. Bradshaw: Information is not available in the format requested. Available information is provided in the following tables.

Total attendances at accident and emergency (A and E) departments 1997-98 to 2001-02 for England and by regional health authority

	Attendances				
Region	*1997-98*	*1998-99*	*1999-2000*	*2000-01*	*2001-02*
England	14,364,146	14,280,388	14,629,025	14,293,307	14,044,018
Northern and Yorkshire	1,908,884	1,900,148	1,940,457	1,884,713	1,891,519

Accident and Emergency Departments: Preston Royal Infirmary

Mr. Evans: To ask the Secretary of State for Health what the *(a)* average and *(b)* longest waiting time was for treatment in accident and emergency in Preston Royal Infirmary in each of the last five years. [149066]

Mr. Bradshaw: The information requested is not collected centrally. The percentage of people seen within four hours at accident and emergency departments in the Lancashire Teaching Hospitals NHS Foundation Trust is shown in the following table.

	Percentage under four hours
2002-03	93.8
2003-04	99.1
2004-05	99.8
2005-06	99.7
2006-07	99.7

Source:
Department of Health dataset QMAE

Ambulance Services: Gloucestershire

Mr. Clifton-Brown: To ask the Secretary of State for Health how many *(a)* full-time and *(b)* part-time ambulance stations were located in (i) the Cotswold district, (ii) Stroud district, (iii) Cheltenham borough, (iv) city of Gloucester, (v) the Forest of Dean and (vi) Tewkesbury borough in (A) 1997 and (B) the latest date for which figures are available; and how many he forecasts there will be by the end of (1) 2007 and (2) 2008. [146913]

Mr. Bradshaw: This information is not held centrally.

The hon. Member may wish to approach Great Western Ambulance Service NHS Trust for this information.

Ambulance Services: Rotherham

Mr. MacShane: To ask the Secretary of State for Health what assessment he has made of the likely effect of the proposed closure of the Yorkshire ambulance service 999 call centre in Rotherham; and if he will make a statement. [150019]

Mr. Bradshaw: Responsibility for local health services now lies with the local national health service. It is now for local NHS organisations to plan, develop and improve local health services according to the health needs of their local populations and within the resources allocated to them. In this instance, this is a matter for the Yorkshire Ambulance Service NHS Trust.

Cardiovascular System: Diseases

Lorely Burt: To ask the Secretary of State for Health (1) what estimate he has made of the number of people diagnosed with peripheral arterial disease in England; [148088]

(2) what estimate he has made of the number of people diagnosed with peripheral arterial disease in the last *(a)* 12 months, *(b)* five years and *(c)* year for which figures are available. [148091]

Ann Keen: The Department does not collect this information.

Lorely Burt: To ask the Secretary of State for Health (1) whether his Department has any plans to assess the effectiveness of using the ankle brachial pressure index as a means of assessing vascular disease risk; [148089]

(2) what guidance his Department has issued to primary care trusts on the management of peripheral arterial disease. [148090]

Ann Keen: Conducting assessments and providing guidance for new and existing therapies within the national health service is handled by the National Institute for Health and Clinical Excellence (NICE). NICE can be asked to develop guidance from topics suggested by various sources, including the Department's, health care and public health professionals, patients, carers and the general public.

Chiropody

Mr. Gordon Prentice: To ask the Secretary of State for Health how many non-registrants with the Health Professions Council used the protected title of *(a)* chiropodist and *(b)* podiatrist in the latest period for which figures are available. [150017]

Mr. Bradshaw: From the figures that we received from the Health Professions Council (HPC), 288 non-registrants of the HPC were issued with a warning letter on protected titles in 2006-07. 136 concerned registrants who may have been using the title or implying that they were chiropodists/podiatrists.

Community Hospitals: Capital Investments

Mr. Moss: To ask the Secretary of State for Health what criteria his Department uses to assess the needs of primary care trusts in taking decisions to allocate capital funding for community hospitals. [148938]

Mr. Bradshaw: Each primary care trust makes its own assessment of need and the appropriate pattern of services for its own locality. "Our health, our care, our communities: investing in the future of community hospitals and services" sets out ten design principles for primary care trusts (PCTs) to use as a starting point when considering local service redesign and the role of community hospitals. Strategic health authorities (SHAs) will determine how proposals from PCTs in their area can deliver the strategic needs and priorities across the SHA area.

Council for Healthcare Regulatory Excellence

David Taylor: To ask the Secretary of State for Health how frequently representatives of *(a)* the devolved Administrations and *(b)* his Department meet the Council for Healthcare Regulatory Excellence. [150113]

Mr. Bradshaw *[holding answer 17 July 2007]:* Officials from both the Department and the devolved Administrations meet the Council for Healthcare Regulatory Excellence on a regular basis and formally each quarter.

David Taylor: To ask the Secretary of State for Health what the statutory mechanisms are for monitoring the performance of the Council for Healthcare Regulatory Excellence. [150122]

Mr. Bradshaw *[holding answer 17 July 2007]:* The Council for Healthcare Regulatory Excellence is required by law to submit its annual accounts to the Secretary of State, devolved administrations, Comptroller and Auditor General, in respect of each year. Its annual report is also laid before Parliament.

There are also non-statutory quarterly meetings where the Department, along with the devolved Administrations meet the Council for Healthcare Regulatory Excellence to discuss performance and finance.

Dental Services

Sandra Gidley: To ask the Secretary of State for Health how many orthodontic practices used up their annual allocation of units of orthodontic activity before the end of the last contract year, broken down by primary care trust. [148480]

Ann Keen: The Department does not monitor the performance of individual providers of national health service orthodontic services. It is for primary care trusts, as the commissioning bodies, to monitor services and, where appropriate, take up any concerns with the provider.

Sandra Gidley: To ask the Secretary of State for Health how many dentist practitioners ran out of units of dental activity before the end of the contract year in the most recent period for which figures are available, broken down by primary care trust. [148484]

Ann Keen: Information is not held in the form requested. Primary care trusts (PCTs) agree local contracts with providers of dental services (who may be individual practitioners or dental practices), setting out the level of services to be provided over the course of each year. The Department does not assess the performance of individual providers. It is for PCTs, as the commissioning bodies, to monitor services and, where appropriate, take up any concerns with the provider.

Dental Services: Children

Sandra Gidley: To ask the Secretary of State for Health what assessment his Department has made of the effects of delay in receiving orthodontic treatment upon the dental health of children. [149691]

Ann Keen: The optimum timing of orthodontic treatment depends upon the age and development of individual patients. The Department is supporting primary care trusts in developing commissioning strategies for orthodontic treatment that are more closely related to local health needs and support timely access to care.

Dental Services: Kent

Mr. Holloway: To ask the Secretary of State for Health how many people are registered with a dentist in Kent; how many NHS dental practices there are in Kent; and how many are accepting new NHS patients. [149307]

Ann Keen: Registration data no longer form part of the data available under the new national health service dental contractual arrangements. The new measure is patients seen in the previous 24 months and is not comparable to the registration data for earlier years.

Numbers of patients seen, by adult and child, in the previous 24 months ending 31 March, 30 June, 30 September, 31 December 2006 and 31 March 2007 in West Kent Primary Care Trust (PCT) and Eastern and Coastal Kent Teaching PCT are available in section F1 of annex 3 of the "NHS Dental Statistics for England Q4: 31 March 2007" report. This report is available in the Library.

Information is as at England, strategic health authority and PCT level and the report, published by the Information Centre for health and social care, is also available at:

www.ic.nhs.uk/pubs/dentalq4

As at 9 July 2007, there were 103 NHS dental surgeries within West Kent PCT and 97 NHS dental surgeries within Eastern and Coastal Kent Teaching PCT.

The areas have been defined using practice postcodes within the PCT area. The figure provides a snapshot of the number of addresses with a contract at the specified date.

No information concerning the amount of time dedicated to NHS work by individual dentists within practices is available.

The number of dental surgeries that are accepting new NHS patients is not collected centrally.

The Information Centre for health and social care

NHS Business Services Authority (BSA).

Doctors: Career Structure

Norman Lamb: To ask the Secretary of State for Health whether his Department plans to take legal action against the IT suppliers of the Medical Training Application Service system. [149453]

Ann Keen *[holding answer 16 July 2007]:* The IT supplier of the MTAS system is Methods Consulting Ltd. The contract with Methods Consulting Ltd. is under review.

Doctors: Foreign Workers

Peter Bottomley: To ask the Secretary of State for Health when Ministers *(a)* approved and *(b)* announced that doctors from overseas wishing to apply for specialty training must apply successfully for a highly skilled migrant programme visa following the end of permit-free medical training; and what assessment the Postgraduate Medical Education and Training Board has made of the effects of the policy. [148312]

Ann Keen: There is no requirement that overseas doctors wishing to apply for specialty training in 2007 must successfully apply for leave to remain pursuant to the highly skilled migrant programme.

In order to be considered for posts alongside United Kingdom and European economic area (EEA) applicants overseas doctors must, in addition to meeting all other eligibility criteria, have the right to work in the UK without restriction on 5 February 2007. Applicants not meeting this requirement will be considered only once suitable UK and EEA applicants have been awarded posts.

Doctors: Training

Mr. Lansley: To ask the Secretary of State for Health (1) what estimate he has made of the number of junior doctors who have had their offers for a specialist training post withdrawn by deaneries in the last three months; [148638]

(2) what procedures are in place to prevent junior doctors being informed in error that they have been offered a specialist training post; what estimate he has made of the number of junior doctors so informed; and if he will make a statement. [148640]

Ann Keen: The information requested is not held centrally.

Deaneries are responsible for making offers to successful applicants. Deaneries are concerned to ensure that any offers made are accurate, and in the small number of incidents where there has been an error have apologised for any inconvenience and distress to individuals.

Mr. Lansley: To ask the Secretary of State for Health what representations his Department has received from junior doctors whose deaneries have withdrawn offers of a specialist training post in the last three months. [148639]

Ann Keen: Due to the way that correspondence is recorded, this information cannot be supplied without incurring disproportionate cost.

Donors

Mrs. Dean: To ask the Secretary of State for Health what plans his Department has made to increase laboratory testing capacity for the identification of suitable donor organs. [148880]

Ann Keen: Decisions on capacity planning are for local decision.

Education: Finance

Sandra Gidley: To ask the Secretary of State for Health what mechanisms are in place to ensure that the service increment for teaching funding was spent on purposes for which it was allocated. [148555]

Ann Keen: The role of the Department should be to focus on outputs and accountability rather than on ensuring a fixed amount of money is spent for a particular purpose regardless of local priorities.

The service increment for teaching (SIFT) funding was issued as an element of the multi professional education and training budget, which was allocated to strategic health authorities (SHAs) as part of the bundle of central budgets for 2007-08.

In 2007-08 a service level agreement (SLA) and accountability framework has been issued to ensure that SHAs are held to account for the training they support..

With regards to SIFT funding, the SLA requires SHAs to provide sufficient medical and dental placements for local medical and dental students and to ensure both the quality of training and adequate support for the students. SHAs have been asked to submit investment plans showing how they will deliver the requirements of the SLA.

Family Practitioner Services: Working Hours

Mr. Hoban: To ask the Secretary of State for Health what provision was made in his Department's 2002 Spending Review settlement to finance out-of-hours care. [148907]

Mr. Bradshaw: The funds for providing out-of-hours primary medical care services were included within various funding streams relating to primary medical services, but the total out-of-hours element was not separately identified.

Prior to 2004-05, general practitioners (GPs) were contractually responsible for their registered patients 24 hours a day. GPs covered by the general medical services contract received their funding based on a number of fees and allowances. Only a proportion of these were related to the time of day at which the care was provided. GPs covered by the personal medical services scheme had locally agreed contracts with their primary care trust.

General Practitioners

Mr. Hoban: To ask the Secretary of State for Health on what date his Department received the approval of HM Treasury for the new contract for the delivery of General Medical Services in the form in which it was agreed in June 2003. [148906]

Mr. Bradshaw: I refer the hon. Member to the answer given on 7 June 2007, *Official Report*, column 651W.

Mr. Hoban: To ask the Secretary of State for Health pursuant to the answer of 25 June 2007, *Official Report*, column 246W, on general practitioners, on what dates discussions have taken place at ministerial level since June 2003 as part of the process of reviewing the General Medical Services contract. [148944]

Mr. Bradshaw: The Department and HM Treasury Ministers and officials regularly meet to discuss a wide range of issues. As was the case with previous Administrations it is not the practice of Government to provide details of all such meetings.

Mr. Hoban: To ask the Secretary of State for Health pursuant to the answer of 25 June 2007, *Official Report*, column 246W, on general practitioners, on what dates regular discussions have been held with NHS Confederation, now NHS Employers. [148945]

Mr. Bradshaw: Discussions with the NHS Confederation, now NHS Employers, frequently take place involving officials at all levels and have included the appropriate Ministers in post at the time.

General Practitioners: Gravesham

Mr. Holloway: To ask the Secretary of State for Health how many GP practices in Gravesham offer out of hours services; and if he will make a statement. [149306]

Mr. Bradshaw: This information is not held centrally. Local primary care trusts are responsible for ensuring that there is a high quality, sustainable out of hours service for all their local population.

All out of hours services must be delivered to the national quality requirements, ensuring patients have access to consistently high quality responsive care and advice regardless of where they live.

Health Hazards: Lighting

Mr. Cox: To ask the Secretary of State for Health pursuant to the answer of 12 June 2007, *Official Report*, column 992W, on health hazards: lighting, what guidance his Department has issued on the treatment of individuals with medical conditions adversely affected by the use of energy saving lightbulbs. [148496]

Ann Keen: No specific guidance has been issued on the treatment of those with medical conditions which may put them at risk of being adversely affected by energy saving lightbulbs.

Health Professions Council

Mr. Gordon Prentice: To ask the Secretary of State for Health what factors he took into account in deciding that the Health Professions Council should have an appointed membership. [150014]

Mr. Bradshaw: Chapter 1 of the White Paper 'Trust, Assurance and Safety' sets out a series of measures to ensure the independence of the national professional regulators. In order to exercise their functions effectively and command the confidence of patients, the public and the professions, they need to be seen to be independent and impartial in their actions. To ensure that this is the case, the White Paper proposes that:

- there will be equal membership between lay and professional members, to ensure that professional concerns do not dominate their work;
- all councils will be more accountable to Parliament, presenting annual reports to the United Kingdom Parliament;
- to dispel the perception that councils are overly sympathetic to the professionals they regulate, council members will be independently appointed;
- for councils to focus on strategy. They will become smaller and more-board like, and independently appointed.

Mr. Gordon Prentice: To ask the Secretary of State for Health how many non-registrants with the Health Professions Council were found to be in breach of the regulations on protected titles in the latest period for which figures are available. [150015]

Mr. Bradshaw: From the figures that we received from the Health Professions Council (HPC), 288 non-registrants of the HPC were issued with a warning letter on protected titles in 2006-07.

Health Services: Greater London

Mr. Lansley: To ask the Secretary of State for Health pursuant to the Prime Minister's oral answer of 11 July 2007, what the source was for the Prime Minister's statement that proposals for the future of health care in London will include the creation of 150 polyclinics. [150030]

Mr. Bradshaw: The technical report which details the analytical work undertaken to support 'Healthcare for London—A Framework for Action' gives an estimated figure of 150 polyclinics across London. The technical report was published alongside 'A Framework for Action' on 11 July 2007.

Hospitals: Infectious Diseases

Sandra Gidley: To ask the Secretary of State for Health how many children *(a)* under the age of (i) one and (ii) five and *(b)* over five years old died from a hospital acquired infection in each year since 2000, broken down by NHS trust. [148477]

Ann Keen: The Office for National Statistics (ONS) publishes annual reports on statistics of deaths with meticillin resistant *Staphylococcus aureus* (MRSA) bacteraemias or *Clostridium difficile* infection recorded on the death certificate. The latest reports into deaths involving MRSA and *Clostridium difficile* infection were published in Health Statistics Quarterly 33 in February 2007. Data on the number of deaths involving *Clostridium difficile* are not available for the year 2000.

The tables show the total number of deaths with either of these organisms mentioned on the death certificate in children (persons under 16) in England and Wales, by age group, and the number which occurred in national health service hospitals.

It is not possible to assume from this that any infection affecting the deceased was contracted in the hospital where the death occurred. Patients may be transferred between hospitals, nursing homes and other establishments or may have acquired their infections before admission to the hospital in which they died. Data are not provided by individual NHS trust because of the risk of deductive disclosure.

Number of death certificates mentioning MRSA[1] in England and Wales among children (ages 0 to 15), 2000-05[2]

Age	2000	2001	2002	2003	2004	2005
All places of death						
Under one	0	1	0	2	1	6
One to four	0	0	1	0	0	0
Five to 15	1	0	0	0	0	0
Deaths in NHS hospitals[3]						
Under one	0	1	0	1	1	6
One to four	0	0	1	0	0	0
Five to 15	1	0	0	0	0	0

[1] Identified using the methodology outlined in annual ONS reports on deaths involving MRSA.
[2] Deaths occurring in 2000-05.
[3] Place of death records where the death occurred. This information does not imply anything about where any infection was acquired.

Number of death certificates mentioning Clostridium difficile[1] in England and Wales among children (ages 0 to 15), 2000-05[2]

Age	2001	2002	2003	2004	2005
All places of death					
Under one	0	0	0	0	0
One to four	0	0	1	0	1
Five to 15	0	0	0	1	0

Number of death certificates mentioning Clostridium difficile[1] in England and Wales among children (ages 0 to 15), 2000-05[2]

Age	2001	2002	2003	2004	2005
Deaths in NHS hospitals[3]					
Under one	0	0	0	0	0
One to four	0	0	1	0	0
Five to 15	0	0	0	1	0

[1] Identified using the methodology outlined in annual ONS reports on deaths involving *Clostridium difficile*.
[2] Deaths occurring in 2001-05. Data for 2000 is not available as deaths in this year were coded to the Ninth International Classification of Disease (ICD-9) which does not have a specific code for *Clostridium difficile*.
[3] Place of death records where the death occurred. This information does not imply anything about where any infection was acquired.

Hospitals: Locums

Peter Bottomley: To ask the Secretary of State for Health which trusts are taking steps to appoint three month locums to hospital posts. [150384]

Mr. Bradshaw: The information requested is not held centrally. We are aware that there are locum appointments to training being advertised during the round two period. Although locum appointments to training are Deanery approved training posts, it is for local trusts to determine their duration. They can be for any period but are usually from three to six months.

Hospitals: Ministers of Religion

Mr. Gray: To ask the Secretary of State for Health what provision is made to hospital chaplains in the national health service; what the total expenditure upon chaplains was in each of the last five years; and what the budget is for chaplains in 2007-08. [147478]

Ann Keen: The Department does not collect data on national health service hospital chaplaincy.

The Department is committed to the principle of ensuring that patients and staff in the NHS have access to spiritual care, whatever faith or belief system they follow.

NHS trusts are responsible for delivering religious and spiritual care in a way that meets the diverse needs of their patients. How they do so is a matter for local determination. Budgetary control has been devolved to NHS trusts to allow them to make decisions about how best to use the resources available locally.

Hospitals: Parking

Tim Loughton: To ask the Secretary of State for Health what guidance he has issued to hospitals on the need to provide car parking spaces for patients. [150370]

Mr. Bradshaw: The Department issued Health Technical Memorandum (HTM) 07-01 'Transport management and car parking' in 2006. A copy is available in the Library. Section 8 of the document provides detailed guidance on determining levels of car parking provision at hospital sites. It reflects the differing parking needs of patients attending hospital, such as those who are day patients or have appointments at outpatient clinics.

Hyperactivity: Drugs

Mr. Hands: To ask the Secretary of State for Health what scientific evidence is available to support the existence of attention deficit hyperactivity disorder for which Ritalin and psychiatric drugs are prescribed. [148011]

Ann Keen: Attention deficit hyperactivity disorder (ADHD) is a complex neuro developmental disorder characterised by core symptoms of inattention, hyperactivity and impulsivity that are outside the range of normal for the developmental stage of the person and cause impairment in functioning and was first described in 1902. Diagnosis is based on recognising these behavioural traits and making a judgment as to whether they are outside the range of normal. The traits are present in people without ADHD, and lie along a continuum. There is no diagnostic test as yet.

ADHD is similar to other conditions where there is not yet a biological marker and symptoms are on a continuum, such as blood pressure and height. There is evidence of genetic and environmental components to the aetiology of ADHD and it is highly heritable but the inheritance is complex and likely to be due to a combination of genes acting together. Molecular genetics shows the relationship between various markers of ADHD and neurotransmitter receptor and transporter genes.

Junior Doctors: Location

Mr. Lansley: To ask the Secretary of State for Health in what circumstances NHS trusts are required to provide relocation assistance to junior doctors transferring substantial distances for specialty training. [147936]

Ann Keen: Relocation assistance to junior doctors is a matter for the local national health service trusts to decide.

Junior Doctors: Training

Mr. Hoban: To ask the Secretary of State for Health pursuant to the answer of 25 June 2007, *Official Report*, column 257W, on junior doctors: training, who the members of the project board were. [148941]

Ann Keen: The Medical Training Application Service project board comprised representatives of the Department, NHS Employers, the Conference of Postgraduate Medical Deans, the Committee of General Practice Education Directors, National Association of Medical Personnel Specialties, Postgraduate Deanery Business Managers, the devolved Administrations and Methods Consulting.

Kidney Patients: Medical Treatments

Mrs. Dean: To ask the Secretary of State for Health if he will list the type and rate of complications for each type of dialysis access in each year since 2000. [148845]

Ann Keen: This information is not collected centrally.

Mrs. Dean: To ask the Secretary of State for Health (1) what estimate his Department has made of the mean distance from patients' homes to dialysis treatment centres; [148846]

(2) how many patients received treatment for anaemia prior to undergoing renal replacement therapy in the last period for which figures are available; and what the average duration of treatment was. [148877]

Ann Keen: This information is not collected centrally.

Mrs. Dean: To ask the Secretary of State for Health what estimate he has made of the average time taken for patients to be referred to renal teams before starting dialysis in the most recent period for which figures are available. [149542]

Ann Keen: This information is not collected centrally. Part one of the national service framework for renal services sets standards to be met locally over a ten-year period from 2004. This includes timely and appropriate preparation for renal replacement therapy, preferably a year before dialysis is expected to be needed, and timely and appropriate access to surgery for vascular or peritoneal access (ideally six months before starting haemodialysis, four weeks before starting peritoneal dialysis).

Mrs. Dean: To ask the Secretary of State for Health what transport is provided to patients receiving dialysis from their homes to treatment centres. [149543]

Ann Keen: The national service framework (NSF) for renal services makes clear that patients should have access to efficient patient transport services. It is up to local national health service trusts to determine exactly how to implement the NSF by providing efficient transport services to patients based on their individual circumstances.

Maternity Units: Infectious Diseases

Sandra Gidley: To ask the Secretary of State for Health how many cases of *(a)* MRSA, *(b) Clostridium difficile* and *(c)* other hospital acquired infections there were in each year since 2000 in (i) neonatal and (ii) maternity units, broken down by NHS trust. [148478]

Ann Keen: The specific information requested concerning prevalence in neonatal and maternity units is not collected. The best available data are given as follows but will include both community and health care acquired infections.

Meticillin resistant Staphylococcus aureus (MRSA)

The Health Protection Agency (HPA) collects data on the sex and age of cases of MRSA bloodstream infections through its voluntary surveillance scheme. The scheme does not collect data on where infection was acquired (e.g. neonatal unit, or maternity unit).

The youngest of the standard age groups is under one year.

MRSA bacteraemia reports from children aged under one year (England, Wales and Northern Ireland) 2000 to 2005

	Total
2000	37
2001	44
2002	41
2003	66
2004	47
2005	63

Note:
Figures correct at 5 June 2007.
Source:
HPA voluntary surveillance scheme

Clostridium difficile

The HPA's voluntary reporting scheme collects data on age and sex of cases. The scheme does not collect data on where infection was acquired (e.g. neonatal unit, or maternity unit). The following table shows the number of cases of *Clostridium difficile* for children from birth to one in England, Wales and Northern Ireland from 2000-06.

Age	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*
Under one month	36	38	36	35	34	37
One to five months	36	51	49	58	48	42
Six to 11 months	35	40	34	43	44	40

The information is likely to be an underestimate as not all laboratories report. Further, testing of children under two years of age may be limited owing to a general belief that the presence of *C. difficile* is not usually clinically significant in this age group as asymptomatic carriage, including production of toxins A and B, is common in this age group. No other data on healthcare associated infections are available by age group.

Maternity Services: Expenditure

Sandra Gidley: To ask the Secretary of State for Health how much the NHS spent on neonatal units in each of the last five years in *(a)* cash and *(b)* real terms. [148389]

Ann Keen: This information is not available centrally.

Maternity Services: Intensive Care

Sandra Gidley: To ask the Secretary of State for Health how many premature babies were transferred away from their local hospital in order to find an intensive care cot in each of the last five years. [148393]

Ann Keen: The information is not collected centrally.

Medicine: Overseas Students

Anne Milton: To ask the Secretary of State for Health what discussions his Department has had with the Home Office on the financial effect of the new immigration rules on the international medical students from non-European Economic Area countries who choose to study medicine in the UK. [149277]

Ann Keen: There has been no discussion between the Home Office and the Department on this issue.

We have retained a special provision in the Immigration Rules for non-European Economic Area doctors who have completed their undergraduate medical training in the United Kingdom which will give them the opportunity to complete their basic medical training and, in the process gain registration with the General Medical Council.

Mental Health Services: Greater London

Jeremy Corbyn: To ask the Secretary of State for Health what estimate he has made of the numbers of people provided with mental health counselling services by *(a)* NHS bodies and *(b)* publicly-supported voluntary groups in each London borough in (i) the last 12 months and (ii) each of the last three years. [150511]

Mr. Ivan Lewis: The data requested are not held centrally.

Methicillin Resistant Staphylococcus Aureus: Animals

Lynne Jones: To ask the Secretary of State for Health what assessment he has made of the threat to human health of MRSA in *(a)* live animals and *(b)* animal meat. [146838]

Ann Keen: The scientific evidence does not indicate that Meticillin-resistant *Staphylococcus aureus* in live animals or meat is a significant public health risk. However if the Health Protection Agency receives samples from people who have a link with veterinary work the strains are examined closely to assess whether there may be any animal origin. The Department's expert advisory committee on antimicrobial resistance and health care associated infection will keep this area under review.

Following advice on appropriate cleaning and handling, storage and cooking of meat is important in preparing food safely and preventing/minimising the risk of contamination by micro organisms.

Midwives

Mr. Breed: To ask the Secretary of State for Health if he will introduce a guaranteed placement scheme for newly qualified midwives in England. [150131]

Mr. Bradshaw: The Department of Health has consulted with NHS Employers, strategic health authorities and the Social Partnership Forum on maximising employment opportunities for newly qualified health care graduates. The consistent message from these consultations is that solutions need to be flexible, locally driven and founded on partnerships between employers, staff side and the higher education sector. Any new initiatives also need to be appropriately tested first.

Accordingly, East of England strategic health authority (SHA) have offered to undertake a feasibility study into establishing a local voluntary guaranteed employment scheme. The feasibility study will last for one year and was launched on 15 May by East of England SHA. The outcome of the feasibility study will determine whether employment guarantee schemes are a viable option. If so, the nature and length of these schemes will be defined upon relevant factors established through the study.

NHS Next Stage Review

Mr. Moss: To ask the Secretary of State for Health pursuant to the statement of 4 July 2007, *Official Report*, column 970, on the NHS next stage review, on what projects the £750 million community hospital capital funding has been *(a)* allocated to be spent and *(b)* already spent; what mechanisms have been used to allocate funding; and how much has been (i) allocated and (ii) spent on each project. [148937]

Mr. Bradshaw: Allocations from the £750 million community hospital and services capital fund will be spread over the five years ending in 2010-11. Fourteen capital schemes have been approved, supporting a range of different types of community facilities:

new primary care centre in Washington in Sunderland;

redevelopment of the Gosport War Memorial hospital;

development of a new community health centre in Yate, Bristol;

establishment of a Healthy Living park in Minehead, West Somerset;

redevelopment of the Barking hospital;

new health and social care centre in Teddington;

new primary care centre in Hastings;

redevelopment of the Royal South Hampshire hospital;

new primary care centre in Ashfield;

redevelopment of the Felixstowe community hospital;

new primary care centre in Rotherham;

new community hospital in Bristol;

new community hospital in Hornsey; and

additional community services in Calderdale and Kirklees.

The total cost of these schemes is £94.56 million. £33.6 million has been allocated to primary care trusts in 2007-08 reflecting spending profiles. We do not monitor actual spend on individual schemes at the centre. That is for primary care trusts and their strategic health authorities.

Proposals are assessed against the ten design principles set out in "Our health, our care, our community: investing in the future of community hospitals and services".

NHS Treatment Centres: Construction

Norman Lamb: To ask the Secretary of State for Health how many NHS treatment centres were delivered by 2005; and for what the *(a)* construction costs, *(b)* scheduled date for start of construction, *(c)* expected completion date and *(d)* status at 31 December 2006 is of each treatment centre scheme. [148933]

Mr. Bradshaw: By the end of 2005 the following phase one national health service treatment centres were delivered.

Contract location name	*Construction start date*	*Expected completion date*[1]	*Status at 31 December 2006*
Eccleshill NHS Treatment Centre	January 2004	May 2005	Operational
Ilkeston (Interim)	December 2003	January 2004	Closed
Bassetlaw (Interim)	February 2004	April 2004	Closed
Barlborough NHS Treatment Centre	May 2004	June 2005	Operational
Daventry Treatment Centre	Not applicable	October 2003	Operational
Shepton Mallet NHS Treatment Centre	October 2004	June 2005	Operational
Greater Manchester Surgical Centre	Not applicable	November 2005	Operational
Peninsula NHS Treatment Centre	June 2004	May 05	Operational
Bodmin NHS Treatment Centre	February 2005	December 2005	Operational
Gainsborough NHS Treatment Centre	December 2004	January 2005	Operational
Boston NHS Treatment Centre	September 2004	April 2005	Operational
Clifton Park NHS Treatment Centre	December 2004	December 2005	Operational
Capio New Hall Hospital NHS Treatment Centre	Not applicable	September 2004	Operational
Kidderminster NHS Treatment Centre	Not applicable	March 2005	Operational
St. Mary's NHS Treatment Centre	February 2005	December 2005	Operational
Will Adams NHS Treatment Centre	January 2005	September 2005	Operational
Mid and South Buckinghamshire NHS Diagnostic Centre	January 2005	July 2005	Operational

[1] Expected completion dates are as at financial close, actual completion dates may vary.

For the phase one independent sector treatment centre schemes that involved the construction of new facilities, forecast costs based on the bidder's financial models were included within the bid price and are commercially sensitive. As the construction cost risk lies with the preferred bidder, the Department are not advised of the actual construction costs.

NHS Treatment Centres: Finance

Norman Lamb: To ask the Secretary of State for Health which treatment centres reached financial close in *(a)* 2006 and *(b)* 2007 so far; which are expected to reach financial close in (i) 2007, (ii) 2008 and (iii) 2009; and what the actual or expected capital cost and completion date is of each scheme. [148932]

Mr. Bradshaw: Four phase 2 diagnostic independent sector treatment centre (ISTC) schemes reached financial close in December 2006 (north-west, south-west, London and west midlands). Two phase 2 elective schemes have to date reached financial close in 2007—Cheshire and Merseyside in May 2007, and Northumberland, Tyne and Wear in June 2007.

Of those phase 2 schemes which have reached financial close, all contracts are for a five-year term except the Cheshire and Merseyside electives scheme, which is for a four-year term.

The following phase 2 schemes are moving through the procurement process and are expected to reach financial close by the end of 2007.

Phase 2 electives:

Avon Gloucestershire and Wiltshire;

Cumbria and Lancashire elective surgery;

London North;

Hampshire Isle of Wight;

Greater Manchester CATS (A);

Greater Manchester CATS (B);

Essex;

North East Yorkshire and Northern Lincolnshire;

Cumbria and Lancashire CATS; and

Renal.

Phase 2 diagnostics

South East;

North East;

PET CT (North); and

PET CT (South).

Financial close dates are based on current planning assumptions and ongoing negotiations and therefore subject to change. On average, phase 2 schemes run to five-year contract terms.

Two further ISTC schemes, Bedfordshire and Hertfordshire and Norfolk, Suffolk and Cambridge are expected to move forward through the procurement process to financial close through 2007-08.

No phase 2 ISTC schemes are currently expected to reach financial close in 2009.

As the procurement of phase 2 is ongoing, it is not possible for commercial reasons to provide information on expected costs relating to individual schemes, including any expected capital costs.

NHS Treatment Centres: Private Sector

Norman Lamb: To ask the Secretary of State for Health pursuant to the answer of 17 May 2007, *Official Report*, column 925W, on NHS treatment centres: private sector, when he expects to publish the Healthcare Commission's full report on the quality of care in such centres. [147024]

Mr. Bradshaw *[holding answer 2 July 2007]:* I understand the Healthcare Commission intends to publish its full report on the Quality of Care in independent sector treatment centres on the 19 July 2007.

Alan Simpson: To ask the Secretary of State for Health if he will place in the Library a list of the contracts that have been placed with independent sector treatment centres, broken down by NHS trust together with the annual quantum of treatments purchased and the annual contract cost. [149412]

Mr. Bradshaw: The following phase one independent sector treatment centre contracts are in place:

Facility name	Lead primary care trust	Total activity
Eccleshill NHS Treatment Centre	Bradford and Airedale Teaching PCT	121,455
Midlands NHS Treatment Centre	South Staffordshire PCT	150,755
Barlborough NHS Treatment Centre	Barnsley PCT	21,449
Daventry (service completed)	Closed	4,880
Shepton Mallet NHS Treatment Centre	Somerset PCT	111,094
Greater Manchester Surgical Centre	Oldham PCT	89,726
Peninsula NHS Treatment Centre	Plymouth PCT	49,534
Bodmin NHS Treatment Centre	Cornwall and Isles of Scilly PCT	56,194
Boston NHS Treatment Centre	Lincolnshire Teaching PCT	14,512
Clifton Park NHS Treatment Centre	North Yorkshire and York	24,241
Horton NHS Treatment Centre (Banbury)	Oxfordshire PCT	44,759
Cobalt NHS Treatment Centre	Newcastle PCT	20,351
Capio New Hall Hospital NHS Treatment Centre	Hampshire PCT	15,818
Horton NHS Treatment Centre (Banbury)	Milton Keynes PCT	7,248
Blakelands NHS Treatment Centre	Milton Keynes PCT	22,551
Capio Reading Hospital NHS Treatment Centre	Milton Keynes PCT	12,588
Gainsborough NHS Treatment Centre	Lincolnshire Teaching PCT	9,242
Nottingham NHS Treatment Centre	Nottinghamshire County Teaching PCT	342,113
Kidderminster NHS Treatment Centre	Worcestershire PCT	36,000
Cheshire and Merseyside NHS Treatment Centre	West Cheshire PCT	99,268
Mid Kent NHS Treatment Centre	West Kent PCT	104,110
North East London NHS Treatment Centre	Barking and Dagenham PCT	58,345
Mid and South Buckinghamshire Diagnostic Centre	Buckinghamshire PCT	74,880
St Mary's NHS Treatment Centre	Portsmouth City Teaching PCT	355,299
Will Adams NHS Treatment Centre	Medway Teaching PCT	32,345
Sussex Orthopaedic NHS Treatment Centre	Brighton and Hove City PCT	55,547
Havant	Hampshire PCT	78,600

Notes:
1. The above excludes pathfinder contract and GSUP1 and GSUP2.
2. The total activity column includes all indicative activity volumes i.e. procedures, diagnostics and outpatients for the duration of the contract. These figures are subject to change and are based on estimates.

Two phase two ISTC schemes have contracts awarded. The Cheshire and Merseyside scheme is contracted to deliver approximately 67,000 procedures and the Northumberland, Tyne and Wear scheme is contracted to deliver approximately 83,300 procedures over the duration of the contracts. These figures are subject to change.

Contract values are not disclosed as they are considered commercially confidential. The Department is currently reviewing what information is provided on phase one contracts, however, no decision has yet been taken.

NHS Trusts: Infectious Diseases

Mr. Lansley: To ask the Secretary of State for Health which NHS trusts employ a director of infection prevention and control. [148641]

Ann Keen: "The Health Act 2006 Code of Practice for the Prevention and Control of Health Care Associated Infections" which came into force on 1 October 2006 requires all national health service bodies to designate a Director of Infection Prevention and Control (DIPC). The Healthcare Commission (HCC) will be monitoring compliance with the code of practice as part of the annual health check.

The data are not available in the form requested. However, the following table shows the number of DIPCs in position from HCCs 2005-06 assessment as at 31 March 2006.

	Total number of DIPCs in position	Total number of NHS establishments
Ambulance Trusts	31	31
Learning Disability Trusts	3	3
Mental Health Trusts	82	83
Primary Care Trusts	302	363

NHS: Buildings

Norman Lamb: To ask the Secretary of State for Health if he will set a long-term target to eliminate the NHS estate repair backlog by April 2011; and if he will make a statement. [148934]

Mr. Bradshaw: All national health service trusts are responsible for managing their assets to ensure that they are in good condition and safe for patients and staff. This includes managing investment to undertake any repairs that may be required to secure and maintain compliance with fire and health and safety requirements.

These investment decisions will be prioritised locally and will be based on risk assessment, reconfiguration planning, available resources and the introduction of new facilities to replace those that no longer meet local service needs.

As part of the overall objective to reduce the extent of the Department's central performance management of the NHS, trusts are responsible for satisfying the Healthcare Commission that care and treatment is provided from well designed and well maintained buildings.

NHS: Complaints

Norman Lamb: To ask the Secretary of State for Health how many times he and his predecessor decided a reference from a local overview and scrutiny

committee should not go to the Independent Reconfiguration Panel in the last two years; and how many references from overview and scrutiny committees he and his predecessor received in that period. [148607]

Ann Keen: As of 10 July 2007, there were 23 referrals from overview and scrutiny committees to the Secretary of State for Health between 1 July 2005 and 10 July 2007. The Secretary of State has sought the advice of the Independent Reconfiguration Panel in relation to eight of the 23 referrals.

NHS: Consultants

Mr. Hoban: To ask the Secretary of State for Health pursuant to the answer of 14 June 2007 to (Mr. Francois) the hon. Member for Rayleigh, *Official Report*, column 1313W, on NHS: consultants, what estimate was made of the cost of new consultants' contracts at the time of the 2002 comprehensive spending review settlement for his Department; and what his current estimate is of the cost of the contracts over the period of that review. [146948]

Ann Keen: We estimated during SR2002 that the costs of introducing the consultant contract would be an additional £565 million over the first three years.

The National Audit Office (NAO) report on the consultant contract, published in April 2007, included two sets of plausible methods for calculating the actual cost of the contract. The NAO estimated that the contract may have cost the national health service, over the first three years between £649 million and £765 million more than if consultants had remained on the old contract, compared to departmental funding of £715 million over that period.

NHS: Crimes of Violence

Mr. Lansley: To ask the Secretary of State for Health what steps he is taking to reduce the number of attacks on *(a)* NHS and *(b)* social care staff who are working in the community. [148142]

Ann Keen: In April 2003, the national health service security management service (NHS SMS) was created and assumed responsibility for tackling violence against NHS staff. A comprehensive strategy detailing both preventative and re-active measures to reduce the number of attacks against NHS staff working in the community has been implemented and includes the creation of the role of a professionally trained and accredited local security management specialist (LSMS) for each health body.

The LSMS is responsible for the management of issues related to attacks against NHS staff supported by a national structure and guidance such as 'Tackling Violence Against Staff 2007, Not Alone—a Guide For Lone Workers 2005', and the 'Non Physical Assault Explanatory Notes 2004'.

In April 2004, mandatory conflict resolution training for all NHS front line staff was introduced with the aim to equip staff with the skills to deal effectively with potentially violent situations.

The NHS SMS remit includes social care staff where they are employed directly by the NHS or deliver NHS services.

Mr. Lansley: To ask the Secretary of State for Health what recent discussions he has had with the Secretary of State for the Home Department on strengthening criminal penalties for those who attack *(a)* NHS and *(b)* social care staff. [148143]

Ann Keen: In April 2003, the NHS Security Management Service (NHS SMS) was created and assumed responsibility for tackling violence against national health service staff. The NHS SMS remit includes social care staff where they are employed directly by the NHS or deliver NHS services.

The NHS SMS is currently working with the Home Office to introduce new powers to deal with nuisance and disturbance behaviour on NHS premises with a view to minimising the potential for attacks against NHS staff.

NHS: Finance

Mr. Lansley: To ask the Secretary of State for Health if he will provide the data behind the statement made by the Chief Executive of the NHS on page nine of his Annual Report 2006-07, published on 21 June 2007, that the NHS has been in underlying deficit for the last 20 years. [147566]

Mr. Bradshaw: The statement was based on a combination of available data but also knowledge about the way in which we know national health service organisations have previously been able to mask the existence, or extent, of deficits prior to the transparency we have brought in.

We know, from audited summarised accounts, that in 11 out of the last 20 years the NHS recorded a bottom line net deficit, ending 2005-06 with a net deficit of £547 million.

We also know that, throughout this time, a number of factors may have worked to mask the existence or extent of the deficit. For example, prior to 2001-02, when the NHS operated under a cash financing regime based on annual allocations and in-year cash injections, the payment of bills could be delayed to deliver in-year spending controls and manage the financial outturn. Following the introduction of Resource Accounting and Budgeting rules, the NHS developed the practice of using capital resources to support current revenue expenditure and were allowed to move money round the system by way of brokerage and other forms of support.

On this basis, it is reasonable to conclude that the NHS has been in underlying deficit for the last 20 years.

However, the introduction of a stronger, fairer and more transparent financial regime, coupled with a renewed emphasis on performance management, has enabled the NHS to end 2006-07 in its strongest financial position for many years, to tackle underlying deficits, and to establish a firm and sustainable financial position for 2007-08 and beyond.

Mr. Lansley: To ask the Secretary of State for Health which people in *(a)* the NHS and *(b)* his Department did not take sufficient action to tackle deficits inside the NHS, as referred to on page 12 of the NHS Chief Executive's Annual Report 2006-07, published on 21 June 2007. [147568]

Mr. Bradshaw: The national health service Chief Executive was not referring to individual people. The point he was making was that because the deficits we were facing last year had built up over a number of years, it follows that both the NHS and the Department as a whole had not taken enough action at the appropriate times to stop this build up.

NHS: Flags

Bob Russell: To ask the Secretary of State for Health what guidance he has given to health trusts on the flying of the Union flag on a daily basis at national health service premises; and if he will make a statement. [150118]

Mr. Bradshaw: Individuals, local authorities and other organisations, including national health service trusts, may fly the Union flag whenever they wish subject to compliance with any local planning requirements. This is considered a matter for local determination and no guidance has been issued to the NHS.

NHS: Land

Frank Dobson: To ask the Secretary of State for Health whether the review of surplus NHS land to explore opportunities for its transfer and development to provide additional homes will apply to property owned by NHS foundation trusts. [150100]

Mr. Bradshaw *[holding answer 16 July 2007]:* The Department is examining how the review will apply to the NHS foundation trust sector.

NHS: Manpower

Mr. Laurence Robertson: To ask the Secretary of State for Health how many people are employed in the NHS in *(a)* England and *(b)* Gloucestershire; and what percentage of each are employed in (i) management, (ii) administrative, (iii) scientific, (iv) research and (v) front line medical roles. [149516]

Mr. Bradshaw: This information is shown in the table. The annual national health service workforce census does not separately identify research staff.

NHS staff in England and Gloucestershire[1] by specified staff group, as at 30 September 2006

Headcount

				Of which:	
		England	*Percentage*	*Gloucestershire[1]*	*Percentage*
All NHS staff[2]		1,338,779	100	16,185	100
Frontline medical staff[3]		675,260	50.4	8,243	50.9
Of which:					
	HCHS Doctors[4]	90,243	6.7	819	5.1
	GPs[5]	36,008	2.7	622	3.8
	Qualified Nurses (incl Practice Nurses)	398,335	29.8	4,447	27.5
	Qualified scientific, therapeutic and technical staff	134,498	10.0	1,616	10.0
	Qualified ambulance staff	16,176	1.2	739	4.6
Clerical and administrative staff		224,302	16.8	2,606	16.1
Managers and senior managers		36,751	2.7	530	3.3

[1] The figures for Gloucestershire are based on 2006 primary care trust and trust boundaries and consists of Gloucestershire Hospitals NHS Foundation Trust, Gloucestershire Partnership NHS Trust, Gloucestershire PCT, South Gloucestershire PCT and Great Western Ambulance Service NHS Trust.
[2] Total for all NHS staff will not equal the sum of the component parts as only specified staff groups are shown.
[3] Front line medical staff has been defined as HCHS doctors, general medical practitioners, qualified nurses (including GP practice nurses), qualified scientific, therapeutic and technical staff and qualified ambulance staff. It does not include support to clinical staff such as nursing assistants, trainees and helpers.
[4] Excludes medical hospital practitioners and medical clinical assistants, most of whom are GPs working part-time in hospitals.
[5] General medical practitioners includes GP Providers, GP Others, GP Retainers and GP Registrars.
Sources:
The Information Centre non-medical, medical and dental and general and personal medical services censuses.

NHS: Reviews

Mr. Jamie Reed: To ask the Secretary of State for Health what the terms of reference are of Professor Darzi's review of the NHS. [150420]

Ann Keen *[holding answer 17 July 2007]:* The terms of reference are available in the Library.

Mr. Jamie Reed: To ask the Secretary of State for Health whether ongoing reconfigurations around the UK will be affected by Professor Darzi's review of the NHS. [150432]

Ann Keen *[holding answer 17 July 2007]:* I refer the hon. Member to the oral statement given by my right. hon. Friend the Secretary of State on 4 July 2007, *Official Report*, columns 961-78W.

Mr. Jamie Reed: To ask the Secretary of State for Health when he expects Professor Ara Darzi to complete his NHS review. [150433]

Ann Keen *[holding answer 17 July 2007]:* The review will report by June 2008 with an interim report in October 2007.

Mr. Jamie Reed: To ask the Secretary of State for Health whether Professor Darzi's NHS review will assess the impact of private sector health providers upon the NHS. [150434]

Ann Keen *[holding answer 17 July 2007]:* The terms of reference for the review are available in the Library and we will set out more detail on the work of the review in due course.

Nurses: Children

Sandra Gidley: To ask the Secretary of State for Health (1) how many *(a)* neonatal and *(b)* paediatric nurses there were in England in each of the last five years; and what estimate he has made of the number due to retire over the next five years; [148386]

(2) how many full-time equivalent advanced neonatal nurse practitioners were employed by hospital trusts in England in each of the last five years. [148387]

Mr. Bradshaw: The annual national health service work force census does not separately identify the number of neonatal nurses from the rest of the nursing work force.

The number of paediatric nurses in the last five years is shown in the following table.

We do not have collated information on the estimated numbers of retirements, this is a matter for strategic health authorities to build into their local work force plans.

Qualified nurses, midwives and health visitors working in the paediatric area of work

Headcount, England

	2002	*2003*	*2004*	*2005*	*2006*[1]
Paediatrics	18,014	18,437	18,917	19,178	18,634

[1] More accurate validation in 2006 has resulted 9,858 duplicate records being identified and removed from the non-medical census. (These 9,858 duplicate records, broken down by main staff group, are: 3,370 qualified nurses; 1,818 qualified scientific, therapeutic and technical staff; 2,719 support to doctors and nurses; 1,562 NHS infrastructure support; and 389 in other areas.) The impact of duplicates on FTE has been minimal with the removal of 507.

Nurses: Schools

Mr. Burstow: To ask the Secretary of State for Health what steps his Department is taking to increase recruitment of school nurses following reported trends in the number of such nurses reaching retirement age; and if he will make a statement. [148754]

Mr. Bradshaw: It is for individual primary care trusts to determine how to use the funding allocated to them to commission services to meet the school nursing needs of their local populations. Work force planning is for strategic health authorities to manage locally.

The Department along with the Department for Children, Schools and Families is continuing to ensure that the profile of school nurses remains high nationally. In partnership the Departments have published; "Looking for a school nurse?" and a "School Nurse: Practice Development Resource Pack", which will support the expansion and development of the school nursing service.

Ministers and the chief nursing officer continue to communicate the importance of school nurses to the national health service, and work with professional bodies to promote their modern role. Managers will need to develop their workforce to support their local school nursing services in ways best suited to meet the needs of their community.

As at September 2006 there were 1,129 school nurses with a school nurse qualification. This is an increase of 35 per cent. since 2004.

Sandra Gidley: To ask the Secretary of State for Health what steps he is taking to ensure that every primary care trust will have at least one full-time, year round, qualified school nurse by 2010 as referred to in the Choosing Health paper. [150290]

Mr. Bradshaw: The Department along with the Department for Children, Schools and Families is continuing to ensure that the profile of school nurses remains high nationally.

In partnership the Departments have published 'Looking for a school nurse?' and a 'School Nurse: Practice Development Resource Pack', which will support the expansion and development of the school nursing service.

Ministers and the Chief Nursing Officer continue to communicate the importance of school nurses to the national health service, and work with professional bodies to promote their modern role. Managers will need to develop their work force to support their local school nursing services in ways best suited to meet the needs of their community.

The Department is also ensuring that newly appointed regional directors of public health and strategic health authorities work force directors are focused on this issue.

However, it is for individual primary care trusts to determine how to use the funding allocated to them to commission services to meet the school nursing needs of their local populations.

As at September 2006 there were 1,129 school nurses with a school nurse qualification. This is an increase of 35 per cent. since 2004.

Nurses: Training

Bob Russell: To ask the Secretary of State for Health what level of continuous improvement training is provided in the NHS for specialist continence nurses as part of their continuing professional development; and what his plans are for the future provision of such training. [147855]

Ann Keen: Education and training, including continuing professional development, for all nurses is the responsibility of their employers. In addition, the Nursing and Midwifery Council, the nurses' regulatory body, require that they maintain competence in their field of practice, as a condition of their continued registration.

Transplant Surgery: Kidneys

Mrs. Dean: To ask the Secretary of State for Health how many people *(a)* received a kidney transplant and *(b)* were on the national transplant list for kidneys in each year since 2000; and what the average waiting time from referral to the list and surgery was. [148841]

Ann Keen: The information is as follows.

Kidney transplants[1], United Kingdom 2000-06, by donor type

	Donor type		
	Deceased	*Living*	*Total*
2000	1,361	348	1,709
2001	1,385	358	1,743
2002	1,350	372	1,722
2003	1,297	451	1,748
2004	1,442	463	1,905
2005	1,312	543	1,855
2006	1,396	671	2,067

Numbers listed for a kidney transplant[1] at the end of year, UK, 2000-06

	Status		
	Active	*Suspended[2]*	*Total*
2000	4,891	1,235	6,126
2001	4,934	1,289	6,223
2002	5,046	1,373	6,419
2003	5,156	1,402	6,558
2004	5,299	1,666	6,965
2005	5,736	1,520	7,256
2006	6,331	1,827	8,158

[1] Including all combinations eg kidney/pancreas.
[2] Suspended means the patient has been temporarily removed from the list. This happens for such reasons as being too ill to undergo the operation or being away on holiday.

Waiting time to kidney transplant, registrations to the list 2000-03, UK

Age	*Days*
Adult	836
Paediatric[1]	159

[1] Under 18 years

Transplant Surgery: Manpower

Mrs. Dean: To ask the Secretary of State for Health how many transplant co-ordinators are employed in the NHS; and what the figure was in each of the last three years for which figures are available. [148842]

Ann Keen: This information is not collected centrally.

Wheelchairs: Finance

Richard Younger-Ross: To ask the Secretary of State for Health (1) how many electric indoor and outdoor wheelchairs were funded by the NHS in each of the last five years; [150076]

(2) how many electric indoor and outdoor wheelchairs are being funded by *(a)* strategic health authorities and *(b)* primary care trusts; [150077]

(3) what total sum of money has been allocated to the NHS in 2007-08 to provide *(a)* manual wheelchairs, *(b)* electric indoor and outdoor wheelchairs and *(c)* other wheelchairs for people with mobility problems; [150078]

(4) what advice he gives to primary care trusts on assessments for indoor and outdoor wheelchairs. [150079]

Mr. Ivan Lewis: The information requested is not held centrally. All national health service wheelchair services are funded out of general allocation funding to primary care trusts. It is up to individual PCTs to determine their allocation of resources to wheelchair services and to set their own eligibility criteria for their service. Decisions about the type of wheelchair provided to an individual will be based on an individual assessment of their needs and the PCTs eligibility criteria.

NHS wheelchairs are supplied and maintained free of charge to people whose need for a wheelchair is permanent. Indoor/outdoor electric chairs can be provided to disabled people who cannot propel a manual chair. Attendant controlled power chairs are also available.

Written Answers to Questions

Thursday 19 July 2007

DEFENCE

Afghanistan: Politics and Government

Mr. Jim Cunningham: To ask the Secretary of State for Defence what progress has been made in improving the security situation in Afghanistan. [149467]

Des Browne *[holding answer 17 July 2007]:* The security situation in Afghanistan remains stable if fragile in places. The Afghan army with the International Security Assistance Forces (ISAF) continue to undertake operations to improve the security situation and extend the authority of the Government of Afghanistan across the country. The Taliban are not able to hold territory in the face of offensive action by Afghan and International Security Assistance Forces but they are able to threaten security in parts of eastern and southern Afghanistan by means of improvised explosive devices, suicide bombers and small-scale ambushes.

In Helmand, recent operations have expanded ISAF influence around Sangin and Gereshk, enabling increased development activities, such as work on the irrigation system in Sangin.

Armed Forces: Manpower

Mr. Jenkin: To ask the Secretary of State for Defence if he will arrange for a copy to be placed in the Library of each Monthly Manning Report for the Armed Forces on the date of its publication. [146009]

Mr. Bob Ainsworth: I have arranged for a copy of the Army Monthly Manning Report, dated 1 March 2007, to be placed in the Library of the House.

Due to the introduction of a new personnel administration system for the Army during March 2007, this report is currently suspended.

No equivalent Monthly Manning Report is produced for the naval service or Royal Air Force.

Military Bases: Wales

John Smith: To ask the Secretary of State for Defence what the timetable is for the construction and occupation of the new military training academy at MOD St. Athan. [147283]

Derek Twigg: Metrix Consortium have been declared the preferred bidder for package 1 of the Defence training review programme. For package 2 there is a significant affordability gap and work has been ongoing to develop a whole programme solution. The scale of the facility to be constructed at St. Athan will therefore depend on the outcome of this further work with Metrix. Our current forecast indicates that construction at the St. Athan site is planned to start after contract signature in late 2008, or early 2009, with the final phase of completion scheduled for 2013.

Trident

Mr. Llwyd: To ask the Secretary of State for Defence what expenditure has been incurred since 14 March 2007 on *(a)* the Trident D5 missile life extension programme and *(b)* the initial review of the need to replace the Vanguard-class ballistic-missile submarine platform for Trident D5 nuclear weapons systems. [150265]

Des Browne *[holding answer 18 July 2007]:* No expenditure has been incurred since 14 March 2007 on the Trident D5 missile life extension programme. The programme to replace the Vanguard-class ballistic-missile submarine platform incurred expenditure of around £900,000 from 1 April to 30 June 2007, the most recent quarter for which information is available.

PRIME MINISTER

Departments: Pay

David Simpson: To ask the Prime Minister (1) how many non-pensionable bonuses were awarded to members of staff in the former Department of the Deputy Prime Minister in the last three years; and at what total cost; [146990]

(2) how many staff in the former Department of the Deputy Prime Minister have taken *(a)* five or more, *(b)* four, *(c)* three and *(d)* two periods of sick leave of less than five days in the last 12 months. [147044]

Gillian Merron: I have been asked to reply.

The Deputy Prime Minister's Office was established in May 2006. Because of the small number of staff involved, disclosing the information requested could breach staff confidentiality. Information for periods before May 2006 is held by The Department for Communities and Local Government.

DUCHY OF LANCASTER

Departments: Buildings

Norman Baker: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 12 July 2007, *Official Report*, column 1640W, on Departments: buildings, what the role is of the employees of his Department occupying each building. [151036]

Gillian Merron: Information on the role of employees is provided in our departmental reports and annual resource accounts which are published on the Cabinet Office website at:

http://www.cabinetoffice.gov.uk/reports/

LEADER OF THE HOUSE

Departments: Disciplinary Proceedings

David Simpson: To ask the Leader of the House how many people in her Office have been *(a)* disciplined and *(b)* dismissed for (i) inappropriate use of the internet while at work and (ii) using work telephones to access premium rate telephone numbers in the last 12 months. [149188]

Helen Goodman: None.

Departments: Official Visits

David Simpson: To ask the Leader of the House how much was spent on overnight accommodation by civil servants within her Office's areas of responsibilities in the last 12 months. [149051]

Helen Goodman: The Office of the Leader of the House of Commons spent £316.96 on overnight accommodation for civil servants in the last 12 months.

Departments: Racial Harassment

David Simpson: To ask the Leader of the House how many complaints of racial abuse relating to staff for which she is responsible have been *(a)* investigated and *(b)* upheld in the last 12 months. [149247]

Helen Goodman: None.

SCOTLAND

Departments: Advertising

David Simpson: To ask the Secretary of State for Scotland what assessment he has made of the cost effectiveness of advertising commissioned by his Department in the last 12 months; [148508]

David Cairns: The Scotland Office does not normally undertake advertising campaigns and in 2006-07 was involved in only a small number of advertisements for appointments.

Departments: Correspondence

Mr. Carmichael: To ask the Secretary of State for Scotland how many people are employed in his Department to work on ministerial correspondence. [150564]

David Cairns: Ministerial correspondence is processed by two clerical officers, who also undertake wider administrative functions. Drafting ministerial replies is part of the role of a pool of around 20 policy officials in addition to their other duties.

Departments: Disciplinary Proceedings

David Simpson: To ask the Secretary of State for Scotland how many people in his Department have been *(a)* disciplined and *(b)* dismissed for (i) inappropriate use of the internet while at work and (ii) using work telephones to access premium rate telephone numbers in the last 12 months. [149185]

David Cairns: None.

Official Visits

Mr. Jenkin: To ask the Secretary of State for Scotland on how many occasions in the last 12 months the Secretary of State for Scotland visited Scotland in an official capacity. [147625]

Des Browne *[holding answer 10 July 2007]:* My predecessor visited Scotland on 18 occasions in his official capacity as Secretary of State for Scotland in the 12 month period to end June 2007. In addition to this, during weekends and parliamentary recesses my right hon. Friend also executed official responsibilities in Scotland. Since my appointment on 28 June, I have visited Scotland on one occasion in my capacity as Secretary of State for Scotland when I carried out a range of official responsibilities.

CULTURE, MEDIA AND SPORT

Basketball

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport if he will place in the Library a copy of the Mallin report on basketball. [150991]

Mr. Sutcliffe: I will place a copy of the independent Mallin review of basketball in the House Library following its anticipated publication later this month.

Casinos

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many consultations his Department has held on the proposals for new casinos as a result of the Gambling Act 2005. [150545]

James Purnell: There have been two consultations on the new casinos permitted under the Gambling Act 2005. These are:

Gambling (Categories of Casino) Regulations and draft Order for the implementation of the Gambling Act 2005—Formal Consultation Exercise. The consultation closed in September 2006.

Gambling Act 2005: Gambling (Inviting competing applications for Casino Premises Licences) Regulations. The consultation closed in May 2007.

Departments: Consultants

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many *(a)* management consultants and *(b)* external consultants and advisors were employed by his Department in each year since 2000. [149003]

Margaret Hodge: I am able to provide information on how many management consultants, external consultants and advisers were employed by DCMS in

each year since 2000. However, the Department does not collect this information in separate categories in the format requested.

	Management and external consultants	*Advisers*
2000	2	1
2001	12	1
2002	10	1
2003	14	1
2004	10	2
2005	13	3
2006	17	3
2007 to date	9	3

Museums and Galleries: West Midlands

Bill Wiggin: To ask the Secretary of State for Culture, Media and Sport (1) how much funding under the Renaissance initiative has the West Midlands been allocated in each year of the programme; and if he will make a statement; [148339]

(2) how much Renaissance funding will be available for *(a)* Herefordshire, *(b)* the West Midlands and *(c)* England in each of the next five years; [148340]

(3) if he will make a statement on the distribution of Renaissance funding in *(a)* Herefordshire, *(b)* the West Midlands and *(c)* England; [148341]

(4) what discussions he has had with the Chancellor of the Exchequer on Renaissance funding within the context of the comprehensive spending review in *(a)* the West Midlands and *(b)* England; and if he will make a statement. [148351]

Margaret Hodge: Investment by Renaissance in the regions in regional museums is as follows:

	£ million
West Midlands region	25.1
All English regions	138.2
All English regions, plus national initiatives	149.2

The West Midlands is currently one of three English regions to have received proportionately more funding than the other six.

It is not possible to provide a complete financial breakdown at the county level for all aspects of Renaissance, as the programme focuses on need and impact at the regional level. However, to date, Herefordshire has benefited directly from the following strands of Renaissance:

£67,600 investment for a museum development officer post for Herefordshire for 2006-08;

Museum service development grants funded by the Museum, Libraries and Archives Council in the West Midlands;

Museum development funding focussed on the needs of small and medium sized museums;

The skills development programme, providing training for museum professionals and volunteers; and

Support from the five partner institutions in the West Midlands Renaissance hub which includes funding an accreditation adviser who has been working with museums in Herefordshire.

Sports: East Sussex

Mr. Waterson: To ask the Secretary of State for Culture, Media and Sport how many sports clubs there were in *(a)* Eastbourne and *(b)* East Sussex in each of the last 10 years. [151404]

Mr. Sutcliffe: DCMS does not hold the information requested. There is no central register for sports clubs in England.

Sports: VAT

Daniel Kawczynski: To ask the Secretary of State for Culture, Media and Sport if he will discuss with the Chancellor of the Exchequer the removal of VAT on sports tuition to help schools and local councils provide sports training for young people. [150911]

Mr. Sutcliffe: My right hon. Friend the Secretary of State has no plans to discuss the VAT treatment of tuition in sport with the Chancellor of the Exchequer. There is already a wide ranging exemption from VAT for education. This relief also covers most sports tuition in schools, and similar tuition by local authorities and charitable bodies that do not seek to make any profit from this activity.

Television: Scots Gaelic Language

Mr. MacNeil: To ask the Secretary of State for Culture, Media and Sport what discussions he has had with Ofcom and the other strategic partners on a commitment to a date for first transmission by the Gaelic language television channel; and what the outcome of such discussions has been. [150314]

James Purnell *[holding answer 18 July 2007]:* None, but I understand that the Gaelic Media Service, the BBC and Ofcom are working together with the intention of launching the Gaelic Digital Service as soon as possible.

NORTHERN IRELAND

Climate Change: Legislation

Mr. McGrady: To ask the Secretary of State for Northern Ireland what discussions he has had with Northern Ireland Ministers on the co-ordination of legislation on climate change across the UK. [149416]

Paul Goggins: The Secretary of State for Northern Ireland has not had any discussions with Northern Ireland Ministers about the co-ordination of legislation on climate change across the UK. However, Arlene Foster MLA, in her role as Northern Ireland's Environment Minister, met with David Miliband when he was Secretary of State for the Environment, Food and Rural Affairs to discuss this issue and other matters, in June of this year. Also, officials in DEFRA and DOE(NI) remain in close contact as this work develops.

Department: Legislation

Mr. Clegg: To ask the Secretary of State for Northern Ireland what criminal offences have been introduced by his Department in primary legislation since October 2006. [149723]

Paul Goggins: The criminal offences introduced by the Northern Ireland Office since October 2006 are shown in the following tables. For completeness both Acts and Orders in Council are included.

Justice and Security (Northern Ireland) Act 2007

Justice and Security (Northern Ireland) Act 2007	*Offence*
Section 10	Disclosing juror information without lawful authority.
Section 15	Failure to comply with a notice to provide information to NIHRC; failure to comply with an order made by a county court to provide such information; falsify anything provided or produced in accordance with a notice or order; or make a false statement in giving oral evidence in accordance with a notice.
Section 16	Failing to comply with an order of the county court requiring a person not to obstruct NIHRC in investigating a place of detention.
Section 21	Failing to stop when required to do so under that section (power of stop and question); refusing to answer a question; failing to answer a question to the best of his knowledge and ability
Paragraph 8 of Schedule 3	Knowingly failing to comply with a requirement imposed under paragraph 3; or wilfully seeking to obstruct or frustrate a search of premises.
Paragraph 9 of Schedule 3	Failing to stop when required to do so under paragraph 4 (stop and search).
Section 26	Failing to stop a vehicle when required to do so.
Section 27	Wilfully obstructing a member of Her Majesty's Forces in the exercise of a power under that section (document examination).
Section 31	Interfering with works executed in connection with the exercise of powers in sections 29 and 30; or interfering with any apparatus, equipment or other thing used in connection with the exercise of those powers.
Section 32(2)	Interfering with road closure works or road closure equipment.
Section 32(3)	Executing bypass works within 200m of road closure works, having within his possession or under his control within 200m of road closure works, materials or equipment suitable for executing bypass works; or knowingly permitting on land occupied by him the doing or occurrence of anything which is an offence under this subsection.
Paragraph 12 of Schedule 4	Offence of obtaining compensation or increased compensation by deception; and offence of knowingly making a false or misleading statement, making a statement which he does not believe to be true, or knowingly failing to disclose a material fact.
Paragraph 4 of Schedule 6	Providing or offering to provide security services for reward without a licence.

Justice and Security (Northern Ireland) Act 2007

Justice and Security (Northern Ireland) Act 2007	*Offence*
Paragraph 5 of Schedule 6	Publishing or causing to be published an advertisement for the provision for reward of security services by a person who does not hold a licence.
Paragraph 6 of Schedule 6	Paying money in respect of the provision of security services to a person who does not hold a licence.
Paragraph 8 of Schedule 6	In connection with an application for a security licence: making a statement which he knows to be false or misleading in a material particular; or recklessly making a statement which is false or misleading in a material particular.
Paragraph 19 of Schedule 6	Failing to comply with paragraph 17(provision of information about new employees) or paragraph 18 (provision of information about a change of personnel).
Paragraph 20 of Schedule 6	Failing to comply with a requirement to produce records of an employee for inspection.
Paragraph 21 of Schedule 6	Making or keeping a record of a person employed as a security guard which he knows to be false or misleading in a material particular.

Policing (Miscellaneous Provisions) (NI) Order 2007

Policing (Miscellaneous Provisions) NI) Order 2007	*Offence*
Article 12(2)	Interfering with works executed or interfering with any apparatus, equipment or other thing used in connection with the exercise of the road closure power provided by Article 12(1).
Schedule 5, Paragraph 2(3)	Failure to give a (community support officer) CSO name and address where the CSO has reason to believe a person has committed a relevant offence
Schedule 5, Paragraph 4(6)	Making off while subject to a requirement to wait with a CSO for a period not exceeding 30 minutes for the arrival of a constable or making off while accompanying a CSO to a police station.
Schedule 5, Paragraph 8(4)	Failure to consent to being searched after refusal to surrender alcohol or tobacco.
Schedule 5, Paragraph 9(4)	Failure to give a CSO his name and address after a CSO finds, or reasonably believes a person to be in possession of a controlled drug

Departments: Official Visits

David Simpson: To ask the Secretary of State for Northern Ireland how much was spent on overnight accommodation by civil servants within his Department's areas of responsibilities in the last 12 months. [149052]

Paul Goggins: The cost of overnight accommodation and subsistence for civil servants within the Northern Ireland Office's areas of responsibilities for the financial year 2006-07 was £512,000.

The cost of overnight accommodation could be separated from this figure only at disproportionate cost.

Police Service of Northern Ireland

David Simpson: To ask the Secretary of State for Northern Ireland how many temporary advances issued to police officers in Northern Ireland *(a)* attending courses outside Northern Ireland and *(b)* performing operational duty outside Northern Ireland are outstanding; and what the total value is of those advances. [148437]

Paul Goggins: The total amount of outstanding advances to police officers at 30 June 2007 was £39,333.93.

The information needed to provide a breakdown by activity is not readily available and could be obtained only at disproportionate cost.

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland how many *(a)* full-time, *(b)* part-time reservist and *(c)* full-time reservist police officers are employed by the Police Service of Northern Ireland; and what the comparable figures have been for the last 10 years for which figures are available. [150986]

Paul Goggins: The police strength figures for the last 10 years are shown in the following table:

As at 31 December each year	*Regular*	*Full-time reserve*	*Part-time reserve*
1997	8,485	2,982	1,324
1998	8,456	2,936	1,238
1999	8,445	2,719	1,174
2000	8,268	2,555	1,097
2001	7,149	2,256	1,032
2002	7,129	1,862	952
2003	7,323	1,645	868
2004	7,484	1,419	909
2005	7,490	1,060	844
2006	7,534	793	781
July 2007	7,413	675	863

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland what percentage of *(a)* full-time, *(b)* part-time reservist and *(c)* full-time reservist Police Service of Northern Ireland officers are (i) Catholic and (ii) Protestant; what the comparable figures were in each of the last 10 years for which figures are available; and if he will make a statement. [150987]

Paul Goggins: In 1998 when Patten conducted his investigation, only 8.3 per cent. of regular officers were from the Catholic community. Under the temporary 50:50 provisions Catholic composition among regular officers has risen to 22.45 per cent. (as of 11 June 2007) with 2,699 recruits having been selected for appointment on a 50:50 basis.

I am advised by PSNI that the percentage figures for community background of regular officers, part-time reserve and full-time reserve for the last 10 years is as set out in the following table. The figures have been compiled from the Annual Monitoring Returns to the Equality Commission and relate to 1 January of each year.

	Percentage non-Catholic	*Percentage Catholic*	*Percentage not determined*	*Total number*
(a) Full-time				
1998	88.56	8.23	3.20	8,491
1999	88.32	8.33	3.34	8,462
2000	88.27	8.37	3.36	8,516
2001	88.18	8.45	3.36	8,352
2002	87.64	8.88	3.47	7,227
2003	85.04	11.68	3.28	7,193
2004	83.03	13.88	3.08	7,332
2005	80.38	16.88	2.75	7,496
2006	78.32	19.05	2.63	7,492
2007	76.36	21.06	2.59	7,542
(b) Part-time reservist				
1998	93.88	4.83	1.28	1,324
1999	93.78	4.93	1.29	1,238
2000	93.84	4.88	1.28	1,168
2001	93.80	4.83	1.37	1,097
2002	93.56	5.15	1.29	1,010
2003	93.42	5.20	1.38	942
2004	93.50	5.11	1.39	861
2005	93.21	5.57	1.22	898
2006	92.62	6.05	1.33	826
2007	92.49	6.35	1.17	772
(c) Full-time reservist				
1998	87.72	6.91	5.37	2,981
1999	87.47	6.91	5.62	2,936
2000	87.38	6.95	5.67	2,718
2001	87.24	7.05	5.71	2,555
2002	86.93	6.94	6.13	2,234
2003	86.96	6.63	6.41	1,856
2004	86.90	6.46	6.64	1,641
2005	86.95	6.21	6.84	1,418
2006	88.60	5.65	5.75	1,044
2007	89.96	5.08	4.95	767

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland how many civilian staff were employed by the Police Service of Northern Ireland and the RUC in each of the last 10 years for which figures are available. [150989]

Paul Goggins: The police civilian strength figures for the last 10 years are shown in the following table:

As at 31 December each year	*Civilian*
1997	2,930
1998	3,035
1999	2,916
2000	3,125
2001	3,293
2002	3,322

As at 31 December each year	Civilian
2003	3,192
2004	3,104
2005	3,001
2006	2,732
July 2007	2,676

Police Service of Northern Ireland: Injuries

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland how many Police Service of Northern Ireland officers were injured while on duty in Northern Ireland in each of the last 10 years for which figures are available; and if he will make a statement. [150988]

Paul Goggins: The following information refers to the numbers of incidents of injury on duty (IOD) reported by police officers in the specified periods. As the table shows, these are split by the organisation between those that resulted in a period of sickness absence and those that did not.

	Number of reported injuries on duty resulting in sickness absence	Number of reported injuries on duty not resulting in sickness absence	Total injuries on duty
1997-98	1,197	1,012	2,209
1998-99	1,354	1,050	2,404
1999-2000	1,625	1,175	2,800
2000-01	1,690	1,108	2,798
2001-02	1,719	1,574	3,293
2002-03	1,395	1,218	2,613
2003-04	1,082	855	1,937
2004-05	805	725	1,530
2005-06	798	1,073	1,871
2006-07	535	872	1,407

Prisons: Standards

Mr. McGrady: To ask the Secretary of State for Northern Ireland what steps will be taken to improve prison accommodation in Northern Ireland following the recent report from the Northern Ireland Human Rights Commission. [149417]

Paul Goggins: The recent Human Rights Commission report "The Prison Within—The imprisonment of women at Hydebank Wood 2004-06" was released on 5 July 2007. The research for this report was carried out some eighteen months ago since which time there has been significant progress in taking forward facilities and services for female prisoners.

Female prisoners were relocated during 2006 while their original accommodation was refurbished and in-cell sanitation provided. They have since re-occupied the fully refurbished modern accommodation in Ash House which is now among the best in the prison estate. This unit includes a wing for long-term and enhanced prisoners and a dedicated exercise yard. Plans are underway to extend the health care centre to provide a dedicated facility for females and to build a new female reception area including a dedicated video link and drug testing unit which should be available by the end of this year.

The current facility has an increased capacity of 69 cells complete with in-cell sanitation and includes specialist safer cells, listener cells, mother and baby units and an enhanced regime unit. There are no immediate plans to provide additional capacity within the current unit as this meets the Service's on-going needs, with 48 cells occupied as of 16 July 2007. In the longer term, NIPS is working towards the provision of more appropriate accommodation for female prisoners including a more discrete, self contained women's facility on the Hydebank Wood site, as recommended within the Human Rights Commission report. This provision, of course, is subject to the availability of funding.

Rape: Sentencing

David Simpson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 26 June 2007, *Official Report*, column 662W, on rape: sentencing, what his assessment is of the level of sentences handed down by courts in Northern Ireland; and if he will take steps to ensure longer sentences are handed down. [148489]

Paul Goggins: Sentencing in individual cases is entirely a matter for the independent judiciary. We have however announced plans for changes to the statutory sentencing framework to introduce new public protection sentences for dangerous sexual and violent offenders. Under the proposals, dangerous sexual and violent offenders could receive extended public protection sentences whereby they could be detained in custody for the full term of their prison sentence. Those committing the most serious sexual and violent offences could receive indeterminate public protection sentences and could remain in prison for an indefinite period. I will be publishing draft legislative proposals shortly.

Young Offenders: Reoffenders

Mr. McGrady: To ask the Secretary of State for Northern Ireland what the rate of re-offending is of people who have been held in young offender institutions in Northern Ireland in each of the last five years. [149415]

Paul Goggins: Information on rates of re-offending is not currently available. However, the latest published reconviction figures for those discharged from the Juvenile Justice Centre into the community show that of those discharged in 2001[1], 36 per cent. were reconvicted within one year and of those discharged in 2002[1], 42 per cent. were reconvicted within one year.

[1] While juvenile reconviction rates are based on reconviction within one year, the datasets on which reconviction are calculated cover a two-year period after the end of the relevant year (e.g. for those discharged in 2002 the dataset covers the period up to the end of 2004). This is necessary to include those who are juveniles at time of discharge but who are subsequently covered by the post-juvenile dataset. Results for juvenile reconviction from the 2003 dataset will be available shortly.

WORK AND PENSIONS

Attendance Allowance: Scotland

Mr. Carmichael: To ask the Secretary of State for Work and Pensions whether he has received recent representations from the Scottish Executive on the withdrawal of funding for the attendance allowance following the introduction of free personal care for the elderly. [150493]

Mrs. McGuire: A meeting between senior officials from this Department and the Scottish Executive was held on 22 June 2007 to discuss this issue at the Executive's request. There will be further contact over the summer.

Child Support Agency: Telephone Services

Damian Green: To ask the Secretary of State for Work and Pensions if he will undertake an assessment of the recent effectiveness of the Child Support Agency's MPs' Hotline; and if he will make a statement. [149339]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the Chief Executive. He will write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 19 July 2007:

In reply to your recent Parliamentary Questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, if he will undertake an assessment of the recent effectiveness of the Child Support Agency's MPS' Hotline; and if he will make a statement. [149339]

The MP Hotline was developed in response to requests from MP's who required faster responses on certain issues where a formal letter was not required. The system works well and feedback from MPs has been generally positive. However some issues have recently come to light as the Agency has rolled out its new complaints resolution process. Specifically, some MP Hotline telephone numbers have changed without the Agency alerting either MPs or its people to the new numbers. Also as the Agency has changed the complaints resolution process, in some cases those teams newly responsible for dealing with MP queries, have been unaware of the shorter timescales covering queries to the Hotline.

The Agency has now issued reminders to all involved on how queries to the Hotline should be dealt with and we have amended our internal directories to reflect the new numbers. In addition Lord McKenzie has recently written to all MP's informing them of the changes to the complaints resolution process, as well as the new MP Hotline numbers.

The Agency remains committed to providing a local and high quality service to all MP's as you work on your constituents' behalf to resolve issues that unfortunately arise on child support cases.

I hope you find this answer helpful.

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for Work and Pensions what legislative provisions introduced by his Department since 1997 have been repealed. [149707]

Mrs. McGuire: The information is as follows.

Acts introduced by DWP since 1997	*Repealed*
Social Security Administration (Fraud) Act 1997	Section 6
	Section 12
	Section 14
Social Security Act 1998	Section 35
	Sections 51 and 52
	Section 58
Welfare Reform and Pensions Act 1999	Sections 4 and 5
	Section 17
Social Security Contributions (Transfer of Functions, etc.) Act 1999	Section 7
	Schedule 1 paras. 3, 4, 13, 19(2), 19(3), 19(4), 60, 66(3), 67 and 68
Disability Rights Commission Act 1999	Section 11
Child Support, Pensions and Social Security Act 2000	Sections 43, 44, 45 and 46
	Section 54
	Schedule 3 para. 8(2)
Social Security Contributions (Share Options) Act 2001	Section 4

Departments: Pay

Mrs. May: To ask the Secretary of State for Work and Pensions how many bonuses were awarded to senior civil servants working at his Department and its agencies each year between 1997 and 2006; and what the total cost of those bonuses was. [146428]

Mrs. McGuire: The answer is in the following table.

The table contains the total cost and number of bonus payments awarded to senior civil servants since 2001-02. There is no statutory requirement to keep accounting records longer than six years. I am therefore unable to supply information prior to 2001-02 (financial year).

Bonuses are a key element in our reward strategy for driving up high performance and are used to reward the delivery of in-year agreed personal business objectives or targets in an individual's performance agreement. Bonuses are used to reward excellent performance and are based on a judgment of how well an individual has performed relative to their peers. In making this judgment managers' take into account performance against agreed priority business objectives or targets; total delivery record over the year; relative stretch; and response to unforeseen events which may have affected the performance.

Amount paid in bonuses to SCS since 2001-02 and the numbers of SCS receiving bonuses

	Total paid (£ million)	*Total number of non consolidated bonuses*
2001-02	0.27	81
2002-03	0.59	110
2003-04	0.71	126
2004-05	0.97	207
2005-06	1.39	205

Notes:

1. The amounts shown in col. two (total paid) are rounded to the nearest £10,000.
2. The total cost and number of bonuses for 2004-05 and 2005-06 include special non consolidated bonuses paid to SCS. Retrieval of information relating to awards paid in earlier years would be disproportionate.

Departments: Publicity

David Simpson: To ask the Secretary of State for Work and Pensions what assessment he has made of the cost effectiveness of advertising commissioned by his Department in the last 12 months. [148501]

Mrs. McGuire: Government policies and programmes affect the lives of millions of people and in order for them to work they must be communicated effectively. The Department runs promotional campaigns aimed at increasing awareness of rights and responsibilities where necessary and advertising is used where appropriate.

Advertising is rigorously assessed according to the individual criteria and objectives set out for each initiative, and results are used to measure effectiveness and to inform future strategy. Methods include quantitative surveys carried out before, during and after advertising campaigns, qualitative assessment of creative work, and in-depth work with samples of those targeted by advertising.

Incapacity Benefit: Mentally Ill

Chris Grayling: To ask the Secretary of State for Work and Pensions what research his Department has undertaken into the reasons for recent trends in the number of incapacity claimants claiming benefit due to mental and behavioural disorders. [150047]

Mrs. McGuire: 'Routes onto incapacity benefits' study (DWP, Research Report 350 (Roy Sainsbury and Jacqueline Davidson) was published in 2006 and is available in the Library. A further quantitative survey is currently being finalised and will be published in the autumn.

A review of the policies needed to improve mental health and employment outcomes was also announced in Budget 2006. The Review will report as part of the 2007 Comprehensive Spending Review.

Pensions: Warrington

Helen Southworth: To ask the Secretary of State for Work and Pensions how many people in Warrington received pension credit in the last year for which figures are available. [150984]

Mr. Mike O'Brien: As at February 2007 there were 7,940 households receiving pension credit, comprising 9,700 individual beneficiaries, in Warrington.

Notes:

1. The figures provided are early estimates. The preferred data source for figures supplied by DWP is the Work and Pensions Longitudinal Study (WPLS). However, the figure provided is the latest available figure, which is taken from the GMS scan at 2 March 2007. These are adjusted using the historical relationship between WPLS and GMS data to give an estimate of the final WPLS figure.
2. Case loads are rounded to the nearest 10.
3. Figures provided are for Warrington local authority. Local authorities are assigned by matching postcodes against the relevant postcode directory.
4. Households are those people who claim pension credit either for themselves only or on behalf of a household.
5. The number of individual beneficiaries includes both claimants and their partners.

Source:

DWP 100 per cent. data from the Generalised Matching Service (GMS) pension credit scan taken as at 2 March 2007.

Poverty

Lynne Jones: To ask the Secretary of State for Work and Pensions if he will introduce a measure of severe poverty; and if he will make a statement. [148734]

Mrs. McGuire: Poverty is a complex and multidimensional issue and there are many measures of poverty. Experts agree that it is very difficult to measure "severe" poverty. The measurement of low income we have adopted looks at a household living on less than 60 per cent. of median income, which is an internationally recognised method and the most commonly used globally. The Department also publishes the "Households Below Average Income" report, which presents information on potential living standards as determined by disposable income, measured at 50, 60 and 70 per cent. of median income.

However poverty is about more than just low income which is why we publish "Opportunity for All" which sets out a number of indicators to demonstrate our progress in tackling poverty and social exclusion.

Social Security Benefits: Repayments

Mr. Keith Simpson: To ask the Secretary of State for Work and Pensions how many people aged 16 to 21 were asked to repay benefits paid while they were staying in hospital in each year since 1997. [150308]

Mr. Plaskitt *[holding answer 17 July 2007]:* The information in relation to how many people aged 16 to 21 were asked to repay benefits paid while in hospital is not available.

Winter Fuel Payments

Chris Grayling: To ask the Secretary of State for Work and Pensions how many people received the winter fuel payment in each year since its introduction; and how much they received in each year. [150053]

Mr. Mike O'Brien: Information on winter fuel payments for the winters of 1997-98 and 1998-99 is not available. The information from winter 1999-2000 is in the following table.

	Payments made
1999-2000	10,084,130
2000-01	11,105,750
2001-02	11,201,900
2002-03	11,348,040
2003-04	11,468,240
2004-05	11,401,170
2005-06	11,514,760
2006-07	11,659,490

Notes:
1. Figures rounded to the nearest 10.
2. Figures for 2006-07 refer only to the main payment run so they do not include the late payment run figures. We estimate that there are approximately 100,000 people in Great Britain paid in late payment runs (0.8 per cent. of all payments). Since most of the payment runs are to people who are not receiving another benefit from DWP and whose claims had not been received by the qualifying week, most are men aged 60 to 64.
3. Where couples are in receipt of pension credit or income-based jobseeker's allowance they receive one full rate winter fuel payment which is paid to the person claiming the benefit.

Source:
Information directorate 100 per cent. data.

The amount of winter fuel payment a person receives depends on their household circumstances. People who live with other eligible people receive a shared rate which is half of the full payment. People who live alone, live with someone who does not qualify for a payment or who receive pension credit or income-based jobseeker's allowance receive the full rate.

The current rate of the winter fuel payment is £200 for people aged 60 to 79 and £300 for people aged 80 or over. When the winter fuel payment was introduced in the winter of 1997-98 it was paid at the rate of £20 or £50 for people receiving income support or income-based jobseeker's allowance. The payment was increased in winter 1999-2000 to £100 and further increased in winter 2000-01 to £200. In winter 2003-04 the payment was increased to £300 for people aged 80 or over.

COMMUNITIES AND LOCAL GOVERNMENT

Council Housing

Mr. Andrew Smith: To ask the Secretary of State for Communities and Local Government how many local authorities have retained direct ownership and management responsibilities for their housing stock; and what proportion of the overall national stock of social housing their stock represents. [150271]

Mr. Iain Wright: During the Stock Options Appraisal exercise conducted between 2003 and 2005, 103 local authorities in England chose retained ownership and direct management for their housing stock, a further five are retaining part ownership and direct management for part of their stock, and have used ALMO transfer or PFI for parts of their housing stock.

Between them these local authorities own and directly manage 891,000 units, which accounts for 22 per cent. of all social housing in England.

Floods: Compensation

Richard Ottaway: To ask the Secretary of State for Communities and Local Government what measures she is proposing to help those whose flood damaged houses are uninsured. [150595]

John Healey: The £14 million package of immediate support for flood hit areas announced by the Prime Minister on 7 July included a fund of £10 million to local authorities to support the work being done to help recovery. On 13 July I announced a series of initial Flood Recovery Grant payments totalling £8 million to support work in 34 flood-hit local authorities to help those in greatest and most immediate need get back on their feet. We have retained around £2 million for further distribution and we intend to make additional grants to local authorities based upon the best available data as soon as possible.

The Department for Work and Pensions is helping people on income related benefits or the lowest of incomes affected by the flooding with essential costs through Community Care Grants and repayable interest-free crisis loans, administered by Jobcentre Plus. A contingency reserve of £1 million can be drawn on by Jobcentre Plus as needed to meet the extra call on Community Care Grants.

Housing: Flood Control

Philip Davies: To ask the Secretary of State for Communities and Local Government if she will make a statement on Government policy on the building of houses on flood plains. [150590]

Mr. Iain Wright: In December 2006 we published Planning Policy Statement (PPS) 25 "Development and flood risk", which aims to avoid inappropriate development in flood risk areas and direct development away from high risk areas by ensuring that sites at little or no risk of flooding are developed in preference to areas at higher risk. In the 10 per cent. of England at high risk of flooding, PPS25 ensures that essential homes and services can be provided where it can be demonstrated that the need for the development outweighs the flood risk and the development will be safe and not increase risk.

PPS25 strengthens and clarifies the policy established by Planning Policy Guidance Note (PPG) 25, which was published in 2001. PPS25 is available at:

http://www.communities.gov.uk/index.asp?id=1504639

Local Government: Equal Pay

Dr. Tony Wright: To ask the Secretary of State for Communities and Local Government how much central funding has been given to local authorities in the last 10 years to assist them to meet the cost of equal pay. [150006]

John Healey: Local authorities are responsible for decisions on local pay issues, including equal pay, and they are expected to manage them in an affordable manner. Most central funding is provided through general grant and there has been no specific grant

earmarked for equal pay. Central Government funding for local government has increased by 39 per cent. in real terms since 1997.

Approvals for capitalisation directions for equal pay, which permit authorities to borrow or use capital receipts to fund back-pay, are set out as follows:

	Funds (£)
2003-04	4,500,000
2004-05	41,048,635
2005-06	50,089,433
2006-07	160,501,817

Following representations made by the Local Government Association and others, we have introduced a quicker process for equal pay capitalisation this year, and are considering requests in the current financial year.

Regional Government: Finance

Mr. Heathcoat-Amory: To ask the Secretary of State for Communities and Local Government how much Government funding was allocated to each of the regional assemblies in each year since their creation. [149403]

John Healey: Total Government grant to regional assemblies between 2001 and 2008 is tabled as follows. The figures for 2007-08 indicate the maximum grant available subject to satisfactory performance.

£

Regional assembly	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
North East	500,000	600,000	1,408,000	1,708,000	1,708,000	1,899,000	2,072,653
North West	500,000	600,000	1,837,000	2,536,000	2,536,000	2,637,000	3,045,456
Yorkshire and the Humber	500,000	600,000	1,655,000	1,923,000	1,923,000	2,064,000	2,338,968
West Midlands	500,000	600,000	1,671,000	2,071,000	2,071,000	2,218,210	2,517,502
East Midlands	500,000	600,000	1,631,000	2,056,000	2,056,000	2,197,000	2,506,998
East	500,000	600,000	1,874,000	2,112,000	2,112,000	2,353,000	2,469,407
South East	500,000	600,000	2,186,000	3,280,000	3,280,000	3,381,000	3,771,142
South West	500,000	600,000	1,613,000	2,101,000	2,101,000	2,289,500	2,470,164
English regions network	1,000,000	200,000	200,000	200,000	200,000	240,000	244,000
Total	5,000,000	5,000,000	14,075,000	17,987,000	17,987,000	19,278,710	21,436,290

TRANSPORT

Exhaust Emissions: EU Action

Dr. Kumar: To ask the Secretary of State for Transport what steps she is taking to ensure that technologies aimed at enabling vehicles to meet European standards for nitrogen oxides and particulate matter emissions are installed and maintained in optimum ways, with particular reference to selective catalytic reduction. [151144]

Jim Fitzpatrick: As I mentioned in my answer of 9 July 2007, *Official Report*, columns 1193-94W, from November 2007 new HGV and bus engines will be required to monitor their emission control systems and to limit engine power in the event of those emission control systems failing to operate. These provisions are essential to encourage operators to keep the emission control systems properly maintained and working, and so ensure that the intended reductions in emissions of Oxides of Nitrogen (NO_X) from current and future standards are actually delivered in operation.

The provisions apply equally to all HGV and bus engines, whether they are using exhaust gas recirculation or selective catalytic reduction, but may be of particular relevance where selective catalytic reduction is being used and the effectiveness of the system could be compromised by a simple omission, on the part of the vehicle operator or driver, to top up the AdBlue reagent.

In the case of engines using selective catalytic reduction (SCR), a level indicator for the AdBlue reagent, incorporating a low level warning, will be required to be displayed on the dashboard near the fuel gauge, and the On Board Diagnostic system will be required to monitor the quality, as well as the presence, of the reagent. On Board Diagnostic systems are also required to monitor for failures which could lead to increased particulate emissions.

Using an SCR equipped vehicle with an empty AdBlue tank would be an offence under regulation 61 a of the Road Vehicles (Construction and Use) Regulations 1986, as amended, in that it will lead to excess emissions which could have been avoided by routine maintenance.

Public Transport: Finance

Graham Stringer: To ask the Secretary of State for Transport (1) what estimate she has made of the abstraction of rail revenue to the intercity coach network when the National Concessionary Fare Scheme is implemented in April 2008; [149651]

(2) whether free concessionary travel will be available to older and disabled passengers on intercity express coach services registered as local bus services under the proposed national scheme due to come into force in April 2008. [149652]

Ms Rosie Winterton *[holding answer 16 July 2007]:* An eligible pass holder will be able to travel for free at off-peak times on any registered local bus service anywhere in England from April next year. Eligible services are defined in the Travel Concessions (Eligible Services) Order 2002—a number of criteria have to be

met in order for a service to be obliged to offer the statutory concession. An intercity coach service will be obliged to provide the national bus concession on any parts of their route that provides a local service and fulfils the criteria set out in the legislation.

It is likely that many long intercity coach services will not be covered by the national bus concession in their entirety as they will not be eligible services under the 2002 Order.

No assessment has been made of the abstraction of rail revenue to the intercity coach network following the introduction of national bus concession.

It will be for operators and local authorities to assess which services are covered in accordance with the criteria set out.

The Department is keeping the issue of eligible services under review. The definition can be changed by secondary legislation.

Railways

Malcolm Bruce: To ask the Secretary of State for Transport how many *(a)* Voyager, *(b)* Super Voyager and *(c)* InterCity 125 high speed trains are in use on the national rail network; and if she will make a statement on the fuel efficiency of each of these models. [150708]

Mr. Tom Harris: We do not hold the information regarding fuel efficiency in the Department.

Railways: EU Action

Mrs. Dunwoody: To ask the Secretary of State for Transport what assessment she has made of the financial implications for the UK rail industry of the implementation of the EU proposal 2004/0048 (COD) for a European Parliament and Council directive on the certification of train drivers operating locomotives and trains on the Community's rail network. [151033]

Mr. Tom Harris: Following publication of the proposals for the Third Rail Package, the Government undertook a statutory public consultation to take into account the views of stakeholders which were integral to formulating the UK negotiating line. In accordance with Cabinet Office guidelines the Government produced an initial Regulatory Impact Assessment at the time of consultation in 2004 to assess the likely effects of the directive on the UK industry and users. This was continually updated to account for changes made to the proposal by the Council and European Parliament. A partial Regulatory Impact Assessment was submitted to the Scrutiny Committee of both Houses on 14 January 2005.

The Regulatory Impact Assessment identified considerable cost to the UK industry of implementation of the licensing requirements to domestic train drivers in the UK. Negotiation of a derogation into the final text of the directive for domestic drivers means that those costs originally identified are now likely to be substantially reduced.

Mrs. Dunwoody: To ask the Secretary of State for Transport what assessment her Department has made of the likelihood of the EU proposal 2004/0048 (COD) for a European Parliament and Council directive on the certification of train drivers operating locomotives and trains on the Community's rail network being extended to include all train crews. [151034]

Mr. Tom Harris: The final text of the proposed directive on the certification of train drivers operating locomotives and trains on the railway system in the Community, agreed during the conciliation process, contains provisions to limit application to a limited number of non-driving staff, which member states will be able to define. Although this has to be formally adopted by both the European Parliament and the Council, there is a strong expectation both will vote to accept. During negotiations between the Parliament and Council, the UK along with the majority of other member states was not in favour of the directive being extended to encompass all on-board safety related crew.

Mrs. Dunwoody: To ask the Secretary of State for Transport if she will publish the UK's proposed derogation from the EU proposal 2004/0048 (COD) for a European Parliament and Council directive on the certification of train drivers operating locomotives and trains on the Community's rail network. [151080]

Mr. Tom Harris: The final text of the proposed directive on the certification of train drivers operating locomotives and trains on the railway system in the Community, agreed during the conciliation process, has not yet been formally adopted by either the European Parliament or the Council. The derogation will require member states wishing to use it to provide the Commission with a cost/benefit analysis to show why the costs of application to domestic drivers is disproportionate.

Once the final text of the directive has been adopted by the Parliament and Council, the Government in transposing the directive for the UK, will consult stakeholders, and produce and publish guidance, which will include details on how the UK intends to apply and use the derogation for domestic drivers.

Mrs. Dunwoody: To ask the Secretary of State for Transport what discussions she has had in the Council of Ministers about the UK's proposed derogation from the EU proposal 2004/0048 (COD) for a European Parliament and Council directive on the certification of train drivers operating locomotives and trains on the Community's rail network. [151081]

Mr. Tom Harris: The derogation allowing member states to disapply on a time-limited basis provisions in the proposed Directive on the certification of train drivers operating locomotives and trains on the railway system in the Community was discussed and agreed by the Council and by the European Parliament during negotiations that began in 2005 and are now almost complete following the successful outcome of the conciliation process. UK Ministers and officials were among a majority of member states supporting this proposed derogation, which gives greater flexibility to member states in implementing the directive and ensures that the full costs and benefits can be taken into account.

Mrs. Dunwoody: To ask the Secretary of State for Transport what discussions her officials have had with the UK Permanent Representation to the EU on the UK's proposed derogation from EU proposal 2004/0048 (COD) for a European Parliament and Council directive on the certification of train drivers operating locomotives and trains on the Community's rail network. [R] [151082]

Mr. Tom Harris: Throughout negotiations of the proposed directive on the certification of train drivers operating locomotives and trains on the railway system in the Community officials from the Department of Transport have had and continue to have regular discussions and meetings with members of the UK Permanent Representation primarily to agree negotiating lines and the strategic handling of negotiations.

Railways: Offensive Weapons

Mr. Syms: To ask the Secretary of State for Transport how many passengers were found carrying offensive weapons on trains between Poole and London in each of the last five years. [151574]

Mr. Tom Harris: This information is not held by the Department for Transport but by the British Transport Police who can be contacted at:

British Transport Police,
25 Camden Road,
London
NW1 9LN,
e-mail: general.enquiries@btp.pnn.police.uk.

Rapid Transit Systems: Hampshire

Mr. Hancock: To ask the Secretary of State for Transport what plans she has to review the proposals for the South Hampshire Rapid Transit System; and if she will make a statement. [150534]

Mr. Tom Harris: The South Hampshire Rapid Transit scheme (SHRT) had its funding approval revoked in July 2004 due to excessive cost increases. In November 2005, the Parliamentary Under-Secretary of State, announced that he could not support revised proposals to reinstate the scheme as the costs were still substantially higher than originally approved. Hampshire county council subsequently took the decision formally to abandon the project and the statutory powers needed to construct the scheme expired in July 2006.

Therefore the SHRT scheme does not exist in the form last submitted to the Department. It is for Hampshire county council to consider how best to meet the future transport needs for their area and bring forward proposals accordingly.

Rolling Stock

Malcolm Bruce: To ask the Secretary of State for Transport pursuant to the answer of 28 November 2006, *Official Report*, column 522W, to the hon. Member for Orkney and Shetland (Mr. Carmichael) on rolling stock, what the age range is of the rolling stock of the franchises run by *(a)* Arriva Trains (Wales), *(b)* Virgin Cross Country, *(c)* First Great Western and *(d)* GNER; and how much of each company's stock is (i) older than the average supplied and (ii) over 20 years old. [150622]

Mr. Tom Harris: This is a matter for the train operators. We do not hold this information.

Transport: Air Pollution

Miss McIntosh: To ask the Secretary of State for Transport what recent discussions she has had with the Secretary of State for Environment, Food and Rural Affairs on measures to reduce the environmental impact of transport. [150815]

Jim Fitzpatrick: Department for Transport Ministers regularly meet with ministerial colleagues in the course of performing their ministerial duties. There is regular discussion at official level between this Department and the Department for Environment, Food and Rural Affairs regarding environment issues of mutual interest.

Transport: Tickets

Stephen Hammond: To ask the Secretary of State for Transport (1) what assessment her Department has made of the likely effect of a multi-modal integrated ticketing system on demand management through differential pricing on congested parts of the transport infrastructure; [148995]

(2) what assessment her Department has made of the likely effect of a multi-modal integrated ticketing system on provision of information for transport operators on journeys and timings nationally; [148996]

(3) what steps the Government are taking to ensure that the national multi-modal integrated ticketing system operates consistently across different rail franchises. [148997]

Ms Rosie Winterton: We have not made a detailed assessment of the likely effect of a multi-modal integrated ticketing system on demand management or on the provision of information for transport operators.

However simple fares structures and easy access to tickets help to attract passengers to the public transport network. The Government believe that the introduction of ITSO smartcards on the railway will make it easier for passengers to buy their tickets at a time and place to suit them. It also opens up the opportunities to better integrate ticketing between transport modes.

Data from an ITSO ticketing system are expected to provide additional information on the number of passenger journeys and time of travel. This will enable operators to plan services better and allow them to introduce new deals that are better tailored to passengers' needs.

Train operators are required to comply with their passenger licences and franchise agreements which ensure that the railway set, retails and distributes fares as a single national network. These requirements are consistent across train operators.

Stephen Hammond: To ask the Secretary of State for Transport for what reasons the Government only mandate smartcards at franchise renewal with the Integrated Transport Smartcard Organisation specification. [149001]

Ms Rosie Winterton: The introduction of ITSO smart media has been made compulsory by Government at rail franchise renewal as a first step in achieving a network wide application. This will encourage other operators to introduce ITSO.

The Government specify ITSO as it has been specifically designed to cope with complex ticketing structures, beyond those suitable for metropolitan areas. Secondly it is an open specification and will prevent the monopoly supply of proprietary systems. The Government believe that this will deliver the best value and service for passengers and tax payers alike.

Stephen Hammond: To ask the Secretary of State for Transport when she expects smartcard ticketing to be available throughout the transport network. [149002]

Ms Rosie Winterton: In developing the ITSO specification, the Department has sought to introduce a framework that will enable interoperability between schemes. The technology is now being implemented but there are currently no plans for metering throughout the transport network.

TREASURY

Average Earnings

Mr. Frank Field: To ask the Chancellor of the Exchequer, pursuant to the answer of 10 July 2007, *Official Report*, column 1413W, on average earnings, whether the data refer to gross hourly earnings of full-time employees. [150762]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 19 July 2007:

As National Statistician, I have been asked to reply to your recent Parliamentary Question, pursuant to the answer of 10 July 2007, *Official Report*, column 1413W, on average earnings, whether the data refer to gross hourly earnings of full-time employees. (150762)

I confirm that the figures provided in the answer relate to full-time employees.

Bingo

Mr. Pelling: To ask the Chancellor of the Exchequer what *(a)* consultations he has undertaken and *(b)* (i) financial reports and (ii) economic forecasts he has commissioned on the state of the bingo industry. [149994]

Angela Eagle: The state of the bingo industry was incorporated into the forecast of total gambling receipts, which includes bingo duty receipts, and was published in the "Financial Statement and Budget Report".

Casinos

Mr. Pelling: To ask the Chancellor of the Exchequer (1) how many visits by *(a)* Ministers and *(b)* officials in his Department have been made to casinos in (i) the UK and (ii) the rest of the world since 1997; [149990]

(2) what recent discussions he has had with representatives from the casino industry; and what plans he has for further such discussions. [149991]

Angela Eagle: The Chancellor of the Exchequer has not had any recent discussions with the casino industry. However, as part of the normal Budget process Ministers and officials have been in periodic contact with representatives of the casino industry since 1997.

Debts: Developing Countries

Ann McKechin: To ask the Chancellor of the Exchequer what processes and consultations his Department *(a)* has undertaken and *(b)* plans to undertake to promote the proposed G8 Charter on Responsible Lending; and what timetable is planned. [149857]

Kitty Ussher: The UK has been a leading actor in the substantial progress made by the international community to deliver debt relief. The multilateral debt relief initiative (MDRI) and the heavily indebted poor countries (HIPC) initiative have already delivered irrevocable debt relief to 22 countries, releasing resources to fund country-owned strategies for poverty reduction. Key to sustaining these benefits is to ensure that developing countries' debt management is strengthened and that all creditors' lending is responsible.

This is why the UK has been leading efforts with the Organisation for Economic Co-operation and Development (OECD) to get export credit agencies (ECAs) to agree firm guidelines on responsible lending to poor countries. In April this year we were successful in persuading OECD countries to extend the scope of the OECD statement of principles on unproductive expenditure beyond just heavily indebted poor countries (HIPCs) to also cover all IDA-only countries. As a result, at least 26 extra developing countries will now be covered by this agreement on responsible lending.

We are now taking this work forward with G8 partners, who share our commitment to ensuring responsible lending and borrowing. It is of course critical that all large official creditors, including those outside the G8, engage in this process. We will continue dialogue on this issue in the international fora in which we participate, including the OECD, the Paris Club and the G20.

Departments: Standards

Dr. Cable: To ask the Chancellor of the Exchequer how many staff in his Department were formally reprimanded for failing to follow departmental procedures in relation to calculating the *(a)* income tax and *(b)* national insurance liabilities of individuals in each of the last five years for which data are available; and if he will make a statement. [150890]

Angela Eagle: HM Revenue and Customs has procedures in place for tackling poor performance wherever it occurs. Information on disciplinary proceedings related to tax and national insurance calculations is not held centrally and could be provided only at disproportionate cost.

Financial Services: Disadvantaged

Julia Goldsworthy: To ask the Chancellor of the Exchequer (1) what the membership is of the ministerial working group to determine detailed priorities for financial inclusion policy, announced on page 10 of the Financial inclusion: the way forward; and if he will place in the Library copies of the agendas of the group's meetings; [150168]

(2) what the membership is of the Financial Inclusion Taskforce. [150169]

Kitty Ussher *[holding answer 17 July 2007]:* The ministerial working group for financial inclusion is chaired by the Economic Secretary to the Treasury and includes ministers from the following Departments:

Department for Work and Pensions;

Department for Business, Enterprise and Regulatory Reform;

Ministry of Justice;

Cabinet Office; and

Department for Communities and Local Government.

The first meeting of the group took place on 12 June 2007. The agenda for the meeting focused on building the evidence base for policy options to achieve the Government's objectives for financial inclusion—to ensure that everyone has access to appropriate financial services, enabling them to:

manage their money on a day-to-day basis, effectively, securely and confidently;

plan for the future and cope with financial pressure; and

deal effectively with financial distress.

The membership of the Financial Inclusion Taskforce is as follows:

Benny Higgins, Chief Executive Officer, Retail, HBOS Group plc;

Elaine Kempson, Professor of Personal Finance and Social Policy Research and Director of the Personal Finance Research Centre at Bristol University;

Chris Lendrum, former Vice Chairman of Barclays plc;

Mark Lyonette, Chief Executive of the Association of British Credit Unions Ltd.;

Bridget McIntyre, UK Chief Executive Officer of Royal and Sun Alliance Insurance Group plc;

Bernie Morgan, Chief Executive of the Community Development Finance Association;

Nick Pearson, National Debt Advice Coordinator, Advice UK;

Teresa Perchard, Director of Policy, Citizens Advice;

Brian Pomeroy (chair), former Senior Partner of Deloitte Consulting;

Faith Reynolds, Co-ordinator, Transact, the national forum for financial inclusion;

Susan Rice, Chief Executive Officer, Lloyds TSB Scotland plc;

Danielle Walker Palmour, Director, Friends Provident Foundation;

Claire Whyley; Deputy Director of Policy, National Consumer Council.

Further information on the Financial Inclusion Taskforce can be found at:

http://www.financialinclusion-taskforce.org.uk/

Insurance: Freight

Dr. Starkey: To ask the Chancellor of the Exchequer further to the publication of 'Deregulating freight forwarding resource: Summary of responses, June 2007', when he plans to bring forward the final text of the statutory instrument; and when he expects its provisions to come into force. [149557]

Kitty Ussher: This measure will remove the insurance activities of freight forwarders and storage firms from the scope of Financial Services Authority regulation. The measure will be implemented by Statutory Instrument (SI) 2007/1821, which will come into force on 20 July 2007, subject to parliamentary approval. The SI is available from the Office of Public Sector Information (OPSI) website.

Members: Correspondence

Sir Michael Spicer: To ask the Chancellor of the Exchequer when he will reply to the letter of 6 June 2007 (PO Reference: 5/02209/2007) from the hon. Member for West Worcestershire. [150765]

Kitty Ussher: I have replied to the hon. Member.

Sir Michael Spicer: To ask the Chancellor of the Exchequer when he will reply to the letter of 5 June 2007 (PO Reference: 5/02199/2007) from the hon. Member for West Worcestershire. [150766]

Kitty Ussher: I have replied to the hon. Member

Tax Allowances: Married People

Emily Thornberry: To ask the Chancellor of the Exchequer what assessment he has made of whether a transferable tax allowance for married people would be compliant with the gender equality duty for public bodies. [150151]

Jane Kennedy: The gender equality duty is a legal obligation on public authorities which came into force in April 2007. It is not applicable to tax policy.

Taxation: Care Homes

Natascha Engel: To ask the Chancellor of the Exchequer if he will take steps to enable the cost of residency in a care home to be set against the tax liability of the payer; and if he will make a statement. [149847]

Jane Kennedy: Since the introduction of the National Assistance Act 1948 people have had to contribute towards the cost of their residential care. The Department of Health is committed to providing affordable care for all who need it, but those who can afford to are asked to pay.

Taxation: Invalid Vehicles

Mr. Drew: To ask the Chancellor of the Exchequer whether mobility scooters are to be classified as leisure vehicles and will be liable to extra import duty and VAT if manufactured outside the EU; and if he will make a statement. [149877]

Jane Kennedy: Electric mobility scooters have been classified in the same tariff heading for customs purposes as some leisure vehicles, since at least 2002 when the World Customs Organisation published its 'Classification Opinion' on the subject. The World Customs Organisation is the international authority responsible for tariff classification. The European Union has set an import duty of 10 per cent. for these vehicles.

VAT and Customs are separate regimes. Classification for import duty purposes under the Customs regime has no direct bearing on VAT liability, which is determined by VAT law.

For VAT purposes, mobility scooters for disabled people may qualify for the zero-rating that can apply to equipment specifically designed to meet their needs. The Government have no plans to change the scope of this VAT relief.

Following industry representations officials from HM Revenue and Customs are advising the industry on the options available to pursue a change to this classification.

Departments: Taxation

Tim Loughton: To ask the Chancellor of the Exchequer (1) what his policy is on treating employee assistance programmes as taxable benefits; [151073]

(2) what discussions he has had with ministerial colleagues in the Department of Work and Pensions on taxation of employee assistance programmes operated for that Department's staff. [151074]

Jane Kennedy: All benefits in kind provided by employers to their employees are chargeable to tax unless covered by a specific exemption. Employee assistance programmes are not normally tax exempt as they often include taxable benefits in kind.

Treasury Ministers and officials have discussions with a wide range of organisations and individuals in the public and private sectors as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the Government's practice to provide details of all such discussions.

VAT

Mr. Lancaster: To ask the Chancellor of the Exchequer when he expects the extended verification by HM Revenue and Customs on Pars Technology Ltd, Unit 4, Newmarket Court, Chippenham Drive, Kingston, Milton Keynes, Bucks MK10 0AQ (vat number 608 7403 41) to be completed; what assessment he has made of the financial impact on the company of the time taken to complete this verification; and if he will make arrangements for interest to be paid on the amount owed to the company. [150775]

Jane Kennedy: HMRC has a statutory duty of confidentiality which restricts the use and disclosure of the information it holds relating to the tax affairs of individuals, companies and other bodies.

SOLICITOR-GENERAL

Human Trafficking

15. **Andrew Rosindell:** To ask the Solicitor-General what progress has been made by the Crown Prosecution Service on improving prosecution rates in cases of alleged human trafficking. [150579]

The Solicitor-General: The CPS is working to improve the number of prosecutions, and the number of offences prosecuted under human trafficking legislation is increasing year-on-year. Together with other Departments, the CPS is implementing the UK Action Plan on trafficking which should improve prevention, investigation, enforcement and prosecution.

BAE Systems Inquiry

18. **John Barrett:** To ask the Solicitor-General what discussions she has had with the Attorney-General, the Secretary of State for the Home Department and the Secretary of State for Foreign and Commonwealth Affairs on the request for co-operation with the US Department of Justice's BAE Systems corruption inquiry; and if she will make a statement. [150582]

The Solicitor-General: The Home Office, which has central authority for these purposes, has received a request for mutual legal assistance from the United States in connection with its investigation. That request will be considered in the usual way.

Transnational Bribery

19. **Hugh Bayley:** To ask the Solicitor-General how many cases of alleged transnational bribery are being investigated by the Serious Fraud Office. [150583]

The Solicitor-General: The Serious Fraud Office is currently investigating 11 cases where there are allegations of transnational bribery, as well as fraud. It is not possible for operational reasons to give details of all these cases, but they include an investigation into Energy Financing Team Ltd. in Bosnia, an investigation into Kellogg Brown and Root in connection with Nigeria and a number of other countries, an investigation into the construction of the Unesco-financed Biblioteca Alexandria in Egypt and an investigation into reinsurance involving the National Insurance Institute in Costa Rica. A number of other cases are currently being considered for investigation in the vetting process.

Prosecutions

Mr. Evennett: To ask the Solicitor-General if she will make a statement on the role of the Law Officers in relation to the conduct of prosecutions. [150578]

The Solicitor-General: The Law Officers have a statutory duty to superintend the main prosecution authorities. That duty incorporates the expectation that we will be briefed on all serious or sensitive cases. During the period of consultation on the role of the Attorney-General we will not make any key decisions in individual criminal cases unless national security or the law requires it.

Prosecutions: Smoking

Miss McIntosh: To ask the Solicitor-General how many prosecutions have been brought for breach of the smoking ban; and if she will make a statement. [150814]

Dawn Primarolo: I have been asked to reply.

Although data are not yet available from enforcement authorities, the Department understands that due to high compliance there have not been any prosecutions brought in England for any of the offences set out in Part 1, Chapter 1 of the Health Act 2006.

The Department will routinely publish data on levels of compliance with smokefree legislation. The first report will be published in August 2007 on the Smokefree England website at:

www.smokefreeengland.co.uk.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Packaging Waste

9. **John Barrett:** To ask the Secretary of State for Environment, Food and Rural Affairs what action the Government are taking to reduce packaging waste; and if he will make a statement. [150597]

Joan Ruddock: Encouraged by this Government, all the major retailers have agreed to reduce the amount of packaging they use.

Marine Bill

10. **Paddy Tipping:** To ask the Secretary of State for Environment, Food and Rural Affairs when he plans to publish a draft marine Bill. [150598]

Hilary Benn: It is the Government's intention to publish a draft marine bill in the next parliamentary Session, probably in early 2008. The Government remain committed to meeting their manifesto commitment of delivering a marine Act in this Parliament.

Bovine Tuberculosis: Badgers

11. **Dr. Palmer:** To ask the Secretary of State for Environment, Food and Rural Affairs if he will make a statement on the Independent Scientific Group's report on badgers. [150600]

12. **Kerry McCarthy:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of the final report of the Independent Scientific Group on Cattle TB and the efficacy of a badger cull in tackling this disease. [150601]

Jonathan Shaw: We have already made clear that we are grateful to the ISG for their work on the randomised badger culling trial. We welcome their final report which further improves the evidence base. We are carefully considering the issues that the report raises, and will continue to work with industry, Government advisers and scientific experts in reaching policy decisions on these issues.

Bovine Tuberculosis

13. **Paul Flynn:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to reduce cattle-to-cattle transmission of bovine tuberculosis. [150602]

Jonathan Shaw: Reducing cattle to cattle transmission of bovine TB is crucial to achieving our aim of reducing TB in cattle overall and preventing its spread into new areas. We have introduced zero tolerance of overdue tests, pre-movement testing of cattle from high risk herds, extended the use of the gamma interferon test alongside the TB skin test and produced updated advice on husbandry best practice. We will continue to consider how these measures might be strengthened, taking account of the recommendations in the final report from the Independent Scientific Group on Cattle TB.

Agriculture: Education

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to assist the education of school children in the West Midlands in nature and farming. [150081]

Jonathan Shaw *[holding answer 18 July 2007]:* My Department is committed to helping all school children in England learn more about food and farming in a sustainable countryside. DEFRA provides approximately £1 million a year in payments to farmers who provide schools with free educational visits to their farms as part of their agri-environment scheme agreements. In addition, in the current financial year, DEFRA will provide £146,000 to support the Countryside Educational Visits Accreditation Scheme (CEVAS), which provides training to farmers who provide educational access visits. This amounts to 50 per cent. of the scheme's funding.

DEFRA has worked closely with the Department for Education and Skills (now the Department for Children, Schools, and Families), the Department of Health, and other stakeholders to support the Year of Food and Farming in education. This is a campaign to promote healthy living by giving children direct experience of food, farming and the countryside. It is an industry-led initiative, fully endorsed by Government, which will run throughout the academic year, September 2007 to July 2008. DEFRA has contributed financial support amounting to £130,000 to develop the programme. In addition, DEFRA has lent a member of staff to the Royal Agricultural Society of England (RASE) to work on the initiative.

Agriculture: Land Use

Mr. Greg Knight: To ask the Secretary of State for Environment, Food and Rural Affairs what research his Department has conducted into the relative efficiency, in terms of land use, of producing organic and non-organic crops. [150114]

Jonathan Shaw *[holding answer 18 July 2007]:* DEFRA has not funded research specifically to look in overall terms at the relative efficiency, in terms of land use, of producing organic and non-organic crops. However, the following DEFRA-funded projects involve some element of comparison between organic and conventional farming:

OFO 145/301—Testing the sustainability of stockless arable organic farming on a fertile soil

OF0165—Factors influencing biodiversity within organic and conventional systems of arable farming

OFO 319/OFO 326—Sustainable organic hill and upland farming—A collaborative case study approach

OFO 370—Farm practice and soil health

OFO 189/OFO 190/OFO 373—Economics of organic farming

Further information on these projects can be found on the research pages of the DEFRA website.

Agriculture: Single Payment Scheme

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how many claimants he estimates will receive interest on their 2006 Single Farm Payments for sums paid after 30 June 2007; what he estimates the total amount of interest paid will be; and if he will make a statement. [148725]

Jonathan Shaw: The Secretary of State reported to the House on 2 July that about 2,900 claimants under the 2006 Single Payment Scheme had received a partial payment and were due a payment of the outstanding balance. In addition, the RPA had yet to complete work on about 2,000 claims to determine whether a payment is due in each case and the amounts of such payments. As the Secretary of State announced, the RPA will pay interest on payments made after 30 June. However, the Agency is not able to provide a robust estimate of the amount of interest due until the work on the outstanding cases has progressed.

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made by the Rural Payments Agency in the implementation of the Single Payment Scheme; and if he will make a statement. [150592]

Hilary Benn: I reported progress on the Single Payment Scheme to the House on 2 July. The Rural Payments Agency continues to work on the remaining SPS 2006 claims. However, most of the Agency's resources have been switched to reviewing SPS cases where entitlements may need to be adjusted.

Animal Welfare

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he plans to take to tackle the silo mentality identified in the Eves Review on animal health and welfare within his Department. [149664]

Jonathan Shaw: In his review of the Animal Health and Welfare delivery landscape, David Eves made wide-ranging recommendations. The need for greater co-ordination is a significant issue, leading to the recommendation for a pivotal role for Animal Health (formerly the State Veterinary Service). DEFRA accepts his recommendations and has considered how to act on them with Animal Health and Local Authorities Coordinators of Regulatory Services in particular. Animal Health is developing a lead role in co-ordinating Animal Health and Welfare delivery. At the same time, Animal Health is conducting, with local authority representatives, a review of the efficacy of the current delivery arrangements.

We have now begun consultation on our proposed approach to take these issues forward. The consultation is available on the DEFRA website and will run until 14 September 2007.

Animals: Transport

Jo Swinson: To ask the Secretary of State for Environment, Food and Rural Affairs if he will take steps to establish a uniform checking procedure for animals entering the UK by air, sea and rail; and what the reason is for the different procedure for those arriving by air. [150171]

Jonathan Shaw *[holding answer 17 July 2007]:* European legislation requires that commercially imported animals from third countries are checked at Border Inspection Posts. In the UK, all live animal Border Inspection Posts are at airports. Commercial imports from other EU member states may be checked at the point of destination but this is not required.

All non-commercial imports of pet dogs, cats and ferrets into the UK are subject to the same identity and paperwork checks required under pet travel rules. Pets arriving by sea and rail are usually checked at the point of embarkation. Pets entering by air are checked when they enter the country for logistical reasons.

Biofuels

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with local community councils and Action for Communities in Rural England on the potential impact of a substantial take-up by farmers of energy bio-crops on rural communities. [149414]

Jonathan Shaw: I have held no specific discussions with Action with Communities in Rural England (ACRE) on this subject.

Energy crops can make a valuable contribution to Government's climate change and overall sustainability objectives, by cutting greenhouse gas emissions, reducing dependence on fossil fuels and stimulating economic activity in rural areas.

The recently published UK Biomass Strategy provides a framework for a major expansion in the sustainable use of biomass as a source of electricity, heat and power, and to make transport biofuels and

renewable materials for industry. It estimates that there is potential to use up to 350,000 hectares of land across the UK by 2020 to grow perennial energy crops, without any detrimental effect on food supplies. This would provide important opportunities for agriculture and land based sectors and those involved throughout the bioenergy supply chains.

Government will establish appropriate environmental safeguards to deliver an expansion of biomass production in a sustainable way. Crops planted under DEFRA's Energy Crops Scheme are already subject to an environmental assessment before planting to include landscape, archaeology and wildlife considerations.

We will continue to work with stakeholders, including farming, industry and environmental interests as well as regional bodies and local community groups to deliver the policies set out in the Biomass Strategy.

Biofuels: South West Region

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the changes to the use of land in South West England in the last five years; and what estimate he has made of the change in the amount of land used for energy bio-crops. [149663]

Mr. Woolas: The following table shows agricultural land use in South West England in the last five years.

	Arable	*Other arable*	*Set aside*	*Grass*	*Woodland*	*Horticulture*	*Rough grazing*
2006	29,3987	9,354	57,764	1,148,977	69,882	11,809	90,826
2005	29,7628	7,234	62,324	1,104,922	66,965	12,549	90,117
2004	32,0963	5,084	65,110	1,077,265	62,684	11,781	94,706
2003	31,2656	4,168	75,537	1,072,491	59,886	12,907	91,538
2002	33,6270	3,343	66,997	1,027,766	59,922	12,669	98,505

The next table shows the amount of land used to produce bio-energy crops in the South West of England in the last five years. The land represented in this table has been used to grow short rotation coppice and miscanthus under the energy crops scheme and oil seed rape under the EU energy aid payment scheme.

	Land (hectares)
2006	2,396.82
2005	1,631.44
2004	84.41
2003	0
2002	0

In addition to these figures there has been 158 hectares of miscanthus planted in the region under the European Objective One programme which ran from 2000 to 2006. Unfortunately a yearly breakdown of this figure is not available.

Carbon Emissions: Publicity

Mr. Bailey: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to increase awareness and understanding of the impact everyday actions have on carbon dioxide emissions and to help people to identify what they can do about it. [150589]

Hilary Benn: We support a considerable amount of work to help individuals think about the impacts of their behaviours. As part of our Act on CO_2 campaign, we recently launched a web-based CO_2 calculator which allows people and households to find out their CO_2 footprint and receive a tailored action plan.

Coastal Areas: Access

Mr. Love: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he plans to take to make access to coastal lands available to walkers. [150604]

Jonathan Shaw: On 19 June we issued 'Consultation on proposals to improve access to the English coast'. It seeks views on a number of different options to improve access including the proposal to allow Natural England to designate a 'coastal access corridor' allowing people to enjoy unbroken access to the coast. A decision on which approach to take will be made following the consultation.

Departments: Disciplinary Proceedings

David Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs how many people in his Department have been *(a)* disciplined and *(b)* dismissed for (i) inappropriate use of the internet while at work and (ii) using work telephones to access premium rate telephone numbers in the last 12 months. [149193]

Jonathan Shaw: No officers have been disciplined or dismissed in the last 12 months for either inappropriate use of the internet while at work or for using work telephones to access premium rate telephone numbers.

The policy on IT misuse is included in the Department's 'Golden Rules of Office Working' which are detailed on the staff intranet. The Department has blocks placed on the telecoms system preventing access to premium rate telephone numbers.

EAGA: Contracts

Janet Anderson: To ask the Secretary of State for Environment, Food and Rural Affairs if he will urgently investigate the reasons why Eaga have suspended their contract with J and L National Energy Saver Ltd. [149809]

Mr. Woolas: My officials have commissioned White Young Green, the independent quality assessors for the Warm Front scheme, to undertake a review of the circumstances surrounding the suspension of work allocation to J and L National Energy Saver Ltd.

This will ensure that it has been carried out in accordance with Eaga's contractual obligations. The review is due for completion in mid-August.

Environment Agency: Equal Opportunities

David Lepper: To ask the Secretary of State for Environment, Food and Rural Affairs how many and what proportion of people with disabilities employed by the Southern Regional Office of the Environment Agency have left employment within one year of joining. [149544]

Mr. Woolas: As required by the Disability Discrimination Acts 1995 and 2005, Environment Agency applicants are invited to declare if they have a disability, however this is entirely voluntary.

170 staff are employed by the Environment Agency in its Southern Regional Office. In the last 12 months 27 staff have left the Environment Agency. They did not declare themselves as being disabled.

David Lepper: To ask the Secretary of State for Environment, Food and Rural Affairs what mechanisms are in place in the Southern Regional Office of the Environment Agency to recruit and retain *(a)* people with disabilities and *(b)* people from a black or minority ethnic background; and if he will make a statement. [149545]

Mr. Woolas: The Environment Agency's Southern Regional Office complies with the national diversity policy and actively seeks to improve its recruitment and selection process to fully represent the population it serves.

Farms

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what his Department's most recent estimate is of the number of farms in the UK, broken down by region. [150082]

Jonathan Shaw *[holding answer 18 July 2007]:* Numbers of registered holdings by region in England at June 2006 are shown in the following table. Figures for the other UK countries fall under the jurisdiction of the devolved authorities.

Region	*Number of holdings*
North East	6,922
North West	23,437
Yorkshire and the Humber	21,599
East Midlands	21,573
West Midland	26,211
East of England	22,679
London	531
South East	26,335
South West	51,094
England	200,381

Source:
June Agricultural Survey

Fisheries: EU Law

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the cost to the UK of implementing the European rules on the electronic recording and reporting of fishing activities; and if he will make a statement. [150460]

Jonathan Shaw: Fisheries Departments estimate that the capital costs to central Government will be approximately £90,000 for the purchase of equipment needed to receive the data messages sent by fishermen. In addition about £280,000 will be needed for the costs of developing the software needed to process the data.

Costs to industry cannot yet be quantified but are expected to be low. Discussions with information technology (IT) developers tell us that those with existing on-board systems should only need to make minor changes. For those without suitable equipment the estimated costs are in the region of £1,000-£1,500 per vessel to install the required equipment. Transmission costs are estimated at £0.60-£2.00 per message depending on the communication means used, with annual transmission costs per vessel estimated at around £147-£525.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects the European rules on the electronic recording and reporting of fishing activities to be fully implemented; and if he will make a statement. [150464]

Jonathan Shaw: We expect this to be 1 January 2009 for the submission of electronic sales notes by buyers and sellers and 1 July 2009 for the submission of electronic logbooks and landing declarations by vessels over 24 metres in overall length and 1 January 2011 for the submission of electronic logbooks and landing declarations by vessels over 15 metres in overall length. These dates are included in the current proposed Commission Regulation on the implementing rules for electronic recording and reporting of fishing activities.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with *(a)* his European counterparts and *(b)* the fishing industry on the implementation of the European rules on electronic recording and reporting of fishing activities; and if he will make a statement. [150465]

Jonathan Shaw: Initial discussions were held at ministerial level during November council last year when the council regulation was agreed. Since then discussions on the detailed implementing rules have been held between member states.

My officials have circulated copies of the proposed implementing rules to licence holders of vessels over 10 metres in overall length and registered buyers and sellers of first sale fish. There have also been meetings held with individuals and companies responsible for auction sales in Plymouth and Newlyn and representatives of the NFFO to discuss the possible implications of the proposal. Further discussions will take place once the detailed rules have been agreed.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs whether he has estimated the *(a)* cost and *(b)* benefits of introducing EU rules for the remote sensing of fishing vessels in UK fisheries. [150471]

Jonathan Shaw: There will be an initial cost to Government of about £40,000 to allow the integration of remote sensing images with other monitoring data. The cost for an individual Satellite Image Radar picture is between £450-£1,100.

Remote sensing of fishing vessels is not a stand alone enforcement tool and must be used along side other resources like satellite monitoring records, aerial and surface surveillance means. It can nevertheless lead to increased effectiveness in the deployment of those resources and could be particularly useful in monitoring remote closed areas. This will however need to be considered on a case-by-case basis and only used, as the Council Regulation states, where there is clear evidence of a cost benefit in relation to the traditional control means in the detection of fishing vessels operating illegally.

Fisheries: Subsidies

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what steps *(a)* have been taken and *(b)* are planned to ensure that fishing industry stakeholders are (i) informed about and (ii) included in the management of the European Fisheries Fund. [150090]

Jonathan Shaw: The four Fisheries Administrations in the UK have consulted with fishing industry stakeholders on the European Fisheries Fund (EFF) National Strategic Plan, and have also held a number of coastal meetings to inform them of proposals. Fisheries Administrations aim to consult on the EFF Operational Programme later this year. The extent to which industry and other stakeholders are involved in the management of the fund will be decided following that consultation.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what timetable has been set for the *(a)* programming and *(b)* commencement of the European Fisheries Fund in the UK. [150091]

Jonathan Shaw: We aim to consult on the European Fisheries Fund Operational programme later this year. The date that the first applications for grant will be accepted will be announced following the consultation.

Floods

Chris Huhne: To ask the Secretary of State for Environment, Food and Rural Affairs if he will assess the effectiveness of pumps in pumping stations during the recent flooding of Hull, Doncaster, Sheffield and other areas. [148952]

Mr. Woolas: I refer the hon. Member to the statement made by the Secretary of State to the House on 2 July 2007, *Official Report*, column 689, when he said that if there are lessons to be learnt, we will need to learn and apply them. We are finalising the terms of a full lessons learned exercise across all those with responsibility for managing and responding to flooding. This will consider all the relevant issues raised in the course of recent events.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what representations he has received on measures to assist those affected by recent flooding. [150603]

Mr. Woolas: I have received many representations from individuals and organisations on this important issue. My hon. Friend the Minister for Local Government is leading Government efforts to assist those in the flooded areas in their efforts to return to normality as soon as possible.

Oil: Storage

Colin Challen: To ask the Secretary of State for Environment, Food and Rural Affairs whether he intends to review the effectiveness of the Control of Pollution (Oil Storage) (England) Regulations 2001. [150401]

Jonathan Shaw: The Environment Agency is currently reviewing the number of reported oil pollution incidents since the regulations were introduced across England, looking at the incidents from exempt and non-exempt oil stores.

Their analysis will inform consideration of whether the regulations need to be strengthened to further reduce the numbers of oil pollution incidents where no downward trend is in evidence. The Agency intends to publish its findings in the autumn.

The Environment Agency is also working with industry and trade associations to address the most common causes of oil pollution highlighted by the 2005 Oil Care Campaign report on Analysis of Inland Oil and Fuel Incidents in England and Wales.

Poultry: Animal Welfare

Mr. Greg Knight: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he is taking to ensure egg production complies with animal welfare requirements. [150072]

Jonathan Shaw *[holding answer 17 July 2007]:* There is specific legislation in place to fulfil EU obligations to ensure the welfare of laying hens kept for egg production. In addition there is a DEFRA welfare code providing detailed guidance specifically on laying hens.

Animal Health (formerly the State Veterinary Service), enforces this animal welfare legislation and conducts a regular programme of inspections on farms to check the welfare of poultry. The Egg Marketing Inspectorate (now part of Animal Health) also takes note of any welfare concerns during its inspection of premises in respect of Egg Marketing Regulations.

Animal Health investigates all complaints and allegations about poor welfare on-farm and takes appropriate action, which may include a recommendation to prosecute. The Government give priority to such

complaints and allegations from, for example, private veterinary surgeons, welfare organisations and members of the public. We do not hesitate to take action against anyone failing to comply with the law.

Rural Areas

Mr. Hollobone: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effectiveness of procedures in place in his Department for the rural proofing of new policies. [150831]

Jonathan Shaw: The Government as a whole 'rural proof' their policies and programmes. This involves considering their potential impact on rural areas and, where appropriate, adjusting them to meet the needs of rural people better.

We have established the Commission for Rural Communities (CRC) to be an adviser to Government on rural affairs and to independently monitor how policies are meeting rural needs. The CRC's latest monitoring report, published in October 2006, includes encouraging evidence of rural proofing but also concludes that there is room for improvement. My Department is working with CRC and with other Government Departments to review the rural proofing process and will contribute to the next progress report later this year.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Drugs

Mr. Iain Wright: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department is taking to disrupt the supply of illegal drugs originating from *(a)* Afghanistan and *(b)* South America to the United Kingdom. [147302]

Dr. Howells: The Foreign and Commonwealth Office (FCO) contributes directly to the delivery of the UK's National Drugs Strategy by supporting efforts to disrupt the supply of illicit drugs to the UK. Preventing the importation of heroin from Afghanistan and cocaine from Latin America into the UK is a top priority for our international efforts. We engage with countries along the main trafficking routes from Afghanistan, especially Pakistan, Iran, Turkey and the Balkans, and Latin America, especially the Caribbean and West Africa, as well as with the producer countries. Our overseas posts provide the operational base for the Serious Organised Crime Agency's overseas work, which acts to support the law enforcement activity of partner agencies.

The UK works closely with host Governments to support action to disrupt trafficking, seize consignments of illicit drugs, and their financial proceeds, and ensure effective prosecution of offenders. We help to build capacity amongst the region's law enforcement agencies and judiciary with the provision of legal drafting, law enforcement and prosecution training and equipment. We work closely with other partners including the EU and US to maximise effect.

The UK is working with the Afghan Government and the international community to bring about a sustainable reduction in the cultivation, production and trafficking of opium in Afghanistan. We are spending £270 million over three years in support of the Afghan Government's National Drug Control Strategy and its four priorities—targeting the trafficker, strengthening and diversifying legal rural livelihoods, reducing demand and developing state institutions. Some £2.7 million of FCO funds has been allocated to Afghan regional capacity building since 2005, as well as bilateral funding for Pakistan and Iran of nearly £1 million.

In addition £6 million of Home Office funds is being spent on procurement of two helicopters for use by the Pakistan anti-narcotics force, as announced by my right hon. Friend the Prime Minister, when he was Chancellor of the Exchequer on 8 March 2006.

The UK also devotes considerable resources within the Latin American region to combat the trafficking of cocaine to the UK. Through its Global Opportunities Fund, the FCO has allocated £1.7 million since 2005 to specific projects to support counter-narcotics efforts in the Latin American region. For the current financial year, a sum of £647,000 has been allocated.

Conflict Prevention: Finance

Lynne Featherstone: To ask the Secretary of State for Foreign and Commonwealth Affairs which projects and programmes are being funded by the Conflict Prevention Pools; and if he will make a statement. [149999]

Dr. Howells: The Conflict Prevention Pools were established in 2001-02 to bring together defence, diplomatic and development activity aimed at long-term conflict prevention. Jointly owned and managed by the Foreign and Commonwealth Office, Ministry of Defence and Department for International Development, they aim to improve the Government's conflict prevention work through joint analysis, strategy planning and project programming, and better co-ordination with international partners.

The Global Conflict Prevention Pool currently funds programmes in Afghanistan (including a separate Afghanistan counter-narcotics programme), the Balkans, Caribbean, Latin America, Indonesia/East Timor, India/Pakistan, Iraq, Middle East/North Africa, Nepal, Russia/Commonwealth of Independent States and Sri Lanka. It also funds three thematic strategies aimed at building international conflict prevention capacity: security sector reform, small arms/light weapons and UN.

The Africa Conflict Prevention Pool funds bilateral assistance to a range of countries throughout sub-Saharan Africa, working with African and other international bodies to reduce the incidence and effects of conflict at continental, regional and country levels in Africa. Significant achievements include strong and influential relationships being built with key continental and national actors in the emerging African peace and security architecture. High quality training and other support is being provided to strengthen African capacity for peace support operations and to encourage the professionalism of African armed forces. Country programmes are making innovative contributions to peace-building and post conflict stabilisation work.

I will arrange for a full list of the programmes and projects funded by the Conflict Prevention Pools to be placed in the Library of the House.

Departments: Arabic

Mike Gapes: To ask the Secretary of State for Foreign and Commonwealth Affairs how many and what proportion of his Department's staff held an Arabic language qualification in each year since 2000. [150554]

Dr. Howells: There are 230 Foreign and Commonwealth Office (FCO) staff with an Arabic language qualification at various levels recorded on the FCO management information system. This is around 6 per cent. of the total number of diplomatic service staff. The figure does not include staff employed locally. Using success in the internal FCO Arabic exam at Operational or Extensive level as a measure of fluency, 70 staff acquired fluency in Arabic between 2000 and 2006. Other staff serving in Arabic-speaking posts will have retained fluency from previous use of the language. Five staff will complete Arabic Operational training in 2007 and a further 14 in 2008. We would expect the overall number of Arabic speakers in the diplomatic service to increase as we continue to train staff and target hard language skills, including Arabic, at recruitment and inward transfer. We will also be encouraging staff to return to the region to reuse existing language skills.

In order to provide a year on year breakdown of language qualifications we would need to extract both the start and end dates of the qualification. This information was not mandatory on the previous management information system and any breakdown would not provide a true reflection of the total number of staff that held the qualification.

Departments: Disciplinary Proceedings

David Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many people in his Department have been *(a)* disciplined and *(b)* dismissed for (i) inappropriate use of the internet while at work and (ii) using work telephones to access premium rate telephone numbers in the last 12 months. [149192]

Mr. Jim Murphy: Since April 2006 one member of the Foreign and Commonwealth Office (FCO) staff has received an official warning for accessing the Internet for private use and for making personal overseas calls from an office extension. No FCO staff have been dismissed for either inappropriate use of the internet while at work or for using work telephones to access premium rate telephone numbers in the last year.

Departments: Early Retirement

Mr. Jenkins: To ask the Secretary of State for Foreign and Commonwealth Affairs how many of his staff took early retirement in the last five years; at what cost; what grades of staff took early retirement; and what percentage of each grade took early retirement. [148815]

Mr. Jim Murphy: The following table sets out the number of officers in each grade who have taken early retirement from the Foreign and Commonwealth Office (FCO) since 2002 and the total cost per annum of their compensation.

			Grades					
	Total cost to FCO (£)	*SMS*[1]	*D7*	*D6*	*C5*	*C4*	*B3*	*A2/1*
2002-03	2,518,387	11	2	3	7	1	1	—
2003-04	3,666,088	21	1	3	5	1	2	—
2004-05	7,692,646	22	5	6	7	9	13	6
2005-06	18,158,682	37	8	19	27	34	21	26
2006-07	11,269,250	33	1	8	15	13	9	5

[1] SMS is the Senior Management Structure.

We are unable to supply the information requested about early retirements as a percentage of staff in each grade as we do not hold this data in our records for years up to 2005.

It is our policy to do all we can to avoid compulsory redundancies. But, following the 2004 Spending Review, we have carried out a restructuring exercise to realise efficiency savings. This early retirement programme will enable us to reduce the size of the SMS in the FCO by 18 per cent. by 31 March 2008.

All payments to early retirees have been calculated and paid in strict accordance with the terms of the standard Civil Service Compensation Schemes. The aforementioned total costs listed include both compensation and early payment of pension sums, some of which would have been payable to these staff whenever they retired.

Departments: Middle East

Mike Gapes: To ask the Secretary of State for Foreign and Commonwealth Affairs how many London-based departmental staff were assigned to working primarily on *(a)* the Middle East excluding Iraq and *(b)* Iraq in each year since 2000. [150553]

Dr. Howells: The following table shows the total number of London-based departmental staff working primarily on the Middle East from the financial years 2000-01 to 2007-08. We keep staffing levels under constant review against operational requirements and available resources.

Financial year	Middle East	Iraq
2000-01	45	[1]—
2001-02	46	[1]—
2002-03	49	[1]—
2003-04	51	26
2004-05	52	33
2005-06	51	35
2006-07	44	35
2007-08	39	29

[1] From financial year 2000-01 to 2002-03 Iraq fell under the wider Middle East and North Africa Directorate. Due to changes in the Foreign and Commonwealth Office's management information systems over this period, it is not possible, without incurring disproportionate cost, to distinguish staff who worked on Iraq from those working in the wider directorate

Departments: Ministerial Red Boxes

John Hemming: To ask the Secretary of State for Foreign and Commonwealth Affairs how many Ministerial red boxes his Department bought in each of the last five years; what the cost of each was; who the suppliers were: and what tendering process was used in selecting them. [150479]

Mr. Jim Murphy: The information requested by the hon. Member is only available for years 2004, 2005, 2006 and 2007.

	Number of boxes	Total value (£)
2004	0	0
2005	[1]8	3,600
2006	[2]6	2,900
2007	1	490

[1] Two separate orders
[2] Three separate orders

The requirements for these boxes are infrequent and are satisfied through single source procurement strategy with Barrow and Gale. There is no current long-term contract in place. During 2004 the opportunity was taken to market test the prices and those provided by Barrow and Gale were found to provide the best value on price and quality.

Departments: Official Visits

David Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs how much was spent on overnight accommodation by civil servants within his Department's areas of responsibilities in the last 12 months. [149045]

Meg Munn: Both in the UK and overseas, staff are paid subsistence to compensate for the additional costs of being away from home on official duty. Subsistence covers the cost of a room in a typical hotel, and the costs of meals and other incidentals. Each post has a different daily subsistence rate depending on local economic conditions There is no automatic entitlement to subsistence in the UK.

Current electronic data in the UK show that the Foreign and Commonwealth Office spent the following on hotel accommodation between April 2006 and June 2007:

		£
Dates from and to	UK	Overseas
April 2006-March 2007	60,429.15	686,213.40
April 2007-June 2007	8,469.75	86,522.68

However, this information is subject to the following caveats:

the figures use the date the expense was incurred, rather than the submission date;

the figures shown are only those where total expenditure has been paid; and

the figures provided are only those held in the UK. Posts overseas may also have paid individually for accommodation during this period, but our systems are not able to separate out the sums spent by overseas posts on overnight accommodation from other travel expenses.

Departments: Postal Services

Mr. Jenkins: To ask the Secretary of State for Foreign and Commonwealth Affairs what volume of correspondence his Department sent *(a)* by Royal Mail and *(b)* by other commercial delivery services in each of the last five years; and what the reasons were for the use of other commercial delivery services. [150447]

Mr. Jim Murphy: Foreign and Commonwealth Office (FCO) correspondence sent by Royal Mail is not tracked by volume.

FCO correspondence sent to diplomatic missions overseas is dispatched in the diplomatic bag by commercial delivery services. Volumes for each of the last five financial years are as follows:

April to March each year	Kilos
2002-03	407,576
2003-04	384,214
2004-05	362,109
2005-06	341,537
2006-07	332,622

The FCO's current principal overseas mail service provider won an open Government tender in 2005 on the basis of geographical reach and value for money. Royal Mail did not tender.

Diplomatic Service

Mike Gapes: To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK-based departmental staff there were at the British Embassy in *(a)* Egypt, *(b)* Jordan and *(c)* Israel in each year since 2000, broken down by grade; and how many such staff there were at the British Consulate General in Jerusalem in each such year, broken down by grade. [150550]

Dr. Howells: The following table shows the total number of UK based staff at the British embassies in Egypt, Israel and Jordan from the financial years 2000-01 to 2006-07. We are not able to disclose a breakdown of the grades of the staff working in these posts for security reasons. We keep staffing levels under constant review against operational requirements and available resources.

Financial year	Egypt	British Consulate-General Jerusalem	Israel	Jordan
2000-01	30	11	18	20
2001-02	35	11	18	20
2002-03	28	11	17	19
2003-04	27	12	16	15
2004-05	30	13	12	19
2005-06	26	11	12	20
2006-07	28	13	12	20

Mike Gapes: To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK-based departmental staff there were at the British Embassy in *(a)* Syria, *(b)* Lebanon and *(c)* Iraq in each year since 2000, broken down by grade. [150551]

Dr. Howells: The following table shows the total number of UK based staff at the British embassies in Iraq, Lebanon and Syria from the financial years 2000-01 to 2006-07. We are not able to disclose a breakdown of the grades of the staff working in these posts for security reasons. We keep staffing levels under constant review against operational requirements and available resources.

Financial year	Iraq	Lebanon	Syria
2000-01	0	7	12
2001-02	0	7	12
2002-03	0	7	13
2003-04	7	9	13
2004-05	35	9	11
2005-06	42	12	14
2006-07	40	12	12

Mike Gapes: To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK-based departmental staff there were at the British Embassy in *(a)* Saudi Arabia, *(b)* United Arab Emirates and *(c)* Iran in each year since 2000, broken down by grade. [150552]

Dr. Howells: The following table shows the total number of UK based staff at the British embassies in Saudi Arabia, the United Arab Emirates (UAE) and Iran from the financial years 2000-01 to 2006-07. We are not able to disclose a breakdown of the grades of the staff working in these posts for security reasons. We keep staffing levels under constant review against operational requirements and available resources.

Financial year	Iran	Saudi Arabia	UAE
2000-01	21	34	27
2001-02	22	33	27
2002-03	24	29	29
2003-04	22	28	30
2004-05	22	25	27
2005-06	23	28	29
2006-07	27	28	31

EU External Relations: Entry Clearances

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the merits of joining the Russia-EU visa facilitation agreement. [150784]

Mr. Jim Murphy: The EU strategy on visa facilitation does not apply to the UK and Ireland, given our non-participation in Schengen and the common visa policy. We are under no obligation to conclude a similar agreement. The UK considers approaches for visa facilitation independently from EU proposals.

EU Reform: Treaties

Mr. Cash: To ask the Secretary of State for Foreign and Commonwealth Affairs what the criteria are for triggering the holding of a referendum on proposals for change to the treaty base of the EU; and if he will make a statement. [149756]

Mr. Jim Murphy: The treaty establishing a constitution for Europe, on which the Government proposed a referendum, is now defunct. The mandate for a Reform treaty agreed by the European Council states clearly:

"The constitutional concept, which consisted in repealing all existing Treaties and replacing them by a single text called "Constitution", is abandoned".

The UK's only ever national referendum was on European Economic Community membership in 1975. The Reform treaty will be an amending treaty in the tradition of Maastricht, Amsterdam and Nice— none of which were subject to a referendum in this country.

European Union: Conferences

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he plans to attend the EU-Africa Summit in Portugal in December 2007. [149104]

Meg Munn: I refer my hon. Friend to the answer I gave her today (UIN 149746).

European Union: Treaties

Miss McIntosh: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his European counterparts on proposals for a treaty reforming the legal basis of the European Union. [149528]

Mr. Jim Murphy: My right hon. Friend the Foreign Secretary has held discussions with the Portuguese presidency and other EU partners on many issues, including EU institutional issues.

Hamas

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what account he *(a)* has taken and *(b)* plans to take of the Hamas charter in assessing Hamas's suitability as a partner for peace in the middle east; what recent representations he has received on the matter; and if he will make a statement. [150948]

Dr. Howells: There are parts of the Hamas charter which are clearly unacceptable to the UK. I have made clear we will engage with those who are committed to a two-state solution through peaceful negotiations.

We have received no recent representations on the charter.

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent instructions he has given to *(a)* officials and *(b)* his diplomatic representatives on contacts with Hamas in (i) the west bank and (ii) Gaza; and if he will make a statement. [150949]

Dr. Howells: Our Consul-General in Jerusalem met Ismail Haniya (former Hamas Prime Minister) and Ghazi Hamad (Hamas spokesperson) to discuss the Alan Johnston kidnapping. Foreign and Commonwealth Office officials have also held meetings with Ghazi Hamad in London to discuss the same consular case. No other issues were discussed.

Iran: Nuclear Power

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent proposals have been put to Iranian representatives by the EU High Representative on modalities for the opening of negotiations on Iran's nuclear programme. [148962]

David Miliband: The EU High Representative for Foreign and Security Policy, Javier Solana, has had a number of meetings in recent months with his Iranian interlocutor, Supreme National Security Council Secretary Dr. Ali Larijani, most recently in Lisbon on 23 June. In those meetings, he has consistently reiterated to the Iranians that the E3+3 (UK, France, Germany, Russia, China and US) are prepared to enter into negotiations with them on the basis of the "elements of a long term agreement", annexed to UN Security Council Resolution 1747 (March 2007). We regret that Iran continues to refuse to suspend its proliferation-sensitive nuclear activities, as requested by the International Atomic Energy Agency Board of Governors as a confidence-building measure and made mandatory by the UN Security Council, which would open the way for those negotiations to begin.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the *(a)* construction and *(b)* purpose of a tunnel facility near the Natanz uranium enrichment complex in Iran; and if he will make a statement. [149628]

David Miliband: We are aware of media reports about new tunnel construction at a mountain adjacent to the Natanz facility. The International Atomic Energy Agency are aware of the tunnel and we understand the Iranians have told the Agency that they will provide information on its purpose, although we have not received confirmation from the Agency that they have done so yet.

Iraq: Drugs

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the level of opium production in Iraq; and if he will make a statement. [149364]

David Miliband: While the current security environment makes it difficult to make an accurate or comprehensive assessment, we are not aware of any significant opium production in Iraq. According to the UN Office for Drugs and Crime World Drugs reports for 2006 and 2007, Iraq does not feature as a producer of opium.

Lesotho: Elections

Ian Lucas: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the outcome of the elections in Lesotho in 2007; and if he will make a statement on the political situation in Lesotho. [149419]

Meg Munn: The ruling Lesotho Congress for Democracy party won by a sizeable majority in an election process that we and independent observers deemed largely free and fair. But legal challenges by opposition parties are still ongoing and we do have concerns about sporadic incidents of violence which followed, directed at both Government and Opposition figures. Both Government and Opposition parties alike, now need to engage in dialogue to bring about a peaceful solution.

Our non-resident high commissioner, who resides in Pretoria, visited most recently on 3 July when he encouraged all sides to enter fully into the Southern African Development Community-backed mediation process headed by former President Masire of Botswana. We continue to monitor the situation closely, through our high commission in Pretoria and in London with the Lesotho high commissioner, who officials met most recently on 27 June.

Moldova: Foreign Relations

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he plans to take to improve bilateral relations with the Republic of Moldova; and if he will make a statement. [150532]

Mr. Jim Murphy: We continue to encourage Moldova to implement the reforms set out in the jointly agreed European Neighbourhood Policy Action Plan, which was launched in February 2005. In this context, the Government strongly support efforts to promote economic and political reforms, aimed at bringing Moldova closer to EU standards. During my right hon. Friend the then Minister for Europe's (Mr. Hoon) recent trip to Moldova, he made clear that the UK will continue to work closely with Moldova and help to focus their efforts on implementing the action plan and its successor.

The Government have contributed £5.5 million as part of a multi-donor fund towards the Early Transition Countries initiative managed by the European Bank for Reconstruction and Development in support of the bank's investment and business advisory operations in the seven low-income countries of Central Asia, South Caucasus and Moldova.

The Department for International Development's overall aid framework for Moldova is £2.7 million for 2006-07. The Foreign and Commonwealth Office funds small grassroots level projects under the Global

Opportunities Fund (£124,000 for 2007-08). The EU has provided assistance to Moldova totalling over €253 million (since 1991), including technical assistance under the Technical Aid to the Commonwealth of Independent States programme.

All of these activities are reinforced by the high level meetings referred to in the reply I gave to the hon. Member today (UIN 150533).

Occupied Territories: Peace Keeping Operations

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what Government policy is on the proposal put forward by 10 EU Foreign Ministers for an international force to patrol the Palestinian territories; and if he will make a statement. [149630]

David Miliband: We are concerned about the security situation in Gaza. However, any international force would need the full support and agreement of all parties concerned.

Official Visits: Moldova

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what preparations he plans to make in response to the visit of the President of Moldova to the United Kingdom later in 2007; what *(a)* events and *(b)* meetings are planned; and if he will make a statement. [150533]

Mr. Jim Murphy: We are looking at future opportunities for inward visits from Moldova from senior figures including the President of Moldova. The timing of the president's visit, however, has not yet been confirmed. It would be inappropriate to comment, therefore, on the tentative arrangements made thus far.

The UK enjoys a constructive relationship with Moldova and welcomes further co-operation between the UK and Moldova both bilaterally and within the EU. Over the last year, we have welcomed many high profile visitors to the UK, particularly Moldovan Ministers and parliamentarians. The Speaker of the Moldovan Parliament, Dr. Marian Lupu, visited the UK in February last year for meetings with Foreign and Commonwealth Office officials. Valeriu Ostalep, Deputy Minister for Foreign Affairs and European Integration visited the UK in July 2006, while the Minister of Defence, Valeriu Plesca, visited the UK in September 2006, meeting with, among others, my noble Friend the Minister of State for Defence, Lord Drayson. My right hon. Friend the then Minister for Europe (Mr. Hoon), met President Voronin and other senior figures during his visit to Moldova in February this year, and met the First Deputy Prime Minister, Mrs. Zinaida Grecianîi on her visit here last November.

Pakistan: Politics and Government

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of reports that the Government of Pakistan has relaxed the conditions of AQ Khan's house arrest; and whether he has made representations to the Government of Pakistan on this subject. [148959]

David Miliband: We have noted recent press reports that some of AQ Khan's house arrest restrictions have been eased and our high commission in Islamabad has raised this with the Pakistan Ministry of Foreign Affairs (MFA). The MFA has assured us that there has been no change in AQ Khan's status and their official spokesman has also denied the suggestion.

Palestinians: International Assistance

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of Palestinian Authority employees in Gaza who will receive salary remittances via restored EU funding through the Temporary International Mechanism. [148958]

David Miliband: 30,000 Palestinian Authority (PA) employees in Gaza currently receive allowances under the Temporary International Mechanism.

On 18 June, EU Foreign Ministers discussed the resumption of assistance to the PA. They concluded that the EU should develop the conditions for urgent practical and financial assistance. The EU has not yet decided how this will be delivered and is discussing options with the PA. These options include funding for private sector arrears and allowances for other PA workers. We expect the EU to announce its decision in the next few weeks.

Palestinians: Migration

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of Palestinians who have left Gaza since 12 June as a result of the violence and change in administration there; and if he will make a statement. [148961]

David Miliband: We have made no estimate of the number of Palestinians who have left Gaza since 12 June. However, the Palestinian Centre of Human Rights estimates that 600 Palestinians have tried to leave Gaza for the west bank since 12 June. On 16 and 17 June, Israeli authorities allowed approximately 150 Palestinians to travel to the west bank. The Israeli authorities also allowed a few Palestinian patients to travel to Israel to receive medical treatment through the offices of the International Committee of the Red Cross.

Portugal: EU-Africa Summit

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy not to attend the EU-Africa Summit in Portugal in December if Robert Mugabe is present at the summit. [149746]

Meg Munn: No decision on this has been taken since invitations have not yet been issued for the summit. It is not clear whether the Portuguese intend to invite Foreign Ministers as well as Heads of State and Government. We have made clear to EU and African partners that we believe that the presence of Robert Mugabe would undermine the summit's important agenda.

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on whether the EU Common Position banning travel in the EU by members of the Government of Zimbabwe permits the attendance of Robert Mugabe or other members of the Government of Zimbabwe at the EU-Africa Summit in Portugal in December. [149747]

Meg Munn: Article 4(5) of the EU Common Position of Zimbabwe 2004/161/Common Foreign and Security Policy lists the circumstances under which an individual listed in the annex as subject to a visa ban may be granted an exemption from the ban. This includes attendance at intergovernmental meetings, included those promoted by the EU, where a political dialogue is conducted that directly promotes democracy, human rights and the rule of law in Zimbabwe. If a member state proposes to grant an exemption, this will be decided according to the procedure in article 4(6). At present, no proposal has been made in connection with the EU-Africa summit.

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the *(a)* African Union and *(b)* the Southern African Development Community on the attendance of Robert Mugabe and other representatives of the Government of Zimbabwe at the EU-Africa Summit in Portugal in December 2007. [149103]

Meg Munn: We continue to make clear in our contacts with African leaders, including the African Union and the Southern African Development Community, that Robert Mugabe's attendance at the EU-Africa summit is undesirable and would undermine the summit's important work on issues of mutual concern such as peacekeeping and security, climate change, good governance and poverty reduction in Africa.

Rainforests: Conservation

Mr. Andrew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations his Department has made to international institutions on the protection of the Congo rainforest. [150175]

Meg Munn: The Government maintain a regular dialogue with the World Bank, non-governmental organisations (NGOs) and the Democratic Republic of Congo (DRC) Government to help develop innovative forest management and financing systems that provide alternatives to industrial logging. The Department for International Development-funded Roundtable Review is bringing together the World Bank, international NGOs and other key actors in a constructive dialogue to shape the future of the DRC's forests in a way that benefits the people of the DRC. The Government have pledged a US$500,000 contribution to the Multi-Donor Trust Fund to improve forest governance which will enable us to work with the World Bank, the EU, France and Belgium who are all key international players with important roles to play in support of the DRC's forests. And the UK's contribution of £50 million for the Congo Basin Initiative will support the important work to protect the Congo basin forests and the livelihoods of those who depend on them.

Saudi Arabia: BAE Systems

Mr. Wallace: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received from the US Administration requesting details of the inquiry into the Al Yamamah contract. [148693]

Dr. Howells: My right hon. Friend the Foreign Secretary has received no such representations.

Sudan: Peace Keeping Operations

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 25 June 2007, *Official Report*, column 217W, on Sudan: peacekeeping operations, whether it is UK policy that the forthcoming UN Security Council resolution mandating the deployment of the AU-UN hybrid force should include provision for a no-fly zone and enhanced air monitoring in Darfur. [148976]

David Miliband: We are considering a number of measures to improve air monitoring in Darfur. Such measures will not be included in the UN Security Council Resolution that we are currently preparing with other Security Council members. This resolution will mandate the UN elements of the joint African Union (AU)/UN peacekeeping force for Darfur, as set out in the report produced by the AU and UN and presented to the Government of Sudan in Addis Ababa on 12 June. Copies of this report are available in the Library of the House.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 25 June 2007, *Official Report*, column 218W, on Sudan: peacekeeping operations, how many African troops the UN is seeking to source for the AU-UN hybrid force; how many African countries have indicated their willingness to supply troops; and when a decision on whether to begin sourcing non-African troops would be made. [148977]

David Miliband: The African Union and UN have agreed that the hybrid force should include up to 19,555 troops. The UN will source troops from non-African countries if there are not sufficient African troops available. The formal process of force generation will be carried out by the UN's Department of Peacekeeping Operations, once a UN Security Council Resolution has been passed mandating the force.

Sudan: Politics and Government

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what preparations the Government are involved in to ensure that forthcoming elections in Sudan are adequately monitored by international representatives. [149984]

Meg Munn: While preparations for the 2008-09 elections are under way, we and other donors are concerned that the elections process is behind schedule.

We are pushing all sides, including our international partners, to ensure that they implement their commitments, including on elections, under the Comprehensive Peace Agreement as quickly as possible. We have taken the initiative to develop a joint donor strategy to co-ordinate support for the elections, including the need for effective election monitoring. We are pressing the UN to lead on election monitoring work. The EU has not yet indicated what its role will be in respect of election monitoring.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what funding he has made available to the different political parties operating in Sudan to assist their preparations for elections in 2009; and if he will make a statement. [149985]

Meg Munn: The UK is providing technical assistance and capacity building activities to support the major political parties in the Sudan in preparing for the 2008-09 elections. We are currently funding a 30-month project implemented by a consortium led by the International Institute for Democracy and Electoral Assistance of Sweden. The project budget of £550,000 covers workshops to train party representatives in democratic principles, the elections process, the representation of women and minorities and how to run election campaigns.

We are considering options to expand the political parties training project to a larger number of parties in both the north and south and to fund media training on election reporting.

Uganda: Commonwealth Heads of Government Conference

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 9 July 2007, *Official Report*, column 1300W, on Uganda: Commonwealth Heads of Government Conference, whether British police officers will be present during the Commonwealth meeting; and if he will make a statement. [149947]

Mr. Jim Murphy: I refer the hon. Member to my written reply to him on 9 July 2007, *Official Report*, column 1300W. British police officers will be present in Uganda during the Commonwealth Heads of Government Meeting.

Uganda: Elections

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 9 July 2007, *Official Report*, column 1300W, on Uganda: politics and government, what reports he has received on the likelihood of President Museveni contesting elections in 2011; and if he will make a statement. [149518]

Meg Munn: The Ugandan Parliament voted in 2005 to lift the constitutional two-term limit, to allow incumbents to serve an unlimited number of terms. We have not received any confirmed reports about whether President Museveni intends to stand in the 2011 elections.

Uganda: Politics and Government

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Uganda on the recent treatment of Dr. Kizza Besigye, leader of the Opposition. [150453]

Meg Munn: We have not made any recent representations to the Government of Uganda specifically about Dr. Besigye. We do, however, closely monitor the People's Redemption Army trial in which Besigye is a defendant and are pushing for a swift and fair conclusion of the legal process. In the course of our regular dialogue with the Government of Uganda, we continue to press them, including at senior political level, on all aspects of engaging with the Opposition and further developing multi-party democracy.

CHILDREN, SCHOOLS AND FAMILIES

Adoptions: Appeals

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many adoptions were challenged by the birth parent in each of the last three years. [151069]

Kevin Brennan: Statistical information for the years 2003-05 on the number of contested and uncontested adoption orders which were granted in England and Wales is included in Table 6.3 in the Statistics Series 'Marriage, divorce and adoptions', Volume FM2, published by the Office for National Statistics. A copy of this publication is available in the House Library and on the National Statistics website at:

www.statistics.gov.uk/downloads/theme_population/FM2no32/FM2 32.pdf

Statistics for 2006 have not yet been published.

Children's Centres

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many Sure Start children's centres there were in England in each year from 1996-97 to 2006-07; and what estimate he has made of the likely number of such centres in each year from 2007-08 to 2010-11. [149114]

Beverley Hughes: Sure Start Local Programmes (SSLPs) were established before children's centres, with 524 set up between 1999 and 2003. The first table gives cumulative figures for SSLPs open in each financial year across this period:

	Number of Sure Start Local Programmes
1999-2000	51
2000-01	142
2001-02	259
2002-03	445
2003-04	524

The first Sure Start children's centres were opened in June 2003, and the following table shows cumulative figures across each financial year up to 2007-08. The figures include former SSLPs as the vast majority of these have taken on children's centre status over this period.

	Number of Sure Start Children's Centres (including those that were initially SSLPs)
2004	65
2005	226
2006	836
2007	1,262
2008	[1]2,500

[1] Forecast based on progress towards Government target.

There are currently 1,337 children centres, and the Department is on course to achieve its target of 2,500 by 2008. The Government have set a national target of 3,500 centres by 2010, but projected figures for the final phase (2008 to 2010) cannot be given for individual years as local authority planning for these centres is at a very early stage.

Departments: Cost Effectiveness

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what target his Department has been set by HM Treasury as part of the comprehensive spending review settlement announced in the 2007 Budget for efficiency savings over the period covered by the review. [148918]

Ed Balls: How the current target for efficiency savings will be divided between the newly created Departments for Children, Schools and Families (DCSF) and for Innovation, Universities and Skills (DIUS) we will set out our efficiency target in due course.

Departments: Targets

Mr. Laws: To ask the Secretary of State for Children, Schools and Families which departmental targets will transfer to his Department from the former Department for Education and Skills. [149139]

Ed Balls: My Department is responsible for the following PSA targets, each of which were agreed between the former Department for Education and Skills and HM Treasury as part of the 2004 spending review:

1. Improve children's communication and social and emotional development so that by 2008, 53 per cent. of children reach a good level of development at the end of the foundation stage and reduce inequalities between the level of development achieved by children in the 30 per cent. most disadvantaged super output areas and the rest of England by four percentage points from 16 per cent. to 12 percent (joint with the Department for Work and Pensions);

2. As a contribution to reducing the proportion of children living in households where no one is working, by 2008: increase the stock of Ofsted-registered childcare by 10 per cent.; increase the number of children in lower-income working families using formal child care by 120,000; and introduce by April 2005, a successful light-touch child care approval scheme (joint with the Department for Work and Pensions);

3. Reduce the under-18 conception rate by 50 per cent. by 2010 as part of a broader strategy to improve sexual health (joint with the Department of Health);

4. Halt the year-on-year rise in obesity among children under 11 by 2010 in the context of a broader strategy to tackle obesity in the population as a whole (joint with the Department of Health and the Department for Culture, Media and Sport);

5. Narrow the gap in educational achievement between looked-after children and that of their peers; and improve their educational support and the stability of their lives so that by 2008 80 per cent. of children under 16 who have been looked after for two and a half or more years will have been living in the same placement for at least two years, or are placed for adoption;

6. Raise standards in English and mathematics so that: by 2006, 85 per cent. of 11-year-olds achieve level 4 or above, with this level of performance sustained to 2008; and by 2008, the proportion of schools in which fewer than 65 per cent. of pupils achieve level 4 or above is reduced by 40 per cent.

7. Raise standards in English, mathematics, ICT and science in secondary education so that: by 2007, 85 per cent. of 14-year-olds achieve level 5 or above in English, mathematics and ICT (80 per cent. in science) nationally, with this level of performance sustained to 2008; and by 2008, in all schools at least 50 per cent. of pupils achieve level 5 or above in English, mathematics and science;

8. Improve levels of school attendance so that by 2008, school absence is reduced by 8 per cent. compared to 2003;

9. Enhance the take-up of sporting opportunities by five to 16-year-olds so that the percentage of school children in England who spend a minimum of two hours each week on high quality PE and sport within and beyond the curriculum increases from 25 per cent. in 2002 to 75 per cent. by 2006 and to 85 per cent. by 2008, and to at least 75 per cent. in each School Sport Partnership by 2008 (joint with the Department for Culture, Media and Sport);

10. By 2008, 60 per cent. of those aged 16 to achieve the equivalent of five GCSEs at grades A*-C; and in all schools at least 20 per cent. of pupils to achieve this standard by 2004, rising to 25 per cent. by 2006 and 30 per cent. by 2008;

11. Increase the proportion of 19-year-olds who achieve at least level 2 by three percentage points between 2004 and 2006; and a further two percentage points between 2006 and 2008, and increase the proportion of young people who achieve level 3;

12. Reduce the proportion of young people not in education, employment or training (NEET) by two percentage points by 2010.

Education: Local Government

Mr. Keith Simpson: To ask the Secretary of State for Children, Schools and Families what discussions he has had with the Secretary of State for Communities and Local Government on the likely impact of structural changes to local government on education. [146458]

Beverley Hughes: The decision as to which proposals for unitary local authorities should proceed to stakeholder consultation reflected the collective decision of Government. All the 26 unitary proposals that were received in response to the invitation issued on 26 October 2006 were assessed against the five criteria set out in that invitation. The 16 unitary proposals that have been subject to the stakeholder consultation will now be reassessed against the same five criteria, having regard to all the information available, including that received in response to the consultation.

Family Courts: Counselling

Mr. Heald: To ask the Secretary of State for Children, Schools and Families (1) what proportion of family disputes were *(a)* successfully mediated, *(b)* unsuccessfully mediated and *(c)* not mediated for (i) publicly funded cases, (ii) privately funded cases and (iii) cases in which only one party was publicly funded in each of the last five years; [150033]

(2) what estimate his Department has made of effects on costs of increasing the number of mediated cases in family disputes for both publicly and privately funded cases; and if he will make a statement. [150034]

Maria Eagle: I have been asked to reply.

The Ministry of Justice only have figures for publicly funded mediations. The National Audit Office (NAO) report "Legal aid and mediation for people involved in family breakdown" published in April 2007 found that only 20 per cent. of people who are funded by legal aid for family breakdown currently opt for mediation. The figures for the last five years are as follows:

	Total number of mediations	*Successful mediations reaching agreement (percentage)*	*Number of mediations that broke down (percentage)*
2002/03	13,841	56	44
2003/04	14,290	60	40
2004/05	14,355	57	43
2005/06	14,128	60	40
2006/07	13,889	66	34

In relation to cases where only one party is legally aided, this data could be obtained only at disproportional cost to the LSC. However, in compiling their report, the NAO did analyse LSC data for the period between October 2004 and March 2006 and found that where one party was publicly funded no agreement was reached in 43 per cent. of cases, compared to 40 per cent. of cases where both parties were publicly funded.

With regard to the assessment of savings, the Legal Services Commission has done some initial work on this, but is currently considering the NAO recommendations and finalising the action plan which may include some assessment of projected savings to the legal aid budget.

Mr. Heald: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effects on children in family disputes that have been resolved through *(a)* mediation and *(b)* the courts; and if he will make a statement. [150160]

Bridget Prentice: I have been asked to reply.

The information requested is as follows.

Mediation

The Government believe that mediation can offer considerable advantages over going to court in the settling of family disputes, especially where children are involved.

A survey was carried out by the Office for National Statistics in 2002. The survey indicated parents who made their own arrangements for children following relationship breakdown were far more satisfied than when the courts ordered arrangements. The policy aim is to increase the proportion of parents making arrangement for themselves. Mediation is one way of helping these parents.

The provisions of the Children and Adoption Act 2006 will enable the court to direct parties in child contact disputes to attend a meeting about mediation. Referrals will also be encouraged through changes to court rules and forms, particularly in relation to disputes over children.

The National Audit Office Report on legal aid and family mediation published in March 2007 was supportive of family mediation and concluded mediation could resolve cases significantly more quickly and could also reduce legal aid costs. However, it did not include a specific evaluation of effects on children.

Courts

The Ministry of Justice (then DCA) has commissioned various pieces of research, which considered the effect on children in family disputes that have been resolved through the courts.

A report by Liz Trinder published in March 2006, evaluated the process and effectiveness of in-court conciliation in contact cases as well as the relative effectiveness of three different models of in-court conciliation. In-court conciliation is another way to help parents reach agreement themselves.

In September 2006, the consultation paper on the Separate Representation of Children was published. The consultation considered how to provide better outcomes for children whose parents are separating and to safeguard their interests in section 8 Children Act 1989 proceedings when their parents have turned to the courts to decide where the child shall live, and who the child should see. It also considered the question of judges and magistrates speaking directly to children to help them obtain an informed picture of the case. The consultation ended on 8 December and a response is due to be published shortly.

Nursery Schools: Essex

Bob Spink: To ask the Secretary of State for Children, Schools and Families what percentage of children of nursery school age were in nursery education in *(a)* Castle Point and *(b)* Essex in each of the last five years. [150068]

Ed Balls: The available information is shown in the tables.

Table 1: Number of three and four-year-olds benefiting from free early education places and the part-time equivalent number of free early education places filled by three and four-year-olds, Castle Point parliamentary constituency area, position in January each year

	Number of children benefiting from some free early education	*Part-time equivalent funded places filled*	*Part-time equivalent funded places filled per 100 children in the population*
2004	1,900	1,600	91
2005	1,800	1,600	90
2006	1,800	1,500	n/a
2007	n/a	n/a	n/a

n/a = Not available.
Notes:
1. ONS population estimates are aggregated to age groupings of at least five years. Figures based on a single year of age at the sub-national level are therefore of limited reliability.
2. A place is equal to five or more sessions and can be filled by more than one child.
3. Prior to 2004, information on early education places was derived from returns made by local authorities as part of the Nursery Education Grant (NEG) data collection exercise. These data were collected at local authority level, therefore, data at parliamentary constituency area are not available.

Table 2: Number of three and four-year-olds benefiting from early education places and the part-time equivalent number of free early education places filled by three and four-year-olds, Essex local authority area, position in January each year

	Number of children benefiting from some free early education	*Part-time equivalent funded places filled*	*Part-time equivalent funded places filled per 100 children in the population*
2003	n/a	26,600	85
2004	31,300	26,700	87
2005	30,800	26,300	88
2006	30,200	26,000	88
2007	30,600	26,400	88

n/a = Not available.
Notes:
1. ONS population estimates are aggregated to age groupings of at least five years. Figures based on a single year of age at the sub-national level are therefore of limited reliability.
2. A place is equal to five or more sessions and can be filled by more than one child.

The latest figures on early education places for three and four-year-olds in England were published in Statistical First Release (SFR) 19/2007 "Provision for children under five years of age in England: January 2007", available on my Department's website

www.dfes.gov.uk/rsgateway/.

The population estimates for the number of times three and four-year-olds in both Castle Point parliamentary constituency and Essex local authority indicate reduction over the periods shown in the tables.

Parents as Partners in Early Learning Project: Finance

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) what total budget has been allocated to the Parents as Partners in Early Learning project; [150745]

(2) if he will list the schemes which have received funding under the Parents as Partners in Early Learning project. [150744]

Beverley Hughes: A total of £9 million has been allocated in 2007-08 to support local authorities in developing and disseminating approaches to working effectively with hard-to-reach parents to support their children's early learning and development. We do not hold a list of individual schemes. The 41 authorities which have received funding to support a range of projects in their area is set out as follows:

Birmingham
Nottingham
Kingston-upon-Hull, City of
Lancashire
Bristol, City of
Wakefield
Bradford
Haringey
Greenwich
Manchester
Hackney
Lewisham
Liverpool
Kirklees
Newcastle upon Tyne
Newham
Nottinghamshire
Dudley
Leeds
Waltham Forest
Islington
Kent
Doncaster
Cumbria
Tower Hamlets
Leicester
Blackburn with Darwen
Sandwell
Barking and Dagenham
Barnsley
Durham
Middlesbrough
Plymouth
Sheffield
Lambeth
Thurrock
Derbyshire
Coventry
Torbay
Southwark
Stoke-on-Trent

Pupils: Mental Health

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what his latest estimate is of the number of school age pupils who have been prescribed drugs for *(a)* depression, *(b)* behaviour control and *(c)* mental health problems in each year from 1996-97 to 2006-07; and if he will make a statement. [149151]

Mr. Ivan Lewis: I have been asked to reply.

Information is not available on the number of school-aged children who have been prescribed medication for depression, behaviour control or other mental health problems. However, data are available on the number of prescriptions dispensed to children under 16 years and those aged 16 to 18 years in full time education.

Antidepressant drugs are classified under British National Formulary (BNF) section 4.3.

BNF 4.3: Antidepressant drugs

Financial year	Items under 16	Items 16 to 18 in full time education
1996-97	78,353	92,569
1997-98	86,796	109,862
1998-99	83,070	108,846
1999-2000	86,152	104,256
2000-01	99,299	119,645
2001-02	112,914	130,887
2002-03	119,566	144,331
2003-04	104,733	144,607
2004-05	94,905	122,246
2005-06	107,965	107,268
2006-07	109,535	103,023

Drugs for behaviour control are classified under BNF section 4.4: Central Nervous System (CNS) stimulants and drugs used for attention deficit hyperactivity disorder. This section also contains Modafil which is used for daytime sleepiness associated with chronic pathological conditions including narcolepsy, obstructive sleep apnoea syndrome, and chronic shift work.

BNF 4.4: CNS stimulants and drugs used for attention deficit hyperactivity disorder

Financial year	Items under 16	Items 16 to 18 in full time education
1996-97	48,264	2,058
1997-98	86,247	3,388
1998-99	112,294	4,596
1999-2000	144,894	7,698
2000-01	171,244	7,873
2001-02	200,202	9,225
2002-03	247,115	11,935
2003-04	289,009	17,218
2004-05	338,909	24,906
2005-06	379,334	31,694
2006-07	454,797	40,339

Drugs for mental health problems are classified in BNF section 4.2: Drugs used in psychoses and related disorders.

BNF 4.2: Drugs used in psychoses and related disorders

Financial year	Items under 16	Items 16 to 18 in full time education
1996-97	19,466	25,038
1997-98	21,368	27,807
1998-99	22,666	22,484
1999-2000	22,494	18,242
2000-01	26,187	19,338
2001-02	27,299	18,332
2002-03	35,089	19,666
2003-04	38,687	23,695
2004-05	47,340	27,502
2005-06	59,834	26,002
2006-07	66,961	29,954

Notes:

1. PCA data: Prescription information is taken from the Prescription Cost Analysis (PCA) system, supplied by the Prescription Pricing Division (PPD) of the Business Services Authority (BSA), and is based on a full analysis of all prescriptions dispensed in the community, i.e. by community pharmacists and appliance contractors, dispensing doctors, and prescriptions submitted by prescribing doctors for items personally administered in England. Also included are prescriptions written in Wales, Scotland, Northern Ireland and the Isle of Man but dispensed in England. The data do not cover drugs dispensed in hospitals, including mental health trusts, or private prescriptions.
2. Prescription items: Prescriptions are written on a prescription form. Each single item written on the form is counted as a prescription item.
3. Exemption category estimates: The exemption data are identified from the box ticked on the back of the prescription form and rely on the form being completed correctly which may not always be the case. Information for categories that are not required to pay a charge (e.g. children) is based on a one in 20 sample of all exempt prescriptions dispensed by community pharmacists, appliance contractors and dispensing doctors. The information we have is therefore an estimate and subject to sampling errors. Children are defined as 0 to 15-year-olds, and as 16 to 18-year-olds in full-time education.
4. Dispensing doctors: Data up to 2000 are not strictly comparable with data from later years. Up until September 2000 only patients having their prescriptions dispensed by the community pharmacists and appliance contractors were required to complete the back of the prescription form, but from October 2000 this requirement was extended to patients of dispensing doctors. Therefore data prior to October 2000 do not include prescriptions dispensed by dispensing doctors.
5. BNF classifications: The Prescription Cost Analysis system uses the therapeutic classifications defined in the British National Formulary (BNF). No information on why a drug is prescribed is available and since drugs can be prescribed to treat more than one condition it is impossible to separate the different conditions that a drug was prescribed for.

Schools: Compensation

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families what total amount of compensation claims was made against schools in the last 12 months; and if he will list the 10 highest such claims, identifying the nature of each case. [148184]

Jim Knight: The Department does not collect this information.

Teenage Pregnancy

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what the rate of conception in young people under the age of 18 years was in each of the last 10 years. [150776]

Angela Eagle: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 19 July 2007:

The National Statistician has been asked to reply to your recent question asking what the rate of conception in young people under the age of 18 years was in each of the last 10 years. I am replying in her absence. (150776)

Available figures are estimates of the number of conceptions that resulted in a live birth, stillbirth or legal, termination.

The number and rate of conceptions to girls aged under 18 for England and Wales, 1996 to 2005 (the most recent year for which figures are available), are shown in the attached table. Figures for 2005 are provisional.

Conceptions by age: number and rate for England and Wales, 1996-2005[1]

	Under 18	
	Number	*Rate*[2]
1996	43,489	46
1997	43,358	46
1998	44,119	47
1999	42,028	45
2000	41,348	44
2001	40,990	43
2002	41,951	43
2003	42,162	42
2004	42,198	42
2005[1]	42,187	41

[1] Figures for 2005 are provisional.
[2] Rate per 1,000 females aged 15 to 17.

Teenage Pregnancy Unit

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) what budget was allocated to the Teenage Pregnancy Unit in each year since 2000; and what budget has been allocated to the unit for the next three years; [150777]

(2) what projects are being undertaken by the Teenage Pregnancy Unit; [150778]

(3) how many civil servants are working for the Teenage Pregnancy Unit; and what their job descriptions are; [150779]

(4) what percentage of teenage *(a)* mothers and *(b)* fathers were in education, training or employment in each of the last 10 years. [150780]

Beverley Hughes: The budget allocated to support delivery of the Teenage Pregnancy Strategy since its launch in 1999 is provided in the following table. The table identifies separately the amounts spent on: local implementation (paid through a local implementation grant to each top-tier local authority in England); and the amount retained by the Teenage Pregnancy Unit (TPU) to pay for aspects of the strategy that are best managed centrally, such as funding for the national media campaign. Budgets for the next Comprehensive Spending Review (CSR) period have not yet been fixed.

£ million

Financial year	*Local implementation*	*Central costs*	*Total*
1999-2000	4.5	0.5	5
2000-01	11.5	4.5	16
2001-02	16	5	21
2002-03	16	5	21
2003-04	[1]33	7	40
2004-05	[1]33	7	40
2005-06	[1]33	5	38
2006-07	29.5	5.5	35
2007-08 (provisional)	29.5	5.5	35

[1] Budgets in years 2003-04 to2005-06 included funding for the Sure Start Plus pilots

The main priorities for the TPU over the last 12 months have been: to deliver the 'national level' commitments set out in 'Teenage Pregnancy Next Steps: Guidance for Local Authorities and Primary Care Trusts on Effective Delivery of Local Strategies'—designed to accelerate progress towards our target to halve the under-18 conception rate by 2010; and to develop a strategy to improve outcomes for teenage parents and their children, which will be published shortly.

There are currently five civil servants who work in the TPU. Their job titles are:

1. National Programme Manager
2. National Policy Manager
3. National Support Manager
4. Support for Local Implementation
5. Admin Officer

No data are available on the proportion of teenage fathers in education, employment or training (EET). The proportion of teenage mothers aged 16-19 in EET has increased from an average of 23.1 per cent. for the period 1997-99, to an average of 29.2 per cent. for the period 2004-06.

Young People: Unemployment

Mr. Holloway: To ask the Secretary of State for Children, Schools and Families how many 16 to 24 year olds in Gravesham are not in employment, education or training. [149995]

Beverley Hughes: We estimate from data provided by the Connexions Service that 2,970 16-18 year olds were not in education, employment or training (NEET) in the Kent local authority area at the end of 2006. This information cannot be broken down for the Gravesham area. Equivalent information is not available for 19-24 year olds.

Data provided by Connexions services are used to set and monitor local authority NEET targets. However, it should be noted that figures are necessarily calculated on a different basis from that used in the Department's estimate for the national target; the national figure is a proportion of all young people whereas the local figures cover only those known to the Connexions Service.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Companies: Renewable Energy

Dr. Alasdair McDonnell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what incentives his Department has put in place to encourage local businesses to support the use of renewable energy in their offices and factories. [150610]

Malcolm Wicks: The Low Carbon Buildings Programme Phase 1 with a budget of £36 million over three years provides capital grants for the installation of microgeneration to households, schools, social and local authority housing, businesses, charities and the public sector. Further information on the programme can be found at www.lowcarbonbuildings.org.uk

The Renewables Obligation (RO) is the Government's key mechanism for supporting new renewable generation and by 2010 it will be worth around £1 billion per year in terms of support to the renewables industry. It requires licensed electricity

suppliers to source a specific and increasing percentage of their sales from renewable sources. Eligible renewable generators receive one Renewable Obligation Certificate (ROC) for each 1 MWh of electricity generated. However, to encourage more renewable generation from a wider range of sources, the Government are proposing to change the RO so that renewable technologies are awarded differentiated levels of support, for example, offshore wind could receive 1.5 ROCs/1 MWh and wave 2 ROCs/1 MWh. The Government are currently consulting on these proposals.

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what criminal offences have been created by primary legislation sponsored by his Department's predecessor since October 2006. [149597]

Mr. Thomas: The information requested has been placed in the Libraries of the House.

Greenhouse Gas Emissions

Dr. Whitehead: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much *(a)* biogas derived from waste digestion processes, *(b)* methane recovered from mine workings and *(c)* methane recovered from landfill was produced in the last 12 months. [149942]

Malcolm Wicks: In 2005, the latest year for which statistics are currently available, the following quantities were used:

	Thousand tonnes of oil equivalent
Biogas from waste digestion processes	4.6
Colliery methane	65.1
Landfill gas	1,420.8

Source:
Digest of United Kingdom Energy Statistics, 2006

Internet: Terrorism

Mr. Ellwood: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will take steps to regulate the hosting of websites which contain information on bomb-making. [149239]

Mr. Timms *[holding answer 16 July 2007]:* This is a matter of concern across Europe. The European Commission has indicated that it will propose amending the Framework Decision on combating Terrorism to criminalise the incitement to terrorism and the intentional transmission of information useful to terrorism, such as bomb-making instructions. A conference was held by the European Commission in March to discuss these proposals, at which officials from the Home Office and Foreign and Commonwealth Office participated. Government officials continue to be engaged in discussions.

There are provisions in the Terrorism Act 2006 to cover the hosting of websites which contain information on bomb-making. Under section 1, it is an offence to publish a statement that is likely to be understood as encouraging terrorism. Under section 2, it is an offence to disseminate a terrorist publication. These offences could cover the act of making available information on bomb-making on a website if the elements of the offences are satisfied.

In addition, sections 3 and 4 of the Act establish an internet 'Notice and Takedown' procedure under which those such as content providers, editors and hosts of websites can be served with a notice requiring them to remove from public view or amend material which is considered to be unlawfully terrorism-related.

Where the position of those who host websites is concerned, the Electronic Commerce Directive (Terrorism Act 2006) Regulation 2007, which implements the Electronic Commerce Directive in relation to the Terrorism Act, provides that where a host has actual knowledge that it is hosting unlawful terrorism-related material and it has failed to take down the material expeditiously on acquiring such knowledge, it may be liable under the Terrorism Act.

Postal Services: Scotland

David Mundell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what discussions he has had with Scottish Ministers on the determination of access criteria for postal services in deprived and vulnerable communities in Scotland. [149987]

Mr. McFadden: The Secretary of State for Scotland was a member of MISC33, the Ministerial Committee that agreed Government's response to consultation, announced on 17 May 2007.

Retail Trade: Small Businesses

Andrew George: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the merits of providing incentives and funding to support the economic viability of independent town centre retailers. [151078]

Mr. Timms: No such assessment has been made. The Government are working in partnership with the retail industry to address issues of concern to all parts of the sector and create the conditions for its success. Independent retailers also have access to a full range of business support available to companies through the Business Link service.

Shops: Community Development

Mr. Jamie Reed: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if his Department will take steps to safeguard the role played in local communities by independent locally-run shops. [148965]

Mr. Timms: The Government recognise the importance of small and independent shops to vibrant and sustainable communities. We are also aware that there are concerns over the future of small and independent shops, particularly in the face of competition from large retailers. The Competition

Commission currently has an inquiry underway into the grocery market, and is expected to publish its report in February 2008, well within the statutory deadline.

Small retailers can access the same support and advice as any small business. Driven forward by my Department's Enterprise Directorate, we are continuing to improve and build on the delivery of services through the Business Link brand. Business Link provides the information, advice and support needed to start, maintain and grow a small business.

In addition, the Government's Local Enterprise Growth Initiative (LEGI), which is sponsored by this Department, the Department for Communities and Local Government, and HM Treasury, is seeking to boost the local economies of England's most disadvantaged communities through enterprise development and investment. LEGI provides local institutions and communities with the authority and freedom to best determine local needs, options and solutions for enterprise development, which can include any that may be identified around local retail development.

Solar Power: Heating

Dr. Alasdair McDonnell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform, what proportion of residents use solar water heating systems in England. [150619]

Malcolm Wicks: The former DTI commissioned the Energy Saving Trust to carry out a study into the potential for microgeneration that was completed in November 2005. As part of the study, industry estimated that there had been 78,270 solar water heating system installations in the UK as at March 2005. Further information can be found at:

http://www.berr.gov.uk/files/file27558.pdf

Tidal Power: Severn Estuary

Stephen Williams: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what plans he has to commission an independent strategic evaluation of the options for exploration of tidal power in the Severn; and if he will make a statement. [150985]

Malcolm Wicks: A study of 'Tidal Power in the UK' currently under way and led by the Sustainable Development Commission (SDC) working together with my Department, Welsh Assembly Government, the devolved Administrations and the South West Regional Development Agency is looking in some detail at the issues arising on tidal power.

The study will provide a strategic, independent and evidence-based consideration of all the environmental, social and economic aspects of and options for tidal power both in the Severn estuary and the wider UK from a sustainable development perspective.

The final report is expected to be published in September and will help inform any future consideration of these issues. Further details of the study can be seen at

www.sd-commission.org.uk/pages/tidal.html.

Utilities: Fees and Charges

Mrs. James: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent discussions he has had with Ofcom on the review of utility bill charges for people who do not pay by direct debit. [150759]

Mr. Timms: None, but my ministerial predecessor the right hon. Member for Barking (Margaret Hodge) raised the matter with the chief executive officer of the Office of Communications (Ofcom), the independent regulator. Ofcom announced on 6 June that it will carry out a full review of communications providers' additional charges. Ofcom expects to announce the conclusions of its review in the autumn and progress may be monitored on its website www.ofcom.org.uk

The review will cover charges for non-direct debit payments, as well as other additional charges including late payment, restoration of service and early termination fees. It will cover fixed and mobile operators, and pay TV services. Ofcom will look at the nature and level of charges levied by communications providers and how well signposted and transparent such charges are. It will investigate how far consumers are aware of additional charges, whether they are able and willing to shop around on the basis of core prices and additional charges rather than just core prices, and whether there are certain groups of consumers who are unable to do this and therefore may be disadvantaged.

On investigating this issue, it has become clear that it would be wrong to look at BT in isolation. More than 40 per cent. of homes are provided with telephony services by operators other than BT, and the differentials for payment by non-direct debit range from no extra charge to £15 a quarter. Some providers provide no payment option other than direct debit.

HOME DEPARTMENT

Automatic Number Plate Recognition

Mr. Hollobone: To ask the Secretary of State for the Home Department if she will discuss with the Secretary of State for Transport extending the network of automatic number plate recognition cameras. [149607]

Mr. McNulty *[holding answer 16 July 2007]:* Automatic number plate recognition (ANPR) is an established technology that the police use to identify vehicles of interest through pattern recognition software. It is used to target terrorism, serious and organised crime, volume crime (such as burglary) and some vehicle documentation offences (for example, uninsured driving and road tax evasion). Police officers using the technology are achieving a significantly higher arrest rate and offences brought to justice rate when compared to conventional policing methods. The recent terrorist incidents in London and Glasgow demonstrated the usefulness of ANPR as an intelligence and analysis tool.

The Government have invested over £32 million to support the deployment of ANPR for traffic and wider policing purposes. A number of other public

organisations also use the technology, for example to support traffic management and congestion charging. My right hon. Friend the Home Secretary is in regular contact with my right hon. Friend the Secretary of State for Transport on matters of shared interest, including roads policing and enforcement and the role of technology in this and wider security matters. We will ensure that any benefits to engage criminality that can be derived from the use of the ANPR network will be balanced against the need to safeguard human rights and the privacy of individuals.

Susan Kramer: To ask the Secretary of State for the Home Department what proportion of alerts from the automatic number plate recognition system were found to be in error in each year since 2004. [150573]

Mr. McNulty *[holding answer 18 July 2007]:* Police forces conduct rigorous pre and post-sales inspections of all ANPR equipment technology with the manufacturers to ensure for the long-term accuracy and reliability of the equipment.

The proportion alerts from automatic number plate recognition (ANPR) systems found to be erroneous in each year since 2004 is not held centrally. However, the Home Office Police Standards Unit's evaluation 'Driving Crime Down—Denying Criminals the Use of the Road', published in October 2004, said that

"feedback from the forces was that the ANPR systems were extremely accurate—anecdotal evidence that fewer than one in 25 reads were incorrect—this virtually eradicated stopping vehicles where ANPR reader had misread the vehicle registration mark(VRM)".

Border and Immigration Agency: Finance

Mr. Clegg: To ask the Secretary of State for the Home Department (1) what the total cost was of establishing the Immigration and Nationality Directorate as the Border and Immigration Agency; [149764]

(2) what the cost was of redesigning the Immigration and Nationality Directorate website, www.ind.homeoffice.gov.uk, for the new Border and Immigration Agency; and whether external consultants were involved in the redesign. [149765]

Jacqui Smith: The transition to Agency status of the Immigration and Nationality Directorate is a continuing project. It is expected that the transition to shadow Agency status will be delivered within the current resources available to the Department.

The redesign of the website www.bia.homeoffice.gov.uk did not incur any extra costs as the work was done by an in-house developer.

Crimes of Violence: Alcoholic Drinks

Sandra Gidley: To ask the Secretary of State for the Home Department what steps the Government are taking to tackle binge drinking-related violent crime. [150484]

Mr. Coaker: 'Safe, Sensible, Social—next Steps for the national Alcohol Strategy' published on 5 June 2007 builds on the progress made and lessons learned in tackling binge drinking and violent crime since the Alcohol Harm Reduction Strategy for England was published in 2004. The renewed Strategy includes sharpened criminal justice for drunken behaviour, more help for people who want to drink less, local alcohol strategies and a public information campaign to promote a sensible drinking culture. In addition, we will continue to make full and better use of existing laws and licensing powers to bear down on irresponsibly managed bars, pubs, and off licenses. The Government have also introduced provisions in the Violent Crime Reduction Act 2006, which include Alcohol Disorder Zones, and Directions to Leave to help support the police and local authorities in tackling alcohol related crime and disorder.

Cryptography: Orders and Regulations

Margaret Moran: To ask the Secretary of State for the Home Department when she plans to lay the statutory instrument relating to encryption under the Regulation of Investigatory Powers Act 2000. [150110]

Mr. McNulty: The statutory instrument relating to encryption, the draft Regulation of Investigatory Powers (Investigation of Protected Electronic Information: Code of Practice) Order 2007, was laid before Parliament on 14 June and considered in Committee on 17 July. Subject to parliamentary approval of the report from Committee, the relevant Commencement Order will be laid. The effect of both Orders will be to commence the provisions of Part 3 of the Regulation of Investigatory Powers Act 2000 on 1 October and to bring into force a statutory code of practice relating to the exercise of those provisions on the same day.

Entry Clearances

Mr. Spellar: To ask the Secretary of State for the Home Department what the latest figures are for the number of people with exceptional leave to remain who have applied for indefinite leave to remain and whose cases are awaiting a decision. [149921]

Mr. Byrne: Specialist casework teams in the Border and Immigration Agency are dealing with about 2,000[1] cases which represent the identified applications not yet decided. A stocktaking exercise is in progress to match data records to files and to identify any cases still requiring a decision held in other parts of the Border and Immigration Agency. Statistics for these cases need verification.

[1]Figures rounded to the nearest 25 as of 10 July 2007. The above data is not provided under the National Statistics protocols. It has been derived from local management information and is therefore provisional and subject to change.

Immigration Controls: Uniforms

Mr. Clegg: To ask the Secretary of State for the Home Department which organisation designed the uniform for border security staff for the pilot programme; whether the same uniform will be used for the full roll-out of the programme; and what the cost was of commissioning the uniform design for *(a)* the pilot and *(b)* the full roll-out. [149770]

Jacqui Smith: Alexandra plc. was selected to design the uniform worn by front-line border control staff during the pilot.

The cost of the uniforms pilot was £18,192.55 plus VAT. Following evaluation of the uniforms pilot, minor amendments were made to the design and the fabrics of the uniform to be rolled out.

The cost element of designing the new uniform was incorporated in the total cost of the uniform. The final costs for roll out of uniforms to border control front-line operational staff and the cost element of designing the new uniform cannot be finalised until the supplier has assessed and actioned the total number of orders.

Members: Correspondence

Mr. Malins: To ask the Secretary of State for the Home Department when she will reply to the letters of *(a)* 2 July, *(b)* 14 June and *(c)* 11 May 2007 from the hon. Member for Woking on Mr. Everet West (HO ref. B17322/7). [150827]

Mr. Byrne: A reply was sent to the hon. Member's office by the Border and Immigration Agency on 17 July.

Minister for the West Midlands

Mark Pritchard: To ask the Secretary of State for the Home Department what discussions the Minister for Borders and Immigration has had with her on the amount of time away from her Department which will be required following his appointment as Minister for the West Midlands. [150726]

Jacqui Smith: I meet regularly with each of my ministerial team to discuss both their portfolios and the policy and operational issues which arise from them.

Police: Databases

Mr. Clegg: To ask the Secretary of State for the Home Department how many records were held on the Police National Computer in each of the last 10 years. [147757]

Jacqui Smith: The following table shows the number of records held in the Names database on PNC. This includes Arrests, Convictions, Disqualified Drivers, Wanted and Missing.

There are other databases on the PNC: Property, Vehicles and Drivers. The records for the last two databases originate from the databases at the DVLA.

Persons records

As of 1 January each year	*Number*
1996	5,466,471
1997	5,538,843
1998	5,689,967
1999	5,926,646
2000	6,135,889
2001	6,114,860
2002	6,143,693
2003	6,268,543
2004	6,300,632
2005	6,462,801
2006	6,788,811
2007	7,321,300

Police: Eastern Region

Mr. Spring: To ask the Secretary of State for the Home Department how much funding has been allocated to the police per head of population in *(a)* Suffolk and *(b)* the East of England for 2007-08. [150542]

Mr. McNulty: The Government do not distribute grant to police authorities purely on the basis of population. The police funding formula uses a range of data relating to demographic and social characteristics to reflect the relative needs of each authority. Grant allocations also take into account the relative tax base of each authority. Grant allocations are stabilised by damping to limit year-on-year variations.

The information requested is set out in the following table.

Police authority	*Total grants 2007-08[1] (£ million)*	*Resident Population mid-2005[2] (million)*	*Funding per head of population 2007-08 (£)*
Bedfordshire	79.04	0.58	136.28
Cambridgeshire	88.86	0.75	118.48
Essex	202.06	1.65	122.46
Hertfordshire	130.57	1.05	124.35
Norfolk	107.12	0.82	130.63
Suffolk	83.20	0.69	120.58
Total East England	690.85	5.54	124.70
Total England	8,884.81	50.42	176.22

[1] Total grants comprise: Home Office Police Grant, DCLG Revenue Support Grant and National Non-Domestic Rates; Special Formula grant, Specific Grants: Crime Fighting Fund, Neighbourhood Policing Fund, Basic Command Unit Fund, Community Support Officer Funding, Pension Deficit Grant and Dedicated Security Post funding and Capital provision (including the increased capital allocations announced on 24 May and 19 June 2007).

[2] Population Data sourced by the Office for National Statistics from the mid-2005 population estimates.

Police: Grants

Mr. Martlew: To ask the Secretary of State for the Home Department what grants were provided to *(a)* the Crime Reduction partnership in Carlisle, *(b)* Carlisle city council and *(c)* Cumbria county council for safety and policing in each year since 2003-04. [149625]

Mr. Coaker: Grant allocations made to Carlisle city council and subsequently to Cumbria county council and available to the Crime and Disorder Reduction Partnership in each year since 2003-04 are set out in the following table.

£

	Building Safer Communities and ASB Co-ordinators Grant (paid to Carlisle city council)	Safer and Stronger Communities Fund (paid to Cumbria county council)
2003-04	145,401	—
2004-05	158,166	—
2005-06	—	832,100
2006-07	—	832,100
2007-08	—	3,721,584

These figures reflect the fact that the Building Safer Communities Fund and Anti-Social Behaviour Co-ordinators Grant was pooled within the Safer and Stronger Communities Fund in 2005-06 along with the Drugs Strategy Partnership Support Grant. This pooling was an initial step in the development of Local Area Agreements (LAAs) and saw partnership funding paid to Unitary and Upper Tier Authorities. Cumbria, an Upper Tier Authority, received funding that was originally allocated to Allerdale, Copeland, Barrow, Carlisle, Eden and South Lakeland CDRPs.

The 2007-08 figures are not directly comparable with previous years because the pooled budget now includes a larger number of funding streams. Cumbria county council and its partners are now able to use this grant flexibly to deliver a wide range of outcomes, including reductions in crime, anti social behaviour and the harms caused by drugs.

The figures exclude any funding allocated to the CDRP that has been targeted at specific initiatives, such as the Street Crime Initiative and the Tackling Violent Crime Programme, and any discretionary allocations made by the Regional Director. Data on those funding allocations are not held centrally, or would be available only at disproportionate cost.

Police: Labour Turnover

Mr. Clegg: To ask the Secretary of State for the Home Department how many police officers resigned from the police within *(a)* six months, *(b)* one year and *(c)* two years of starting their employment in each of the last five years. [149769]

Jacqui Smith: No breakdown of leaving categories by length of service is collected centrally and so the requested information is not available.

Police: Recruitment

Sandra Gidley: To ask the Secretary of State for the Home Department how many police officers were recruited in *(a)* Hampshire and *(b)* England in each year since 1997. [151027]

Mr. McNulty: The available data are contained in the following table. Figures prior to 2002-03 were not collected on a comparable basis by the Home Office.

Police officer recruits[1] to police forces from 2002-03 to 2005-06[2].

FTE

	2002-03	2003-04	2004-05	2005-06
Hampshire	267	282	204	244
England	7,148	10,497	7,732	6,260

[1] Recruits included those officers joining as police standard direct recruits and those who were previously special constables. This excludes police officers on transfers from other forces and those rejoining.

[2] Financial year runs 1 April to 31 March inclusive. Comparable data are not available prior to 2002-03.

INNOVATION, UNIVERSITIES AND SKILLS

Adult Education

Mrs. Ellman: To ask the Secretary of State for Innovation, Universities and Skills when he last reviewed the definition of non-priority adult education; and if he will make a statement. [150771]

Bill Rammell: Government funding priorities in further education (FE) have been clearly set out in the Skills Strategy White Paper in 2003, 21st Century Skills—Realising our Potential, reinforced in the 2005 Skills Strategy White Paper, 'Getting on in business; getting on at work' and in the White Paper on FE reform, 'FE, Raising Skills, Improving Life Chances' (published in March 2006). Most recently, the priorities have been laid out in the Department's response (published 18 July 2007-www.dius.gov.uk/publications) to Lord Leitch's report to Government on UK skills, 'Prosperity for all in the global economy—World class skills.'

These priorities have been implemented through the Secretary of State for Education and Skills' annual grant letters to the Learning and Skills Council (LSC). In turn the LSC communicates the priorities to the FE sector through their Annual Statement of Priorities. The most recent 'Annual Statement of Priorities-Raising Our Game' was published in October 2006 and forthcoming priorities for 2008/09 will be published in October 2007 when the CSR settlement is announced.

Government are focusing its resources on these priorities; other provision may be important, but these are where we will focus the majority of public provision.

Charity Research Support Fund

Mr. Willis: To ask the Secretary of State for Innovation, Universities and Skills (1) if he will consider providing the Charity Research Support Fund as a fixed percentage uplift based on the level of funding received by universities from charities; [151420]

(2) what factors were taken into account in calculating how much Charity Research Support Fund funding to make available to universities in each financial year up to 2012; [151421]

(3) how much Charity Research Support Fund funding he plans to make available to universities in each financial year up to 2012. [151422]

Bill Rammell: The Charity Research Support Fund is worth £180 million in the current year. Funding allocations for future years will be announced at the appropriate time.

Departments: Ministerial Red Boxes

John Hemming: To ask the Secretary of State for Innovation, Universities and Skills how many ministerial red boxes the Department has bought since establishment; what the cost of each was; who the suppliers were; and what tendering process was used in selecting them. [150297]

Mr. Lammy: None.

Departments: Targets

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills for which public service agreement targets of the former *(a)* Department for Education and Skills and *(b)* Department of Trade and Industry his Department has responsibility. [147746]

Mr. Denham: The public service agreements are listed as follows.

Improve the basic skills levels of 2.25 million adults between the launch of Skills for Life in 2001 and 2010, with a milestone of 1.5 million in 2007.

Reduce by at least 40 per cent. the number of adults in the workforce who lack NVQ2 or equivalent qualifications by 2010. Working towards this, one million adults in the workforce achieve level 2 between 2003 and 2006.

By 2015, increase participation in higher education towards 50 per cent. of those aged 18 to 30 and also make significant progress year on year towards fair access, and bear down on rates of non-completion.

Improve the relative international performance of the UK research base and increase the overall innovation performance of the UK economy, making continued progress to 2008, including through effective knowledge transfer among universities, research institutions and business.

Educational Institutions: Standards

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills which educational institutions did not achieve their benchmark for completion rates in each of the last five years. [149781]

Bill Rammell: The relevant information is taken from table T5 of the Performance Indicators in Higher Education, published by HESA since 2002-03 and by HEFCE until 2001-02. This gives the proportion of UK-domiciled entrants to full-time first degree courses who are projected to neither obtain an award nor transfer to another course. The information is shown in the following tables.

The benchmarks are not targets. They are adjusted sector averages, calculated for each institution for each indicator, to help institutions gauge their own performance.

Institutions in England which underperformed their benchmark for non-completion in 2003-04

Institution	*Proportion projected to neither obtain award nor transfer*	*Benchmark*
The University of Bolton	35.0	23.1
The University of Central Lancashire	21.7	18.4
University of Chester	18.8	17.0
Coventry University	21.7	19.1
University of Derby	24.0	21.7
The University of East London	27.1	25.5
Edge Hill College of Higher Education	21.5	18.8

The 2004-05 figures will become available on 19 July 2007.

Foundation Degrees: Finance

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills if he will estimate the full cost of foundation degrees since their inception, including all advertising and development; and how much of that sum is recurrent funding. [149098]

Bill Rammell: We have estimated the total cost for foundation degrees over the five years since the first courses started in 2001. Table 1, line 1 shows for each of the last five academic years (2001/02 to 2005/06) the recurrent funding which the Higher Education Funding Council for England (HEFCE) allocated to foundation degrees, amounting to £332 million. Line 2 shows development funding from HEFCE over the same period, amounting to £20 million. Table 2 shows the funding allocated by the then Department for Education and Skills for the advertising of foundation degrees over the financial years 2001-02 to 2005-06, amounting to £7 million.

£ million

Foundation degrees	2001/02	2002/03	2003/04	2004/05	2005/06	Total
HEFCE Notional Recurrent Grant	9	30	54	98	140	332
HEFCE Development	2	1	1	6	6	20

	2001-02	2002-03	2003-04	2004-05	2005-06	£ million Total
Advertising	2	0.5	3	0.5	1	7

Higher Education: Admissions

Matthew Taylor: To ask the Secretary of State for Innovation, Universities and Skills what proportion of students applied for a university place on completion of their A-levels in *(a)* Cornwall, *(b)* the South West and *(c)* England in each year since 1997. [148611]

Bill Rammell: The latest available figures on participation in higher education by local authority and region based on students entering courses were published by the Higher Education Funding Council for England in January 2005 in 'Young Participation in England', which is available from their website at:

http://www.hefce.ac.uk/pubs/hefce/2005/05_03/

This report shows participation rates for young people who enter higher education aged 18 or 19, disaggregated by local authority and region, for the years 1997 to 2000. The figures for Cornwall local authority, the South West region and the comparable figure for England, are shown in the table. HEFCE have not produced participation rates beyond 2000.

Young Participation Rate (YPR (A)) in Higher Education [1] for year cohort aged 18

	Cohort for Cornwall[2] (number)	Young Participation Rate (A) for Cornwall[3] (percentage)	Cohort for South West[2] (number)	Young Participation Rate (A) for South West (percentage)	Young Participation Rate (A) for England (percentage)
1997	5,750	31	55,000	30.7	29.2
1998	6,070	29	57,900	29.1	28.8
1999	5,940	29	56,500	29.1	29.2
2000	5,720	30	55,200	30.0	29.9

[1] Covers all students studying Higher Education Courses at UK Higher Education Institutions and other UK institutions, for example Further Education Colleges.
[2] Cohorts are reported to the nearest 10.
[3] Young Participation Rates for local authorities are reported to the nearest per cent.
Source:
Higher Education Funding Council for England.

The main measure for tracking progress on increasing participation is currently the Higher Education Initial Participation Rate (HEIPR). This is the sum of the HE initial participation rates for individual ages between 17 and 30 inclusive. It covers English-domiciled first time entrants to HE courses, which are expected to last for at least six months, at UK Higher Education Institutions and English, Scottish and Welsh Further Education Colleges, and who remain on their course for at least six months. The latest provisional figure for 2005-06 is 43 per cent. The HEIPR is not calculated at local authority or regional level.

The HEIPR is available from the academic year 1999-00. It is the sum of the age specific initial participation rates for ages 17-30. The age specific initial participation rate for eighteen year olds is shown in the following table.

	Number of initial entrants	HEIPR for 18 year olds (percentage)
1999/2000	115,100	19.3
2000/01	114,000	19.5
2001/02	118,20d	19.6
2002/03	122,40q	19.7
2003/04	124,700	19.2
2004/05	127,200	19.6
2005/06	141,700	21.3

Note:
Numbers are rounded to the nearest 100.

The figures in the tables cover the whole population not just those completing their A-Levels.

Higher Education: European Union

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how many EU domiciled undergraduate students are expected to begin courses at higher education institutions in 2006. [148186]

Bill Rammell: Figures from the Universities and Colleges Admissions Service (UCAS) show that 18,280 EU domiciled applicants were accepted for entry to full-time undergraduate courses at UK higher education institutions at the start of the 2006-07 academic year.

Higher Education: Finances

Mr. Willis: To ask the Secretary of State for Innovation, Universities and Skills what plans he has to sustain the dual support system for universities. [151424]

Bill Rammell: As my right hon. Friend the Prime Minister informed the House on 28 June 2007, *Official Report*, column 36WS, the Government have no plans to change the current dual support arrangements for the public funding of research.

Higher Education: Mathematics

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills what research he has *(a)* commissioned and *(b)* evaluated on mathematics support in universities; and if he will make a statement. [150529]

Bill Rammell: The Department has not recently commissioned or evaluated any research on mathematics support in universities, meeting the perceived shortcomings of students with 'A' level mathematics.

Higher Education: Ministerial Responsibility

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills which Minister in his Department has responsibility for *(a)* further and *(b)* higher education. [147744]

Mr. Denham: The ministerial responsibilities within my Department are set out as follows:

Minister of State, Lifelong Learning, Further and Higher Education, Bill Rammell, MP will be responsible for:

Further Education strategy and implementation

Skills strategy and implementation, including Leitch delivery

The Learning and Skills Council

Standards and performance in further education and skills, including the Quality Improvement Agency

Higher Education strategy and implementation, including widening participation and part-time learners

Employer Engagement in Higher Education

The Higher Education Funding Council for England

Student finance policy

Liaison between further and higher education

International relations and the Joint International Unit, including the Prime Minister's initiative on overseas HE students

Liaison with the Department for Children, Schools and Families

Liaison with the Department for Work and Pensions

Parliamentary Under-Secretary of State for Skills, David Lammy, MP will be responsible for:

The Commission for Employment and Skills

Sector Skills Councils and employer relations

The Train to Gain programme

National Skills Academies

Apprenticeships

Offender learning and skills

Skills competitions, World Skills, and links to the Olympics

Investors in People UK

Ufi learndirect

Industry Training Boards

Union learning, including union learning representatives and unionlearn

Leitch implementation plan

Diversity aspects of skills

Minister of State for Science and Innovation, Ian Pearson, MP will be responsible for:

Business and Science

The Research Base

The Research Councils

Innovation

The Technology Strategy Board

British National Space Centre

National Weights and Measures Laboratory

The Design Council

The National Endowment for Science, Technology and the Arts, liaising with the Department for Culture, Media and Sport

Liaison with the Department for Business, Enterprise and Regulatory Reform

Energy Technologies Institute

Commission for Environmental Markets and Economic Performance

Parliamentary Under-Secretary of State for Intellectual Property and Quality, Lord Triesman will be Lords Minister for the whole Department and responsible for:

The Student Loans Company (and Customer First programme)

The student loan debt sale

Endowments and voluntary giving for higher education

Quality assurance of Higher Education

UK-Intellectual Property Office

Students as 'customers'

Scenario building across DIUS

Departmental efficiency, effectiveness and sustainability.

Science: Wales

Dr. Francis: To ask the Secretary of State for Innovation, Universities and Skills (1) what discussions he has had with the Welsh Assembly Government on science policy in Wales; and if he will make a statement; [150403]

(2) what discussions he has had with the Welsh Assembly Government on research funding in Welsh universities; and if he will make a statement. [150404]

Ian Pearson: The Department has maintained regular contact with the devolved Administrations, including the Welsh Assembly, on research capital funding to maintain the research infrastructure of UK universities.

Skilled Workers: Construction

Mr. Boswell: To ask the Secretary of State for Innovation, Universities and Skills what action his Department is taking in conjunction with public agencies and other interested parties to stimulate traditional skills development in the heritage construction industry. [150092]

Mr. Lammy: ConstructionSkills is the lead Sector Skills Council for the heritage construction industry. ConstructionSkills is working with a range of public agencies to stimulate traditional skills development. The National Heritage Training Group, which is supported by ConstructionSkills, has a UK wide remit to provide assistance with all aspects of recruiting, training, and qualifying the built heritage sector workforce. A number of measures are being taken by ConstructionSkills, the National Heritage Training group and others to improve the qualifications and delivery of heritage skills. These include the training of FE trainers, the development of a Heritage Skills NVQ at level 3, development of occupational standards in Architectural Conservation, mentoring programmes, Regional Heritage Action Groups, and the establishment of Heritage Skills Academies. In addition there is a programme of marketing and promotional work, including the ConstructionSkills 'Make Your Mark' pack that that promotes construction skills careers to secondary school students.

Student Numbers: Part Time Education

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills how many part-time undergraduates there were at each relevant institution in the last five years for which figures are available. [149087]

Bill Rammell: This information is published annually by the Higher Education Statistics Agency (HESA) in their "Students in Higher Education Institutions" reference volumes, copies of which are available from the House of Commons Library.

Student Wastage

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills what the non-completion rates were for students studying *(a)* foundation degrees, *(b)* honours degrees and *(c)* Higher National Diplomas in each of the last 10 years, broken down by subject of degree. [149783]

Bill Rammell: Non-continuation rates by subject of study are available in supplementary tables as part of the "Performance Indicators in Higher Education" publication, published by HESA. Figures are available for the following UK-domiciled entrants to UK higher education institutions:

Young entrants to full-time first degree courses;

Mature entrants to full-time first degree courses;

Entrants to full-time other undergraduate courses (only available from 2002/03).

Figures are available up to and including 2003/04. The 2004/05 figures will become available on 19 July when HESA releases the next set of Performance Indicators in Higher Education. The information is shown in the tables.

Table 1: Proportion of UK-domiciled young entrants to full-time first degree courses who are no longer in higher education after one year of study

Percentage

	1999/2000	2000/01	2001/02	2002/03	2003/04

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills what the non-completion rate was of students on *(a)* prescribed and *(b)* non-prescribed higher education courses in further education colleges in each of the last five years. [149788]

Bill Rammell: The Learning and Skills Council provides success rates of students studying at English further education colleges. These are the number of qualifications achieved expressed as a percentage of the number started. Success rates for learners studying for level 4, 5 or higher level courses are provided here as a proxy for higher education, and many of these courses are likely to be non-prescribed higher education. The success rates are shown in the table:

Success rates for higher education level courses in English further education colleges

Year completed	Success rate (percentage)
2001/02	38
2002/03	43
2003/04	59
2004/05	59
2005/06	62

Source:
Further Education and Work Based Learning—Learner Outcomes in England: 2005/06
(ILR/SFR13)

These success rates are not available broken down by prescribed/non-prescribed course types.

Students: Age

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills what the age profile of *(a)* full-time and *(b)* part-time students was in each of the last 10 years. [149032]

Bill Rammell: The latest available information is shown in the following table.

Age profile of students[1] on Higher Education courses at UK Higher Education Institutions

		Age group					
Academic year	Mode of study	Under 18 years	18-20 years	21-24 years	25-29 years	30 years and over	Age unknown
1996/97	Full-time	11,585	533,025	346,965	113,875	131,680	1,465

[1] Includes both undergraduates and postgraduates.

Source:

Higher Education Statistics Agency (HESA) student record data.

Figures include students from the UK and overseas, and have been rounded to the nearest 5.

The figures are based on students enrolled at 1 December in each year because these are the only figures available on a comparable basis in each year since 1996.

Students: Fees and Charges

Mr. Boris Johnson: To ask the Secretary of State for Innovation, Universities and Skills what the total cost is of student grants to students who previously qualified for education maintenance grants; and what the estimated total cost is for the same cohort under his new student support proposals. [149088]

Bill Rammell: The information on students who receive a grant that previously qualified for an educational maintenance grant is currently not available.

From the 2008/09 academic year, a 16-year-old who qualifies for an educational maintenance allowance will be guaranteed a minimum level of support if they go on to higher education. The guarantee will support aspiration and provide certainty about the financial support available to students to fulfil their potential. The estimated cost will be around £15 million in 2010-11 in steady state.

Unemployment: Young People

Chris Grayling: To ask the Secretary of State for Innovation, Universities and Skills how many people over the age of 16 years and under the state retirement age are not in employment, education or training, or providing full-time child care for their children. [150084]

Mr. Lammy: According to estimates from the Labour Force Survey in quarter 4, 2006 there was a total of 30,710,000 people of working age in England. Of these 5,644,000 (18.4 per cent.) were not in employment, education or training (NEET). Of those who were NEET 913,000 had said that they were either not seeking or not available or not wanting work because they were looking after their family/home and had at least one child aged under five. This leaves a total of 4,731,000 (15.4 per cent. of the working age population) who were NEET and did not say they were unavailable to work because they were looking after a child under five.

Mr. Frank Field: To ask the Secretary of State for Innovation, Universities and Skills how many and what proportion of people aged 18 to 24 years had been classed as not in employment, education or training for *(a)* up to three months, *(b)* between three and six months, *(c)* between six and nine months, *(d)* between nine and 12 months and *(e)* over 12 months in each quarter since 1992. [148360]

Mr. Lammy *[holding answer 9 July 2007]:* The information requested is not available. However, snapshot estimates are available from the Labour Force Survey. The following table gives for England the number and proportion of 18-24 year olds classed as not in employment, education or training for years and quarters available.

People aged 18 to 24[1] years who are NEET

Quarter[2]	Number	Proportion (Percentage)
Spring 1993	1,008,000	21.4
Spring 1994	901,000	19.9
Spring 1995	812,000	18.6
Spring 1996	750,000	17.9
Spring 1997	651,000	16.1
Autumn 1997	570,000	14.5
Spring 1998	588,000	15.0
Autumn 1998	582,000	15.0
Spring 1999	543,000	13.8
Autumn 1999	537,000	13.8
Spring 2000	544,000	13.9
Autumn 2000	545,000	13.9
Q2 2001	542,000	13.7
Q4 2001	558,000	14.0
Q2 2002	577,000	14.5
Q4 2002	544,000	13.3
Q2 2003	579,000	14.3

People aged 18 to 24[1] years who are NEET

Quarter[2]	*Number*	*Proportion (Percentage)*
Q4 2003	553,000	13.3
Q2 2004	576,000	14.0
Q4 2004	612,000	14.6
Q1 2005	594,000	14.2
Q2 2005	617,000	14.7
Q3 2005	683,000	16.1
Q4 2005	678,000	16.0
Q1 2006	643,000	15.3
Q2 2006	685,000	16.2
Q3 2006	756,000	17.7
Q4 2006	661,000	15.4

[1] Academic age has been used here. This means for each quarter's data those aged 18 to 24 as at the preceding 31 August are counted.
[2] The data shown are for those quarters where it is possible to derive the measure on a consistent basis. NEET measures are however, seasonal and therefore care is needed in the interpretation of changes between different quarters. Prior to 2001 spring (March to May) and autumn (September to November) seasonal quarters are shown and calendar quarters thereafter(Q1 is January to March etc) as the LFS has now changed to a calendar basis, although prior to 2005 only Q2 and Q4 data is available.

Labour Force Survey

Vocational Training: Foreigners

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how many non-UK nationals are undertaking vocational training at UK Government expense. [148215]

Bill Rammell: The Learning and Skills Council (LSC) collects data on country of domicile of learners through the Individualised Learner Record (ILR). It is not possible to provide data on learners undertaking vocational training, particularly as a number of young people follow a mixed programme involving both vocational and general subjects. For funding purposes, the LSC regards as 'ordinarily resident' any person who habitually, normally and lawfully resides in the UK or European Union or the European economic area for the three years prior to the start of their course as 'home' learners. The LSC only funds provision for home learners if they satisfy the three years residency criteria. In 2005-06 there were 44,630 non-UK nationals who were learners on publicly funded further education (FE) provision and 2,230 on work based learning (WBL) programmes. Non-UK nationals accounted for 1.3 per cent. of all LSC funded FE provision and 0.4 per cent. of all WBL learners. The data for 2006-07 are not yet available.

JUSTICE

Appeals: Social Security Benefits

Dr. Gibson: To ask the Secretary of State for Justice how many single *(a)* women and *(b)* men with children had their benefits restored at appeal in each of the last five years. [148305]

Bridget Prentice: The information is not available in the format requested. Data are not collated by gender, nor whether the appeal relates to a benefit previously awarded.

The following tables show the total number of appeals cleared at a hearing for the last five years, and broken down by the type of hearing. The number of outcomes where it was favourable to the appellant is also given.

Social security and child support appeals—outcomes by hearing type

	Oral hearings			*Paper hearings*		
Tax year	*Total cleared*	*Decided in favour*	*Percentage*	*Total cleared*	*Decided in favour*	*Percentage*
2005-06	126,840	65,770	52	46,180	10,260	22
2004-05	124,400	65,290	52	43,750	9,790	22
2003-04	129,830	68,670	53	48,110	10,680	22
2002-03	131,700	69,610	53	46,000	10,780	23
2001-02	136,680	70,620	52	47,100	10,850	23

	Domiciliary			*All hearings*		
Tax year	*Total cleared*	*Decided in favour*	*Percentage*	*Total cleared*	*Decided in favour*	*Percentage*
2005-06	490	330	66	173,510	76,350	44
2004-05	510	340	67	168,650	75,420	45

Coroners: Armed Forces

Mr. Dai Davies: To ask the Secretary of State for Justice what assessment he has made of the adequacy of funding for the coroner to conduct inquiries into British military and auxiliary medical personnel killed in Iraq and Afghanistan respectively. [150378]

Bridget Prentice: Coroners are funded by the relevant local authority and police authority. Until 31 March 2007 bodies from Iraq and Afghanistan were repatriated via RAF Brize Norton in the Oxfordshire coroner's jurisdiction and the Government exceptionally provided additional resources to the Oxfordshire coroner to deal with a backlog which had built up in his jurisdiction. Since 1 April 2007 bodies from Iraq and Afghanistan have been repatriated via RAF Lyneham to the jurisdiction of the Wiltshire and Swindon coroner. The coroner has transferred the majority of the inquests to coroners located more closely to the deceased's next of kin. We are keeping the handling of these inquests under review and reporting to the House quarterly on progress. The Secretary of State and I plan to meet the Wiltshire and Swindon coroner before the recess and MOJ and MOD officials will also be meeting the coroner, Wiltshire county council and Wiltshire constabulary shortly.

Mr. Gray: To ask the Secretary of State for Justice what plans he has to meet Mr. David Masters, the Wiltshire coroner, to discuss military inquests. [150518]

Bridget Prentice: The Secretary of State and I plan to meet Mr. Masters before the summer recess.

Coroners: Wiltshire

Mr. Gray: To ask the Secretary of State for Justice what consideration he has given to increasing funding for Wiltshire coroners court to assist with military inquests. [150164]

Bridget Prentice: Since 1 April 2007 the Wiltshire and Swindon coroner has transferred the majority of the inquests which have been repatriated via RAF Lyneham in his jurisdiction to coroners closer to the deceased's next of kin. I am keeping the handling of these inquests under review and reporting to the House quarterly on progress. The Secretary of State and I plan to meet the Wiltshire and Swindon coroner before the recess. MOJ and MOD officials will also be meeting the coroner, Wiltshire county council and Wiltshire constabulary shortly.

Mr. Gray: To ask the Secretary of State for Justice how many military inquests were carried out by the *(a)* Oxfordshire coroner and *(b)* Wiltshire coroner in each year since 2003. [150165]

Bridget Prentice: The following table gives information on completed military inquests as provided by the Oxfordshire and Swindon and Wiltshire coroners' offices.

	Oxfordshire	*Swindon and Wiltshire*
2003	1	8
2004	2	0
2005	17	6
2006	36	2
2007	43	0

Mr. Gray: To ask the Secretary of State for Justice how many military inquests are pending in *(a)* Oxfordshire and *(b)* Wiltshire. [150166]

Bridget Prentice: As of today there are 54 military inquests pending in the Oxfordshire coroner's jurisdiction and 24 inquests pending in the Wiltshire and Swindon coroner's jurisdiction. There is no backlog in Wiltshire. The vast majority of these inquests relate to deaths in the last 12 months, with many inquests relating to deaths in the last six months.

Departments: Ministerial Red Boxes

John Hemming: To ask the Secretary of State for Justice how many ministerial red boxes the Department bought in each of the last five years; what the cost of each was; who the suppliers were; and what tendering process was used in selecting them. [150295]

Maria Eagle: Red boxes are used by successive Ministers over a number of years. The specific information requested for the last five years could be provided only at disproportionate cost as the information is not recorded centrally.

Red boxes are ordered via the Department's stationery contract with Banner Business Supplies.

Departments: Private Finance Initiative

Mrs. Lait: To ask the Secretary of State for Justice what the total cost is of all private finance initiative projects for which his Department has responsibility completed since 1997; and what the projected cost is of such projects commissioned or under way. [148030]

Maria Eagle: The total cost of all private finance initiative projects for which my Department has responsibility that have been completed since 1997 is in excess of £8.0 billion and can be found on the list of signed PFI deals, available on HM Treasury's website at:

http://www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.cfm.

The list contains by project the annual unitary charge payments, which are projections and are conditional on the performance of the private sector contractor. Unitary charge payments are not simply repayments for the capital value of the project and will frequently include inflation, provision of services and major refurbishment.

All of the projects on the list that are overseen by the Ministry of Justice are fully operational except Avon and Somerset magistrates court, where the final site at Bristol is expected to be completed in 2007-08.

Departments: Wales

Mr. Paul Murphy: To ask the Secretary of State for Justice what land in Wales is owned by his Department. [150223]

Maria Eagle: The Ministry of Justice owns the following land in Wales;

Her Majesty's Prison Cardiff

Her Majesty's Prison Parc

Her Majesty's Prison Swansea

Her Majesty's Prison Prescoed

Cilwrgi Farm

Cwmbran site

Newport site, George street, Newport, NP20

Feltham Young Offender Institution and Remand Centre

Tim Loughton: To ask the Secretary of State for Justice what the budget was for Feltham Young Offenders Institute in each of the last five years. [150358]

Mr. Hanson: The budget for Feltham Young Offenders Institute in each of the last five years is contained in the following table.

HMYOI Feltham Budgets 2003-04 to 2007-08

	Budget (Net Del) As at BV4	*Adjustments*	*Comments*
2003-04	21,996,622	—	—
2004-05	31,268,861	11,314,937	YJB expenditure budget Feltham (added in baseline allocation)
		-4,112,000	Health care transfer to PCT
2005-06	35,665,679	1,034,166	Additional YJB allocation (added in baseline)
2006-07	30,850,215	-1,950,664	Reduction in YJB allocation
		-2,359,577	Education to LSC
2007-08	30,856,217	-729,213	Education to LSC

Note:
1. Budgets are allocated throughout the year.
2. The figures have been compiled at July each year for consistency.

Tim Loughton: To ask the Secretary of State for Justice how many social workers working at Feltham Young Offenders Institute are jointly funded by the Youth Justice Board and the Department for Children, Schools and Families. [150359]

Mr. Hanson: The Youth Justice Board has been funding two social worker posts at Feltham. Following the promotion of the senior social worker to be head of safeguarding, there is currently one social worker in post and the vacancy is being advertised. The Youth Justice Board and the Department for Children, Schools and Families have agreed that funding for the financial year 2007-08 would be provided jointly.

Juries: Mentally Ill

Tim Loughton: To ask the Secretary of State for Justice what his policy is on people undergoing treatment for mental illness serving on juries. [150338]

Maria Eagle: The relevant legislation makes it clear that persons undergoing treatment for a mental disorder are not qualified for jury service, and Sir Robin Auld's "Review of the Criminal Courts of England and Wales" recommended no change to the exclusion of mentally disordered persons from jury service. However, we recognise that there are potential benefits in a change to the current arrangements, particularly of a social inclusion nature. The current eligibility criteria are in need of review, and we have indicated that we will consult on modernising them. We will make it clear in due course whether and, if so, how the law is to be changed.

Legal Aid: Mediation

Mr. Heald: To ask the Secretary of State for Justice what steps his Department and the Legal Services Commission have taken to meet the recommendations of the National Audit Office report Legal aid and mediation for people involved in family breakdown; and if he will make a statement. [150036]

Maria Eagle: The Legal Services Commission (LSC) is currently awaiting the Public Accounts Committee's report on the National Audit Office's (NAO's) findings. It has however already begun to implement the NAO's recommendations:

The LSC plans to start piloting family telephone advice through the existing CLS Direct telephone service in the autumn of 2007. This will enable clients seeking family advice to get information about mediation from trained operators.

As a result of decisions taken in the light of the LSC's and the then Department for Constitutional Affairs' consultation "Legal Aid Reform: Family and Family Mediation Fee Schemes", the decision as to whether domestic abuse is a bar to mediation will now sit with the mediator and not the solicitor.

The new Family Fee Structure will also remove the financial disincentives for solicitors to make referrals to mediation, which has historically been an obstacle to increasing mediation referrals, a fact recognised by the mediation profession and in the NAO's report.

The LSC will monitor the number of referrals made by individual firms to mediation. A report, due for implementation in October 2007, will extract information from LSC databases on the exemption from mediation reasons used by individual firms, and sanctions will be available if solicitors firms do not make appropriate and timely referrals.

The LSC is currently developing a new supplier management system to replace existing systems. This will make it easier to track cases across different schemes.

Legal Aid: Reform

Tony Baldry: To ask the Secretary of State for Justice when he next expects to meet the Oxfordshire, Buckinghamshire and Berkshire Incorporated Law Society to discuss legal aid reforms. [150584]

Maria Eagle: My noble Friend Lord Hunt of Kings Heath, the lead Minister for legal aid reform, has had a number of meetings with legal aid practitioners and other interested parties, including the current Law Society president to discuss various aspect of the legal aid reform programme. He currently has no plans to meet the Oxfordshire, Buckinghamshire and Berkshire Incorporated Law Society.

Police Custody

Mr. Heath: To ask the Secretary of State for Justice what provision has been made in his Department's budgets for the cost of *(a)* police cell accommodation and *(b)* court cell accommodation for prisoners in 2007-08. [150145]

Mr. Hanson: The National Offender Management Service has a budget of £9 million for the use of police cells and courts cells in 2007-08. The budget is not split between police and court cells.

Mr. Heath: To ask the Secretary of State for Justice what the total cost was of *(a)* police cell accommodation and *(b)* court cell accommodation in each financial year from 1996-97 to 2006-07. [150144]

Mr. Hanson: I have assumed that this question refers to the use of police and court cells to hold prisoners overnight.

In 2006-07 £1,070,140 was paid for the use of police cells to hold prisoners overnight (known as Operation Safeguard). Police forces invoice in arrears and not all invoices relating to this financial year have yet been received or paid.

Police cells were also used to hold prisoners overnight in the financial year 2002-03. A total of £10.44 million was paid in this period.

In financial year 2006-07 NOMS has paid £235,000 (excluding VAT) to a private contractor to keep court cells available to hold prisoners overnight. Not all invoices have yet been received or paid.

Prison Service: Resignations

Mr. Heath: To ask the Secretary of State for Justice how many prison officers have resigned from the Prison Service within *(a)* six months, *(b)* one year and *(c)* two years of starting their employment in each of the last five years. [150134]

Maria Eagle: Information on the number of prison officers who resigned from the Prison Service within six months, one year and two years of joining is contained in the table.

Prison officers[1] who resigned within two years by length of service

	Number of officers resigning			
Period[2]	*Within first 6 months*	*Between 6 months and 1 year*	*Between 1 and 2 years*	*Total*
2006-07	60	67	70	197
2005-06	64	73	81	218
2004-05	85	52	100	237
2003-04	80	60	70	210
6 July 2002 to March 2003[3]	41	30	25	96

[1] Information relating to contracted prisons is not held centrally and would require the interrogation of various reporting systems which would incur disproportionate cost. Therefore figures relate to public sector Prison Service only.

[2] Archiving of data has meant that information on the start date of officers who left prior to July 2002 is not available.

[3] The period refers to when staff left the Service rather than joined.

Prisoners on Remand

Mr. Heath: To ask the Secretary of State for Justice how many prisoners have spent *(a)* over six months, *(b)* over 12 months, *(c)* over 18 months and *(d)* over two years in prison on remand in the last five years. [150135]

Mr. Hanson: The requested information is not available in the form requested.

The average time spent on remand by prisoners discharged from different lengths of determinate sentence on completion of sentence or licence may be deduced from table 10.1 (for adults) and 10.2 (for young offenders) of Offender Management Caseload Statistics 2005, 2004 and 2003. This calculation includes prisoners who were not remanded in custody.

Data for the earlier years may be found in table 4.11 Prison Statistics in England and Wales for 2002 and 2001.

Data are not held on prisoners who following time spent on remand do not spend time in custody under sentence.

Copies of these publications are placed in the House of Commons Library and can also be found at the Offender Management Caseload Statistics website at http://www.homeoffice.gov.uk/rds/omcs.html under section 10 for the years 2003 to 2005 and at http://www.homeoffice.gov.uk/rds/omcsa.html for the years 2001 and 2002.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners' Release

Nick Herbert: To ask the Secretary of State for Justice how many prisoners released for the last 18 days of their sentence since June 2007 have been returned to prison. [150506]

Mr. Hanson: NOMS has been notified that, out of 1,701 prisoners who were released under End of Custody Licence between 29 June and 5 July, there were 12 who, by 5 July, had been subsequently returned to prison. These figures are based on statistics published on 16 July and updates will be published monthly.

The End of Custody Licence was introduced on 29 June 2007. Eligible prisoners serving between four weeks and less than four years may be released under licence from prison up to 18 days before their automatic release date.

The figures are as notified to NOMS and may therefore be subject to inaccuracies. Some offenders may have been returned to custody without NOMS having been notified. In addition, the figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners' Transfers

Sir Robert Smith: To ask the Secretary of State for Justice (1) how many accidents involving prisoner transport vehicles have resulted in *(a)* injury, *(b)* serious injury and *(c)* fatality to prisoners in transit in the last five years; [150316]

(2) how many accidents involving prisoner transport vehicles in the last five years have involved prisoner transport vehicles operated by private companies; [150317]

(3) how many accidents involving prisoner transit vehicles have occurred each year in the last five years. [150328]

Maria Eagle: There have been no accidents involving prisoner transport vehicles in England and Wales which resulted in a fatality to a prisoner in transit in the last five years. Information about accidents involving escort contractor vehicles that have resulted in injury is available from August 2004 and is set out in the following table. This excludes information for HM Prison Service who do not hold this information centrally and which could be provided only at disproportionate cost. A breakdown of seriousness is not readily available without further investigation.

	Injury
2004	11
2005	18
2006	10
2007	6

Records of accidents involving prisoner escort contractor vehicles are available from August 2004 and are set out in the following table. The majority of accidents involve reversing and manoeuvring.

	All types	*Non-cellular*
2004 (August to December)	268	2
2005	742	15
2006	621	3
2007 (January to June)	288	2

Sir Robert Smith: To ask the Secretary of State for Justice (1) what assessment he has made of the merits of the introduction of compulsory seat belts for prisoners in prisoner transport vehicles; [150318]

(2) how many prisoner transport vehicles have seat belts for prisoners. [150320]

Maria Eagle: The Government considered the merits of installing seat belts in cellular vehicles in 2003. We concluded that the risk of prisoner self inflicted deaths outweighed the benefits of seat belts being installed compulsorily.

Cellular vehicles operated by private contractors for the National Offender Management Service are not fitted with seat belts within the cells. Seat belts are fitted for prisoners in all 32 non-cellular vehicles operated by private contractors. Seat belts are fitted for prisoners in 31 cellular vehicles operated by HM Prison Service. These vehicles are primarily used to escort category A prisoners who have a higher level of supervision.

Sir Robert Smith: To ask the Secretary of State for Justice what average distance prisoners travelled in prisoner transport vehicles *(a)* whilst on remand and *(b)* post-sentence in the last 12 months. [150319]

Maria Eagle: Separate records are not available for remand and post sentenced prisoners. Contractors for the National Offender Management Service report that the average distance prisoners travelled in prisoner transport vehicles in the last 12 months was 18 miles. Information for HM Prison Service vehicles is not held centrally.

Prisoners: Children

Mr. Heath: To ask the Secretary of State for Justice how many *(a)* male and *(b)* female prisoners with dependent children are held outside their home region. [150132]

Mr. Hanson: The Prison Service does not keep information on the number of prisoners that have dependent children. To identify such women, prison staff would need to look at each individual's record, which would in any case not be reliable given that its content depends on (sometimes partial) information provided by the prisoners themselves. However, the 2003-04 resettlement survey commissioned by the Prison Service Custody to Work Unit showed that half of all female prisoners had dependent children (including stepchildren), and that 46 per cent. of those women had lived with at least one dependent child before custody.

Research carried out in January 2007, calculated that the average distance from home for male prisoners is 50 miles and for women prisoners 55 miles (the women's estate is much smaller and more widespread). Considerable emphasis is placed on encouraging prisoners to maintain family ties. Governors are required to consider family contact issues, educational courses and treatment programmes before moving prisoners.

Mr. Heath: To ask the Secretary of State for Justice how many *(a)* female and *(b)* male prisoners have dependent children. [150146]

Mr. Hanson: The Prison Service does not keep information on the number of prisoners that have dependent children.

To identify such women, prison staff would need to look at each individual's record, which would in any case not be reliable given that its content depends on (sometimes partial) information provided by the prisoners themselves. However, the 2003-04 resettlement survey commissioned by the Prison Service Custody to Work Unit showed that half of all female prisoners had dependent children (including stepchildren), and that 46 per cent. of those women had lived with at least one dependent child before custody.

Mr. Heath: To ask the Secretary of State for Justice how many children are resident in Prison Service mother and baby accommodation, broken down by age. [150147]

Mr. Hanson: There are currently 39 children on the mother and baby units (MBUs). A breakdown in age is contained in the following table:

Age in months	*Number of children in MBUs*
0-9	32
10-18	5
18+	2

The maximum age for a child to remain with their mother in a MBU is 18 months. However, in exceptional circumstances, such as an imminent release, a mother can be granted permission to keep the child with her, if it is in the child's best interests, after he/she reaches 18 months.

Mr. Heath: To ask the Secretary of State for Justice how many children were born to women in prison in each of the last 10 years. [150148]

Mr. Hanson: The Prison Service has only routinely kept information centrally on births in custody since April 2005. Figures prior to this date are not available.

The number of prisoners giving birth since April 2005 are as follows:

	Number
April 2007-6 July 2007	26
April 2006-March 2007	99
April 2005-March 2006	106

Prisoners: Death

Mr. Vara: To ask the Secretary of State for Justice how many deaths occurred in prisons in each of the last 10 years, broken down by *(a)* cause of death and *(b)* (i) age group and (ii) sex of deceased. [149856]

Maria Eagle: Information on numbers of deaths in prisons—excluding all current single function young offender institutions is contained in the following table and associated notes. Establishments change and combine functions from time to time. Working out the precise make-up of the male, female and YOI estates over the 10 years and matching that to the timings of deaths could be done only at disproportionate cost.

Cause of death	*Age group*	*Gender*	*Number of deaths*

* The Prison Service definition of self-inflicted deaths is broader than the legal definition of suicide and includes all deaths where it appears that a prisoner has acted specifically to take their own life. This inclusive approach is used in part because inquest verdicts are often not available for some years after a death (some 20 per cent. of these deaths will not receive a suicide or open verdict at inquest). Annual numbers may change slightly from time to time as inquest verdicts and other information become available.

Prisoners: Foreigners

Mr. Hollobone: To ask the Secretary of State for Justice which five nationalities are most represented among the foreign prisoners being held in British gaols; and how many are held at each. [150832]

Mr. Hanson: Figures showing (i) the foreign nationalities which were the most represented in prison establishments in England and Wales and (ii) the numbers of foreign national prisoners held in each prison establishment at the end of April 2007 is set out in the following tables:

	Number
Jamaica	1,464
Nigeria	1,061
Irish Republic	653
Pakistan	419
Vietnam	406

Corresponding figures for prison establishments in Scotland and Northern Ireland are the responsibility of the Scottish Executive and the Northern Ireland Prison Service respectively.

These figures have been drawn from administrative IT systems, which, as with any large-scale recording system, are subject to possible errors with data entry and processing.

Prisons

Mr. Heath: To ask the Secretary of State for Justice how many new prison places will be opened *(a)* through refurbishment, *(b)* on existing prison sites and *(c)* on new sites in each of the next five years. [150142]

Mr. Hanson: NOMS undertakes a rolling programme of refurbishment on the prison estate. As schemes come back into use following refurbishment, other schemes are taken forward and the accommodation is taken out of use.

8,000 new prison places were announced by the Home Secretary in July 2006 and a further 1,500 places by the Lord Chancellor on 19 June. The programme is still in the planning stages and the number of places to be provided beyond 2007 has not been finalised.

The majority of these new places will be within existing prisons, but at least two new prisons will be built (Belmarsh West and Maghull) with a combined total of 1,200 places. In addition, a new 350 place prison (HMP Kennet) opened in June 2007.

Prisons: Crimes of Violence

Mr. Heath: To ask the Secretary of State for Justice pursuant to the answer of 21 June 2007, *Official Report*, column 1843W, to the hon. Member for North Southwark and Bermondsey (Simon Hughes), on prisons: crimes of violence, how many incidents in each category resulted in *(a)* disciplinary action, *(b)* police involvement, *(c)* a sanction detection and *(d)* a conviction. [150152]

Maria Eagle: The information requested is not held centrally. Obtaining the information would involve verifying adjudication data with each establishment, collecting data from each Police Authority and Crown Prosecution Service and could be obtained only at disproportionate cost.

Prisons: Private Sector

Mr. Heath: To ask the Secretary of State for Justice what financial penalties have been imposed on private prison contractors in respect of privately operated establishments in each of the last five financial years; what the reasons were for each penalty; and in how many cases the imposition of a penalty resulted in the withholding of the corresponding amount from the contractor concerned. [150150]

Mr. Hanson: The level of detail that the question asked for is not held in the required format. However, I can respond on the specific point of how monies are recovered when a financial penalty is imposed. The contractor is required to provide a credit note for the relevant amount to be deducted from the monthly payment.

I will write to the hon. Member with a more detailed response to the question before Parliament goes into recess.

Public Defenders: Liverpool

Mr. Djanogly: To ask the Secretary of State for Justice where the work that was being dealt with by the Public Defender Office in St. John's street, Liverpool has been transferred to. [150635]

Maria Eagle: Wherever possible the Public Defender Service completed existing clients' cases. In cases where it was not possible to complete work, the client was invited to nominate another Criminal Defence Service Provider and every assistance was given in aiding the smooth transfer of the case.

Mr. Djanogly: To ask the Secretary of State for Justice how many people have been made redundant as a result of the closure of the Public Defender Office in St. John's Street, Liverpool; and what their positions were. [150636]

Maria Eagle: In total 12 people were made redundant. This figure is made up of the head of office, the quality manager, a barrister, five solicitors, two accredited representatives and two administrators.

Mr. Djanogly: To ask the Secretary of State for Justice for what reasons the Public Defender Office in St. John's street, Liverpool has been closed; and who was consulted on the closure of that Office. [150645]

Maria Eagle: The decisions made about the Liverpool PDS office were made in the light of the independent evaluation of the PDS pilot, the needs of clients and the wider legal aid reform programme. The Legal Services Commission consulted its recognised trade unions and every individual affected by the closure.

Public Defenders: Pilot Schemes

Mr. Djanogly: To ask the Secretary of State for Justice what the assessment process is of the Public Defence Office pilots; and when a report on the pilots is expected to be made public. [150773]

Maria Eagle: The Public Defender Service pilot ended 31 March 2005. An independent evaluation of the pilot was published on 8 January 2007 and can be found on the Legal Services Commission's website and in the Library of the House.

Mr. Djanogly: To ask the Secretary of State for Justice what the total annual cost is of the Public Defence Office pilots; and what the average annual cost has been of a Public Defence lawyer. [150774]

Maria Eagle: During 2006-07, the Legal Services Commission (LSC) spent £5 million on the public defender service (PDS).

It is not possible to provide an average cost of a public defender lawyer as it would require a manual search of employees 'actual' salaries and would therefore incur disproportionate cost.

Sexual Offences: Rehabilitation

Mr. Heath: To ask the Secretary of State for Justice what plans he has to develop residential treatment facilities for sex offenders. [150137]

Mr. Hanson: The Review of the Protection of Children from Sex Offenders, the report of which was published on 13 June, made a number of recommendations designed to make the treatment of sex offenders more effective. One recommendation includes a commitment to explore intensive treatment options for those sex offenders who present the highest risk of serious harm. We will examine whether it would be appropriate to deliver such intensive treatment in a residential setting.

Young Offender Institutions: Death

Mr. Vara: To ask the Secretary of State for Justice how many deaths occurred in young offender institutions in each of the last 10 years, broken down by *(a)* cause of death and *(b)* (i) age group and (ii) sex of deceased. [149855]

Maria Eagle: Information in respect of deaths in current young offender institutions[1]—which are exclusively male—is contained in the following table and associated notes. Establishments change and combine functions from time to time. Working out the precise make-up of the YOI estate over the 10 years and matching that to the timings of deaths could be done only at disproportionate cost.

Year/Cause of death	*Age group*	*Number of deaths*
1997		
Natural causes	21	1
Self-inflicted[2]	15-17	1
Self-inflicted	18-20	5
Self-inflicted	21	3
1998		
Homicide	15-17	1
Self-inflicted	15-17	2
Self-inflicted	18-20	3
Self-inflicted	21	2
1999		
Self-inflicted	18-20	9
Self-inflicted	21	2
2000		
Homicide	18-20	1
Self-inflicted	15-17	3
Self-inflicted	18-20	3
Self-inflicted	21	3

Year/Cause of death	Age group	Number of deaths
2001		
Self-inflicted	15-17	3
Self-inflicted	18-20	3
Self-inflicted	21	1
2002		
Self-inflicted	15-17	1
Self-inflicted	18-20	4

Self-inflicted	21	2
2004		
Self-inflicted	18-20	3
2005		
Other non-natural	18-20	1
Self-inflicted	15-17	2
Self-inflicted	18-20	7
2006		
Self-inflicted	18-20	1

[1] The single-function young offender institutions referred to are: Aylesbury; Ashfield; Brinsford; Castington; Deerbolt; Feltham; Glen Parva; Hindley; Huntercombe; Lancaster Farms; Moorland Open (Hatfield); Northallerton; Portland; Reading; Rochester; Stoke Heath; Swinfen Hall; Thorn Cross; Warren Hill; Werrington and Wetherby.

[2] The Prison Service definition of self-inflicted deaths is broader than the legal definition of suicide and includes all deaths where it appears that a prisoner has acted specifically to take their own life. This inclusive approach is used in part because inquest verdicts are often not available for some years after a death (some 20 per cent. of these deaths will not receive a suicide or open verdict at inquest). Annual numbers may change slightly from time to time as inquest verdicts and other information become available.

Young Offenders: Custodial Treatment

Mr. Malins: To ask the Secretary of State for Justice what percentage of under 18s in custody received their custodial sentence as a result of *(a)* possessing or supplying drugs of class A, B or C and *(b)* offences in which drugs were involved. [150912]

Mr. Hanson: As at the end of May 2007 there were 74 under 18-year-olds serving sentences for drug offences in prison establishments in England and Wales; 4 per cent. of the total 1,895 under 18s serving immediate custodial sentences. It is not possible to show the number serving sentences for specific types of drug offences as the data are not robust at this level.

Information on the total number of prisoners whose offences involved drugs either as a motivating factor, or were committed under the influence of drugs, or where another offence was listed as the primary offence, is not available.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Mr. Malins: To ask the Secretary of State for Justice how many under 18-year-olds were in custody *(a)* following conviction and *(b)* before conviction on 1 October of each year since 1997. [150913]

Mr. Hanson: Figures for all prisoners aged under 18 in all prison establishments in England and Wales 1997 to 2006 can be found in the following table.

	Following conviction[1]	Before conviction[2]
1997	2,011	468
1998	2,024	442
1999	1,989	433
2000	2,125	338
2001	2,070	302
2002	2,309	324
2003	1,934	335
2004	1,969	322
2005	2,083	408
2006	2,124	387

[1] Includes convicted unsentenced remand and sentenced prisoners.
[2] Untried remand prisoners.
Notes:
1. 1997 to 1999 figures are as at 30 June.
2. 2000 to 2006 are as at 30 September.

These figures have been drawn from administrative IT systems, which, as with any large-scale recording system, are subject to possible errors with data entry and processing.

Mr. Malins: To ask the Secretary of State for Justice how many places there are for under 18-year-olds in the prison estate; and how many such places are filled. [150914]

Mr. Hanson: The under-18 secure custodial estate comprises young offender institutions (mostly run by the Prison Service), secure training centres (privately run) and secure children's homes (all but one of which are run by local authorities).

The following table, based on information supplied by the Youth Justice Board, shows the number of places currently commissioned by the Board, and occupancy as at 17 July 2007, in each sector. It also shows how many of the commissioned places are not currently available for use: for example, because they have been damaged or are being refurbished.

Places commissioned, available and occupied in the secure estate for children and young people, 17 July 2007

	Young offender institutions	Secure training centres	Secure children's homes
Places commissioned	2,979	235	277
Places declared unavailable	72	0	0
Places available	2,907	235	277
Occupancy	[1]2,791	228	261

[1] Includes 356 over-18 year olds

Mr. Malins: To ask the Secretary of State for Justice what the average number of hours spent by young offender is per day in each young offenders institution *(a)* in cells, *(b)* undergoing education and *(c)* playing team sport. [150915]

Mr. Hanson: The average number of hours per weekday prisoners in each young offender institution spent in their cells in 2006-07 is shown in the following table:

Average hours per weekday spent in cells by prisoners in each young offender institution in 2006-07

Young offenders institution	*Average time in cell per weekday in 2006-07*
Aylesbury	15.9
Brinsford	15.7
Castington	15.1
Deerbolt	17.1
Feltham	14.2
Glen Parva	13.8
Hindley	14.0
Lancaster Farms	13.8
Northallerton	14.9
Portland	15.4
Reading	17.1
Rochester	15.7
Stoke Heath	14.5
Swinfen Hall	13.6
Thorn Cross	11.5

The prison service collects information on the time spent by prisoners on Education and this is shown in the following table. Data are not collected specifically for team sport but this activity is covered within physical education and recreational sporting activities. The table shows the average number of weekly hours that young offenders spent on education, physical education and recreational sporting activity per week in 2006-07. These data are not collected on a daily basis and cannot therefore be expressed in the precise format requested.

Average hours spent on education, physical education and recreational sporting activity per week in each young offender institution in 2006-07

Establishment	*Physical education*	*Recreational sporting activity*	*Other educational activity*
Aylesbury	3.4	0.3	5.5
Brinsford	2.9	0.0	8.6
Castington	3.1	0.3	9.1
Deerbolt	3.5	0.0	7.6
Feltham	6.2	0.2	10.5
Glen Parva	2.6	0.0	5.9
Hindley	3.1	0.0	17.3

Northallerton	3.3	0.0	6.2
Portland	2.6	0.0	6.5
Reading	0.1	3.1	4.2
Rochester	1.9	0.0	3.0
Stoke Heath	2.9	1.6	5.6
Swinfen Hall	3.3	0.3	8.0
Thorn Cross	7.1	0.3	13.2

Young Offenders: Sentencing

Mr. Vara: To ask the Secretary of State for Justice pursuant to the answer of 11 July 2007, question number 148495, if he will break down the figures provided by category of crime for which the offenders were given *(a)* custodial and *(b)* non-custodial sentences. [150286]

Mr. Hanson: The information requested, for the years 1995 to 2005, is contained in the tables.

Number of persons[1] under the age of 21 sentenced to custodial and non-custodial[2] sentences at all courts, by offence group: England and Wales

Number of persons

	Type of sentence	*Violence against the person*	*Sexual offences*	*Burglary*	*Robbery*	*Theft and handling stolen goods*	*Fraud and forgery*	*Criminal damage*
1995	Immediate custody	2,002	195	5,082	1,552	4,026	181	285
	Non-custodial sentence[2]	7,413	518	12,446	1,529	35,066	2,387	3,375
	Total	9,415	713	17,528	3,081	39,092	2,568	3,660

HEALTH

Abortion: Young People

Tim Loughton: To ask the Secretary of State for Health (1) how many children under 18 years have had an abortion in each of the last 10 years; [150367]

(2) how many children under 18 years have had a second abortion in each of the last 10 years. [150368]

Dawn Primarolo: The information requested is set out in the following table.

	Abortions to women age under 18	*Second abortions to women age under 18*[1]
1997	16,092	939
1998	17,186	1,025
1999	16,561	1,018
2000	17,082	1,119
2001	17,273	1,175
2002	17,449	1,152
2003	18,122	1,243
2004	17,892	1,208
2005	18,023	1,316
2006	18,691	1,341

[1] Number of abortions to women age under 18 who have had an abortion in the year shown and who have also had one previous abortion.

Tim Loughton: To ask the Secretary of State for Health how many girls under the age of 18 years had abortions in each of the last three years, broken down by age. [151070]

Dawn Primarolo: The information requested is set out in the following table.

Total abortions to women age under 18, resident of England and Wales, 2004-06

	Age					
	Under 14[1]	*14*	*15*	*16*	*17*	*Total under 18*
2004	157	877	2,722	5,734	8,402	17,892
2005	137	946	2,703	5,733	8,504	18,023
2006	135	907	2,948	5,859	8,770	18,619

[1] Totals for individual ages within the age group 'under 14' are suppressed for reasons of confidentiality in line with the Office for National Statistics' guidance on the disclosure of abortion statistics (2005).

Note:

Totals refer to the number of abortions in each year not number of women, i.e. women may have more than one abortion within a calendar year.

Alcoholic Drinks: Health Education

Sandra Gidley: To ask the Secretary of State for Health how many alcohol awareness programmes have been set up in *(a)* 2007 and *(b)* the last five years. [150413]

Dawn Primarolo: In October 2006 the Government launched the Know Your Limits campaign, the first in the past five years, aimed at binge drinkers.

'Safe. Sensible. Social. The next steps in the National Alcohol Strategy' committed the Government to campaign to end the tolerance of drunkenness and raise awareness of the sensible drinking message, specifically how to use units to calculate alcoholic intake. Although neither campaign is due to be launched until 2008, work is currently underway to facilitate this.

Sandra Gidley: To ask the Secretary of State for Health what steps the Government are taking to highlight the dangers of drinking alcohol to adults, particularly amongst the over 60s. [150477]

Dawn Primarolo: The Government's Renewed Alcohol Strategy, 'Safe, Sensible, Social—Next Steps in the National Alcohol Strategy' aims to focus future action on reducing the types of harm that are of most concern to the public, by creating an environment that actively promotes sensible drinking and increasing the public's awareness of the risks associated with excessive consumption and how to get help.

The Government are aware that many adults of all ages do not realise their drinking patterns may be damaging their physical and mental health and may be causing substantial harm to others. A ground-breaking agreement between Government and the alcohol industry to place health information on alcohol product labels will help people to monitor their alcohol intake more easily. This will be supported by a sustained national communications campaign that will raise the public's knowledge of units of alcohol and ensure that everyone has the information they need to estimate how much they really do drink.

Sandra Gidley: To ask the Secretary of State for Health what strategy the Government are taking to inform females, especially younger women, about the risks of binge drinking. [150482]

Dawn Primarolo: The Government's renewed alcohol strategy, 'Safe. Sensible. Social'. The next steps in the 'National Alcohol Strategy', emphasises the need to challenge the binge drinking culture. Sustained national campaigning will challenge public tolerance of drunkenness and drinking that causes harm to health.

From 2008, national campaigning will raise the public's knowledge of units of alcohol, to ensure that everyone, women and men, has the information they need to assess how much they drink in relation to advice on sensible drinking.

The Government are concerned that young people aged 16-24 years are significantly more likely than people in other age groups to have consumed more than twice the recommended sensible drinking limit.

The Know Your Limits campaign, launched by the Government in October 2006, provides a range of advice to women on how to remain safe if they find themselves in vulnerable situations as a result of having consumed too much alcohol. In addition, the Government have recently issued revised advice informing women of the risks posed by excessive alcohol consumption during pregnancy and for women hoping to conceive.

Alcoholic Drinks: Health Services

Sandra Gidley: To ask the Secretary of State for Health what plans he has to set health-related alcohol targets. [147979]

Dawn Primarolo: The Department is developing a new outcomes framework for local accountability and decision-making on health and social care. Key stakeholders' views are currently being sought on the framework. Final decisions on it will be made as part of the Comprehensive Spending Review.

Alcoholic Drinks: Misuse

Sandra Gidley: To ask the Secretary of State for Health what change there has been in the recorded number of *(a)* incidents of binge drinking leading to accident and emergency admissions and *(b)* alcohol related illnesses since the publication of the Alcohol Harm Reduction Strategy report in 2004. [150481]

Dawn Primarolo: Hospital Episode Statistics (HES) data cannot determine when an admitted patient has been involved in an incident of binge drinking, and the vast majority of incidents of binge drinking do not result in an admission to hospital. While HES data can be used to determine the number of episodes where the patient had an alcohol related illness, many patients may not be admitted to hospital and would instead be treated in other settings such as primary care or outpatients. Neither can HES supply data that could be used to accurately assess the change in the number of alcohol related illnesses since 2004. While it is likely that alcohol-related attendances at accident and emergency (A&E) departments will be higher than those for alcohol-related admissions to hospital, these data are not recorded.

The following table provides a count of finished admission episodes (FAE), for which data are available, with an alcohol-related primary diagnosis where the patient was admitted via A&E.

Count of FAE with an alcohol-related primary diagnosis admitted via A&E for 2004-05 and 2005-06: National health service hospitals, England

	Admissions
2004-05	34,360
2005-06	39,641

Notes:

Alcohol-related diagnoses defined by ICD-10 codes: F10 Mental and behavioural disorders due to use of alcohol; K70 Alcoholic liver disease; and T51 Toxic effect of alcohol.

Admission methods 71: Emergency—via A&E services, including the casualty department of the provider' and '28: Emergency—other means, including patients who arrive via the A&E department of another health care provider'

Finished admission episodes

A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

Diagnosis (primary diagnosis)

The primary diagnosis is the first of up to 14 (7 prior to 2002-03) diagnosis fields in the HES data set and provides the main reason why the patient was in hospital.

Data quality

Hospital Episode Statistics (HES) are compiled from data sent by over 300 NHS trusts and primary care trusts in England. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. Whilst this brings about improvement over time, some shortcomings remain.

Ungrossed data

Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Source:

HES, The Information Centre for health and social care

Alcoholic Drinks: Taxation

Sandra Gidley: To ask the Secretary of State for Health if he will discuss with the Chancellor of the Exchequer reviewing existing alcohol control policies to include the introduction of increased taxation on alcohol products and the implementation of policies limiting the availability of alcohol; and if he will make a statement. [150274]

Dawn Primarolo: Taxation, including alcohol excise duty, is a matter for the Chancellor of the Exchequer, with decisions on the appropriate levels of tax being taken each year at the time of the Budget.

As described in "Safe. Sensible. Social. The next steps in the National Alcohol Strategy", significant progress has been made in delivering actions under the 2004 strategy. The Government's renewed strategy sets out a co-ordinated approach to change our drinking culture, which recognises the responsibilities of industry as well as Government and other partners.

Alcoholic Drinks: Young People

Sandra Gidley: To ask the Secretary of State for Health how many teenagers *(a)* are undertaking and *(b)* have undertaken regular medical treatment as a result of alcohol abuse in (i) 2007 and (ii) each of the last five years. [150409]

Dawn Primarolo: This information is not held centrally.

Sandra Gidley: To ask the Secretary of State for Health how many *(a)* male and *(b)* female teenagers were admitted to accident and emergency departments on grounds related to drunkenness in each month of (i) 2007 and (ii) the last five years, broken down by NHS trust; and what treatments they required, broken down by category. [150469]

Dawn Primarolo: We do not collect data relating to alcohol-related attendances at accident and emergency departments.

Tables have been placed in the Library which supply data for teenagers admitted to hospital via accident and emergency with a primary diagnosis of T51 toxic effect of alcohol (i.e. more severe than general drunkenness and loss of inhibitions) for the last five years, broken down by gender and health care provider. The information provided in the tables does not include instances of the toxic effects of alcohol as secondary diagnosis.

British Fluoridation Society: Finance

Sandra Gidley: To ask the Secretary of State for Health what assessment his Department has made of the impact of the withdrawal of funding for the British Fluoridation Society upon his Department's goal to reduce oral health inequalities. [149692]

Ann Keen: The British Fluoridation Society (BFS) advises strategic health authorities (SHAs) and primary care trusts on the potential that the fluoridation of water offers for reducing inequalities in

oral health in accordance with our policy that decisions on fluoridation schemes should be taken by SHAs, following local consultations. I understand that the BFS has identified a source of funding which should enable it to continue its core activities in 2007-08.

Care Homes: Fees and Charges

Mr. Paterson: To ask the Secretary of State for Health what the waiting time is for a reassessment of registered nursing care contribution banding awarded to an individual patient in each primary care trust; and if he will make a statement. [150089]

Mr. Ivan Lewis: The information requested is not collected by the Department.

Carers: Protective Clothing

Richard Burden: To ask the Secretary of State for Health whether his Department funds the provision of aprons and gloves for carers. [150769]

Mr. Ivan Lewis: No. It is for care providers, such as domiciliary care agencies and care home operators, to ensure that care staff are equipped with suitable protective clothing and that regulations governing hygiene and health and safety are complied with.

Providers will budget for the cost of protective clothing when negotiating prices for their services with commissioners, such as local authorities.

Chronic Fatigue Syndrome: West Midlands

Richard Burden: To ask the Secretary of State for Health if he will make a statement on the closure of the Birmingham/West Midlands Clinical Network Co-ordinating Centre for myalgic encephalomyelitis. [150768]

Dawn Primarolo: The local national health service determines the configuration of local services and organisations, including those organisations that provide services to patients with chronic fatigue syndrome/myalagic encephalomyelitis.

Clinical Psychologists: Training

Tim Loughton: To ask the Secretary of State for Health how many trainee clinical psychologists were offered a job in the NHS in 2007. [150365]

Mr. Bradshaw: This information is not collected centrally.

Dental Services

Sandra Gidley: To ask the Secretary of State for Health how many units of *(a)* dental and *(b)* orthodontic activity were unused in the last period for which figures were available, broken down by NHS trust. [148131]

Ann Keen: Information is not available in the form requested. Information is available on the level of general dental care commissioned by primary care trusts (PCTs) and on the services provided. However, the two data returns cannot be directly compared.

The first data set shows (for a given month) the prospective annual level of services that have been commissioned as at that point. However, the annual services commissioned at a given point in time will not necessarily remain a reliable guide to the services due to be provided over the following 12 months, because levels of commissioning can change from month to month. For instance, the volume of services commissioned as at March 2007 is higher than the volume of services commissioned as at April 2006.

The second data set shows courses of treatment (and the corresponding units of dental activity) reported by dentists and processed by the NHS Business Services Authority up to the end of March 2007. This does not, however, represent the full-year data for 2006-07 because further courses of treatment carried out in 2006-07 were reported and processed during the first quarter of 2007-08. The full-year data are likely to be published in August.

The following tables contain information by PCT on dental services commissioned as at 31 March 2007, expressed as numbers of units of dental activity is provided in the following tables. Units of dental activity are a weighted measure of the annual courses of treatment provided for NHS patients. This information does not include orthodontics or other specialist services. This information is also available at:

www.performance.doh.gov.uk/dental_contracts/index.htm

Information on courses of treatment (and the corresponding units of dental activity) reported and processed up to the end of March 2007 is contained in a report published by the Information Centre for health and social care: "NHS Dental Statistics for England: Quarter 4:31 March 2007" which is available in the Library.

Source:
Department of Health form DC01.

Sandra Gidley: To ask the Secretary of State for Health how many and what proportion of patients who underwent assessment were assessed as eligible for national health service orthodontic treatment, broken down by primary care trust in the last 12 months. [149690]

Ann Keen: Information is not held centrally in this form. Information has been placed in the Library which shows the ratio of case assessments to case starts (i.e. the start of a course of treatment) notified to the Business Services Authority, Dental Services Division for the period April 2006 to March 2007 for national

health service orthodontic services provided under primary care contracts. However, there are likely to be a number of potential reasons (i.e. not limited to decisions that a patient is not eligible for treatment) why a case assessment is not followed by a case start.

Under the dental reforms introduced in April 2006, all providers of primary care orthodontic services are required to use a well-established index of orthodontic treatment need to assess eligibility for NHS treatment. This provides a fairer and more consistent way of assessing clinical needs and ensuring that resources are deployed on treatments that bring genuine health gain. It is for primary care trusts to agree local clinical governance frameworks that cover what information providers of orthodontic services have to make available to demonstrate compliance with this and other contractual requirements.

Sandra Gidley: To ask the Secretary of State for Health what steps his Department is taking to assist the resolution of the general dental services contracts that were in dispute at 31 March. [149693]

Ann Keen: Primary care trusts and local providers of national health service dental services are responsible for seeking to resolve any disputed elements of NHS contracts. If the parties cannot reach a local resolution, the dispute can be referred to the NHS Litigation Authority. The NHS primary care contracting team offers and provides support and advice on dispute resolution to those commissioners who request it.

Eighty seven per cent. of all those contracts originally signed in dispute have so far been resolved. Well over 99 per cent. of the disputes so far resolved have ended in the dentist deciding to stay with the NHS.

Dental Services: Waiting Lists

Sandra Gidley: To ask the Secretary of State for Health what the average waiting time for orthodontic treatment was in each primary care trust in each year since 2001. [149689]

Ann Keen: Tables have been placed in the Library which set out available information on the average waiting times for first consultant outpatient appointments and for hospital orthodontic treatment. Information relating to treatment in primary care is not collected centrally.

Average waiting times are based on the median wait of patients still waiting for admission or first outpatient appointment at the end of the quarter. For outpatients, medians can also be calculated using patients seen during the quarter. However, for consistency with inpatient data, the outpatient median has been calculated from those still waiting.

Dentistry: Training

Mr. Hancock: To ask the Secretary of State for Health on what basis applicants to practise as dentists in the NHS are able to claim exemption from the requirement to undertake vocational training in the UK prior to acceptance; and if he will make a statement. [149502]

Ann Keen: Dentists who hold appropriate European diplomas are exempt from the requirement to undertake vocational training. Dentists who, in the four years before applying for inclusion in a primary care trust's (PCT) dental performers list, have experience in primary care for a total period of at least two years or an equivalent period part time in the community dental service, the armed forces of the Crown, or the performance of personal dental services prior to 1 April 2006, are also exempt. Through their responsibility for clinical governance and the management of their performers lists PCTs are accountable for the quality of the services provided by all dentists on their lists.

Departments: Disciplinary Proceedings

David Simpson: To ask the Secretary of State for Health how many people in his Department have been *(a)* disciplined and *(b)* dismissed for (i) inappropriate use of the internet while at work and (ii) using work telephones to access premium rate telephone numbers in the last 12 months. [149191]

Dawn Primarolo: Two departmental employees have been subject to disciplinary action for internet misuse, neither was dismissed.

We also had two cases of disciplinary action involving temporary contractors. In each case, the contract was terminated immediately.

The Department has blocked calls to all premium numbers.

Departments: Public Appointments

Sandra Gidley: To ask the Secretary of State for Health whether he has any plans to reorganise the system of health tsars. [150277]

Dawn Primarolo: There are no plans to reorganise the system of national clinical directors (health tsars) in the Department.

Departments: Publicity

David Simpson: To ask the Secretary of State for Health what assessment he has made of the cost effectiveness of advertising commissioned by his Department in the last 12 months. [148500]

Dawn Primarolo: The Department has run a number of advertising campaigns during the previous 12 months in the drive to improve public health. In some instances these are part of longer-term campaigns to address particular issues, e.g. smoking cessation, and some are tactical campaigns, e.g. flu immunisation.

Where long-term campaigns are involved, evaluation techniques are used to measure current performance against pre-determined targets, and to benchmark against previous campaigns. By so doing the department can aim to improve the effectiveness of future campaigns. This is consistent with the recommended principles of the Engage planning framework, which is designed to improve the quality and effectiveness of government campaigns.

Where campaigns have short-term tactical targets, evaluation is also specifically undertaken to ensure response levels are achieved through the most effective deployment of media, and once more to inform future planning for similar activities. Examples of these two campaign approaches follow.

Depending on the nature of the task, the department uses appropriate industry-wide recognised measures to determine the success and cost effectiveness of the campaign. The Central Office of Information is often involved in the campaign development process and these measures are also used by them to measure campaign success levels. The measures chosen will include some of the following elements:

spontaneous ad awareness;

prompted ad awareness;

spontaneous ad recall;

prompted ad recall;

logo/brand recognition;

slogan recognition;

ad recall (first mention);

ad recall (all mentions);

attitude shift (pre/post);

attitude shift (regular tracking);

specific policy/product detail recall;

agreement with relevant statements (pre/post);

response by channel (telephone, coupon, website);

response by medium (TV, national press, etc);

response for information;

response to helpline;

second stage response (e.g. fill in an application form);

final stage response (e.g. receive benefit, give blood);

tracking of response quality (from initial inquiry to final result);

behavioural shift—immediate (e.g. join smoking cessation group); and

behavioural shift—long term (e.g. give up smoking).

Example of long-term campaign evaluation

Using these measures, some of the top line results from recent tobacco campaigns since September 2006 are as follows:

Motivations That Matter (September 2006)

70 per cent. of 16-34 smoking men aware that impotence can be caused by smoking, (compared to 45 per cent. at start of campaign).

41 per cent. of 16-34 smoking women said the ads made them more likely to quit.

Hook/Send Off (January to March 2007)

82 per cent. of smokers agreed that a smoker who smokes 5,000 cigarettes a year must be really addicted;

76 per cent. of smokers agreed that the campaign was aimed at people like me;

39 per cent. of smokers said 'Hook' made them think they should give up now; and

23 per cent. of smokers said that TV advertising was a prompt for their most recent quit attempt (prompted).

Direct Response:

During the Hook/Send Off campaign 83,606 people phoned the NHS Smoking Helpline, 545,564 people visited the gosmokefree website and 195,000 people interacted with the interactive TV pages (total of 824,170 responses).

Secondhand Smoke (March 2007)

42 per cent. of adults (48 per cent. of smokers) spontaneously recalled any element of the campaign (82 per cent. and 84 per cent. respectively for prompted awareness);

88 per cent. of adults agreed second hand smoke can cause lung cancer in non-smokers post-campaign (78 per cent. pre-campaign);

75 per cent. of adults agreed second hand smoke can cause heart disease in non-smokers post-campaign (70 per cent. pre-campaign); and

50 per cent. agreed most of the smoke from a cigarette can't be seen or smelt post-campaign (27 per cent. pre-campaign).

Example of tactical campaign evaluation:

The flu immunisation communications campaign has been run annually since 2000. The advertising has been evaluated by pre and post campaigns surveys of the target audiences to measure changes in spontaneous and prompted recall and recognition of the advertising, propensity to get the jab, the relative cost effectiveness of the different media, take-up of campaign materials, and ultimately, take-up of the jab.

In 2006 the research indicated that, compared to 2005, the advertising had achieved:

similar levels of prompted recall and recognition among the at-risks groups;

propensity to get the jab was also similar to 2005 among the total sample surveyed, and increased with the number of media recognised;

among the over-65s there was some decline in spontaneous and prompted recall of any flu jab advertising, and in propensity to get the jab; and

among the at-risk groups of all ages spontaneous recall of any flu jab advertising changed little, but there was a decline in prompted recall. Propensity to get the jab remained stable, and was slightly higher among those who had seen the campaign.

Take-up of the campaign materials by the national health service was 2.8 million items.

The campaign contributed a take-up of the vaccine of 74 per cent. among the over-65s in 2006 (65.3 per cent. in 2000-01), towards the World Health Organization target of 75 per cent. by 2010.

Departments: Racial Harassment

David Simpson: To ask the Secretary of State for Health how many complaints of racial abuse relating to staff for which his Department is responsible have been *(a)* investigated and *(b)* upheld in the last 12 months. [149252]

Dawn Primarolo: During the last 12 months (for the period July 2006 to July 2007) the Department has received no official complaints of racial abuse.

Drugs: Advisory Services

Tim Loughton: To ask the Secretary of State for Health how many children have used the Talk to Frank helpline in each year since it was set up. [150371]

Dawn Primarolo: The number of children who have contacted the Talk to Frank Helpline from 2004-05 are shown in the following table.

	2004-05	2005-06	2006-07	Total
Under 16	4,237	5,917	4,444	14,598
16 to 25	11,629	14,136	14,974	40,739

Tim Loughton: To ask the Secretary of State for Health what assessment he has made of the reasons for calls to the Talk to Frank helpline, broken down by substance abuse type. [150372]

Dawn Primarolo: From April 2006 to March 2007, the main reason (72 60 per cent.) for calls to the Talk to Frank helpline was to ask for information on individual substances. This reflects an increase of 6.3 per cent. compared to 2005-06. Further details of caller requirements are contained in the following table.

Caller requirements	Percentage
Information given	72.60
National referral	14.24
Local referral	6.33
Literature	5.78
Campaign specific	0.67
Query complaint	0.38

Of the calls requesting information, queries on Cannabis accounted for the majority of calls. They ranged from simple questions about the effects and general usage to more complex queries regarding the link between cannabis use and mental health. These queries were a result of increased media attention.

Cocaine was the second most frequently discussed topic. Again these ranged from simple questions about the effects and risks of taking cocaine to more complex queries on how to cut down/reduce intake, and drug detection/testing.

Further details showing a breakdown on individual substance/topic are contained in the following table.

Information advice topic	Percentage
Cannabis general	20.51
Cocaine	14.77

November 2006 to March 2007

Tim Loughton: To ask the Secretary of State for Health what the cost has been of the Talk to Frank helpline since inception. [150373]

Dawn Primarolo: The Talk to Frank helpline is run as part of a pooled service that includes Know the Score, Drinkline, Sexual Health Line and Hepatitis C Information Line. This allows for a more efficient and cost effective model that shares costs across the helplines. The overall cost for the pooled service in 2006-07 was £1.45 million. Due to the shared nature of this service, it is impossible to give completely accurate cost for the Talk to Frank helpline alone. But based upon the split in number of calls, we estimate that the Talk to Frank helpline service would cost roughly £800,000 of the £1.5 million.

Drugs: Misuse

Joan Walley: To ask the Secretary of State for Health what estimate he has made of *(a)* the number of problematic drug users (PDUs) in each county area in 2004-05 and *(b)* the percentage of PDUs not in treatment who require it. [149485]

Dawn Primarolo: The Department has made no estimate of the numbers of problematical drug users (PDUs) in each county area or the percentage of PDUs not in treatment who require it.

Drugs: Rehabilitation

Tim Loughton: To ask the Secretary of State for Health how many people are receiving rehabilitation treatment for *(a)* drug abuse and *(b)* alcohol abuse. [150353]

Dawn Primarolo: In 2005-06, the last year for which there is data available a total of 5,617 clients undertook residential rehabilitation in relation to drug misuse. This compares with a 2004-05 figure of 4,992.

We do not collect data centrally on the numbers of clients who undertake residential rehabilitation as a result of alcohol misuse.

Eating Disorders: Children

Norman Lamb: To ask the Secretary of State for Health pursuant to the answer of 6 June 2007, *Official Report*, column 568W, on eating disorders: children, if he will break down the numbers of finished consultant episodes in each year from 1996-97 to 2005-06 by *(a)* region and *(b)* primary care trust. [148356]

Mr. Ivan Lewis: Information is not available in the format requested. Information at the primary care trust level could only be provided at the risk of breaching patient confidentiality. Tables have been placed in the Library which give the number of finished consultant episodes by region (pre-1998-99 national health service regional boundary change) when the primary diagnosis was related to an eating disorder.

Exercise: Children

Tim Loughton: To ask the Secretary of State for Health what estimate he has made of the amount of physical activity undertaken by school age children each week in *(a)* 1997 and *(b)* 2007. [150357]

Dawn Primarolo: The information is not available in the format requested. Data on childhood physical activity are not available for 2007. Data on physical activity among children are collected in the Health Survey for England (HSE), but not in every year. We can provide data on the level of physical activity undertaken outside of school by boys and girls aged two-10 and boys and girls aged 11-15 for 1997 and 2002. Data are published in "Statistics on Obesity, Physical Activity and Diet: England, 2006", produced by The Information Centre for health and social care (The IC) at:

www.ic.nhs.uk/statistics-and-data-collections/health-and-lifestyles/obesity/statistics-on-obesity-physical-activity-and-diet-england-2006

This information is provided in the following table.

In addition, data are available on participation in physical education (PE) and school sport from the School Sport survey. These are also published in "Statistics on Obesity, Physical Activity and Diet: England, 2006". The data were collected from 16,882 schools that are within school sport partnerships in England. The latest survey results show that in 2005-06 80 per cent. of pupils in school years one to 11 (mainly aged five to 15-years) in partnership schools participated in at least two hours of high quality PE and school sport in a typical week. These school sport partnerships were set up in a number of phases starting September 2000 and so there are no data available for 1997.

Table 1: Children's summary physical activity levels[1, 2, 3], 1997 and 2002—England

Percentages

	1997	*2002*
Boys 2-10		
High[4]	54	55
Medium	9	20
Low	37	26
Boys 11-15		
High[4]	55	56
Medium	13	16
Low	33	29
Girls 2-10		
High[4]	45	48
Medium	10	21
Low	44	30
Girls 11-15		
High[4]	27	34
Medium	15	22
Low	59	44
Bases (weighted)		
Boys aged 2-10	1,425	2,705
Boys aged 11-15	719	1,495
Girls aged 2-10	1,456	2,598
Girls aged 11-15	679	1,460

[1] High = 60 minutes or more on all seven days; Medium = 30-59 minutes on all seven days; Low = Lower level of activity
[2] Only activities that lasted 15 minutes and over were included.
[3] It was assumed that all walking and housework/gardening sessions in 2002 lasted 15 minutes. This was necessary in order to make 2002 and 1997 data comparable as there was no duration question for walking and housework/gardening in 1997.
[4] Based on the assumption that all activity was of at least moderate intensity, this group represents those who met the physical activity recommendations for at least an hour of at least moderate-intensity activity a day.

Health Survey for England, 2002. The Department of Health

Family Planning

Sandra Gidley: To ask the Secretary of State for Health how many *(a)* full and *(b)* part time family planning clinics there were in each health trust area in each of the last five years. [150973]

Dawn Primarolo: The information requested is not held centrally.

The Department only currently collects aggregate data from family planning clinics at primary care trust (PCT) and national health service trust level. As such we cannot identify data on numbers of individual clinics (of which there are many) within these organisations.

Data at PCT and NHS trust level are published in "NHS Contraceptive Services, England 2005-06" and a copy of the latest bulletin is available in the Library. The information is also available at:

www.ic.nhs.uk/statistics-and-data-collections/health-and-lifestyles/contraception/nhs-contraceptive-services-england-2005-06

Family Planning: Expenditure

Sandra Gidley: To ask the Secretary of State for Health (1) how much each health trust spent on family planning services in each year since 1997; [150970]

(2) how the £20 million earmarked for improving access to contraceptive services and long acting reversible contraception in 2007-08 will be audited. [151060]

Dawn Primarolo: Family planning services are funded through revenue allocations to primary care trusts (PCTs). It is for PCTs to determine how to use the funding allocated to them to commission services, including contraceptive services, to meet the health care needs of their local populations.

We have no plans to audit how Choosing Health funding allocated to PCTs to improve sexual health, including access to contraception, was spent. The national health service must be free to make its own local spending decisions and we do not believe it is necessary to increase the burden on the NHS by collecting and monitoring details of their expenditure.

Rather we are interested in the real outcomes from local investment, and this is why we have introduced sexual health into the local delivery planning process and have identified this area as a key priority. This will enable us to see where real improvements are being delivered in areas such as waiting times and rates of infections.

Food: Labelling

Mr. Greg Knight: To ask the Secretary of State for Health what new proposals he has on food labelling. [150599]

Dawn Primarolo: Food labelling legislation is largely harmonised within the European Union. The European Commission is currently conducting a review of food labelling legislation, and is expected to publish a draft proposal for a new regulation by the end of the year.

Gender Identity Disorder

Lynne Jones: To ask the Secretary of State for Health what choices of provider are available for those referred for assessment, counselling and treatment for gender dysphoria and related gender role anxieties and conditions; whether the national waiting list targets apply to such referrals; and if he will make a statement. [150252]

Mr. Ivan Lewis: The main national health service centre providing specialist care for gender dysphoria and related gender role anxieties and conditions for adults in England is at Charing Cross hospital in London. There are smaller services in Leeds, Leicester, Newcastle and Bristol.

The 18-week target for the maximum wait from general practitioner referral to first appointment with a consultant applies to all clinical conditions.

The Government remain committed to reducing waiting times for all patients in all specialties and to providing choice of provider wherever appropriate.

Genito-urinary Medicine: Manpower

Tim Loughton: To ask the Secretary of State for Health how many *(a)* health professionals and *(b)* administrators worked in sexual health clinics during each of the last three years. [150637]

Dawn Primarolo: The information requested is not held centrally.

Genito-urinary Medicine: Publicity

Tim Loughton: To ask the Secretary of State for Health how much was spent on publicising sexual health clinics to children and young people under the age of 18 years in each of the last three years. [150641]

Dawn Primarolo: The information requested is not held centrally.

Health Services: Private Sector

Mr. Lancaster: To ask the Secretary of State for Health (1) what contracts Milton Keynes primary care trust has with private sector suppliers in 2007-08, broken down by procedure; how many procedures have been contracted for in each case; and at what cost; [150515]

(2) which procedures contracted out by Milton Keynes primary care trust to the private sector are also carried out by Milton Keynes hospital; [150516]

(3) what proportion of contracts placed with private contractors by Milton Keynes primary care trust in 2006-07 have been fulfilled, broken down by procedure; [150517]

(4) what surgery was referred by Milton Keynes primary care trust to private contractors in each of the last three financial years, broken down by procedure; [150547]

(5) to which private contractors Milton Keynes primary care trust contracts out surgical work. [150548]

Mr. Bradshaw: There is one independent sector contract, that was procured centrally through the Department, that delivers services across the Midlands, including Milton Keynes primary care trust (PCT). The treatment centres within the contract are the Reading NHS Treatment Centre, Norton NHS Treatment Centre and Blakelands NHS Treatment Centre. The provider for the contract is Capio. Information on locally procured services from independent sector providers is not held centrally.

The contract for the centres is based on total value rather than procedure numbers as this allows PCTs to vary the case mix, within contracted limits, according to changing local needs. However, the indicative total activity for the contract is 17,852 procedures.

Information held on case mix and patient discharges is shown in following tables.

Case mix

Centre	*Case mix*
Reading NHS Treatment Centre	General Surgery, Urology, Trauma and Orthopaedics, Gynaecology
Horton NHS Treatment Centre	Trauma and Orthopaedics
Blakelands NHS Treatment Centre	General Surgery, Urology, Trauma and Orthopaedics, Dermatology

Procedure numbers

Financial year	*Reading NHS Treatment Centre*	*Horton NHS Treatment Centre*	*Blakelands NHS Treatment Centre*
2004-05	—	—	—
2005-06	1,147	—	1,045
2006-07	1,180	446	2,272

Overall utilisation for the independent sector treatment centres programme as at May 31 was 84 per cent. Individual utilisation rates and information detailing numbers of procedures can not be disclosed as this information is considered commercially sensitive in confidence. The Department is currently reviewing what information is made publicly available on phase one contracts, however no decision has yet been taken.

Health Services: Procurement

Tim Loughton: To ask the Secretary of State for Health (1) when his Department expects to complete the update of the review of commissioning arrangements for specialised services; [150729]

(2) when he plans to set up the commissioning groups recommended under the Carter review. [150730]

Mr. Bradshaw: The different commissioning groups recommended by Sir David Carter in his review of commissioning arrangements for specialised services are the National Commissioning Group, the National Specialised Commissioning Group and 10 local specialised commissioning groups. These were all established on 1 April 2007.

An updated implementation plan will be posted very shortly on the Department's website. This sets out the key milestones that have been achieved in implementing the review recommendations and the remaining challenges.

Health Services: South East Region

Tim Loughton: To ask the Secretary of State for Health how many letters were received by *(a)* his Department and *(b)* the West Sussex primary care trust as part of the response to the fit for the future discussion document published in May 2006; who is responsible for such papers; and where the letters are stored. [150336]

Dawn Primarolo: Due to the way correspondence is recorded, this information cannot be supplied without disproportionate cost.

Health Services: Tourism

Sandra Gidley: To ask the Secretary of State for Health what estimate he has made of the number of British nationals requiring medical treatment whilst on holiday abroad over the last five years. [150952]

Dawn Primarolo: We do not keep records about people treated outside Europe and no estimates have been made. We do know the costs of people treated under the European Union social security coordinating regulations. However the claims received from member states cover a number of different categories of people and to separate out temporary visitors could be done only at disproportionate cost.

Health Visitors: Hertfordshire

Mr. Heald: To ask the Secretary of State for Health if he will make a statement on current levels of recruitment of *(a)* health visitors, *(b)* nursery nurses, *(c)* support workers and *(d)* midwives in Hertfordshire. [150102]

Mr. Ivan Lewis: It is the responsibility of primary care trusts and strategic health authorities to analyse their local situation and develop plans, in liaison with their local national health service trusts and primary care providers, to deliver high quality NHS services and take action to recruit the appropriate staff required to deliver these services. We understand that the current levels of recruitment of health visitors, nursery nurses, support workers and midwives are in line with work force plans designed to ensure that high-quality services and patient care will continue in Hertfordshire.

Health: Schools

Sandra Gidley: To ask the Secretary of State for Health how many and what proportion of schools have healthy school status. [150289]

Dawn Primarolo: As at 16 July 2007, there were 8,930 schools (40 per cent.) who had gained the full National Healthy Schools Status. We are on track to meet our next milestone, of 55 per cent. of schools with National Healthy School Status by December 2007.

Hospitals: West Sussex

Peter Bottomley: To ask the Secretary of State for Health if he will provide to the West Sussex Primary Care Trust the representations he and his Department have received in the last 12 months relating to the possible change in hospital services at Worthing and Southlands hospital. [150129]

Dawn Primarolo: The Department received approximately 155 letters relating to possible changes at the Worthing and Southlands hospital, between July 2006 and July 2007.

Tim Loughton: To ask the Secretary of State for Health whether letters received by *(a)* his Department and *(b)* West Sussex primary care trust in response to the original fit for the future discussion document will be taken into account when considering responses to the consultation exercise on the reconfiguration of hospitals in West Sussex. [150337]

Dawn Primarolo: This is a matter for the national health service locally. The Department of Health expects the local NHS to take a range of factors into account when considering proposals.

Human Papilloma Virus: Vaccination

Mr. Hancock: To ask the Secretary of State for Health whether he plans to ensure that all adolescent girls are offered the human papilloma virus vaccination before they leave compulsory education; and if he will make a statement. [149793]

Dawn Primarolo: The Department has agreed in principle to accept the advice from the Joint Committee on Vaccination and Immunisation (JCVI) that human papilloma virus vaccines should be introduced routinely for girls aged around 12-13 years, subject to independent peer review of the cost benefit analysis. Details of the programme will be finalised in the coming months, following further advice from the JCVI and discussions with the national health service on the implementation of the programme. The JCVI is currently considering the evidence regarding the benefits and costs of vaccinating older girls, and will provide advice on this issue in due course.

Mr. Hancock: To ask the Secretary of State for Health if he will make it his policy to enable self-referral to a GP for the human papilloma virus vaccine for *(a)* those that will not take part in the immunisation programme in the 2007-08 school year and *(b)* older women. [149794]

Dawn Primarolo: The new human papilloma virus vaccines offer tremendous potential to protect women as they prevent up to 70 per cent. of cervical cancers, provided it is given before youngsters become sexually active. This is because the vaccine does not, in general, protect against established human papilloma virus infection.

The priority is to directly protect young girls against their future risk of cervical cancer.

General practitioners may exceptionally prescribe the vaccine if the clinical circumstances of a patient warrant such action.

IVF

Chris Huhne: To ask the Secretary of State for Health (1) how many cycles of in-vitro fertilisation treatment were offered in *(a)* each regional health authority, *(b)* each primary care trust and *(c)* England in each of the last five years; [149111]

(2) what principal criteria are used to determine the availability of in-vitro fertilisation treatment in each primary care trust. [149112]

Dawn Primarolo: We do not currently collect this information on a routine basis. Clinical criteria for the provision of fertility services, including in-vitro fertilisation (IVF), are set out in the guideline on the assessment and treatment for people with fertility problems published in 2004 by the National Institute for Health and Clinical Excellence. We are aware that most primary care trusts are providing at least one cycle of IVF and we are working with the patient support organisation Infertility Network UK to help primary care trusts share best practice in the provision of fertility services and engage with fertility patients in the planning and prioritisation of services.

IVF: Costs

Mr. Jenkins: To ask the Secretary of State for Health what assessment he has made of the reasons for the change in the cost of in-vitro fertilisation in the NHS in the last 10 years. [149271]

Dawn Primarolo: I refer my hon. Friend to the answer I gave him on 10 July 2007, *Official Report*, column 1449W.

Maternity Services: Admissions

Sandra Gidley: To ask the Secretary of State for Health what the grounds are for a maternity unit to be required to close temporarily to admissions for safety reasons. [150275]

Ann Keen: Demand for beds in maternity units is by its very nature unpredictable. There are various factors that influence the decision to close a maternity unit for a period of time, including staff and bed availability and the number of women and complexity of care needed. It is important that in circumstances where a unit considers or actually does close, systems and guidelines are in place to ensure pregnant women continue to have access to alternative maternity services and safe provision of care.

Maternity Services: Intensive Care

Sandra Gidley: To ask the Secretary of State for Health (1) how many neonatal intensive care cots there were in each NHS trust in each of the last five years; [148388]

(2) how many *(a)* neonatal intensive cots and *(b)* special care cots in each trust were not being used due to lack of staff in each of the last five years; [148390]

(3) how many neonatal units were closed to admissions for a period during each of the last five years; and how long each such unit was closed for; [148391]

(4) what the average occupancy rate for intensive care cots was in each NHS trust in each of the last five years. [148392]

Ann Keen: There were 1,543 cots in England in 2001-02; 1,551 in 2002-03; 1,491 in 2003-04; 1,523 in 2004-05 and 1,688 in 2005-06. The number of cots in each national health service trust in each year has been placed in the Library. Statistics on when and for how long units were closed and where babies may have had to travel in the absence of a local bed are not available. The average occupancy rate of neonatal intensive care cots remains steady at 73-75 per cent.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Health when he will reply to the letter of 12 June 2007 from the hon. Member for West Worcestershire about pay for nurses. [150763]

Ann Keen: The letter from the hon. Member was answered on 13 July 2007.

Mental Health Services

Lynne Jones: To ask the Secretary of State for Health what choices are being offered to mental health service users. [148733]

Mr. Ivan Lewis: The Department launched "Our Choices in Mental Health" in November 2006 and this sets out four points in the care pathway where mental health service users and carers value choice. This document also provides positive practice examples of how this is now being offered.

The four choice points are:

life choices, where people manage their own care to the extent with which they are comfortable, and maintain their normal lives as far as is possible;

a choice of mental health services contacts other than a general practitioner being the only port of call for service users and carers during an episode of mental illness;

a choice in when and where an assessment of mental illness is carried out; and

a choice of care options so that service users and carers have a range of suitable care options to choose from, information about each option and support to make these decisions.

Mr. George Howarth: To ask the Secretary of State for Health what plans he has to review mental health services; and if he will make a statement. [149848]

Mr. Ivan Lewis: The "National Service Framework for Mental Health" (NSF) was published in 1999, setting out a comprehensive vision for mental health care in England and outlining a 10 year programme of work in an area that was previously neglected.

The NSF was reviewed in 2004 by Louis Appleby, the National Director for Mental Health. His report, "The National Service Framework for Mental Health—Five years on", identified the need to broaden the focus of work from the specialist mental health services to the mental health needs of the community as a whole.

The NSF's programme of work is kept under regular review, especially in the light of recent reforms to health and social care systems.

Mentally Ill: Hospitals

Alan Simpson: To ask the Secretary of State for Health how many people in *(a)* England, *(b)* Nottinghamshire and *(c)* Nottingham were sectioned to psychiatric wards in each of the last five years. [148382]

Mr. Ivan Lewis: Information about the number of formal detentions under the Mental Health Act 1983 since 2001-02 is shown in the following table. These figures relate to all age groups of adults and children.

Number of detentions under the Mental Health Act 1983 and other legislation (England): children and adults of all ages

	Number
2001-02	47,806
2002-03	46,489
2003-04	45,691
2004-05	46,673
2005-06	47,394

Source:
The Information Centre for health and social care published data Form KP90

Number of detentions under the Mental Health Act 1983 in Nottinghamshire Healthcare NHS Trust which provides mental health services across Nottinghamshire

	Number
2001-02	Not available
2002-03	1,034
2003-04	861
2004-05	1,062
2005-06	959

Source:
The Information Centre for health and social care Form KP90.

The figures for Nottinghamshire include those for Nottingham. Separate figures for Nottingham are not available.

National Patient and Public Involvement Director

Sandra Gidley: To ask the Secretary of State for Health what plans he has to replace the National Patient and Public Involvement Director. [150272]

Ann Keen: Following Harry Cayton's appointment as chief executive of the Council for Healthcare Regulatory Excellence, the Department will be appointing a new Director for Patients and the Public in the autumn. The Department is taking this opportunity to review the role in light of wider changes within the Department and, in particular, how the new director can drive forward increased patient and public involvement in local services.

Harry Cayton has held the post of National Director for Patients and the Public since 2002. This has been a

time of significant impact and achievement. He has accepted the Secretary of State's invitation to chair the National Information Governance Board until October 2008.

NHS: Finance

Mr. Lansley: To ask the Secretary of State for Health how the relative needs formula component of the formula grant for local authorities is determined; when it was last reviewed; which variables are included in the formula; who determines the formula; and if he will make a statement. [148141]

Mr. Ivan Lewis: The social care relative needs formulae for all client groups were reviewed in 2005 and new formulae were introduced for the 2006-07 settlement. The formulae are mainly produced through academic research projects and will remain unchanged for the next three-year settlement.

The older people's formula consists of a basic amount per person aged 65 and over and top-ups for age, deprivation, sparsity, low income from fees and charges, and area costs.

The variable in the age top-up is the proportion of the 65 and over population that is aged 90 years and over.

The variables in the deprivation top-up are the proportions of people aged 65 and over with the following characteristics:

in receipt of income support or pension credit;

in receipt of attendance allowance;

living in rented accommodation; and

living alone in a household.

The sparsity top-up is calculated using data on the population sparsity of those aged over 65.

The variable in the current top-up for low income from fees and charges is the proportion of older people living in rented accommodation. This is the only part of the funding formulae that is calculated internally by departmental analysts, and the analysis has recently been re-run using the latest data. The resulting two options will be included in the Department for Communities and Local Government's Formula Grant Distribution Consultation over the summer.

The area cost adjustments for older people and younger adults are calculated by the Department for Communities and Local Government (DCLG) to take into account the differing costs of providing adult social care by area.

The younger adult's formula consists of a basic amount per person aged 18-64 and top-ups for deprivation and area costs. The variables included in the deprivation top-up are:

the proportion of people in receipt of disability living allowance aged 18-64;

the proportion of people who have never worked or are long term unemployed;

the proportion of people in routine occupations; and

the proportion of households with no family.

The DCLG have responsibility for the overall local government finance settlement.

Central Government, following consultation with local government and subject to parliamentary approval, determines the relative needs formulae based on the results of the research and analysis.

Tim Farron: To ask the Secretary of State for Health what assessment he has made of the likely impact of recent changes in the NHS capital expenditure budget. [150828]

Mr. Bradshaw: The capital expenditure budget for 2007-08 has been adjusted to reflect latest forecasts of expenditure for the year from the national health service. Therefore, recent changes in the NHS capital expenditure budget have had no impact on the NHS capital expenditure programme.

NHS: Surveys

Mr. Lansley: To ask the Secretary of State for Health if he will publish the full results of the IpsosMORI survey referred to on page 24 of the Chief Executive of the NHS's Annual Report 2006-07, published on 21 June 2007, showing that less than 60 per cent. of the public are satisfied with the NHS overall. [147567]

Ann Keen: The full results of the IpsosMORI survey, referred to on page 24 of the Chief Executive of the NHS's Annual Report 2006-07, were published in June and have been placed in the Library and are available at:

www.dh.gov.uk/en/Publicationsandstatistics/Freedomofinformationpublicationschemefeedback/Classesofinformation/Communicationsresearch/index.htm

NHS: Translation Services

David T.C. Davies: To ask the Secretary of State for Health whether he or his predecessor has received any requests from primary care trusts for extra funding to cover patient translation costs. [148260]

Mr. Ivan Lewis: The Department has no record of any specific requests from primary care trusts to the current or former Secretary of State for extra funding to cover patient translation costs.

Osteoporosis: Blackpool

Mr. Marsden: To ask the Secretary of State for Health (1) what proportion of people living in Blackpool who have been diagnosed with osteoporosis are *(a)* under and *(b)* over the age of 70 years; [149773]

(2) what estimate he has made of the number of people in *(a)* Blackpool and *(b)* the North West who have been diagnosed with osteoporosis and are (i) unable to take and (ii) do not respond to the drug alendronate; [149774]

(3) what estimate he has made of the number of people in *(a)* Blackpool and *(b)* the North West who have been diagnosed with osteoporosis; [149775]

(4) what estimate he has made of the proportion of people in *(a)* Blackpool and *(b)* the North West who have osteoporosis and receive no drug treatment for the disease. [149776]

Ann Keen: This information is not collected centrally.

Osteoporosis: Preventive Medicine

Mr. Truswell: To ask the Secretary of State for Health (1) what range of treatments is available to post-menopausal women at risk of osteoporotic fracture; [150007]

(2) what percentage of people diagnosed with osteoporosis are prescribed treatments to help prevent fractures occurring; [150008]

(3) what assessment his Department has made of the National Institute for Health and Clinical Excellence guidance on the use of drugs to prevent osteoporotic fractures in post-menopausal women. [150009]

Ann Keen: We have made no assessment of the range of treatments available to post-menopausal woman at risk from osteoporotic fracture.

Information on the percentage of those diagnosed with osteoporosis prescribed treatments to help prevent fractures occurring is not collected.

We have made no assessment of the draft guidance currently being developed by the National Institute for Health and Clinical Excellence.

Patients: Accidents

David T.C. Davies: To ask the Secretary of State for Health how many patients received injuries as a result of accidents while staying in hospitals in England in the last period for which figures are available. [150402]

Ann Keen: The number of incidents reported to the National Patient Safety Agency's national reporting and learning system (NRLS) classified as patient accidents, resulting in some degree of harm to a patient, in an inpatient setting in either acute, general, community or mental health hospitals in England between 1 April 2006 and 31 March 2007 is 84,240. This information is based on the date the incident was reported to the NRLS rather than on the actual date of occurrence.

Plagiocephaly

Sir Nicholas Winterton: To ask the Secretary of State for Health (1) what assessment he has made of the incidence of plagiocephaly; and what statistical correlation there is between that incidence and numbers of babies placed on their backs to sleep; [149954]

(2) how many cases of plagiocephaly were identified in each of the last 10 years for which figures are available; [149955]

(3) what treatment is available on the NHS for plagiocephaly; how many babies were treated for plagiocephaly in each of the last five years for which figures are available; and if he will make a statement. [149956]

Ann Keen: The Department has made no such assessment. Neither does it collect figures on the numbers of cases of plagiocephaly. However, Great Ormond Street Hospital for Sick Children has estimated that almost half of children develop positional plagiocephaly and that only a very small minority develop it in the womb. The rest develop positional plagiocephaly from spending a lot of time in one position, usually on their backs. Nevertheless, Doctors recommend that babies sleep on their backs in order to reduce the incidence of cot death.

There are several treatments for plagiocephaly available either on the national health service, or through parental intervention. However, since in the overwhelming majority of cases, the condition is self-correcting, many doctors do not deem additional treatment necessary.

Pleural Plaques

Mr. Hepburn: To ask the Secretary of State for Health how many people were treated for pleural plaques in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997. [150559]

Ann Keen: Information on the number of people treated for pleural plaques is not collected.

Pregnant Women: Alcoholic Drinks

Sandra Gidley: To ask the Secretary of State for Health what consideration he is giving to making screening for maternal alcohol consumption via objective techniques such as Tolerance Annoyed Cut down Eye-opener (T-ACE) and Tolerance Worried Eye-opener Amnesia, Kut-down (TWEAK) part of routine antenatal care in the NHS. [150273]

Dawn Primarolo: There are no plans to use these techniques. The National Institute for Health and Clinical Excellence are currently updating their antenatal care guideline and it will include a risk assessment tool. The guideline will include educational aspects of antenatal care, the normal physiological processes taking place, how the women can contribute to her own and the baby's good health and well-being and minimise exposure to risks (for example, diet, exercise, alcohol and drug consumption, sexual activity and smoking cessation).

Primary Care Trusts: Local Government

Mr. Keith Simpson: To ask the Secretary of State for Health (1) what assessment she has made of the likely impact of implementing district unitary authorities on the operation of primary care trusts; [146457]

(2) what assessment she has made of the impact of the bids of local authorities shortlisted for unitary status on health provision in those areas; [146463]

(3) what discussions she had with the Secretary of State for Communities and Local Government on the local authorities seeking unitary status which appeared on the shortlist published by the Department for Communities and Local Government on 27 March 2006. [146475]

Mr. Bradshaw: The decision as to which proposals should proceed to stakeholder consultation reflected the collective decision of Government. All 26 unitary proposals that were received in response to the invitation issued on 26 October 2006 were assessed against the five criteria set out in that invitation. The 16

unitary proposals that have been subject to the stakeholder consultation will now be reassessed against the same five criteria having regard to all the information available including that received in response the consultation. Primary care trusts, along with a range of public bodies, have been able to submit their views as part of the stakeholder consultation.

Mr. Keith Simpson: To ask the Secretary of State for Health what her policy is on co-terminosity of boundaries between primary care trusts and local government structures. [146460]

Mr. Ivan Lewis: We are committed to enabling local authorities and their partners in the national health service to work together to deliver better integrated health and social care services. One of the aims of the reconfiguration programme 'Commissioning a Patient-led NHS', which was published in July 2005, was to improve relationships between healthcare and local authorities by bringing their boundaries closer together. Approximately 70 per cent. of the new primary care trusts (PCTs) are coterminous with the boundaries of local authorities with social services responsibilities. This compares with 44 per cent. of PCTs previously coterminous.

PSSEX1 Expenditure Return

Mr. Stephen O'Brien: To ask the Secretary of State for Health what information is gathered in the PSSEX1 Expenditure Return. [148839]

Mr. Ivan Lewis: The personal social services expenditure return (PSSEX1) is collected by The Information Centre for health and social care, and shows data from local authorities on current expenditure and unit costs on personal social services for adults and children, both nationally and for individual authorities. Expenditure data is presented on a gross and net basis, and is also split between authorities' own provision and provision by others. It is also broken down by client groups:

older people (including those with disabilities);

children and family services (including children with disabilities);

learning disabled adults;

physically disabled adults;

mentally ill adults;

asylum seekers; and

other adult services.

Services are analysed between residential day and domiciliary provision, and the costs of assessment and care management are also identified.

The latest available data are on 2005-06 Expenditure report, which can be accessed at:

www.ic.nhs.uk/statistics-and-data-collections/social-care/adult-social-care-information/personal-social-services-expenditure-and-unit-costs-england:-2005-06

Smoking

Sandra Gidley: To ask the Secretary of State for Health how much was spent on *(a)* prevention and *(b)* campaigns designed to assist people to stop smoking in each year since 1997. [150958]

Dawn Primarolo: The available information is set out in the tables.

The Department does not centrally collect information on additional local spend on tobacco control including campaigns.

Campaign advertising expenditure for smoking

	£ million
1997-98	—
1998-99	—
1999-2000	6.18
2000-01	8.97

2002-03	7.87
2003-04	17.34
2004-05	24.00
2005-06	22.70
2006-07	13.5

Financial allocations to the NHS for stop smoking services

	£ million
1997-98	—
1998-99	—
1999-2000	[1]10
2000-01	[2]20
2001-02	[2, 3]23
2002-03	[3]23
2003-04	41
2004-05	46
2005-06	51
2006-07	56
2007-08	56

HAZ = Health action zones.

[1] HAZs only.

[2] 10 million HAZs, 10 million HAs.

[3] £3 million in 2001-02 and 2002-03 for smoking in pregnancy initiative.

Smoking: Health Hazards

Sandra Gidley: To ask the Secretary of State for Health how much was spent by his Department on treating smoking related diseases in each year since 1997, broken down by health authority. [150959]

Dawn Primarolo: Data are not collected in the format requested.

In the White Paper "Smoking Kills" a cost of up to £1.7 billion per year was identified as the cost to the national health service of treating smoking related diseases. This was based on research published by the Health Education Authority in 1997. These documents are available in the Library.

Smoking: Public Places

Philip Davies: To ask the Secretary of State for Health what assessment his Department has made of the likely effect of the smoking ban on *(a)* the number of pubs operating in England and *(b)* employment in that sector. [150754]

Dawn Primarolo: An assessment of the costs and benefits of smokefree legislation is set out in the final Regulatory Impact Assessment (RIA) that was published by the Department in December 2006.

Partial RIAs were included within the "Consultation on the Smokefree Elements of the Health Improvement and Protection Bill" published in 2005 and in "Smoke-free Premises and Vehicles: Consultation on proposed regulations to be made under powers in the Health Bill" published in 2006. Both consultation exercises invited stakeholders to provide comments on the partial RIA as well as the proposals in the consultation. Responses from stakeholders assisted the Department in producing the final RIA.

All documents referred to are available in the Library.

Solvents: Misuse

Tim Loughton: To ask the Secretary of State for Health what assessment he has made of the number of children who have *(a)* died and *(b)* been brain damaged by volatile substance abuse in each of the last 10 years. [150335]

Dawn Primarolo: The number of young people under the age of 18 who have died from volatile substance misuse in the last 10 years is shown in the following table.

	Number of children
1996	35
1997	29
1998	26
1999	25
2000	17
2001	25
2002	24
2003	10
2004	13
2005	8
Total	212

Source:
Statistics from St. George's University of London

Information regarding young people who have been brain damaged by volatile substance abuse in the last 10 years is not collected centrally.

Tim Loughton: To ask the Secretary of State for Health who sits on the stakeholder group set up under the Volatile Substance Abuse Framework. [150375]

Dawn Primarolo: A stakeholder group made up of key players in the field, was set up in December 2004 to develop and implement the National Framework for Volatile Substance Abuse. The group was revised in December 2006 to include key departments across Government. It is chaired by the Department.

Prior to the Government machinery of changes, stakeholders included:

Department of Health
Home Office
Department for Education and Skills
Office of the Deputy Prime Minister
Department of Trade and Industry
National Treatment Agency
Local Government Office—Young People Lead
Plus the Welsh Assembly and Scottish Executive
ReSolv
Solv-It
National Children's Bureau
Drug Education Forum
St. George's University of London
British Aerosols Manufacturing Association
Trading Standards
SC Johnson
Swan
Ronson
LP Gas Association
Shell UK

Statins

Bob Spink: To ask the Secretary of State for Health what assessment he has made of the side-effects of statins; and if he will make a statement on the use of statins under the new National Institute for Health and Clinical Excellence guidelines. [149639]

Ann Keen: The Medicines and Healthcare product Regulatory Agency (MHRA), with independent advice from the Commission on Human Medicines, assesses the balance of risks and benefits of all medicines at the time of initial licensing and throughout their use in clinical practice.

The MHRA reviews new safety information as it emerges, including reports of suspected adverse drug reactions from healthcare professionals and the public, published scientific literature (including clinical trials and epidemiological studies), and periodic safety update reports from pharmaceutical companies. When necessary, the MHRA takes regulatory action to minimise risks and communicate new advice on the safe use of medicines to healthcare professionals and the public.

Statins are generally well tolerated but, as with all medicines, side effects can occur. Serious side-effects, however, are rare. The recognised side effects of licensed medicines are listed in their product information, provided for healthcare professionals. All new medicines are now also required to have patient information leaflets which provide information on how to use the medicine, and on their side effects.

In January 2006 the National Institute for Health and Clinical Excellence published a health technology appraisal of statins which found that they were both clinically and costs effective for prescription to people at a 20 per cent. ten-year risk of developing cardiovascular disease, as well as for patients with established disease. That finding has been repeated in their draft guideline on lipid modification, published for consultation on 27 June.

Bob Spink: To ask the Secretary of State for Health what research he has commissioned into the long-term effects of the use of statins by people over the age of 50. [149728]

Ann Keen: None, although the Department has through both its policy research and health technology assessment programmes funded research concerned with the use and value of statins in health care.

The Medical Research Council (MRC) is one of the main agencies through which the Government support medical and clinical research. The MRC has funded studies that show cholesterol-lowering statin treatment reduces the risk of heart attacks and strokes by at least one-third as well as lowering the need for arterial surgery, angioplasty and amputations.

In particular the Heart Protection Study (HPS), funded by the MRC and the British Heart Foundation, is the biggest world-wide study of cholesterol lowering therapy. The HPS which reported in July 2002 found significant benefits of statins to people aged over 70 as well as for younger people.

Bob Spink: To ask the Secretary of State for Health what assessment he has made of the effectiveness of statins in lengthening quality assured life years. [149730]

Ann Keen: Quality adjusted life years (QALYS) and life-years gained are both measures used by researchers, including the National Institute for Health and Clinical Excellence (NICE), in evaluating the benefits of treatments and interventions.

In January 2006 the National Institute for Health and Clinical Excellence published a health technology appraisal of statins which found that they were both clinically and cost-effective for prescription to people at a 20 per cent. 10-year risk of developing cardiovascular disease, as well as for patients with established disease. That finding has been repeated in their draft guideline on lipid modification, published for consultation on 27 June.

West Sussex Primary Care Trust: Public Appointments

Mr. Gibb: To ask the Secretary of State for Health when he expects a director of public patient involvement to be appointed to the West Sussex primary care trust. [149411]

Ann Keen: The appointment of a director of public patient involvement is a matter for West Sussex primary care trust.

Written Answers to Questions

Monday 23 July 2007

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Coastal Areas: Finance

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs if he will bring forward proposals for financial support for coastal clear-up in Cornwall. [152040]

Jonathan Shaw: My Department is not looking to provide financial support for coastal clear-up in Cornwall or elsewhere. However, local authorities, and others, who have incurred costs as a result of pollution from a ship-source pollution incident may recover their costs by lodging a claim in court in accordance with the domestic law which applies the Limitation of Liability for Maritime Claims Convention, 1966 (LLMC).

Where marine pollution incidents do occur which pose a particular risk to the marine environment, my Department will consider whether to undertake and fund appropriate monitoring so as to be able to assess the impact of the incident.

Domestic Wastes: Recycling

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to encourage all councils to provide residents with a second bin for recyclables. [150785]

Joan Ruddock *[holding answer 19 July 2007]:* The Government encourages all local authorities to work closely with householders to increase levels of recycling and composting and my Department has set challenging national and local targets to drive improvements forward.

The Household Waste Recycling Act 2003 requires all waste collection authorities (subject to certain exemptions) to provide a separate kerbside collection service for at least two recyclable materials by 2010. Each authority is free to choose its own method of collection and the priority, degree of effort and resources required to meet its target and the requirements of the Act.

Recent statistics show that approximately 88 per cent. of households are now served by a kerbside collection for two or more recyclates.

Fisheries: Cornwall

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what the volume of fish caught by Cornish fishing crews was between *(a)* 2001 and 2006, *(b)* 1996 and 2000 and *(c)* 1990 and 1995. [152032]

Jonathan Shaw: Fisheries Departments in the UK do not record information to allow landings made by Cornish fishing crews to be separately identified. Information is available on landings by UK fishing vessels whose home ports are within Cornwall, excluding those vessels administered from port offices in Cornwall but owned by foreign interests. The following table shows details of these landings in tonnes live weight of all fish species. The table also includes data for grouped landings by small vessels of 10 metre and under length into ports in Cornwall, on the assumption that these vessels will be primarily Cornish vessels.

Year range	*Weight (tonnes live weight)*
(a) 2001 to 2006	82,670
(b) 1996 to 2000	89,695
(c) 1990 to 1995	71,397

Fisheries: Industrial Accidents

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* deaths and *(b)* injuries were sustained by Cornish fishermen at work between (i) 1977 and 1986, (ii) 1987 and 1996 and (iii) 1997 and 2006. [152031]

Jim Fitzpatrick: I have been asked to reply.

The Marine Accident Investigation Branch hold details of deaths and injuries aboard UK registered fishing vessels from 1991. Crew deaths and injuries aboard or boarding fishing vessels registered in a Cornish port are:

	Deaths	*Injuries*
1991-96	14	27
1997-2006	15	42

Fisheries: Protection

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 6 June 2007, *Official Report*, column 553W, on fisheries: protection, what estimate he has made of the number of hours per week the Royal Navy Fishery Protection service will be operational in UK seas in each of the five years of the new agreement beginning on 1 April 2008; and if he will make a statement. [150566]

Jonathan Shaw: For 2008-09 it is proposed that the Royal Navy Fisheries Protection Squadron will provide the Marine and Fisheries Agency with 700 patrol days. The precise number of patrol days for subsequent years will be subject to detailed operational requirements. It is proposed that there will be flexibility to increase or reduce the requirement by 50 days a year subject to notice being given by the Marine and Fisheries Agency in September the year before. The operational details of future tasking is not determined on an hourly basis. The Marine and Fisheries Agency agrees task profiling with the RN and MOD and at present is considering an option of operating on a 21-day patrol cycle for each vessel.

The maximum patrol days available during the period of the agreement will be 750 a year and the minimum will be 600.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what average number of hours per *(a)* week and *(b)* month the Royal Navy Fishery Protection Service was operational in UK seas was in each year since 1997; and if he will make a statement. [150568]

Jonathan Shaw: The RN/MFA Agreement refers to patrol days dedicated to the task of fishery protection. This has been accounted for on a monthly basis as set out in the following table.

Month	*1997-98*	*1998-99*	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
January	—	79	91	67	71	65	56	50	58	46	51
February	—	96	91	64	74	89	82	82	79	65	77
March	—	74	91	86	85	82	87	72	83	82	70
April	98	93	82	77	84	87	78	79	78	66	66
May	92	91	80	86	93	86	85	72	80	79	79
June	107	94	97	85	86	89	95	83	88	81	66
July	111	112	102	97	79	92	86	86	82	92	—
August	113	102	73	74	78	76	86	80	89	80	—
September	100	103	99	102	78	77	94	83	87	80	—
October	98	92	88	80	82	85	69	63	67	73	—
November	101	91	78	85	83	76	65	69	50	54	—
December	61	54	63	61	58	49	46	45	41	42	—

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answers of 6 June 2007, *Official Report*, column 553W, on when he expects to conclude discussions with the Marine and Fisheries Agency, the Royal Navy and the Ministry of Defence on the detail of the agreement for the Royal Navy Fishery Protection Service from 1 April 2008; and if he will make a statement. [150571]

Jonathan Shaw: The Marine and Fisheries Agency, the Royal Navy and Ministry of Defence are currently considering the detailed provisions of the new agreement. I expect these discussions to be concluded in good time for the new arrangements to operate from 1 April 2008.

Fisheries: Quotas

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 19 June 2007, *Official Report*, column 1663W, on fisheries quotas, for what reasons no *(a)* scientific assessments have been carried out and *(b)* safe biological limits have been defined for certain fish stocks; and if he will make a statement. [150565]

Jonathan Shaw: Fish stocks in EU waters are assessed by the International Council for the Exploration of the Sea (ICES). Scientists from the UK's fisheries laboratories contribute to the undertaking of these assessments. The ability to perform scientific assessments is directly linked to the quality of fisheries data. In some fisheries, for example, the quality of catch and effort data are deemed to be insufficient or the available catch data appear to conflict with data from research surveys. In such cases, as a consequence, quantitative scientific assessments are not available.

In the absence of a quantitative scientific assessment, it is not possible to define a stock's status with respect to safe biological limits.

Flood Control: Telephone Services

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs where urgent calls dealt with by the Worthing emergency control centre of the Environment Agency will be routed following the closure of that office. [149296]

Mr. Woolas *[holding answer 12 July 2007]:* The Environment Agency has two principal offices in Worthing, a regional office in Guildbourne House and an area office in Saxon House.

The southern regional emergency control centre is based in Guildbourne House, where staff receive and route calls associated with incidents and emergencies.

These calls will continue to be dealt with there until at least June 2008, at which point a decision will be taken as to whether to transfer them to the well established National Customer Contact Centre in Sheffield.

However, if a local incident occurs these will continue to be managed by local centres within the affected region.

Heating: Carbon Emissions

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the potential effect on carbon dioxide emissions of commercial and residential buildings adopting heat pump technology in place of gas boilers. [150214]

Joan Ruddock: The Federation of Environmental Trade Associations (FETA) has confirmed that 200,000 heat pumps were sold in the commercial sector in 2006, of which around 90 per cent. were air source.

Estimates for the costs and savings in the housing market have been made for the Carbon Emissions Reduction Target (CERT). Ground source heat pumps

are not currently a cost-effective substitute for gas condensing boilers. In a typical three bed-roomed semi-detached house, carbon dioxide (CO_2) savings are around 0.46 tonnes CO_2 each year.

However, if they replace conventional electric heating, they are cost-effective, with annual CO_2 savings of around 4.3 tonnes CO_2 each year. If they replace solid fuel stoves, they are not cost effective but save around 5.7 tonnes CO_2 each year. By comparison, cavity wall insulation would save 0.575 tonnes CO_2 each year in a gas condensing boiler-heated house.

If 10 million homes with gas condensing boilers had them replaced with ground source heat pumps, national savings would be around 4.6 $MtCO_2$ (million tonnes of CO_2) each year. This compares with the impact of all the policies in the Climate Change Programme by 2010, of 17.6 $MtCO_2$ each year.

Lighting: Nuisance

John Penrose: To ask the Secretary of State for Environment, Food and Rural Affairs if he will issue quantitative guidance on the levels of obtrusive light which constitute a statutory nuisance. [151273]

Jonathan Shaw: There is no set level at which an activity becomes a statutory nuisance. It is for local authorities to consider what is a statutory nuisance on a case-by-case basis, taking into account a number of factors, including the character of the locality, the frequency of the occurrence, its duration, reasonableness of use, and the sensitivity of the complainant.

Marine Bill

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects to publish a draft Marine Bill. [151044]

Jonathan Shaw: I refer the hon. Member to the answer given on 19 July 2007, *Official Report*, column 505W.

Recycling

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what his policy is on the promotion of single-stream recycling by local authorities; [149721]

(2) what research he has commissioned into the take-up of recycling facilities, including door-step collection, where single-stream recycling is employed. [149722]

Joan Ruddock: Decisions on the best way to collect waste and recyclables are rightly a matter for local authorities, not central government. Decisions to collect recyclables for sorting at kerbside or in a single-stream (co-mingled) for sorting at a Materials Recovery Facility (MRF) will depend on a range of factors, including the local housing stock, the range of materials being collected and the sorting and re-processing facilities available.

No research has been commissioned by my Department on the take-up of recycling facilities where co-mingled recyclable collection is employed. Assessments on the uptake of local recycling facilities would normally be undertaken by individual local councils.

WRAP will be undertaking a study into the cost and performance of different kerbside collection schemes later in the year and they are planning for that study to investigate several of these issues.

Household waste recycling/composting has doubled in the last four years to reach 27 per cent. in 2005-06, which exceeds the Waste Strategy 2000 target of 25 per cent. This excellent progress is thanks to the commitment and hard work of the vast majority of local authorities, ever more enthusiastic householders and carefully targeted Government support.

SCOTLAND

Departments: Flint Bishop Solicitors

Mr. Hoban: To ask the Secretary of State for Scotland whether *(a)* his Department and *(b)* its agencies have made payments to Flint Bishop solicitors since 1997. [151373]

David Cairns: The Scotland Office was established on 1 July 1999 and, since that date, has made no payments to Flint Bishop.

Departments: Ministerial Red Boxes

John Hemming: To ask the Secretary of State for Scotland how many ministerial red boxes the Department bought in each of the last five years; what the cost of each was; who the suppliers were; and what tendering process was used in selecting them. [150292]

David Cairns: Details of boxes purchased by the Scotland Office are set out in the table.

	Number of boxes	*Cost (£)*
2002	2	1,110
2003	1	510
2004	0	0
2005	0	0
2006	0	0

Ministerial red boxes are supplied via Banner Business Supplies.

Departments: Visits Abroad

Mrs. May: To ask the Secretary of State for Scotland how many overseas visits were made by *(a)* officials and *(b)* Ministers within his responsibility, and at what cost, in each year since 1997. [151647]

David Cairns: The Scotland Office was established on 1 July 1999. Since 1999, the Government have published on an annual basis, a list of all overseas visits by Cabinet Ministers costing in excess of £500, as well as the total cost of all ministerial travel overseas. Copies of the lists are available in the Libraries of the House. Information for 2006-07 is currently being compiled and will be published before the summer recess. All travel is undertaken in accordance with the "Civil Service Management Code" and the "Ministerial Code". The Office does not maintain a central record of overseas trips by officials.

Official Engagements

Dr. Fox: To ask the Secretary of State for Scotland what his official engagements were for the week of 9 to 15 July. [151508]

David Cairns: During the week of 9 to 15 July, the Secretary of State for Scotland had five engagements, primarily meetings with Ministers and officials, and participated in Scottish Questions in the House of Commons.

WALES

Departments: Agencies

Mrs. May: To ask the Secretary of State for Wales how much his Department paid in fees to recruitment agencies for *(a)* temporary and *(b)* permanent staff in each year since 1997. [151665]

Mr. Hain: The Wales Office paid the following sums to agencies to supply temporary staff:

	Amount (£)
2004-05	99,199
2005-06	91,914
2006-07	19,808

We have not used agencies to recruit permanent staff.

Corresponding information for previous years could be provided only at disproportionate cost.

National Assembly for Wales: Powers

Mr. Paul Murphy: To ask the Secretary of State for Wales what representations he has received on holding a referendum on extending the powers of the National Assembly for Wales. [150226]

Mr. Hain: None. There is widespread debate as to the timing of a future referendum and I am aware of the different views that exist. The Government of Wales Act 2006 allows for the National Assembly for Wales to obtain enhanced legislative competence by way of Orders in Council. I am focussed on ensuring that these new procedures are a success.

Revenue and Customs: Location

Mr. Paul Murphy: To ask the Secretary of State for Wales what recent discussions he has had with the Chancellor of the Exchequer on the likely effect on economic development of proposals to move HM Revenue and Customs jobs away from Objective 1 areas. [150218]

Mr. Hain: My hon. Friend the Parliamentary Under-Secretary of State and I continue to take a keen interest in the HMRC Change Programme and its possible impact on Objective 1 areas. My hon. Friend's predecessor also met Treasury Ministers to discuss this issue.

The HMRC Change Programme is a genuine consultation; no official decision has yet been made on any Welsh HMRC office.

Welsh Language: Legislation

Mr. Paul Murphy: To ask the Secretary of State for Wales whether he plans to bring forward new legislation on the Welsh language; and if he will make a statement. [150227]

Mr. Hain: The Government have no plans to bring forward legislation at Westminster on the Welsh Language. The Welsh Assembly Government announced on 6 June this year, their intention to seek enhanced legislative competence in the area of Welsh Language by way of an Order in Council. If approved by the National Assembly for Wales and Parliament this would enable the administration in Cardiff to bring forward an Assembly Measure on the Welsh Language.

DUCHY OF LANCASTER

East Midlands

22. **Sir Peter Soulsby:** To ask the Minister for the Olympics what support is available for local authorities in the east midlands to develop their strategies and policies for London 2012. [151116]

Tessa Jowell: Local authorities have a key role to play in ensuring we maximise the legacy of hosting the Olympic Games and Paralympic Games in 2012.

In the east midlands, as in other regions, local authorities are represented on the regional groups for 2012 and supported by the regional coordinator. Additionally, the Local Government Association is supporting local authorities across England to ensure they realise the opportunities that the 2012 Games bring.

All this work is being driven forward nationally by the London 2012 Nations and Regions group, chaired by Charles Allen.

Departmental Reorganisation

24. **Mrs. Dorries:** To ask the Minister for the Olympics how she expects the recent departmental reorganisation to affect the delivery of London 2012; and if she will make a statement. [151119]

26. **Mr. David Jones:** To ask the Minister for the Olympics how she expects the recent departmental reorganisation to affect the delivery of London 2012. [151121]

Tessa Jowell: I refer the hon. Members to the answer I gave today to the hon. Member for North-West Cambridgeshire (Mr. Vara).

Legacy Plans

John Barrett: To ask the Minister for the Olympics what legacy plans have been put in place for the venues to be used for the London 2012 Olympic and Paralympic Games. [151120]

Tessa Jowell: A key consideration in the design of Olympic venues is the provision of a lasting and sustainable legacy.

A legacy business plan is being developed for each venue to ensure economic viability.

Venues outside of the Olympic Park will revert back to their original use, although some with enhanced facilities, such as the Weymouth and Portland Sailing Academy, which will benefit from an expanded slipway and increased number of moorings.

Cabinet Office

Norman Baker: To ask the Chancellor of the Duchy of Lancaster if he will make a statement on the work programme of the Better Cabinet Office programme. [151261]

Edward Miliband: The Better Cabinet Office programme has been superseded by a new change programme aimed at addressing the findings of the Department's Capability Review and the results of staff surveys. The capability review implementation plan, which was published 13 December 2006, covers actions up to the end of 2008. Copies of the Capability Review and the implementation plan are available in the Library for the reference of Members.

Charities

Mr. Geoffrey Robinson: To ask the Chancellor of the Duchy of Lancaster what recent assessment he has made of the adequacy of the Government's policy on funding for the third sector. [149512]

Phil Hope: Recent surveys indicate that Government funding for the voluntary sector has doubled between 1996-97 (£5 billion) and 2004-05 (£10 billion). Initiatives like Futurebuilders, Capacitybuilders, the Invest to Save budget, expansion of Gift Aid (which currently provides £838 million to the third sector) and the new youth volunteering charity, v, have helped build the sector's ability to make a real difference in local communities. In November 2006, the Government launched an action plan for social enterprise which committed £18 million to supporting social enterprises achieve their social, environmental and economic goals and proposals on their access to finance.

The Comprehensive Spending Review 2007 review into "The future role of the third sector in social and economic regeneration" is to be published later this month and followed a one-year consultation with the sector. The interim report of the review, published in December 2006, recognised that there was more to do to improve the relationship between Government and the third sector which included ensuring that there is stable and longer-term funding. The interim report announced a £30 million community assets fund and in addition an £80 million grants scheme for small community organisation was announced in Budget 2007.

The Government have also launched a consultation on considering measures to improve the take-up of Gift Aid on 23 June 2007.

Departments: Direct mail

Norman Baker: To ask the Chancellor of the Duchy of Lancaster how many contracts for direct mail his Department has entered into since November 2005; and what the value was of each. [151268]

Edward Miliband: The information requested can be provided only at disproportionate cost.

Departments: Manpower

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster how many civil servants have been transferred from HM Treasury to *(a)* the Cabinet Office and *(b)* No. 10 Downing street since 27 June 2007. [148866]

Angela Eagle: I have been asked to reply.

Since 27 June, three civil servants have transferred from HM Treasury to the Cabinet Office and three to No. 10 Downing street.

Departments: Ministerial Red Boxes

John Hemming: To ask the Minister for the Olympics how many ministerial red boxes her Department bought in each of the last five years; what the cost of each was; who the suppliers were; and what tendering process was used in selecting them. [150419]

Tessa Jowell: I refer the hon. Member to the answer given to him by my right hon. Friend the Chancellor of the Duchy of Lancaster on 17 July 2007, *Official Report*, column 239W.

Departments: Task Forces

Norman Baker: To ask the Chancellor of the Duchy of Lancaster which task forces were *(a)* established and *(b)* abolished by Government departments since the last general election. [151264]

Edward Miliband: Information on department's task forces in existence on 31 March 2006 is contained in "Public Bodies 2006". This publication also lists those task forces that were wound up during 2005-06. "Public Bodies 2006" is available in the Libraries of the House.

Information for 2006-07 is in the process of being published by departments alongside the publication of departmental reports. A summary of this information will be published by the Cabinet Office after publication by departments.

Departments: Theft

Norman Baker: To ask the Chancellor of the Duchy of Lancaster whether items in his Department worth more than £100 have gone missing since May 2005. [151369]

Edward Miliband: Four items with a value of more than £100 have gone missing from this Department since May 2005.

Departments: Visits Abroad

Mrs. May: To ask the Chancellor of the Duchy of Lancaster how many overseas visits were made by *(a)* officials and *(b)* Ministers within his responsibility, and at what cost, in each year since 1997. [151653]

Edward Miliband: I refer the right hon. Member to the answer given on 21 June 2007, *Official Report*, columns 2048-49W, by my predecessor the right hon. Member for North-West Durham (Hilary Armstrong) to the hon. Member for Hertford and Stortford (Mr. Prisk). Information relating to Ministers overseas travel for 2006-07 will be published shortly.

Departments: Written Questions

Norman Baker: To ask the Chancellor of the Duchy of Lancaster what the role of special advisers is in producing answers to written parliamentary questions; and if he will make a statement. [151271]

Edward Miliband: Special advisers carry out their duties in accordance with the requirements of the "Code of Conduct for Special Advisers".

Lord Birt

Norman Baker: To ask the Chancellor of the Duchy of Lancaster who occupies the office previously occupied by Lord Birt. [151416]

Edward Miliband: The room is currently occupied by staff of the Prime Minister's Office.

Ministers: Official Residences

Norman Baker: To ask the Chancellor of the Duchy of Lancaster for which official residential properties used by Ministers the council tax liability was met *(a)* by the Minister or Ministers occupying the property and *(b)* their Department in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08. [151440]

Edward Miliband: I refer the hon. Member to the answers given by the former Prime Minister to the hon. Members for Hemel Hempstead (Mike Penning) and Meriden (Mrs. Spelman) on 2 December 2005, *Official Report*, column 816W, and to the hon. Member for North-East Hertfordshire (Mr. Heald) on 15 January 2007, *Official Report*, column 789W.

Official Residences: Theft

Mr. Gordon Prentice: To ask the Chancellor of the Duchy of Lancaster whether any *(a)* works of art and *(b)* (i) valuable furniture, (ii) porcelain and (iii) other items have been reported missing from (A) 10 Downing street, (B) 11 Downing street and (C) Admiralty House since 1977. [152013]

Edward Miliband: The information requested can be provided only at disproportionate cost.

Olympic Games: Greater London

Mark Pritchard: To ask the Minister for the Olympics what discussions she has had with the National Sports Academy at Lilleshall, Shropshire on the prospect of it being used as an Olympic regional training facility for the 2012 Olympics. [150728]

Tessa Jowell: The first class sporting facilities at the National Sports Centre at Lilleshall will prove attractive to visiting teams. I have had no discussions with the National Sports Centre on this subject; however I look forward to visiting the centre shortly.

London 2012 has received over 700 applications from facilities across the UK that wish to feature in their Pre-Games Training Camp Guide, and is now carrying out an assessment and selection process.

Facilities will be notified of their inclusion in the Guide at the beginning of 2008—which will be distributed to National Olympic Committees (NOCs) and National Paralympic Committees (NPCs) in August 2008.

CHURCH COMMISSIONERS

Carbon Footprint

31. **Norman Baker:** To ask the hon. Member for Middlesbrough, representing the Church Commissioners what steps the Commissioners are taking to reduce their carbon footprint. [151092]

Sir Stuart Bell: The national Church institutions are committed to the Church's Shrinking the Footprint campaign and are working hard to understand current energy consumption, reduce energy use in absolute terms and promote environmental best practice.

Footprint is a substantial and ambitious campaign which flows from the universal support for such action given by General Synod and the personal commitment of the Archbishop of Canterbury as evidenced by the recent award made to him by the Parliamentary Renewable and Sustainable Energy Group.

ELECTORAL COMMISSION COMMITTEE

Electoral Commission: Annual Reports

Dr. Whitehead: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission when the annual report of the Electoral Commission for 2006-07 is to be published by the Commission. [151194]

Peter Viggers: The Electoral Commission's Annual Report for 2006-07 was laid before Parliament on Thursday 19 July and has been published by the Commission as House of Commons Paper No. 851. Copies of the report are available to Members from the Vote Office.

HOUSE OF COMMONS COMMISSION

Carter Ruck and Partners

Norman Baker: To ask the hon. Member for North Devon, representing the House of Commons Commission how much the Commission paid in legal bills to Carter Ruck and Partners in each year since 1997. [151437]

Nick Harvey: The House of Commons Commission has paid £2,820 (inclusive of VAT) to Carter Ruck and Partners since 1 April 2003. Details of legal bills paid are not available for earlier years.

Legal Costs

Norman Baker: To ask the hon. Member for North Devon, representing the House of Commons Commission how much was spent on legal *(a)* advice and *(b)* actions on behalf of (i) the Commission as a whole and (ii) individual members of the Commission in each year since 1997. [151438]

Nick Harvey: It is not possible to disaggregate legal costs specifically for the Commission or individual members of it. However, the total legal costs paid since 2003-04 have been:

	£
2003-04	111,813
2004-05	165,350
2005-06	130,987
2006-07	789,802
2007-08 (first quarter)	54,416

Figures are not available prior to 2003-04.

The information provided is based on costs paid to the Treasury Solicitors who act on behalf of the House of Commons and disbursements incurred during claims. Types of cases and advice received include: Personal injury claims made against the House, employment tribunals, FOI appeals, advice on MPs allowances and expenses, Parliamentary Privilege Bill, judicial review proceedings, Legal Services Bill and air passenger duty.

The figures for 2004-05 to 2006-07 also include legal and project fees paid in order to resolve claims on Portcullis House and Normal Shaw South. These alone amounted to £96,154 (2004-05), £79,159 (2005-06) and £596,586 (2006-07).

Proof of Identity

Malcolm Bruce: To ask the hon. Member for North Devon, representing the House of Commons Commission if he will take steps to replace the visitor stickers issued to visitors to the parliamentary estate with another form of temporary pass. [151877]

Nick Harvey: A new access control system for the parliamentary estate will be introduced in the autumn. Part of this project is to introduce an improved visitor management system, which is currently in development. The intention is to provide a paper visitor pass clipped to the person instead of the stickers used at present.

INTERNATIONAL DEVELOPMENT

Afghanistan: Diarrhoea

Mr. Lancaster: To ask the Secretary of State for International Development what steps his Department is taking to help tackle the recent outbreak of diarrhoea in Afghanistan. [150321]

Mr. Malik: The provincial reconstruction team (PRT) in Lashkar Gah has not been contacted by either the provincial health director or any other local medical providers alerting them to a recent diarrhoea outbreak in Helmand. Civil and military (CIMIC) teams who are actively engaged in health programmes in Lashkar Gah are also not aware of any outbreak. If more specific information can be provided, the PRT will make further inquiries.

The most effective way to deliver any aid to Afghanistan is to provide funding directly to the Afghan government. This ensures that the money is spent on what Afghans need and provides the best chance for building effective state institutions that will last. DFID provides around 80 per cent. of its aid in this way. Although we do not provide assistance specifically to the health sector, we are the largest donor to the Government's recurrent budget which, for example pays salaries of health workers.

In July 2006, DFID announced a £30 million programme of support to the Helmand Agriculture and Rural Development Programme (HARDP). This programme increases economic opportunities for the rural poor of Helmand through a series of programmes operated by the government of Afghanistan. These programmes will provide essential assistance to the people of Helmand, including better water and sanitation.

Mr. Lancaster: To ask the Secretary of State for International Development what steps his Department is taking to increase the availability of medical supplies to combat the recent diarrhoea outbreak in Helmand, Afghanistan following security threats in the region. [150322]

Mr. Malik: The provincial reconstruction team (PRT) in Lashkar Gah has not been contacted by either the provincial health director or any other local medical providers alerting them to a recent diarrhoea outbreak in Helmand. Civil and military (CIMIC) teams who are actively engaged in health programmes in Lashkar Gah are also not aware of any outbreak. If more specific information can be provided, the PRT will make further inquiries.

DFID continues to help people have improved access to clean water and sanitation. In July 2006, DFID announced a £30 million programme of support to the Helmand Agriculture and Rural Development Programme (HARDP). This programme increases economic opportunities for the rural poor of Helmand through a series of programmes operated by the government of Afghanistan. These programmes will provide essential assistance to the people of Helmand, including better water and sanitation.

Africa: International Assistance

James Duddridge: To ask the Secretary of State for International Development what the nature is of his Department's relationship with the Africa Progress Panel. [149301]

Mr. Thomas: The Africa Progress Panel's objective is to maintain the momentum for delivery of high level commitments to Africa's development to which DFID is committed. It has an important part to play in holding donors and African countries alike to account for the promises made for Africa in the G8 summits and elsewhere.

While DFID provides funds to the Africa Progress Panel, it is operationally independent. DFID is providing £1 million over three years (March 2007 to December 2010) to support a Secretariat that serves the panel, and cover the expenses of panel members. It is expected that the Africa Progress Panel will also be funded by others.

Departments: Postal Services

Mr. Jenkins: To ask the Secretary of State for International Development what volume of correspondence his Department sent *(a)* by Royal Mail and *(b)* by other commercial delivery services in each of the last five years; and what the reasons were for the use of other commercial delivery services. [150456]

Mr. Malik: The following table shows the volume of mail sent by DFID using Royal Mail and other commercial carriers in the last five years. Other commercial carriers have been used on the grounds of urgency, value for money and security. The vast majority of the mail by commercial carrier is in respect of a point-to-point contracted service between our two UK offices.

	2002-03	*2003-04*	*2004-05*	*2005-06*	*2006-07*
Royal Mail	255,698	246,340	216,831	203,763	170,219
Commercial carriers	199,123	134,129	118,583	105,800	93,386

Overseas Aid

Mr. Jim Cunningham: To ask the Secretary of State for International Development what programmes his Department runs in *(a)* the Democratic Republic of Congo, *(b)* Tunisia and *(c)* Thailand. [148778]

Mr. Malik *[holding answer 12 July 2007]:* We expect to provide £70 million through our programme in the Democratic Republic of Congo (DRC) in 2007-08, which is aimed at three broad objectives:

(a) saving lives and meeting humanitarian needs;

(b) supporting democratisation and reform of the army, police and justice systems, to consolidate peace and stability in DRC; and

(c) expanding access to basic services and stimulating broad based economic growth through more equitable use of natural resources.

DFID itself does not run programmes in DRC. Our programmes are implemented by local and international non-governmental organisations and multilateral agencies. Last year 1 per cent. of our funding also went through the government of DRC, and in future we would expect to provide more through government systems if these can be proven to be effective.

DFID does not provide direct development assistance to Tunisia or Thailand which are middle-income countries. However, we provide significant support to countries in north Africa and the middle east through multilateral channels. In particular we will contribute a £1.5 billion share of the EC's European Neighbourhood and Partnership Instrument's (ENPI) £8.3 billion support from 2007 to 2013, which will include aid to Tunisia. DFID also provides funding to the Asian Development Bank, the World Bank and the European Commission, which have programmes in Thailand.

TREASURY

Departments: Manpower

Dr. Cable: To ask the Chancellor of the Exchequer (1) what consideration is given to an individual's tax status by his Department and its executive agencies when offering *(a)* employment and *(b)* a consultancy contract; and if he will make a statement; [150520]

(2) how many individuals claiming non-domicile tax status in the UK were born in the UK; and if he will make a statement; [150521]

(3) what estimate he has made of the number of people living in the UK who are eligible for non-domicile tax status; and if he will make a statement; [150522]

(4) how many individuals *(a)* successfully and *(b)* unsuccessfully applied for non-domicile tax status in each of the last 10 years for which information is available; and if he will make a statement. [150523]

Jane Kennedy: All individuals taking up employment or consultancy contracts with the Treasury Departments undergo background and security checks. However, we regard the tax status of individuals as being a private matter between themselves and the appropriate Tax Office of HM Revenue and Customs.

We do not currently hold information on how many individuals claiming non-domicile tax status in the UK were born in the UK; how many individuals are eligible for non-domicile tax status in the UK; or, how many individuals have successfully applied for non-domicile tax status in each of the last 10 years.

Departments: Postal Services

Mr. Jenkins: To ask the Chancellor of the Exchequer what volume of correspondence his Department sent *(a)* by Royal Mail and *(b)* by other commercial delivery services in each of the last five years; and what the reasons were for the use of other commercial delivery services. [150458]

Angela Eagle: The Treasury uses Royal Mail for its postal services, and other companies for parcel and courier deliveries.

	Number of items sent by Royal Mail	Number of parcel/courier deliveries
2003	99,845	101
2004	88,868	113
2005	59,104	410
2006	56,982	184

Information for 2002 is not available.

Excise Duties: Motor Vehicles

David Taylor: To ask the Chancellor of the Exchequer what mechanism is in place to levy road tax on vehicles used in the UK but registered in other EU member states. [151248]

Angela Eagle: European Union (EU) vehicles (excluding commercial vehicles) circulating temporarily within or between member states are allowed under EC Directive 83/182 to be used on public roads without the need to register or license in the host country. These provisions limit visits to six months in any 12-month period and the vehicle must be compliant with the registration and licensing requirements of its home country. Any vehicle used in this country for more than six months in any 12 must be registered and licensed with the Driver and Vehicle Licensing Agency (DVLA). In addition, where the keeper of the vehicle becomes resident in this country, the vehicle must immediately be registered and licensed here.

The Department for Transport is currently undertaking a feasibility study to explore ways of delivering better targeted enforcement on foreign heavy goods vehicles.

First Solution Money Transfer: Insolvency

Ms Keeble: To ask the Chancellor of the Exchequer what assessment he has made of the impact on UK residents of the collapse of First Solution Money Transfer Ltd. [149505]

Kitty Ussher: In light of the recent financial difficulties experienced by the money transfer company, First Solution Money Transfer Ltd., the Companies Investigation Branch of the Insolvency Service, within the Department for Business Enterprise and Regulatory Reform, is carrying out an examination of the facts of the case. Further information is set out in my written ministerial statement, which was issued to the House on 11 July.

The Government welcome the announcement by the Sir William Beveridge Foundation on 16 July that an independent help line and support fund will be set up to provide advice and assistance to members of the Bangladeshi community affected. I will be making a personal donation to the fund, and would encourage others who are able to do so.

HM Revenue and Customs: Location

Mr. Burns: To ask the Chancellor of the Exchequer what progress has been made on the inquiry into the future of HM Revenue and Customs (HMRC) offices; whether there are plans to relocate the Chelmsford HMRC offices; and if he will make a statement. [150881]

Jane Kennedy: For the purposes of HMRC's regional review programme the two Chelmsford offices have been grouped in a cluster with Witham. No firm date has yet been set for the review of these offices but it will take place between this summer and early next year. Whatever the outcome of the review the inquiry centres housed in two of the offices will be retained in their current localities.

Home Information Packs

Alistair Burt: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the written submissions by HM Revenue and Customs to the Office of the Deputy Prime Minister and the Department for Communities and Local Government on home information packs. [150665]

Angela Eagle: Representations on the Home Condition Report register were made by the Valuation Office Agency, an executive agency of HM Revenue and Customs. The information was provided in confidence and disclosure would therefore be inappropriate.

Inheritance Tax

Alistair Burt: To ask the Chancellor of the Exchequer what estimate he has made of the change in *(a)* inheritance tax revenue and *(b)* stamp duty revenue on property due to fiscal drag since 1997. [150668]

Jane Kennedy: No such estimates have been made. Budget 2007 announced that the inheritance tax nil rate band would rise by more than forecast inflation to £312,000 in 2008-09 and to £325,000 in 2009-10. The initial stamp duty threshold was doubled from £60,000 to £120,000 in Budget 2005 and further raised to £125,000 in Budget 2006.

Taxation: Environment Protection

Bob Spink: To ask the Chancellor of the Exchequer which taxes are levied for reasons which include an aspect of meeting an environmental policy objective; and if he will make a statement. [150809]

Angela Eagle: Those taxes (and tax reliefs) that contribute towards meeting the Government's environmental policy objectives are set out in Table 7.2 of the Budget document.

I would also like to refer the hon. Member to the answer I gave him on 18 July 2007, *Official Report*, column 443W.

Unemployment: Young People

Mr. Gauke: To ask the Chancellor of the Exchequer how many economically inactive 18 to 24-year-olds there were in *(a)* 2006 and *(b)* 1997, broken down by (i) region and (ii) gender. [152030]

Angela Eagle: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 23 July 2007:

As National Statistician, I have been asked to reply to your Parliamentary Question about the levels of economically inactive people aged 18 to 24 by (i) region and (ii) gender in (a) 2006 and (b) 1997. (152030)

The attached table shows the numbers of economically inactive people aged 18 to 24 by region and gender for 1997 and 2006. The estimates cover the three month period ending December each year, and are not seasonally adjusted.

Each month the ONS publishes the latest estimates of economic inactivity by age in the Labour Market Statistics Regional First Release available in Table 10 in the attached link. http://www.statistics.gov.uk/onlineproducts/lms_regional.asp. This data is consistent with the data given in the table overleaf.

Estimates are taken from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

Economically inactive[1] people aged 18 to 24 by region and gender 1997 and 2006, United Kingdom, not seasonally adjusted

Thousand

Three months ending December each year	*All persons*	*Men*	*Women*
1997			
United Kingdom[2]	1,191	479	712
North East	60	22	38
North West	140	58	82
Yorkshire and the Humber	113	45	69
East Midlands	68	24	44
West Midlands	111	47	64
East	82	32	50
London	198	91	107
South East	144	59	86
South West	78	29	49
Wales	72	29	43
Scotland	94	37	57
Northern Ireland	34	10	24
2006			
United Kingdom[2]	1,430	608	822
North East	68	29	38
North West	170	77	94
Yorkshire and the Humber	118	41	77
East Midlands	95	43	52
West Midlands	139	59	80
East	95	38	56
London	253	110	143
South East	155	65	90
South West	106	50	56
Wales	65	28	37
Scotland	113	46	66
Northern Ireland	59	24	35

[1] Economically inactive people are those who are neither in employment or unemployed.

[2] Due to slight methodological differences between the way the national and regional LFS estimates have been adjusted for the 2001 Census there may be small differences between the UK totals and the sum of the regional components. The estimates in this table have been weighted to the 2005 mid-year population estimates.

Source: ONS Labour Force Survey (ONS)

VAT: Registration

Mr. Truswell: To ask the Chancellor of the Exchequer how many VAT registration applications were received in each of the last five years; what the average time taken to process such applications was in each year; what the target time is to process such applications; and how many and what proportion of applications were processed within that target time in the latest period for which figures are available. [144728]

Jane Kennedy: VAT registration is the entry point to Missing Trader Intra-Community and other fraud—which reduced VAT receipts by an estimated £2 billion to £3 billion (2005-06). It is right that HM Revenue and Customs take steps to stop those who would abuse the system.

However, HMRC recognise that there has been a problem in recent months with delays in processing the VAT registration applications of genuine businesses. HMRC has put in place plans to improve the processing of registrations and already have additional staff in post and IT investment under way.

	Number of applications received	*Average processing time (95 per cent.)*[1]	*Target time*	*How many/what proportion processed within target*
2002-03	257,139	[2]n/a	15 working days	248,910 (96.8 per cent.)
2003-04	299,043	n/a	15 working days	278,409 (93.1 per cent.)
2004-05	269,515	n/a	15 working days	262,238 (97.3 per cent.)
2005-06	284,804	n/a	15 working days	267,431 (93.9 per cent.)
2006-07	285,176	29 days	14 calendar days	77,568 (27.2 per cent.)

[1] Average measurement made on basis of 95 per cent. of low risk cases

[2] Revenue and Customs did not record the average processing times for years 2002-03 to 2005-06.

Welfare Tax Credits

Sandra Gidley: To ask the Chancellor of the Exchequer how many people were *(a)* overpaid and *(b)* underpaid tax credits in each year since their inception in (i) Hampshire and (ii) England. [151040]

Jane Kennedy: Estimates of the numbers of families with tax credits awards, including information on overpayments and underpayments by county and country, based on final family circumstances and incomes, for the years 2003-04, 2004-05 and 2005-06 are available in the HMRC publication "Child and Working Tax Credits. Finalised Awards. Supplement on Payments. Geographical Analysis", for each relevant year. These publications are available on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm

Welfare Tax Credits: Hereford

Mr. Keetch: To ask the Chancellor of the Exchequer how much was overpaid to recipients of tax credits in Hereford constituency in the last 12 months for which figures are available; and if he will make a statement. [150756]

Jane Kennedy: I refer the hon. Member to the answer given on 3 July 2007, *Official Report*, column 957W to the hon. Member for Peterborough (Mr. Jackson).

Welfare Tax Credits: Overpayments

Mr. Waterson: To ask the Chancellor of the Exchequer how much was overpaid to recipients of tax credits in *(a)* Eastbourne and *(b)* East Sussex in the last 12 months. [151433]

Jane Kennedy: Estimates of the numbers of families with tax credits awards, including information on overpayments and underpayments by constituency and county, based on final family circumstances and incomes, for 2005-06, is available in the HMRC publication "Child and Working Tax Credits Statistics. Finalised Annual Awards 2005-06. Supplements on Payments in 2005-06. Geographical Analysis", which is available on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm

Estimates for 2006-07 tax credit awards are due to be published in May 2008 when family circumstances and incomes have been finalised.

Welfare Tax Credits: York

Hugh Bayley: To ask the Chancellor of the Exchequer how many people in City of York constituency receive *(a)* child and *(b)* working tax credit; and what the average value of tax credits to those households was in the latest period for which figures are available. [151615]

Jane Kennedy: The average number of households benefiting from either child or working tax credits in 2005-06, or receiving the equivalent support through out-of-work benefits, by constituency, is shown in "Child and Working Tax Credit Statistics. Finalised Annual Awards. 2005-06. Geographical Analyses". This publication also includes average annual entitlement for 2005-06 and is available on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm

The publication referred to shows that there were around 9.5 thousand families benefiting from child and working tax credits in the City Of York constituency in 2005-06. It also shows that the average annual entitlement to these families was £3,086.

TRANSPORT

A27: East Sussex

Mr. Waterson: To ask the Secretary of State for Transport how many accidents there were on the A27 between Lewes and Polegate in each of the last 10 years. [151429]

Jim Fitzpatrick: The following table gives the Highways Agency's record of road traffic accidents that have occurred on the A27 between Lewes and Polegate in each year since 1997.

	Total number of accidents
1997	78
1998	58
1999	56
2000	63
2001	60
2002	59
2003	59
2004	61
2005	57
2006	61

The accident rate for this road between Lewes and Polegate is 24.04 Personal Injury Accidents (PIA) per 100 million vehicle kilometres. The national average figure for this type of road is 24 PIAs per 100 million vehicle kilometres.

Aviation: Noise

Sir Paul Beresford: To ask the Secretary of State for Transport (1) what assessment her Department has made of the environmental impact and noise pollution caused by private aircraft; [152005]

(2) what plans she has to introduce measures to reduce noise and noise pollution caused by private aircraft. [152006]

Jim Fitzpatrick: The Department is not aware of any assessment of the environmental impact and noise pollution caused by private aircraft. Propeller driven aircraft weighing under 9,000 kg—the main "general aviation" aircraft—have to comply with an internationally agreed noise certification standard, unless they were on the UK register prior to 1980. This standard was tightened for aircraft certificated after 1999. We expect aerodromes to set and to enforce appropriate rules to minimise noise nuisance, reflecting local circumstances. Guidance on recommended measures to help reduce the noise related nuisance from light aircraft is available on the Civil Aviation Authority's website (www.caa.co.uk).

Biofuels

Mr. Syms: To ask the Secretary of State for Transport how much biofuel the UK produced in 2005-06; and what the estimated level of biofuel production is for 2007-08. [151573]

Jim Fitzpatrick: Total UK biofuel sales for the financial year 2005-06 amounted to some 139 million litres, and provisional figures suggest that total UK biofuel sales for the financial year 2006-07 amounted to some 327 million litres. Further details are available via:

http://www.uktradeinfo.com

Some of these biofuels were produced in the UK from a variety of feedstocks, and some were imported. The Department does not hold precise information on the breakdown between domestically produced and imported biofuels, nor does the Department have a precise forecast for UK biofuel production in 2007-08.

The Renewable Transport Fuel Obligation, due to be introduced in April 2008, will significantly increase the

demand for biofuels in the UK. A number of major new UK biofuel production facilities are due to come on stream over the next few years to help meet this additional demand. UK biofuel producers will, however, continue to need to compete with overseas producers to supply the UK market.

Departments: Early Retirement

Mr. Jenkins: To ask the Secretary of State for Transport how many of her staff took early retirement in the last five years; at what cost; what grades of staff took early retirement; and what percentage of each grade took early retirement. [148810]

Jim Fitzpatrick: The following table represents the number of staff exits for the Department for Transport and its agencies broken down by grade and the total cost to the Department for the last five complete financial years. Information relating to percentage of staff who took early retirement broken down by grade can be given only at disproportionate cost.

Grade	*Number/£*
AA	57
AO	239
EO	126
HEO	113
SEO	139
Grade 7	54
Grade 6	8
SCS Payband 1	16
SCS Payband 2	2
SCS Payband 3	1
Not known	52
Total	807
Total cost (£)	31,271,609

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for Transport what legislative provisions introduced by her Department since 1997 have not yet been brought into force. [149560]

Jim Fitzpatrick: I have placed in the Libraries of the House a list of the provisions in Acts for which the Department for Transport has lead responsibility, which have received Royal Assent since 1 January 1997 and which remain to be brought into force.

Mr. Clegg: To ask the Secretary of State for Transport what legislative provisions introduced by her Department's predecessors since 1997 have been repealed. [149589]

Jim Fitzpatrick: I have placed in the Libraries of the House a list of the provisions in Acts for which the Department for Transport has lead responsibility, which have received Royal Assent since 1 January 1997 and which have been repealed.

Mr. Clegg: To ask the Secretary of State for Transport what criminal offences have been created by primary legislation sponsored by her Department since October 2006. [149599]

Jim Fitzpatrick: I have placed in the Library of the House a list of the criminal offences created by primary legislation which received Royal Assent on or after 1 October 2006 and for which the Department for Transport has lead responsibility. The list includes *(a)* provisions that reform or modernise existing offences and *(b)* provisions that confer power to create new offences under secondary legislation.

Departments: Official Visits

David Simpson: To ask the Secretary of State for Transport how much was spent on overnight accommodation by civil servants within her Department's areas of responsibilities in the last 12 months. [149056]

Jim Fitzpatrick: The Department for Transport (central) and four of its agencies spent a combined total of £3,102,287 on overnight accommodation and associated subsistence in the last 12 months. The remaining three agencies do not record overnight accommodation separately from other business travel expenses, and the information could be provided only at disproportionate cost.

Departments: Racial Harassment

David Simpson: To ask the Secretary of State for Transport how many complaints of racial abuse relating to staff for which her Department is responsible have been *(a)* investigated and *(b)* upheld in the last 12 months. [149242]

Jim Fitzpatrick: The Department for Transport (C) and its agencies have had three complaints in the past 12 months, all of which are still under investigation.

Departments: Visits Abroad

Mrs. May: To ask the Secretary of State for Transport how many overseas visits were made by *(a)* officials and *(b)* Ministers within her responsibility, and at what cost, in each year since 1997. [151652]

Jim Fitzpatrick: This information can be provided only at disproportionate cost. Since 1999, the Government have published on an annual basis, a list of all overseas visits by Cabinet Ministers costing in excess of £500, as well as the total cost of all ministerial travel overseas. Copies of the lists are available in the Libraries of the House. Information for 2006-07 is currently being compiled and will be published before the summer recess. All travel is undertaken in accordance with the "Civil Service Management Code" and the "Ministerial Code".

Driver and Vehicle Licensing Agency: Shrewsbury

Lembit Öpik: To ask the Secretary of State for Transport pursuant to the answer of 5 June 2007, *Official Report*, columns 394-5W, on the Driver and Vehicle Licensing Agency: Shrewsbury, how long the Shrewsbury Office of the Driver and Vehicle Licensing Agency took to process the vehicle registration application in respect of *(a)* DX07OVF (Chassis No. ending 330934) and *(b)* CU07XDZ (Chassis No. ending 177735); and if she will make a statement. [150620]

Jim Fitzpatrick: While every effort is made to adhere to published service times, fluctuations in workloads can occasionally result in a failure to meet targets. Application forms to register CU07XDZ and DX07OVF were received at the Shrewsbury office of the Driver and Vehicle Licensing Agency (DVLA) on 3 July 2007, but were not processed until 10 July 2007. Registration Certificates for both vehicles were issued on 13 July 2007.

Driving Under Influence: Accidents

Susan Kramer: To ask the Secretary of State for Transport how many *(a)* car drivers and *(b)* passengers died in drink driving-related accidents in (i) December and (ii) January in each year since 2003, broken down by local authority area. [151905]

Jim Fitzpatrick: The information requested is not available by local authority area.

Susan Kramer: To ask the Secretary of State for Transport how many road traffic accidents were caused by drink-driving in each year since 2003, broken down by local authority area. [151906]

Jim Fitzpatrick: The estimated number of personal injury road accidents involving at least one driver or rider over the legal alcohol limit can be found in table 2a of the 'Drinking and Driving' article in 'Road Casualties Great Britain', available at

http://www.dft.gov.uk/pgr/statistics/datatablespublications/accidents/casualtiesgbar/roadcasualtiesgreatbritain2005

Estimates are calculated on a national basis. Local authority estimates are not available.

Driving: Licensing

Mr. Goodwill: To ask the Secretary of State for Transport what assessment she has made of the implications of the arrangements by which a Chinese driving licence can be exchanged for a British licence, via a Hong Kong licence, for road safety in England; how many licences have been issued in exchange for Hong Kong licences; and if she will make a statement. [151475]

Jim Fitzpatrick: The arrangements which allow the exchange of Hong Kong licences for British licences are governed by legislation.

This requires the exchange of a Hong Kong licence even if it was issued as a result of a test passed elsewhere. There is no discretion but officials are considering the effect of the legislation.

Approximately 4,500 Hong Kong licences are exchanged for a British licence each year. Figures are not available for how many were issued as a result of a test passed in Hong Kong as this information is not required for the exchange process.

First Great Western

Peter Luff: To ask the Secretary of State for Transport if she will make it her policy to terminate the franchise held by First Great Western; and if she will make a statement. [151279]

Mr. Tom Harris: First Great Western is not currently in breach of either the punctuality or reliability benchmarks specified in the Franchise Agreement.

Garage and Petrol Stations: East Sussex

Mr. Waterson: To ask the Secretary of State for Transport how many filling stations in *(a)* Eastbourne and *(b)* East Sussex are (i) able to accommodate and (ii) offer alternative fuel types for cars. [151431]

Jim Fitzpatrick: This information is not held centrally by Government. However information on geographical locations is available on the Energy Saving Trust website at:

www.est.org.uk

The Government provide funds to the Energy Saving Trust to run their Infrastructure grant programme. The grants assist the building of refuelling stations for alternative fuels (natural gas/biogas, hydrogen and bio-ethanol).

M3: Road Traffic

Mrs. Maria Miller: To ask the Secretary of State for Transport what the volume of traffic *(a)* on the M3 motorway between junctions 6 and 7 and *(b)* entering and leaving the motorway at those junctions was in each year since 1993. [151999]

Mr. Tom Harris: Traffic data on the volume of traffic on the M3 motorway between junctions 6 and 7 are only available from 1995 to 2006. Information on traffic entering and leaving the motorway at these junctions is only available for 2005 and 2006. The information is shown in the following tables.

Volume of traffic M3 junctions 6-7—annual average daily traffic flows in vehicles/day

	Junction 6-7 eastbound	*Junction 7-6 westbound*
1995	38,222	37,946
1996	39,387	39,303
1997	41,177	40,956
1998	42,331	42,770
1999	43,138	43,418
2000	[1]n/a	43,995
2001	44,938	45,122
2002	45,108	43,948
2003	45,074	45,298
2004	45,060	44,217
2005	44,952	43,744
2006	45,930	46,616

[1] Not available as the automatic traffic counting sites were out of operation.

Metronet

Mr. Prisk: To ask the Secretary of State for Transport what estimate her Department has made of the public financial liabilities which may arise from Metronet going into administration. [151818]

Ms Rosie Winterton: Transport for London and London Underground are in discussions with PPP administrators to identify the best long term financial outcome resulting from the administration of Metronet's activities. It would be premature to comment on any liabilities while those discussions are still in their early stages.

Motor Vehicles: Registration

David Taylor: To ask the Secretary of State for Transport what requirements for *(a)* MOT and *(b)* vehicle insurance are placed on owners of vehicles used in the UK but registered in other EU member states. [151247]

Jim Fitzpatrick: The information is as follows.

(a) All vehicles have to comply with the minimum standards of roadworthiness irrespective of the country in which the vehicle is registered. If they do not their drivers and operators can be prosecuted and fined. The vehicle can also be prohibited from moving until necessary repairs have been carried out.

(b) European law requires all vehicles registered in any member state to have insurance for the use of that vehicle in any other member state. That insurance must cover the driver's liability for any personal injury or property damage caused to any third party.

Motor Vehicles: Testing

Mr. Goodwill: To ask the Secretary of State for Transport what proportion of vehicles other than HGVs and LGVs failed the MOT test for reasons limited to exhaust emissions in the last 12 months. [151466]

Jim Fitzpatrick: The Vehicle and Operator Services Agency (VOSA) is responsible for the operation of the MOT Scheme. Statistics regarding the number of vehicles that failed the MOT test on the grounds of emissions standards are published annually in VOSA's Effectiveness Report. This is available on line at www.vosa.gov.uk and in the House of Commons Library, Business and Transport Section.

Kerry McCarthy: To ask the Secretary of State for Transport when she plans to consult on changes to the UK's MOT testing regime. [151472]

Jim Fitzpatrick: We will be consulting shortly.

Motorways: Repairs and Maintenance

Mrs. Maria Miller: To ask the Secretary of State for Transport what the average cost per mile is to resurface a motorway with *(a)* noise reducing materials and *(b)* non-noise reducing materials; and if she will make a statement. [151820]

Mr. Tom Harris: Motorways are only resurfaced with noise reducing materials. The average cost per mile for resurfacing a motorway, with three lanes in each direction plus a hard shoulder with a noise reducing surface, is approximately £180,000. This excludes the costs for traffic management, contract preliminaries, any road strengthening and other consequential works.

Official Cars: Ministers

Norman Baker: To ask the Secretary of State for Transport how many Ministers have opted not to take up the use of a ministerial car since May 2005. [151266]

Jim Fitzpatrick: Since 2005, one Minister has opted not to take-up the use of a ministerial car through the Government Car and Despatch Agency.

Railways: EU Action

Mrs. Dunwoody: To ask the Secretary of State for Transport what timescale will be covered by the UK's proposed derogation from the EU proposal 2004/0048 (COD) for a European Parliament and Council directive on the certification of train drivers operating locomotives and trains on the Community's rail network. [151452]

Mr. Tom Harris: The renewable derogation allowing member states to disapply on a time-limited basis provisions in the proposed directive on the certification of train drivers operating locomotives and trains is for a period of 10 years.

The UK is minded to invoke this derogation. However, details of its implementation, especially with regard to any future renewal of the derogation, will be subject to consultation with the industry and users once the final text has been agreed both by the European Council and the European Parliament.

Railways: Scotland

Mr. Carmichael: To ask the Secretary of State for Transport what discussions she has had with Ministers in the Scottish Executive on the development of high speed rail links between Scotland and London. [150492]

Mr. Tom Harris: The Secretary of State has not met the Scottish Executive to discuss a high-speed rail link between Scotland and London.

Department for Transport Ministers and officials regularly consult the Scottish Executive on reserved railway matters which are of strategic importance to Scotland, including issues concerning cross-border capacity and franchising.

The Government will set out their position on high-speed rail links in the HLOS Rail White Paper later in the week.

Railways: Vandalism

Susan Kramer: To ask the Secretary of State for Transport (1) how many *(a)* incidents of and *(b)* prosecutions there were for (i) vandalism, (ii) informed vandalism and (iii) trespass on rail lines in each year since 2001-02; [151863]

(2) how many incidences of arson on the railways there were in each year since 2000, broken down by *(a)* train operating company and *(b)* line. [151865]

Mr. Tom Harris: This information is not held by the Department for Transport but by the British Transport Police who can be contacted at: British Transport Police, 25 Camden Road, London NW1 9LN, E-mail: general.enquiries@btp.pnn.police.uk.

Roads: Accidents

Kerry McCarthy: To ask the Secretary of State for Transport in what percentage of road accidents resulting in the death or serious injury in each of the last five years vehicle defects were found to be a contributory factor. [152437]

Jim Fitzpatrick: The proportion of reported personal injury road accidents which had "vehicle defects" as a contributory factor was 2.6 per cent. in 2005 and 2.3 per cent in 2006.

2005 is the earliest year for which this information is available.

Severn Barrage

Kelvin Hopkins: To ask the Secretary of State for Transport if she will make an assessment of the potential of the proposed Severn Barrage to provide a new rail link from South Wales to London and the South East; and if she will make a statement. [151920]

Mr. Tom Harris: This would be primarily a matter for the promoters of the proposed Severn Barrage to consider, but the Department would be pleased to co-operate in any such assessment.

Transport: Private Finance Initiatives

Mr. Rob Wilson: To ask the Secretary of State for Transport how many transport projects were funded by private finance initiatives in each of the last 10 years, broken down by local authority. [151463]

Ms Rosie Winterton: The HM Treasury website provides updated details (on a six monthly basis) of awarded PFI projects overseen by the Department for Transport. The project details include the awarding authority, date of financial close, total capital value and the annual unitary charge payment. This information is available at:

http://www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.cfm

Vehicle and Operator Services Agency

Mr. Goodwill: To ask the Secretary of State for Transport how many people are employed by the Vehicle and Operator Services Agency. [151468]

Jim Fitzpatrick: The Vehicle and Operator Services Agency (VOSA) publishes the average number of staff employed (full-time equivalent) in its annual report and accounts. This is available online at www.vosa.gov.uk and in the House of Commons Library, Business and Transport Section.

Kerry McCarthy: To ask the Secretary of State for Transport when she expects the study by Deloitte and Touche into the possible outsourcing of elements of the work of the Vehicle and Operator Services Agency to be presented to the Department for Transport Board. [152441]

Jim Fitzpatrick: An update on progress on the outsourcing feasibility study will be presented to the DfT Board in the autumn.

Vehicle and Operators Services Agency: Property

Mr. Goodwill: To ask the Secretary of State for Transport what her estimate is of the value of the land and buildings used by the Vehicle and Operators Services Agency for its annual HGV and PSV inspections. [151258]

Jim Fitzpatrick: The net book value for existing use of the Vehicle and Operator Services Agency (VOSA) estate used for testing HGV and PSV vehicles was £78.3 million as at end March 2007.

DEFENCE

Aircraft Carriers: Procurement

Dr. Julian Lewis: To ask the Secretary of State for Defence when he expects to be able to make an announcement on the order for the Future Aircraft Carriers; and what the reason is for the time taken to do so. [149880]

Mr. Bob Ainsworth *[holding answer 18 July 2007]:* I refer the hon. Member to the answer I gave on 22 May 2007, *Official Report*, column 1181W, to the hon. Member for Brecon and Radnorshire (Mr. Williams).

Armed Forces: Council Tax

Dr. Murrison: To ask the Secretary of State for Defence pursuant to the answer of 30 April 2007, *Official Report*, column 1456W to the hon. Member for the Forest of Dean, on the armed forces: council tax, what conclusion he has reached on support for the council tax costs in England of service personnel serving overseas; and if he will make a statement. [149659]

Derek Twigg: Work is ongoing to find a resolution to this issue and an announcement will be made in due course.

Armed Forces: Deployment

Mr. MacShane: To ask the Secretary of State for Defence how many military personnel are *(a)* deployed and *(b)* stationed in each country outside the UK. [150020]

Mr. Bob Ainsworth: The approximate number of UK service personnel deployed by operation and location as at 9 July 2007 is shown in the following table:

Operation	*Number*
Total	13,500
Of which:	
Telic	6,800
Of which:	
Iraq	5,500
Other (including 'at sea')	1,300
Herrick	6,200
Of which:	
Afghanistan	6,200
Oculus	240
Of which:	
Kosovo	180
Bosnia	60
UN	320
Of which:	
Cyprus	290
Other[1]	30

[1] Other UN locations have fewer than 10 personnel per country and include Georgia, Nepal, Sudan, Sierra Leone, Democratic Republic of Congo and Liberia.

Note:
Due to rounding methods used, totals may not always equal the sum of the parts.

The strength of UK regular forces posted outside the UK is available in Tri-Service Publication (TSP) 6—Global Location of UK Regular Forces. The most recent publication show the numbers of service personnel at 1 October 2006.

Copies of TSP 6 are available in the Library of the House and are also available at:

www.dasa.mod.uk/natstats/tsp6/tsp6_oct06.pdf.

Due to the introduction of a new joint personnel administration system (JPA), TSP6 RAF location data for 1 April 2006 are provisional and subject to review, and after 1 April 2006 are not currently available.

The Defence Analytical Services Agency is currently validating JPA RAF location data and expect to publish provisional RAF figures for 1 July 2006 and 1 October 2006 by the end of July 2007.

Armed Forces: Homosexuality

Mary Creagh: To ask the Secretary of State for Defence what his policy is on the uniformed participation of members of the armed forces in Gay Pride events. [151943]

Derek Twigg: In accordance with Queen's Regulations, decisions on whether armed forces personnel can attend Gay Pride or any other public events are a matter for the chain of command.

Armed Forces: Housing

Nick Harvey: To ask the Secretary of State for Defence how many armed forces personnel are eligible for the key worker discount; and how many used the discount in each of the last five years. [148346]

Derek Twigg: All armed forces personnel stationed in London, the East and South East of England, with a household income of less than £60,000, are eligible to be considered for the key worker living (KWL) programme. The scheme was only extended to include Service personnel in September 2006, and the first two beneficiaries have moved into their new homes. Other applicants are at various stages in the process.

Armed Forces: Key Worker Living Scheme

Mr. Jenkins: To ask the Secretary of State for Defence how many armed forces personnel are eligible for the key worker discount in Tamworth constituency; and how many have used the discount in the last five years. [150300]

Derek Twigg: None. Only armed forces personnel stationed in London, the East and South East of England with a household income of less than £60,000, are currently eligible to be considered for the Key Worker Living programme. That scheme was extended to include service personnel in September 2006, and the scope for extending similar arrangements to other areas of Great Britain, where there are major military establishments, is being explored with the Department for Communities and Local Government.

Armed Forces: Smoking

Mr. Philip Hammond: To ask the Secretary of State for Defence whether the ban on smoking in enclosed public places applies to military vehicles. [151170]

Derek Twigg: The ban on smoking in enclosed public places applies to all military vehicles and has been in place for sometime.

Army Board: Alcoholic Drinks

Mr. Kevan Jones: To ask the Secretary of State for Defence how much his Department spent on alcohol for entertainment at the homes of the non-ministerial members of the Army Board in the last year, broken down by *(a)* event and *(b)* type of alcohol. [138518]

Derek Twigg: The entertainment expenses claimed by non-ministerial members of the Army Board, as presented on 17 April 2007, *Official Report*, column 535W, and 19 June 2007, *Official Report*, column 1761W, include the costs of alcohol for the official functions in question.

Neither the Assistant Chief of the General Staff nor 2nd Permanent Under-Secretary incurred any expenditure on alcohol for official entertainment.

The Chief of the General Staff and his immediate predecessor claimed costs of approximately £521.33 for alcohol expenses for official entertainment in 2006, broken down as follows:

Date	Event/reason	Amount (£)
7 February	Lunch with Chief of the General Staff, Italy	[1]90.00
15 March	The Friends of the Army Dinner	[1]90.00
21-25 May	The Kermit Roosevelt Lecture Tour	94.47
21 June	Lunch with Chief of the Defence Staff New Zealand	[2]25.00
16-20 July	Visit of Vice Chief of the Army Staff Pakistan	96.26
12 December	Lunch with Chief of the General Staff Sweden	125.60

[1] Estimated costs based on the cost of events of a similar nature.
[2] Estimated cost.

The Adjutant-General claimed £394.83 for the cost of alcohol for official entertainment in 2006. A breakdown is set out in the following table:

Date	Event/reason	Amount (£)
23 January	Visit of Master General of Ordnance	24.45
13 February	Visit of Quarter Master General with Director Army Legal Services and Senior Defence Lecturer, Cranfield	28.54
20 February	Army 3-star officer and senior civilian representatives	21.36
1 March	Visit of Senior Minister of the Catholic Group (Army)	28.00
30 March	Visit of Assistant Chief General Staff	35.34
27 April	Military and civilian staff Headquarters Adjutant General	31.12
8 May	Visit of Deputy Chief of the Defence Staff (Personnel) and senior officers concerned with welfare/personnel issues	23.34
12 June	Visit of CinC Land Command	35.82
23 August	Visit of Judge Advocate General and hosting of Private Secretary to TRH Princes William and Harry	22.70
31 August	Visit of Governor Royal Hospital Chelsea	27.99
12 September	Visit of Assistant Chief of the Defence Staff (Reserves and Cadets) regarding Territorial Army soldiers operational and welfare needs	22.74
4 October	Visit of Chief Constable Wiltshire Constabulary	19.25
17 October	Sir Max Hastings, General Sir Mike Jackson, Sir Ronnie Hempel and senior military personnel	26.62
15 October	Visit of Minister of State for Armed Forces and Member for Air Personnel	20.37
21 November	Visit of Chief Constable Hampshire Constabulary (enhancement of relations and working best practice)	27.19

The General Officer Commanding Northern Ireland claimed £770.63 for the cost of alcohol for official entertainment in 2006. The events were:

Date	Event/reason	Amount (£)
21 January	Unit Cohesiveness event. Civilian and military staff from throughout the Command	57.29
2 February	Entertainment to foster relationships within the wider community	51.45
9 February	Visit by Dir CT&UK Ops, MOD	51.51
13 May	Unit Cohesion event. Civilian and military staff from throughout the Command	20.29
15-18 May	Visit by GOC NI (designate)	4.75
18 May	Entertainment to foster relationships within the wider community	49.02
1 August	Unit cohesiveness event. Civilian and military staff from throughout the Command	16.95
11 September	Entertainment to foster relationships within the wider community	60.39
19 September	Entertainment to foster relationships within the wider community	70.02
17 October	Entertainment to foster relationships within the wider community	69.63
24 October	Entertainment to foster relationships within the wider community	49.91
21 November	Entertainment to foster relationships within the wider community	62.07
23 November	Visit by Deputy Adjutant General	35.48
6 December	Entertainment to foster relationships within the wider community	63.61
19 December	Unit cohesiveness event. Civilian and military staff from throughout the Command	108.26

The Commander in Chief Land Command claimed £1,294.60 for the cost of alcohol for official entertainment in 2006, broken down as follows:

Date	Event/reason	Amount (£)
25 January	Hosting visit by UK dignitaries	152.59
5 March	Hosting visit by UK dignitaries	101.70
6 March	Hosting foreign visitor	26.10
21 March	Unit cohesiveness	136.98
4 April	Hosting visit By UK dignitaries	87.24
18 April	Unit cohesiveness	72.90
18 May	Entertainment to foster relationships with wider community	143.63
23 May	Unit cohesiveness	117.36
10 June	Hosting UK officials	28.39
17 June	Hosting prominent members of the civilian community	195.40
18 July	Hosting visit by overseas dignitaries	44.94
20 July	Hosting visit by overseas dignitaries	89.17
14 November	Visit of Spanish Commander in Chief	98.20

All expenditure on official entertainment is subject to strict departmental rules and compliance with the principles of propriety set out in Government Accounting.

It has not been possible to break down the expenditure on alcohol by type as this information is not held.

AWE Aldermaston: Press

Mr. Dai Davies: To ask the Secretary of State for Defence what the cost to the public purse was of holding the media open day at AWE Aldermaston in June 2007; what plans he has to hold other such open days at atomic weapons establishment sites; and if he will make a statement. [150236]

Mr. Bob Ainsworth: The only identifiable cost of the AWE media open day was £494.40. These costs were for catering and the production of press packs. There will have been other small unquantifiable costs associated with employees' time. The media open day was organised to coincide with an on-site exhibition for employees, contractors and their families. This was in response to the House of Commons Defence Committee's (HCDC) view that there was a case for greater openness regarding the work undertaken at

AWE. The Government response to the HCDC's report 'The Future of the UK's Strategic Nuclear Deterrent: the Manufacturing and Skills Base' (HC 59 dated 19 December 2006) provides further details.

Currently we have no plans to hold another media open day at an AWE site.

Battlefield Artillery Target Engagement System

Nick Harvey: To ask the Secretary of State for Defence what the original estimated cost was of the Battlefield Artillery Target Engagement System when the project was originally undertaken; what the latest estimated total outturn cost is; and if he will make a statement. [149671]

Mr. Bob Ainsworth: The Battlefield Artillery Target Engagement System was brought into service in the early 1980s, and declared out of service in December 2006. Information on the costs of the system is not held centrally and could be provided only at disproportionate cost.

British Merchant Fleet

Dr. Julian Lewis: To ask the Secretary of State for Defence what assessment he has made of the strategic implications of the decline in the number of British Merchant Navy vessels. [149882]

Mr. Bob Ainsworth *[holding answer 18 July 2007]:* No formal assessment has been conducted recently. The MOD's strategic shipping requirements are met initially by the six British flagged and manned roll-on roll-off vessels provided under a private finance initiative.

Additional requirements are met under reciprocal arrangements with allies and from the wider commercial market.

The recent House of Commons Defence Committee enquiry into Strategic Lift, whilst noting the good arrangements for securing additional sealift, recommended that the MOD undertake an analysis of the reducing commercial shipping market. The MOD is currently considering its response to this recommendation.

Mr. Hancock: To ask the Secretary of State for Defence what recent assessment he has made of the ability of *(a)* the Merchant Navy and *(b)* the UK maritime skills base to provide adequate strategic assets to support future operations. [151524]

Mr. Bob Ainsworth: No formal assessment has been conducted recently. The MOD's strategic shipping requirements are met initially by the six British flagged and manned roll-on roll-off vessels provided under a private finance initiative. Additional requirements are met under reciprocal arrangements with allies and from the wider commercial market.

The recent House of Commons Defence Committee inquiry into Strategic Lift, while noting the good arrangements for securing additional sealift, recommended that the MOD undertake an analysis of the reducing commercial shipping market. The MOD is currently considering its response to this recommendation.

Defence Export Services Organisation

Mr. Frank Field: To ask the Secretary of State for Defence if he will make a statement on the future of the Defence Export Services Organisation. [150279]

Mr. Bob Ainsworth: I refer my right hon. Friend to the answer given to the hon. Member for Twickenham (Dr. Cable) on 16 July 2007, *Official Report*, column 13W.

Defence Medical Services: ICT

Dr. Murrison: To ask the Secretary of State for Defence how much the Defence Medical Information Capability Programme has cost to date; and how much he expects it to have cost to establish once fully operational. [149662]

Derek Twigg *[holding answer 16 July 2007]:* The total cost of the Defence Medical Information Capability Programme (DMICP) to date, including the concept and assessment phases of the programme, has been £14.7 million. Full operating capability is expected to be achieved in 2010, by which time £48 million is expected to have been spent.

The total programme costs, over the 10-year lifespan of the system, are expected to be £107 million. All figures are exclusive of VAT.

DMCIP will provide a single integrated health record (including a dental record) for all patients treated by the Defence Medical Services, instantly accessible by all medical personnel who need to treat a patient, a range of improved administrative and patient management tools, and a comprehensive management information system. DMICP will be available from all fixed medical and dental centres in the UK, Germany and certain other permanent bases overseas; a deployed capability will be available on operations from late2008; and from 2010 DMCIP will be linked to NHS Care Records Service.

Departments: BAE Systems

Lynne Jones: To ask the Secretary of State for Defence pursuant to the answer of 5 July 2007, *Official Report*, column 1132W, on Department: BAE Systems, how many of those applicants granted permission to join BAE in *(a)* 2006 and *(b)* 2007 had dealt with (i) the receipt of tenders from BAE and (ii) the award of contracts to BAE, alone or as part of a team, while employed by his Department; which jobs those granted permission to join BAE took up; and what jobs those people had performed while in his Department. [149675]

Des Browne *[holding answer 16 July 2007]:* The number of those granted permission to join BAE Systems in 2006 and 2007 are as follows:

	Granted permission to join BAE Systems	*Who had dealt with receipt of tenders*	*Number Involved with contract awards (alone or as part of a team)*
2006	21	4	4
2007 (to date)	12	4	4

It is not possible to confirm from records where the applicant actually took up the post, but the proposed post in the application, i.e. the last post in MOD, were as follows:

BAE post	*Last MOD post*
UK Customer Relations	Naval Adviser
Procurement Adviser	DG, Trafalgar 200th Anniversary
Senior Software Assurance Engineer	Quality Assurance Representative
Executive Secretary to Tornado Director	PA/Harrier Assistant Director
Sales Support	Regional Director/Central DESO
Team Leader Supply Chain	Tornado IPT
Procurement Manager	AD/DG Log Proc
EVP Market Development	On secondment to BAE
Test Pilot	Equipment Capability
Maintenance Programme Manager	Engineering Manager
Consultant	Supply Engagement Manager
Project Ldr Comms Suite	Senior Equipment Support Manager
Marketing Development and Sales	Procurement Manager
Consultant , defence matters	UK Government agreements with Saudi MOD
Typhoon Information Systems Officer	Typhoon Information Support Officer
Resource Engineer	Managing Technical Demo Programme
Senior rep on RAF Station	OC Depth Support Manager
Head of maintenance	AD Depth Support Tornado
Bid Team	Niteworks Business Co-ordinator
Senior Quality Assurance Engineer	Logistic Sustainability Deployability Audit
ILS Manager	ILS Engineer
Business Manager, Light Munitions	CO Duke of Lancaster Regiment
Cost and Pricing Manager	Project Manager Army Base Repair Organisation
Avionics Implementation Manager	Tornado Project Office
Programme Manager	AD Engineering Policy
Trials and Delivery Manager	OC Comms Services Group
Test Pilot	Test Pilot
Senior Support Project Engineer	Tornado Project Support
Director of International Maintenance and Logistics	DG Logistics DLO
Engineering Support Engineer	Harrier Engineering Authority
Tornado Customer Liaison Manager	Tornado IPT Manager
Export Support for Typhoon	Regional Director for DESO
Flying Training	SO Fast Jet Training

Departments: Buildings

Hugh Bayley: To ask the Secretary of State for Defence what office accommodation standards apply to civilian staff in his Department's buildings. [150284]

Derek Twigg: The scale (including floor space standards) of provision of MOD office accommodation is directed by guidelines within Joint Services Publication (JSP) 315—Services Accommodation Code. Within the JSP, Scale 45 applies to office accommodation for both military and civilian personnel.

A copy of JSP 315 can be found on the Defence Estates internet site at:

http://www.defence-estates.mod.uk/publications/jsp/index.php

Departments: Flint Bishop

Mr. Hoban: To ask the Secretary of State for Defence whether *(a)* his Department and *(b)* its agencies have made payment to Flint Bishop Solicitors since 1997. [151396]

Derek Twigg: The Ministry of Defence has no record of any payments being made to Flint Bishop Solicitors since 1997.

Departments: Legislation

Mr. Clegg: To ask the Secretary of State for Defence what legislative provisions introduced by his Department's predecessors since 1997 have been repealed. [149592]

Derek Twigg: None. The Ministry of Defence has been unchanged since its establishment pursuant to the Defence Transfer of Functions Act 1964, and therefore has had no predecessors since 1997.

Departments: Official Engagements

Dr. Fox: To ask the Secretary of State for Defence what his official engagements were for the week of 9 to 15 July. [151507]

Des Browne: On Monday 9 July I was in London where I had a series of meetings with officials from the Ministry of Defence and the Scotland Office. On Tuesday 10 July I attended Cabinet and answered oral questions for the Scotland Office before travelling to Berlin for a bilateral meeting with the German Defence Minister. I returned to London on Wednesday for further meetings with officials from both my departments. On Thursday 12 July, I attended the 90th anniversary world war one commemorations in Tyne Cot, Belgium, before travelling to Brussels for a meeting with the Secretary General of the Council of the European Union on Friday 13 July. I travelled from Brussels to Paris on 13 July and held a bilateral meeting with the French Defence Minister on Saturday 14 July, before attending the Bastille Day commemorations hosted by President Sarkozy.

Departments: Postal Services

Mr. Jenkins: To ask the Secretary of State for Defence what volume of correspondence his Department sent *(a)* by Royal Mail and *(b)* by other commercial delivery services in each of the last five years; and what the reasons were for the use of other commercial delivery services. [150445]

Derek Twigg: Official mail within the Department is primarily distributed by the internal Defence Mail Service, provided by the British Forces Post Office, while mail for personnel serving overseas is usually distributed by RAF air transport. Most external mail is sent through the Royal Mail Group, or, exceptionally through other approved carriers, who are used on an

ad-hoc basis, usually for urgent requirements. The volume of correspondence is not held centrally and could be provided only at disproportionate cost.

Departments: Publicity

David Simpson: To ask the Secretary of State for Defence (1) what assessment he has made of the cost-effectiveness of advertising commissioned by his Department in the last 12 months; [148517]

(2) what assessment he has made of the cost effectiveness of advertising commissioned by his Department in the last 12 months. [148682]

Derek Twigg: The armed forces employ a wide range of measures to ascertain the effectiveness of their recruitment advertising campaigns. They are then set against advertising expenditure to assess the cost effectiveness of the various media channels and tools used and compared with each other, across-government and with industry averages.

For civilian advertising, delegation of responsibility across the Department has resulted in a variable level of effectiveness and identified that improvements could be made. As part of the Civil Service's People Programme we are moving towards a centralised recruitment service. In addition, an advertising contract via the Central Office of Information has been negotiated which enables a continued presence in the national and diversity media and recruitment and diversity websites but also has the flexibility to allow managers to target post specific advertising more effectively. New adverts began in February 2007 to support a pilot of MOD's new external recruitment process. 'TMP Worldwide' has provided generic adverts that appear in monthly selected publications such as diversity press and national newspapers and three large recruitment and diversity websites. In June, Phase 1 of the recruitment service for Broader Banded grades launched and has been supported by the new adverts and any post specific adverts; the service is planned to be fully delivered by June 2008. It is too early to give results but we anticipate a cost saving plus an increase in effectiveness.

EU Battlegroups

Dr. Fox: To ask the Secretary of State for Defence which British military units formed the EU battle group in 2005; and which units will form the EU battle group in 2008. [151509]

Des Browne: The last UK commitment to form a European Union Battle Group on standby was from January-June 2005. The Joint Rapid Reaction Force covered this commitment. During this period, there was no deployment of an EU Battle Group.

The British military units which will form the EU Battle Group that the United Kingdom will have on standby in the second half of 2008 will again come from our Joint Rapid Reaction Force. A decision is likely to be taken later this year on the preferred unit to form the core of this capability.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Defence when he will reply to the letter of 19 June 2007 (MOD Reference: MC03439/2007) from the hon. Member for West Worcestershire. [150767]

Derek Twigg *[holding answer 19 July 2007]:* I replied to the hon. Member on 19 July 2007.

Military Attaches

Jeremy Corbyn: To ask the Secretary of State for Defence pursuant to the Answer to the hon. Member for Aldershot (Mr. Howarth) of 7 February 2007, *Official Report*, columns 924-6W, on military attaches, what the total cost is of maintaining the attaché/adviser network; and what the value is of the Foreign Office contribution to the cost which is being withdrawn. [150178]

Mr. Bob Ainsworth *[holding answer 18 July 2007]:* The total cost to the MOD of maintaining the attaché/adviser network was £38.7 million for financial year 2006-07.

The FCO are establishing the cost of the Defence Attaché network to them in financial year 2006-07. Exact figures are not yet available, however, it is estimated that the amount is in the region of £10 million.

Military Exercises: Ammunition

Martin Horwood: To ask the Secretary of State for Defence how many military exercises were cancelled due to a lack of blank ammunition in each of the last two years. [150624]

Mr. Bob Ainsworth: In the last two years there are no records of military exercises being cancelled as a result of a lack of blank ammunition. In 2005 some cadet camps experienced a reduced supply, caused by shortages arising from production problems; these were subsequently resolved. Since that time, the Defence General Munitions Integrated Project Team has received no reports of shortages of blank ammunition.

Military Police: Colchester

Bob Russell: To ask the Secretary of State for Defence how many Ministry of Defence police were employed at Colchester Garrison in *(a)* May 1997, *(b)* May 2001 and *(c)* May 2005; and how many are now employed there. [146279]

Derek Twigg: The number of Ministry of Defence police officers employed at Colchester in May 1997, May 2001, May 2005 and June 2007 is as follows:

Date	*Inspector*	*Sergeant*	*Constable*	*Total*
May 1997	1	5	26	32
May 2001	1	5.5	25.5	33
May 2005	1	4.5	14.5	20
June 2007	0	2.5	6.5	9

These figures do not include Criminal Investigation Department Officers who are not part of the MDP complement at Colchester Garrison and not funded by Land Command. They are based in Colchester for administrative convenience and are responsible for investigating crime on defence estates in East Anglia.

Nimrod Aircraft

Mr. Liddell-Grainger: To ask the Secretary of State for Defence what progress has been made on the Nimrod MRA4 project against the original timetable for work; what effect the time taken on the project has had on the future of the Nimrod MRA4 trainer facility in Kinloss; and if he will make a statement. [149571]

Mr. Bob Ainsworth: The current forecast In Service date for Nimrod MRA4 is 2010 against an original expectation of 2003 when the contract was let in 1996. The MRA4 training facility has been developed concurrently with the aircraft; the extended development programme for the aircraft has allowed risk to be removed from the training facility development programme through more extensive testing being conducted on site at RAF Kinloss by BAE Systems, assisted by the MOD.

Mr. Liddell-Grainger: To ask the Secretary of State for Defence what problems have been encountered with *(a)* the software and *(b)* operation of the MRA4 trainer facility at Kinloss; and if he will make a statement. [149572]

Mr. Bob Ainsworth: The Nimrod MRA4 training facility is currently in the design and development phase. It is a sophisticated system which will provide training for aircrew and groundcrew operating one of the most complex weapon systems in the RAF. The recent, extensive, post-commissioning testing has, as intended, identified anomalies in the software which integrates the numerous and complex systems that make up the simulators. These have been addressed and the corrective actions will be consolidated during the planned upgrade of the simulators to the production delivery standard.

Mr. Liddell-Grainger: To ask the Secretary of State for Defence what the lifetime budget is for the MRA4 trainer at Kinloss. [149573]

Mr. Bob Ainsworth: The Nimrod MRA4 training facility does not have a separate budget. The costs of development and production of the facility form part of the prime contract with BAE Systems for the provision of the overall Nimrod MRA4 weapon system. The costs of the operation and maintenance of the training facility will form part of the contract for the future support of the weapon system, which has yet to be negotiated.

Mr. Liddell-Grainger: To ask the Secretary of State for Defence what discussions departmental Ministers have had with BAE Systems on progress on the MRA4 trainer; and when such discussions took place. [149575]

Mr. Bob Ainsworth: There have been no specific discussions between departmental Ministers and BAE Systems over progress on the Nimrod MRA4 training facility.

Mr. Liddell-Grainger: To ask the Secretary of State for Defence how much has been spent from the public purse on the development of the Nimrod MRA4 since his announcement of the decision to procure the aircraft. [149576]

Mr. Bob Ainsworth: Total design and development costs for Nimrod MRA4 to date are some £1.73 billion of which about £215 million has been incurred since the production contract was signed in July 2006.

Mr. Liddell-Grainger: To ask the Secretary of State for Defence what the running costs of the Nimrod MRA4 trainers at Kinloss have been since the project commenced. [149580]

Mr. Bob Ainsworth: The Nimrod MRA4 training facility is currently in the design and development phase, the costs of which form part of the contract with BAE Systems for the provision of the overall Nimrod MRA4 weapon system. Contractual arrangements for operating and maintaining the training system have therefore yet to be negotiated.

Mr. Liddell-Grainger: To ask the Secretary of State for Defence what the length is of the contract with BAE Systems for the Nimrod MRA4 trainer at Kinloss; and what contractual provisions are in place to deal with the circumstances where the system does not work. [149582]

Mr. Bob Ainsworth: The development and production of the Nimrod MRA4 training facility forms part of the prime contract with BAE Systems for the overall Nimrod MRA4 weapon system. The contract requires the training system to replicate the standard of the first production aircraft and it will only be contractually accepted by MOD when it has successfully completed extensive testing to prove that it will function appropriately. The contract contains default provisions which could be implemented if the system did not meet the contractual requirement. Contractual arrangements for the operation and maintenance of the training facility have yet to be negotiated.

Mr. Liddell-Grainger: To ask the Secretary of State for Defence whether he has allocated further funds to the Nimrod MRA4 trainer facility at Kinloss to assist its development and against contingencies. [149583]

Mr. Bob Ainsworth: Development and production of the Nimrod MRA4 training facility forms part of the overall prime contract with BAE Systems for provision of the overall Nimrod MRA4 weapon system and will be funded from the provision made for that contract. No additional funding has been allocated to that contract as a contingency provision for the training system.

Nuclear Weapons: RAF Lakenheath

Dr. Gibson: To ask the Secretary of State for Defence what recent discussions he has had with his US counterpart on reducing the number of US free-fall nuclear bombs stored at RAF Lakenheath. [150225]

Jeremy Corbyn: To ask the Secretary of State for Defence what discussions he has had with his US counterpart in respect of reducing the number of United States free-fall nuclear bombs stored at RAF Lakenheath. [150177]

Mr. Bob Ainsworth *[holding answer 28 July 2007]*: It is not the practice of the Government to make public details of all discussions with foreign Governments as this would, or would be likely to, prejudice international relations.

Shipping: Accidents

Andrew George: To ask the Secretary of State for Defence what discussions he has had with his French counterpart on the recent report of the French judicial investigation into the loss of the Bugaled Breizh off the coast of the Lizard in January 2004. [149477]

Mr. Bob Ainsworth: I refer the hon. Member to the answer I gave on 17 July 2007, *Official Report*, columns 200-01W. Furthermore, no discussions have been held and none have been sought by the French authorities.

HOME DEPARTMENT

Animal Experiments: Licensing

Mr. Hancock: To ask the Secretary of State for the Home Department what the cost to applicants is of a licence to conduct animal experiments under the Animals (Scientific Procedures) Act 1986; how the monies raised from this are spent; what proportion is spent on funding research into non-animal methods; and if she will increase this fee in order to increase financial support for research into non-animal methods. [149948]

Meg Hillier: Under section 8 of the Animals (Scientific Procedures) Act 1986, holders of certificates of designation under section 6 or 7 of the 1986 Act are required to pay such periodical fees as may be prescribed or determined. A composite fee is currently charged, comprising of an annual fee for the certificate of designation and an annual fee for each personal licensee with primary availability at the establishment. No fee is levied with respect to project licences.

The current fees are: certificate of designation, scientific procedures establishment: £252; certificate of designation, breeding and/or supplying establishment: £1,130; personal licence: £226.

The fees are collected in arrears to cover the costs of operating the 1986 Act. These are, primarily, the staff and running costs of the Animals (Scientific Procedures) Inspectorate, the administrative staff running the licensing operation and the Animal Procedures Committee. Fee income is not currently used to provide financial support for research into non-animal methods and we have no plans to increase them for this purpose.

We announced on 21 May 2004, *Official Report*, column 69WS, that the Home Office would transfer its separately-funded budget for research into the reduction, replacement and refinement of animal experimentation (the 3Rs) to the National Centre for Replacement, Refinement and Reduction of Animals in Research (NC3Rs) once pre-existing commitments had been honoured. Accordingly, the Home Office contributed £35,000, £125,000 and £250,000 to the funding of the centre in financial years 2004-05, 2005-06 and 2006-07, respectively.

The National Centre for the Replacement, Refinement and Reduction of Animals in Research is an independent organisation, funded by Government, research councils and industry, reporting to the Minister for Science and Innovation, and provides a United Kingdom focus for the promotion, development and implementation of the 3Rs in animal research and testing. The centre funds high-quality 3Rs research and facilitates the exchange of information and ideas, the identification of knowledge gaps, and the translation of research findings into practice to benefit both animals and science.

Antisocial Behaviour

Sandra Gidley: To ask the Secretary of State for the Home Department how many reported incidents there were of antisocial behaviour in *(a)* Southampton and *(b)* Hampshire in each year since 1997. [151029]

Mr. Coaker: The data are not available in the form requested. Antisocial behaviour (ASB) is not measured by incidents but through a measure of perceptions using the British Crime Survey (BCS). The size of the sample in the British Crime Survey means that we cannot provide reliable data for geographical areas smaller than police force areas. Due to changes in the measure of antisocial behaviour, police force area data comparable to the national figures are only available for 2004-05 to 2006-07, and the national measure of perceptions of ASB only back to 2001-02.

Statistics regarding incidents of antisocial behaviour are not collected centrally in the police recorded crime statistics. It is the substantive result of an action of ASB that will be recorded by the police e.g. criminal damage.

The following table sets out the national BCS figures for the last six years and the comparable figure for Hampshire police force area.

Table 1: Percentage of people perceiving high levels of ASB in their local area

	National (Percentage)	*Hampshire police force area (Percentage)*	*Statistically significantly different (at the 95 per cent. level) from the national average*
2001-02	19	—	—
2002-03	21	—	—
2003-04	16	—	—
2004-05	17	18	No
2005-06	17	13	No
2006-07	18	15	No

Note:
The measure of antisocial behaviour used is based on a scale constructed from seven questions on problems due to noisy neighbours or loud parties, teenagers and young people hanging around, rubbish and litter, vandalism, people using or dealing drugs, people being drunk or rowdy and abandoned cars (see background notes for more details).

Burglary: East Sussex

Mr. Waterson: To ask the Secretary of State for the Home Department how many domestic burglaries there were in *(a)* Eastbourne and *(b)* East Sussex in each of the last 10 years. [151361]

Mr. Coaker: The available information is given in the following tables and relates to the Eastbourne Crime and Disorder Reduction Partnership (CDRP) area and the Sussex police force area as a whole. Data specifically for East Sussex are not available.

Table 1: domestic burglary offences recorded in 1997

	Eastbourne CDRP	Sussex police force area
1997	n/a	10,862

n/a = Not available.

Table 2: domestic burglary offences recorded by the police—1998-99 to 2001-02

	Eastbourne CDRP	Sussex police force area
1998-99	n/a	11,026
1999-2000	n/a	9,596
2000-01	665	8,498
2001-02	667	7,618

n/a Not available.

Notes:

1. The coverage was extended and counting rules revised from 1998-99. Figures from that date are not directly comparable with those for 1997.
2. The data in this table are prior to the introduction of the National Crime Recording Standard. These figures are not directly comparable with those for later years.

Table 3: domestic burglary offences recorded by the police—2002-03 to 2006-07

	Eastbourne CDRP	Sussex police force area
2002-03	667	8,209
2003-04	843	7,920
2004-05	545	6,876
2005-06	431	5,709
2006-07	394	4,556

Note:

The data in this table take account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Departments: Racial Harassment

David Simpson: To ask the Secretary of State for the Home Department how many complaints of racial abuse relating to staff for which her Department is responsible have been *(a)* investigated and *(b)* upheld in the last 12 months. [149251]

Mr. Byrne: During the last 12 months (for the period 1 July 2006 to 30 June 2007) the Home Office, including the Border and Immigration Agency, the Identity and Passport Service and the Criminal Records Bureau, has received nine official complaints of racial discrimination and racial harassment (racial abuse is not a category within the Home Office bullying, harassment and discrimination policy) from staff against their colleagues, all of which were investigated. Fewer than five of the complaints were upheld, and specific information about those individuals is withheld on grounds of confidentiality.

The Border and Immigration Agency also received 50 complaints regarding allegations of racism from customers against its staff, all of which were investigated. Fewer than five of the complaints were upheld, and this information is therefore withheld on grounds of confidentiality.

All employees have a duty to respect the dignity of others at work, be mindful of the effect their behaviour may have on colleagues, and ensure their own conduct does not breach the provisions of the Home Office bullying, harassment and discrimination policy.

Under the policy, line managers are responsible for maintaining a workplace that is free from bullying, harassment and discrimination, confronting unacceptable behaviour and dealing promptly, sensitively and confidently with any issues that come to their attention.

Departments: Wales

Mr. Paul Murphy: To ask the Secretary of State for the Home Department what land in Wales is owned by her Department. [150224]

Mr. Byrne: My Department owns no land in Wales.

Driving Under Influence

Mr. Waterson: To ask the Secretary of State for the Home Department how many drink-driving tests were carried out in *(a)* Eastbourne and *(b)* East Sussex in each of the past five years. [151362]

Mr. Coaker: Data on the number of screening breath tests conducted by the police are available by police force area only. The most recently available figures in respect of Sussex are as follows:

Screening breath tests in Sussex police force area from 2000 to 2004

	2000	2001	2002	2003	2004
Total tests	20,800	21,800	17,300	17,200	15,200

Note:

Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Source:

Breath Tests Statistical Collection, held by the Office for Criminal Justice Reform.

Mr. Anthony Wright: To ask the Secretary of State for the Home Department how she plans to reduce drink driving rates. [151970]

Jim Fitzpatrick: I have been asked to reply.

The Government are committed to reducing drinking and driving through a combination of effective law enforcement, maintenance of a tough penalties regime and continuing investment in high-profile national publicity campaigns.

We have given the police new powers to carry out evidential roadside breath testing, subject to type approval of appropriate equipment. We have also included in the Road Safety Act 2006 a number of further measures designed to deter drink driving and reduce reoffending. These include enabling powers to require serious, including repeat, offenders to retake the driving test at the end of their driving disqualification, improvements to the operation of the drink drive rehabilitation scheme and provision for a statutory alcohol ignition interlock programme.

We have just launched a new £3 million multi-media publicity campaign aimed primarily, though not exclusively, at young, male drivers who are more likely to be involved in drink-related crashes than other driver categories. This is designed to emphasise the very serious consequences of being convicted for drink driving and provides a powerful deterrent message for potential drink drivers.

We have also announced, in the second three-year review of the Road Safety Strategy published in February 2007, that we intend to carry out a consultation on other ways of tackling drink driving, including ways of making police enforcement against drink driving easier. A consultation paper will be published by the end of this year.

Electronic Surveillance

Norman Baker: To ask the Secretary of State for the Home Department what controls exist on the use of equipment outside buildings capable of listening in on conversations inside buildings but which is not covered by the Interception of Communications Act 1985. [151893]

Mr. McNulty: The Interception of Communications Act 1985 was repealed following the full entry into force of the Regulation of Investigatory Powers Act 2000 (RIPA). Part 2 of RIPA provides for the authorisation of covert surveillance, including surveillance carried out in relation to anything taking place in residential premises by means of a surveillance device. Where the device is not present on the premises, directed surveillance may be authorised—unless the device consistently provides information of the same quality and detail as might be expected from a device actually present on the premises, in which case intrusive surveillance should be authorised. Authorisation of both intrusive and directed surveillance is subject to independent oversight by the Office of the Surveillance Commissioners and the Intelligence Services Commissioner.

Fingerprints: Suffolk

Mr. Spring: To ask the Secretary of State for the Home Department how many people in Suffolk had had their fingerprints held on file in each of the last five years. [150543]

Mr. McNulty: The number of people in Suffolk that have had their fingerprints held on file in each of the past five years is as follows:

	Number
2002	3,807
2003	4,929
2004	4,456
2005	4,662
2006	5,162

Genetics

Jo Swinson: To ask the Secretary of State for the Home Department how long the process of identifying an individual through analysis of a DNA profile takes. [151750]

Meg Hillier: It is not possible to provide a precise time for how long it takes to identify an individual through a DNA profile since this will vary between cases and depend on the circumstances of the case investigation.

Genetics: Databases

Mark Pritchard: To ask the Secretary of State for the Home Department how many UK nationals recorded on the National DNA Database have been identified as having their DNA found on bomb parts and fragments in *(a)* Iraq and *(b)* Afghanistan. [150719]

Meg Hillier: It is not policy to answer questions of this nature since to do so would constitute a breach of national security.

Identity and Passport Service: Vetting

Mr. Burstow: To ask the Secretary of State for the Home Department what security checks are made of a recruited member of Identity and Passport Service staff responsible for approving passport applications; and if she will make a statement. [151504]

Meg Hillier: All recruits to the IPS have to meet the baseline personnel security standards which include:

Identity;

Employment history;

Nationality/immigration status; and

Unspent criminal record.

Staff dealing with passport applications have to meet counter terrorist check standards and those in the new interview office network, who will be interviewing first time passport applicants, have to be cleared to the higher level of security check and are subject to checks with the Criminal Records Bureau.

Asylum and Immigration Tribunal

Mr. Lidington: To ask the Secretary of State for the Home Department whether she has received notification from the Asylum and Immigration Tribunal of its decision in the case of Ms L.K., wife of Mr. P.H. of Aylesbury (AIT OA/44119/2006; post reference 115884 Harare); and if she will make a statement. [152002]

Mr. Byrne: A copy of the decision was received at the Border and Immigration Agency on 6 July and was forwarded to the overseas post on 13 July.

Immigration: Advisory Services

Philip Davies: To ask the Secretary of State for the Home Department how many immigration advice centres there are; and how much Government funding is provided to them. [149405]

Mr. Byrne: An individual who wishes to obtain immigration advice can do so through a solicitor registered with the Law Society or through an advisor registered with the Office of Immigration Services Commissioner (OISC). The OISC is a non-departmental public body of the Border and Immigration Agency. Organisations regulated by the OISC can be 'for profit' or 'not for

profit.' In 2006-07 there were 673 'for profit' organisations registered with the OISC and 976 'not for profit' registered with the OISC of which 596 were Citizen Advice Bureaus (CABs).

Some of the 'not for profit' sector only provide immigration advice, but others such as CABs offer advice on a range of issues. As such, the actual funding the Government provides for immigration advice through the not for profit sector cannot be isolated.

Immigration: Philippines

Mark Pritchard: To ask the Secretary of State for the Home Department what discussions she has had with the Secretary of State for Health on the number of Philippine nationals working in the *(a)* NHS and *(b)* nursing home care sector who will be required to leave the UK in the last quarter of 2007 and the first quarter of 2008 because of new visa restrictions. [150748]

Mr. Byrne: Regular discussions are held between the Department of Health and the Border and Immigration Agency on labour market and immigration related issues.

Police: Finance

Mr. Soames: To ask the Secretary of State for the Home Department how much funding has been allocated to the police per head of population in *(a)* Sussex and *(b)* the South East of England for 2007-08. [151782]

Mr. McNulty: The information requested is set out in the following table.

The Government do not distribute grant to police authorities purely on the basis of population. The police funding formula uses a range of data relating to demographic and social characteristics to reflect the relative needs of each authority. Grant allocations also take into account the relative tax base of each authority. Grant allocations are stabilised by damping to limit year-on-year variations.

Police authority	*Total grants 2007-08[1] (£ million)*	*Resident population mid-2005[2] (million)*	*Funding per head of population 2007-08 (£)*
Hampshire	233.17	1.81	128.82
Kent	235.37	1.62	145.29
Surrey	114.32	1.08	105.85
Sussex	198.89	1.52	130.85
Thames Valley	270.72	2.14	126.50
Total south-east of England	1,052.47	8.17	128.82
Total England	8,884.81	50.42	176.22

[1] Total grants comprises: Home Office Police Grant, DCLG Revenue Support Grant and National Non-Domestic Rates; Special Formula grant, Specific Grants: Crime Fighting Fund, Neighbourhood Policing Fund, Basic Command Unit Fund, Community Support Officer Funding, Pension Deficit Grant and Dedicated Security Post funding and Capital provision (including the increased capital allocations announced on 24 May and 19 June 2007).

[2] Population data sourced by the Office for National Statistics from the mid-2005 population estimates.

Tom Levitt: To ask the Secretary of State for the Home Department what the timetable is for the full implementation of the agreed police funding formula without floors and ceilings. [152261]

Mr. McNulty: Grant floors are an integral part of the local government finance system. A damping mechanism is applied to police formula grant allocations to protect all police authorities against financial instability and to ensure they all receive an increase in grant at least equal to the 'floor' level on a like-for-like basis year-on-year.

Any movement towards full implementation of the funding formula will depend on the overall amount of grant available for distribution. Decisions on police grant for 2008-09 to 2010-11 will be taken in the autumn.

Police: Road Traffic Control

Susan Kramer: To ask the Secretary of State for the Home Department what percentage of police resources in *(a)* England and Wales and *(b)* each region was allocated to traffic policing in the last period for which figures are available. [151861]

Mr. McNulty: This is an operational matter for chief officers and the police authorities and the information is not held centrally.

Police: Stun Guns

Sir Paul Beresford: To ask the Secretary of State for the Home Department if she will increase the number of police forces in the UK which are trained and equipped to use Taser stun guns; and if she will make a statement. [152025]

Mr. McNulty: Taser has been available to all Authorised Firearms Officers in England and Wales since September 2004 as a less lethal alternative for use in situations where a firearms authority has been granted in accordance with criteria laid down in the Association of Chief Police Officers Manual of Guidance on Police Use of Firearms.

From 20 July 2007 Chief Officers throughout England and Wales have been able to deploy Taser for use by Authorised Firearms Officers in operations or incidents where the criteria for the authorisation to issue firearms does not apply, but where officers are facing violence or threats of violence of such severity that they would need to use force to protect the public, themselves and/or the subject(s) of their action.

In addition, a 12 month trial of the deployment of Taser by specially trained units who are not firearms officers in similarly violent circumstances requiring conflict management will commence on 1 September 2007 in the following 10 forces in England and Wales: Avon and Somerset, Devon and Cornwall, Gwent, Lincolnshire, Merseyside, Metropolitan Police Service, Northamptonshire, Northumbria, North Wales and West Yorkshire.

Pornography: Children

Dan Norris: To ask the Secretary of State for the Home Department what steps the Government are taking to accelerate international co-operation to

ensure the swift closure of websites hosted overseas which contain child abuse images. [149905]

Mr. Coaker: The Government and law enforcement are working hard to build international co-operation and collaboration to improve all aspects of investigations into online child abuse.

This will cover not only investigations into websites hosting images of children being sexually abused; but, also, investigations to find the children who appear in these images and to identify those who are making, downloading, distributing and/or trading in images of children being sexually abused. A recent investigation led by the Child Exploitation and Online Protection (CEOP) Centre led to the rescue of over 30 children from abuse and the identification of over 700 suspects worldwide.

The Government recognise the need to take action to shut down these sites and law enforcement are pro-actively seeking to build relationships in those parts of the world where it appears the majority of sites are hosted. We are also very supportive of CEOP's initiative to embed law enforcement officers from overseas into CEOP to improve co-operation and to facilitate investigations.

Stop and Search: Vehicles

Mr. Clegg: To ask the Secretary of State for the Home Department pursuant to the answer of 9 July 2007 to the hon. Member for Sheffield, Hallam, *Official Report*, column 1344W, on stop and search: vehicles, if she will provide the equivalent figures in relation to searches of *(a)* persons and *(b)* persons and vehicles. [149715]

Jacqui Smith: The available information is given in the following tables from 1998-99 to 2004-05 (latest available).

Table A: Resultant arrests following total searches[1] of persons[2] and searches of persons[2] under section 44(1) and 44(2) of the Terrorism Act 2000[3, 4], by police force area in England, from 1998-99 to 2004-05

[1] Total searches includes searches: under s1 of the Police and Criminal Evidence Act 1984; Misuse of Drugs Act 1971 and the Firearms Act 1968; also included are other legislation which relates to searches under other powers, such as under the Prevention of Terrorism (Temporary Provisions) Act 1989 s15 (which since 19 February 2001 has been replaced by section 43 of the Terrorism Act 2000); various poaching and wildlife conservation legislation; the Aviation Security Act 1982, s27(1); the Customs and Excise Management Act 1979, s163 and 164; and the Sporting Events (control of Alcohol, etc) Act 1985; s60 of the Criminal Justice and Public Order Act 1994; and s44(1) and 44(2) of the Terrorism Act 2000 (formerly s13A and 13B of the Prevention of Terrorism (Temporary Provisions) Act 1989.

[2] Data are included in the table where a vehicle and driver occupier are searched simultaneously as the search is recorded against the driver (occupant). Any other passengers searched are recorded as occupants. Data given in the table also include searches of pedestrians.

[3] S44(1) and S44(2) of the Terrorism Act 2000 (formerly s13A and s13B of the Prevention of Terrorism (Temporary Provisions) Act 1989.

[4] Some forces have recently advised that they have been recording s44(2) searches under s44(1) as they cannot separately identify.

Note:

Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when these data are used.

[2] Searches may be conducted on vehicles only, occupants only or both may be searched. Where a vehicle and driver occupier are searched simultaneously the search is recorded against the driver (occupant). Any other passengers searched are recorded as occupants. Data given in the table include searches of pedestrians.

[3] S44(1) and S44(2) of the Terrorism Act 2000 (formerly s13A and s13B of the Prevention of Terrorism (Temporary Provisions) Act 1989.

[4] Some forces have recently advised that they have been recording s44(2) searches under s44(1) as they cannot separately identify.

Note: Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when these data are used.

Terrorism: Detainees

Mr. Meacher: To ask the Secretary of State for the Home Department pursuant to the answer of 12 July 2007, *Official Report*, column 979W, on Terrorism: detainees, if she will seek the information requested from each police force. [150787]

Mr. McNulty: As part of the consultation on forthcoming counter-terrorism legislation, we are looking, in conjunction with the police, at how the existing maximum period of pre-charge detention has operated in practice and whether there are any lessons to be learnt from that.

FOREIGN AND COMMONWEALTH OFFICE

Asylum and Immigration Tribunal

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs whether HM High Commission Harare has received notification of the judgement of the Asylum and Immigration Tribunal in the case of Ms L.K., wife of Mr P.H. of Aylesbury (post reference 115884; AIT reference OA/44119/2006); and if he will make a statement. [152003]

Dr. Howells: Our embassy in Harare received their copy of the Immigration judge's determination in the case of Mrs. L. K., wife of Mr. P. H. of Aylesbury, on 19 July. Following her allowed appeal, the embassy will contact Mrs. L. K. to request her passport, so that her entry clearance can be issued as soon as possible.

Chile: Human Rights

Malcolm Bruce: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has received on Chile's observance of human rights with regards to the Mapuche population; and if he will make a statement. [150494]

Dr. Howells: Our embassy in Santiago has not received any recent representations on the Mapuche.

However, the Government believe firmly that the individual rights of indigenous people should be recognised and protected. All indigenous people are entitled to full respect of their human rights, both within and without their communities. We continuously monitor all human rights in Chile, as we do in other countries. We also work with other EU members on human rights issues, such as minority rights, and in 2005 we co-drafted a report on the steps Chile had taken to implement the Stavenhagen report recommendations regarding indigenous people.

The Government have funded a number of projects to support and promote the rights of indigenous people. We have financed a Minority Rights Group project to help minority and indigenous groups participate effectively at the UN. We also provide support to the Inter-American Development Bank's Indigenous Strategy and fund programmes in Latin America that target indigenous groups. We will continue to monitor the situation of indigenous people, including the Mapuche, in Chile.

European Court of Justice

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs which institutions of the European Union do not fall within the jurisdiction of the European Court of Justice. [150843]

Mr. Jim Murphy: All the EU institutions, as defined in article 7 of the treaty Establishing the European Community, are subject to the jurisdiction of the European Court of Justice.

India: Embassies

Rob Marris: To ask the Secretary of State for Foreign and Commonwealth Affairs what proportion of Indian citizens employed by his Department in India are Dalits. [149612]

Dr. Howells: The Foreign and Commonwealth Office (FCO) does not hold such records. In line with global FCO policy, all our recruitment and employment practices at our posts in India are competency based, and focused on valuing diversity. Discrimination in any form is unacceptable.

Iran: Foreign Relations

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the outcome of the review of UK relations with Iran announced in April 2007. [147483]

David Miliband: The review of relations with Iran is continuing, but the principles underpinning our policy towards Iran have not changed.

Iran has every right to develop its own economy and society. We welcome dialogue and engagement with Iran as it does so, but it must also accept that it has responsibilities to the region and the wider international community. It cannot violate the terms of the Nuclear Non-Proliferation treaty nor undermine regional stability.

Iran: Nuclear Power

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made in the multilateral enrichment of uranium for the production of nuclear power in Iran; and if he will make a statement. [151636]

Dr. Howells: The generous offer made by the E3+3 in June 2006, and annexed to UN Security Council Resolution (UNSCR) 1747, includes active support for the building of new light water power reactors in Iran and the provision of legally binding multi-layered fuel assurances to Iran. These would be based on: participation as a partner in an international facility in Russia to provide enrichment services; establishment on commercial terms of a buffer stock to hold a reserve of five years' supply of nuclear fuel dedicated to Iran; and development with the International Atomic Energy Agency (IAEA) of a standing multilateral mechanism for reliable access to nuclear fuel, based on ideas currently being considered by the IAEA and Board of Governors.

But before negotiations can begin Iran needs to suspend all enrichment-related and reprocessing activities, as required by three successive UNSCRs.

Iraq: Weapons

Mr. Baron: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the adjournment debate in Westminster Hall of 13 June 2007, *Official Report*, column 288WH, on the Iraq Dossier (September 2002), when he expects to reply to the letter from the hon. Member for Billericay, dated 18 June, on John Williams's draft Iraq dossier. [151824]

Dr. Howells: I replied to the hon. Member on 19 July.

Israel: Arms Trade

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it Government policy to sell arms to Israel to assist that country in fighting terrorism; and if he will make a statement. [150950]

Dr. Howells: The UK recognises that all countries, including Israel, have a legitimate right to purchase conventional arms for their defence and security needs. However, UK policy dictates that all licences are assessed on a case by case basis against the Consolidated EU and National Export Licensing Criteria. This takes into account respect for human rights and the preservation of regional peace, security and stability. If there is a clear risk that the equipment will be used in a manner inconsistent with the Consolidated Criteria, a licence will not be approved.

Isreal: Non-Proliferation Treaty

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to encourage Israel *(a)* to sign the nuclear non-proliferation treaty and *(b)* to allow entry to International Atomic Energy Agency monitoring personnel. [151415]

Dr. Howells: The Government have on a number of occasions called on Israel to accede to the nuclear non-proliferation treaty as a non-nuclear weapon state, and to conclude a full scope safeguards agreement and additional protocol with the International Atomic Energy Agency (IAEA). We continue to take appropriate opportunities to discuss all aspects of non-proliferation with representatives of the Israeli government.
